ORIENTATION

All students matriculating at the school are required to attend a mandatory orientation, Gabelli Launch, that carefully reviews regulations and procedures. Gabelli Launch takes place in early August for students starting in the fall or who started that summer, and in early January for spring students. There is also an online Gabelli Launch Blackboard course incoming students should consult early and often for detailed updates about the in-person component as well as preparatory materials. Students enrolled in online degree programs will participate in a fully online, required orientation.
