

HEALTH CARE ETHICS (ADV CERT)

The Advanced Certificate program's curriculum consists of four courses: three discipline-based courses and one capstone course. At least one of the discipline-based courses must be from a humanities discipline, and at least one must be from a social sciences discipline; the third discipline-based course may be from either a humanities or a social sciences discipline.

The fourth required course is an interdisciplinary and team-taught capstone course which results in a final mentored paper on a topic related to the student's interest. The capstone course is taught in conjunction the Center for Ethics Education Annual Symposium and Spring Lecture Series. Some previous capstone paper topics include:

- "Somatic Cell Nuclear Transfer (SCNT): A Scientific, Philosophical, Theological, and Practical Approach"
- "Customizing Conception: The Ethics of Pre-implantation Genetic Diagnosis"
- "Is That Allowed?: Stem Cells and Double Effect Reasoning"
- "Social Justice in the Provision of Health Care to the Uninsured"
- "Evaluating the Claim of a Right to Health Care in the American Political Tradition"
- "Ethical Implications Related to Hope and the Therapeutic Misconception in Clinical Trials"

The Center also hosts national and international leading scholars in the area of Health Care Ethics who deliver university-wide lectures and meet with faculty and students in the Center's academic programs.

The program is administered under the auspices of the Center for Ethics Education, and may be completed within a year or at your own pace. The Center was created in 1999 to promote high-quality teaching, research, and service through the intellectual appreciation of moral values and critical thinking regarding ethical practices.

Requirements

Course	Title	Credits
CEED 6100	Theories and Applications in Contemporary Ethics	3
One Humanities course (with the HECH attribute)		3
One Social Science course (with the HECS attribute)		3
One additional HECS or HECH course		3

Healthcare Ethics Humanities courses

Courses in this group have the HECH attribute.

Course	Title	Credits
