

# REAL ESTATE MANAGEMENT (ADV CERT)

---

## Overview

The Advanced Certificate in Real Estate Management provides the practical, real-world knowledge and professional skills needed to plan, manage, and optimize commercial real estate properties and corporate workspace for real estate owners, businesses, and third-party management firms. This graduate-level certificate focuses on management proposals and plans, market analysis, leases, operating and capital budgets, financial management, building systems and operations, health and safety issues, insurance considerations, local laws and codes, and tenant and capital improvement projects. This advanced certificate is a 12-credit program, with students completing a 9-credit core curriculum and then 3 credits of elective coursework.
