The course will explore various aspects of North American Environmental History. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AHC, AMST, ENST, ENV5, URST.

HIST 3991. THE AMERICAN INDIAN. (4 Credits)
Not long ago, 15 million people lived in what is now the continental US, organized into roughly 500 broad groups, speaking thousands of languages, and living in hundreds of thousands of villages. They cultivated plants that became among the most important in the world by the 20th century, especially maize: now the most widely cultivated grain on earth. They confounded the medieval conception of the Creation and course of history, forcing Europeans to reexamine everything they thought they knew. And they helped to shape the US, by maintaining powerful military and political confederacies in the interior. They did not merely serve as guides; they did not walk in moccasins through time, leaving not a mark on the landscape; they did not go quietly to their reservations. This course examines American Indians from their own points of view, from those of Whites, and from the ways that Indians changed American culture and environment.
It is broadly chronological but mostly topical, covering the period from 13,000 years ago to after World War II through a series of issues and events. The course assumes no previous knowledge of American Indians and is offered as part of Fordham's Eloquentia Perfecta initiative. Accordingly, students will learn to write and speak.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AMST.
HIST 3992. CAPITALISM. (4 Credits)
Political economy is the social science that treats the sources and methods of production for subsistence and wealth. It is the study of how political systems conceive of and organize economic life and of the ideas people hold as they set out to derive wealth from nature. Its founding authors are still read today, so convincingly did they establish the questions and the borders of the discipline. Yet these authors had a troubled relationship with the environments where commodities originate. They tended to deny that ecology and economy could possibly come into conflict. Instead, they proposed mechanistic models in which the market resolved all contradictions. This seminar considers the various ways that capitalist societies have appointed resources and conceived of nature, progress, and wealth. IT IS A TOPICAL HISTORICAL SURVEY INTENDED TO TEACH THE ORIGINS, QUALITIES, AND HISTORICAL MANIFESTATIONS OF THIS POWERFUL SOCIAL SYSTEM. The course assumes no knowledge of economics and only a basic knowledge of American and European history. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ENST, INST, IPE.

HIST 3993. ENVIRONMENTAL HISTORY: NEW YORK CITY. (4 Credits)
Explores the ecological implications of New York City’s commercial expansion and global influence. Subjects will include physical infrastructure, parks, urban redevelopment, and trade. Students will choose part of the city to examine its environmental history. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ENST.

HIST 3994. HISTORY OF CLIMATE CHANGE. (4 Credits)
This is a course about climate change, understood geologically, anthropologically, and historically. It considers three broad kinds of climate change. First, we will consider the causes of ice ages, including the last glacial maximum. Second, we will look at the sudden cooling in global temperatures that took place between 1350 and 1850 known as the Little Ice Age. And third we will study how the end of the last event coincided with a period of warming that has not ended. We will cover the causes and discovery of carbon-induced global warming. The course combines science, history, politics, and popular culture. Students will evaluate arguments and weigh evidence in order to become historians of these complicated events. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AHC, ENST.

HIST 3998. PEOPLE AND OTHER ANIMALS IN HISTORY. (4 Credits)
This upper level seminar explores the history of humans’ relationships with animals, especially in scientific or medical settings. Animals, while pre-eminently natural objects, are always understood in cultural contexts and cultures mark the boundaries between humans and non-human animals very differently. This course examines the number of ways that relationships between humans and non-human animals have been imagined and conducted over the past centuries. Contexts explored include hunting, domestication of livestock, commodity-exchange, specimen collecting, zoos, museums, pet-keeping, scientific laboratories, and children’s fiction. Themes include shifting ideas about animal intelligence and agency, humans’ moral and ethical obligations to animals, and limits on humans’ use of animals. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, ENST.

HIST 3999. TUTORIAL. (3-4 Credits)
Independent research and readings with supervision from a faculty member.

HIST 4000. HISTORY, PHILOSOPHY, AND LAW: PROBLEMS IN INTERPRETATION. (4 Credits)
This seminar explores constitutional interpretation from the different perspectives of history, philosophy, and law. The course will survey a variety of different scholarly approaches and examine a range of landmark Supreme Court decisions. The class will examine the different modalities of constitutional interpretation used by judges: text, history, structure, prudential arguments, and philosophical/ethical arguments. The readings will be drawn from leading historians, philosophers, legal theorists. The course will probe a variety of interpretive problems and issues at the intersection of these three disciplines. Should we treat the Constitution’s text as fixed or should we embrace the idea of a living Constitution? How do historians deal with the issue of Constitutional meaning? How have philosophers grappled with the same issues? How should we interpret the Constitution? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP3, ICC.

HIST 4004. AMERICAN ECONOMIC HISTORY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ECON, ICC.

HIST 4005. AMERICAN PHOTOGRAPHY: HISTORY AND ART. (4 Credits)
An interdisciplinary study of the history, art, and practice of photography. This course explores the place of photography in American history and culture. Students will study the renowned photographers and important types of photography, such as documentary and landscape. We will also practice photography - making pinhole cameras and learning the technical elements of picture taking. The class will include field trips and meeting with photographers and curators. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ICC.
HIST 4007. MEDIEVAL AUTOBIOGRAPHIES. (4 Credits)
Although writing about oneself is often considered classical or modern, and autobiography was not classified as a genre until the eighteenth century, a handful of medieval clerics, monks, mystics, nobles and merchants wrote about their own lives. These autobiographical accounts, and the conventions and societies that shaped them are the topic of the course. By asking both the questions of genre, narrative voice, subjectivity and authorship usually posed by literary analysis, and the historical questions of what such sources about past authors, audiences and the societies that read and copied the lives, the goal is to understand autobiography and the sources themselves from an interdisciplinary perspective. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ICC, MVST.

HIST 4008. RACE AND GENDER IN THE OLD WEST. (4 Credits)
This course uses fiction and history in an interdisciplinary approach to explore the nineteenth-century American West. It incorporates race and gender as categories of analysis to examine how concepts of racial ideology and gender roles affect social, cultural, and economic spheres. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ICC, PJST, WGSS.

HIST 4009. FILM, FICTION, AND POWER IN THE AMERICAN CENTURY. (4 Credits)
Visual and written representations of American power have influenced, challenged and even transformed U.S. relations in the world. With their capacity to reach millions, films and fiction do more than tell stories or entertain audiences. They also have the unparalleled means to shape values and beliefs, and to convey attitudes toward the nature and practice of American power. What sort of themes of international power did authors, screen-writers, and directors address in the twentieth century? What do these reflections on power reveal about American society, its politics, and its place in the world? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ICC.

HIST 4104. LIQUID HISTORY: BEVERAGES AND DRINK IN SOCIETY. (4 Credits)
Eating and drinking are not only basic human needs, they can also be immensely pleasurable activities and over the centuries they have been central to how we define ourselves and interact with each other. During this interdisciplinary capstone seminar, we will use both historical and literary analysis to explore the very rich history, social practices and cultural meanings of food and drink in the modern world, between the 15th-century Renaissance and the present day. During our class discussions, we will study the evolution of specific foods and beverages, and we will examine how they have been consumed, not only in the home but also in public places, from the traditional banquets and taverns to the newer cafes and restaurants. Our sources will cover the full spectrum of texts and genres that literary scholars and historians use in their work. We will apply concepts, theories and techniques developed in both history and literary studies to contextualize and interpret texts, documents and images. By combining a variety of angles and disciplinary perspectives (including anthropology, sociology and art history, as well), students will get a fuller understanding of the place food and drink have occupied in our societies and how it has changed over time. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ICC.

HIST 4105. THE EARLY MODERN WORLD: ART AND SCIENCE. (4 Credits)
European exploration and interaction in the 16th and 17th centuries expanded the horizons not only of the Europeans but of the entire world. It was also the beginning of a truly global system of exchange involving peoples, products, money, and microbes that in turned transformed European art, philosophy, religion, and science. This interdisciplinary capstone will analyze the dizzying world of early modernity through consideration of the way its scientists, artists and religious thinkers understood their society and treated the materials of their disciplines. We will trace first the economic and human consequences of this newly global system, for Europeans and non-Europeans alike, and we will then explore questions proper to each discipline at the time, the changes they underwent, as the ways that new interactions and discoveries shocked and exploded ancient traditions and authority, and how the approaches of the period compare to contemporary methods in each area. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4110. NARRATING THE GREAT WAR. (4 Credits)
The First World War was the "seminal disaster of the twentieth century." It also played a crucial role in the transformation of western culture and continues to play a large role as a symbol of abused idealism and a certain understanding of war. This course draws on history memoirs and film to explore the significance of the First World War. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: HC, ICC.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1010.

Updated: 10-11-2017
HIST 4120. IMAGINING EMPIRE. (4 Credits)
This course focuses on how the modern British Empire has been represented in literature, film and historical writing. We will confine our examination to western views or empire, both critical and enthusiastic. Many of our observers get the history of empire wrong, but they nevertheless engage in British attitudes to global domination, racial and cultural assumptions of superiority, law and authority, and the use of force. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST.

HIST 4137. HYSTERIA, SEXUALITY, AND THE UNCONSCIOUS. (4 Credits)
This interdisciplinary seminar is sponsored by the Department of English and the Department of History. The seminar explores issues raised by hysteria, sexuality and the unconscious in turn of the twentieth-century western culture-topics that cross disciplinary boundaries. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: BIDE, COLI, ENGL, EP3, ICC.

HIST 4152. THE ITALIAN RENAISSANCE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP3, ICC.

HIST 4295. CONFUCIANISM IN THREE KEYS: THE HISTORY, PHILOSOPHY, AND POLITICS OF CONFUCIANISM. (4 Credits)
Confucianism has taken many forms over the millennia, but its core ideas of self-cultivation, the proper ordering of society, the role of the individual in the social order, and the relationship between humanity and the cosmos have not only shaped the underlying fabric of Chinese civilization, they have deeply influences several neighboring East Asian societies as well. Now, after decades in disfavor, Confucianism is once again entering dialogues in modern global culture, but this time with lingering anxiety about what Confucianism actually is. With this in mind, this course will examine Confucianism from three main perspectives, the historical, the philosophical, and the political. It will also make broad use of interdisciplinary (and comparative) approaches from literature, religious studies, anthropology, and art history, so that Confucianism will not speak with a single voice, and our understanding will reflect the complexity of this evolving tradition. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ICC.

HIST 4308. ANTISEMITISM. (4 Credits)
The history of anti-Jewish hostilities and their various manifestations from antiquity to the present. An examination of the theological, social, political, economic, and mythical elements of the hatred. Close readings of antisemitic texts to acquaint students with the full repertoire of antisemitic tropes: Jews as agents of cosmic evil and murderers of God, children of the Devil and followers of the Antichrist, money manipulators and usurers of other peoples' possessions, political connivers and conspirators, sexual predators, social corrupters. A study of the encoding and transmission of these ideas and an exploration of their continued contemporary appeal. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, INST, JWST, MEST, PJST, VAL.

HIST 4347. LATINOS: FACT AND FICTION. (4 Credits)
This course uses an interdisciplinary approach to examine the experiences of Latin Americans and Latinos. It employs literature and history to introduce students to the benefits of using multiple ways of acquiring knowledge. It then relies on other academic areas such as art and sociology to reinforce its interdisciplinary. As a capstone course, it allows students to incorporate disciplines from their own academic foundation. It covers topics such as politics, social justice, race, gender, and identity.
Attributes: ICC, LALS.

HIST 4510. CONQUEST, CONVERSION, CONSCIENCE. (4 Credits)
The Spanish conquest of the New World and the forced conversion of its indigenous peoples were justified as rescuing indigenous peoples from the tyranny of their own sinfulness of cannibalism and bestiality. However, those same policies of conquest and conversion were also subject to intense scrutiny on moral and ethical grounds by Spaniards. In this course we will closely examine a series of case studies and the philosophical and ethical debates they gave rise to. To understand the echoes of such debates and moral claims in the contemporary world we will look at recent debates over the doctrine of just war and cultural/religious practices of indigenous people today. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, GLBL, VAL.

HIST 4516. SEMINAR: SLUMS, GHETTOS, CAMPS. (4 Credits)
This course will survey the history and meaning of informal cities and urban settlements from the 19th century to the present day. Using primary and secondary source readings as well as photography and film, students will examine the vocabulary and visual imagery of slum areas, slum dwellers and their social lives, and the role in of slums in socio-political narratives. The course takes a global perspective on informal cities and will use examples from Europe, the Americas, Asia and Africa; considers their relationship to economic and political migration, the displaced, and the causes of poverty. Analyzes the role of the informal built environment 19th C. to the present. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4542. SEMINAR: ITALY THROUGH FOREIGN EYES. (4 Credits)
Research in Italian culture and politics as perceived through foreign observers. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: INST, ITAL.
HIST 4610. SEMINAR: JEWISH SOCIETY AND CULTURE IN EASTERN EUROPE. (4 Credits)
Our understanding of the life of east European Jews has been dominated by the Hollywood and Broadway blockbuster "Fiddler on the Roof." The "shtetl," a small insular town where Jews were said to have lived, has been the paradigm of east European Jewish experiences. But the powerful imagery of the "shtetl" is largely a creation of 19th-century writers. This is a course that will take us beyond the popular stereotypes, and will look at the history the Jews in eastern Europe from the initial settlement of the Jews there until the eve of modernity. We will examine how - beyond popular culture - historians and writers have shaped our understanding of Jewish history in that region, and how the persisting imagery of eastern European Jews was created. Why were certain stories told? What can different historical sources show us about Jewish life in Eastern Europe? We will discuss how Jewish history in eastern Europe was studied by historians, and couple the narratives created by scholars with historical sources: privilege charters, crime records, rabbinic responsa, anti-Jewish literature, and others. We will try to probe the relation between history, historical sources, and historical writings. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AHC, JWST.

HIST 4631. SEMINAR: US IN THE MID EAST:1945 -PRES. (4 Credits)
The seminar will examine how the United States replaced Great Britain as the preeminent power in the Middle East in the post-World War II era. We will study the conduct of the cold war in the Middle East, analyze American involvement in the Israeli-Arab conflict, examine the tensions arising from American dependence on foreign oil, and consider the conflict between American culture and the rise of Moslem fundamentalism. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: INST, JWST, MEST.

HIST 4650. SEMINAR: HISTORY AND FICTION. (4 Credits)
An examination of American history through America’s leading novelsitz from Hawthorne on Puritanism to Faulkner on the American South, and including such authors as Melville, Cooper, James, Wharton, Dreiser, Steinbeck and Wright. Focus will be on the problems inherent in presenting an accurate depiction of history through literary form. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4652. SEMINAR: AMERICA AT WAR. (4 Credits)
An exploration of the interaction of war and society from the colonial era through Vietnam, presented in a seminar format. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AMST.

HIST 4654. MEDIEVAL LONDON. (4 Credits)
This course draws on material and documentary sources to explore the townscape of medieval London-its wards, streets, and buildings- and the social life of its people, including their daily routines, work, and rituals. We will examine such documentary sources as chronicles, charters, and wills, along with material evidence from human skeletons, excavation houses and churches, coins, pottery and clothing. This also contains a digital humanities component; students will be responsible for an online project to create illustrated reports and medieval objects and sites in London. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ICC, MVST.

HIST 4657. SEMINAR: NEW YORK CITY HISTORY. (4 Credits)
Advanced readings and research in the history of New York City, 1621-2016. Topics for common reading and discussion might include the politics and culture of the city, the rise of the urban infrastructure and distinct neighborhoods, the city’s changing population, etc. Students will produce and present a research paper on a topic of their own choosing. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AHC.

HIST 4658. SEMINAR: HOME SWEET HOME: THE MATERIAL CULTURE OF EARLY AMERICA. (4 Credits)
"Home Sweet Home" examines the material culture of early America through objects at the New York Historical Society. This unique and extraordinary collection of artifacts allows us to recreate daily life in the seventeenth and eighteenth centuries room by room, spoon by spoon, fabric by fabric, chair by chair, and potty by potty. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4701. SEMINAR: 12TH CENTURY RENAISSANCE. (4 Credits)
This seminar course will consider the validity of the concept of a 12th-century Renaissance. Particular emphasis will be placed on developments in political theory and institutions, art and architecture, learning and the rise of the universities, vernacular literature, and the writing of history Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: MVST.

HIST 4710. SEMINAR: EARLY MODERN BRITISH EMPIRE. (4 Credits)
This seminar considers the rise and fall of Britain’s “first empire” and the transition to its second, roughly covering the period from 1485 to 1830. Special attention will be paid to the political, economic, and cultural impact of empire on Britain itself as well as effects of and resistance to British dominion in India, Ireland, and America. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AHC, IRST.
HIST 4715. OIL AND POWER IN THE AMERICAN CENTURY. (4 Credits)
This Senior Seminar will examine the historical evolution of the crucial link between oil, diplomacy, and national security in the twentieth century. Students will discuss the role of oil consumption in modern life, the guiding principles of the foreign oil policies of the United States in Latin America and the Middle East, and the social, political, and economic structures related to the production and consumption of oil. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AMST.

HIST 4725. SEMINAR: GLOBAL HISTORIES AND STORIES. (4 Credits)
How do we know about the lives of people who left no records of their own? Can a work of fiction or a person’s memory be a source of history? How do history, travel, and narrative connect the lives of an 11th century merchant and a modern-day traveler? These are some of the questions this senior seminar will explore through examples from around the world, from the streets of Cairo to the trans-Atlantic slave trade, biographies, film, novels, oral histories from perpetrators and survivors of state terror, and students’ own family histories, among others. Every week we will explore different world regions and methodologies, and students will simultaneously create original projects over the course of the semester. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4726. SEMINAR: QUESTIONS OF GLOBAL CAPITALISM. (4 Credits)
Since its foundations, the modern ideas and institutions that we call “capitalism” have posed a range of ethical and political questions: What is the meaning of freedom? What is the point of work? How should humans think about and value non-human nature? Is perpetual social and economic inequality a problem? In this seminar, we explore these questions through the writings of political theorists and the stories of people from various world regions, from Asia to the Americas, since the eighteenth century. Possible topics include slavery, contract labor, consumerism, debt, climate change, the meat industry, and the growth of government.
Attribute: AHC.

HIST 4742. SEMINAR: ITALY THROUGH FOREIGN EYES. (4 Credits)
Research in Italian culture and politics as perceived through foreign observers. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4748. SEMINAR: THE WORLDS OF THE ENLIGHTENMENT. (4 Credits)
This senior seminar focuses on the developments that transformed Europe during the Age of Enlightenment in the eighteenth century and ushered in the modern era. We will approach the period from a variety of angles to uncover how transformations in the realm of ideas, culture, politics, society, commerce, and communications shaped new worlds, not only in Europe but also globally. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4758. SEMINAR: EUROPE: PROSPERITY TO CRISIS. (4 Credits)
This seminar concerns the important themes in European history since 1945: the social-democratic consensus and the glorious thirty years of economic growth; the cold war; the loss of empire and the emergence of multiculturalism; the social and cultural revolution of the 1960’s; the communist empire, its collapse and the aftermath. We will also focus on the historical roots of the multiple crisis which faces contemporary Europe, involving the challenge of massive emergency immigration, the development of radical-right parties, the appearance of anti-democratic governments in some post-communist states, economic stagnation, and the instability of the Euro. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: INST.

HIST 4760. SEMINAR: IMMIGRATION TO THE U.S.. (4 Credits)
This course examines important development in American immigration. It focuses on major migratory waves and on the reception immigrants have received. Coverage includes Chinese, Irish, Italian, Jewish and Mexican immigrants, among other possibilities. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AHC, LALS.

HIST 4766. SEMINAR: RENAISSANCE COSMOS. (4 Credits)
Renaissance Europeans had a sophisticated though pre-modern understanding of the world and universe around them, from the canyons to the stars. This semester examines the cosmos as seen from the perspective of Renaissance peoples, moving from the heavens to the depths of inner earth and exploring the creatures that dwelt there, from angels to demons, as well as the connections that bound them and the universe together. A central topic will be the decay of this cosmos and its replacement by a universe more familiar to modern peoples. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4767. SEMINAR: TORTURE AND THE WESTERN EXPERIENCE. (4 Credits)
Torture and physical coercion have been elements of European judicial and disciplinary systems since the time of ancient Greece. This research and writing seminar will trace the history of torture in western societies until the present, the controversies surrounding its use, its significance for western understanding of the self and the body, and its implications for modern European and American culture and life. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4800. INTERNSHIP. (4 Credits)
An exploration of the people and communities that have made up New York City in the 19th and 20th centuries. Will include communities based on ethnicity, race, neighborhood, religion, gender, sexual orientation, class and recreational interest. Students will carry out and report on individual research projects. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
HIST 4820. SEMINAR: AFRICAN ICONS. (4 Credits)
This seminar introduces students to a broad range of iconic figures in Africa's recent history, while at the same time providing students with the kinds of investigative and analytical skills associated with the practice of sound historical research and writing. We will encounter well-known historical figures, like Nelson and Winnie Mandela, while others, such as Yaa Asantewaa and Thomas Sankara, may be unfamiliar, or notorious like Idi Amin and Mobutu Sese Seko. Seminar participants will read and critically engage a vast array of sources, including speeches, government documents, autobiographical pieces and press reports, in addition to scholarly studies. As a result of the often times overtly politicized, conflicting and contested nature of these sources students will be called upon to develop their capacities for independent and critical thought, which will in turn prepare them to write effectively and persuasively. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, IPE.

HIST 4845. U.S.-LATIN AMERICAN RELATIONS. (4 Credits)
This seminar focuses on the relationship between the United States and Latin America. It examines important historical events and emphasizes the role of economic interests, politics, culture, and intellectual reflections. The instructor will guide students in the use of primary and secondary sources. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AHC, AMST.

HIST 4853. SEMINAR: US CIVILIZING EFFORTS IN LATIN AMERICA. (4 Credits)
Students in this undergraduate seminar will do research in primary sources to analyze different aspects of the US "civilizing mission" in Latin America. The course will concentrate in the period from 1898 to the eve of the Great Depression. We will discuss the efforts of U.S. diplomats, missionaries, business people, educators and the like to "civilize" Latin Americans, and the reaction of Latin Americans to such efforts. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: LALS.

HIST 4860. SEMINAR: 1970'S: REVOLUTIONARY DECADE. (4 Credits)
While the 1960s have been viewed as a decade of change in the U.S., the 1970s may well have been more revolutionary. Often dismissed as the inward-turning "Me Decade," the 1970s witnessed dramatic social, economic, and political changes. This seminar examines closely the decade's swirling currents: Watergate's effects, Vietnam's end, the extended Civil Rights Movements (feminism, Chicano, Asian-American, & Native American rights), the white ethnic revival, environmentalism's surge, the oil crisis and the end of America's era of affluence, and the rise of conservatism. We will study a wide range of materials from the decade—such as the Pentagon Papers, the environmental novel Ecotopia, films like The Godfather and StarWars, Jimmy Carter's epic "Crisis of Confidence" speech, and the Eagles' 1976 hit "Hotel California." Students will be required to complete a research paper, employing primary sources, on some aspect of the decade. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4872. SEMINAR: MAKING OF MODERN SOUTH ASIA. (4 Credits)
This course will survey the recent history of the nations that are part of the Indian subcontinent, including India, Pakistan, Bangladesh, Sri Lanka, Nepal, and Myanmar (Burma). The nations of South Asia are rapidly assuming a central role in global geopolitics and the economics of globalization. In this course, we will survey a period spanning nearly four centuries beginning in 1600, from the fragmented kingdoms within the Indian subcontinent to the rise of discrete nation states by the mid-twentieth century to the geopolitical and cultural prominence of South Asia on the global state in the early twenty-first century. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4900. SEMINAR: TRANSNATIONAL LIVES. (4 Credits)
This course explores creative history writing on the diverse lives and experiences of people during the colonial encounter. We will read a range of non-fiction sources, including biographies, autobiographies, and creative writings that offer a new way of understanding the past.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4901. Marx's Capital and the History of Capitalism. (4 Credits)
This course considers the economic and social history of capitalism through ideas and events extending from seventeenth-century England to twentieth-century China. Our guide will be Karl Marx and the first volume of Capital. We will follow Marx's arguments and subjects to investigate political economy in Adam Smith's Wealth of Nations, the labor movement in the United States, the circuit of capital in the Caribbean sugar plantation, and the contradictions between capitalism and the environment illustrated by climate change. Students will write three essays and participate in vigorous discussion.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: PJST.

HIST 4913. SOCIAL DARWINISM: THEME AND VARIATIONS IN GLOBAL CONTEXT. (4 Credits)
Ever since Charles Darwin published his theory of biological evolution through natural selection, people have tried to borrow the scientific cache of his ideas and apply them to the development and administration of human societies. This course will look at the adaption and cultural impact of what later critics would call "Social Darwinism" in global context, with a particular emphasis on England, the U.S., and Asia. Topics will include pre-Darwinian cocepts of social development, popularization of scientific thinking, competing interpretations of evolutionary thought and social welfare, global circulations of ideas in the 19th and 20th c. political implications of "fitness", and resistance to Social Darwinism. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Updated: 10-11-2017
HIST 4933. SEMINAR: COLD WAR SCIENCE AND TECHNOLOGY. (4 Credits)
Science and technology played a crucial role in shaping the Cold War across the globe. In this course, we will begin with the development of the atomic bomb and discuss the nuclear arms race and the popular culture of nuclear anxiety as embodied in film and literature. Other topics include the space race, the development of the internet, the origins of modern environmentalism, the rise of the military-industrial complex, and “everyday technologies” such as the birth control pill and mass media.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4954. SEMINAR: LAW AND EMPIRE IBERIAN ATLANTIC. (4 Credits)
This course explores the centrality of legal practices in Spain and its American Empire from 15th to 19th centuries. Topics may include: legal cultures in early modern Spain and the Americas; debates over legality of the conquest; how indigenous people used law to their advantage; and legal questions of ethnicity and honor as related to marriage. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4998. STUDY TOUR: MEDIEVAL SPAIN. (4 Credits)
One of the great medieval pilgrimage routes, the Camino de Santiago crosses northern Spain from the passes of the Pyrenees to Santiago de Compostela. This study-tour will consider the legends of the Camino, some of its many surviving monuments, and the modern revival of the pilgrimage by walking for two weeks with the peregrinos/-as from Leon to Santiago de Compostela. This class will meet periodically at Fordham before the walk to discuss reading assignments and prepare. A journal is required at the end of the course. Fees and travel costs not included. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 4999. TUTORIAL. (1-5 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5100. DISASTERS, PLANNING AND PREDICTION IN GLOBAL HISTORY. (4 Credits)
By considering disasters and the regimes of planning and prediction that have been used to prevent and manage them, this course examines the historical interplay between modes of human agency and the perceived “push back” of the phenomenal world. We will also explore how understandings of disasters and control have shaped historical narratives. Students will engage environmental history, urban history, religious studies, the history of science and technology, and material culture. Topics will cover a wide range of geographic areas from the early modern to contemporary periods. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5201. The Renaissance of the Twelfth Century. (4 Credits)
This seminar will explore the history and historiography of one of medieval Europe's most intellectually fertile and creative period, the so-called renaissance of the twelfth century. Particular attention will be given to the historical construction of this period and how it was changed, and continues to change, amid the discovery and editing of new texts, more nuanced categories of historical analysis, and new advances in interdisciplinary research. Students will be expected to give presentations on both primary and secondary sources over the course of the semester. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5202. MEDIEVAL INTERFAITH RELATIONS. (4 Credits)
Interfaith relations are today a valuable and potentially urgent category of historical analysis. This seminar explores relations among Christians, Muslims, and Jews across Europe and the Mediterranean from early medieval papal policy to rise of the Ottoman Turks, with a particular focus on religion, intellectual, and cultural instances of interfaith conflict and coexistence. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5290. LUTHER AND REFORMATION. (4 Credits)
October 31, 2017 marks the 500th anniversary of one of the great cultural movements that shook the History of the world: the release of Martin Luther’s Ninety-Five Theses. Lither disturbed the political, social, and religious structures of Western Europe. Until his death in 1546, he challenged the papacy, the Catholic Church, the Holy Roman Empire, and Henry VIII. The Reformation he began both inspired and outraged. It represented the triumph of technology through the printing press. After Luther, nothing was exactly the same ever again. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5300. History Theory and Methods: The Historian's Tools. (4 Credits)
This course will introduce students to a range of intellectual traditions informing historical analysis and writing. Students will study major social thinkers and how historians have grappled with the implications of their ideas. The course aims to develop essential skills as professional readers, analysts researchers and writers. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5400. GENDER AND HISTORY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5405. MODERN IRELAND 1690-1923. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5410. Race and Gender in Modern America. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
HIST 5411. GENDER AND SEXUALITY IN EARLY AMERICA. (4 Credits)
Readings in the history of gender and sexuality discourse in Early America and the British Atlantic world of the 17th and 18th centuries. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5420. SIN, CRIME AND SEX IN HISTORY. (4 Credits)
Sin and forgiveness were at the heart of the Christian message. In European tradition, sin and crime were closely related. This course examines the history of sin and crime from ancient Christianity to the present, focusing on the rise of sexual delicts. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5472. INVENTING TOTAL WAR. (3 Credits)
The course will explore the development of total war in the 20th century, with particular emphasis on Germany. The dissolution of legal limits on violence and compulsion on the battlefield and at home will be examined.

HIST 5506. EUROPEAN NATIONALISMS AND EARLY MODERN (JEWISH) HISTORY. (4 Credits)
Modern historiography, including Jewish historiography, and history as an academic discipline are products of modern national movements. The narratives they produced provided tools for shaping national and ethnic identities in the modern era, and had long lasting ramifications not only for the study of history but also for the inclusion or exclusion of specific groups in modern European societies. This course will explore how the writing of history has been linked to the larger questions of national identity, and nationalism, and to questions of political inclusion and exclusions. We will read the early Jewish historians from Germany, Poland, and Palestine/Israel and explore how their visions of premodern Jewish history were shaped by larger questions that were also occupying other European historians and intellectuals. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5516. NATIONALISMS AND RACISMS IN MODERN EUROPE. (4 Credits)
The seminar will focus on the history and historiography on the construction of "race" and nation in modern Europe (from the Enlightenment onwards) and in particular on the multiple connections and intersections between nationalism(s) and racism(s). As issues of cultural identity and questions of immigration and national belonging have become hotly contested in today's European societies, the historiography on these subjects has been steadily growing. We will discuss different historical approaches, theories, and methodologies that emerge from the growing body of works addressing these issues and pay particular attention to socio-cultural histories and to transnational and comparative perspectives. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5553. Book History: Texts, Media and Communications. (4 Credits)
This course examines themes, topics and methods in the history of the book. Book history is defined broadly to encompass the history of media and communication in general, as well as textual analysis. Topics may range across time periods, from the Middle Ages to the present day, and across continents. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5556. TECHNOLOGY & EMPIRE. (4 Credits)
This course, "Science, Technology, and Imperialism," will explore the crucial relationship between science and imperialism, with a particular focus on European imperial expansion from the eighteenth to the twentieth centuries. Students will use a wide variety of primary and secondary texts to read, analyze and compare a range of sources to explore the ways in which European science and technology were used to justify European expansion, and the intersections between imperialism and European science and technology. Topics will focus on European imperial expansion from the eighteenth to the twentieth centuries. Students will use a wide variety of primary and secondary texts to read, analyze and compare a range of sources to explore the ways in which European science and technology were used to justify European expansion, and the intersections between imperialism and European science and technology. For example, the course will explore how the equation of European science and technology with "progress" depended to a large degree on European perceptions of the colonized. Using multiple viewpoints from Europe, Africa, and Asia, the course will provide a fresh and unique view on the history of Imperialism that will locate science and technology as fundamental to understanding such contested concepts as conquest, progress, and modernity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5568. Stalinism: Life and Death in Soviet Russia. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5574. U.S. FOREIGN RELATIONS. (4 Credits)
This graduate reading course covers the history and historiography of U.S. foreign relations from 1898 to the present. Topics include Open Dorf imperialism, the First and Second World Wars, the Cold War, decolonization, the Vietnam War, and the War on Terror. Students will study the United States, its domestic cultures, and its foreign policies to different regions, in a global perspective. In addition, students will study the economic, social, intellectual, political, and moral bases of U.S. foreign relations. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5575. THE UNITED STATES & THE WORLD IN THE TWENTIETH CENTURY. (4 Credits)
This course examines U.S. foreign relations over the history of the twentieth century, with an emphasis on the myriad ways in which peoples, cultures, economies, national governments, non-state organizations, and international institutions interact. Topics include American foreign policy, capitalism and economic policy, cultural relations, domestic politics, and perceptions of the world. The course will proceed chronologically and will examine major moments and trends: modern warfare, the Great Depression, the origins and trajectory of the Cold War, the nuclear arms race, decolonization and U.S.-Third World relations, the Vietnam War, and America’s wars in the Middle East. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
HIST 5644. Writing Early America: Historians Who Have Shaped the Discipline. (4 Credits)
This course will include the most significant works in early American history and culture written during the last fifty years. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5645. READINGS IN EARLY AMERICA AND THE ATLANTIC WORLD. (4 Credits)
This graduate readings course will provide students with an introduction to the historiography of early America from contact through the era of revolutions. Major themes include the contesting and connecting of geographical areas across the continent, the everyday experiences of work across lines of race, class, and gender, and the rise and fall of continental and Atlantic empires. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5725. HISTORY OF AMERICAN CITIES. (4 Credits)
Readings in US urban history. Topics that may be covered include the growth and development of American cities, their people and diverse communities, urban politics, the urban crisis of the late twentieth century, ideas about what makes for a good city, and the economic, cultural, political, and social role of cities. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5727. HISTORY AND FICTION IN THE AMERICAN WEST. (4 Credits)
This course uses history and literature to study the moving western frontier in the United States. Readings explore its early origins in the 17th and 18th centuries but focus largely on its most iconic manifestations in the 19th century. The course examine race, gender, violence, and social order, among other topics.

HIST 5730. HISTORY OF CAPITALISM. (4 Credits)
A graduate seminar, open to advanced undergraduates, that considers the historical narratives, major thinker, and controversies between seventeenth and twenty-first centuries having to with capitalism as an economic system and a set of social relations. Works by Thomas Robert Malthus, Adam Smith, Karl Marx, Karl Polanyi, Fernand Braudel, among others. Students will produce two essays, one comparing Smith and Marx, and other on a historical topic. Class meetings will emphasize student argument and vigorous conversation and will include a weekly lecture by the instructor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Attribute: ENST.

HIST 5733. The Country and the City in American History. (4 Credits)
This course explores the history of the country and the city as natural environments and symbolic landscapes through the works of historians, artists, and poets. It covers the period from the Revolution through the twentieth century, with special attention to the nineteenth century. Topics include Appalachia, slavery, and sharecropping; Lewis Mumford and Jane Jacobs; romantic landscape painting and Central Park. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5910. Law and Empire in the Iberian World. (4 Credits)
Law and Empire in the Iberian World explores the centrality of legal practices in the expansion of the Iberian Empire, a legal culture which produced the world’s largest trove of archival documents. Topics will include the legal cultures in early modern Spain and the Americas; the debate over just war and the legality of conquest; how indigenous peoples were legally incorporated into Spanish crown, and how they used law to their advantage (including establishing legally found towns, litigation with the Spanish court system, use of wills and other legal documents); legal questions of honor and ethnicity as related to marriage and office holdings; the legal relationship between the American Viceroyalties and the crown of Castile; and place of role of law and litigation in creating civil society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5913. GOLDEN AGE SPAIN & AMER. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Attribute: LALS.

