

ADOLESCENCE CHEMISTRY (M.S.T.)

30 credits

NYSED 25526/25533

Admissions to this program are currently on hold for the 2024-2025 application cycle. Program faculty are in the process of redesigning this program; the present Bulletin content refers to the version of the program that is on hold. This content will be updated when the program's redesign is complete.

This clinically-rich master's degree program in adolescence chemistry prepares candidates to teach chemistry as a content-area subject in grades 7 through 12. Graduates of the program qualify and are endorsed for New York state teaching certification in Chemistry 7–12.

CIP Code

13.1323 - Chemistry Teacher Education.

You can use the CIP code to learn more about career paths associated with this field of study and, for international students, possible post-graduation visa extensions. Learn more about CIP codes and other information resources.
