

# GENERAL PROGRAM REQUIREMENTS

---

The program of study in effect at the time of admission constitutes the minimum course requirements. Additional courses or other work and activities may be required based on the student's prior academic or professional background, on achievement in the program, or on professional or academic goals. Changes in state certification regulations may also affect a student's program. All coursework is taken under the guidance and approval of an adviser within the student's division. Changes to programs of study may require the approval of the division chairperson and the associate dean for academic affairs.

In addition to program-specific requirements for courses and activities, degree- and/or program-specific criteria must be met before degrees are awarded.