HIST 5918. After Colonialism: Latin America. (4 Credits)
This course focuses on the 19th and 20th centuries. The course is designed to provide an introduction to major historical debates and methodological approaches for beginning graduate students as well as prepare doctoral students for their comprehensive exams in Latin American History. Readings include primary sources in translation as well as key studies of the era. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5919. United States and Latin American Borderlands. (4 Credits)
This course explores the concept of the borderlands in United States and Latin America history. It uses various categories of analysis, such as race, gender, and hegemony, to discuss the interaction among groups of people as they meet along political and geographic borders. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5920. United States and Latin American Borderlands. (4 Credits)
This course explores the concept of the borderlands in United States and Latin America history. It uses various categories of analysis, such as race, gender, and hegemony, to discuss the interaction among groups of people as they meet along political and geographic borders. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5921. SOCIAL MVTS GLOBAL PERS. (4 Credits)
This course examines social movements in the twentieth century. It focuses on events in Latin American, Europe, and the United States, among other regions. It allows students to assess the advantages and limitations using a global approach to historical analysis. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
HIST 5923. Atlantic World: Empires, Diasporas, and Migrations. (4 Credits)
Introduces students to themes and methods of Atlantic World History, 16-20th centuries. Possible themes include: The making of Iberian, English and French Empires; Indigenous, African, and European encounters; Atlantic Legal Cultures; the Slave Trade; Slavery, and Emancipation; the African Diaspora; Religion; Gender and Sexuality; Race relations; Migration. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 5961. THE AGE OF SULEYMAN 1453-1574. (4 Credits)
The course aims to introduce the students to various aspects of social, political, cultural and intellectual history of the Ottoman Empire in the late 15th and 16th centuries. By focusing on the multifaceted and multidirectional nature of interaction across political, religious, cultural and linguistic boundaries between the Islamic and Christian worlds in late medieval and early modern period, the course will delineate the Ottoman state and empire formation within the theoretical and historiographical framework of the early modern Mediterranean. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6076. NOBLE CULTURE AND SOCIETY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6078. The Crusader States: The Latin Kingdom of Jerusalem 1099-1291. (4 Credits)
This course charts the social, political, and cultural history of the feudal principalities that were established by Latin Christians in the Eastern Mediterranean in the wake of the First Crusade. Students will be introduced to the narrative and documentary sources through which the history of the Latin Kingdom has been constructed, as well as the archaeology and art of the Levant during the period of Frankish occupation and settlement. In addition, we will engage with the major historiographical debates concerning the constitutional organization of the Latin kingdom, the relationship between the Frankish crusaders and Muslim and eastern Christian populations over whom they ruled, and the "colonial" character of the Latin settlements. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6133. MED REL INSTITUTIONS. (4 Credits)
Today, the Catholic Church appears to as a hierarchical entity united under the supreme leadership of the pope. This is in contrast with the situation in the Middle Ages, when people made careful distinctions between monks, nuns, canons, secular priests, minor and major orders, cardinals, lay brothers and sisters, and a multitude of other clerics. Committed to their respective ranks and vocations, churchmen and churchwomen often found themselves competing with one another. In so doing, they were less likely to submit to papal authority than to enlist it for their own purposes. The seminar will examine these groups, their institutional identities, and typical conflicts of interest. The institutions of the medieval church-male and female monasteries, cathedral chapters, parishes, religious orders, dioceses, the papacy and other bodies-maintained their own two identities and pursued their own ends. The church they formed was not monolithic: medieval religious institutions were often in competition with one another for reasons both secular and religious; and, unlike modern church, religious institutions played a role in government and were the sole providers of many social services. Through consideration of medieval sources and modern studies, the course will examine the institutions that formed the medieval church, their histories, identities and members, their conflicts, and their relations to society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6153. MED ECONOMY & SOCIETY. (4 Credits)
This course focuses on the major economic trends of the period from the Germanic invasions through the "agricultural depression" on the 15th century. We will also consider the social impact of changes in seigneurial and peasant agriculture, the "commercial revolution," the rise of the textile industry, the Great Famine, the Black Death, and the Hundred Years War. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6256. TORTURE AND WESTERN CULTURE. (4 Credits)
This course examines a very difficult subject that sheds an unsettling light on the history of Europe and the United States. Torture in the twenty-first century world is ubiquitous, and the very public controversy surrounding American practices is only shocking to those who do not pay attention to the world. Our goal in this seminar is to examine the history of torture in its European-American context and to determine just where current practices fit into that history. We will also ponder whether torture is a practice that can (and should) be eradicated, or whether we must adjust to the presence of torture as a permanent feature of the world and American landscape. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6305. THE ENGLISH REFORMATION. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
HIST 6310. Early Modern European Intellectual and Political History. (4 Credits)
This course will consider the development of early modern European thought and politics from the 16th through the 18th centuries. Coverage may include the intellectual and political implications of the Renaissance and the Reformation, the rise of the early modern state and its expansion, popular revolutions, Scientific Revolution, political theory, absolutism, republicanism, war and empire, the Enlightenment and the French Revolution. The course is designed to provide an introduction to major historical debates and methodological approaches for beginning graduate students as well as prepare doctoral students for their comprehensive exams in Early Modern European History. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6315. Early Modern European Society and Cultural History. (4 Credits)
This course will consider the development of early modern European society and culture from the 16th through the 18th centuries. Coverage may include the social and cultural implications of the Renaissance and the Reformation, the divergence of popular and elite culture, the social dimensions of expanding population and trade, print and literacy, the economics foundations of social change, popular revolts, the impact of empire on society and culture, the Enlightenment and the French Revolution. The course is designed to provide an introduction to major historical debates and methodological approaches for beginning graduate students as well as prepare doctoral students for their comprehensive exams in Early Modern European History. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6355. Late European Political and Intellectual History. (4 Credits)
This course will explore central themes in the development of European political and intellectual life during the 19th and 20th centuries. At the discretion of the instructor students would be expected to explore topics including but not limited to liberalism, conservatism, romanticism, nationalism, modernism, counter-enlightenment, fascism, socialism, Western Marxism, memory, gender, constructions of sexuality, colonialist and racial ideologies, consumerism, and the late-twentieth century counter-cultures. The goal of the course would be to ensure students a reasonable command of the issues associated with the selected items. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6360. Late European Social and Cultural History. (4 Credits)
This course will explore central themes in the development of European social and cultural life during the 19th and 20th centuries. At the discretion of the instructor students would be expected to explore topics including but not limited to liberalism, conservatism, romanticism, nationalism, modernism, counter-enlightenment, fascism, socialism, Western Marxism, memory, gender, constructions of sexuality, colonialist and racial ideologies, consumerism, and the late-20th century counter-cultures. The goal of the course would be to ensure students a reasonable command of the issues associated with the selected themes. Instructors are expected to ensure a representative distribution of themes across time periods. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6530. EUROPEAN CITY: 1700-2000. (4 Credits)
Upper level study of European urban history, concentrating on theoretical and interpretive approaches to the study of the city and urban life. Methods or research, evidence, and analysis form basis of seminar discussions and student research. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6662. SEXUALITY IN AMERICA. (4 Credits)
Readings in the literature of the history of sexuality in American from the Colonial Era to the end of the 20th century. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6710. THE CIVIL WAR. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6721. US Culture and Society Since 1877. (4 Credits)
An exploration of American culture and society through important scholarly works in the field. The course is designed to provide an introduction to major historical debates and the methodological approaches for beginning graduate students as well as prepare doctoral students for their comprehensive exams in American history. Topics to be covered may include the role of social institutions and the significance of class, gender, culture, and race, particularly in connection to colonial life, the the revolutionary period, the early republic, the Civil War, and Reconstruction. Instructors are expected to ensure a representative distribution of themes across time periods. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6722. US CULTURE AND SOCIETY TO 1877. (4 Credits)
An exploration of American culture and society through important scholarly works in the field. The course is designed to provide an introduction to major historical debates and the methodological approaches for beginning graduate students as well as prepare doctoral students for their comprehensive exams in American history. Topics to be covered may include the role of social institutions and the significance of class, gender, culture and race, particularly in connection to colonial life, the the revolutionary period, the early republic, the Civil War, and Reconstruction. Instructors are expected to ensure a representative distribution of themes across time periods. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6724. US Thought and Politics to 1877. (4 Credits)
An exploration of American intellectual and political history through important scholarly works in the field. The course is designed to provide an introduction to major historical debates and the methodological approaches for beginning graduate students as well as prepare doctoral students for their comprehensive exams in American history. Topics to be covered may include the formation of American ideology, political movements, and the contributions of major ideological and intellectual figures, particularly in connection to the rise of the U.S. as an economic and military power, the Progressive era, the world wars, the Great Depression, the Cold War, the civil rights movement. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
HIST 6725. United States Thought and Politics Since 1877. (4 Credits)
An exploration of American intellectual and political history through important scholarly works in the field. The course is designed to provide an introduction to major historical debates and the methodological approaches for beginning graduate students for their comprehensive exams in American history. Topics to be covered may include the formation of American ideology, political movements, and the contributions of major ideological and intellectual figures, particularly in connection to the rise of the U.S. as an economic and military power, the Progressive era, the world wars, the Great Depression, the Cold War, the civil rights movement. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6731. US IMMIGRATION & ETHNICITY. (4 Credits)
This course will examine several important issues that have engaged the attention of historians of immigration and ethnicity. These include perennial concerns as the nature of the processes of settlement and Americanization, and the evolution of American views on citizenship and immigration policy. Also among the issues to be discussed are recent trends in thinking about the invention of racial identities and about ethnic diasporas and "transnationalism." Finally, the course will cover several cases of the stresses of ethnic identity in wartime. Readings will include recent scholarly monographs and articles, as well as several examples of ethnic memoir literature. Note that the course is organized thematically, and that readings have therefore been chosen because they reflect on the themes under discussion. As a result, not all ethnic groups are covered adequately. Students will have a chance to deal with the ethnic groups of their choice in their independent work. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6853. AMERICA BETWEEN THE WARS. (4 Credits)
The course will focus upon political, economic and social events and trends in America during the era between the two World Wars of this century. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 6855. PSM: MED POLITICAL CULTURES. (4 Credits)
This course, the first part of a two-semester proseminar/seminar sequence will introduce students to recent debates and different approaches to cultures of power and political processes in western Europe in the central middle ages. Among the many topics we might consider are lordship, status and authority, political assembly and consultation, courtliness and persuasion, rulership and sanctity, and the rise of accountability. Students will become familiar with a wide range of source material, from diplomatic and documentary collections to historical narratives and courtly literature. With this solid foundation in the current historiography and available research tools, students will be expected to identify a suitable topic for a sustained research project. Completing this project will be the objective of the seminar course to be offered in the Spring. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 7070. MEDIEVAL INTELLECTUAL CULTURES. (4 Credits)
This course takes a broad approach to medieval intellectual history, focusing not just on the texts and ideas that were central to medieval intellectual life but also on the cultural conditions that enabled scholarship and creativity to flourish. Beginning with the late antique absorption of classical learning, the seminar will cover the course of two semesters examine a range of intellectual cultures spanning the western Middle Ages. A particular focus of the class will be the study of the liberal arts and the evolution of teaching practices. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 7110. PSM: CHURCH LAW & MED SOC. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 7150. PSM: MEDIEVAL ENGLAND. (4 Credits)
This is the last half of a year-long course that focuses on the social, economic, and administrative history of England from the eleventh through fifteenth centuries. Special emphasis is placed upon 1) how to identify and exploit a wide variety of primary sources (such as wills, cartularies, court rolls, account rolls, chronicles, among others); 2) how to use major historical collections (such as Rolls Series, VCH, Record Commissioners, Royal Historical Manuscripts Commission, the Ordnance Survey, Selden Society, and others); and 3) gaining an awareness of the regions and landscape of medieval England, as well as the contributions of historical geography. Besides treating thematic issues such as the church and society, law and legal system, the growth of government and administration, maritime trade and industry in town and country, the weekly discussions will also consider economy among the peasantry, townspeople, and the landowning elite. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 8000. RESEARCH COLLOQUIUM. (1 Credit)
Required for MA and PhD students in Modern History and taken in conjunction with a research tutorial, this colloquium attends to the professional and presentation aspects of their research project as well as providing a forum for progress reports and feedback.

HIST 8025. SEM: MEDVL RELIG CULTURES. (4 Credits)
Participants will build on the reading and topics from HSGA7025 (Proseminar: Medieval Religious Cultures) to prepare research papers based on sources and debates in the study of medieval religious cultures. Weekly readings will be selected by the participants from materials for their papers; later in the semester, they will present drafts of their own papers, and prepare critiques of others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 8056. SEM: MED POLITICAL CULTURES. (4 Credits)
In the Spring semester, students will spend the semester working on research papers based on the topics identified in the Fall. At class meetings, students will have the opportunity to present their research and to read and critique each others’ writing. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: MVST.
HIST 8070. MEDIEVAL INTELLECTUAL CULTURES. (4 Credits)
Student continue to work on the project they defined in the Proseminar to this course. Classes convene intermittently to discuss progress on the ongoing research projects and for presentations on untranslated or little-known primary source (either recently made available or long forgotten) that deserve greater. Students complete the seminar by giving a 20-minute conference paper on their research project and on their research project and writing a thesis-length original research paper that could be published as a scholarly article. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: MVST.

HIST 8110. SEM: CHURCH LAW & MED SOC. (4 Credits)
This course will consist of a two-semester prosem seminar/semester sequence inviting graduate students to formulate and conduct original research projects in the field of medieval church law. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HIST 8150. SEM: MEDIEVAL ENGLAND. (4 Credits)
Continuation of HSGA 7150. The first half of the course focuses on database analysis, writing skills, research methods, and public speaking. Students also work on a final research paper that was formulated in HSGA 7150. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: MVST.

HIST 8999. INDEPENDENT STUDY. (4 Credits)
HIST 9999. DISSERTATION DIRECTION. (1 Credit)

History Law (HSGL)

HSGL 0202. GREAT BOOKS IN AMERICAN LAW. (2 Credits)
Students in this seminar will read the following six books, plus reviews and commentary on each of the books:<br>< HANDLE: Oliver Wendell Holmes, The Common Law; Benjamin N. Cardozo, The Nature of the Judicial Process; Adolph Berle and Gardiner Mears, The Modern Corporation and Private Property; Alexander M. Bickel, The Least Dangerous Branch: The Supreme Court at the Bar of Politics; John Hart Ely, Democracy and Distrust: A Theory of Judicial Review; and Antonin Scalia, A Matter of Interpretation: Federal Courts and the Law. <p> Students will be expected to write twelve 2-3 page response papers on the books and materials circulated for the twelve classes discussing the books and commentary. The first class will be introductory. There will be no final exam.

HSGL 0203. UNITED STATES CONSTITUTIONAL HISTORY: THE WARREN COURT. (2 Credits)
The Warren Court helped transform in American law, politics, and society. And American politics and society shaped the Warren Court and its ultimate legacy. This seminar will start with some background on Earl Warren, focusing on his biography, his role in the Japanese internment, and Korematsu. In week 2, we will focus on Brown and desegregation. Week 3: One person, one vote: Baker v. Carr, Reynolds v. Sims, and John Hary Ely's Democracy and Distrust. Week 4: The Criminal Rights Revolution: Gideon, Miranda, and Mapp. Week 5: The First Amendment and Privacy. Week 6: Religion, Presentations and the Warren Court's legacy. There will be an in-class final exam.

Attributes: INLJ, LLM, PIF.

HSGL 0204. RECENT BOOKS IN CON LEGAL THEO. (2 Credits)
The purpose of this course is to give students an opportunity to read, discuss, and write about important recent books in constitutional and legal theory, and to meet and engage with the authors of those books. We will cover each book in two class sessions. For each book, in week one, students will write 5 page response papers, and the students and I will meet to discuss the book. In week two for each book, the author will come to class and discuss the book with the students and me. The grade is based on the response papers and class participation. There is no final paper or final exam. Although I am assigning all six books described below in full, I will provide guidance regarding parts of each on which students may focus. <p> Here are the books we will read: Weeks 1 and 2 (1/18 and 25): <b> John McGinnis and Michael Rappaport, Originalism and the Good Constitution </b> (McGinnis, from Northwestern University, will come to class). This book argues in favor of originalist methods of interpreting the Constitution, largely from a consequentialist framework, i.e., that we are better off as a nation following originalist methods. The book also advances a distinctive originalist argument focusing on the supermajoritarian nature of our Constitution. (Note that the response paper for this first book is due 1/16, so students will be reading the book over winter break. Response papers are due the Monday morning before the first Wednesday session for each book.) <p> Weeks 3 and 4 (2/1 and 8): <b> James E. Fleming, Fidelity to Our Imperfect Constitution: For Moral Readings and Against Originalisms. </b>The title well describes the book. Fleming (a former Fordham Law School professor, now at Boston University) is one of our leading anti-originalists and pro-Dworkinian constitutional scholars. He claims moral readings of the Constitution are both best and unavoidable. <p> Weeks 5 and 6 (2/15 and 22): <b> Frederick Schauer, The Force of Law </b> (Schauer (University of Virginia) is one of our leading legal theorists and First Amendment scholars. This book challenges a leading legal theory account (H.L.A. Hart's notion of people following the law just because it's the law, i.e., internalizing a sense of legal obligation) and argues instead that coercion – the force of law – is central to understanding the core of law and its efficacy. <p> Weeks 7 and 8 (3/1 and 8): <b> Richard H. McAdams, The Expressive Powers of Law: Theories and Limits </b> (McAdams (Chicago) adds that law has an expressive mechanism that generates compliance, as well, through a coordinating function and an information function. In part through game theory, McAdams advances both descriptive and normative claims supporting his thesis. <p> Weeks 9 and 10 (3/22 and 29): <b> John D. Inazu, Confident Pluralism: Surviving and Thriving through Deep Difference </b> (McAdams (Chicago) advances a deeply pluralistic theory of our constitutional order, analyzing freedom of speech, religion, assembly, and association arguments. <p> Weeks 11 and 12 (4/5 and 12): <b> Heidi Kitrosser, Reclaiming Accountability: Transparency, Executive Power, and the U.S. Constitution </b> (Kitrosser (University of Minnesota) challenges standard defenses of presidential power, especially “supremacy” and “the unitary executive.” She argues that presidential power need not be as centralized as unitary theories maintain, and that secrecy of information and programs within the executive branch are antithetical to proper understandings of accountability. She also discusses First Amendment issues surrounding prosecution of leakers and publishers of classified information. <p> Week 13 (4/26): Wrap-up discussion and I hope some kind of party #. <p> Note: I am trying to keep costs reasonable for students, and have figured out a way to reimburse you if total book costs per student go over $200.

Attribute: INLJ.
HSGL 0290. HISTORY OF COMMERCE AND LAW. (2 Credits)
The course examines how nine pre-industrial societies developed (or failed to develop) legal and informal rules and institutions to support trade and commerce: Hunter/gatherers, Mesopotamia, ancient Egypt, Classical Athens, Rome, Early Islamic World, Medieval Europe, Medieval Southern (Hindu) India and Qing China. The course is a combination of legal history, comparative law and economic history, with particular focus on business organization and commercial dispute resolution. Discussion is structured around five business objectives: <br>1. pool capital and share risks — eg, business organization forms like the Roman societas (contractual joint venture or partnership), the Assyrian naruqqum (joint stock fund), the Islamic inan and mudaraba (partnerships), the medieval Italian compagnia and the Qing tang (lineage trust), compared with the attributes of the modern corporation (eg, legal personality, duration, entity and owner shielding (limited liability), separation of ownership and management, etc. <br>2. enforce agreements and resolve commercial disputes — eg, merchant demand for speedy and impartial resolution of disputes via special courts, fora or procedures; <br>3. secure persons and property, particularly in long-distance trade — eg, fictional kin relationships, treaty guarantees and medieval Indian private merchant armies <br>4. address principal/agency concerns — eg, merchant and ethnic networks in addition to agency law <br>5. disseminate market information and reduce asymmetries — eg, regulation of retail market to ensure fair dealing and protect consumers like the Islamic hisba manuals <p>This a condensed seminar (14 classes in seven weeks) which meets Jan. 20 - March 10, 2015. The seminar is open to J.D. and LL.M candidates. There are no prerequisites. There will be a paper rather than an examination. <br><br>Attributes: JD, LAW, LLM.  

HSGL 0308. AMERICAN LEGAL HISTORY. (3 Credits)
This course examines the tension between individual liberty and governmental authority expressed in law from the seventeenth century to contemporary debates among modern political and legal conservatives, liberals and moderates. The specific issues and details of the conflict between liberty and authority have changed over time, but they have involved questions regarding the specific rights in which freedom consists, the manner in which personal liberties should be enjoyed and exercised, who should enjoy them, and how law and public policies can best facilitate, protect, and regulate the exercise of personal freedom. This course explores how events and ideas have influenced the evolution of law relating to these subjects over the course of American history.  
Attributes: JD, LLM, PIF.  

HSGL 0310. ENGLISH LEGAL HISTORY. (2,3 Credits)
This seminar will examine the development of English civil, criminal and constitutional law from the medieval period to the present. The focus of the course will be on the evolution of legal doctrines and institutions since the eighteenth century. These developments will be considered in the context of broader social, economic, political and intellectual changes. Selected topics will include criminal law and procedure, the rise of the legal profession, the law of trade unions and corporate enterprise, the triumph and decline of freedom of contract, and judicial responses to popular protest movements. Readings will include scholarly articles and monographs as well as case law. <br><br>Attributes: JD, LLM.  

HSGL 0322. NATURAL LAW: INTENT, RIGHTS & JUSTICE. (2 Credits)
This course will examine the theoretical foundations and practical implications of natural law theory. Because "natural law" is often taken to mean many different things, one of the course's first aims will be to establish a common vocabulary for identifying and distinguishing the various "versions" of natural law theory. We will see that a common denominator in all natural law theory is the proposition that positive law (i.e., law as it is simply "posited" or enacted by lawmakers) does not exhaust the content of the law, and can be evaluated in light of a "higher law" or "natural law." Our ensuing discussion of the difference between positive law and natural law will open onto a series of questions that will guide us through the rest of the course: "Is there really a natural law?" " If there is a natural law, what is the basis upon which this law exists and becomes knowable to us?" " If natural law exists, then what is its moral content and what does this moral content have to say about individual goods and rights, and their relation to the common good?" Furthermore, how is the moral content of natural law to be enforced or made effective through our system of positive law?" " Finally, how are we to make sense of the natural law tradition in light of our contemporary understandings of judicial review, governmental neutrality, and reasonable pluralism?" The course will not only introduce the classical natural law tradition (based mainly on the thought of Aristotle and Aquinas), but will place this classical tradition in dialogue with contemporary thinkers. The ultimate aim of the course will be to achieve an understanding of the natural law tradition and its relevance for a variety of contemporary legal issues. No prior acquaintance with philosophy or jurisprudence is assumed; the relevant concepts will be developed in class. Students will have a choice between an open book in-class exam and a take-home exam. <br><br>Attributes: INLJ, PIF.  

HSGL 0799. NATIVE AMERICAN LAW. (2 Credits)
This course is designed to trace major developments in the nature of Native American law and the history that has formed this law. Native American Law is in a sense the most all-encompassing of any field of law, as it necessarily entails the study of the Constitution, federalism and the federal system, international law, the full span of American (and colonial) legal and political history, criminal and civil law and jurisdiction, administrative law, civil rights, the Commerce Clause, the Treaty Power, the First Amendment, resource rights, trust law, economic development and the laws of other nations. The course will explore the divisions and contentions among Indian, federal, state and international authorities by moving in a chronological fashion from the early colonial era to the most recent meetings of the United Nations Permanent Forum on Indigenous Issues. The format of the class is an interactive seminar based on assigned readings, and paper on a topic of the student's choosing done under the professor's guidance after submission of a first draft. <br><br>Attributes: INLJ, JD, LAW, LLM.  

Honors Program - CBA (HPCB)

HPCB 3435. ST:EVOLUTION OF AMERIAN BUS. (3 Credits)
This course is designed to trace major developments in the nature of capitalism, corporate structures, business ethics, and the constitution and legal statutes. These developments will be followed in American history and literature. In units that include Puritanism, the Colonial Era, the American Revolution, the Federalist Era, the Agricultural and Industrial Revolutions, the Rise of Big Business, the Progressive Era, the Great Depression, and Post-War America, the course will be designed to have readings in history, law, religion, sociology, urban studies philosophy, art history, and other areas.  

Updated: 10-11-2017
HPCB 4701. GLOBAL BUSINESS READINGS. (3 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HPCB 4703. PROBABILITY AND STATISTICS. (4 Credits)
This course is an intensive study of probability theory and statistical analyses for planning, decision making, and operational review. Topics include probability distributions and density functions; descriptive and inferential statistics; and such methods for hypothesis testing as the analysis of variance, simple and multiple regression, categorical analyses, time series analyses, and principal components or axis factoring. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HPCB 4704. ST: BUSINESS PRACTICES. (3 Credits)
This course addresses business processes, including strategy, and contemporary issues in business.

HPCB 4705. ST:HONORS PROJECT SEMINAR 1. (1.5,3 Credits)
Students work with a faculty advisor to develop an original paper that utilizes the analytical, business and problem solving skills students developed throughout the CBA curriculum.

HPCB 4706. ST:HONORS PROJECT SEMINAR 2. (3 Credits)
Students work with a faculty advisor to develop an original paper that utilizes the analytical, business and problem solving skills students developed throughout the CBA curriculum.

HPCB 4707. ST:HONORS PROJECT SEMINAR 3. (1.5 Credits)
Students work with a faculty advisor to develop an original paper that utilizes the analytical, business and problem solving skills students developed throughout the CBA curriculum.

HPCB 4999. TUTORIAL. (1-3 Credits)

Honors Program - FCLC (HPLC)

HPLC 1001. HONORS PHILOSOPHY. (3 Credits)
Borrowing the Thomistic idea of philosophy as a perennial discourse, the honors philosophy course encourages seminar participants to cultivate their own intellectual grounds through the study of classic and contemporary philosophical works. Topics may include the nature of philosophical discourse, of consciousness, of knowledge, of existence, and of human nature.

HPLC 1011. HONORS: SPEECH AND RHETORIC I. (1 Credit)
1 credit lab session in effective speaking techniques to be combined with the honors core.

HPLC 1201. HONORS: ENGLISH. (3 Credits)
Beginning with the premise that works of literature and criticism constitute an ongoing dialogue that shapes and is shaped by historical, cultural, and aesthetic movements, seminar participants will be encouraged to develop their own voices in that literary dialogue.

HPLC 1401. HONORS: THEOLOGY. (3 Credits)
Introduces students to the issues and methodologies of theology, providing a foundation for the exploration of religious traditions from various perspectives while focusing on the common and varying approaches of those traditions. Ethical, social, and political impacts of religion, along with major historical figures and periods in the history of religion, will be incorporated.

Attribute: REST.

HPLC 1501. HONORS: ART HISTORY. (3 Credits)
Selected topics in art history within an urban context.

HPLC 1603. HONORS: NATURAL SCIENCE I. (4 Credits)
First semester or a two-semester laboratory science course open to Fordham’s strongest students who have not declared a science major. This interdisciplinary course emphasizes problem solving and analysis of classic experiments to explore the interrelationships of chemistry, biology, and physics in advancing our understanding of the principles that govern the natural world. The first semester focuses on two major themes: the interaction of matter and energy and the processing of information and logic by biological systems. The second semester applies the concepts from the first semester to analyze the origin and functioning of complex systems ranging from the early cosmos to the human brain. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HPLC 1604. HONORS: NATURAL SCIENCE II. (4 Credits)
Second semester of a two-semester laboratory science course open to Fordham’s strongest students who have not declared a science major. This interdisciplinary course emphasizes problem solving and analysis of classic experiments to explore the interrelationships of chemistry, biology, and physics in advancing our understanding of the principles that govern the natural world. The first semester focuses on two major themes: the interaction of matter and energy and the processing of information and logic by biological systems. The second semester applies the concepts from the first semester to analyze the origin and functioning of complex systems ranging from the early cosmos to the human brain. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HPLC 1801. HONORS: HISTORY. (3 Credits)
Study of the Western cultural tradition from the Enlightenment to the Postmodern era by focusing on the quest for modernity. Course work will focus on the philosophical debates, the search for utopia, the role of the avant-garde, and the cultural tensions that make up the Western experience.

HPLC 1811. HONORS: WRITING INTENSIVE. (2 Credits)
One credit course to be offered in conjunction with the freshman honors semester that does not offer Honors English.

HPLC 1999. TUTORIAL. (1 Credit)

HPLC 2211. URBANISM: NEOLITHIC TO N.Y.. (3 Credits)
Survey, via a series of in-depth case studies, of major moments of urbanistic development. Organized chronologically, it considers individual cities and the broader problems they address, such as changing architectural forms, demographic shifts, urban infrastructure, politics, religion, and memory.

HPLC 2610. GLOBALIZATION: SEMINAR. (3 Credits)
This course will introduce you to a comprehensive set of frameworks for the understanding and analysis of globalization understood as a process of global system formation. It provides you with the ability to survey and understand the wide variety of information regarding the historical development of globalization and prepares the student to assess the possibilities for the global future and its impact on our lives.

HPLC 2803. HONORS: TRENDS IN NYC. (3 Credits)
Analysis of topics illustrating the development over time of New York City’s populace, governance, economy and social and cultural organization.
HPLC 2811. HONORS SACRED TEXTS. (3 Credits)
Through a selection of primary works from ancient Egypt, Mesopotamia, and Israel, the New Testament, the Talmud, The Qur’an, and early Muslim writings, students will reflect on the social, historical, and theological contexts in which each writing emerged. Primary emphasis will be placed on the similar yet different ways humans construct themselves and their worlds in relation to the sacred.
Attributes: JWST, MEST.

HPLC 2999. TUTORIAL. (2 Credits)
Supervised individual project designed by the student in concert with one or more members of the faculty. Each course must be approved by the Honors Committee.

HPLC 3015. HEALTH CARE IN AMERICA. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HPLC 3515. REVOLUTION. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HPLC 3800. INTERNSHIP. (3 Credits)

HPLC 3970. LINCOLN: DEMOCRATIC VALUES. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: SRVL.

HPLC 3999. TUTORIAL. (3 Credits)

HPLC 4050. HONORS: SENIOR VALUES SEMINAR. (4 Credits)
Using mostly recent scholarship in philosophy and politics, this class will focus on the history and basis for human rights, and in particular the question of whether we can justify the claim that there are universal basic rights: (1) Are universal rights consistent with a wide array of varying cultures and ways of life? (2) Are concepts of rights somehow inherently “western” or “individualist,” or can relativist doubts about human rights be answered? We will relate the growth of rights law in international treaties to related issues in just war theory, including controversial questions about humanitarian intervention and ongoing transitions to democracy in parts of the developing world. We will also focus on the practical question of how the international order could be restructured if we take seriously the idea that there are universal basic rights to freedom from tyranny and to development out of poverty
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: SRVL.

HPLC 4500. THESIS WORKSHOP. (3 Credits)
This course is for seniors in the FCLC Honors program. Participants will workshop thesis drafts and work on presentation skills for both the research showcase and the Honors Program presentation.

HPLC 4800. INTERNSHIP. (4 Credits)
Combines work with an artist, writer, scientist, or other expert with directed series of academic readings relevant to that experience. (Each course must be approved by the Honors Committee.) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HPLC 4888. HONORS: INTERNSHIP. (3 Credits)
Combines work with an artist, writer, scientist, or other expert with directed series of academic readings relevant to that experience. [Each course must be approved by the Honors Committee.]

HPLC 4999. HONORS TUTORIAL. (4 Credits)
Supervised individual project designed by the student in concert with one or more members of the faculty. [Each course must be approved by the Honors Committee.]

Honors Program - FCRH (HPRH)

HPRH 1001. ANCIENT LITERATURE. (3 Credits)
An examination of the Greek, Roman, and biblical texts which have played a central role in the definition of the Western tradition.
Attribute: CLAS.

HPRH 1002. ANCIENT PHILOSOPHY. (3 Credits)
An examination of the Greek and Roman texts which have served as the foundation for subsequent Western philosophical thought.
Attribute: CLAS.

HPRH 1003. ANCIENT HISTORY AND ART. (3 Credits)
An overview of the history and art of the ancient world, with particular emphasis on the classical world of Greece and Rome.
Attribute: CLAS.

HPRH 1004. HONORS: MATHEMATICS. (3 Credits)
An introduction to the dynamics of mathematical thought for non-science majors. Attention will be paid to both the historical development of central mathematical concepts and the implications of these concepts for contemporary life.
Attribute: CLAS.

HPRH 1051. MEDIEVAL LITERATURE AND ART. (3 Credits)
An examination of the literature and art of the medieval world.
Attribute: MVST.

HPRH 1052. MEDIEVAL PHILOSOPHY AND THEOLOGY. (3 Credits)
An examination of major medieval thinkers, including Augustine, Anselm, and Aquinas.
Attribute: MVST.

HPRH 1053. MEDIEVAL HISTORY. (3 Credits)
An overview of the history of the medieval world, including an examination of the rise and spread of Islam.
Attribute: MVST.

HPRH 2001. EARLY MODERN LITERATURE/ART. (3 Credits)
An examination of the literature and art of the period from the Renaissance to the mid-19th century.

HPRH 2002. EARLY MODERN PHILOSOPHY AND THEOLOGY. (3 Credits)
An examination of the major thinkers from the Renaissance to the mid-19th century, with particular emphasis on the figures of the Enlightenment.

HPRH 2003. EARLY MODERN HISTORY/MUSIC. (3 Credits)
An overview of the history and music of the period from the Renaissance to the mid-19th century.
HPRH 2052. CONTEMPORARY SOCIAL AND POLITICAL THOUGHT. (3 Credits)
An examination of the major works of social and political thought which have helped to define the modern world.
Attribute: AMST.

HPRH 2053. CONTEMPORARY HISTORY AND ART. (3 Credits)
An overview of the history and art of the contemporary period.

HPRH 2999. SERVICE LEARNING-2000 LEVEL. (1 Credit)
In this student-initiated program, the student may earn one additional credit by connecting a service experience to a course with the approval of the professor and the service-learning director.

HPRH 3001. RELIGION IN THE MODERN WORLD. (4 Credits)
An examination of the way that the world’s major religious traditions have come to terms with the philosophical and practical challenges of modernity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: IPE.

HPRH 3051. ETHICAL DIMENSIONS OF CONTEMPORARY SOCIAL PROBLEMS. (4 Credits)
An examination of a particular modern problem from the perspective of both social and ethical analysis. The problem to be considered will vary, although it will generally be either international in scope or able to be viewed from a number of different traditions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HPRH 3075. IGNATIAN EDUCATION SEMINAR. (1 Credit)
This seminar will examine the distinctive nature of a liberal arts education in the Ignatian tradition. Intended for those who have completed at least half of their work at Fordham, the seminar will allow such students an opportunity to reflect on their own education in conversation with a small group of their peers and a member of the faculty or administration. This one credit course will meet four times during the semester and will be graded on a pass/fail basis.

HPRH 4001. SENIOR THESIS. (4 Credits)
An extended original research project in one’s major field, prepared under the guidance of a faculty mentor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HPRH 4999. TUTORIAL. (1-4 Credits)
Independent research and reading with supervision from a faculty member.

Humanitarian Affairs (HUAF)

HUAF MTNC. IHA Maintenance of Matriculation. (0 Credits)
Students must maintain continuous registration throughout their studies in the graduate program. International Humanitarian Action students working toward the Master of Arts Degree are to use this registration during each semester when not participating in module.

HUAF 5000. THE HUMANITARIAN TOOLBOX. (2 Credits)
This course offers an intensive comprehensive and unified training program suitable for humanitarian aid professionals, allowing them to understand all of the available actors and resources with in a humanitarian crisis. This multi-disciplinary course is made up of lectures, workshops, and case studies.

HUAF 5001. CURRENT HUMANITARIAN ISSUES. (2 Credits)
This course will build on what is learned in HUAF 5000 and introduces historical, political, medical, managerial, legal and communication skills.

HUAF 5010. HUMANITARIAN NEGOTIATION. (2 Credits)
Many humanitarian aid professionals believe that negotiation is perhaps the activity in which they spend most time both in field and headquarters situations. Almost everything that humanitarian workers need to achieve has to be negotiated with donors, host governments, local structures, communities, beneficiaries, other humanitarian agencies and their own staff. This course gives students an understanding of negotiation theory together with practical historical and current applications. All types of negotiation are examined, from road blocks and negotiations in situ for access to negotiations for peace agreements far from the conflict. Theoretical lectures will be supported with group scenario based exercises.

HUAF 5020. HUMANITARIAN ASPECTS OF MIGRATION. (2 Credits)
Migration, whether forced displacement for economic migration of the poorest, is often a major factor in either escaping from poverty, persecution and danger and/or moving into yet more dangerous situations. In attempting to find livelihoods and safety people often become victims of smugglers or traffickers. Students will be given an enhanced awareness and understanding of the complex interaction between migration and humanitarian interventions from the point of view of the migrant, the authorities of the host be it the national or recipient region or country and of the humanitarian worker. This module is held in cooperation with the International Organization for Migration (IOM).

HUAF 5030. HUMANITARIAN LogISTICS. (2 Credits)
Logistics is one of the most critical components to successful humanitarian assistance. Delivering the right assistance to the right beneficiaries at the right time requires both skills and an understanding of the supply chain. Logicians must continually add to their knowledge and learn the latest best practices in the field. This course will explain logistics, explore the ways that logistics can affect humanitarian support, and give students an opportunity to analyze case studies and develop methods for improving delivery of support.
HUAF 5031. COMMUNITY PARTICIPATION. (2 Credits)
The humanitarian aid community must cooperate with the national authorities to build or rehabilitate the basic infrastructure needed for access, shelter and the provision of life sustaining services. This work often has to be carried out on an emergency basis in far from ideal circumstances. This course will provide advanced knowledge of the technical requirements for the infrastructure needed in humanitarian emergencies. Students will be exposed to vital managerial decisions they must consider as they supervise teams of technical experts. Following the implementation of immediate infrastructure needs there remains the responsibility of humanitarian agencies to provide a range of basic services until such time as either the service is no longer required, the population has returned to its place of origin or the governmental agencies have the means and manpower to provide the services. This phase is often known as "care and maintenance". Students will have a clear understanding of the implications of these "open ended commitments" to a population and potential exit strategies.

HUAF 5040. COMMUNICATIONS AND MEDIA IN HUMANITARIAN AFFAIRS. (2 Credits)
This course examines the history of representation of humanitarian crisis, and considers the impact of media accounts on the potential for humanitarian action. The role of photojournalism, and the images and narratives of broadcast and press reporting will be evaluated in the context of humanitarian goals and necessities. The dynamics between depiction and public perception, image and empathy, and narratives of compassion and inclusion will be articulated within the larger context of global security and human rights. As conflict, suffering and issue of life and death remain significant global realities, this course details the conditions, practices, messages, obligations, ethics, and limits of telling the stories of those in crisis.

HUAF 5055. HUMAN RIGHTS & HUMAN CRISIS. (2 Credits)
The course is designed to give students a comprehensive understanding of the foundations and principles of human rights and humanitarian law. Through specific case studies, students will be able to understand the legal aspects involved in humanitarian work, and will provide students with more confidence in their legal abilities when providing humanitarian aid.

HUAF 5060. DISASTER MANAGEMENT. (2 Credits)
The course prepares aid workers for the challenges and difficulties associated with both natural and man-made disasters. Students will study past disasters as well as current disaster management techniques and trends toward potential future disasters. After completing this course, students will have a more complete understanding of the different tools and techniques used to respond to crises.

HUAF 5070. LEADERSHIP & MANAGEMENT IN HA. (2 Credits)
Despite humanitarian agencies’ not-for-profit status, they must be managed and administrated on sound business principles. Students learn the managerial methods and skills required to become senior managers and directors of humanitarian organizations.

HUAF 5080. ACCOUNTABILITY IN HUM ACT. (2 Credits)
This course will explore the concept of accountability within humanitarian intervention. In particular, it will look at the contemporary significance of accountability and what specific events have led to a shift from donors and recipients of aid as the agents of accountability.

HUAF 5090. ETHICS OF HUMANITARIAN ASSISTANCE. (2 Credits)
Humanitarian aid professionals are confronted with ethical questions in every area of their work. This course will explore these ethical questions, examine alternative ethical grounds for action, and seek to provide humanitarian professionals with a framework for evaluating practical ethical issues that arise, especially through past and current case studies.

HUAF 5095. Strategic Issues in Humanitarian Action. (2 Credits)
The theory and practice of humanitarianism continuously evolves in response to changes in the international political and economic environment and ongoing evaluation of humanitarian efforts. This course explores humanitarian affairs throughout the past century as a base for evaluating recent developments that will play a vital role in shaping humanitarian action in the future. High-level representatives from the political, international, military, religious, medical, legal and academic sectors contribute to lectures and discussions. Students discuss and develop strategies for responding to and mitigating complex emergencies.

HUAF 5100. CIVIL MILITARY COOPERATION. (2 Credits)
This course will give students an understanding of the practical workings, opportunities and constraints involved in the cooperation between the military and humanitarian organizations in the delivery of humanitarian assistance. The course begins with the study of the legal, political and structural bases for Civil Military Cooperation which is focused on the practical, rather than the theoretical application. Faculty and students will have the opportunity to share their experience of working in Civil Military situations and the teaching part of the course will culminate in a series of case studies in which the actual working of Civil Military Cooperation in a wide range of types of military deployments will be compared. Students will participate in a half day simulation exercise in which they will gain experience in the outworking of a Civil Military Cooperation in the context of a prepared scenario.

HUAF 5150. Mental Health in Complex Emergencies. (2 Credits)
This is a 12-day training course for mental health professionals and program staff who wish to establish mental health or psychosocial programs in a humanitarian context within conflict and post-conflict areas. The course will aim to provide a practical orientation and training, including how to conduct rapid assessments, designing and setting up mental health services or psychosocial programs (exploring the differences between them), clinical work and therapeutic approaches in non-western contexts. It addresses the issues of cultural validity, conflict resolution and negotiation, taking care of oneself and dealing with burnout. The course will also introduce potential field workers to essentials such as personal security, logistics, and practical aspects of humanitarian work in the field.

HUAF 5155. EDUCATION IN EMERGENCIES. (2 Credits)
30 million children live in conflict-affected countries. The program looks at the design and implementation of education projects from the emergency phase to post conflict situations, with a special emphasis on the mechanisms required to improve the quality of education during and after humanitarian crises.
HUAF 5160. URBAN DISASTER, VULNERABILITY AND DISPLACEMENT: HUMANITARIAN ACTION AND RESPONSE. (2 Credits)
Explores global urbanization trends and the challenges created by urban disasters. The course focuses on the hurdles faced by vulnerable and displaced populations in cities and urban settlements and examines how the humanitarian community can better respond to man-made and natural disasters in both formal and informal urban settings. Discussion and debate with experts on urban disaster and populations at risk. Emphasis on humanitarian best practices and potential opportunities to increase resiliency and sustainability in complex urban settings.

HUAF 5990. MASTER THESIS RESEARCH I. (2 Credits)
Students should develop a thesis topic with a Fordham faculty advisor and a reader who has significant practical experience in humanitarian affairs, ideally after completing Module 2. This project is the culminating demonstration of the knowledge and skills gained throughout the MIHA coursework. The thesis will focus on practical examples of past mistakes, contributing possible solutions to the existing literature. The research methods necessary to writing the thesis are taught within the context of each module. Thesis projects should incorporate learning from previous MIHA courses, followed by final editing, defense and approval.

HUAF 5991. MASTER THESIS RESEARCH II. (2 Credits)
This project is the culminating demonstration of the knowledge and skill gained throughout the MIHA coursework. The thesis will focus on practical examples of past mistakes, contributing possible solutions to the existing literature. The research methods necessary to writing that thesis are taught within the context of each module. Thesis projects should incorporate learning from previous MIHA courses, followed by final editing, defense and approval.

HUAF 6000. INTERNATIONAL DIPLOMA IN HUMANITARIAN ASSISTANCE. (0 Credits)

HUAF 6020. INT EMERGENCY RELIEF. (3 Credits)
The course will be centered on presenting, discussing and reflecting on the main questions faced by the humanitarian community, examining these issues from a multi-disciplinary approach, finding new and creative answers and recommending practical tools to improve the effectiveness of humanitarian action. The meaning, methodological challenges, and ethical dilemmas of humanitarian action will be cross themes of the course so that by the end of the program, the students should have: An understanding of the main challenges and dilemmas facing the international humanitarian community through its practice in the field. A comprehensive knowledge of the history of the humanitarian practice, its main actors, and terms-relations in place to configure the landscape of the complexity around this profession. A creative approach to discover the relationship between humanitarian response and the long-term development perspective. An appreciation of the complexity of this human reality in a specific case study. The ability to identify the main ethical dilemmas faced by any humanitarian response.

HUAF 6030. HUMANITARIAN INNOVATION. (2 Credits)
This course offers an in depth analysis of the strategic processes governing data and innovation strategies in modern humanitarian organizations, the first course of this kind in New York City. The course will introduce participants to a comprehensive understanding of how to select and adopt tools, strategies and techniques for data and innovation management. Topics covered include innovation portfolio creation and management, data management and processing, data ethics, real time data analytics, humanitarian technology design, and integration of GIS systems in project implementation. Participants will develop the core skills required by modern humanitarian organizations to be competitive and effective even if compared to corporate standards.

Humanitarian Studies (HUST)

HUST 2001. INTRODUCTION TO GLOBAL HEALTH. (4 Credits)
Multi-disciplinary examination of the modes of thought and forms of knowledge that inform contemporary global health practice including: colonial medicine, tropical medicine, international health and the emergence of global health as a discipline; the emergence of public health, epidemiology and demography in the west; the therapeutic revolution and the modern pharmaceutical industry: derivation and uses of the main international health metrics (QUALYS, DALYS AND others). The course will take a bio-social approach to the study of health, and will draw on the biological and statistical methods as well as anthropology, political science, history, moral philosophy, theology and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, ENST.

HUST 3001. HUMANITARIAN ACTION WORKSHOP. (1 Credit)
Fordham University, in coordination with the Institute of International Humanitarian Affairs (IIHA), conducted the First National Workshop of the Jesuit Universities Humanitarian Action Network (JUHAN) this summer. Approximately 160 Undergraduate students from 20 member Institutions of the Association of Jesuit Colleges and Universities (AJCU) attended this Workshop to broaden their knowledge and understanding on global humanitarian initiatives and the challenges it faces. The three-day Workshop consisted of a main plenary session each day focusing on contemporary topics followed by breakout sessions- where students were given an opportunity to attend lectures on cross-cutting and sectorial issues as well as participate in sessions to develop their skills required to be effective in this field. On the final day of the conference, the students met in teams to utilize the knowledge they gained from the workshop and draw an action plan on what initiatives/projects they would implement on their home campuses. The Academic Director of the Institute will meet with the Fordham delegation periodically in the Fall semester to help implement the proposed action plans.

