Electives

Select four electives as outlined below, or complete the Sustainability Reporting concentration: 1

Two upper-level accounting electives 2

Two upper-level business electives 3

1. See the Concentrations tab (p. 1) for details.
2. Any two courses from subject code ACBU numbered 3000 or higher may fulfill this requirement.
3. Upper level business electives are any 3000-4999 numbered courses within a Gabelli School area.

Students must also complete the Gabelli School business and liberal arts Core Curricula. In addition, all students complete between three and seven liberal arts electives depending on their major requirements.

Concentrations

Concentration in Sustainable Reporting

A new, standardized language is needed to articulate material non-financial risks as well as opportunities facing companies today. Both financial and non-financial risks affect a corporation's ability to create long-term value. Thus, reporting should include the way companies compete, use resources, and impact society.

The concentration in sustainable reporting enables students to further develop analytic tools and effective communication capabilities pertaining to this expanding field of study. Earning this unique concentration can better position you for careers not only in accounting but also in financial service-related fields that focus on non-financial considerations.

This concentration is only available to Gabelli School of Business students at Rose Hill pursuing a major in public accounting (p. 1) or public accountancy.

Students can complete this concentration as part of their major in public accounting (p. 1) or public accountancy without any additional courses.

Requirements for Public Accounting Majors

Course          | Title                                      | Credits |
----------------|--------------------------------------------|---------|
Two of the following courses:                             |         |
ACBU 4444       | Sustainability Reporting and Disclosures   |         |
ACBU 4646       | Ethics in Financial Reporting and Accounting |         |
ACGB 719N       | Business Risks In A Global Digital Economy |         |

Two upper-level business electives:

LPBU 3430       | ST: Sustainable Business (required for the concentration) |         |
