MIDDLE CHILDHOOD PHYSICS
7-9 (ADV CERT)

12 credits
NYSED 25440/25450

The middle childhood extension program builds on previous coursework in childhood education and leads to certification in teaching physics for grades 7–9. The program is open to persons who are completing the M.S.T. in childhood education or who already possess initial/professional certification in childhood education or provisional/permanent certification in elementary education (Pre-K–6).