HUST 3500. FAMINE, FOOD SECURITY, AND NUTRITION. (4 Credits)
Increasing global inequality, the effects of climate change, violent conflict and many other factors mean that currently almost forty million people worldwide are in need of food assistance. Starvation and hunger are vast and complex global issues with medical, political and moral importance. This course will examine the wide range of humanitarian attempts to help people suffering from food and nutrition crises, from individual clinical interventions to treat childhood starvation, through to regional attempts to predict the timing and severity of famines and respond to them, and innovative approaches like cash transfer schemes. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: HUST 4001.

HUST 4001. HUMANITARIAN ACTION. (4 Credits)
This course will consider both theoretical and applied approaches to Humanitarian Action and will be centered on ways of thinking and actions that bridge these two responses. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: INST, MEST, PJST.
HUST 4002. International Humanitarian Action and New York City. (4 Credits)
Fordham has long been a world leader in the academic study of humanitarianism and in professionalizing aid work. This course examines international responses to humanitarian crises. We explore the range of actors in emergencies, including faith based organizations, secular international NGOs, United Nations agencies and more. We will examine their motives, capabilities and histories using case studies of the various problems to which they respond: violence, genocide, famine, and displacement and human rights abuses. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HUST 4200. FORCED MIGRATION AND HUMANITARIAN ACTION. (4 Credits)
Forced migration is a central issue in the provision of humanitarian and assistance. This course will examine the causes of forced migration, including violent conflict, natural disasters, development projects, human trafficking and others, and will use a variety of case studies to examine international responses to forced migration, the migrant experience, legal and human rights around migration, and the role of human agencies and NGOs in responding to forced migration. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HUST 4500. IHA FOREIGN SERVICE PROG. (5 Credits)
HUST 4501. HUMANITARIANISM AND GLOBAL HEALTH. (4 Credits)
This course examines the way in which international actors (including humanitarian actors, development institutions, states, private companies and major foundations) respond to health crises through case studies of major issues in global health including epidemic disease, food security and human rights. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HUST 4800. INTERNATIONAL HUMANITARIAN INTERNSHIP. (4 Credits)
The Undergraduate course on Humanitarian Action: Theory and Application offers an introduction to humanitarian aid work and provides an understanding of the complexities and challenges the key actors face in an applied context. The course focuses on teaching the common principles of the world of humanitarian affairs, with a cross-cutting, interdisciplinary perspective that also analyzes gender, age differences, human rights frameworks, and indigenous cultural approaches to conflict and post-conflict phenomena. In addition to these teach topics, students would have an opportunity to intern at prominent international humanitarian organizations in New York. These would help them gain the necessary exposure and understanding of the dynamics of such organizations and their mission. Students would be required to meet with, and relate their experiences with the professor periodically and be mentored on how best to utilize the skills they gain to further advance their interests in humanitarian aid work. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HUST 4801. SUMMER HUMANITARIAN INTERNSHIP. (1 Credit)
This course offers students the opportunity to reflect on internship with an international humanitarian on intergovernmental organization in New York City.

HUST 4888. SENIOR THESIS SEMINAR. (4 Credits)
The seminar is designed to assist Humanitarian Studies Major students through the main stages of their thesis: formulating appropriate questions; undertaking effective research to answer those questions; organizing, analyzing and communicating findings and arguments. The seminar is a single-semester course, taken in students' senior year. The students will meet weekly to discuss problems of common interest under the guidance of faculty members from a variety of disciplines drawn from the major committee. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

HUST 4999. TUTORIAL. (1-4 Credits)

Independent Study (UG) (INDP)
INDP 2999. TUTORIAL. (0 Credits)
INDP 3800. INTERNSHIP. (3 Credits)
INDP 4800. INTERNSHIP. (1-4 Credits)
INDP 4999. TUTORIAL. (0.5-6 Credits)

Independent Study Law (INGL)
INGL ADD. STUDY ABROAD - ESADE SPAIN. (12 Credits)
INGL 0101. INDEPENDENT STUDY. (1 Credit)
INGL 0102. INDEPENDENT STUDY - 2 CR.. (2 Credits)
INGL 0103. INDEPENDENT STUDY - 3 CR.. (3 Credits)
INGL 0199. SEMESTER ABROAD: SKKU KOREA. (12 Credits)
INGL 0202. PERSPECTIVES ON DOCTRINAL ANALYSIS. (2 Credits)
This course surveys core U.S. legal doctrine in key areas tested on the Uniform Bar Exam (UBE) which will be administered in New York starting in July of 2016. Core subjects will be reviewed and analyzed and then serve as the foundation for practical application on all components (MBE, MEE, and MPT) of the UBE. Periodic exams throughout the semester and a final exam test students’ knowledge and skills toward success on the UBE. This is a graded, two credit course intended for graduating students who wish to jump start their bar exam preparation. It is not a substitute for a full bar review course. If you have additional questions, please contact Cynthia Juco in the Office of Student Affairs: cjuco@fordham.edu.

Attribute: JD.

INGL 0203. FUNDAMENTAL PRINCIPLES OF NEW YORK LAW. (2 Credits)
Fundamental Principles of New York Law introduces some of the most heavily-tested topics on the New York State Bar Examination to LL.M. students. This class focuses on substantive principles from the perspective of the New York State Bar Examination in: Contract Law, Criminal Law, Evidence, Real Property, Torts, and Domestic Relations. This course is designed to give LL.M. students an opportunity to learn specific topics and technique for the Bar Examination as part of their academic curriculum. Each session is dedicated to one of the six subject matters reviewed in this class. The first hour of every session will focus on the structure of the Bar Examination and various techniques to apply in this class and on the Bar Examination. Coordinated by LLM BAR EXAM, the remaining three hours of each session will be dedicated to a substantive review of the subject matters, taught by specialized lecturers. This class is only open to LL.M. students and available in the fall semester only.

Attribute: LLM.

Updated: 10-11-2017
Information Systems (Gabelli Graduate) (ISGB)

ISGB 799A. INFO TECH TRANSNATL FIRM. (3 Credits)
The course provides practical guidelines for managers to integrate international business with ICS planning and operations.

Prerequisites: INSY 6910 or GBA Waiver Information Systems with a score of 070.
ISGB 799D. CYBERSECURITY FOR BUSINESS. (3 Credits)
This class will explore the concepts of cyber risk management within an enterprise. The course will help a manager develop a solid understanding of cyber risk and successful mitigation strategies to reduce an organizations risk profile. The course will include topics such as IT control assessments, static and dynamic application security, network security, information security policies and standards, threat modeling and analysis, risk/benefits of BYOD (Bring your own device), IOT (The Internet of things), and many other real-time cyber topics. **Prerequisites:** ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 799E. FAB: ACCELERATOR FOR BUS WORKSH. (3 Credits)
The FAB is designed to provide an intensive experience for participants during which the may gain an appreciation for and knowledge in the partnership building, strategic and tactical execution required to launch and advance a start-up. Innovators will be immersed in and work directly with coaches and teammates with expertise in areas such as opportunity analysis, investment due diligence, market road-mapping, portfolio, governance, lean startup principles. **Prerequisite:** ISGB 6910. **Prerequisites:** ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 799F. HEALTH INFO TECHNOLOGY. (3 Credits)
Introduces students to the subject of health information technology (HIT) and describes the organizational context surrounding the implementation, use and management of HIT. Examines the concepts, applications, and strategies of HIT. Key concepts include the role of HIT in enabling quality, safety and efficiency of health care delivery. The course surveys the various types of HIT including electronic health records, clinical decision support systems, master patient indexes, analytics, telemedicine, etc. The organizational issues of user acceptance, value measurement, alignment, workflow analysis and management are also discussed. Contemporary developments including the trend towards service-oriented architectures/web services and meaningful use are highlighted. The key challenges of security, privacy, and compliance with regulations are also discussed. **Prerequisites:** ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 799G. MOBILE COMMERCE & APPLICATIONS. (3 Credits)
Roughly two-thirds if the world’s population participates in the new mobile economy. Leveraging the mobile marketplace requires a conceptual understanding of mobile-commerce as well as the practical skills needed to create the next generation of wireless enabled goods and services. This course will provide both, using a combination of global case studies and hands-on experience in building mobile applications for handheld devices. Selected topics: mobile supply chain management, m-banking and payment systems, machine-to machine commerce, location-based services, m-enterprise solutions, mobile advertising and customer analytics, the “app”, convergent devices (ex. iPhone), mobile marketplaces, and the use of mobile devices in developing countries (reducing information asymmetry). **Prerequisite:** IS 6910. **Attributes:** ABEB, ABIB. **Prerequisites:** ISGB 6910 or ICGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 799H. CLOUD COMPUTING. (3 Credits)
Cloud computing is one of the most important digital technology trends and a pillar of digital transformation. Business investment in cloud computing is expected to double in 2012-14. Leveraging the cloud in established and start-up companies requires a conceptual understanding of the cloud marketplace, ecosystem and vendor strategies, and practical skills to evaluate cloud investments, plan and deploy cloud solutions. Students will become familiar with various types of cloud services, cutting-edge enabling technologies and standards, management and governance issues, economic value as well as strategic effects of the cloud revolution in business. The course will consist of analysis of a rich set of global case studies, detailed discussion of relevant frameworks and concepts, and hands-on experience with cloud platforms. Speakers from the industry will further enhance the learning experience. **Prerequisite:** ISGB 6910. **Prerequisites:** ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070 or ICGB 6910.

ISGB 799I. BIG DATA ANALYTICS. (3 Credits)
As organizations today generate and store massive amounts of data, they face the key challenge of analyzing the data to gain key insight to make informed decisions. Traditional relational models of data storage and use appear to be ill-suited for these large data sets. Alternative distributed, cloud-based approaches have emerged to handle these big data sets. Frameworks such as the Hadoop platform including the Hadoop Distributed File System (HDFS) and MapReduce (M/R) framework at its core, allows for distributed processing of large data sets across clusters of computers using the Map and Reduce programming model. It is designed to scale up from a single server to thousands of machines, offering local computation and storage. This exploratory course discusses the contemporary topic of big data analytics and introduces Hadoop and related technologies in an introductory fashion. Topics include big data analytics life cycle, technologies, development and management, privacy and security, governance, examples and others. Students will work on workshops and assignments in Hadoop on the Amazon Web Services cloud. **Prerequisite:** ISGB 6910. **Prerequisites:** ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 799J. TECH START UPS. (3 Credits)
A Tech revolution is taking place in NYC, which has been recently named New Tech City (Center for an Urban Future, 2012). The growth of tech startups is destined to transform traditional NYC industries, such as financial services, healthcare, advertising, retailing, education and others. Lincoln Center is blocks away from this transformation and new job creation engine that is shaping the city. The course will try to answer the following question: How do you build a successful tech startup, taking into account startup technologies and trends, startup-specific business issues and strategies, and a clear understanding of the NYC tech startup ecosystem? The course will be based on a number of case studies (mostly HBS), conceptual understanding of tech startup methodologies and processes, hands-on tools and technologies, as well as guest speakers from the industry (CEOs/CTOs/VCs). A group project will enable students to dive deep into a specific tech startup segment, and develop a business proposal and startup prototype that combines understanding of technologies, business and IP issues and analytics. **Attributes:** Students with diverse backgrounds (IS, Marketing, Finance, etc) excited about Tech Startups and the opportunities the new ecosystem is creating. Students are encouraged to create interdisciplinary groups for the project. **Prerequisite:** ISGB 6910. **Attributes:** ABEB, ABEP. **Prerequisites:** ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

Updated: 10-11-2017
**ISGB 799K. BUSINESS APPLICATIONS DEV. (3 Credits)**

This course is an introduction to programming for business students. In today's business world, applications programming is the foundation to many business fields such as business intelligence and analytics, marketing intelligence and quantitative finance. Understanding how to construct business applications becomes essential for business students. This course introduces the programming of business applications using a widely used business programming language, Microsoft Visual Basic (VB) 2012. We will cover the following topics: Basic programming concepts including function, decision and loops; Fundamental VB terminologies such as variables, procedures and modules; Programming & UI design; The integrated development environment (IDE); Error handling and debugging; VBA applications programming. The topic is covered in the context of information systems and business application programs. Students will explore and implement solutions to real business problems using Visual Studio .Net and VBA.

**Prerequisite:** ISGB 6910.

**Is 799L. STUDY TOUR: GERMANY. (3 Credits)**

The study tour to Germany will be held from April 27 - May 7. It allows students to learn about the business environment in Germany and the European Union. Through academic presentations, company visits, and visits to cultural and historic sites, Student will learn how the current business practices in Germany have been influenced by its rich culture, the world wars and the formation of the European Union and technology led globalization. The study tour will include stays in Marburg, Frankfurt, and Munich. There is no pre-requisite for the course and it is open to all MBA students in good standing. Interested MS students should seek permission from their Academic Program Director or Academic Adviser to enroll in the course. Course related readings and pre-trip and post-trip assignments will be available in the first week of the spring semester. Expenses for the trip, including airfare are expected to be around $3,200 per student (in addition to the tuition for the course). Please contact Prof. Saharia with any questions about exam conflicts.

**Attribute:** ABI.

**ISGB 799M. LAW OF DIGITAL INNOVATION. (3 Credits)**

The course teaches how to make informed decisions on important legal topics in tech/tech-enabled industries from the point of view of leads on integrated product teams or senior executives making strategic decisions. It examines issues that technology entrepreneurs will face as they launch their for-profit or not-for-profit businesses. Topics will include business formation; corporate social responsibility; copyright, trademark, patent, trade secret, and privacy; contract law (nondisclosure/noncompete agreements, and tech licensing); good practices for using open source software; ethics and monetization. We will present both for-profit and not-for-profit practical examples for each topic. Industry experts will provide insights throughout the course as guest speakers.

**Prerequisite:** ISGB 6910.

**Prerequisites:** ISGB 6910 or GBA Waiver Information Systems with a score of 070.

**ISGB 799N. OPTIMIZATION MODELS IN BUS. (3 Credits)**

Optimization models seek to find the best decisions given a set of constraints. Applications are in diverse areas of business, including finance, logistics and marketing. The course will introduce different kinds of models, including network, linear programming, mixed-integer programming, and non-linear programming, and demonstrate their use in different areas of business. Students will learn how to use optimization software, including solvers and modeling languages.

**ISGB 799O. PROGRAMMING WITH PYTHON. (3 Credits)**

Do you want to be able to solve business problems through programming/coding? This courses introduces key programming concepts, techniques and tools. Students will learn programming/coding using the widely used Python programming language.

**ISGB 799P. SPORTS ANALYTICS. (3 Credits)**

Sports businesses achieve superior performance and gain competitive advantage by leveraging data and analytics. The course explores technologies, tools and analytics projects in Sports business.

**Prerequisite:** ISGB 6910.

**ISGB 799Q. ACCOUNTING INFO SYSTEM. (3 Credits)**

The purpose of this course is to introduce students to the subject of computer-based accounting information systems. The four critical objectives are a sound understanding in business processes, transaction cycles, internal controls and the systems components of each.

**Prerequisite:** ISGB 6910.

**ISGB 799R. IT AUDIT & INFO ASSURANCE. (3 Credits)**

This course will present an overview of the various elements of IT Audit and Information Assurance. Basic IT audit and information assurance concepts will be discussed and analyzed. General IT and application controls will be covered along with how the controls underlie SOX Section 404 Legislation. The course will also examine business processes, technologies and controls relating to financial reporting. Key components of information systems, including operating system security, database controls, network safeguards, systems development and application maintenance will also be covered. Technology processes supported under COBIT 5 will be discussed along with risk assessment techniques. The challenges around information assurance, data governance and privacy will be explored in detail.

**Prerequisite:** ISGB 6910.

**ISGB 799S. C++ PROGRAMMING. (3 Credits)**

This course will teach Object Oriented programming using the C++ programming language. Students will learn the fundamentals of developing coherent, expressive programs. Students will work on a realistic albeit simplified financial application project.

**Prerequisite:** ISGB 6910.

**ISGB 799T. AUDIT DATA ANALYTICS. (3 Credits)**

Introduces audit and accounting students to data analytics foundations, methods and tools. It reviews industry applications and trends. Students will do hands-on projects analyzing audit and other accounting data.

**Prerequisite:** ISGB 6910.

**ISGB 799U. ARTIFICIAL INTELLIGENCE. (3 Credits)**

The goal of this course is to acquaint you with the objectives and methods of researchers and practitioners in Artificial Intelligence. We will explore numerous aspects of computational models of intelligence including search and problem solving, planning, machine learning, logic and reasoning, machine perception and robotics, natural-language processing, speech recognition, vision, and cognitive science. We'll also discuss genetic algorithms, fuzzy logic and deep machine learning including neural networks. The ethics of Artificial Intelligence is also addressed. The course is organized as a survey, with hands-on assignments in open source artificial intelligence tools.

**Prerequisites:** BYGB 7967 or ISGB 7967 and BYGB 7977 or ISGB 7977 and BYGB 7990 or ISGB 7990.

**ISGB 799V. R STATISTICAL PROGRAMMING. (3 Credits)**

This is a programming course using the R programming language. Applications will focus on data analytics and statistical programming.

**Updated: 10-11-2017**
ISGB 6910. BUSINESS TECH & ANALYTICS. (3 Credits)
MBA CORE COURSE (Formerly "Business IT") This course focuses on applied tech and analytics skills for business managers/leaders, and strategic use of digital technologies in business. It will help students meet two objectives: (1) Make effective business decisions involving digital technologies and data; (2) Build essential hands-on software skills. We will use and demo a number of hands-on tools useful for managers and business leaders. Students will analyze case studies and will learn to become valuable participants in business decisions involving digital technologies. They will learn how to evaluate business applications, propose digital innovation ideas and work on a semester-long project to make data-driven decisions or develop a proposal/prototype for a company. Topics include enterprise applications, systems development processes, data management, data visualization, data mining, web technologies, IT for competitive advantage, e-commerce, creating a web presence, network effects and platform strategies, digital business models, digital innovation foundations & tech trends, cloud strategies, mobile commerce, social business technologies, adtech and cybersecurity. The course emphasizes applied active learning and a global perspective, informed by industry speakers from the vibrant NYC tech ecosystem. (This is an MBA core course, and a recommended course for other MS students interested in an introduction to business tech and analytics).

ISGB 7811. INFO SYSTEMS - INTERNSHIP. (1-3 Credits)

ISGB 7901. E BUSINESS STRATEGIES & APPL. (3 Credits)
This course introduces students to concepts, issues, technologies and trends essential to conducting business in the Internet-based digital economy. The main question answered is: How do you create a successful web presence for your company? The course emphasizes marketing aspect of e-business and hands-on skills on building effective business websites. The course reviews e-commerce systems (e.g., e-tailing, digital content, digital social media, etc) and applications such as web-based customer relationship management (CRM) and e-procurement. It addresses search engines, web analytics & metrics and discuss cutting-edge issues including e-retailing, content providers, Internet advertising technologies, e-payment systems, regulatory & tax issues, security & privacy concerns and mobile commerce. This course has a global focus through case studies in a variety of business sectors, including retailing, financial services, information services and global e-commerce. Hands-on skills include use of HTML, CSS, Javascript, WordPress, and other related technologies. In a group project, students will propose an e-commerce business strategy and create a website to implement it. PREREQUISITES: ISGB-6910.

Attributes: ABEB, ABIB.
Prerequisites: INSY 6910 or ISGB 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7902. SYSTEM ANALYSIS & DESIGN. (3 Credits)
(Formerly Systems Development) Companies launch systems development projects when they seek to develop new digitally-enabled services or to solve a multitude of business problems, such as inefficient business processes, poor information sharing etc. This course provides a comprehensive and up-to-date coverage of systems analysis and design and related systems development and software engineering issues in business. This course emphasizes technical skills, managerial skills, approaches, software tools, challenges, opportunities, and success factors in systems development within global companies and startups. Topics include: systems development lifecycle, agile development, open source and global development, capturing and managing system requirements, data and process modeling using the Unified Modeling Language (UML) standard, architectural and detailed design, testing and quality assurance, redesigning and optimizing business processes using cutting-edge BPM methods and software tools. The course addresses both the traditional (structured) and object-oriented approaches to systems development. It teaches the language that connects IT with business units, and cultivates essential skills for IS professionals and other business managers involved in developing new IT business solutions. Hands-on skills acquired include modeling using UML and structured methods, Microsoft’s Visio, IBM’s Rational Suite and IBM’s BPM software and other cloud-based or open-source modeling and development tools and platforms. Prerequisite: ISGB 6910.
Prerequisites: INSY 6910 or ISGB 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7905. WEB APPLICATIONS DEVELOPMENT. (3 Credits)
(Formerly Web Technologies and E-Business Applications) Begins with a brief review of e-business models and applications, such as online purchasing, customer relationship management, electronic marketplaces, application service providers, supply chains, enterprise resource planning and enterprise portals. Studies enabling technologies, such as Web, XML, Semantic Web, HTML, wireless web and XML web services. Also discusses web-based platforms for e-commerce, B2B trade and mobile applications. Reviews emerging XML standards, such as ebXML, Rosettanet and Biztalk, and web-based platforms, including Dot Net and J2EE. Students experience the systems development lifecycle while developing a website to meet business requirements and review real-life examples and case studies. Prerequisite: ISGB 6910.
Attributes: AEBE, ABEP.
Prerequisites: ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7910. INFO SYSTEMS STRATEGY & MGMT. (3 Credits)
Focuses on issues of aligning business and technology strategies. Addresses how IT supports business strategy and business processes, the role of the CIO, systems integration, outsourcing, the value of IT, selection of technologies IT strategy and infrastructure, dealing with emerging technologies and organizational issues surrounding technology implementations. This is the Information Systems area capstone course. Prerequisite: ISGB 6910.
Attributes: ABGS, ABIB.
Prerequisites: INSY 6910 or ISGB 6910 or GBA Waiver Information Systems with a score of 070.
ISGB 7922. HEALTHCARE IT. (3 Credits)
Introduces students to the subject of health information technology (HIT) and describes the organizational context surrounding the implementation, use and management of HIT. Examines the concepts, applications, and strategies of HIT. Key concepts include the role of HIT in enabling quality, safety and efficiency of health care delivery. The course surveys the various types of HIT including electronic health records, clinical decision support systems, master patient indexes, analytics, telemedicine, etc. The organizational issues of user acceptance, value measurement, alignment, workflow analysis and management are also discussed. Contemporary developments including the trend towards service-oriented architectures/web services and meaningful use are highlighted. The key challenges of security, privacy, and compliance with regulations are also discussed. Prerequisite: ISGB 6910.

Attribute: ABHM.
Prerequisites: ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7924. MOBILE E-COMMERCE & APPS. (3 Credits)
Roughly two-thirds of the world's population participates in the new mobile economy. Leveraging the mobile marketplace requires a conceptual understanding of mobile-commerce as well as the practical skills needed to create the next generation of wireless enabled goods and services. This course will provide both, using a combination of global case studies and hands-on experience in building mobile applications for handheld devices. PREREQUISITE: ISGB-6910.

Attribute: ABEB.
Prerequisites: ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7931. BUSINESS PROCESS MANAGEMENT. (3 Credits)
(Formerly ISGB Consulting and Organizational Design). This course begins with a conceptual understanding of business process evaluation, design, modeling, and analytics. Then the emphasis is placed on software suites and process modeling standards (e.g. BPMN) used for process improvement. Finally, it describes how the work of business process analysts can be exported into working process software using related software platforms and standards. Students will use software tools to do a process management project focusing on a specific industry (e.g. retail or financial services). Prerequisite: ISGB 6910.

Prerequisites: ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7941. NETWORK APPS & TELECOM POLICY. (3 Credits)
(Formerly Networks and Distributed Systems) Focuses on next-generation technologies with special attention to communication networks. Distributed Computing Systems (DCS) are used to connect many different and independent computers, databases and applications over networks to support business activities. The first part of the course highlights the role of networks in modern enterprises and discusses such topics as communication network technologies, network architectures and network interconnectivity, the Internet and its variants (public Internet, Intranet and Extranets), broadband networks and wireless networks (cellular networks, satellites, wireless LANs). The second part of the course discusses how enterprise applications and databases are interconnected through middleware services that reside above networks. Topics include distributed computing, client/server systems and web-based distributed and mobile applications. The topics of this course continually evolve to reflect the latest business and technical trends. Prerequisite: ISGB 6910.

Attribute: ABEB, ABEP.
Prerequisites: ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7945. IT AND SUSTAINABILITY. (3 Credits)
(Formerly Business Design Through IT). This course discusses the transformative role of information and communication technologies (ICTs) in enabling sustainability. ICTs' effect on sustainability dimensions are felt at both the macro, societal level, as well as at the business level. These include ICTs’ positive impact on development, education, environment, health care, power, transportation, and others. Simultaneously, ICTs themselves are subject to sustainability practices, for example, green computing. Additional topics include the design of smart cities, digital divide, the knowledge society, rebound effects, governance, and world development indicators. Students working in groups will analyze several contemporary cases from a global perspective and also develop an IT-based sustainability plan. Prerequisite: IS 6910.

Attributes: ABEB, ABGS.
Prerequisites: ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7955. PROJECT MANAGEMENT. (3 Credits)
Provides the skills project managers need to complete projects on time and on budget. Technology improvements in organizations are implemented through projects, and strong project management skills are a key success factor for companies to achieve the expected benefits from their technology investments. Topics include setting and maintaining project scope, developing work plans, estimating required resources, developing work programs, organizing project teams, super-users, monitoring and controlling projects, maintaining relationships with users and management, status reporting and key factors for realizing the anticipated benefits from the investment. Students use a computer-based project management tool as part of this course. Prerequisite: ISGB 6910.

Prerequisites: INSY 6910 or ISGB 6910 or GBA Waiver Information Systems with a score of 070 or IGCB 6910.
ISGB 7967. DATA MINING FOR BUSINESS. (3 Credits)
Discusses data mining techniques and their use in strategic business
decision making. A hands-on course that provides an understanding
of the key methods of data visualization, exploration, association,
classification, prediction, time series forecasting, clustering, induction
techniques, neural networks, and other methods. Students work in teams
on solving a business problem of their choice, using data mining tools
and applying them to real data. Prerequisite: ISGB 6910.
Prerequisites: ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7973. DATABASE MANAGEMENT. (3 Credits)
Covers the basics of database management, a critical element of all IT
organizations. Databases are the foundation for operational/transaction
systems and for management decision-making. Topics include types of
databases and the database environment, database analysis and data
modeling, database design with relational models, implementation issues
such as SQL, data administration, the Internet database environment and
distributed databases. Prerequisite: ISGB 6910.
Prerequisites: INSY 6910 or ISGB 6910 or GBA Waiver Information Systems with a score of 070 or ICGB 6910.

ISGB 7975. BUS ANALYTICS FOR MANAGERS. (3 Credits)
Introduces the concepts of business analytics and such related
concepts and techniques as business intelligence, data analytics,
data warehousing, data-mining and online analytical processing
(OLAP). The course explores the process, contents, and context of
managerial decision-making and looks at how business analytics can
help in improving management decision-support effectiveness in the
various functional areas of business such as marketing, finance and
manufacturing. Managers in general—not just IT professionals—stand to
gain from the discussion. Students gain hands-on experience in the use
of a comprehensive set of Business Intelligence (BI) tools. Prerequisite: IS 6910.
Prerequisites: ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7977. TEXT ANALYTICS. (3 Credits)
The course introduces the concepts of text analytics, unstructured
information analysis and management for better decision making by
deriving valuable insights from your enterprise content regardless of
source or format. It allows deep, rich text analysis of information.
Content analytics can help organizations surface undetected problems,
fix content-centric process inefficiencies, improve customer service and
corporate accountability, reduce operating costs and risks and
discover new revenue opportunities. Student groups will implement a
comprehensive content analytic project (SPSS Text Analytics/Content Analytics 2.0/UIMA). Prerequisite: ISGB 6910.
Prerequisites: ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7978. WEB ANALYTICS. (3 Credits)
Web analytics—also referred to as Web metrics, e-Metrics, or e-analytics
—is the science of Internet audience measurement and analysis. It
deals with the identification, gathering & formatting of Web usage data,
the computation and presentation of metrics, and the exploitation of
the results, in order to measure web site success. Meaningful insight
is gained from traffic and visitor analytics data. It not only covers the
unique measurement challenges associated with segmentation, but
also comes with strategic recommendations for focusing the entire
analytics process - from where to begin to what your larger, overall
web analytics goals should be (Google Analytics, IBM ShowCase Web
Attribute: ABEB.
Prerequisites: INSY 6910 or ISGB 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7980. BUS MODELING W/ADV SPRDSHEETS. (3 Credits)
Covers the vital role of advanced spreadsheet methods in business
modeling and decision-support. Students learn to build and analyze
decision-making models using a spreadsheet package (Excel), with
extensive hands-on use of the package and add-ins. Students model and
solve representative practical problems covering key business functions
such as accounting and finance, sales and marketing, management and
operations and human resources. Topics include various advanced
spread sheeting functions, “what-if” analysis, list and data management
tools, Solver and sensitivity analysis, simulation and forecasting models.
Prerequisite: A basic understanding of Microsoft Excel.
Prerequisites: ISGB 6910 or INSY 6910 or GBA Waiver Information Systems with a score of 070.

ISGB 7985. DATA WAREHOUSING. (3 Credits)
Provides an advanced, comprehensive overview of data warehousing
along with in-depth discussion of critical issues in planning, design,
deployment and ongoing maintenance. Students gain a clear
understanding of techniques for data extraction from source systems,
data cleansing, data transformations, data warehouse architecture and
infrastructure, and the various methods for information delivery.
Additional concepts discussed include data marts, real-time information
delivery, data visualization, requirements gathering methods, multi-
tier architecture, OLAP applications, Web click-stream analysis, data
warehouse appliances, and data-mining techniques. Students undertake
hands-on exercises and projects in commercial data warehousing
modeling and implementation tools and perform case analyses.
Prerequisite: ISGB 6910.
Prerequisites: ISGB 6910 or INSY 6910 or ICGB 6910 or GBA Waiver Information Systems with a score of 070 and ISGB 7973.
**Information Systems (Gabelli Undergraduate) (INSY)**

**INSY 2299. INFORMATION SYSTEMS : GSB INTEGRATED CORE ONLY. (1.5 Credits)**
This course introduces students to the subject of computer-based information systems in business. Upon completion of this course students should be familiar with the basic concepts and current developments in the field of information technology and information systems; appreciate the role of information systems in business organizations; and understand the issues that employing information technology raises. Students also learn to use effectively key software tools (spreadsheets and databases) that improve personal productivity and can contribute to business value.

**Attribute:** BUMI.

**Prerequisites:** (INSY 2300 or HPCB 2300 or INSY 2299) and ACBU 2222.

**INSY 3421. ACCOUNTING INFORMATION SYSTEMS. (3 Credits)**
This course introduces students to computer-based accounting information systems (AIS). Students master the understanding of business processes, transaction cycles and internal controls, as well as their respective current day systems components.

**Prerequisites:** (INSY 2300 or HPCB 2300 or INSY 2299) and ACBU 2222.

**INSY 3432. DATABASE SYSTEMS. (3 Credits)**
This course focuses on database design principles and techniques, including entity relationship model, relational model and normalization. Students will become familiar with SQL (structured query language) and database management system capabilities. The concepts and techniques are applied to practical business data processing environments. The course includes a series of exercises on design and implementation of database applications using commonly available database management systems. It is recommended that MICS majors and ICS primary concentrators take this course concurrent with, or prior to, Systems Analysis (INSY 3441).Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.

**Prerequisites:** INSY 2300 or HPCB 2300 or INSY 2299.
INSY 3433. PROGRAMMING WITH JAVA. (3 Credits)
(Formerly "Business Applications Development") This course provides an introduction to business applications development concepts, techniques and tools. Students will acquire practical skills and experience with object-oriented development using the Java language. Topics include the elements of the language, common Java classes, object-oriented programming including inheritance and interfaces, and object-oriented design. Examples will be drawn from various business areas.
Prerequisites: HPCB 2300 or INSY 2299 or INSY 2300.

INSY 3434. NETWORK APP AND TELECOM POLICY. (3 Credits)
(Formerly Telecommunications) An intensive examination of network and Internet technologies and standards, network design, network management and business value. Topics include local area networks (LAN), public and corporate networks, Internet backbone, broadband and wireless networks, client/server computing, and telecommunication services. In addition, the course explores strategic and policy issues and trends related to networking and telecommunications, such as networking neutrality. Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Prerequisites: INSY 2300 or INSY 2299 or HPCB 2300.

INSY 3436. ST:PROGRAMMING W/PYTHON. (3 Credits)
Do you want to be able to solve business problems through programming/coding? This courses introduces key programming concepts, techniques, and tools. Students will learn programming using the widely used Python programming language.
Prerequisites: INSY 2299 or INSY 2300.

INSY 3437. ST: SPORTS ANALYTICS. (3 Credits)
Sports businesses achieve superior performance and gain competitive advantage by leveraging data and analytics. The course explores technologies, tools, and analytics projects in sports business.
Prerequisites: INSY 2299 or INSY 2300.

INSY 3438. ST; CYBERSECURITY IN BUS. (3 Credits)
This class will explore the concepts of cyber risk management within an enterprise. The course will help a manager develop a solid understanding of cyber risk and successful mitigation strategies to reduce an organization’s risk profile. The course will include topics such as IT control assessments, static and dynamic application security, network security, information security policies and standards, threat modeling and analysis, risk/benefits of BYOD (“bring your own device”), IOT (the Internet of Things), and many other real-time cyber topics.
Prerequisites: INSY 2299 or INSY 2300.

INSY 3441. SYSTEMS ANALYSIS. (3 Credits)
An introduction to the process of developing information systems. Emphasizes soliciting business, user, and functional requirements, and building conceptual models that help to analyze these requirements. Major topics include project identification, selection, and planning; requirements solicitation, development, and management; business process modeling; and traditional and object-oriented system analysis techniques. It is recommended that MICS majors and ICS primary concentrators take Database Systems (INSY 3432) concurrent with, or prior to, this course.
Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Prerequisites: INSY 2300 or HPCB 2300 or INSY 2299.

INSY 3442. WEB APPS DESIGN AND DEVELOPMENT. (3 Credits)
(Formerly System Design) A well-designed web presence and useful web applications are essential for all companies today. This course focuses on hands-on development of web applications that create business value. Major topics include a review of project planning, system analysis, and project management; architecture design; detailed component, database, network, and (user and system) interface design; Web applications programming and testing; Web applications implementation (deployment and transition to use and support organization). It is recommended that students take Systems Analysis (INSY 3431) prior to this course.
Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.

Attribute: NMDD.
Prerequisites: INSY 2300 or INSY 2299 or HPCB 2300.

INSY 3450. ST: FINTECH - AN INTRODUCTION. (3 Credits)
FinTech is a new and emerging field of technology that is disrupting the way that many companies are conducting business. FinTech has already “forever” changed many sectors including mobile payments, social media, money transfers, loans, fundraising, travel, trading and asset management. It has completely revolutionized the way companies are developing products, conducting research, establishing directed sales and marketing plans, and utilizing start-up technology. Businesses are using FinTech to expand their products and services at a fraction of its previous cost. Entrepreneurs are utilizing FinTech as a central foundation for research, funding, and product development. Customers are already utilizing FinTech as part of their daily lives - mobile apps, social media, banking, online shopping, entertainment and gaming. This course will introduce students to the breadth of FinTech, and touch upon the technical underpinnings.
Prerequisites: INSY 2299 or INSY 2300.

INSY 4410. IT-DRIVEN GLOBAL SUPPLY CHAIN. (3 Credits)
(Formerly Info Sys in Global Context) This course provides an understanding of the information needs of global business organizations and how information technology can be leveraged for business success on a global scale focusing on global supply chain management systems and business issues. The course examines the role of IT in global firms through a combination of discussions and projects. Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Attribute: GLBB.
Prerequisites: INSY 2300 or INSY 2299 or HPCB 2300.

INSY 4411. ST: HEALTHCARE INFO TECH. (3 Credits)
Introduces students to the subject of health information technology (HIT) and describes the organizational context surrounding the implementation, use and management of HIT. Examines the concepts, applications, and strategies of HIT. Key concepts include the role of HIT in enabling quality, safety and efficiency of health care delivery. The course surveys the various types of HIT including electronic health records, clinical decision support systems, master patient indexes, analytics, telemedicine, etc.
Prerequisites: INSY 2299 or INSY 2300.

Updated: 10-11-2017
INSY 4412. ST: IT & SUSTAINABILITY. (3 Credits)
This course discusses the transformative role of information and communication technologies (ICTs) in enabling sustainability. ICT’s effect on sustainability dimensions are felt at both the macro, societal level, as well as at the business level. These include ICT’s positive impact on development, education, environment, health care, power, transportation, and others. Simultaneously, ICT’s themselves are subject to sustainability practices, for example, green computing. Additional topics include the design of smart cities, digital divide, the knowledge society, rebound effects, governance, and world development indicators. Students working in groups will analyze several contemporary cases form a global perspective and also develop IT-based sustainability plan.
Prerequisites: INSY 2299 or INSY 2300.

INSY 4430. THE LAW OF INNOVATION. (3 Credits)
The course examines the legal issues that technology entrepreneurs will face as they launch their for-profit, not-for-profit, or both for-profit and not-for-profit businesses. Topics will include business formation; corporate social responsibility; copyright, trademark, patent, trade secret, and privacy contract law (traditional, on the internet, nondisclosure/ noncompete agreements, and tech licensing); good practices for using open source software. We will present both for-profit and not-for-profit practical examples for each topic. The course requires reading the assigned text, which will include judicial opinions and scholarly articles. You will be encouraged to thoroughly read and discuss these sources. Industry experts will provide insights throughout the course as guest speakers. Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Prerequisites: INSY 2300 or HPCB 2300 or INSY 2299.

INSY 4431. WEB ANALYTICS. (3 Credits)
In a global market where Internet usage has increased dramatically, it’s becoming increasingly critical for businesses to be more aware of how their potential customers can find them via online search, understand the value of social media and understand website performance measures. Web analytics course aims to discover useful knowledge from Web hyperlinks, page content and usage log. The course covers the following topics: mining and integration of useful web content information, web structure analysis, social network analysis, web traffic and visitor analysis, Search Engine Optimization (SEO) and Pay-Per-Check (PPC) model in Search Engine Marketing (SEM). The course is a combination of lecture, case studies, hands-on exercises and a real world project. Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.

INSY 4432. MOBILE COMMERCE & APPS. (3 Credits)
Roughly two-thirds of the world’s population participates in the new mobile economy. Leveraging the mobile marketplace requires a conceptual understanding of mobile-commerce as well as the practical skills needed to create the next generation of wireless enabled goods and services. This course will provide both, using a combination of global case studies and hands-on experience in building mobile applications for handheld devices. Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.

INSY 4433. ST: DATA MINING FOR BUSINESS. (3 Credits)
This course discusses data-mining techniques and their use in strategic business decision-making. It is a hands-on course that provides an understanding of the key methods of data visualization, exploration, association, classification, prediction, time-series forecasting, clustering, induction techniques, neural networks, and other methods. Students work in teams on solving a business problem of their choice, applying data-mining tools to real data. Prerequisite: INSY 2299 or 2300.
Prerequisites: INSY 2299 or INSY 2300.

INSY 4435. ST: AIS CONSULTING PROJECT. (3 Credits)
Students define and implement controls to accurately capture and process data and to protect information assets against internal and external risks. Working in teams and under the guidance of a faculty mentor, students develop client solutions that are rooted in rigorous analysis. At the end of the term, students present their project findings to the client and receive client feedback. Students acquire consulting and project-management skills, and they network with industry professionals in the accounting and information system areas. Prerequisite: INSY 2299 or 2300, ACGB 2222 and 2223.
Prerequisites: INSY 2299 or INSY 2300 and (ACBU 2222 and ACBU 2223).

INSY 4449. ENTERPRISE SYSTEMS. (3 Credits)
(Formerly Enterprise Integration) This course provides an overview of issues related to implementing and managing information systems that enable enterprise-wide integration in organizations. This course focuses on ERP systems. Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Prerequisites: INSY 2300 or INSY 2299 or HPCB 2300.

INSY 4460. DATA WAREHOUSING. (3 Credits)
In this course students will explore issues related to implementing a data warehouse for business intelligence applications. Topics discussed include the use of decision support systems; business intelligence and business analytics; the separation between operational and decision support databases; designing and implementing data warehouses; loading and refreshing data warehouses; the use of tools to retrieve data from a warehouse; and the use of online analytical processing (OLAP) and related tools to analyze data. Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Prerequisites: INSY 2300 or INSY 2299 or HPCB 2300.

INSY 4505. E-COMMERCE. (3 Credits)
Internet technologies have become an important platform for business and commerce. This course introduces students to technologies, concepts, and business issues related to e-business and e-commerce. Topics include novel digital business models, applications and strategies; business-to-business and business-to-consumer e-commerce, digital marketing and advertising, social networks and technologies, security and privacy and intellectual property protection. A web authoring package will be used as a tool to assist us in gaining hands-on skills. Cross-listed with MKBU 4504. Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Attribute: NMDD.
Prerequisites: INSY 2300 or INSY 2299 or HPCB 2300.

