BLGB 739A. ETHICS IN BUSINESS. (3 Credits)
In this course we look at business from a moral perspective. We examine methods of moral reasoning and argumentation relevant to dealing with contemporary ethical issues in business. In addition, we explore the connection between morality and economic success. Prerequisite: BLGB 6310.
Attribute: ABGS.
Prerequisites: BLGB 6310 or GBA Waiver Business Law I with a score of 070.

BLGB 739B. EMPLOYMENT LAW. (3 Credits)
This course explores developing areas of employment law with an emphasis on federal discrimination law. The course emphasizes not only legal principles, but also policy issues and practical concerns facing employer and employee. The course begins with the study of the distinction between employees and independent contractors, the employment-at-will doctrine, and contract and tort exceptions to the doctrine. The course then discusses privacy in the workplace, defamation, infliction of emotional distress, and covenants not to compete. The relationship between respondent superior and negligent hiring is the next topic, followed by arbitration of workplace disputes. The course then begins an in-depth examination of employment discrimination under Title VII, the ADEA, and the Americans with Disabilities Act and the ADAAA. Disparate treatment and disparate impact theory are stressed. Sexual harassment and affirmative action are also covered as part of this unit. The course strives, not only to acquaint the student with cutting-edge issues in employment law, but also to sharpen analytic and problem-solving skills. Students will analyze case studies and are encouraged to volunteer for role-playing exercises. Prerequisite: BLGB 6310.
Attribute: ABEP.
Prerequisites: BLGB 6310 or GBA Waiver Business Law I with a score of 070.

BLGB 739C. INTERNATIONAL BUSINESS ETHICS. (3 Credits)
In this course we analyze global business activities from a moral perspective. Also, we will examine debates about what it means for a multinational firm to compete successfully in the world marketplace with moral integrity, and what obligations it has to respect transnational laws, codes of conduct and ethical guidelines. Prerequisite: BLGB 6310.
Attributes: ABGS, ABIB.
Prerequisites: BLGB 6310 or GBA Waiver Business Law I with a score of 070.

BLGB 739D. WHITE COLLAR CRIME. (3 Credits)
This course will focus on contemporary issues involving the emerging field of white-collar crime, with special attention to crimes committed within corporations and other large organizations, both nationally and internationally. The initial focus will be on the substantive law and the primary federal statutes: conspiracy, mail and wire fraud, the Hobbs Act, the federal securities laws, RICO, money laundering statutes, the False Statements Act, and the Foreign Corrupt Practices Act. A second focus will be on corporate criminal responsibility, including the rationale thereof and the problems of optimal corporate sanctions; and individual criminal responsibility involving various legal and ethical concepts. Significant attention will also be given to insider trading, women and white-collar crime, and organized crime infiltration of legitimate business organizations. A final analysis will be on the causes, extent and future of white-collar crime in today's workplace from both a legal and ethical perspective. Prerequisite: BLGB 6310.

BLGB 739L. WHAT YOU NEED TO KNOW TO DO BUSINESS IN TURKEY - AN EMERGING MARKET. (3 Credits)  
As every issue of your newspapers illustrate, politics is a major force shaping markets and business. Your studies have focused rightly on the many dimensions of corporate management, with some excursions made into the context of business. This course aims to strengthen your ability to assess and handle the political and market context of business, taking Turkey as an example. The methods used here can be applied anywhere around the world, but will be applied in this course to the specifics of Turkey. STUDY ABROAD DATES: April 21-26 If you are interested in taking this course, please contact Associate Dean Francis Petit at petit@fordham.edu.

BLGB 6310. BUSINESS LAW I. (3 Credits)  
MBA CORE COURSE Introduces the fundamental concepts and legal principles that are applicable to the American legal system, its development and inherent ethical considerations. Discusses the basis and structure of business contracts; the creation and characteristics of agencies, partnerships, limited liability companies and corporations; and the rights and liabilities of agents, partners, directors and shareholders. Students analyze cases and discuss and solve problems.

BLGB 6321. MARKETS, BUSINESS & SOCIETY. (3 Credits)  
MBA CORE COURSE Markets, Business, and Society is about the responsibilities of businesspeople. It is based on the assumption that business, like law and medicine, is a profession whose practitioners carry out an important role in society. When individuals enter the profession, they take on a distinctive set of responsibilities that go with the role. The purpose of the course is to provide a realistic understanding of these responsibilities and a set of practical tools to help students carry them out. This is the only course at the MBA program focusing on the question: what is the right thing to do in business? Other courses explore the causes and consequences of wrongdoing and the institutions that regulate conduct in business. This course will also consider these empirical topics but only as background. Instead, the focus of Markets, Business, and Society is normative reasoning about gray area problems in business, which involve conflicts of values, clashing responsibilities, ambiguous standards, factual uncertainties, aggressive stakeholders, and intense time pressures, among others. The course will help students develop their decision-making principles and devise implementation plans that meet relevant economic, legal, and ethical responsibilities and fulfill the organization’s values and commitments. Deciding on a course of action will require careful analysis, thoughtful deliberation, and, in some instances, difficult trade-offs. By working through the choices and dilemmas presented in the course, students will hone their skills in decision making and action planning while also building their own decision-making frameworks.
