

# PROFESSIONAL M.B.A.

---

The Gabelli School's Professional M.B.A. is designed for people who plan on keeping their jobs while they go through school. This program provides you with a next-level credential that will capitalize on your work experience—not duplicate it. It can be finished in as little as two years, six trimesters. Classes meet after work or on weekends, and the Gabelli School's class schedule allows you to make the most of your time at our Columbus Circle campus by taking two courses in the same evening.

## Program Overview

The Professional M.B.A. program is ideal for individuals with three to seven years of work experience who seek a well-rounded, upper-level business education while maintaining a full-time job. Please note: this program is limited strictly to a part-time plan of study.

The new curriculum includes a slate of core courses to build a strong foundation across all business disciplines and electives that offer a choice of courses targeted to your interests.

Professional M.B.A. students can choose among seven primary concentrations as a focus for their studies, and can specialize the degree further with a secondary concentration.