Updated: 10-11-2017
INSY 4506. BUSINESS ANALYTICS. (3 Credits)
This course introduces Business Analytics and such related concepts and techniques as Business Intelligence (BI), data analytics, data warehousing, and data mining. It explores how business analytics can help in improving management decision-support effectiveness in such functional areas as marketing, finance, and manufacturing. The course is intended for business students in general and not just IS/IT specialists. In addition to conceptual material, students will gain substantial hands-on experience with a set of BI tools. Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Prerequisites: INSY 2300 or HPCB 2300 or INSY 2299.

INSY 4507. PROJECT MANAGEMENT. (3 Credits)
This course provides the project management skills needed to develop information and communications systems on time and within budget. It concentrates on methods and issues of organizing, planning and controlling of projects and the use of computer-based project management tools. Cross-listed with MGBU 4507. Prerequisite: INSY 2299 or INSY 2300 or HPCB 2300.
Prerequisites: INSY 2300 or INSY 2299 or HPCB 2300.

INSY 4508. BUSINESS MODELING WITH SPREADSHEETS. (3 Credits)
(Formerly "Advanced Spreadsheet Methods") Spreadsheets have become the near-exclusive tool used by millions of managers in analyzing business problems. Nowadays, spreadsheets contain many powerful tools that can be used to analyze more sophisticated models and make better decisions. This course introduces students to many advanced features in Microsoft excel and the key ideas of modeling and management decision making that will be important throughout their careers. Students will learn to build and analyze decision-making models in Excel. The emphasis is “hands-on” use of Microsoft Excel and its add-ins. Students will have opportunities to model and solve various representative practical problems in class and in homework using Excel. Students are expected to have basic understanding of Microsoft Excel prior to enrolling in this class.
Prerequisites: INSY 2300 or HPCB 2300 or INSY 2299.

INSY 4706. HONORS PROJECT 2 - INFO SYS. (3 Credits)
Honors project in Info Systems.

INSY 4800. GLOBAL INFORMATION TECHNOLOGY STRATEGY AND MANAGEMENT. (3 Credits)
(Formerly Information Resources Management) Information technology is playing an increasingly significant role in businesses’ global strategies. To be effective, one needs to understand how to use information technology to counter competitive forces and exploit opportunities created by globalization and electronic commerce. This capstone course addresses the issues involved in managing information systems resources in a global environment, including long-term planning for information systems, acquiring and implementing information systems resources, data center management, capacity planning and introduction of new technologies. The students will examine political and organizational issues in information systems implementation through case studies of global firms and class discussions. Prerequisite: Completion of at least two ICS upper-level courses; senior standing.
Attribute: GLBB.
Prerequisites: (INSY 2300 or HPCB 2300 or INSY 2299).

Insurance Law (ISGL)

ISGL 0351. INSURANCE LAW & LITIGATION. (2 Credits)
Every lawyer, in private practice, in the business sector, or in government, is likely to be confronted with insurance issues. This course is intended to provide a broad based introduction to insurance law. It will cover the nature and purpose of insurance, from the legal and economic perspective; different types of insurance, including first & third party insurance, personal and commercial insurance and reinsurance; state & federal regulation of insurer’s; issues of insurance coverage and interpretation; and duties and responsibilities of insurers and insureds. Emphasis will be placed on recent insurance cases which have resulted in sweeping changes. The events of 9/11, Katrina, the State Attorney Generals’ investigations of the insurance industry, recent New York Court of Appeals’ bad faith decisions, the AIG bailout, Health Insurance Reform, and the BP Gulf Oil spill and super Storm Sandy have also raised numerous issues, which we will review. The course will be taught from a litigation vantage point since much of insurance law has been developed in the courts.

Insurance Law (ISGL)

Integrative Neuroscience (NEUR)

NEUR 3999. TUTORIAL. (3 Credits)
NEUR 4900. NEUROSCIENCE CAPSTONE SEMINAR. (1 Credit)
Senior-level integrative Neuroscience majors from all three tracks meet weekly in the spring semester to share and discuss the results of their independent research. Students will be required to give a minimum of two presentations of their research, once in first half of the semester and again in the second half. The content of this course will build upon what students learned in NEUR 4999 the previous semester.

Intellectual Property (IPGL)

IPGL 0130. COPYRIGHT LAW. (3-4 Credits)
This course examines the law of copyrights including discussions of subject matter, ownership, duration, rights, infringement, fair use and remedies.

IPGL 0131. PATENT LAW. (2-3 Credits)
This course is an introduction to patent law intended both for students intending to focus their practice on patents and for those preparing for a more general commercial practice. Patent law is a fascinating legal topic because of its combination of statutory and common law elements, its international aspects, and the thorny issues that accompany attempts to match the evolution of the law with the evolution of technology. Because of the importance of intellectual property assets and of technology in general, a basic familiarity with patent law is useful in virtually any commercial practice. The course focuses primarily on substantive patent law, including the law governing patentability and the law concerned with enforcing patent rights. A basic introduction to the United States patent system and the respective roles of the US Patent and Trademark Office and the courts will also be given.

IPGL 0135. INTELLECTUAL PROPERTY LAW. (3-4 Credits)
This course is designed as an introductory overview of the protection of intellectual property. The course will examine the policies underlying intellectual property law and will teach the basic principles of patent, copyright, and trademark law. Particular emphasis will be placed on the challenges of new technology to the legal regime for intellectual property.
IPGL 0156. BIOTECHNOLOGY PATENTS IN FOOD, DRUG AND VACCINE REGULATIONS. (2 Credits)
There is a thriving biotechnology industry in the United States today and well over 1,450 technology companies developing diagnostic and treatment technologies in medicine, creating more nutritional food and innovating new industrial processes. Yet this 30 billion dollar sector of the economy is not without controversy. The bio in biotechnology comes from living biological entities—people, plants, animals and even bacteria. People are the source of the raw material for the discovery of genes for research, diagnosis and therapy, raising a whole host of issues about rights and responsibilities and societal obligations. Paper required. Attributes: IPIE, LLM.

IPGL 0199. PATENTS&PHARMACEUTICAL INDUST. (2 Credits)
Pharmaceuticals are one of the few fields where most experts agree that without patent protection there would be little or no innovation. Research based pharmaceutical companies have since the early 60's consistently delivered successful new cures for the diseases that afflict us. However, the reputation of this industry along with pharmaceutical patents has never been worse. This course will try to answer why and what should be done about it. Attributes: IPIE, LAWT, LLM.

IPGL 0203. LAW PRACTICE TECHNOLOGY. (2 Credits)
This course will cover the technological tools of law practice, giving students both an opportunity to use these tools and an understanding of their development. Students will explore case management systems, e-discovery tools, competitive intelligence solutions, firm-specific research portals, and some of the other rapidly evolving applications and devices confronting the 21st-century attorney. "Hands-on" use of these tools will be emphasized. Students will also explore the issues arising from new technological developments in law practice. These topics include new ethics requirements for more technologically savvy attorneys, the implications of technology on client confidentiality, and the automation of Alternative Dispute Resolution. Guest lecturers from local law offices may be invited to showcase examples of the technology adopted in their offices and the accompanying best practices.

IPGL 0204. TECHNOLOGICAL CHANGE & THE LAW. (2 Credits)
This course surveys the ways in which law interacts with emerging technologies. We will consider a variety of controversies involving, for example, virtual currency, health technologies, surveillance, and robotics. Attribute: IPIE.

IPGL 0206. TECHNOLOGY AND PRIVACY LAW PRACTICUM. (3 Credits)
This 3 credit seminar for JD students will give students an understanding of and practical experience in privacy law set in the educational context. The seminar will have a doctrinal component through which students will learn the substantive law of privacy for educational records and school data (including FERPA, PPRA, COPPA, etc.). The practical skills component will then provide students with hands-on experience drafting privacy law training materials on educational technologies for public schools as well as working with online service contracts for school services. Appropriate seminar work product will be disseminated publicly through the Fordham Center on Law and Information Policy's website. Attributes: IPIS, JD, LAW.

IPGL 0213. TRADEMARKS IN PRACTICE. (2 Credits)
The two-credit seminar course will provide an overview of various subjects common to a general trademarks practice in the United States, presented from a practical, real world perspective. Course subject matter will be discussed in a chronological manner through the lens of a particular "client" hypothetically counseled by the class collective throughout the semester. The virtual "client" will first seek the class's guidance in adoption of a trademark, and then will require assistance with various issues subsequently faced by the client throughout the life of the mark. Specifically, the course will focus upon (i) due diligence and selection of a mark, (ii) USPTO registration and trademark prosecution, (iii) policing and protection of trademark rights vis-a-vis potential infringers, (iv) licensing and assignment, and (v) maintenance of trademark rights and registration. The course will include a writing component with periodic writing assignments designed to provide students with experience drafting common documents which are likely to cross a young attorney's desk in any general business or intellectual property firm, or within an in-house practice. Reading assignments will be required in advance of each class meeting so as to provide an introduction to a particular topic and background for robust class discussion. The course will discuss common law doctrine and statutory law by way of background in applying these concepts to concrete tasks required by clients in practice. Therefore, although students may first complete an introductory trademarks or intellectual property survey course, the seminar may also prove beneficial for LL.M. students outside of the IP/IT program who may not have a substantial background in intellectual property.
Attributes: LAWT, LLM.

IPGL 0215. SURVEILLANCE AND PRIVACY IN THE DIGITAL AGE. (2 Credits)
New technologies, from the Internet to cell phones to drones, have re-shaped the world in the past few decades. They have brought new modes of communications and new conveniences—as well as new opportunities for surveillance. This course will explore how the current constitutional and statutory frameworks address surveillance in the digital world and how laws and policies should regulate any threats to privacy posed by the use of emerging surveillance technology.
Attributes: CORC, CRCP, IPIE, LAWT.

IPGL 0223. TRADEMARK PRACTICUM. (2 Credits)
This two-credit seminar course for JD and LL.M. candidates, taught by an experienced attorney from an international intellectual property law firm, will provide a practical, hands-on approach to working as a business-minded, intellectual property lawyer, with a primary but non-exclusive focus on trademarks. Throughout the semester, classes will consist of numerous workshops in which students will learn and apply basic aspects of U.S. trademark law and other, including some foreign, intellectual property laws and treaties. Students will, at times, play the roles of in-house counsel, outside counsel, or the examining attorney in the U.S. Trademark Office. Apart from workshops, the course will include occasional guest lectures by experienced practitioners in different settings. The course is designed for students that have taken at least one introductory trademark or intellectual property survey course.
Attributes: IPIS, JD, LAWT.
IPGL 0227. INTEL PROP: ELEC & SOFTWARE. (2-3 Credits)
Electronics and software are central components of the real world and of the legal world. This course will explore the implications of intellectual property law, primarily patent law and copyright law, for electronics and computer software, with an effort to connect the legal rules to their real-world effects. The course will begin with a short, accessible introduction to the technologies, with the goal of providing students with sufficient familiarity to understand and appreciate the legal issues. The course will then move on to the two substantive legal areas. In patent law, the course will cover both basic doctrinal issues—including patentability (particularly of software), infringement, and exhaustion—and several current problems—such as standard-setting, the cellphone patent wars, and patent trolls. In copyright, the course will again cover both doctrine—such as copyrightability (of the structure of computer programs, for example) and fair use—and current issues—such as open-source licensing, Google Books, and linking. The primary focus will be on U.S. law, where these issues have been explored most fully, but there will also be references to Western Europe and East Asian jurisdictions.
Attributes: JD, LLM.

IPGL 0228. IP & TECH IN GLOBAL CONTEXT. (3 Credits)
This course will provide students with an immersive introduction to U.S. Patent Law, Copyright Law and Trademark Law, and explore legal issues that arise out of the creation, innovation, distribution, and consumption of intellectual property driven goods and services in the United States and worldwide. In addition to the basics of Intellectual Property laws and policies, students will learn how and why U.S. patent law has become increasing harmonized with the patent laws of other nations, and how trade negotiations and trade policies impact the enforcement of multination copyright and trademark treaties.

IPGL 0229. FASHION MODELING LAW. (2-3 Credits)
The seminar will provide a comprehensive overview of the legal, business and societal issues faced by fashion models and their agencies. Topics will include the structural, legal and regulatory constraints within which the industry functions; formation and dissolution of business relationships among fashion models, agencies and clients; intellectual property rights, use and misuse, and litigation as a remedy; the effect of digital media and social networking on the fashion modeling business; immigration and finance concerns; and the significant social and cultural issues relevant to the industry. An in-class final exam is required.
Attributes: FASL, LAWB, LAWF, LAWI, LAWT, LIP.

IPGL 0231. PATENT LITIGATION. (2 Credits)
The course covers all aspects of patent litigation from pre-filing considerations to appeal and is designed to address problems that arise in real-world lawsuits. Particular attention is devoted to initial pleadings, discovery, motion practice, and the use of technical experts at trial. The role of juries in patent litigation is also discussed, including the recent advent of so-called Markman Hearings. Lastly practical trial preparation techniques, trial practice, and the law of remedies will be explored.
Attributes: IPIE, LAWT, LIDR, LLM.

IPGL 0232. COPYRIGHT LITIGATION. (2 Credits)
In this course students are given a detailed hypothetical, usually in the field of literary property or the visual arts, and are asked to draft various court papers in a copyright infringement litigation. The first classes deal with certain pre-litigation issues, such as defining what actions are "arising under" copyright law, registration requirements, and the statute of limitations. Students are then asked to draft a copyright infringement Complaint based on the hypothetical. In subsequent classes students are asked to draft an Answer to the Complaint, a Document Request, a set of questions for use at the oral deposition of a witness, and possibly other court papers. Students will be provided with examples from actual copyright infringement lawsuits. The drafts will be circulated in advance of the class and will be discussed at the class. The course seeks to develop the skills needed to draft effective court papers in a copyright infringement lawsuit.
Attributes: IPIE, JD, LAWT, LLM.
Prerequisite: IPGL 0130.

IPGL 0233. FASHION LAW. (2-3 Credits)
This seminar explores the legal substance of style, with emphasis on current issues involving clothing and the global fashion industry. Topics will include the application of intellectual property law to fashion design; counterfeiting and alleged links to organized crime and terrorism; licensing agreements; import/export regulations and quotas; fashion financing; garment district zoning and urban planning; manufacturing and sustainability; consumer protection; sumptuary laws; and civil rights issues related to apparel. Schedule final exam required. If students wish to satisfy the writing requirement, they must complete a 25 page paper in addition the the scheduled final and may receive a 4th credit for the paper.
Attributes: FASL, IPIE, LAWB, LAWF, LAWI, LAWT.

IPGL 0239. INTELLECTUAL PROPERTY LAW & DESIGN. (2 Credits)
What do a couture gown and a semiconductor chip have in common? Neither adapts easily to the traditional categories of the intellectual property law system. IP assumes a fundamental division between expression and function, institutionalized in the separate forms of copyright and patent protection. Most of the created objects that we encounter in our daily lives, however — from the buildings in which we live to the clothes we wear to the icons on our computer screens — combine aesthetic, expressive, and functional elements. This seminar explores the concept of design as it relates to intellectual property law, including the domestic and international doctrines and mechanisms that address the perceived gap between art and craft. In the process, we will examine the theoretical underpinnings of IP law itself, along with the ways in which creative industries raging from fashion design to information technology to architecture (and many others) have responded to the challenges of the IP regime. Paper required.
Attributes: IPIE, JD, LAWT, LLM.
IPGL 0302. BEYOND INTELLECTUAL PROPERTY: THEORETICAL & INTERNATIONAL PERSPECTIVES. (2 Credits)
The course will explore the interconnection between intellectual property and related subjects, focusing this year on the challenges of advanced technologies, artificial intelligence, machine learning, robots and cyberspace, on intellectual property, privacy and other legal regimes in the 3A era (autonomous, advanced and automated). The course constitutes novel and non-traditional perspectives of the interconnections between advanced digital technologies and intellectual property laws. Each of the topics will be presented and discussed within the practical challenges as well as the theoretical background and international contexts, in the US and in comparative jurisdictions. Moreover, many of the topics are related to either drafts, suggestions or recommendations of international conventions being discussed by leading international organizations, especially WIPO (World Intellectual Property Organization). The course will address, inter alia, the following topics: intellectual property, artificial intelligence, machine learning and robots, 3D printings, the challenges to intellectual property in the digital - cyberspace era and cyberspace privacy, theoretical justifications to intellectual property, the mainstream justifications as well as the hidden justifications, intellectual property rights in the workplace, traditional knowledge, intellectual property and gender, access to knowledge for persons with disabilities, freedom of association of workers from the entertainment sector vs. competition and antitrust laws and many more. The unique character of the course will be the involvement of the students in conducting legal research (US laws, comparative and international and theoretical aspects) and preparing a paper to be published and/or to be submitted (subject to certain limitations) to the relevant international organizations (i.e. WIPO). In this way the student will work on research projects that promote innovative recommendations through the design, implementation, and reform of relating conventions and have the opportunity to try to influence the policy makers. The students will gain not only knowledge and tools on contemporary advanced technologies issues as well as theoretical, international and comparative legal knowledge but also will acquire new ways of thinking and practical legal experience. The students of this course have the option to attend an international seminar in the most important intellectual property international organizations: WIPO in Geneva and also visit the Swiss Institute of Comparative Law in Lausanne, subject to the approval and conditions of the specific organization and the enrollment of a minimum number of students. Some of the final works will have the option of being published, under certain conditions. The course will include two academic hours of class presentations per week followed by one hour, once in 2-3 weeks, of consulting meetings and discussion with the students regarding their research. It is highly recommended to take the fieldwork, but it is not mandatory. The students are most welcome to send any question, regarding the course, to Professor Shlomit Yanisky-Ravid, via email (shlomit.yanisky-ravid@yale.edu).
Attributes: LAW.

Prerequisite: IPGL 0302 (may be taken concurrently).

IPGL 0303. BEYOND INTELLECTUAL PROPERTY FIELDWORK. (1 Credit)
The course will explore the interconnection between intellectual property and related subjects, focusing this year on the challenges of advanced technologies, artificial intelligence, machine learning, robots and cyberspace, on intellectual property, privacy and other legal regimes in the 3A era (autonomous, advanced and automated). The course constitutes novel and non-traditional perspectives of the interconnections between advanced digital technologies and intellectual property laws. Attributes: JD, LAWT.

IPGL 0304. TRADEMARK LAW. (2,3 Credits)
This course examines the law of trademarks, trade secrets, right of publicity and related doctrines. The emphasis will be on trademark law including discussion of subject matter, ownership, infringement and remedies.
Attributes: IPIF, LAWT, LIP.
IPGL 0307. ADV COPYRIGHT LAW. (2,3 Credits)
Paper required. Satisfies Writing Requirement. An in-depth analysis of selected areas of copyright law. Will have some guest speakers who will discuss copyright issues and practice in specific industries. Can use any copyright casebook you had for a course. Preferred casebook is Copyright Law, Joyce, et al., 9th edition. Prerequisite: Copyright Law or Intellectual Property Law or copyright course in other school, or for LL.M.s, without prerequisite course, experience in copyright law.
Attributes: IPIE, JD, LAWT, LLM.
Prerequisite: IPGL 0130.

IPGL 0308. TRADEMARKS AND FREEDOM OF EXPRESSION. (3 Credits)
This course is primarily directed towards reexamining how traditional applications of trademark law have been modeled, adapted, and then transformed by today's emphasis on branding, marketing, and digital technology. Special attention will also be paid to the role of constitutional protections, such as the First Amendment, in protecting free speech, consumer commentary and artistic expression. The course is divided into roughly three parts: the first part focuses mostly on the role of trademark law in the creation of advertising, branding, and marketing, particularly with respect to today's most successful global brands. The second part of the course focuses on the role of consumers and artists, both internationally and domestically, who engage in artistic and political activity to challenge the expansion of branding. Here, special attention will be paid to artists, consumers, and parodists who utilize brands to critique corporations, and the case law that has been generated around their efforts in real space and in cyberspace. The final part of the course concentrates on the role of the First Amendment in governing artistic, commercial and political expression, particularly in light of recent legislative, judicial, and market developments in trademark law and fair use protections. Throughout, we will also feature a few guest speakers, including artists, activists and lawyers who work in this area. While some background in trademarks is preferred, it is not required. This course requires a written paper and a presentation, and the paper can be used to satisfy the writing requirement.
Attributes: JD, LAWT, LLM.

IPGL 0320. ART LAW. (2,3 Credits)
Integrally related to intellectual property, art law encompasses the complexities of international law, contract law, and Constitutional law. This seminar will examine the intersection between the law and the art world, a complex world of individuals, institutions, and expressive works. We will explore some of the legal issues associated with those intersections and relationships. The seminar will examine participants' roles, including artists; art patrons and consumers; art dealers and auction houses; government officials; art experts, such as museums, historians, and critics; as well as the "bad guys," such as forgers, thieves, and looters. We will analyze the relationships between art institutions and those who produce, collect, protect, and "deal" in art. The substance of the course is an exploration of legal issues, including but not limited to, expressive rights, intellectual property, and moral and economic rights. The course will also focus on the international movement of art in times of peace and war, as well as the preservation and protection of antiquities and cultural property. Student evaluation will be based on class participation, a final paper, and the completion of ongoing readings accompanied by short assignments. In addition to class meetings, students will also be required to view films, attend lectures, and visit museums outside of the regularly scheduled class time.
Attributes: IPIE, LAWT.

IPGL 0321. ART LAW PRACTICUM. (2,4 Credits)
The Art Law Practicum will focus on the relationship between intellectual property and art. Through discussions, assignments, class readings, visual materials, guest speakers, and field trips, this course will examine how copyright, moral rights, trademark, and rights of publicity affect the production and reception of contemporary art. Practical aspects of this course will include issues with interacting, advising, and representing contemporary artists and arts entities who work in and exhibit diverse artistic practices, strategies and media, such as appropriation art, photography, video/film, conceptual art, digital art, and organic materials. This course will also introduce students to major 20th Century and contemporary art movements and theories necessary to understanding contemporary art and law.
Attributes: LAWT, LLM.

IPGL 0329. FASHION LAW PRACTICUM. (2,3 Credits)
Prerequisite: Submission of an application to the Fashion Law Institute's university email address, fashionlaw@fordham.edu, with the subject header, "Application for Fashion Law Practicum Spring 2018," no later than MONDAY, OCTOBER 9, at noon. The application should consist of a maximum 200-word statement about the applicant's qualifications, a resume, and a transcript. Applications made in person, submitted in hard copy, or sent after the due date will be given lowest priority. Only students who receive notification that they have been accepted to the course will be permitted to register. The Registrar's Office will register accepted students. Please note that acceptance into the course and registration are contingent upon subsequent approval by the fashion house or other fashion-related company, nonprofit organization, or law firm to whom the applicant is assigned for the fieldwork component of the course.
This advanced seminar, which consists of both a classroom component and a fieldwork placement, will develop students' skills in the practice of fashion law. Students will complete a series of drafting assignments of increasing complexity, such as a cease-and-desist letter, a licensing agreement, a retail lease, a manufacturing agreement, an employment agreement, a consignment agreement, articles of organization and an operating agreement for a limited liability company, a model release form, sweepstakes rules, website terms of use, and a privacy policy and/or a complaint, each related to an aspect of fashion law. In addition, each student will be assigned to fieldwork placement at a fashion house or other fashion-related company, nonprofit organization, or law firm with a substantial practice in the field of fashion law.
Attributes: FASL, IPIS, LAWF, LLM.
IPGL 0510. FASHION LAW & FINANCE. (2 Credits)
Product design, manufacture, distribution, and sales within the fashion industry are engaged in on a global level. In order to fully and effectively manage a fashion company, it is necessary to implement a multinational strategy and to take advantage of the growing market. This course intends to introduce many of the aspects of finance and taxation that both affect and influence the fashion industry. The course will offer an introduction to subjects including corporations, federal taxation and international law all while exploring their unique effects on the fashion industry. During the course of the semester, outside speakers may be brought in to relate their experiences in the industry and elaborate on topics we discuss in class. Students do not need a background in finance or taxation as a prerequisite to taking this course and are encouraged to enroll so as to expand their knowledge of the fashion industry. We will begin by creating a hypothetical case study of a small fashion company which wants to expand. Initially it will need financing to get off the ground. Many years later it will be a global conglomerate. The course will walk through the evolutionary stages of a global fashion house. Course Requirements: Class attendance and preparation. Active class participation is strongly encouraged. Readings will be assigned weekly and you are expected to bring the assigned course materials to class. Class participation is also important. This class is a paper course.
Attributes: FASL, ICE, LAWF, LAWT, LLM.

IPGL 0521. INTL & COMP. PATENT LAW. (2 Credits)

IPGL 0529. FASHION ETHICS, SUSTAINABILITY AND DEVELOPMENT. (2 Credits)
Ethics is a rapidly growing concern for fashion companies and their attorneys today. Topics covered in this seminar include ethical sourcing, design and manufacturing; supply chain monitoring; blood diamonds and conflict minerals; corporate reporting requirements; eco-chic or "green" fashion and environmental impact; the Federal Trade Commission's Green Guides; fair trade; cruelty-free fashion; religious fashion; fashion-related nonprofits; corporate social responsibility and charitable co-branding; and fashion’s role in international development, including ethical issues raised by clothing donations to the poor and to developing countries. Students may apply for an optional one-credit fieldwork placement at a fashion company, nonprofit organization, or law firm. Final paper required.
Attributes: FASL, ICE, INLJ, LAWB, LAWF, LAWI.

IPGL 0615. CYBERSECURITY LAW AND POLICY WORKSHOP. (3 Credits)
This seminar will introduce students to the significant challenges that government, law enforcement and the private sector face in addressing cybersecurity risks. The seminar will focus on cyber threats that have significant legal, economic and social consequences and threats that jeopardize national security. Students will learn about US technological vulnerabilities, the existing legal and policy framework and the development of new policies to protect US interests including those for cyber-defenses and the protection of civil liberties.
Attributes: CORC, CRCP, INLJ, IPIE, JD, LAWJ, LAWT, LLM.

IPGL 0690. COPYRIGHT, TRADEMARK & TECHNOLOGY (IP Drafting). (2 Credits)
This is a drafting course that will focus on services that a "soft IP" associate can provide for clients operating in the field of emerging technologies. The class will focus on the ways technological advances will be used in television, marketing, advertising, video games, sports, parody, and music, and their impact on copyright, trademark, rights of publicity and privacy law. There will be no substantive patent law, and a technology background is not necessary. Most weeks, the class will have a guest "client" working in the field of emerging technology to propose a problem for which the students will draft a solution. Through these writing assignments, students will be exposed to the kinds of work product they will be expected to generate in the early parts of their careers in the field of copyright and trademark law. This will include drafting cease and desist letters, opinion letters, DMCA notices and subpoenas, and sections of briefs.
Attributes: IPIE, JD, LAW.

IPGL 0709. SUSTAIN, TECH LAW & POLICY. (2 Credits)

IPGL 0781. FASHION LICENSING. (2 Credits)
Every major fashion brand today is developing and securing its intellectual property — copyrights, trademarks, and patents. In this course, we will review the law and business of fashion licensing, the anatomy of a license agreement, and current trends in the industry in the US and worldwide. Cases regarding copyright and trademark infringement and counterfeiting will be discussed and reviewed. Monthly writing assignments with 1 final paper/presentation. Professor Angela Byun.
Attributes: FASL, IPIE, LAW, LAWF, LAWT, LLM.

IPGL 0799. LAW & THE VIRTUAL WORLD. (2 Credits)
Law and the Virtual World will examine how the Internet and the virtual worlds that comprise it have affected our legal norms, as well as our conceptions of community, jurisdiction, injury, and remedy.
Attributes: LAWT, LLM.

IPGL 0991. FASHION RETAIL LAW. (2 Credits)
This colloquium will explore legal issues related to fashion retailing, from single-brand boutiques to large multi-brand stores. Topics include the structure of fashion retailing; vendor relationships, including anti-trust considerations; pricing structures; labor and employment issues, including recruitment, compensation, non-competition agreements, and dress codes; advertising, including co-branding and social media issues; security, inventory control; online sales policies and the relationship between online and brick-and-mortar sales; and regulatory requirements.
IPGL 0992. CHINESE INTELLECTUAL PROPERTY LAW. (2-3 Credits)
Chinese intellectual property law is a THREE credit condensed class, that we expect to complete after meeting for four hours per class session over TEN weeks. The class is a survey of developments in intellectual property law in China (patents, trademarks, copyrights, trade secrets, licensing as well as US remedies). The class will enable students to provide basic strategic advice to clients on how China utilizes intellectual property for its own industrial development purposes, and what legal tools are available to mitigate these challenges. We will also analyze new developments as they appear during our course work, and we will have guest speakers from practice. Readings will be distributed by email and by readings on reserve. <p> For our EIGHTH OR NINTH class [or sixth class] we expect to schedule a study visit to Washington, DC where we will visit the USPTO, the Court of Appeals for the Federal Circuit, and other agencies. In the past we met the Director and Deputy Director of the USPTO, the Chief Judge of the Court of Appeals for the Federal Circuit, and other important actors in Chinese IP. The study visit would likely take the place of two class sessions AND OUR CLASS SCHEDULE MAY BE ADJUSTED ACCORDINGLY. <p> There is no final exam. This class involves preparation of a final paper which is due one week before the commencement of final exams. The paper will involve examination of a particular problem under Chinese IP law, a comparison of that problem with practice in other countries, an analysis of the economic or social impact of the problem, and a proposed resolution of the problem, utilizing information and approaches discussed in class. Students may freely consult with Prof. Cohen in preparation of the paper. In prior years a significant percentage of students have been successful in having their papers published. The final grade is based on a class performance, paper presentation and final written paper. <p> There are no prerequisites for the class. Knowledge of IP law, Chinese law or Chinese language is helpful, but certainly not required. Students who have taken intellectual property law in China may find that the class approaches IP issues in China differently from their prior training, and that the class is not repetitive of their prior work. <p> Students with a particular interest in a specific field of IP law in China, such as life sciences patenting, software protection, geographical indications, protection for fashion designs, Chinese legal history, or US litigation to deal with Chinese IP infringement, will find ample opportunity to pursue their passions in class work and their final papers. This will be the third year that this class has been offered at Fordham. It was the first class on Chinese IP law taught in North America. Professor Cohen has 30 years’ experience in this area. He was formerly a Visiting Professor at Fordham, who now leads the China team at the US Patent and Trademark Office. He was formerly the US IPR Attache at the US Embassy in Beijing (2004-2008). He is also on the faculty of Renmin (Peoples) University of China, and has worked in house at Microsoft, at Jones Day, as general counsel of a pharmaceutical company, and as a solo practitioner. 
Attributes: ICE, IPIE, LAWI, LAWT, LLM.

IPGL 1321. CONTEMPORARY ART LAW AND PRACTICE FIELDWORK. (2 Credits)
Students in the course will gain an understanding of, and practical experience in, the corporate and transactional legal issues and concerns faced by visual artists and arts organizations and the legal professionals who represent and counsel them. The students’ experience will consist of two components, a seminar and supervised arts-related fieldwork related to The Art & Law Program (http://artlawoffice.com/education/art-law-program/). Additionally, the course will feature guest speakers with an expertise in authentication disputes, gallery-artist disagreements, as well as current copyright and trademark issues in art law. The seminar will cover theoretical and practical aspects of representation in corporate and transactional law. The substantive law in the seminar will include those areas typically faced by arts clients, such as artist-gallery relationships, copyright, moral rights, trademark, contracts, commissions, and entity formation, including nonprofit, tax-exempt corporations. Practical aspects will include issues with interacting, advising, and representing contemporary artists working in diverse strategies and media, from conceptual art to digital and organic materials. In order to facilitate the latter aspect, the course will also introduce students to major 20th Century art movements and theories necessary to understanding contemporary art. In the supervised fieldwork, students will spend eight to ten hours each week outside of class working on behalf of an artist currently in The Art & Law Program. The artists in The Art & Law Program all have diverse practices ranging from the fields of contemporary art, architecture, film, curating, and writing. Field work will consist of meeting with the artists; drafting memoranda stemming from student-artist meetings; and legal research and writing based on the artists’ questions. Students will also discuss ethical, tactical, legal and institutional issues that arise during class as well as their meetings with and research for the artists. Coursework from both seminar and fieldwork will be assigned. No laptops allowed in class.
Attributes: JD, LAWT, LLM.

IPGL 1529. FASHION ETHICS FLDWK. (1 Credit)
Ethics is a rapidly growing concern for fashion companies and their attorneys today. Topics covered in this seminar include ethical sourcing, design and manufacturing; supply chain monitoring; blood diamonds and conflict minerals; corporate reporting requirements; eco-chic or “green” fashion and environmental impact; the Federal Trade Commission’s Green Guides; fair trade; cruelty-free fashion; religious fashion; fashion-related nonprofits; corporate social responsibility and charitable co-branding; and fashion’s role in international development, including ethical issues raised by clothing donations to the poor and to developing countries. Students may apply for an optional one-credit fieldwork placement at a fashion company, nonprofit organization, or law firm. Final paper required.

Interdisciplinary (IDIS)

IDIS 0800. PRE-COLLEGE SKILLS DEVELOPMENT. (0 Credits)
For pre freshmen students accepted through HEO. This is a developmental course with seminars aimed to enhance college survival skills by focusing on issues related to time management, study skills, personal growth, financial aid and career planning. It is offered as part of the mandatory HEO Summer Program for new freshmen.
IDIS 1005. COLLEGE SKILLS DEVELOPMENT-1. (3 Credits)
IDIS 1006. COLLEGE SKILLS DEVELOPMENT. (4 Credits)
For pre freshmen students accepted through HEOP. This is a developmental course to enhance student skills related to college composition, critical reading, mathematical analysis, science and economics. It is offered as part of the mandatory HEOP Summer Program for new freshmen. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IDIS 1007. COLLEGE SKILLS DEVELOPMENT-2. (3 Credits)
IDIS 1010. CRITICAL READING - DISCIPLINES. (3 Credits)
IDIS 1100. ADULT LEARNER: IDENTITY, CHANGE AND DEVELOPMENT. (3 Credits)
This seminar has been designed to encourage each student to study his or her own unique identity development in adulthood. Each adult learner will be assisted in examining their skills, values, goals, experience, educational background, learning style and personality. Students can use this information for both short and long term career, educational and life planning. This new self-discovery will be developed through assessment testing, occupational research, informational interviewing and consultations with career development and educational specialists. The course utilizes a combination of readings, lecture, class discussions, presentations, exercises, guest speakers and video material.

IDIS 1200. SEMINAR: CAREER TRANSITION LEADERS. (1 Credit)
Designed to enhance students’ personal/professional understanding of career development and life management skills to transition to a professional/corporate career. The course will assist students to obtain internships in a structured, interactive, open form. It will also offer access and networking with employers.

IDIS 3015. CULTURE AND COMMUNITY. (4 Credits)
A study of culture and community in contemporary American society and lifestyles. The course will study the entire way of life that is faced by various groups in American life. An interdisciplinary consideration of the concepts of culture and community will be studied. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IDIS 3020. WAR AND NEW YORK CITY. (4 Credits)
This course is an explanation of the impact of war on the political, social, economic, and cultural development of New York City. The course will examine wars and times of conflict from several periods in American history, including, but not limited to: the American Revolution, the Civil War, WWI, and September 11th. An integral element of this course will be using the City itself as our classroom. We will be making several field trips to various locations of historical events, museums, etc. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IDIS 3025. SOCIAL PROBLEMS IN AMERICA. (4 Credits)
This course will examine and study major issues and problems in contemporary American society in the context of individuals and community in a complex society. Research and writing will use an interdisciplinary approach. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IDIS 3040. GETTYSBURG: A STUDY TOUR. (4 Credits)
Three days and 51,000 casualties ¿ the Battle of Gettysburg was the turning point of the Civil War and a seminal moment in the history of the United States. So striking was the battle, President Abraham Lincoln vowed that the men who died there did not do so in vain. In fact their sacrifice gave ¿a new birth of freedom¿ to the idea of democracy for the world. Robert E. Lee, deeply depressed at his failure, fearing he cost his nation the possibility of independence and peace, offered his resignation to Confederate President Jefferson Davis. This course will examine Gettysburg from several perspectives, including military and political strategy, Lincoln¿s Gettysburg Address, Davis¿ and Lee¿s reactions, and the battle¿s long-lasting impact on American society and mythology. The course includes an overnight field trip to the Gettysburg Battlefield. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IDIS 3050. A BLOODY LANE AND FOREVER FREE: ANTIETAM, A STUDY TOUR. (4 Credits)
Antietam – September 17, 1862 was the single bloodiest day in American military history. The 23,000 casualties on that single day were four times the number of casualties at Normandy. The number of men who died in combat that day was twice the number who died in combat during the War of 1812, the Mexican War, and the Spanish-American War combined. Antietam ended the British and French momentum for recognition of the Confederacy and gave President Abraham Lincoln the opportunity to issue the Emancipation Proclamation. This course will examine Antietam from several perspectives, including military and political strategy, Lincoln’s Emancipation Proclamation, Davis’ and Lee’s reactions, and the battle’s long-lasting impact on American society. The course includes a two-night field trip to the Antietam Battlefield. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IDIS 3060. CIVIL WAR IN POPULAR MEMORY. (4 Credits)
The Civil War has been the topic of over 50,000 books, thousands of websites, and hundreds of multimedia sources – ranging from films to television shows to comic books to video games. Americans have long been fascinated by the Civil War, which cost more Americans their lives than WWI, WWII, the Korean War, and Vietnam War combined. Much of what Americans know about the Civil War did not come from textbooks or scholarly sources or the classroom, but rather from popular culture. This course will explore how the Civil War is portrayed in popular culture and examine how Americans’ perception and memory of the Civil War has changed over time – change that often had more to do with American society at the time than the “facts” of the War itself. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IDIS 3070. BASEBALL - THE NEW YORK GAME. (4 Credits)
Interdisciplinary course that will trace the relationship between baseball and New York society and culture. The course will study the early history of the game and historical developments as the emergence of the New York City professional teams in connection with government, culture and issues of society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
IDIS 3080. WINNERS AND LOSERS IN LITERATURE AND FILM. (4 Credits)
Literature and film are filled with so-called “winners” and so-called “losers.” Who can claim these titles and why? Who decides and how? In analyzing these topics, we’ll explore what can be learned about the human condition in the individual and in society. Works discussed will include, Snow White; Goldilocks and the Three Bears; Death of a Salesman; Charlie Chaplin’s Little Tramp; Glengarry Glen Ross; My Left Foot, and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IDIS 3090. DEMOCRACY AND SOCIAL JUSTICE: A GLOBAL PERSPECTIVE. (4 Credits)
Through a multi-disciplinary analysis, this course will explore global definitions of freedom, solidarity and the self within a social context. Readings will lead to discussions on resistance models influencing World Order and the criterion of an underclass, that must organize for transformative change for the sake of survival. Analysis of texts and classroom discourse will explore the development of a nation state, its emphasis on economic globalization, cultural difference and liberationist criticism, in conjunction with an analysis of social ethics and morality. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IDIS 3800. INTERNSHIP. (3 Credits)
IDIS 3999. TUTORIAL. (3 Credits)
IDIS 4999. TUTORIAL. (1-4 Credits)

Interdivisional (GSE) (EDGE)

EDGE 0210. CHILD ABUSE IDENTIFICATION AND REPORTING WORKSHOP. (0 Credits)
Child Abuse Identification and Reporting Workshop (0 credit) (CHILD ABUSE IDENTIFICATION TRNG)
Attribute: Z602.

EDGE 0220. DRUG, ALCOHOL, AND TOBACCO TRAINING. (0 Credits)
Drug, Alcohol and Tobacco Training (0 credit) (DRUG/ALCOHOL ABUSE INSTR TRNG)

EDGE 0230. SCHOOLS AGAINST VIOLENCE EDUCATION WORKSHOP. (0 Credits)
Schools Against Violence Education Workshop (0 credit) (SCH VIOLENCE PRVT TRNG)
Attribute: Z602.

EDGE 0250. HEALTH AND PHYSICAL EDUCATION TRAINING. (0 Credits)
Health and Physical Education Training (0 credit) (HEALTH & P.E. INSTR TRNG)

EDGE 0260. DIGNITY FOR ALL STUDENTS TRAINING. (0 Credits)
Bullying behaviours and the impact of bullying on students, the importance of bullying behaviour prevention and intervention, and key strategies to address bullying. Course title changed from Bullying Prevention Training to Dignity for all students training October 9, 2013. Attribute: Z602.

EDGE 0270. Autism Training Module. (0 Credits)
This module is an overview of Autism Spectrum Disorders (ASD) and will examine the psychological, physiological, social, and educational characteristics of individuals who have been identified as having autism. The module will focus on definition, diagnosis, causes, intervention and program planning.

EDGE 0666. MAINTENANCE OF MATRICULATION. (0 Credits)
ADV. MSE. MST - Maintenance of Matriculation (0 credit) (MAINTENANCE OF MATRICLTN) Added degrees to title as doctoral students were registering for this course instead of either doctoral seminar or mentoring.
Attribute: ZAMM.

