

EARLY CHILDHOOD AND CHILDHOOD EDUCATION (M.S.T., ON CAMPUS AND ONLINE)

45 credits

NYSED 25435/25445

The master's degree program in early childhood and childhood education is an integrated dual-certificate program and leads to endorsement for New York state teacher certification as a childhood education teacher (grades 1-6) and an early childhood teacher (birth-grade 2). The program includes specialized knowledge and instructional practices effective in the early years of childhood, and those appropriate and effective for children in grades 1 through 6.

The program of study is carefully coordinated and sequenced, progressing from foundations and teaching methods through the development of a professional portfolio or a student work sample. Field experiences linked to courses provide guided development throughout the program and culminate in full time student teaching. Clinical experience is provided in both early childhood and childhood settings.

CIP Code

13.1210 - Early Childhood Education and Teaching.

You can use the CIP code to learn more about career paths associated with this field of study and, for international students, possible post-graduation visa extensions. Learn more about CIP codes and other information resources.

Admissions

Applicants to all childhood programs must meet the general requirements for admission to the Graduate School of Education and the requirements for admission to initial teacher education programs.

In addition, applicants for any of the childhood programs must have the following:

- An undergraduate degree from an accredited university in one of the liberal arts or sciences. For example, English, American, or comparative literature; mathematics; an area of science; modern languages; media studies; women's studies; political science; computer science; information science; communications; history; sociology; anthropology; economics; the arts; or psychology.
- College-level study in the following general education core areas: artistic expression, concepts in history and social sciences, a language other than English, scientific processes, mathematical processes, written analysis and expression, and communication

In addition, candidates for the bilingual extension must provide evidence of their competence in a language other than English by fulfilling one of the following three options:

1. Taking and obtaining a passing score on the ACTFL Language Test (oral and written) in the target language;

2. Documentation in transcripts of having completed undergraduate studies in the target language; or
3. Agreeing to complete successfully two courses in the target language
