MANAGEMENT (M.S., ON CAMPUS AND ONLINE)

The M.S. in Management program is ideal for recent graduates and early level professionals who believe that business can be part of the solution to many of today's problems and are looking to enter or move up in a business management career to help make a positive impact on the world. The M.S. in management can be completed in one year as a full-time program offered on campus, or it can be completed online in one year or longer.

Students are exposed to a strong foundation in business fundamentals (including finance, statistics, marketing, and accounting). This foundation, in combination with unparalleled access to insightful industry leaders through guest speaker events and corporate site visits from companies that are on the cutting edge, provides students with the practical training and industry connections needed to face global challenges and be successful in their future careers.

Corporate Visits
On-campus program students may attend corporate visits as an overlay to classroom work.

Recent visits include:

- American Sustainable Business Council
- Organisation for Economic Co-operation and Development (OECD)
- Patagonia
- Tesla
- Unilever

Guest Speakers
We also regularly welcome guest speakers into the classroom for both the on-campus and online programs. Some recent speakers:

- Hunter Lovins, author and advocate for sustainable development
- Vincent Stanley, author and director of philosophy for Patagonia
- Patrick Struebi, social entrepreneur
- Andrew Winston, consultant, author, and TED speaker