EDGE 0999. DISSERTATION ORAL DEFENSE. (0 Credits)
Dissertation Oral Defense (0 credit) (DISSERTATION ORAL DEFENSE)

EDGE 0999. DISSERTATION FORMAT REVIEW. (0 Credits)
Dissertation Format Review (0 credit) (DISSERTATION FORMAT REVIEW). Notified March 18, 2014 that billing is now from .000 to 1.000.

EDGE 6100. ISSUES AND TRENDS IN AMERICAN EDUCATION. (3 Credits)
The course is designed to provide students with the opportunity to become familiar with the important movements, trends, and innovations that are shaping the education profession.

EDGE 6101. RACE AND MULTICULTURAL EDUCATION IN AMERICAN SOCIETY. (3 Credits)
Examines the concept of cultural pluralism—the values, traditions, and aspirations of various immigrant and ethnic groups; examines the institutionalized nature of prejudice and its impact on the cultural, economic, social status, and mobility patterns of selected ethnic groups.

EDGE 6106. HRE PRACTICUM I. (3 Credits)
This course integrates the knowledge and skills acquired during the program. In this first practicum, students identify an organizational problem and begin the consultation process. They must identify a sponsor, contract for the assignment, collect data and provide feedback to the appropriate organizational members.

EDGE 6107. HRE PRACTICUM II. (3 Credits)
This course continues the process begun in Practicum I. In partnership with the organization, students design and implement an intervention based on the data collected earlier in the consultation process. They must evaluate the performance outcomes associated with the intervention.

EDGE 6226. DESIGN OF INTERACTIVE LEARNING SYSTEMS. (3 Credits)
Cognitive theory and programming skills are taught that enable students to develop multimedia instructional software in a variety of paradigms (for example, simulation, coaching, hypertext, multimedia, tutorial, and drill and practice). To ensure instructional effectiveness, emphasis is placed on building instructional strategies (based on cognitive theory) into the design. To ensure usability, human-computer interaction issues are considered (again, based on cognitive theory). Prerequisite: PSGE 5220 or consent of instructor.

EDGE 6703. MEAS HUM RES ED. (3 Credits)
Focuses on understanding, using and developing assessment tools in the workplace. Students design an instrument, collect and analyze data, and write and present their findings. Measurement concepts of reliability and validity are discussed in relation to developing or purchasing assessment tools.

EDGE 8001. DOCTORAL RESEARCH APPRENTICESHIP. (0 Credits)
A seminar (two consecutive semesters and a summer) in which the student is required to attend monthly seminars. The student is required to undertake research with a faculty member, culminating in a research project that demonstrates the student’s ability to do doctoral work. Prerequisite: Permanent Matriculation Status. Attribute: Z637.
EDGE 9990. INDEPENDENT STUDY. (4 Credits)
Designed to enable students to study selected topics in depth and to conduct research. For matriculated students only. An outline of the proposed work must be approved by the adviser. Registration only by approval of professor directing study, chairman of the student’s division, and director of graduate studies.

EDGE 9995. DOCTORAL MAINTENANCE OF MATRICULATION. (0 Credits)
Doctoral Maintenance of Matriculation (0 credit) (DOCTORAL MATINTEGRANCE)
Attribute: ZAME.

EDGE 9999. DISSERTATION MENTORING. (0 Credits)
Consultation with mentor and dissertation committee on defense of completed dissertation work.
Attribute: ZAME.

International Law (ITGL)

ITGL 084. IMMIGRATION, ENFORCEMENT, AND PROTECTION FIELDWORK. (1 Credit)
Immigration, Enforcement, and Protection will immerse students in current issues in immigration enforcement and refugee protection in the United States through an academic and experiential component. For the first week of the Winter Term, students will participate in a seminar that explores the unique legal landscape applicable to the border region of the United States through the lens of two dominant but competing policy frameworks in immigration law: international protection and domestic law enforcement. The course will introduce students to key provisions of domestic and international law that assign and restrict the power of federal and state government actors, citizens, and noncitizens in the border region and at ports of entry. It also will examine policy choices related to protection and enforcement with a focus on civil immigration detention and expedited removal proceedings. Students will spend the second week of the Winter Term in Dilley, Texas, working under the supervision of the course instructor and licensed attorneys at Texas Rio Grande Legal Aid ("TRLA"). Students will apply their academic coursework to supervised, limited-scope representation of asylum-seeking families in expedited removal proceedings. Through the seminar component, the course aims to prepare students to think critically about their observations and experiences on-the-ground and to contextualize those observations and experiences within the broader framework of the rule of law at the southern border. By placing them in Dilley under the supervision of TRLA attorneys and Fordham faculty, the course aims to develop students’ client counseling and advocacy skills while exposing them to creative, crisis lawyering and providing desperately-needed legal services to a vulnerable population. Students will spend 12.5 hours in the seminar and will perform 45 hours of on-the-ground work.

ITGL 0101. INTRODUCTION TO UNITED STATES LEGAL SYSTEM. (2 Credits)
This course presents an overview of the U.S. legal system. Subjects include an overview of the U.S. system of government including federalism, separation of powers and checks and balances, and supremacy and preemption; the judicial systems, including the organization and functioning of the federal courts, state judicial systems, and the lawmaking power of the courts; sources of law, including the distinction between primary and secondary sources of law and the use of precedent, including the defining principle of stare decisis and synthesizing case law; and an overview of civil litigation in the U.S. Case reading and analysis is a fundamental aspect of this course.
Attribute: LLM.

ITGL 0102. PERSPECTIVES IN US LAW I. (3 Credits)
This two credit course surveys core U.S. legal doctrine in a number of areas such as contracts/sales, real property, torts, family law, and wills. These core topics will then be analyzed from the perspective of the New York courts. Periodic exams throughout the semester and a final exam will test the students’ knowledge in these areas through practical application. This course does not count towards the 12 credits required for each program but does count towards the overall 24 credits for the LL.M. degree. OPEN TO LL.M. STUDENTS ONLY. This course does not count towards the 12 credits required for each program but does count towards the overall 24 credits for the LL.M. degree.
Attribute: LLM.

ITGL 0103. PERSPECTIVES IN US LAW II. (2-4 Credits)
This course will examine current American law based on case law and statutory law related to selected topics in contracts, crime, corporations, domestic relations and New York Practice with special emphasis on New York distinctions. Note: No prerequisite required for this course.
Attributes: LLM, LMCO.

ITGL 0105. DOING BUSINESS IN E.U. (2 Credits)
The course of doing business in the European Union “EU” reviews the development of the European Union’s legal system, its characteristics and the current main EU institutions. The course focuses on the common market (freedom of movements of goods, persons, and workers, the right of establishment and to provide services) and the competition policy (cartels, abuse of dominant position, merger, state aids). The students will also learn about forum selection rules applicable in the European Union in case of disputes between companies incorporated in different countries, and how to challenge acts of EU Member States or EU Institutions. Finally, the course will cover the recognition and enforcement of judgments within the EU.
Attributes: LAWB, LAWI, LLM.

ITGL 0123. LAW PRACTICE FIELDWORK FOR GRADUATE STUDENTS. (1-2 Credits)
Fieldwork graded as credit/no credit.
Attributes: LAW, LLM.
Prerequisite: ITGL 0226 (may be taken concurrently).

ITGL 0129. ADVANCED NATIONAL SECURITY & FOREIGN RELATIONS LAW. (2-3 Credits)
This seminar will allow students to engage in depth with some of the most important debates currently taking place in government, the academy and think tanks about national security and foreign affairs law and policy. The seminar will include both outside speakers and regular class discussion. Students will write several short reaction papers, participate in discussion and write their own seminar research paper. Supervised writing credit is available.
Attributes: INLJ, JD, LLM.

ITGL 0138. LGBT RIGHTS IN BANGLADESH: ADVOCACY PROJECTS. (2 Credits)
Students will research, design, and implement advocacy projects relating to the 2014 Crowley Mission in Bangladesh. Projects will focus on raising awareness; engaging with governments, donors, and other stakeholders; and improving access to justice for LGBT people.
ITGL 0153. CONTEMPORARY PROTECTIONISM. (2 Credits)

The course will examine the substance, implementation and enforcement of international agreements that establish minimum standards of protection in intellectual property amongst member states, including the Berne Convention, the Paris Treaty and TRIPS. We will study international and regional intellectual property registry systems such as EU/OHIM and the Madrid Protocol and Agreement, and we discuss international filing strategies for various types of intellectual property and global exploitation of a company’s intellectual property portfolio. Finally, we will survey enforcement provisions provided by key territories to combat international trade in counterfeit goods and best practice measures for a global anti-counterfeiting program.

Attributes: JD, LAWT, LLM.

ITGL 0199. INTERNATIONAL INTELLECTUAL PROPERTY LAW, PRACTICE & ENFORCEMENT. (3 Credits)

In the last few decades, scholars and practitioners have started to perceive the relevance of “trans-governmental cooperation” as a consequence of the international and globalized interdependence that exists in fields such as security, environmental protection, banking and financial regulation, telecommunications and the law of the internet, trade in products and services, intellectual property rights, and immigration. By using international agreements and soft law instruments, several forms of regulatory cooperation have taken place around the globe, transferring many regulatory decisions from the national to the “global level”. Cooperation that involves public and private entities, raising questions as to the constitutional structure of contemporary societies and the allocation of governance. Global administrative law is the byproduct of these forms of cooperation, and is changing the manner in which administrative functions are performed at the national and international level. Tangible examples are: the production of international technical standards (e.g. ISO, IEC, Ansi, Acme...); the regulation of internet domains (administered by the Internet Corporation for Assigned Names and Numbers); the administration of health standards and definitions (administered by the World Health Organization); the regulation of international trade and the protection of intellectual property (administered by the WTO and the WIPO).

This course is designed for both J.D. and LL.M. students, and aims at providing a working knowledge of the principles and the functioning of global administrative law, and of the “global administrations” responsible for the production of global norms. It also analyzes the way global norms are received by national legal systems, with a specific focus on American and European contexts. Both elements are of great importance for lawyers who intend to pursue a career in international or business law, and would like to understand the complexity of the multiple layers of normativity that characterize our time. The course would also benefit prospective lawyers and legal experts endeavoring to work in domestic law, because it provides a modern approach to administrative and economic law problems and an analysis of the way international and transnational norms enter domestic legal systems. The subject matter of the course should not be confused with international law or the law of the international business transactions. It can be considered, instead, a complementary course for both disciplines, as it focuses on entities that are not necessarily regulated by international law, even though they deeply regulate crucial economic relations. Exam 20 page paper on a topic relevant to the course. Concentration Open to everyone. Particularly interesting for ILJ, IBT students. Short Biography Mario De Rosa was one of the students selected for the Double Degree Program jointly established by the Luiss Guido Carli of Rome and Fordham Law School. He achieved his LL.M. in International Business and Trade Law at Fordham Law School Magna cum Laude in May 2014 and his J.D. from Luiss Guido Carli in Rome, 110/110 cum Laude and the special mention of the Academic Commission in July 2014. Besides the United States and Italy, he has conducted his studies at the Bucerius Law School of Hamburg, Germany. He has worked for the U.S. Court of International Trade between September 2014 and February 2015.
ITGL 0202. INVESTOR-STATE ARBITRATION. (3 Credits)

ITGL 0203. INTERNATIONAL TRADE LAW. (2-4 Credits)
This course covers the international law that governs the cross-border movement of goods, services and investment capital. It focuses on both the multilateral (WTO) treaty law that governs normal trade relations among 164 countries, and the regional (NAFTA, TPP) and bilateral treaty law that governs free trade relations for smaller groups. We will look at how governments implement their trade treaty rights and obligations through national law and procedure. We will also discuss how counsel can use this international law to compel a foreign government to more readily admit a client’s goods or services into a foreign market, or to better regulate a foreign enterprise in which a client has invested.

Attributes: ICF, LAWI, LLM.

ITGL 0204. ASIAN AMERICANS & THE LAW. (2 Credits)
This 2-credit seminar will examine the history of legal regulation of people of Asian and Pacific descent within the United States and its territories. As background, we will begin with the history of Asians in the United States and the connection between race and national identity. We will then explore the evolution of U.S. state and federal laws concerning Asians, focusing especially on immigration, naturalization, and citizenship; anti-miscegenation, economic discrimination, public benefits including education; and civil rights and the Japanese-American internment during World War II. We will reflect on how the history of past regulation of Asian Americans bears upon current hot-button legal questions involving APAs and others, such as race-conscious admissions policies to selective schools and universities, and how APA experiences compare to those of other non-European descent groups. Grades will be based on class participation, a paper of at least 25 double-spaced typewritten pages (including footnotes) on one of a suggested list of topics, and an oral presentation of the paper. The paper satisfies the Law School’s written work requirement; there is no exam.

Attribute: INLJ.

ITGL 0213. Litigation Management for the International Lawyer. (3 Credits)
This course aims to provide students with an overview of the various stages of a United States litigation involving foreign and U.S. parties including practical advice in how to manage the litigation. At the outset of the course, students will presented with a fact pattern involving a foreign company having potential claims against it and but also having its own claims against the adversary party. The case will be a commercial dispute involving potential contract and fraud claims, including possible violations of U.S. statutes. Students will discuss and decide initial issues of where to sue, including whether to bring the lawsuit in a Federal or New York State Court, what claims or counterclaims to allege, and which parties to include. Students will take on the role of the law firm hired by the foreign company to handle this complex litigation. The course will follow this litigation from the filing of the complaint all the way through trial and appeal. Specifically, students will act as the lawyers and will make decisions on important litigation issues such as jurisdiction, venue, which claims and defenses to assert in the complaint, answer, and counterclaims, motions, discovery (including e-discovery), class actions, certain compliance issues, trial, evidence, including choice of witnesses, direct and cross examination testimony, and what trial exhibits to be presented. Students will learn about the issues that arise at various stages of an American litigation and consider strategic considerations and techniques for managing these issues. The course will include a visit to the courthouses in Manhattan and meeting with a Judge from these courts. The course will discuss U.S. litigation compared with the litigation approaches in other countries. The course will also touch on famous trials and the greatest law novels. This course is intended for International L.L.M. students.

Attributes: LAWB, LAWI, LIDR, LMCO.

ITGL 0215. AVIATION LAW. (2 Credits)
Considers problems in the sources and organization of the law of international and domestic air transport, routes and rates, choice of law and forum, hijacking, exculpatory clauses, carrier liability for personal injury, death, and cargo damage, governmental liabilities, types of liabilities and limitations thereof, ground damage and other offensive aircraft operations, including air pollution and sonic boom.

Attributes: LAWB, LAWI, LLM.

ITGL 0222. INTENTION AND THE LAW. (2 Credits)
In this seminar we will explore the role of intention in the law. We will discuss the relevance of intention to culpability, responsibility and legal liability in different parts of the law. Topics we will study from this angle include contracts, torts, criminal law, corporate law, employment law and constitutional law. Students will present a short paper in an assigned week and submit a 25-30 page paper on an approved topic on the last day of class.

Attribute: LLM.
ITGL 0223. ARBITRATION IN W AFRICA TODAY. (2 Credits)
More than 10 years ago, Fordham Law School, through its Leitner Center, became engaged in many important projects and programs in Ghana with placing those programs in the two major cities of Accra and Kumasi. In 2010 at the request of the Giving to Ghana Foundation, Fordham Law’s ADR Program Leader, Jacqueline Nolan-Haley and the Law School’s Center for Social Justice, founded by Professor and former Dean John D. Feerick, began an effort with others to establish a major conflict resolution center in central Ghana which is an area with economic challenges. This ADR effort was for a Center to serve as a model for grassroots conflict resolution efforts in Ghana and elsewhere in Africa. In the past few years, these efforts led to successful ADR Programs at this Center as well as the development of courses concerning ADR in Western Africa taught by Adjunct Professor Dennis Lynch. This course being offered in 2014 expands on all of these activities because of the growing interest in African Conflict Resolution. This Seminar will examine the development of Dispute Resolution in Western African Countries. The focus of the course will be on establishing a structure for conflict resolution generally and Alternative Dispute Resolution (“ADR”) specifically in Western African and other places in Africa. The involvement of non-African participants in the development and support of the first ADR Center in the rural areas of Western Africa, namely the Marian Conflict Resolution Centre (“MCRC”), will be analyzed in detail. The contribution of African participants in the grass roots efforts to realize accomplishments in the MCRC will be also reviewed in detail. The successes and failures of the MCRC and the challenges ahead for models of Dispute Resolution in Africa will be the superintending focus of study and review of this Seminar. Students will be challenged to consider the success and failure of ADR Centers in all of Africa with the goal of identify and developing best practices for conflict resolution and ADR systems specifically in Ghana as the basis for development of such systems in Western Africa and elsewhere in Africa. All Students will be expected to research and report on organizations and structures in Western African nations and other countries with regard to successful ADR practices today.
Attributes: ICE, INLJ, JD, LIDR, LLM.

ITGL 0226. GRADUATE EXTERNSHIP SEMINAR. (1,2 Credits)
This seminar will explore various topics related to law practice, including the following: goal-setting, supervision, legal research, ethical issues in practice, professionalism and, through student presentations, a variety of issues raised in individual fieldwork settings. This course is open by permission only. Permission will be granted only to students who have secured their own externship placements and received approval from the LL.M. program office to receive externship credit for the placement (you must be simultaneously registered for "LL.M. Externship Fieldwork," a .5-credit course, which provides credit for the actual fieldwork). This is a one-credit course that will meet on seven dates throughout the semester. Specific dates will be announced in the beginning of the semester. This course will be graded on a Credit/No Credit basis.
Attribute: LL.M.
Prerequisite: ITGL 0123 (may be taken concurrently).

ITGL 0231. INTERNATIONAL CIVIL LITIGATION IN UNITED STATES COURTS. (3 Credits)
In light of the growing importance of transnational litigation, this course will cover significant, as well as problematic, topics in international litigation and private international law as they play out in United States courts with an eye to comparative procedural regimes. The subjects covered will include personal jurisdiction over foreign defendants, subject matter jurisdiction over transnational cases, and limits on the exercise of jurisdiction over foreign sovereigns. The course will also cover jurisdiction to prescribe including choice of law and developments in the extraterritorial application of United States law, protective measures such as forum selection clauses in contracts, forum non conveniens, parallel litigation and antisuit injunctions, as well as recognition and enforcement of foreign judgments in the United States. Additional topics may include obtaining evidence abroad for use in domestic litigation and service of process abroad. The course will have a take home examination.
Attributes: ICE, JD, LAWI, LDF, LIDR, LLM.

ITGL 0234. INTERNATIONAL HUMAN RIGHTS SCHOLARSHIP. (2 Credits)
This two-credit seminar will provide a survey of state-of-the-art scholarship in the field of international human rights, broadly defined. After an introductory session, each week we will read and discuss a recent paper written by a prominent scholar of international human rights. Students must submit six reaction papers limited to 1000 words each over the course of the term. No examination will be given. Students who wish to satisfy the writing requirement may write a term paper for an additional credit. Both LLM and JD students are welcome.
Attributes: ICE, INLJ.

ITGL 0240. LAW OF INTERNT'L INSTITUTION. (3 Credits)

ITGL 0260. National Security and Civil Liberties in the 21st Century. (2 Credits)
National Security and Civil Liberties in the 21st Century: The course will be structured as an examination of constitutional and civil liberties controversies that have arisen in the context of national security decision-making by the U.S. government, with a particular focus on the period after September 11, 2001. These legal issues may include, but are not limited to, the Foreign Intelligence Surveillance Act and domestic law enforcement investigations; the detention, treatment and trial of detainees held by the U.S.; the targeted killing of terror suspects; the First Amendment and terror investigations and prosecutions; the relative merit of federal terror trials versus military tribunals; and the necessity and use of government secrecy versus the right of the public to know about government policy and practice. The course will feature guest lecturers who are leading practitioners and thinkers in their respective fields. Textbook: The textbook will be the Dycus, Berney, Banks, Raven-Hansen, National Security Law (5th ed.). Supplemental readings will be provided. This course will have a take-home exam with a paper option that may be used to satisfy the writing requirement.
Attributes: INLJ, JD, LLM.
ITGL 0261. Terrorism and the Law in America: 9/11 to the present... (2 Credits)
An exploration of the evolution of American terrorism law and legal policy throughout the war on terror. The course will look at the country’s major post 9/11 terrorism prosecutions, including those of Zacarious Moussaoui, Ahmed Ghailani, and the military commissions cases at Guantanamo, and will study the course of legislation related to surveillance, detention and war from the fall of 2001 to the present, including the USA Patriot Act, the FISA Amendments Act, and the 2001 Authorization to Use Military Force. Relevant court decisions from the FISA Court, the Supreme Court, and several circuit court decisions will be included as well. <br>(Writing requirement can be satisfied with this course.)
Attributes: ICE, INLJ, LAWJ, LLM.

ITGL 0292. INTRODUCTION TO CHINESE LAW. (3 Credits)
This class will offer an introduction to the legal system of the People’s Republic of China. Topics addressed will include the historical, philosophical, and ideological foundations of modern Chinese law, Chinese legal institutions, evolving administrative, civil, constitutional, criminal, and property law norms, and citizen efforts to use the legal system. No prior knowledge of Chinese history, law, or politics is required. Regular class attendance and participation is required, as is completion of short response papers to the readings. It is not a writing req. course - no paper is required. It is a lecture and discussion-based class.
Attributes: ICE, JD, LAWI, LAWJ, LLM.

ITGL 0295. INTRODUCTION TO INTELLECTUAL PROPERTY: A GLOBAL PERSPECTIVE. (2,3 Credits)
A brief introduction to intellectual property law and how the United States and Europe have taken different paths in determining what deserves to be considered intellectual property worth protecting. This course will mainly focus on global issues in copyright law but will also examine patents, trademarks, and trade secret protection. The course will also address the conflict in enforcing IP across international borders based on the differences in grantable rights in various countries. The discussion will include the recent changes to U.S. patent law that bring it in line with Europe, a number of recent cases from the United States and Europe, as well as treaties (both signed and still being negotiated).
Attributes: IPIE, JD, LLM.

ITGL 0296. INTRODUCTION TO US TRANSACTION PRACTICE. (2 Credits)
This course will provide LL.M. students with an overview of U.S. transactional practice and the practical skills that are useful in the context of representing corporate clients. In addition to the lectures and simulations, the course will include classes with guest speakers, including successful LL.M. alumni currently practicing law in New York City. Throughout the semester, students will participate in contract negotiation and drafting exercises. The course will assist students in fine tuning their legal research and writing skills, client management strategies and introduce them to contract drafting and negotiation. Students will have the opportunity to explore various areas of substantive law while learning the relevant practical skills to effectively represent clients on transactional matters.
Attributes: LAWB, LAWI, LLM.

ITGL 0297. NATIONAL & DOCTRINAL BOUNDARIES OF INTELLECTUAL PROPERTY LAW. (2 Credits)
This course will provide a brief introduction to intellectual property law and consider how the United States and Europe have taken different paths in determining the limits of intellectual property protection. The course will first present the several forms of intellectual property (IP): patents, copyrights, trademarks, trade secrets, database rights, etc. Then it will describe how those rights differ in the United States and EU. For example, the EU is more limited in granting patents on software, and the United States does not provide protection for databases. The course will aim to focus particularly on topical issues, like whether providing an Internet hyperlink to a web page infringes the copyright on that page (currently before the Court of Justice of the European Union) and whether owners of MP3 files have the right to sell them to others (currently being litigated in the U.S., by a Fordham alumna). Students will lead the discussion in most of the classes.
Attribute: JD.

ITGL 0298. INTERNATIONAL & COMPARATIVE INTELLECTUAL PROPERTY LAW. (3 Credits)
The course will be an introduction to the concepts surrounding intellectual property through an examination of U.S. law and international treaties. All three major areas of intellectual property – copyright law, patent law, and trademark law – will be covered with the discussions mainly focused on how rights are acquired and when such rights are deserved. The class will also hold discussions surrounding the challenges in enforcing intellectual property across international borders based on the differences in obtainable rights in various countries.

ITGL 0303. INTERNATIONAL AND COMPARATIVE INTERNET LAW. (2,3 Credits)
This course will address comparative and international Internet based legal issues pertaining to: Copyright Law, Trademark Law, Freedom of Speech, Cybersecurity, Online Commerce, Privacy Law, ICANN’s Uniform Domain Name Dispute Resolution Policy and related topics. Students will learn the essentials of computer and network technologies, and how they have challenged settled legal understandings. Broad jurisprudential themes include the ways that laws and legal regulations can change when enforced by computers rather than by people; the ways that the online nature of transactions can increase or decrease government control; and the extraordinary extralegal power that can be wielded by online intermediaries. The primary comparative focus will be between the US and other legal regimes, such as S. Korea, the European Union, and China.
Attributes: ICE, JD, LLM.
ITGL 0307. ADVANCED CONSTITUTIONAL LAW. (2,4 Credits)
This is a course for students interested in developing a greater understanding and mastery of constitutional law. The course covers a range of constitutional topics spanning (1) national security and the "war on terror," (2) the rights of foreign nationals in the absence of meaningful immigration reform, (3) the rights of LGBT persons and same-sex couples, and (4) the death penalty. Through an in-depth study of case law and law-review material, students will develop expertise on a range of critical constitutional issues and develop new tools for unpacking legal and constitutional problems. The assigned materials and class discussions will focus on the detention and prosecution of terror suspects at Guantanamo Bay, the role of habeas corpus as a check on governmental power, executive branch deferred action programs in immigration, personal liberty and privacy in intimate relationships, the right to marry, access to public facilities such as restrooms, and a range of different questions surrounding limits on criminal sentencing. The course has both procedural and substantive dimensions. As a matter of process, we will take on questions regarding jurisdiction, due process, federalism, executive power, and the separation of powers (both among and within the coordinate branches of government). As a matter of substance, we will explore border protection, deportation/ removal, effective assistance of counsel, state and local enforcement of immigration law, privacy and individual liberty, prosecutorial discretion, as well as the role of military commissions and status tribunals for "enemy" combatants. Along both dimensions, we will consider the role of the Supreme Court in developing a body of principles, and we will explore those principles from a variety of theoretical and doctrinal perspectives. The goal of this course is not only to equip students with an enhanced understanding of particular topics, but enable students to understand connections across seemingly disparate topics. In addition to legal doctrine and theory, we will consider the various tools of courtroom lawyers by reading a variety of court documents and filings. This more granular inquiry will expose students to a number of features of complex litigation and the practical skills used by lawyers, including points of trial and appellate practice, litigation strategy, and legal ethics, spanning government, private bar and non-profit actors. Although this course builds on some of the basic material from Constitutional Law, that course, while potentially helpful, is not a prerequisite for this course. This course is recommended to those interested in administrative law, constitutional law, immigration law, national security law, and LGBT rights. Students have the option of writing a paper for this course or taking a take home exam. Those electing to write a paper can satisfy the Law School's writing requirement.
Attributes: ICE, INLJ, PIE.

ITGL 0320. ADMIRALTY & INTERNATIONAL MARITIME LAW. (3 Credits)
Seminar style analysis of Admiralty and International Maritime law based upon decisions by United States Courts (primarily), domestic legislation, and international treaties concerning jurisdiction practice and procedure maritime property persons cargo charting services and products casualties marine insurance and general average limitaiton of liability emerging topics.
Attributes: ICE, LAWI.

ITGL 0321. COMPARATIVE LAW. (2-3 Credits)
The course aims to provide an understanding of comparative law as a method and as a body of knowledge. In the first part of the course you will learn how to compare legal institutions through a theoretical inquiry in traditional, as well as innovative, comparative law methods and how to apply these methods to some of the most controversial topics in the current legal debate. The second part will focus on the classic divide between common law and civil law, in particular in American and European legal traditions. It will also address the new understanding of the world law map. In the third part of the course we will turn our attention to globalization, an area where comparative law is essential in the understanding of many contemporary relevant phenomena. The course will offer case studies on different topics in order to test ability in comparing legal institutions and in using comparative law arguments in cross-border contexts. The course will be graded based on a 24-hour take-home final examination (60% of the final grade) and class participation, including attendance (40%). There is also a paper option instead of the exam.
Attributes: ICF, INLJ, LLM.

ITGL 0322. NUCLEAR WEAPONS & INTERNATIONAL LAW. (2 Credits)
This international law seminar will explore issues as to the lawfulness of the use and threat of use of nuclear weapons in the Post 9/11 World in light of contemporary strategic realities, including Russia's increased adventurism and reliance on nuclear weapons, Iran's nuclear weapons program and the recent agreement, North Korea's nuclear weapons, the instability of Pakistan and possible availability of its nuclear weapons to terrorists, the risks and potential effects of an Indian/Pakistani nuclear war, the spread of terrorism and willingness of terrorists to use nuclear weapons, the risks of further nuclear proliferation and collapse of the NPT regime, the United States' continuing reliance on nuclear weapons, notwithstanding its clear superiority over the rest of the world in conventional weapons, the widespread practice of nuclear deterrence, and the relationship between nuclear power plants and nuclear weapons. The course will also focus on facts that are central to the legal analysis, including the characteristics and effects of nuclear weapons, psychological factors that affect policies as to nuclear weapons, litigation throughout the world concerning nuclear weapons, and the 1996 advisory decision of the International Court of Justice on the Legality of the Threat and Use of Nuclear Weapons. This will be a paper course and students will be required to present their papers in class. The assignments will consist of contemporary think tank, university, government, and military materials (generally available on line) and portions of the second edition (in process) of Charles J. Moxley, Jr., Nuclear Weapons and International Law in the Post Cold War World (Austin & Winfield, scheduled for fall 2017) (to be provided electronically). This course can be used to satisfy the writing requirement.
Attributes: ICE, INLJ.

ITGL 0329. AMERICAM LAW AND THE WAR ON TERROR. (2 Credits)
The course will be structured as an examination of constitutional and civil liberties controversies that have arisen in the context of national security decision-making by the U.S. government, with a particular focus on the period after September 11, 2001. These legal issues may include, but are not limited to: the detention, treatment and trial of detainees held by the U.S. in Guantanamo Bay and elsewhere; the targeted killing of terror suspects; the Foreign Intelligence Surveillance Act and domestic law enforcement investigations; the First Amendment and terror investigations and prosecutions; and the use of government secrecy in the national security realm. This course can fulfill the writing requirement.

Updated: 10-11-2017
ITGL 0330. ADVANCED SEMINAR IN INTERNATIONAL HUMAN RIGHTS (CROWLEY). (2 Credits)

ITGL 0339. EUROPEAN UNION LAW. (2,3 Credits)
This course is devoted to the institutional and constitutional structure of the European Union, before and after the 2009 Treaty of Lisbon, and to important substantive legal rules of the Union. Initially, the powers and functions of the Commission, Council, European Council, Court of Justice and the Parliament will be described. Next, we will describe and analyze key Court doctrines, notably the primacy of Union law, the ‘direct legal effect’ of certain Treaty provisions, and the protection of basic rights, with particular attention to the Charter of Fundamental Rights. We will then examine crucial substantive legal rules, including the free movement of goods, workers and services; the harmonization of national laws to achieve the common or internal market; and the principles of legislative interpretation and preemption. Topics for final classes will be selected among those of citizenship of the Union, lawyers’ practice rights, intellectual property rights, and the Economic and Monetary Union. Comparisons to US constitutional principles will frequently be made. Two or three EU judges or senior officials will provide guest lectures. 
Attributes: JD, LAWI, LL.M.

ITGL 0340. EUROPEAN UNION BUSINESS LAW. (2,3 Credits)
The initial course goal is to describe the basic legal and political structure of the European Union of 28 nations, especially its governing bodies, the Commission, Council of Ministers, Parliament and Court of Justice. Most coverage will be of substantive law fields that a practitioner should know about for future legal practice. Several substantive law classes will examine the rules and Court judgments concerning economic integration within the common market, notably the free movement of goods, persons, services and capital and the harmonization of national rules concerning them, frequently with comparisons to the US. Class votes will determine the topics for the final six weeks from among the following: basic rights and the Charter of Fundamental Rights; lawyers’ rights to practice throughout the EU; basic competition (anti-trust) law; intellectual property rights; the harmonization of company law, Monetary Union and the Euro; rights of citizens of the Union; employment law harmonization; equal employment rights of women; and rules against discrimination in employment based on age, disability or sexual orientation. Attributes: ICE, JD, LAWB, LAWI, LL.M.

ITGL 0343. COMPARATIVE CONSTITUTIONAL LAW. (2,3 Credits)
The course will examine constitutional developments in new and consolidate democracies. The basic goal is to show how the constitutional changes and structure can represent a good way to verify the differences and similarities between countries like United States, Germany, France, Brazil and others that will be mentioned during analyses of the constitutional comparison. The course will adopt texts for discussion about the following topics: judicial review, constitutionalism and the so called neoconstitutionalism, constitutional amendments process, check and balances, civil liberties and social rights under constitutional protection, judicial institutions and special overview about the differences between constitutional courts and supreme courts. Reflective comparison with constitutional law in others countries, especially the United States, will be a constant expectation in all areas of the course. The methodology of constitutional comparison will be focus in the contrast of presented by American constitutional scholars. Attributes: ICE, INLJ, JD, LAWI, LL.M.

ITGL 0345. COMPARATIVE CONSTITUTIONAL LAW & RIGHTS. (3 Credits)
This course brings a comparative approach to questions at the core of constitutional decision-making. Topics include separation of powers, judicial review, the distinction between legislative and executive authority, federalism, protections of civil liberties, as well as the positive or protective duties of the state. Students will reflect on comparisons between constitutional law in the United States and elsewhere. This interactive approach will provide a laboratory for understanding how comparative constitutional study can offer insights into the systems with which students are already familiar. Students will also gain an appreciation for those aspects of the U.S. constitutional system that have been considered for adoption by emerging constitutional nations. Finally, students will reflect on the legitimacy of U.S. lawmakers or judges referencing foreign constitutional law in the creation of U.S. law and decision-making.
Attributes: JD, LL.M.

ITGL 0347. IMMIGRATION LAW. (3,4 Credits)
This class is a survey of immigration law and policy in the United States. The course is grounded in the rules governing how newcomers are admitted to and removed from this country. It provides an overview of the agencies that make and implement immigration policy. It examines the various categories of visas for temporary visitors, and the routes to permanent residence and citizenship in the United States. It explores the law of asylum for those who fear persecution in their home countries. In addition, the class sets out the criteria for admission to the United States and deportation from it, and reviews removal procedures, with a particular focus on the interaction between criminal convictions and immigration law. The course also addresses the subjects of undocumented immigration and citizenship. But the study of immigration is more than just learning who gets in and who will be barred at the door or later ejected. Immigration policy brings up broad constitutional issues, draws on (and sometimes flouts) core principles of international and administrative law, and, most fundamentally, raises the questions of who we imagine ourselves to be as a country and who we really are. Attributes: ICE, INLJ, LAWI, PIE.

ITGL 0348. PROJECT FINANCE. (2 Credits)

ITGL 0350. HUMAN RIGHTS SEMINAR. (3 Credits)
This seminar will allow each student to devise their own human rights project or course of study which might include independent research and writing projects or internships at local human rights organizations. These might also include group projects that could have a regional or substantive focus. Seminar content will reflect the projects of the students. Attributes: ICS, JD.
ITGL 0351. INTERNATIONAL INSOLVENCY LAW. (2 Credits)
Bankruptcy and insolvency laws are essential components of a market economy. They enable entrepreneurs to take business risks, and provide a mechanism for treating creditors and other parties fairly in the event that a venture fails. As cross-border business activity has increased, so has the need to deal with cross-border business failures. This course surveys the issues that may arise when an enterprise that has operations, assets, employees, and creditors in more than one country becomes financially distressed. The course begins with an introduction to some basic international law concepts, including comity and choice of law, followed by an introduction to some fundamental principles of bankruptcy law and policy. The course will then turn to the issues that parties and courts have encountered in administering bankruptcies across national lines. Finally, the course will examine a number of ongoing international efforts to harmonize the laws that govern domestic and cross-border insolvency cases, including new Chapter 15 of the United States Bankruptcy Code, the EU Regulation on Insolvency Proceedings, and the UNCITRAL Legislative Guide on Insolvency.
Attributes: BFE, ICE, JD, LAWI, LLM.

ITGL 0356. HUMAN RTS CROWLEY CSWK. (1 Credit)

ITGL 0357. INTERNATIONAL TAXATION. (2-4 Credits)
This course is a comprehensive study of the U.S. international tax rules that apply to foreign persons investing and engaging in business in the U.S. and U.S. corporations investing and engaging in business abroad. The “inbound” portion focuses on how the U.S. taxes foreign persons on their U.S. passive income, business income, and income from the sale of real property. The "outbound" portion focuses on the U.S. foreign tax credit rules, the U.S. anti-deferral regimes, and some aspects of the U.S. transfer pricing regime. We also examine important recent developments, such as corporate inversions and the rise of “stateless income.” The application of income tax treaties is an integral part of the course.
Attributes: BFE, ICE, JD, LAWB, LAWI, LLM.
Prerequisite: TXGL 0348.

ITGL 0359. INTERNATIONAL BUSINESS TRANSACTIONS. (2-4 Credits)
The course introduces students to laws involved when doing business in more than one nation. The goals are to provide: 1. Core subject knowledge to students wanting to take only one international business law course 2. A solid foundation from which to pursue advanced topic-specific international law courses to students interested in international careers. The course is divided into two parts. Part I covers underlying legal concepts: Transnational lawyering by U.S. and foreign attorneys Dispute resolution: issues of jurisdiction, enforcement, arbitration, discovery Public international law: customary law, treaties, expropriation, nationalization World trade system: trade regulation, exchange controls, role of private lawyers Corporations: nationality, alien corporations, multinational enterprises, limited liability International tax: corporation tax status, US taxation of foreign businesses, tax treaties Part II adopts a transactional approach. Students examine legal issues within the context of fundamental international business transactions: Transnational sales (choice of law and choice of forum, transportation and financing, export controls, anti-boycott legislation, Foreign Corrupt Practices Act) Agency and distribution agreements (termination, exclusive distributorships) Licensing agreements (international aspects of intellectual property law) Foreign direct investment (choice of business form, national restrictions on foreign investment, protection of foreign investments) Mergers and acquisitions (stock purchase agreement, securities law issues, EC Merger Regulation, Exxon-Florio, privatization) and Joint ventures (Chinese regulation of foreign investment) U.S. and EU antitrust law issues will be covered as they arise in many of these transactions. This course will have a Take-home final exam. Student attendance and participation will also be taken into consideration for the final grade.
Attributes: ICF, LAWB, LAWI.

ITGL 0360. MULTINAT'L CORPORATIONS. (2 Credits)
This seminar is an introduction to a range of legal issues facing business entities that operate in a transnational setting, and more particularly, the legal issues that they face because of their multinational character. The course will focus, inter alia, on methods of entry into other markets and alternative forms of organization; current trends in the use of joint ventures; regulation of foreign direct investment and vulnerability of multinationals to country risk and expropriation. The course shall also examine the risk analysis and preventive use of contractual provisions; antitrust aspects of doing business across borders, extraterritorial application of U.S. securities, environmental and employment legislation; international regulation and codes of conduct for multinationals. Paper Required.
Attributes: ICE, LAWB, LAWI, LLM.

ITGL 0364. EUROPEAN UNION & INTELLECTUAL PROPERTY LAW. (2-3 Credits)
Paper required. Satisfies the writing requirement. This course explores IP case law from the European Court of Justice and the enacted and proposed EU directives and regulations which harmonize Member State laws of copyrights, trademarks, patents and industrial designs. In addition, international treaties and organizations, including the WIPO, which affect these laws, are examined. Prerequisite: any intellectual property law course here or in another school, or permission of instructor.
Attributes: ICE, IPIE, JD, LAWI, LAWT.
ITGL 0367. INTERNATIONAL ARBITRATION. (2-3 Credits)
This is a core course in law and practice of international arbitration as an alternative to litigation, private method of international dispute resolution. We will cover in depth the international arbitration process from the arbitration agreement to arbitral proceeding and arbitral award, as well as post-award moves by the parties, such as requests to the courts for setting aside or recognition and enforcement of arbitral awards. In doing so, we will analyze court decisions and arbitral awards and study the 1958 Convention on the Recognition and Enforcement of Foreign Arbitral Awards (the New York Convention), domestic arbitration laws (the Federal Arbitration Act and laws following the UNCITRAL Model Law on International Commercial Arbitration), the rules of leading arbitral institutions (such as the ICC, AAA/ICDR, and LCIA), the UNCITRAL Arbitration Rules, and the IBA rules and guidelines in international arbitration. We will conclude the course with the overview of investment arbitration, where the focus will be made on investor-state arbitrations conducted under the 1965 Convention on the Settlement of Investment Disputes between States and Nationals of Other States (the Washington Convention). We will largely rely on the casebook supplemented by occasional law review articles and more recent cases. There will be several group practice exercises. The course will be graded based on a 24-hour take-home final examination (60% of the final grade) and class participation, including attendance (40%).
Attributes: ICE, LAWI, LDE, LIDR, LLM.

