One upper-level accounting course <sup>1</sup>		
One upper-level finance course <sup>2</sup>		
<i>Select one of the following options:</i>		
Seven upper-level business electives <sup>3</sup>		
Sustainability Reporting concentration and five upper-level business electives <sup>3,4</sup>		

<sup>1</sup> Any course from the subject code ACBU numbered 3000 or higher may fulfill this requirement.

<sup>2</sup> Any course from the subject code FNBU numbered 3440 or higher may fulfill this requirement.

<sup>3</sup> Upper level business electives are any 3000-4999 numbered courses within a Gabelli School area.

<sup>4</sup> See the Concentrations tab (p. 1) for details.

Students must also complete the Gabelli School business and liberal arts Core Curricula. In addition, all students complete between three and seven liberal arts electives depending on their major requirements.

## Concentrations

### Concentration in Sustainable Reporting

A new, standardized language is needed to articulate material non-financial risks as well as opportunities facing companies today. Both financial and non-financial risks affect a corporation's ability to create long-term value. Thus, reporting should include the way companies compete, use resources, and impact society.

The concentration in sustainable reporting enables students to further develop analytic tools and effective communication capabilities pertaining to this expanding field of study. Earning this unique concentration can better position you for careers not only in accounting but also in financial service-related fields that focus on non-financial considerations.

This concentration is only available to Gabelli School of Business students at Rose Hill pursuing a major in public accounting or public accountancy (p. 1).

Students can complete this concentration as part of their major in public accounting or public accountancy (p. 1) without any additional courses.