ITGL 0369. INTERNATIONAL ENVIRONMENTAL LAW AND LAW OF CLIMATE CHANGE. (2 Credits)
International Environmental Law is no doubt one of the most challenging and innovative fields in international law. The past two decades have seen the emergence of numerous international principles and rules in this area challenging many of the more established rules and principles in the international legal field. Several multilateral environmental agreements (MEAs) have been adopted and international environmental rules regulate almost every environmental issue one can think of. For example, just to mention a few areas, there are treaties dealing with marine pollution, hazardous activities, atmospheric pollution, waste management, access to information and so on. <p>This course aims to offer an overview of international environmental law to allow students to familiarize themselves with the key concepts in this field. The course will begin with an overview of the key international legal principles and rules dealing with the protection of the environment. It will do so by giving an historical introduction to put the evolution of this field in context. After this introductory lectures, the course will address the role that international institutions play in this field before moving on to examine selected treaty regimes to provide concrete and practical examples of the international regulation of environmental issues. In particular, the course will examine some of the most topical global environmental legal regimes, with particular attention to global environmental problems such as the depletion of the ozone layer, the trans-boundary movement of hazardous waste, the conservation of biological diversity and the international responses to climate change. The course, finally, will examine cross-cutting issues, including the relationship between human rights and the protection of the environment, the protection of the environment in times of war and the question of compliance with environmental obligations.
Attributes: ICE, INLJ, LAWI, LLM.

ITGL 0370. INTERNATIONAL INVESTMENT LAW. (2 Credits)
This course examines the international investment law governing the treatment and regulation of foreign investment, as well as the challenge of balancing the competing interests and goals of foreign investment, including investor rights and protections, economic development, the sovereignty of host states, and protection of the environment. The course focuses on the legal framework, particularly the laws, policies, and legal institutions affecting cross-border, affecting international investments. It explores the nature of international investment and multinational investors, the international legal framework for international investment. It considers both the historical framework for regulating international investment as well as the evolving treaty law including bilateral investment treaties (BITs), the North American Free Trade Agreement (NAFTA), the Energy Charter Treaty (ECT), and the arbitration and judicial decisions applying international investment law. It also explores national regulatory frameworks for foreign investment, the contractual and legal mechanisms for structuring, financing, and protecting international investments and the related conflict management practices. <p>Recommended previous courses, but not required as a pre-requisite, international law, international business transactions, or international arbitration. <br>Scheduled final with a paper option.
Attributes: ICE, JD, LAWI, LIDR, LLM.

ITGL 0371. HUMAN RIGHTS & RESOLVING CONFLICT IN NORTHERN IRELAND. (3 Credits)

ITGL 0372. INTL CONFLICT RESOLUTION. (2 Credits)

ITGL 0373. INTL CONFLICT RES: USE ADR & HR. (2,3 Credits)

ITGL 0377. INTERNATIONAL ARBITRATION PRACTICUM. (2 Credits)
Please see section for course description.
Attributes: JD, LAWI, LIDR, LLM.
This seminar is focused on the social dimension of corporate sustainability, defined as a company's delivery of long-term value in financial, social, environmental and ethical terms. In particular, this seminar explores the multifaceted intersection of business and human rights, including labor rights. While some still consider that the social responsibility of business is merely to increase its profits, the idea that business has human rights responsibilities - moral and/or legal - has been steadily gaining acceptance. Growing awareness of the impacts that business can have on human rights - positive and negative - as well as of the increasing power of corporations vis-à-vis the States in which they operate has raised the volume on calls for businesses to ensure that, at a minimum, human rights are respected within their operations and value chain. Key developments include: Well-known human rights organizations, like Amnesty International and Human Rights Watch, have launched human rights and business campaigns and monitor and report on human rights abuses by businesses. Consultancies and law firm practices advise businesses on how to improve their human rights performance. A growing number of multinational corporations now assess their human rights impacts, have introduced human rights policies and training programs, report on their human rights performance and have hired experts in corporate social responsibility (CSR) and human rights. Some companies even find themselves being sued for their involvement in human rights violations. Major international organizations, such as the United Nations, the International Labour Organization and the OECD, have issued principles and standards outlining the social responsibilities of businesses. In particular, a six year process undertaken by the UN Special Representative of the Secretary-General on Business and Human Rights culminated in June 2011 in the endorsement by the UN Human Rights Council of a set of Guiding Principles on business and human rights. Most recently, in June 2014, the UN Human Rights Council adopted a resolution to embark on a process to elaborate an internationally legally binding instrument on transnational corporations and other business enterprises with respect to human rights. These developments beg questions which will be explored in the seminar - such as why human rights are or should be a business issue; if so, to what extent; what can a company do to respect and support human rights; and what remedies might be available for those whose human rights have been adversely affected by a business. The seminar addresses the following main areas: A) Why human rights is a business issue B) Some further context for business and human rights C) The international business and human rights framework D) Applications of business and human rights E) Remedies.

Attributes: ICE, INLJ, LAWB, LAWI.
ITGL 0445. HUMAN RIGHTS: HOLOCAUST & LAW. (3 Credits)
This course will examine issues relating to the assault on human rights in the modern world, focusing primarily on genocidal practices by nations in the 20th century. The course will include the debate over the definition of human rights, the legal mechanisms for enforcing human rights, and the law of war and the Geneva Conventions. If law is designed to bring order to an otherwise chaotic world, then acts of genocide must represent the ultimate breakdown of those laws, and provide the evidence of just how fragile our claims to civilization actually are. The course will focus on some of the philosophical, political, psychological and legal explanations that have been offered to explain the existence of human rights violations and genocides. The course will also look at the psychological impact that such human rights atrocities have had on victims and survivors. In dealing with some of these issues, the course will focus on the Holocaust and the role that an elaborate and articulated system of German laws played in the de-emancipation and murder of German citizens and foreign nationals. The asserted uniqueness of the Holocaust will be examined in its relationship to prior and subsequent human rights abuses in this century.
Attributes: INLJ, JD, LLM.

ITGL 0477. HUMAN RIGHTS IN ASIA. (2 Credits)
The 21st century has often been heralded as the "Asian century," characterized by economic development, increased political clout, and unprecedented social and cultural change. Students in this class will explore how these forces affect human rights, in law and in practice, in Asian societies. This will include particular focus on the emergence of human rights norms in Asia, in both domestic and regional settings, and successful advocacy strategies for human rights law practitioners. Particular substantive issues will include freedom of expression and the impact of telecommunications technology; the ongoing dynamics of human rights and counter-terrorism; the role of corporations in addressing human rights impacts, and the increasing consequences of migrant populations, including migrant workers and refugees.
Attribute: INLJ.

ITGL 0500. ADVANCED DEVELOPMENT AND TRADE. (3 Credits)
What role does international trade law have to play in addressing poverty and inequality in the global economy? The course focuses on the intersection of two key objectives of the international order and international economic law: the promotion of central rules and policies for the stabilization and liberalization of international trade; and the encouragement of economic growth and development in poor countries. Thus course will consider the challenge of addressing poverty and development in a climate of increasing challenge to the post-World War II consensus on international trade, and assess the effects of current controversies around trade and development for the fracturing world economic order. The first part of the course will focus on the primary multilateral trade organization, the World Trade Organization (WTO), and its predecessor, the General Agreement on Tariffs and Trade (GATT). The second part of the course focuses on trade regimes affecting particular regions of the developing world, with special emphasis on U.S. trade law and policy in respect of those regions.
Attribute: LLM.

ITGL 0510. ANTITRUST LAW AND ENFORCEMENT – COMPARATIVE PERSPECTIVES. (2 Credits)
This seminar will explore selected important and current legal and economic antitrust/competition issues in a comparative law setting, with an emphasis on the U.S. and EU laws and decisions. Specific topics will include:<br>Institutional differences in enforcement (eg administrative authorities, private actions and courts) and policy; the role of economics and experts; cartels and oligopolies; vertical restraints; abusive unilateral conduct; mergers, joint ventures and other collaboration among competitors (eg sports leagues); hot industries -- including high tech, transportation, media, telcom, natural resources, etc. -- and related global enforcement issues.
Attributes: ICE, JD, LAWB, LAWI, LLM.

ITGL 0512. INTL TRADE & IP LAW. (3 Credits)

ITGL 0516. INTERNATIONAL LAW. (4 Credits)
This is an introductory course in international law designed primarily for those who have not previously studied the subject. The course aims to illustrate the importance of international law in relation to many of the central issues that preoccupy national governments and to highlight the extent to which the assumptions underpinning it have changed in recent decades. Like any general international law course, the coverage of topics is necessarily selective given the range of possible subjects. The assumption, however, is that the materials provide an understanding of the essential normative and analytical frameworks required to tackle any issue within the field of public and quasi-public international law. It does so by providing an introduction to diverse specialist areas such as human rights, the use of force, international trade, and the law of the sea, as well as exploring how international law is applied in U.S. courts.
Attributes: ICF, INLJ, LAWI.
ITGL 0520. INTERNATIONAL LAW OF DEV. (2 Credits)
The international community is facing many challenges in the 21st century. Promoting development is arguably one of the items at the top of the international agenda, an objective shared by all the stakeholders in the international community. The course is designed to give an overview of the international legal rules on development and poverty eradication. Students will learn the basic framework for international development cooperation and will be exposed to the current legal and policy debates within the field. This course will examine the international legal rules, the activities of State actors, international organizations and other entities that deal with the promotion of development and poverty eradication. The course will begin with an examination of the main theories and concept(s) of development. We will be asking ourselves, inter alia, what is development? What kind of development should the international community promote? Is there a right to development? How do we measure development? It will continue with the analysis of the international legal rules designed to promote development and we will focus on the role played by selected international organizations. The course will firstly examine the activities of the United Nations, its Programs and Specialized Agencies. More specifically, it will examine the UN Development Agenda that emerged following the several UN Development Conferences, including the Millennium Summit, the Monterrey Conference and the 2005 World Summit. The course will then move on to examine the role and activities of the World Bank Group, in particular the International Bank for Reconstruction and Development and the International Development Association. It will further examine the role that financial aid (multilateral and bilateral) plays in the promotion of development and we will discuss its effectiveness. The course will continue with a discussion on the relationship and interaction between trade liberalization and development and the role of the World Trade Organization. The course will conclude with an assessment of current policies and will try to identify shortcomings and strengths to propose (new) tools to achieve development, with a focus on sustainable development. Guest speakers will deliver selected lectures to illustrate the implementation and practical implications of the legal rules studied during this course.
Attributes: ICE, INLJ, LDE, LIDR, LLM.

ITGL 0530. Understanding War, Crime and Justice after 9/11: Today’s National Security Law in context. (2 Credits)
This course examines the philosophical and legal arguments which infused the numerous legal debates surrounding war on terror policies. We will look at the long tradition of philosophical and juridical debates which have focused on the relationship between law and violence and the responses over time of the U.S. government and the courts to these evolving philosophical premises. Readings will include Hannah Arendt, Cesare Becaaria, Richard Posner, Michael Walzer, Robert Cover, among others, as well as several Supreme Court decisions related to war and political violence. <br> <br> (Writing requirement can be satisfied with this course.)
Attributes: ICE.

ITGL 0555. MEDIATION: INTERNATIONAL AND COMPARATIVE PERSPECTIVES. (2 Credits)
Mediation is a problem-solving process that focuses on individual interests and attempts to develop solutions that respond directly to those interests. Over the last fifteen years, there has been significant growth and development in the field of international mediation and in some respects, a move away from arbitration as a method of international dispute resolution. Reasons for this trend include: the difficulty of enforcing arbitration awards in some countries; the need for global corporations to find an effective method to resolve cross border disputes; increased cross border on line transaction disputes; and the pressure to manage dispute resolution costs. This seminar will introduce students to the wide variety of contexts in which mediation is practiced in public and private settings, from commercial disputes to United Nations peacemaking efforts. Students will study theories of mediation and explore how different mediation models operate under various cultures and codes of ethics. The course is conducted through lectures, selected readings and simulations. A final research paper is required.
Attributes: ICE, INLJ, LDE, LIDR, LLM.

ITGL 0602. US FOREIGN RELATIONS LAW. (3-4 Credits)
This course will provide an in-depth introduction to the relationship between U.S. constitutional law and public international law. On the domestic side, selected topics will include the courts and foreign relations, Congress v. the President in foreign affairs, the role of the states, and the status of treaties and customary international law. With regard to international law, treaties, custom, jurisdiction, and sovereign immunity. Special emphasis will be placed on the place of international human rights in both the international and domestic legal regimes.
Attributes: ICE, JD, LAWI, LAWJ, LLM.

ITGL 0650. NATIONAL SECURITY LAW. (2-3 Credits)
This course will examine the United States¿ principal options for dealing with suspected terrorists after they have been identified. We will begin by discussing the preventive detention of suspected terrorists under federal law, international human rights law, the law of war, and selected national regimes. We will also address legal constraints on the treatment of detainees in American custody, as well as the mechanisms for challenging improper detention under federal law and the Constitution. Next, we will turn to criminal trials in Article III courts and before military commissions, examining procedural problems as well as grounds for substantive criminal liability. Third, we will examine the legal framework governing the rendition of suspected terrorists to other countries. Finally, we will address the question of targeted killings: whether they can ever be justified, and if so under what circumstances. The course will proceed from a domestic perspective, but will draw on international legal norms as a significant source of authority throughout.
Attributes: INLJ, JD, LAWI, LAWJ, LLM.
ITGL 0678. Introduction to Global Administrative Law and International Private Governance. (2 Credits)
In the last few decades, scholars and practitioners have started to perceive the relevance of "trans-governmental cooperation" as a consequence of the international and globalized interdependence that exists in fields such as security, environmental protection, banking and financial regulation, telecommunications and the law of the internet, trade in products and services, intellectual property rights, and immigration. By using international agreements and soft law instruments, several forms of regulatory cooperation have taken place around the globe, transferring many regulatory decisions from the national to the "global level". Cooperation that involves public and private entities, raising questions as to the constitutional structure of contemporary societies and the allocation of governance. Global administrative law is the byproduct of these forms of cooperation, and is changing the manner in which administrative functions are performed at the national and international level. Tangible examples are: the production of international technical standards (e.g. ISO, IEC, Ansi, Acme…); the regulation of internet domains (administered by the Internet Corporation for Assigned Names and Numbers); the administration of health standards and definitions (administered by the World Health Organization); the regulation of international trade and the protection of intellectual property (administered by the WTO and the WIPO).<br>
This course is designed for both J.D. and LL.M. students, and aims at providing a working knowledge of the principles and the functioning of global administrative law, and of the "global administrations" responsible for the production of global norms. It also analyzes the way global norms are received by national legal systems, with a specific focus on American and European contexts. Both elements are of great importance for lawyers who intend to pursue a career in international or business law, and would like to understand the complexity of the multiple layers of normativity that characterize our time. The course would also benefit prospective lawyers and legal experts endeavoring to work in domestic law, because it provides a modern approach to administrative and economic law problems and an analysis of the way international and transnational norms enter domestic legal systems. The subject matter of the course should not be confused with international law or the law of the international business transactions. It can be considered, instead, a complementary course for both disciplines, as it focuses on entities that are not necessarily regulated by international law, even though they deeply regulate crucial economic relations. <br>
Required: : 20 page paper on a topic relevant to the course. Concentration Open to everyone. Particularly interesting for ILJ, IBT students.

ITGL 0693. COUNTER-TERRORISM POST 9/11. (2 Credits)
This class will examine counter-terrorism in a post-9/11 world. It will look into the laws, regulations, practices, tactics, techniques and strategies that are employed by governments, law enforcement and the financial community in order to prevent terrorism. It will also provide a comprehensive review of how terrorist acts since 9/11 have been addressed. The evolution of the laws and regulations applicable to detecting and prosecuting terrorism will be reviewed, including an in-depth analysis of the applicable sections of the Patriot Act. The course also addresses the role of lawyers, financial institutions and law enforcement in the process of trying to detect and prosecute terrorism and terrorist financing.
Attributes: INLJ, JD, LLM.

ITGL 0718. LABOR LAW IN THE INTERNATIONAL CONTEXT. (2 Credits)
This course addresses the development of workers' rights in the global economy and explores various obstacles to their successful realization. Trade, investment, and economic growth have expanded rapidly at the international level in the past 35 years. As a result, the rights of workers in a transnational setting have become critically important—for national governments, multinational corporations, international public bodies, and NGOs as well as for tens of millions of workers. The course will examine legal structures and implementation practices that are shaping the rights of workers in this competitive global setting.
Attributes: ICE, INLJ, PIE.

ITGL 0747. Refugee Law and Policy: Middle East Conflicts. (2 Credits)
This seminar examines refugee law and policy with a focus on the U.S. and international responses to recent refugee crises in the Middle East. In this seminar, we will cover refugee law and policy from three perspectives: first, the law governing international and U.S. refugee protection; second, the challenges of refugee adjudications in practice; and third, the foreign and domestic policy dynamics that shape refugee protection policies. The course will address recent legal developments affecting refugees, including the executive orders banning refugee resettlement and the status of ongoing legal challenges before the Supreme Court, as well as topics that include the impact of trauma on refugee narratives and adjudications, refugee law and gender-based persecution, the role of international organizations in refugee protection, and the debate over refugee resettlement. The grade will be based on class participation, written responses and practical exercises, paper presentations, and a final paper.
Attribute: INLJ.

ITGL 0748. REFUGEE AND MIDDLE EAST POLICY II. (2 Credits)
This seminar is open to students who completed the Fall 2013 course Refugee Law and Policy. Students will work on one of two projects. One group will explore reforms to U.S. overseas refugee adjudications in light of newly released, comprehensive records and data from the U.S. refugee admissions program. The other group will research U.S. refugee resettlement as a response to the Syrian refugee crisis. Students may participate in a fact-finding trip to Jordan. In class, students will discuss relevant topics in refugee law, including access to counsel, the strategic use of resettlement, the law of "material support," and reforms to refugee adjudications. The grade will be based on class participation, research memos, class presentations, and a final group report.
Prerequisite: ITGL 0747.

ITGL 0778. ADVANCED CROWLEY SEMINAR. (2 Credits)

ITGL 0781. INTERNATIONAL OIL & GAS LAW. (2-3 Credits)

ITGL 0782. GLOBAL PERSPECTIVE ENTREPRENEURSHIP LAW. (3 Credits)
This course provides an introduction to the theory and practice of entrepreneurship law from a global perspective, as well as a critical analysis of how entrepreneurship supports and complements human rights and civil society efforts. It includes perspectives on the rise of entrepreneurship associated with the global economy, technology, automation and changing labor opportunities. Topics include the role of entrepreneurship in a global economy, corporate social responsibility, disruptive technologies, microbusiness, social business, social entrepreneurship, the creative economy, sustainable local economies, cooperatives and shared work, and inclusive entrepreneurship. The course will also cover the role of transactional lawyers in representing entrepreneurs and the legal structures that promote profit alongside sustainable economic and human development.
Attributes: JD, LLM.
ITGL 0875. IMMIGRATION, ENFORCEMENT AND PROTECTION. (1 Credit)
Immigration, Enforcement, and Protection will immerse students in current issues in immigration enforcement and refugee protection in the United States through an academic and experiential component. For the first week of the Winter Term, students will participate in a seminar that explores the unique legal landscape applicable to the border region of the United States through the lens of two dominant but competing policy frameworks in immigration law: international protection and domestic law enforcement. The course will introduce students to key provisions of domestic and international law that assign and restrict the power of federal and state government actors, citizens, and noncitizens in the border region and at ports of entry. It also will examine policy choices related to protection and enforcement with a focus on civil immigration detention and expedited removal proceedings. Students will spend the second week of the Winter Term in Dilley, Texas, working under the supervision of the course instructor and licensed attorneys at Texas Rio Grande Legal Aid ("TRLA"). Students will apply their academic coursework to supervised, limited-scope representation of asylum-seeking families in expedited removal proceedings. Through the seminar component, the course aims to prepare students to think critically about their observations and experiences on-the-ground and to contextualize those observations and experiences within the broader framework of the rule of law at the southern border. By placing them in Dilley under the supervision of TRLA attorneys and Fordham faculty, the course aims to develop students’ client counseling and advocacy skills while exposing them to creative, crisis lawyering and providing desperately-needed legal services to a vulnerable population. Students will spend 12.5 hours in the seminar and will perform 45 hours of on-the-ground work.
Attributes: INLJ, LAWJ, LLM.

ITGL 0876. GLOBAL BUSINESS, NATIONAL SECURITY & LAW. (1 Credit)
This course will examine the nexus of national security interests and the fight against financial crime, namely the use of economic sanctions and anti-money laundering initiatives to deprive criminal enterprises and terrorists of access to the US financial system. The course will also examine the challenges that global corporations face in trying to abide by the laws involving economic sanctions, second order liabilities, and Foreign Corrupt Practices Act issues. The course will discuss key agencies, including the NSA and DHS, with a focus on the Department of Treasury’s Office of Foreign Asset Control and Financial Crimes Enforcement Network, their mandates and the unique role financial institutions play in executing on those mandates, as gate-keepers to the U.S. financial system. Readings will include a selection of enforcement cases, articles and regulatory guidance that demonstrate how national security policy objectives are dependent, at least in part, on the effective deterrence and detection of financial crime.
Attributes: CRCP, INLJ, LAWI, LAWJ, LLM.

ITGL 0895. INTERNATIONAL BUSINESS NEGOTIATIONS: A SIMULATION WITH CARDOZO SCHOOL OF LAW. (3 Credits)
This course is structured around a semester-long, simulated negotiation exercise which is intended to provide an in-depth study of the structuring and negotiating of an international business transaction. This class will be taught in counterpart with a class at Cardozo Law School. Students in this class will represent a U.S. pharmaceutical company, and the students in the class at Cardozo will represent an African agricultural production company. The two companies are interested in working together to exploit a new technology developed by the pharmaceutical company that uses the cassava produced by the African agricultural production company. The form of their collaboration could be a joint venture, a licensing agreement or a long term supply contract. The negotiations between the two classes will take place through written exchanges and through real-time negotiations which will be conducted in face to face meetings, alternating between Fordham and Cardozo.

The purpose of the course is to provide students with an opportunity (i) to experience the sequential development of a business transaction over an extended negotiation, (ii) to study the businesses and legal issues and strategies that impact the negotiation, (iii) to gain insight into the dynamics of negotiating and structuring international business transactions, (iv) to learn about the role that lawyers and law play in these negotiations, (v) to give students experience in drafting communications, and (vi) to provide negotiating experience in a context that replicates actual legal practice with an unfamiliar opposing party. Students at Cardozo will represent a U.S. pharmaceutical company, and the students in the class at Cardozo will represent an African agricultural production company. The form of their collaboration could be a joint venture, a licensing agreement or a long term supply contract. The negotiations between the two classes will take place through written exchanges and through real-time negotiations which will be conducted in face to face meetings, alternating between Fordham and Cardozo.

The purpose of the course is to provide students with an opportunity (i) to experience the sequential development of a business transaction over an extended negotiation, (ii) to study the businesses and legal issues and strategies that impact the negotiation, (iii) to gain insight into the dynamics of negotiating and structuring international business transactions, (iv) to learn about the role that lawyers and law play in these negotiations, (v) to give students experience in drafting communications, and (vi) to provide negotiating experience in a context that replicates actual legal practice with an unfamiliar opposing party (here, the students at Cardozo). Students will also learn about the legal and business issues that may arise in joint ventures, supply agreements and licensing agreements.

The thrust of this course is class participation and active involvement in the negotiations process. Students are expected to spend time outside of class, working in teams, to prepare for class discussions involving the written exchanges, as well as preparing for the live negotiations. Class discussions will focus on the strategy for, and progress of, the negotiations, as well as the substantive legal, business and policy matters that impact on the negotiations.

This class will meet on Thursdays from 6:00 to 8:50. NOTE: Since some of the Thursday live negotiations will take place at Cardozo, students will need to allow for commuting time; it will also be important to be at all negotiating session somewhat early to set up and be ready to begin promptly. It should also be noted that negotiation sessions may not end precisely at 8:50; if negotiations are robust, a session may run over to allow for a natural end of discussions. Finally, the last negotiation session will be scheduled for four (4) hours, with the last hour reserved for a collective "debrief" between the students in both classes.

Attribute: LAWJ.
ITGL 0906. COMPARATIVE FINANCIAL REPORTING. (2 Credits)
It was not long ago when every jurisdiction had its own financial reporting standard and multinationals had to convert the financial reports from one jurisdiction to another in order to determine its value and how much profit was made globally. How about we say, in today's globalized world, there is a private international organization setting the standards for the world and various jurisdictions adopt those standards in the name of harmonization? Private international standard setting is on the rise as the globalization forces nations to be more receptive and adaptive to what the rest of the world is doing. International Financial Reporting Standards (IFRS) are a good example of how a private international NGO sets the standards for the world. Today, over 120 countries use IFRS. The US for instance, have not yet adopted IFRS and insists on using its own standards (US GAAP) while from Europe to Canada and Australia, almost all major economies of the world are already using IFRS. Yet, convergence projects between US GAAP and IFRS have been going on for over a decade and made US GAAP closer to IFRS more than ever. In addition, many foreign companies listed in the US stock exchanges are reporting under IFRS as the SEC is allowing the use IFRS for foreign listed companies since 2007. This course is designed to look at financial reporting from various angles from understanding the basics of financial reports and why are they needed, to looking at how private international standard setting works and who sets those standards. Comparative Financial Reporting will supply students with a legal perspective on the processes of standard setting and financial reporting. This seminar may be particularly interesting to students considering a career focusing on multinational corporations and for those interested in private international rule making. There will be no final exam. Instead, students will be asked to submit a paper at the end of the semester which can be used to fulfill the writing requirement. The paper and class participation will make up the final grade. Reading assignments will be excerpts from various books, reports and law review articles, specific pages to be assigned in due course. Assignments will be available at the Blackboard.
Attributes: CRCP, JD, LAWI, LL.M.

ITGL 0936. ANTITRUST-INTL CROSS BORD MERG. (2 Credits)
Handling an International Cross-Border Merger involves more than just knowing the law. To get a deal negotiated, signed and cleared starts with a knowledge of the law and the regulators, but also requires a sense what arguments will work best, when, and with whom. This course examines the business, regulatory, and legal factors that all come into play in getting an international merger negotiated, signed, filed, cleared by antitrust authorities, and closed. We use the actual merger documents and filings used by the parties in the United States and the European Union in a major, multinational acquisition as our working papers. We also use internal client memoranda to consider the client-centered business issues (in addition to the strictly legal ones) involved in mergers and acquisitions. The course starts with an exploration of why companies merge, acquire or divest businesses, to understand what is important to the client in a deal. After a quick review of the governing legal standards, we then move on to the actual filings themselves, including the issues that the regulators raise, why they raise them, and how counsel responds. Finally, we reach the stage of remedies and decrees, including what to divest, how, and where.
Attributes: ICE, LAWB, LAWI, LLM.

ITGL 0950. INTRODUCTION TO THE UNITED STATES LEGAL SYSTEM FOR MSL STUDENTS. (1 Credit)
This course, designed for MSL students, examines the principal features of the U.S. legal system, including federalism the structure and operation of the national government the federal and state judicial systems the use of precedent, methods of reading, analyzing, and synthesizing case law and dispute resolution. <p> The course will be taught on-line, with a few sessions held in the evenings. Online lectures will be available in early August. Students should plan to complete the lectures and required readings before the start of the regular semester. <p> Students will be evaluated on the basis of an examination to be administered early in the semester.

ITGL 0963. CRIMMIGRATION:THE INTERSECTION OF IMMIGRATION & CRIMINAL LAW & PROCEDURE. (2 Credits)
The course will focus on the historical and legal relationship between criminal and immigration law. First, we will discuss substantive immigration law and how it relates to the criminal system. The goal of this part of the course is to provide the student with an understanding of the immigration consequences of criminal conduct and how the student can navigate through the criminal system to best assist the non-citizen. The second part of the course will focus on immigration process and procedure, including removal proceedings and detention, and provide the students with an understanding on how to best represent the non-citizen before the immigration authorities.

ITGL 0991. MONETARY UNION & EURO CRISIS. (2 Credits)
ITGL 0992. PROTECTION OF SEXUAL ORIENTATION & GENDER IDENTITY UNDER INTERNATIONAL HUMAN RIGHTS. (2 Credits)
This course will explore the protection of LGBTI persons under international human rights law and how sexual orientation and gender identity have been addressed through international and regional mechanisms. In particular, we will analyze specific rights protections identified by key human rights treaty bodies, as well as how these issues have been addressed by the Human Rights Council through various resolutions, the Universal Periodic Review process, and reporting by Special Procedures. We will also compare these approaches to those taken through regional mechanisms such as the Inter-American, European, and African systems. We will use these frameworks to assess rights protections pertaining to such issues as violence against LGBTI persons, criminalization of same sex activity, marriage and same sex relationship recognition, gender markers in government documentation, and equal access to housing, employment, education, and public accommodations.
Attributes: ICE, LAWJ.

ITGL 1017. GLOBAL BUSINESS, NATIONAL SECURITY AND THE LAW. (1 Credit)
This course examines the nexus of national security interests and the fight against financial crime, namely the use of economic sanctions and anti-money laundering initiatives to deprive criminal enterprises and terrorists of access to the US financial system. It looks also to examine the challenges that global corporations face in trying to abide by the laws involving economic sanctions, second order liabilities, and FCPA issues. We will discuss key agencies of government including the NSA and DHS, with a focus on the Department of Treasury's Office of Foreign Asset Control and Financial Crimes Enforcement Network, their mandates and the unique role financial institutions play in executing on those mandates, as gatekeepers to the US financial system. Readings will include a selection of enforcement cases, articles and regulatory guidance which demonstrate how national security policy objectives are dependent, at least in part, on the effective deterrence and detection of financial crime.
International Political Economy and Development (IPED)

IPED MTNC. MAINTENANCE – IPED. (0 Credits)

IPED 0911. EMERGING MARKETS MAINTENANCE. (0 Credits)
This is an administrative registration intended for students from South Africa participating in IPED's ADV EMRA program. Students complete the program over summer but must maintain matriculation in fall, while their grades and requirements are finalized over the fall semester succeeding the summer program.

IPED 0912. REQUIREMENT PREPARATION. (0 Credits)
For Ph.D. and Master's students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement, such as comprehensive exam, Master's thesis, or dissertation submission.

IPED 0914. REQUIREMENT PREPARATION IN SUMMER. (0 Credits)
For Ph.D. and Master's students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement during the summer. (e.g., to be used by Ph.D. students after the oral examination/defense and prior to receiving the degree).

IPED 0922. PHD COMPREHENSIVE EXAMINATION PREPARATION. (0.5 Credits)

IPED 0934. MASTER'S COMPREHENSIVE EXAMINATION PREPARATION. (0.5 Credits)

IPED 0936. MASTER'S COMP EXAM-IPED. (0 Credits)

IPED 3999. TUTORIAL. (3 Credits)

IPED 5550. THE UN & INTL SECURITY. (3-4 Credits)

IPED 5560. CONFLICT RESOLUTION. (3-4 Credits)
Wars are responsible for the greatest violation of basic human rights, destruction and human suffering. This course studies various attempts at mediation, negotiation, and peace-building that have been used to resolve the conflicts, sometimes without success.

IPED 5771. PROJECT M&E: PHILIPPINES. (3 Credits)
This course trains students to monitor and evaluate small community development projects. The Philippines, because of its rich and vibrant civil society, offers access to a large number of community organizations and projects focusing on, among other areas, fisherfolk, farmers, indigenous people, women, the rural poor, and the environment. A key component of the course requires students to form research teams that will conduct actual field surveys of local community development projects in the surrounding rural provinces outside metropolitan Manila.

IPED 6000. LATIN AMERICA: CURRENT TRENDS. (3 Credits)
The objective of this course is to help students develop the basic tools for political analysis in the context of an overview of the current political environment and economic circumstances of Latin America's main players. The course will provide information and guidelines for understanding the present situation within each of the main influential countries in the region and the interrelationship among these countries. The relationship with the United States and other extraregional players with increasingly important roles in the region, as well as the influence of the Organization of American States will also be explored.

IPED 6010. EMERGENCY RELIEF WORKSHOP. (0 Credits)
A two day workshop on emergency relief done in cooperation with Fordham's Institute on International Humanitarian Assistance.

IPED 6020. INT'L EMERGENCY RELIEF. (3 Credits)
(Replaces HAGA 6020). Course studies relief efforts in situations where the capacity to sustain life is threatened frequently by political factors associated with high levels of violence.

IPED 6500. BOREN FELLOWSHIP PREPARATION. (0 Credits)
Boren Fellowships provide students opportunity to add important international and language component to their graduate education through specialization in area study, language study, or increased language proficiency in areas of the world that are of significance to U.S. interest. The student will study a less commonly taught language and would be involved in research in a field of study deemed critical to U.S. national security.

IPED 6502. BOREN FELLOWSHIP: JORDAN. (0 Credits)
Boren Fellowships provide students opportunity to add important international and language component to their graduate education through specialization in area study, language study, or increased language proficiency in areas of the world that are of significance to the U.S. interest. The student will study a less commonly taught language and would be involved in research in a field of study deemed critical to U.S. national security.

IPED 6520. INTL LAW & DEVELOPMENT. (3 Credits)
Covers international organizations, human rights and environmental law. Attribute: ABGS.

IPED 6700. IPD FELLOW:BURKINA FASO. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6701. IPD FELLOW: ECUADOR. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6702. IPD: FELLOW: EAST TIMOR. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6703. IPD FELLOW: EL SALVADOR. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.
IPED 6704. IPD: FELLOW: GHANA. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6705. IPD: FELLOW: HONDURAS. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6706. IPD: FELLOW: JERUSALEM. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6707. IPD: FELLOW: RWANDA. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6708. IPD: FELLOW: SIERRA LEONE. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6709. IPD: FELLOW: LESOTHO. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6710. IPD: FELLOW: CAMEROON. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6711. IPD FELLOW: UGANDA. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6712. IPD FELLOW: SENEGAL. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6713. IPD FELLOW: MALI. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6715. IPD FELLOW: HOLY SEE MISSION. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6716. IPD FELLOW: GUINEA. (0 Credits)
The International Peace and Development Fellowship enables a student to gain valuable field experience in project management with Catholic Relief Services. The student will serve overseas as an assistant to a senior project manager dealing with topics that can include project accounting, project design, project proposal development and project assessment.

IPED 6740. PROJECT ACCOUNTING. (1 Credit)
This course is a one-credit, four week review of basic accounting concepts used by project managers working for international relief and development organizations as well as for economic analysts in government and the private sector. Regular and complete accounting courses needed for business careers are offered in the Graduate School of Business.

IPED 6750. PROJECT DESIGN. (1 Credit)
This course is intended to help students (a) understand the origins, purposes and logic of results-based project and program management, (b) know what its major tools are and how they can be used and abused, (c) understand the challenges that the social sector (especially health and education) in developing countries poses to result-based management, and (d) to understand recent trends in international development cooperation that affect project and program management.

IPED 6760. PROJECT PROPOSAL DEVELOPMENT. (1 Credit)
A practical course on the written and oral presentation of projects. Students preparing project proposals for Fulbrights and other prestigious awards may take the course at no course for zero credit.

IPED 8080. IPED INTERNSHIP. (3 Credits)

IPED 8081. IPED INTERNSHIP. (1 Credit)
Intended for students who are engaged in an internship in a work that is related to their IPED field of study during the semester/term.

IPED 8085. IPED INTERNSHIP. (0.5 Credits)

IPED 8090. IPED INTERN FELLOW. (0 Credits)

IPED 8999. INDEPENDENT STUDY. (6 Credits)

Updated: 10-11-2017
International Studies (INST)

INST 1800. INTERNSHIP. (1 Credit)
INST 2500. INTRODUCTION TO INTERNATIONAL STUDIES. (4 Credits)
An introduction to fundamental problems regarding meaning and communication among people of different nations, cultures, ethnic, gender and socio-economic groups in both historical and contemporary theoretical perspectives. Concepts include “nations”, “culture”, and “race” in Western political and social philosophy. New models are presented to cope with otherness, ethnocentrism, language and symbolism.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: GLBL.

INST 2800. INTERNSHIP. (2 Credits)
INST 2999. SERVICE LEARNING-2000 LEVEL. (1-2 Credits)
INST 3000. INTERNATIONAL INTERNSHIP. (4 Credits)
Students are placed in internships in international organizations in the New York metropolitan area and spend approximately 112 hours interning in them during the semester. Students also read, analyze, and discuss textual material on the current state of international affairs. Students also discuss and analyze their internship placements. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

INST 3100. THE GLOBAL ENVIRONMENT. (4 Credits)
The course surveys the impact of globalization on the environment since the end of World War II, and analyzes the outlook for the future. It draws on the social sciences and humanities to study how the internationalization of culture, economics, and politics have transformed the natural and human-made environment the world over. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

INST 3859. POST-1945: A GLOBAL HISTORY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: LALS.

INST 3999. TUTORIAL. (3 Credits)
INST 4000. INTERNATIONAL STUDIES SENIOR THESIS SEMINAR. (4 Credits)
Senior capstone seminar during which students organize, plan, and write their thesis in consultation with the program director and faculty thesis advisor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

INST 4620. THE WORLD OF DEMOCRACY. (4 Credits)
This course studies democracies across of the globe. It analyzes the meaning of democracy in different cultures and theories, and compares political systems, including democratic nations that aspire to democracy. This course is identical to POSC 4620 Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, EP4, PJST, VAL.

INT 4800. INTERNSHIP. (4 Credits)
INT 4999. TUTORIAL. (4 Credits)
In consultation with the Director of the Program, students may take an appropriate tutorial in their area of interest.
Attribute: GLBL.

Introductory Law (LWGL)
LWGL 0105. LEGAL PROCESS AND QUANTITATIVE METHODS FOR LAWYERS. (1 Credit)
<i>Legal Process</i> will teach new law students about cases, statutes, and other sources of law, with emphasis on common law reasoning and how law develops. Students will be introduced to court structures and the litigation process, as well as fundamental concepts of law and legal argument. <i>Legal Writing and Legal Practice</i> will introduce students to certain essential lawyering skills. <i>Quantitative Methods for Lawyers</i> will teach simple concepts and vocabulary, and introduce quantitative reasoning skills that lawyers need. It will consist of six hours of instruction and cover the following topics: 1. Supply and demand, markets and externalities 2. Cost-benefit analysis 3. Probability and causation 4. Expected value and the time value of money 5. Reading financial statements 6. Ethics and the role of the lawyer Each hour of i>Quantitative Methods</i> will be taught by a different member of the full-time faculty. A unifying problem will tie all the modules together.
Attribute: JD.

LWGL 0299. U.S. LAW & LEGAL INSTITUTIONS. (1 Credit)
This class will introduce students to the basic features of American law that are both distinctive and foundational for non-lawyers engaged in compliance and other forms of legal and quasi-legal work. Topics will include the structure of American legal institutions, common law reasoning and statutory interpretation, judicial review, the administrative state, federalism, as well as a number of aspects of the legal profession.

Investor Relations (IRGB)
IRGB 090A. MS IN IR INTERNATIONAL. (0 Credits)
IRGB 0601. ACCOUNTING PRECOURSE. (0 Credits)
Preparation for the MS in Investor Relations student toward the requisite Financial Statement Analysis. The course is adapted specifically for students who lack accounting in their undergraduate curriculum.
IRGB 0602. FINANCE PRECOURSE. (0 Credits)
Preparation for the MS in Investor Relations student toward the requisite Principles of Modern Finance. The course is adapted specifically for students who lack finance in their undergraduate curriculum.
IRGB 0701. SYMP ON ETHICS INVEST REL 1. (1 Credit)
Students prepare briefs to be critiqued by a panel of faculty and practitioners representing the domain of investor relations, including corporate entities, as well as regulators, news media, and political commentators. A faculty team establishes the theme for which the briefs are prepared and presented.
IRGB 0702. SYMP ON ETHICS INVEST REL 2. (1 Credit)
Students prepare briefs to be critiqued by a panel of faculty and practitioners representing the domain of investor relations, including corporate entities, as well as regulators, news media, and political commentators. A faculty team establishes the theme for which the briefs are prepared and presented.
IRGB 0901. INFO TECH FOR INVESTOR REL. (2 Credits)
This is a survey course introducing the various information technologies in the context of investor relations. The role of information technologies in corporate governance disclosure and transparency is discussed. Students will gain insight into information technology types such as Internet, Web technologies such as web services, E-business models (portal, online, exchange, etc.) Web 2.0 (wikis, blogs, twitter, mashups, etc.) XML, and XBRL. Analytics, Facebook, streaming video and virtual meetings and others. Students will visit corporate websites to learn more about how IR is organized and presented by various companies. Groups will analyze cases and also work on an IT-based IR plan.

IRGB 0902. WEB TECHNOLOGIES. (2 Credits)
This is a version of an existing course that is tailored to the interests and needs of the investor relations professional. The course introduces concepts, issues, and technologies essential to developing web-based applications. Students will look at key Java-based applications including Java Server Pages, Servlets, Java Bean Web Service. Students will also learn hands-on XSD and XML. This course introduces students to IBM’s Rational Application Developer (RAD) and WebSphere. Student groups will work on projects using RAD. Through a series of workshops and exercises, students will gain experiences in key web technologies. In addition, the course reviews the contemporary concepts, technologies, and applications including model-driven architecture, service-oriented architecture and UML, as applied to the web. Issues include SOA governance, semantic web, privacy, and security.

IRGB 0903. COMM & PUB REL CONCEPT INV REL. (2-3 Credits)
This course assists the student to understand: the philosophical approach of a public relations practitioner as an advocate for the organization that he/she represents; the philosophy of organizational relationship management in fostering relationship between an organization and its constituency groups; possible remedies to a crisis situation, such as theories of image restoration; the strategies of crisis prevention; the contribution of public relations to management decision-making; the adaptation of communications and public relations to the political, economic, and communication systems of distinctive cultural contexts; how the digital media environment influences the communication process for senders and receivers of information. Additionally, the course will encourage the student to develop strong writing, speaking, and presentation skills.

IRGB 0904. CASE STUDIES IN IR. (2 Credits)
IRGB 0905. BEST PRACTICES IN IR. (2 Credits)
IRGB 6111. FUNDAMENTALS OF ACCOUNTING. (3 Credits)
This course provides insights into how accounting information can be used by investors and creditors to measure the results of business operations.

IRGB 6411. FINANCIAL ENVIRONMENT. (3 Credits)
Basics of Markets, Institutions and Financial Architecture, Time Value of Money, Descriptions of a Modern Firm with separation between ownership and control; Description of Stocks and Bonds; Financial Market History; Stock Valuation models, Bond Valuation; and Foreign Exchange.

IRGB 7001. CONTEMP LEGAL ISS IN BUS ORG. (3 Credits)
This course discusses the basis and structure of business contracts; the creation and characteristics of agencies, partnerships, limited liability companies, and corporations; and the right and liabilities of agents, partners, directors, and shareholders. The course will emphasize director and officer duty.

IRGB 7002. CORPORATE GOVERNANCE. (3 Credits)
This is a team-taught course presenting the critical elements of the role of corporate governance in a modern public corporation from Finance, Legal, Accounting, Organizational, and Strategic perspectives. The course will discuss how investors view corporate governance and how corporate governance influences the value of the firm to its owners. Topics include the Board of Directors, Executive Compensation, Proxy Contests (and legal concepts such as Revelon Duty, Poison Pills), Corporate Fraud etc. The course will discuss recent developments such as the 2002 Sarbanes Oxley Act, Proxy Access, Say on Pay, and the role of the government in the 2008 Financial Crisis. The course will use examples that illustrate the success and the failure of corporate governance in both domestic U.S. and international settings. The course will be mainly case-driven.

IRGB 7003. GLOBAL IND ANALY & STRAT PLAN. (3 Credits)
This course discusses techniques for analyzing the long-term attractiveness of different industries and develops a framework to understand the nature of competition and the relative competitive position of firms within industries. The course emphasizes global factors that affect industry attractiveness and competitive positioning. While this course considers the industry level, it also includes competitive factors of firms within industries to introduce a framework for strategic planning at the firm level.

IRGB 7125. FINL STATEMENT ANALYSIS. (3 Credits)
The course focuses on the impact of financial accounting principles, disclosure standards and alternative accounting practices on financial reports.

IRGB 7140. CONTEMP ISSUES IN FIN REPORT. (3 Credits)
This course familiarizes students with the process of developing Generally Accepted Accounting Principles (GAAP). The course covers the Financial Accounting Standards Boards (FASB) and its interaction with Securities and Exchange Commission (SEC). A major portion of the course is devoted to an analysis of current financial reporting issues being addressed by the FASB and the impact that alternative solutions could have on reported financial results. The course also includes a discussion of various international accounting standard-setting bodies and their roles in financial reporting, domestically and abroad.

IRGB 7321. CORPORATE & SECURITIES LAW. (3 Credits)
This course covers the application of various aspects of securities laws and regulations to the governance of corporations. Specific topics include: the definitions of security, the IPO process, gun jumping, secondary offerings, registrations and reporting requirements, 10b-5 violations, and insider trading.

IRGB 7421. PRINS OF MODERN FINANCE. (3 Credits)
This course focuses on the no-arbitrage principles and valuation fundamental, with applications in Corporate Finance and Portfolio Theory. The course will cover advanced topics in time-value-of-money, Capital Budgeting, Capital Structure, Dividend Policy, Fundamentals of Valuation, and basics of Portfolio Theory. It lays the foundation for the discussion of issues that concern investors.
IRSB 7430. INVESTMENT ANALYSIS. (2 Credits)
IRSB 7455. GLOBAL FINANCIAL MARKETS. (3 Credits)
This course will give students an overview of the global financial markets, their institutions, and the instruments traded in these markets. The course will also give students an exposure to trading mechanisms, e.g. electronic trading, specialist and dealer systems. The course will give students and exposure to investor types (e.g. Pension Funds, Mutual Funds, Hedge Funds, etc) and institutions that exist to deliver investor related services, such as Proxy services, the Institutional Shareholder Services, etc.

IRSB 7500. MEDIA & COMM INDUSTRIES. (3 Credits)
This course surveys traditional and new media industries, assessing information, entertainment, opinion and marketing functions. The course considers legal, technological and marketing/advertising functions. The course focuses on books, newspaper, magazines, radio, television, cable, and digital media.

IRGB 7811. INTERNSHIP - INVESTOR REL. (2 Credits)
IRGB 8999. INDEPENDENT STUDY. (2-3 Credits)
Independent Study.

**Irish Studies (IRST)**

IRST 3409. IRISH LANGUAGE AND CULTURE 1. (4 Credits)
IRISH LANGUAGE AND CULTURE Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attribute:** IPE.

IRST 3412. IRISH AMERICA. (4 Credits)
This course traces the historical experience of Irish emigrants from the mid-17th century to the present day. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attribute:** AMST.

IRST 3418. 20TH CENTURY IRISH WOMEN LITERATURE. (4 Credits)
Introduction to 20th century Ireland and both the role of women and how they were portrayed in literature. Focus on gender roles, sex, and marriage, motherhood and society in a slowly modernizing, independent Ireland. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attribute:** EPC.

IRST 3419. CONTEMPORARY IRISH LITERATURE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IRST 3450. IRISH LANGUAGE AND CULTURE 2. (4 Credits)
This course is a continuation of Irish Language and Culture I and seeks to advance students knowledge of the Irish language. More emphasis will be placed on advancing conversation skills through the use of interactive modern language teaching techniques. The course also aims to provide a greater context of the language's cultural aspects, such as O'cean-n-so song, dance, and folk traditions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

IRST 4999. IRISH STUDIES TUTORIAL. (1-4 Credits)
In consultation with the director of the program, students may take a tutorial in Irish studies.

**Italian (ITAL)**

ITAL 1001. INTRODUCTION TO ITALIAN I. (5 Credits)
An introductory course that focuses on the four skills: speaking, reading, writing and listening providing students with a basic knowledge of Italian linguistic structures, vocabulary and culture, which studied interdependently, comprise the Italian Language.

**Attribute:** ZLB1.

ITAL 1002. INTRODUCTION TO ITALIAN II. (3 Credits)
This course will enhance the reading, writing, speaking and listening skills acquired by students in Introduction to Italian I or from prior study. It will further promote a deeper understanding of Italian and its literary and cultural traditions.

**Attribute:** ZLB1.

ITAL 1003. SPOKEN ITALIAN I. (3 Credits)
The first semester consists of a study of basic Italian grammar and intensive aural-oral practice. The second semester continues the study of grammar and focuses on developing the student's ability to speak and understand standard Italian. No credit toward the language requirement will be given for ITAL 1003 without successful completion of ITAL 1004. A single semester of the sequence may be taken for elective credit. Only offered in Fordham College of Professional and Continuing Studies.

ITAL 1004. SPOKEN ITALIAN II. (3 Credits)
The first semester consists of a study of basic Italian grammar and intensive aural-oral practice. The second semester continues the study of grammar and focuses on developing the student's ability to speak and understand standard Italian. No credit toward the language requirement will be given for ITAL 1003 without successful completion of ITAL 1004. A single semester of the sequence may be taken for elective credit. Only offered in Fordham College of Professional and Continuing Studies.

ITAL 1008. THE LANG AND CULTURE OF ITALY. (3 Credits)
ITAL 1101. NUOVO MONDO: INTRODUCTION TO ITALIAN I. (3 Credits)
For students with no previous knowledge of Italian. Intensive aural-oral practice. Fundamentals of grammar. Conversation. Reading. Two hour lab per week. No credit will be given for ITAL 1101 without successful completion of ITAL 1102.

**Attribute:** MNS.

ITAL 1400. L'ITALIA IERI E OGGI: INTR IT I. (3 Credits)
In this course, students will develop their language skills while exploring topics in Italian culture such as regional diversity, immigration, and legacy of the artistic and political past. Extracurricular activities including visits to museums in New York City, and opera and film nights will give students the opportunity to improve their Italian in a less formal setting, and will engage them in a critical understanding of Italy's culture and artistic tradition. Class conducted in Italian. This course is equivalent to ITAL 1501 Intermediate Italian I and counts towards the fulfillment of the University's language requirement.

**Attribute:** MNS.

ITAL 1501. INTERMEDIATE ITALIAN I. (3 Credits)

**Attribute:** ZLB1.

**Prerequisites:** ITAL 1001 or ITAL 1002.
ITAL 1502. INTERMEDIATE ITALIAN II. (3 Credits)
Review of grammar. Intensive practice in conversation and composition. Reading and discussion of graded literary texts. Conducted in Italian. The second semester of Intermediate Italian consists of an intensive oral and written practice aiming at expanding vocabulary and idiomatic expressions. The course will begin with a review of pronouns (direct, indirect object pronouns, combined pronouns, ci, ne) and verbs (in particular passato prossimo and imperfetto), and will move into the study of more complex linguistic structure including the conditional and subjunctive. Aspects of Italian culture will be presented in readings and activities. Conducted in Italian.
Attribute: ZLB1.
Prerequisite: ITAL 1501.

ITAL 2001. ITALIAN LANGUAGE AND LITERATURE. (3 Credits)
A critical analysis of selected cultural and literary texts; composition, conversation, and review of pertinent grammatical structures.
Attribute: ZLB1.
Prerequisite: ITAL 1502.

ITAL 2400. Acting in Italian. (0 Credits)
Course focuses on improving diction, pronunciation, expansion of vocabulary and conversational skills through the study and performance of dramatic works.
Attribute: THEA.

ITAL 2401. Acting in Italian Residency. (0 Credits)

ITAL 2500. Approaches to Literature. (4 Credits)
A basic course in Italian literature. Close readings in the major forms, prose fiction, poetry and drama, and an introduction to the varieties of critical strategies for reading them. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

ITAL 2561. Reading Culture Through Literature. (4 Credits)
This course is designed to introduce students to different aspects of Italian cultural tradition and history by closely reading representative literary texts from the early and modern periods, in a variety of genres including poetry, narrative, and drama. Students will acquire a technical vocabulary and practice different interpretive strategies to speak to continue the study of Italian literature and culture at the advanced level. The course's thematic focus, and the primary texts and secondary sources may vary. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisite: ITAL 2001.

ITAL 2605. Italian Conversation and Composition. (4 Credits)
Composition with emphasis on improvement of grammatical skills and facility in Italian phraseology. Recommended for those students continuing in Italian as majors or minors, whose curricula will include historical surveys of Italian literature or civilization. Emphasized skills include letter writing, descriptions and exposition. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: ITAL 2001.

ITAL 2630. Dialects and Italian. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ITAL 2640. Classics of Italian Cinema. (4 Credits)
In this course we will explore selected masterpieces of Italian cinema focusing on the visual techniques and narrative strategies developed by world-renowned filmmakers such as Rossellini, Fellini, Visconti, Antonioni, Wertmuller, Tornatore, Benigni, and others. We will discuss how historical events, national, cultural and gendered Italian identities, fashion, and political and social issues have been represented or constructed by means of innovative and unique cinematic languages. Conducted in Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ITAL 2700. Filming the City Inside and Out: A Cinematic Journey Through Italy. (4 Credits)
This course introduces students to Italian cinema by focusing on the representation of Italian cityscapes and urban life, as well as the dynamic between urban and “peasant” cultures, the urban center and the rural periphery, in modern Italy from the so-called “economic miracle” of the late 1950s to the present, by internationally renowned filmmakers such as Visconti and Antonioni (Milan), Ermanno Olmi (Lombardy), Pupi Avati (Bologna), Fellini (Romagna), Pasolini, Nanni Moretti and Ferzan Ozpetek (Rome), Mario Martone and Matteo Garrone (Naples), among others. At the same time, students will be introduced to the fundamentals of Italian film analysis. Through screenings, critical readings, class discussions, and essay writing, students will develop the appropriate Italian vocabulary and analytical skills to examine a film focusing on its historical and cultural context, and the narrative, visual and sound techniques it employs. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: INST.
Prerequisite: ITAL 2001.

ITAL 2701. Culture and Civilization. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ITAL 2705. The South of Italy. (4 Credits)
In this course, we will explore the rich and diverse cultural production in Southern Italy in the twentieth and twenty-first centuries with the purpose of challenging general assumptions and stereotypes about the “South,” and breaking through the North-South divide that has plagued Italian culture since Italy’s Unification in the 1860s. We will discuss literary texts, visual texts, and music, focusing on the legacy of the past, gender and family relations, urban culture and rural life, the push for modernization, and regional identities versus globalization, among other topics. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: INST.

ITAL 2800. Italy and the Arts. (4 Credits)
A comparative approach to the intimate relationship of literature and painting-sculpture of the 1400-1800 in the contract of treaties in the arts and the cultural society in political circumstance. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: ITAL 2001.
ITAL 2801. A CULTURAL HISTORY OF ITALY. (4 Credits)
An analysis of the discourses evolved since the Unification (1860) that aim at defining Italy as it is imagined and defined by politics, economics, productivity, media, literature and cinema. The focus will fall in particular on the diverse "worlds" that make up Italy, the character of its regional traditions, its language, its way of life. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ITAL 2805. GODS, DEMIGODS, AND MEN: RENAISSANCE AND BAROQUE ITALIAN THEATER. (4 Credits)
The course is designed to introduce students to the exploration of the theatrical production in Italy during the Renaissance and the Baroque, from Italian theater's rebirth in 15th century Florence to the masterpieces of the 16th century. We will analyze the development of characters and their vision of truth, society and human relations, while investigating notions of subjectivity and gender. We will see how men, heroes, gods or half-human and half-supernatural creatures struggle against their own desire and lust (or against impediments and adverse fortune) in order to manipulate reality and resolve dilemmas. Readings will include plays by major authors such as Angelo Poliziano, Niccolo Macheavelli, Lodovico Ariosto, Torquato Tasso, Giordano Bruno, And Gian Lorenzo Bernini, and Opera librettos, such as the Orfeo by Alessandro Striggio, with music by Angelo Monteverdi. Some plays will be read entirely, others as selection. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ITAL 2910. EMIGRATION IN LITERATURE AND FILM 1850-PRESENT. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ITAL 2999. ITALIAN INTERNSHIP. (2 Credits)

ITAL 3001. THE ART OF TRANSLATION. (4 Credits)
The study of transferring texts from one linguistic code into another; analysis of various elements of texts, literal and figurative meaning, style, syntax, etc. will be the focus of the course as well as hands on practice working with different types of texts translating form English into Italian and vice versa. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ITAL 3010. POLITICS AND POETRY IN THE MIDDLE AGES: THE RISE OF VERNACULAR CULTURE IN THE MEDITERRANEAN. (4 Credits)
This course analyses the development of vernacular culture and literature in the Mediterranean during the Middle Ages. Students will explore the political, historical, and linguistic context within which vernacular languages and cultures emerged between the XI-XIII centuries. Following Dante's On Vernacular language - the first linguistic and poetic "map" of the Middle Ages- students will retrace the interrelations linking the Italian vernacular culture to the other traditions within the "romance" domain in the Mediterranean. With the imperial court of Frederick II in Sicily, the Pope in Rome, and the most powerful centers of trade and finance in Florence and other Italian city-states, the Italian peninsula provides a special standing point for the analysis of the relationship between poetry and power in different political contexts: the court of the emperor Frederick II and the powerful communal republics in center and northern Italy will be the focus of the course. Among the texts, authors, and movements included are: Provencal and Italian trobadours; the "Sicilian School" and the encyclopedic culture at the court of the emperor Frederick II (poetry, law, philosophy, medicine, astronomy, translations); religious literature and the Tuscan School of poetry (S. Francis, Jacopone da Todi, Guittone d'Arenzo); the "New Sweet Style" (Guido Guinizzelli, Guido Cavalcanti, Dante Alighieri). Fulfills the Advanced Literature requirement of the core and satisfies the requirement of Minor and Major in Italian. Cross-listed with MVST and COLI. Taught in English.

ITAL 3011. DANTE AND HIS AGE. (4 Credits)
This course will investigate the evolution of Italian narrative prose from Dante's day including Proveneal and Sicilian lyric, influential philosophical texts, and economic and political changes in 13th-century northern Italy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ITAL 3012. MEDIEVAL STORYTELLING. (4 Credits)
Narrative tradition in medieval Italy from the Novellino to Boccaccio and Sercambi. Taught in Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ITAL 3020. RENAISSANCE AND BAROQUE NOVELLA. (4 Credits)
This course will investigate the evolution of Italian narrative prose from the Renaissance to the Baroque. Particular attention will be devoted to the tradition of the unframed short story (Novella Spicciolata), but we will also explore collections of Novelle composed by major authors such as Bandello, Straparola and Basile. Taught in Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Updated: 10-11-2017
ITAL 3021. VICE AND VIRTUE IN MEDIEVAL ITALIAN LITERATURE. (4 Credits)
Informed by Aristotle’s Nicomachean Ethics and Aquinas’ Summa as well as by writings of Andrea Capellanus, Abelard and others, this course discusses the ethical value systems sustained in works by Jacopone, G. D’Arezzo, Donte, Petrouea, Boccaceio, as they first expressed in Poetry and Prose. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

ITAL 3030. CRIMINAL TALES. (4 Credits)
Representation of violence in its political, organized and subversive manifestations in post-war Italy, its historical evolution, its sociological and anthropological interpretations. Films and various literature will be examined. Authors and directors: Rosi, Saviano, Wertmüller, Carofiglio, Camilleri, Mammarella, Ferrara, Salvatore, Giordana, among others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: INST.

ITAL 3050. ARTS AND POLITICAL ITALIAN HUMANISM. (4 Credits)
This course analyzes the main characters of the early humanist movement in Italy. It focuses on arts and politics and presents authors such as Petrarch, Valla, Lorenti de Medres. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

ITAL 3051. SURVEY OF LITERATURE. (4 Credits)
The social and cultural background of Italian literature with selected readings and analysis of some of the most representative authors of the time. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.
Prerequisite: ITAL 2001.

ITAL 3062. ETHICS AND ECONOMIC VALUE IN MEDIEVAL LITERATURE. (4 Credits)
This course introduces students to the literary representation of economic values such as profit, work, and utility as they emerge in medieval texts. Students will analyze these values within the critical perspective of the 13th to 15th century authors as seen in their political, historical, and literary contexts. This course course includes works from early European lyric poetry, and authors such as Dante, Boccaccio, Petrarco, Erasmus, and Leon Battista Alberti. Students will learn to set their discussions in the broad perspective of European intellectual history. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

ITAL 3063. SATURIAN SPIRITS: ART AND LITERATURE IN ITALY. (4 Credits)
As an examination of different literary genres of the Italian Renaissance and Baroque (novella, theatre, poetry, autobiography and epic poems), this course will focus on some of the most important courts of the peninsula (Firenze, Urbino, Mantova, Ferrara, Venezia and Roma), and will explore the relation of the visual arts to the literary production of eminent writers and artists (Brunelleschi, Alberti, Pico della Mirandola, Poliziano, Boiardo, Ariosto, Machiavelli, Michelangelo, Leonardo, Cellini, Vasari, Tasso, Striggio, Marino). In addition to engaging in close-readings of key works, students will be encouraged to investigate other art forms such as paintings, sculpture, architecture and music, in an attempt to address the questions: What role did patronage of the arts play during the Renaissance and Baroque? What did it mean to be a writer and an artist in Italy between the 15th and 17th centuries? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

ITAL 3111. NEW ITALIAN CINEMA. (4 Credits)
The representation of social and cultural issues elaborated in the dramatic, multimedia discourse of playwrights and film directors such as Pirandello, Fellini, Moretti; in works that include Six Characters, La Dolce Vita, La Vita e Bella. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

ITAL 3120. RENAISSANCE LITERATURE. (4 Credits)
A study of the principal poets and writers of the 15th and 16th centuries. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

ITAL 3125. MAGNIFICENCE AND POWER: THE MEDICI AND RENAISSANCE FLORENCE. (4 Credits)
The course is dedicated to the study of the relationship between culture and politics. In particular we will discuss how the practice of power and the exercise of patronage affected Florentine writers in 15th and early 16th centuries, during the period of Medici’s supremacy. It will be central to the course to verify why the Medicean government was surprisingly far from being simply a repressive and propagandistic political regime. Indeed, Florence, during those years, became an extraordinary place for the arts and, in particular, for literature. Many Florentine masterpieces were produced in different genres (novella, theatre, poetry, autobiography, epic poems, dialogue) and were influential in the development and the shaping of 16th century European culture-at-large. This course will focus on the literary production of eminent writers and artists such as, but not limited to, Alberti, Pico della Mirandola, Poliziano, Lorenzo de’ Medici, Luigi Pulci, Machiavelli, Michelangelo. In addition to engaging in close-readings of key works, students will be encouraged to investigate other art forms such as painting, sculpture, architecture and music, in an attempt to address the questions: What role did Medici patronage of the Arts play during the Renaissance in Florence? What did it mean to be a writer and an artist in Florence between the 15th and 16th centuries? Course taught in Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.
Prerequisites: ITAL 2500 or ITAL 2561.
ITAL 3215. LOVE AND HONOR IN THE RENAISSANCE COURTS. (4 Credits)
This course will focus on some of the most important courts of the Peninsula (in particular Firenze and Ferrara) and will explore the epic poems of eminent writers such as Pulci, Boccaccio, Ariosto, Tasso, and Marino. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COL.

ITAL 3280. THE ITALIAN SHORT STORY. (4 Credits)
Authors such as Boccaccio, Bandello, Basile, Verga and Pirandello. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

ITAL 3450. 20TH CENTURY LITERATURE. (4 Credits)
Analysis of the principal current philosophies of the 20th century in Italy from Modernism to the postwar periods. Major representative authors: D’Annunzio, Moravia, and Calvino. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

ITAL 3452. ITALIAN MIGRANT LITERATURE. (4 Credits)
In this course we will read works written by contemporary italophone writers, i.e., authors who have adopted the Italian language initially to document their experience of migration, and later to speak creatively about Italian society, its complex recent history and its current cultural and political challenges, contradictions and potentials. We will ask such questions as: What stories do these writers tell? What is the cultural and political significance of their work for contemporary Italy in the European, Mediterranean and global contexts? We will address issues of representation, identity, gender, race and ethnicity, religious pluralism, citizenship and nationhood, with the aim, on the one hand, of exploring how Italian society has changed (or resisted changing) in the last decades, and, on the other hand, of understanding how these new artistic voices have challenged and enriched the Italian literary canon and cultural establishment. Authors may include Cristina Ali-Farah, Saidou Moussa Ba, Christiana de Caldas Brito, Gabriella Ghermandi, Pap Khouma, Amara Lakhous, Ingy Mubiayi, Igiaba Scego, Ornela Vorpsi, among others. Conducted in Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisite: ITAL 2001.

ITAL 3500. COMEDY AND SATIRE IN ITALIAN CINEMA. (4 Credits)
Commedia all’Italiana or satirical comedy represents a major contribution to world cinema with a significant approach to modifying social injustice, prejudice, and abuses. A broad range of styles and film techniques provide a forum to analyze film language and visual experiences. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COL.

ITAL 3530. THE STAGE AND SOCIETY SINCE 1700. (4 Credits)
Social changes, traditions and reforms, love, family and economics as they are interpreted and cast on the stage by renowned playwrights such as Goldoni, Giacosa, De Filippo, Di Giacomo, Pirandello and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COL.

ITAL 3540. LIBERTY AND TYRANNY 18 AND 19TH CENTURY. (4 Credits)
The dominant thrust of the 18th and 19th century, these complimentary ideas make up the themes of writers such as Alfieu, Foscolo, Leopardi, and Mantoni among others. The course will trace the development of the idea of freedom in the authors mentioned. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

ITAL 3542. NATURE ART AND LITERATURE SINCE 1700. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

ITAL 3550. ITALIAN UNIFICATION: FILM/LITERATURE. (4 Credits)
Realism and idealism in the achievement of Italian unification analyzed in the works of filmmakers such as Blasetti and Scola, and in writers like Foscolo, Mazzini, Garibaldi, Lampedusa and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COL.

ITAL 3553. ITALY FROM UNIFICATION TO 1945: LITERATURE, CULTURE, AND SOCIETY OF THE MODERN PERIOD. (4 Credits)
This course will focus on major cultural figures such as Carducci, Pascoli, D’Annunzio, Ungaretti, Svevo, Montale, and Calvino, among others, and will explore their relationship with and contribution to the social conditions and developments of their times. Taught in Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

ITAL 3625. THE MODERN ITALIAN THEATER. (4 Credits)
Italian playwrights such as: Pirandello, Betti, Fabbri, Dr. Filippo Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

ITAL 3630. CONTEMPORARY ITALIAN NOVELS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
ITAL 3650. ITALY AT WAR. (4 Credits)
In this course we will read literary works—narrative, theater and poetry—written in Italy during three key periods of its modern history, namely WWI, WWII, and the so-called “years of lead” (late 1960 through the early 1980’s). We will discuss the response of Italian writers and intellectuals to war, Fascism and terrorism by focusing our attention particularly on the techniques that they use to represent, exalt or denounce individual and collective violence, into support or critique extreme ideologies - whether on the right or on the left. In Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, INST.
Prerequisite: ITAL 2001.

ITAL 3660. AVANT-GUARDE MOVEMENTS. (4 Credits)
Avanguardia and the war: arts and literature in 20th century Italy. This course will explore the artistic and intellectual movements in Italy from the beginning of the 20th century to the eve of WWII. It will discuss the influence that the Italian avanguardia – from Futurism to Hermeticism – had on the formation of ideologies that exalted or opposed the war before WWI and led Italy to the second world conflict through the Fascist dictatorship. The course will look at Italian avanguardia in its European context, exploring the relations with the Russian, German, and French intellectual and artistic movements of the early 20th century. A special emphasis will be given to the relation between literature, the visual arts, and theatre. Readings will include texts by D’Annunzio, Marinetti, Rosso di San Secondo, Montale, and Gadda. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

ITAL 3701. ITALIAN WOMEN WRITERS. (4 Credits)
Outstanding Italian women writers such as Colonna, Morra, Deledda, Ginzburg, Morante, Maraini, Loy. Taught in Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, WGSS.

ITAL 3901. NARRATIVE AND FILM. (4 Credits)
The development, trends, and interplay of literary texts and Italian film in the history of the Italian cinema from its origins to today. Films by DeSica, Visconti, Bertolucci, Pasolini, Taviani, Bellochio, Rosi, and Tornatore. Literary works by Pirandello, Bassani, Levi, Boccaccio, Cain and Verga. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

ITAL 3910. ITALY TODAY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

ITAL 3920. WORDS ON FIRE: POETRY/SOC. TODAY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

ITAL 3980. THE ITALIAN SHORT STORY. (4 Credits)
A study of the evolution of the short story in Italy with relation to style, structure, ideology, and character developments as well as point of view – Boccaccio, Bandelli, Nieve, Pirandello, Maravia among others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

ITAL 4006. DANTE’S COSMOS: MEDIEVAL SCIENCE, THEOLOGY, AND POETRY IN THE DIVINA COMMEDIA. (4 Credits)
This course investigates Dante’s cosmos in the Divine Comedy through medieval science, theology, and poetry. Disentangling the context of the Comedy from Dante’s encyclopedic culture through reading in the disciplines of his time will lead students to a deeper comprehension of the multidimensionality of Dante’s universe than is possible through any singular disciplinary. The course will broaden students’ perception of the medieval cosmos in contrast with contemporary notions of cosmology. Taught in English with readings and writing in Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ICC, MVST.

ITAL 4010. ANNI DI PIOMBO / YEARS OF LEAD: CULTURE, POLITICS, AND VIOLENCE. (4 Credits)
The period from the late 1960s to the early 1980s in Italy, known as “anni di piombo” or years of lead, was characterized by intense social and political unrest, and terrorist activities. The 1969 bombing in Piazza Fontana in Milan and the 1980 bombing of the train station in Bologna serve as the tragic bookends of a decade of political violence culminating in the kidnapping and murder of Aldo Moro by the Red Brigades in 1978. In this course, we will study these years by closely examining the cultural production of the time – literature, film and other media. We will pay particular attention to the social and political motivations underlying extremist activism, both left- and right-wing, as represented in literature and the popular press, and to writers’, filmmakers’ and intellectuals’ diverse responses to politically motivated violence, whether to criticize the terrorists themselves or to question the state-sponsored “strategy of tension”. We will also discuss the ways in which these experiences have been revisited and reimagined in recent years, and their relevance for today’s Italy. Taught in English with texts in Italian and English translation. Coursework in Italian for credit toward the Italian major or minor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COLI, EP4, VAL.

ITAL 4800. ITALIAN INTERNSHIP. (2-4 Credits)
ITAL 4998. SENIOR THESIS TUTORIAL. (4 Credits)
Independent research, supervised by a faculty in the language, leading to the completion of a senior thesis.

ITAL 4999. TUTORIAL. (1-6 Credits)
Study of a particular aspect of Italian literature or thought. Independent research and readings. Weekly or bi-weekly meetings with faculty adviser. Designed for majors with permission of instructor.

Updated: 10-11-2017
ITAL 5090. ITALIAN FOR READING. (0 Credits)
This course provides students with the skills for reading Italian. It combines instruction of basic structures of grammar and syntax with the application of techniques in building vocabulary, reading comprehension and translation practice in a collaborative learning setting. Students will read texts from various disciplines in the humanities and social sciences and will gain practical experience in translation and research methods.
Attribute: MVST.

Japanese (JPAN)

JPAN 1001. JAPANESE I. (3-5 Credits)
An intensive introductory course that focuses on the four skills: speaking, reading, writing and listening, providing students with a basic knowledge of Japanese linguistic structures, vocabulary and culture, which, studied interdependently, comprise the Japanese language.
Attribute: ZLB1.

JPAN 1002. INTRODUCTION TO JAPANESE II. (3 Credits)

JPAN 1501. INTERMEDIATE JAPANESE I. (3 Credits)
Through review of grammar, intensive practice in conversation and composition. Reading and discussion of graded literary texts.
Attribute: ZLB1.
Prerequisites: JPAN 1001 or JPAN 1002.

JPAN 1502. INTERMEDIATE JAPANESE II. (3 Credits)
This continuation course finishes the grammar review and provides further intensive practice in conversation and composition. Reading and discussion of graded literary texts.
Attribute: ZLB1.
Prerequisite: JPAN 1501.

JPAN 2001. JAPANESE LANGUAGE AND LITERATURE. (3 Credits)
A critical analysis of selected cultural and literary texts; composition, conversation, and review of pertinent grammatical structures.
Attribute: ZLB1.
Prerequisite: JPAN 1502.

Journalism (JOUR)

JOUR 1701. INTRODUCTION TO MULTIMEDIA JOURNALISM WITH LAB. (4 Credits)
(Formerly COMM 2083): A course designed to introduce the student to various fundamentals of journalism today, including writing leads; finding and interviewing sources; document, database and digital research; and story development and packaging. The course also discusses the intersection of journalism with broader social contexts and questions, exploring the changing nature of news, the shifting social role of the press and the evolving ethical and legal issues affecting the field. The course requires a once weekly tools lab, which introduces essential photo, audio, and video editing software for digital and multimedia work. Note: Credit will not be given for both this course and COMM 2082 or COMM 2203. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 1702. INTRODUCTION TO JOURNALISM. (4 Credits)
Note: Credit will not be given for both this course and JOUR 1731.
A course designed to introduce the student to various elements of reporting - including writing leads and articles and finding and interviewing sources - as well as the nature of news, the social role of the press, and the ethical and legal issues that face it. Students are encouraged to submit work to the college newspaper for possible publication. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 1761. THE POWER OF NEWS. (3 Credits)
This course studies the interaction between the American mass media, politics and public policymaking. We will examine some of the most important interactions between the press and politicians to answer questions about the role of media in American society. The point of the course is to demonstrate the power of news by examining in depth some of the most important interactions of media and American government. After all, the media is no longer just an institution that covers the news - the media now actually help shape the political process as an important political institution in their own right.
Attributes: EP1, FRSS, MANR, SSCI.

JOUR 2711. INTERMEDIATE MULTIMEDIA REPORTING. (4 Credits)
This course further develops the skills learned in Introduction to Journalism focusing on how to utilize medium effectively across platforms. Students will gain hands-on experience in multimedia reporting, taking into account the unique strengths of each medium. Students will focus on narrative technique and reporting while learning the technical skills required of each platform. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: JOUR 1701 or JOUR 1702 or COMM 2082 or COMM 2083.

JOUR 2712. INTERMEDIATE PRINT REPORTING. (4 Credits)
This is an intermediate reporting course which focuses on developing investigative skills through the use of human sources and computer-assisted reporting. Students will develop beat reporting skills, source-building and journalism ethics. Students will gather and report on actual news events in New York City. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 2714. RADIO AND AUDIO REPORTING. (4 Credits)
A survey of the historical styles, formats and genres that have been used for radio, comparing these to contemporary formats used for commercial and noncommercial stations, analyzing the effects that technological, social and regulatory changes have had on the medium. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 2722. INTERMEDIATE FEATURE WRITING. (4 Credits)
Developing necessary skills for writing soft news and human-interest feature stories for various news media. Creation of strong ideas, leads, narratives, quotations and interviews, as well as the blending of interesting material and personal writing style, are emphasized. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
JOUR 2725. WRITING WORKSHOP. (4 Credits)
The writing workshop is about writing in all of its forms—press releases, op-eds, movie reviews, short stories, more. There is one writing assignment per week. The emphasis is on writing professionally, for either online or print publications. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 2735. VIDEO JOURNALISM. (4 Credits)
Today, Video Journalists are offered a vast array of outlets and possibilities. From “basic” broadcast, to thousands of cable channels, satellite TV, and the internet. From transmedia to social media, twitters and texts, This and That, all the way to IMAX! What use3d to be called “simply” Television News, today covers a media cornucopia. From the most mundane, to extraordinary facts, fictions, ideas, sounds, pictures, and effects, the sky seems to be the limit. This class will help students bring that down to earth, to give birth to their ideas and imaginations, desires and dreams, in very concrete form. Together, we will explore the vision, the art, and the craft of Video Journalism, and create pieces that will (hopefully) make people sit up, watch, and listen. Stories that will challenge them, make them think, and ideally inspire them to make their lives and the world a better place. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 2786. SPORTS WRITING AND REPORTING. (4 Credits)
In this course, students will read from the canon of great sportswriting, from print to broadcast to digital. To gain practice in this craft, students will also complete original reporting assignments in a range of forms, such as game story, column, feature profile, broadcast script, and live tweeting. The evolution of the sports genre will also be connected to essential social movements, such as civil rights, women’s liberation, and the consequence of big money following the birth of TV. For perspective, specific attention will be paid to the treatment of iconic modern American sports figures, including such seminal athletes as Babe Ruth, Muhammad Ali, Lance Armstrong and Serena Williams. Pre-Req: Introduction to Journalism (JOUR 1701 or COMM 2082 or COMM 2083) or permission of instructor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: JOUR 1701 or COMM 2082 or COMM 2083 or JOUR 1702.

JOUR 2787. FASHION JOURNALISM. (4 Credits)
Fashion Journalism combines beat reporting with an emphasis on the cultural, artistic, social, historical and business aspects of fashion. An in-depth review of the history of fashion journalism sets the stage for students to learn and understand the digital revolution in fashion journalism and marketing, including social media, blogs and websites. Topics to be covered include: Catwalk and trend reporting, fashion criticism, feature and fashion writing. Course will enable students combine the love of writing with the interest in fashion and acquire the skills to become a fashion journalist using different media formats. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: COMM 2082 or COMM 2083 or JOUR 1701.

JOUR 2789. SPORTS BROADCASTING. (4 Credits)
This class will provide a detailed study in all aspects of the sports broadcasting industry. Students will be introduced to a wide array of techniques and philosophies for sports broadcasting, from fundamentals and essentials to advanced learning methods. The course will consist of discussions, critiques, learning exercises, take home assignments and hands-on practice and participation. The course assumes no prior experience in sports broadcasting.

JOUR 3711. ADVANCED MULTIMEDIA REPORTING. (4 Credits)
Advanced Internet Reporting picks up where Introduction to Journalism leaves off, offering students a way to continue their study of multimedia journalism in a converged setting. The class will be project-based, with students completing both breaking news and features assignments. Each story for the course will need to be done in both print and video form. Students will also have the option of producing audio or photo slideshow versions of their reports. Completed projects, with the student’s permission, will be posted on Fordham news sites like that of The Ram and WFUV News. This course differs from COMM 3083, Advanced Television Production (Bronxnet) in that it will also cover print, audio and photo. It differs from JOUR 3717 COMM 3978, Online Journalism, in that it will not focus on blogging or social media. PREREQUISITE: Intro to Journalism with Lab (JOUR 1701 COMM 2083), Intermediate Television Production (JOUR 3716), or permission of instructor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: DTEM.
Prerequisites: COMM 2083 or JOUR 1701 or COMM 3083 or JOUR 3716.

JOUR 3715. WRITING FOR BROADCAST NEWS. (4 Credits)
An overview of the skills required for the writing of news stories for radio and television including hard news and features. This course is designed to strengthen the student’s ability to write clearly, concisely and accurately for broadcast emphasizing critical thinking skills. Storytelling techniques are explored, as well as writing to film/video tape. Students will eventually write to deadline under simulated newsroom conditions. Four credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Outside of class, students will be required to screen specific news programming and submit critical essays evaluating content. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: COMM 2082 or COMM 2083 or JOUR 1701 or Instructor permission.

JOUR 3716. INTERMEDIATE TELEVISION PRODUCTION. (4 Credits)
A practical, intensive course in all aspects of television news production. Early in the semester, the course will focus on teaching students the basic skills needed to create high-quality television news, including how to write for broadcast, shoot video, edit video digitally, and create taped pieces for air. The course will also cover on-camera skills. Later in the semester, students will put their television skills into action by producing entire newscasts, where they will anchor, direct, and produce all the content. In addition, the course will also cover key journalism concepts including interviewing, story research and using online media resources. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ZLB4.
JOUR 3717. ONLINE JOURNALISM. (4 Credits)
(Formerly COMM 3978): Recent shifts in media technologies, corporate structure, and the organization of public life have combined to change the role and the practice of journalism. Exploring these changes as a context, this course will introduce conceptual and practical techniques of reporting, writing, and packaging news for the on-line environment today. Students will learn about and actively participate in doing journalism online. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: DTEM, NMDD, ZLB2.
Prerequisites: COMM 2083 or COMM 2082 or JOUR 1701 or JOUR 1702.

JOUR 3718. ON-AIR REPORTING. (4 Credits)
In this class, students will learn how to craft and present stories for air. The course will include lessons on how to build a news package, how to present for broadcast (both on television and for podcasts), and will include assignments with in-class deadlines. Class will feature visits from working journalists/news personalities in New York City. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 3719. DATA JOURNALISM. (4 Credits)
Obtaining, interpreting, visualizing, and displaying data are essential skills for journalists in the 21st century. This hands-on introductory course in data visualization will help students learn to use data to tell visual stories. Topics discussed will range from where to find data and how to evaluate sources to how to organize data to create visually appealing graphics that tell stories that can be grasped in an instant. Students will critique published visualizations to identify common pitfalls, as they create a data-based story to add to their portfolio. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: NMDD.

JOUR 3723. INTERVIEWS AND PROFILES. (4 Credits)
(Formerly COMM 3081): This course includes intensive work in developing and writing profiles accompanied by readings from Boswell to Mailer. This course will help students develop a personal interview style which complements their individual strengths. Students will examine various interview strategies and learn how to compile their notes into a cohesive and compelling narrative. In-depth critiques of profiles will be provided. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ENGL.
Prerequisites: COMM 2083 or COMM 2082 or JOUR 1701 or JOUR 1702.

JOUR 3724. FIRST PERSON JOURNALISM. (4 Credits)
First person journalism is nothing new. As part of the New Journalism movement, reporters like Tom Wolfe and Joan Didion have been infusing their storytelling with subjectivity for decades. Still, the digital shift in journalism and explosion of social media has brought a new wave of first person journalism to the web. This course will explore the history of first person journalism and help students use first person perspective to bring reported pieces to life. Students will look critically at the form to consider the limitations of personal narrative in journalism. On that note, this course will not be limited to personal narratives. Students will also work on reported stories in which their experiences as journalists and citizens impacts their storytelling structure. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 3725. PROFILE AND BIOGRAPHY. (4 Credits)
Analysis and practice in applying the principles of biographical writing with the emphasis on contemporary forms in books and magazines.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 3726. WRITING FOR MAGAZINES. (4 Credits)
(Formerly COMM 3084): Intensive practice in developing ideas into non-fiction pieces intended for general interest or specialized publications. Inquiries, field and library research, interviews, presentation of technical subjects to non-specialists. Students may wish to concentrate on areas in which they have particular interest or expertise. Note: Credit will not be given for both this course and COMM 4201/ JOUR 4727. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ENGL, EP3.
Prerequisites: COMM 2083 or COMM 2082 or JOUR 1701 or JOUR 1702.

JOUR 3727. SPECIAL REPORTING: IN-DEPTH REPORTING. (4 Credits)
An in-depth reporting class focused on the production of a newspaper Special Report on a given topic each year. The class will use a team-based approach to develop a multi-element story package, in print format from conceptualization, through research, reporting, writing, editing, production and publication. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 3741. JOURNALISM WORKSHOP: REPORTING. (2 Credits)
(Formerly COMM 2211): A practical workshop course in writing news, features, commentary, reviews, and sports articles, or doing graphics, photography, multimedia and layout. The Rose Hill section is centered on giving students opportunities to write for The Ram, but students can also use the course to improve work being done for the paper, the Fordham Undergraduate Research Journal, Flash, Mode, and other student media at Rose Hill. Students not currently working for student media are also welcome in the Rose Hill section, where they will be taught basics of journalism and given the opportunity to publish articles in The Ram. At Lincoln Center there are four separate sections of the course. Each section has its own focus but all are related to involvement with THE OBSERVER. The sections are: Journalism Workshop/reporting, Journalism Workshop/photography, Journalism Workshop/layout and Journalism Workshop/multimedia.
Attributes: ENGL, NMDD.

Updated: 10-11-2017
JOUR 3742. JOURNALISM WORKSHOP: FNN. (2 Credits)
(Formerly COMM 2212): A practical workshop for students working on Fordham Nightly News. The instructor will help students improve all aspects of broadcast journalism, including scriptwriting, shooting, editing and anchoring. All students in this course must volunteer to work on Fordham Nightly News, and will be producing the day’s show as part of the workshop. NOTE: This is a 2-point class. Students who want a full 4-points of Journalism Workshop to equal a full course toward the major in Communication and Media Studies should also sign up for COMM 2211 concurrently, which focuses on basic journalism reporting skills and print writing. Journalism Workshop will NOT be offered at Rose Hill after Spring 2016.

JOUR 3743. JOURNALISM WORKSHOP: MULTIMEDIA. (2 Credits)
(Formerly COMM 2213): A practical workshop course in writing news, feature, commentary or sports articles, or doing graphics and layout for The Observer. Students will work as writers or on the layout staff.

JOUR 3744. JOURNALISM WORKSHOP: PHOTOGRAPHY. (2 Credits)
(Formerly COMM 2214): A practical course in public media journalism held at WFUV-FM. WFUV is a National Public Radio affiliate station based in Keating Hall on the Rose Hill campus. This workshop covers everything from broadcast writing and interviewing techniques to field reporting and journalism ethics and standards. Students will also spend time behind the microphone learning how to deliver news copy in a clear, conversational manner. The professor, George Bodarky, has extensive experience in commercial and public radio journalism, and has won multiple awards for his work. George is president of Public Radio News Directors Inc. and past president of the New York State Associated Press Board of Directors.

JOUR 3760. THE JOURNALIST AND THE LAW. (4 Credits)
(Formerly COMM 3205): An investigation of the legal concerns of the working journalist: prior restraint, shield law, libel, invasion of privacy, the Freedom of Information Act. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, ASSC.
Prerequisites: COMM 1000 or COMM 1010.

JOUR 3763. THE MURROW YEARS: 1938-65. (4 Credits)
This course traces the career and contributions to broadcast journalism of Edward R. Murrow, one of America’s foremost reporters, from his remarkable accounts of London under German bombing attacks to his documentary work on the “See It Now” and “CBS Reports” series.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 3764. TELEVISION NEWS AND TODAY’S WORLD. (4 Credits)
This course examines and analyzes the approaches of the three commercial networks and the Public Broadcasting Service to the major news stories of the day. Each class screens one of the network’s evening news broadcasts and assesses its content, comparing story selection and presentation with the day’s newspaper coverage. Emphasis is placed on students’ comprehension of the week’s salient news developments.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: COMC.

JOUR 3765. TELEVISION NEWS. (4 Credits)
An examination of the growth and impact of television journalism. Technological and historical changes, techniques and influences of television news. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 3769. HISTORY OF TELEVISION AND RADIO NEWS. (4 Credits)
Traces the history of electronic journalism, from its infancy in the 1930's to the present day; emphasis on the work of the most prominent broadcast journalists of these decades. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 3772. NEWSMAKING. (4 Credits)
A critical study of news gathering and dissemination processes in the contemporary world with emphasis on their cultural, political, and economic effects in modern society. Factors that determine the worthiness of current events and journalistic interpretations reaching national audiences are considered. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 3776. SOCIAL MEDIA FOR JOURNALISTS. (4 Credits)
This is a research and practice-based course on social media, aimed at journalists who will need to understand and use social media. Students will research historical and contemporary innovation relating to social media, and will then develop strategies for creating impact throughout the course of the semester with their own journalistic projects using social media. Readings, discussions, project critiques, and hands-on work will all be used methodologically to allow students to delve into the possibilities of social media. Students will come to understand the power and limitations of social media as both a reporting tools and a tool to aid in the marketing of powerful journalism. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Mutually Exclusive: DTEM 3476.

JOUR 3781. ARTS AND CULTURE REPORTING. (4 Credits)
In this course, students will have the opportunity to apply their journalistic skills to the area of art and cultural reporting and criticism, including popular culture (television, movies, pop music, books, etc.) and the fine arts (theater, classical music, dance, and the visual arts, etc.). They will develop an ability to identify, describe, and evaluate for readers/viewers the full range of our culture’s creative output, including live shows and events. This includes recognizing the importance of the historical, social, and political context of what they are reporting on and reviewing. As budding arts and culture journalists, students will learn how to balance being both a reporter and cultural critic, and develop a strong, reliable voice. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
JOUR 3782. SCIENCE JOURNALISM. (4 Credits)
At a time when science and technology permeate debates on everything from climate change to stem cell research, to nuclear power to genetically modified foods many Americans lack sufficient understanding of these basic science and health concepts. This course will explore fundamentals in science and medicine reporting emphasizing the essential research and story development skills needed bring complex medical, science and health issues to the general public. It will explore the scientific process, how to evaluate scientific and health information, ethical controversies, and what makes science and medical news.

Students will learn how to break, report, translate, and illuminate scientific information, forging journalism that helps build scientific literacy equal to contemporary challenges. (Prerequisite: COMM 2082 or instructor's permission) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: COMM 2082 (may be taken concurrently) or JOUR 1702 (may be taken concurrently).

JOUR 3783. THEATER JOURNALISM. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: CVW.

JOUR 3785. WRITING FOR THE MEDIA. (4 Credits)
Analysis and practice of writing for a variety of print, broadcast, and online media. Exploring different media contexts such as news, entertainment, public relations, and advertising, the approach in this course assumes that media writers tell stories, that they write for multiple formats, and that they engage in ethical activities. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 3788. INTERNATIONAL REPORTING. (4 Credits)
For decades an aura has surrounded international correspondents, the corps of reporters who cover foreign governments, war fronts and conflict zones to bring the news out of some of the world's most dangerous, complex and influential places. They risk lives and freedom in the struggle to dig out the truth behind government propaganda and military secrecy, whether in battlefields or presidential palaces or besieged regions. This course will define and explore the underpinnings of international reporting and its evolution from the mid-20th century to the digital age. Students will study and practice reporting, writing and video skills.

We will examine the importance of understanding foreign cultures, histories and languages, discuss the work and lives of major foreign correspondents, and examine where the art of foreign correspondence stands today. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: JOUR 1701.

JOUR 4713. AUDIO REPORTING AND PODCASTING. (4 Credits)
This class will teach students how to create professional level audio reports and podcasts. Students will learn the major theories and practices of audio journalism. They will also develop practical skills on how to choose stories for audio journalism, write for broadcast, gather and use sound, interview for audio, edit audio journalism, and promote their work. Students will work on both short- and long-form projects.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: COMM 2082 or COMM 2083 or JOUR 1701 or JOUR 1702.

JOUR 4727. ADVANCED MAGAZINE ARTICLE WRITING. (4 Credits)
Planning, researching, and writing magazine articles. Emphasis is placed on preparing manuscripts of professional caliber. Credit will not be given for both this course and CM 3084 and ENGL 3006. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 4733. PHOTOJOURNALISM. (4 Credits)
American photojournalism emerged in the late 1920s and has an increasing role to play in both news and feature reporting in today's digital world. As online journalism and its audiences take shape, visual storytelling is finding new modes and roles. This course will introduce students to the contemporary practices and production of photojournalism. It will be conducted in a manner similar to the real working world of professional journalism while also touching on the aesthetic, technical, cultural, and historical forces that have shaped its evolution into the present day. Students will be responsible for taking pictures with their own cameras and producing their own digital images, photo slideshows and visual reporting. While the emphasis of the course will be on picture taking and visual storytelling, students will also learn how to edit their own photographs and hot to prepare selected images in Adobe Photoshop.

(Pre-requisite COMM 2082 or JOUR 1702 or instructor's permission) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 4741. PRACTICUM – OBSERVER. (4 Credits)
A practical workshop course in writing news, features, commentary, reviews and sports articles for The Observer, the student newspaper at Lincoln Center. Student will take assignments for The Observer to gain writing experience and clips. In class, students will workshop articles to improve them before publication. We will also address basic journalism skills, including interviewing, researching, and using online-media resources. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

JOUR 4742. PRACTICUM – CAMPUS TELEVISION NEWS. (4 Credits)
This course teaches a way for students to gain practical experience in journalism by working on Fordham's student news broadcast, Fordham Nightly News, under the supervision of a professor. Students will learn to generate stories, research, report, write, shoot, edit and present news on television, using Fordham Nightly News as a learning laboratory. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: COMM 2082 or COMM 2083 or JOUR 1701 or JOUR 1702.
JOUR 4743. PRACTICUM – RAM. (4 Credits)
This course teaches provides a way for students to gain practical experience in journalism by working on Fordham's student newspaper, The Fordham Ram, under the supervision of a professor. Students will learn to research, report, write, shoot, edit and design, using The Ram as a learning laboratory. Because The Ram is not just a print newspaper but also exists in digital form, students will have the opportunity to tell stories across multiple platforms. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: COMM 2082 or COMM 2083 or JOUR 1701 or JOUR 1702.

JOUR 4744. PRACTICUM – WFUV. (4 Credits)
This course teaches provides a way for students to gain practical experience in journalism by working in the news department of WFUV, Fordham's public media station, under the supervision of a professor. Students will learn to generate stories, research, report, write, gather and present news on radio and possibly on video and in print, using WFUV as a learning laboratory. Students taking this course should already be involved in the WFUV News Department. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: COMM 2082 or COMM 2083 or JOUR 1701 or JOUR 1702.

JOUR 4745. CAMPUS JOURNALISM PRACTICUM. (4 Credits)
This course teaches provides a way for students to gain practical experience in journalism by working on a student media outlet at Fordham under the supervision of a professor. Students will learn to research, report, write, shoot, edit and/or design, using one of the campus publications as a learning laboratory. prereq: COMM 2082 or permission of instructor Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: COMM 2083 or COMM 2082 or JOUR 1701 or JOUR 1702.

JOUR 4750. VALUES IN THE NEWS. (4 Credits)
Values in the News examines the ethical and moral codes and standards observed, or violated, by the news media in the United States. These standards are under scrutiny in this challenging transition from traditional or legacy media to digital journalism and the advent of various platforms including citizen journalism and social media. Students will analyze contemporary and historical examples of ethical violations and ethical questions in print, television, cable and digital news. The class will research, interpret, analyze and write about these cases and will explore the challenges journalists face trying to adhere to a set of ethical rules. This seminar is writing intensive and requires class debate. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, EP4, VAL.

JOUR 4766. TELEVISION NEWS INNOVATORS. (4 Credits)
(Formerly COMM 4111): This Interdisciplinary Capstone Course bridges the disciplines of Media Studies and History. It surveys the most prominent figures in the history of electronic journalism—producers, executives, anchors, correspondents—and explains how their work shaped the course of American history. Innovators whose work is studied include Edward R. Murrow, Walter Cronkite, Ted Koppel, Barbara Walters, Mike Wallace, Ed Bradley, Roone Arledge, Ted Turner and Roger Ailes. We discuss the historical episodes covered by these innovators including World War II, McCarthyism, the Civil Rights movement, the Vietnam War, the Iran Hostage Crisis and the 1991 Gulf War before investigating how the coverage of these events in and of itself affected their outcomes. Sections R01 and R02 meet concurrently. Open only to Rose Hill students. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, FITV, ICC.

JOUR 4767. HISTORY OF WOMEN’S MAGAZINES. (4 Credits)
This course will explore the history and mission of women’s magazines from the 19th century to the 21st century with special emphasis on magazines such as Godey’s Lady’s Book, Lady’s Home Journal, and Cosmopolitan. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ICC, WGSS.

JOUR 4770. MEDIA LAW AND JOURNALISM ETHICS. (4 Credits)
Media Law and Journalism Ethics will introduce students to the legal and ethical issues confronting the media on a daily basis. Journalists, in particular, face complicated decisions as technology changes the way news is produced. With communication tools increasing the speed at which news is gathered and disseminated, media industries are growing more powerful. As the journalism industry shifts from traditional newspapers and broadcasting to social media, podcasts and blogs, the rules and limitations also change. This course will explore ethical principles that govern journalism, such as freedom of expression, the right to privacy and the public’s right to know. Students will develop an understanding of the ethical and legal issues that are unique to journalism in a Democracy, and become more critical consumers of news media.

JOUR 4773. PUBLIC MEDIA. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: COMC.

JOUR 4784. BUSINESS JOURNALISM. (4 Credits)
If money makes the world go round, as the famous saying goes, then following the money is a creative way to discover gripping stories that can make you stand out as a journalist. But how do you find the money angle? This course will teach you to understand business and economics, and also how to tell financial stories creatively. Over the course of the semester, students will learn ways in which they can “follow the money” in order to tell great multimedia stories about people and institutions. Students will also learn about financial concepts and markets including stocks, bonds, and balance sheets. The course assumes no background in economics or finance. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: JOUR 1701 or JOUR 1702 or COMM 2082 or COMM 2083.
JOUR 4999. TUTORIAL. (1-4 Credits)
Independent research and readings with supervision from a faculty member.

Journals Law (JNGL)
JNGL 0315. ADV DISPUTE RESOLUT SOCIETY. (1 Credit)
JNGL 0350. JOURNAL. (2 Credits)
"The Journal annually publishes six books addressing policy issues affecting urban areas. The Journal also publishes ADR & the LAW, the leading reference guide to alternative dispute resolution."
Attribute: JD.
JNGL 0351. JOURNAL NOTE. (1 Credit)
JNGL 0352. JOURNAL STAFF. (1 Credit)
JNGL 0780. MOOT COURT COMPETITION. (0 Credits)

Juilliard Exchange (JUIL)
JUIL 050. SIGHTREADING AND MUSICIANSHIP 1. (0 Credits)
JUIL 052. SIGHTREADING AND MUSICIANSHIP 2. (0 Credits)
JUIL 121. EAR TRAINING IA. (2-4 Credits)
JUIL 122. EAR TRAINING IB. (2-4 Credits)
JUIL 221. EAR TRAINING IIA. (2-4 Credits)
JUIL 222. EAR TRAINING IIB. (2-4 Credits)

Jurisprudence (JUGL)
JUGL 0129. ELECTORAL COLLEGE. (2 Credits)
This course will explore the origins of the system; the American context in 1787; the impact on the college of political parties; the hidden defects and dangers in the system that manifested themselves; the workings of the system prior to the Civil War; the post-Civil War history and the rise of close elections and faithless presidential electors; and the engagement of lawyers in changing the system, resulting in passage of a popular vote constitutional amendment by the House of Representatives in 1969. <p>
The course will analyze current proposals to reform the system, including the national popular vote plan; the impact of the media and polls in the functioning of the system; and the understanding of the Electoral College system by the American people. It will also discuss the intersection of the Electoral College with the presidential succession system. <p>
The course will be taught by Professor John D. Feerick, who served as advisor to the 1966-67 American Bar Association Commission on Electing the President and provided the views of the ABA in testimony before Congress during the period 1967-79. He participated in the drafting of the 1969 proposed amendment, is the author of a major article on the subject for the Fordham Law Review, and has spoken widely on the subject before citizen and other groups. <p>
Professor Feerick will be assisted by adjunct Professor John Rogan, who currently co-teaches a clinic on the presidential succession system and is a graduate of Fordham Law School, Class of 2014. There will be several guest speakers. <p>
There will be a take home examination or, alternatively, a paper on some aspect of the system.
Attribute: LLM.

JUGL 0206. RESPONSIBILITIES OF PUBLIC LAWYERS: CONFRONTING ISSUES OF RACE, GENDER, CLASS & SOCIAL CHANGE. (2 Credits)
This course will focus on the relationship of race, gender, and class to different social change strategies and different roles for lawyers as well. We shall explore the role of lawyers in influencing contemporary public policy and the role of legal discourse in framing issues such as access to, the diversity of, and participation within higher education; the use of the criminal justice system as a major instrument of urban public policy; gay marriage issues of assimilation v structural reform; the role of gender within the larger society as well as within communities of color. We shall attempt to identify the ways in which the adversarial dynamics of our legal system influence policy choices between means and ends, the zero-sum nature of conflict, and the role of racial, ethnic, gender and economic hierarchy. We will use interdisciplinary readings, experiential learning and case studies to examine various discourse and social change frames for identifying, reframing and problem-solving concrete social justice issues to facilitate social change. Each student will have the opportunity to work with faculty and with other students to plan and help facilitate one of the class sessions. CLASS IS OPEN to no more than 35 students. THERE WILL BE NO EXAM BUT STUDENTS WILL HAVE THE OPPORTUNITY TO WORK WITH FACULTY AND WITH OTHER STUDENTS TO PLAN AND HELP FACILITATE AT LEAST ONE OF THE CLASS SESSIONS.

JUGL 0213. INTRODUCTION TO ISLAMIC LAW: 21st CENTURY ISLAMIC LAW. (2 Credits)
In view of the pro - democracy events sweeping the entire Arab World , this course will stress the legal aspects of revolution , authority , social justice , and human rights . This course explores the impact of Islam on the following areas: Islam and the other: Justice and Public Policy; Human Rights; Islam and Authority; Jihad; Terrorism; and International Law. A 20 page paper is required. Course grade calculated by paper grade, 80% and class participation, 20%. Attendance is mandatory.
Attributes: INLJ, JD, LAWI, LLM.

JUGL 0216. RACE, SEX, & LOVE. (2-3 Credits)
The U.S. Supreme Court rendered its landmark decision in Loving v. Virginia invalidating prohibitions on interracial marriage more than 40 years ago. But race still plays a significant role in the intimate lives of most Americans. Decisions regarding whom we date, marry, or with whom we enter into other long-term intimate commitments are very much colored by race and prevailing racial norms. This course will consider why this is so by exploring the role that state laws and practices regarding the family and intimate associations have played in the social construction of race and racial identity. We will also consider the influence of race and racial norms on our attitudes about sexual intimacy, gender roles, and commonly-held conceptions of and approaches to issues such as marriage, reproduction, and parenting. Students will be encouraged to explore a range of issues relating to race and intimate associations, including how structural issues affect our intimate choices; the role that state laws bearing on family and intimate relations have played in policing racial identity; and the utility of analogies drawn between race and gender-based restrictions on marriage in the current debate concerning the extension of marriage rights to same-sex couples.
Attribute: INLJ.
JUGL 0226. ISLAMIC LAW IN A CONTEMPORARY WORLD. (2 Credits)
This course targets to define the Islamic jurisprudence “Shari’a” in different life’s aspects (from family law, to criminal, inheritance, contracts, trading...etc). It will highlight from one hand, the Islamic legal system through its main source the Qur’an, and from the other hand it will underline how Shari’a law mixes with civil law in contemporary legal system of Muslim countries through a comparative approach between three legal systems of three different Muslim countries: Egypt, Saudi Arabia and Morocco. <p> Course aims: This course will enable students to:<br>Know about the Islamic jurisprudence<br>Understand the connections and disconnections between Shari’a and civic law<br>Emphasize their knowledge about Shari’a’s contribution to advance the legal system theories and practices<br>Make comparison between the Islamic law and their own legal system<br>Participate on the actual debate on Shari’a Class Format: the Course sessions combine a mixture of interactive lecturing, class discussions and watching videos of key topics. <p> Evaluation and Grading:<br>Participation 25% Final Exam* 75% *The Final Exam will be a presentation of a research paper on one of the course’s topics.

JUGL 0227. ELECTION LAW. (2 Credits)
We will address the basic issues of Election Law, including the two-party system as the foundation of American politics; the constitutional rights of political parties and their members; the rights of minor parties and independent bodies; ballot access issues; voting rights and representative democracy; and election administration, including voting fraud and suppression. We will also focus on issues relating to the nomination and election of President of the United States, including the electoral college; eligibility requirements; impeachment of the President; and succession and disability issues. A paper will be required, and class participation will be factored into the student’s grade.
Attributes: INLJ, PIE.

JUGL 0232. CRITICAL LEGAL THEORIES. (2 Credits)
The course will explore various critical legal theories. These theories have sought to expose the presence of a straight, white, male subject position at the core of Western legal reasoning. As such, the course considers characterizations of the law as objective and impartial with a healthy dose of skepticism. The first half of the semester will involve an introduction to Feminist Legal Theory, Critical Race Theory, and critical legal studies (including elements of Queer Theory and Literary Theory, as they apply to the law). In the second half of the semester, we will revisit some of the foundational cases and major concepts in the core subjects (for our purposes Contracts, Torts, Property, Constitutional Law, and Criminal Law) and view them through a lens informed by the critical theories. Beyond introducing these theories, the seminar will offer an alternative/revisionist reading of some of the fundamental cases and concepts that students learned in their first year, and will explore reasons why mainstreaing the insights of the “Crits” has proven such a challenging undertaking. <p> Course Requirements: Students will be expected to submit several short reaction papers during the semester and a final 12-15 page term paper.
Attributes: INLJ.

JUGL 0275. CANON LAW. (2 Credits)
This seminar will offer law school students a preliminary insight into the structure and internal law of the Roman Catholic Church. It will involve a study of the entire Code of Canon Law of the Latin-rite Church with some references to the Code of Law that governs the Eastern-rite Churches (e.g., the Greek, Maronite, Ruthenian and Ukrainian Catholic Churches). The seminar will begin with a basic history of the Church’s development of ecclesiastical law. The Code of Canon Law will be studied in detail, with topics grouped into the following categories: General norms that govern Church law, including those affecting juridic persons (similar to civil corporations) The status and role of physical persons in the Church, their rights and duties, and an overview of the Church’s fundamental hierarchical structure The Church’s educational mission and structures The sacraments, particularly marriage Property and finances, including norms for alienation of property and for trusts and estates Procedural law, especially that governing marriage annulments Sanctions: the penal law governing delicts (Church crimes) and their punishment.
Attributes: INLJ, JD, LLM.

JUGL 0291. REPRODUCTIVE RIGHTS. (2 Credits)
This course will examine the growing body of law, both domestic and transnational, concerning the regulation of reproductive healthcare, including contraception, abortion, and assisted reproductive technologies. It will explore the limitations imposed on governments’ ability to regulate reproductive healthcare by the U.S. Constitution, foreign constitutions, and international human rights treaties, as well as positive obligations imposed by those instruments to ensure access to services. Special attention will be given to comparative analysis of rationales for the protection of reproductive rights. Students will complete several short reaction papers during the semester and there will be a takehome final exam.
Attributes: INLJ, JD, LAWJ, LLM.
JUGL 0293. HOW JUDGES DECIDE. (2 Credits)
This class will explore a fundamental question of our justice system. Whether a case is a civil or criminal matter, and which will be decided by a jury or a judge, the question of how judges decide any of the myriad issues they confront is critical. The subject is not often explored beyond the simplistic formulation that they figure out the law, apply the facts and then reach a conclusion. But this description ignores all of the essential inputs about just what guides a judge in figuring out the law, and finding the facts and applying one to the other. How does a judge’s personal background influence the decision making process? What choices does a judge have when trying to decide how to interpret a statute? Does popular opinion influence how judges decide cases? Should it? Rather than try to understand these and related questions solely from what academics and critics of the system have said, this class will explore these issues and ideas by talking to Judges about what they do. Federal and state court Judges will be invited to participate in class and to be interviewed by us and you about pre-determined topics. In addition, we will, in advance of such interviews, review the Code of Judicial Conduct, case law and academic literature on each topic. You will be responsible for reading this material in advance of each interview and actively participating in the interviews. Last year’s speakers included the following (this year’s speaker to be posted):

- September 1: Hon. Brian Cogan – Traditional Forms of Persuasion
- September 8: Hon. Denny Chin – Sentencing
- September 15: Hon. John Gleeson (Ret.) – The Government as Litigant
- September 22: Hon. Vincent Briccetti – Umpires
- September 29: Hon. Loretta Preska (C.J.) – Credibility
- October 20: Hon. Jed Rakoff, Hon. John Martin (Ret.) – Outside Research
- October 27: Hon. John E. Jones III – Public Opinion
- November 3: Roberta Kaplan, Esq., Gerald Lefcourt, Esq. – A View From the Bar
- November 10: Hon. Colleen McMahon – Public Opinion
- November 17: Hon. Lewis Kaplan – Parmalat: A Case Study

Attribute: LIDR.

JUGL 0294. FACILITATING RELIGIOUS CONFLICTS. (3 Credits)
In collaboration with the Feerick Social Justice Center, this is a three credit course in which students will have the opportunity to work as part of a pastoral project that involves facilitating the transitions that have resulted from the archdiocese of New York’s closing of approximately 32 parishes. In weekly classes at the law school, students will study legal problem-solving skills that combine elements of negotiation, mediation, systems design, consensus building, fact-finding and facilitation. This course also has a casework component which involves empirical research on individual parishes which have been merged. Students will be required to attend specific facilitation meetings at various parishes. Research materials will be available to students at the Archdiocese offices at 1011 First Avenue, New York, New York. The research will involve the fact finding, brief writing, mediation and consensus building regarding the parish closings. Students will be assigned to a pastoral facilitation team of 4-5 members consisting of a conflict management specialist, one religious sister or brother, a pastor and one layperson. Students will travel to local parishes with their team, observe the facilitation meetings with groups who are concerned about the closing of parishes, take notes of the process, and otherwise generally assist the team in the facilitation process. With references to Canon Law, students will participate in sensitive problem solving for individuals involved in the Cardinal’s decisions and the implications. Students will be evaluated on the quality of their class participation, research reports and participation in facilitation meetings.

JUGL 0295. FEMINIST JURISPRUDENCE. (2 Credits)
This seminar will expose students to the foundations of feminist legal theory, the divergent strands within it, and related theories of sexuality. We will examine how feminist theorists have considered sex, gender, and sexuality in understanding and critiquing our legal system and its norms. The seminar will examine the epistemological underpinnings of the law, which result in the privileging of certain legal concepts and forms of reasoning, and how, consequently, these underlying normative premises make the law appear objective and neutral. We will look at how feminist legal theory has contended with issues related to race, class, sexual orientation, nationality, gender, and culture. We will study how social power shapes the way we know and how this leads to the continued marginalization of certain groups in the political arena. Methodologically, the seminar will focus on foundational texts and use them to engage with contemporary issues in law and society.

JUGL 0299. JURISDICTIONAL COMPETITION. (2 Credits)
This course examines the ability of firms and people to select the law that will apply to their dealings and forum where their cases will be adjudicated; competition by states, countries and private parties to supply law and adjudication; and the legal and theoretical implications of this competition. Specific topics covered include corporate and securities laws, commercial transactions, arbitration, consumer and electronic commerce transactions, trusts, real property, and marriage and family law.

Attribute: LLM.
JUGL 0315. LGBT RIGHTS COLLOQUIUM. (2 Credits)

JUGL 0320. LAW OF DEMOCRACY. (4 Credits)
This course examines the laws that govern our democratic process, including campaign finance reform, voting rights, redistricting, ballot access, election administration, campaign advertising and the role of SuperPACs. The course is a blend of constitutional law, legal history and legal theory. We will focus attention on the different legal theories and the empirical assumptions used by lawyers and judges in key Law of Democracy cases. Because of the centrality of constitutional law, we conduct a series of mock Supreme Court arguments around the key cases. There is a take home exam, but students who wish to do so may write a 30 page research paper. Four-credit classes that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: INLJ, LAWJ, LLM.

JUGL 0321. LEGAL ISSUES IN GAMING. (2 Credits)
This seminar will explore the legal aspects, both practical and policy-oriented, of gaming (including gambling) in the United States from the varied perspectives of game developers and operators, game players and the public interest. In some respects, a gaming business encounters the same issues facing any enterprise, but in other respects unique or at least highly specialized legal issues are confronted by this multi-billion-dollar industry. A major focus of the course will be intellectual property rights in characters and images, logos, programming and "look and feel" which present copyright, trademark and patent issues. We also will explore contract and licensing issues in some depth as they relate to distribution and monetization. Additional topics will include: data privacy, terms of use, government regulation, free speech issues, Indian gaming law and liability issues. A paper on an approved topic will be required.
Attributes: JD, LAWT, LLM.

JUGL 0347. JEWISH LAW: SOURC, PRIN, JUSRI. (2-3 Credits)
The five legal sources of Jewish law (Halakhah), namely, interpretation, codification, custom, precedent and reason provide the framework for the course. Amongst the major topics are: the tension between the lexical meaning of a text and its legal significance; the definition and significance of the categories of Biblical Law (Deorayta) and Rabbinic Law (Derabbanan); Rabbinic legislation running counter to Biblical law; important legislative landmarks in Jewish family law; the "chained wife" (Agunah); the use of reason as a justificatory principle; questions of life and death, and the balancing of competing claims to life in tragic choice situations.
Attributes: ICE, INLJ, LLM.

JUGL 0357. INTRODUCTION TO JURISPRUDENCE. (3 Credits)
This introductory course surveys important schools of thought in the philosophy of law from the beginning of the Twentieth Century up to the present day. Key questions in the first part of the course include: What is law? What, if any, is the connection between law and morality? In hard cases brought before top courts, are there right answers? The second part of the course engages philosophically grounded debates about civil disobedience, sexual orientation, and civil rights. Class will be a combination of lecture and discussion. There will be a final examination.
Attributes: JD, LLM.

JUGL 0358. JURISPRUDENCE. (2-3 Credits)
The first part of this seminar is a survey of several major theories and approaches to jurisprudence in the 20th century, theories such as those of H.L.A. Hart, Lon Fuller, John Rawls, and Ronald Dworkin, plus other related topics. We will then turn to some contemporary issues that bear on jurisprudence in a broader sense: Dworkin's recent attempt to resolve conflicts over human rights and terrorism, religion and the state, and redistributive justice, based on principles of human dignity; and Cass Sunstein's warnings about the dangers of "radical judges" and the legal theories they and other judges follow, comparing and contrasting Fundamentalism (originalism), Perfectionism, Minimalism, and Majoritarianism as competing models for court decisions. Other short readings may be assigned. Take-home exam.
Attributes: INLJ, PIF.

JUGL 0359. GENDER AND THE LAW. (2 Credits)
This course provides an overview of gender-related legal issues in the United States. Topics covered in the class include: (i) the definition and relevance of gender and sexuality in the legal context (ii) the interaction between religious and gender/sexual "rights" (iii) constitutional and statutory protections against gender discrimination and the limits of those protections (iv) gender issues in the military (v) reproductive issues including the tension between the rights of pregnant women and "fetal rights" (vi) issues related to gender identity and sexual orientation and (vii) violence on the basis of gender; laws affecting families. Students will be required to write two papers in the class.
Attributes: INLJ, LLM, PIF.

JUGL 0360. MEDIATION & NON-ADVERSARIAL JUSTICE. (3 Credits)
This 3 credit course examines the notion of mediation and explores the language of mediation and conflict resolution through introducing four alternative movements in law: Alternative Dispute Resolution, Restorative Justice, Therapeutic Jurisprudence and Transitional Justice. The six principles which are considered as foundational for alternative movements are: an emphasis on process; an emphasis on constructive conflict intervention; deconstruction and hybridization; a search for an underlying hidden layer; acknowledgement of emotions and relationship; community work and bottom up development. In particular, the course deals with therapeutic lawyering, problem solving courts, victim offender mediation, therapeutic judging and truth and reconciliation committees. A paper is required in lieu of an exam. Students have the option of receiving one extra credit and doing a paper to satisfy the writing requirement.<br>Tuesday & Thursday 9:45 a.m. --12:30 p.m. - 7 week condensed course—Sept 1- Oct. 18 7 week condensed course—Sept 1- Oct. 18 Visiting professor Michal Alberstein<br>Head of the conflict management & negotiation program <br>Bar-Ilan University, Israel.

JUGL 0371. LAW & LITERATURE. (2 Credits)
Is law an objective science, or is it also a form of art, the relationship between the imagination and the written word? This course will examine how law is presented in literature, the way in which law itself can be, and is, literature and finally, how narrative and storytelling combine to allow for a better understanding of the experience of litigants by framing the client's case in narrative terms. The course will also consider the way legal issues are presented in art, the role, power and moral responsibilities of lawyers to tell story of clients, and judges in emphasizing with the circumstances of the litigants, the complexities of the human condition and how such considerations are often left out of judicial opinions but yet form the very heart of literature, the way law and literature can relate to building compassion, forgiveness and a greater capacity to listen to other voices, ideas and cultures.
Attributes: JD, LLM.
JUGL 0393. CATHOLIC PERSPECT CONF RESOL. (2 Credits)
This two credit seminar offers an historical and contemporary account of Catholic perspectives on conflict resolution, war and peace. It examines the evolution of the just war theory from St. Augustine until the present time with particular emphasis on papal documents. Other topics for the course include: the role of the Holy See in international relations and in transitional justice regimes; Catholic peacemaking and peace building traditions; U.S. Catholic approaches to war and peace; the doctrine of humanitarian intervention; Catholic international mediation efforts; and, Catholic non-violence theory.

Attribute: LLM.

JUGL 0601. EDUCATION LAW. (3 Credits)
This course surveys the law governing K-12 schools in the United States. Topics covered will be determined to some extent by student interest, but we will cover at least to some extent school governance, basic school finance, the regulation of student and faculty speech, the regulation of religious expression, the education of children with disabilities, the regulation of private schools, homeschooling, and school choice. Students must write some combination of weekly response papers and a final paper. The course may be used to fulfill the JD writing requirement.

Attributes: INLJ, LLM, PIE.

JUGL 0611. SPECIAL EDUCATION LAW. (2 Credits)
This course is a skills based course in special education law from pre-K-12 schools in the United States. Students will learn to apply federal special education laws to actual students’ cases. Students will represent either a student or a school district in a due process proceeding as part of a mock administrative hearing. Topics covered will be the education of children with disabilities along the continuum of appropriate programs for students with disabilities, spanning a student’s least restrictive environment to residential facilities. Remedies for failing to offer a “free appropriate public education” will be explored, including related services, tuition reimbursement for private schools, and compensatory education awards. Students must submit written assignments most weeks, and will prepare opening statements, examinations of witnesses and a closing argument (post-hearing brief), applying the case law learned to the fact scenario presented.

Attributes: JD, LAW, PIE.

JUGL 0709. SPECIAL VICTIMS: DOMESTIC VIOLENCE & SEX CRIMES. (2 Credits)
This seminar will provide an overview of the “special victims” offenses of domestic violence (DV) and sex crimes. In the first half of the course, students will be exposed to the evolution of domestic violence law and the many difficult issues involved in the prevention, identification, and prosecution of domestic violence crimes, such as orders of protection, successfully building cases against offenders with reluctant witnesses, and providing services to victims. In the second half of the course, we will focus on sex-based offenses, exploring legal developments and issues faced by sex crimes prosecutors and others, such as how to work with sexual assault victims, the role of forensics and DNA, evidentiary issues including rape shield laws, expert witnesses, and Title IX issues at educational institutions.

Attributes: INLJ, LLM.

JUGL 0781. GENDER, SEXUALITY AND THE LAW. (2 Credits)
This seminar will examine how the law has dealt with, applied to, and been enforced on issues relating to sexual orientation and gender identity, and how sexual orientation and gender identity influence the application of legal rules to individuals in our society. The seminar will address the role of the law in shaping the social meaning of sexuality and identity, and how legal rights, protections, and deprivations have evolved based on identities as heterosexual, lesbian, gay, bisexual, and transgender in a number of contexts including employment, education, marriage, sexual expression, family relationships and the military. Throughout the course, we will examine the extent to which assumptions about morality, gender, and race have shaped the law’s approach, and the ways in which the movement for lesbian, gay, bisexual, and transgender rights is different from and similar to other rights movements. The course will emphasize constitutional doctrines, including equal protection, due process/privacy, and freedom of speech and association. Our primary text will be Sexuality, Gender and the Law by William N. Eskridge, Jr. and Nan D. Hunter.

Attributes: INLJ, PIE.

JUGL 0929. MARKET STRUCTURE AND DEMOCRACY. (2,3 Credits)
This course will explore the debates in economic and political theory about the appropriate kinds of market structure that support or undermine democracy. We will read Brandeis, Robert Bork, Shumpeter, and other key theorists of market structure and democracy, and then apply these different theories to modern day structural questions, such as net neutrality, merger rules for cable companies, laws governing electrical utilities, and laws governing separation of functions within banking. It is primarily a theory course, not a practice course, and the student needs no background in antitrust, banking, or telecom. Students must stay abreast of the reading assignments and actively participate in class discussions. Informed discussions and dialogue between and among the students and instructor is the center of the course. Classes will proceed on the assumption that everyone has done the readings and has opinions and perspectives worth sharing. Students will be required to write a term paper of 5,000-8,000 words.

Attributes: LLM, PIF.

JUGL 0291. MKT STRUCTURE & DEMOCRACY. (2 Credits)

Labor (LBGL)

LBGL 0291. COMPARATIVE EMPLOYMENT DISCRIMINATION LAW. (3-4 Credits)
This course will provide an introduction to the landscape of U.S. employment discrimination law, and then proceed to compare its structures to that of a variety of other jurisdictions. The final grade will be based upon classroom participation and a final paper of 15 pages in which the student compares an aspect of the U.S. employment discrimination system to that of another jurisdiction not otherwise discussed in the course materials.

Attributes: ICE, INLJ, JD, LAWB, LAWI, LLM, PIE.
LBGL 0321. SCIENCE OF IMPLICIT BIAS & LAW: NEW PATHWAYS TO SOCIAL JUSTICE. (2 Credits)
Despite cultural progress in reducing overt acts of racism, stark racial disparities continue to define American life. This course will examine why race still matters and what emerging social science can contribute to the legal discussion. The course explores how scientific evidence on the human mind might help to explain why racial equality is so elusive. This new evidence reveals how human mental machinery can be skewed by lurking stereotypes, often bending to accommodate hidden biases reinforced by years of social learning. Through the lens of these powerful and pervasive implicit racial attitudes and stereotypes, the course examines both the continued subordination of historically disadvantaged groups and the legal system’s complicity in the subordination. The course will introduce students to the social science methodology’s examination of bias and explore its strengths, limitations, and possible uses. The final grade will be based upon weekly 1 page Analysis Papers that explore the themes of the reading assignments and propose discussion questions for the class session, along with a Final Paper of approximately 5 pages that assesses how the insights about the science of implicit bias might be utilized to either address the operation of implicit bias in the application of law, or how the science can be used to make anti-discrimination law more effective. Students can alternatively submit a Research Paper for Upper Class Writing credit upon authorization of the paper topic with the Professor.
Attributes: INLJ, JD, LLM.

LBGL 0334. EMPLOYMENT DISCRIMINATION. (2,3 Credits)
This course will examine the law governing employment discrimination, with a focus on the major federal statutes prohibiting discrimination in employment: Title VII of the Civil Rights Act of 1964 (and amendments); the Age Discrimination in Employment Act (and amendments); and the Americans with Disabilities Act (and amendments). We will also cover certain subjects addressed by state laws, including discrimination on the basis of sexual orientation. Topics will include: the nature and meaning of discrimination; disparate treatment vs. disparate impact; burdens and methods of proof; affirmative action; the relationship between antidiscrimination and accommodation; retaliation; procedures for enforcement of antidiscrimination laws; and remedies. Grade based on take-home final exam. Class participation will also be considered.
Attributes: INLJ, LAWB, PIE.

LBGL 0359. LABOR LAW. (3-4 Credits)
PROFESSOR JAMES BRUDNEY: Federal regulation of labor-management relations in the private sector, primarily through the National Labor Relations Act as amended. The course focuses on employee organizational and representational rights; the selection of a collective bargaining representative; the collective bargaining process; contract administration and enforcement; and the union’s duty of fair representation. The course also addresses related issues of US labor law: judicial review of arbitration decisions and promises to arbitrate; successorship and the obligations of a successor employer; and federalism and the preemption of state workplace statutes. (4 credits).
BR PROFESSOR ADITI BAGCHI: This course will introduce the fundamentals of labor law in the United States, comparing the American approach with those of other advanced industrialized democracies. We will study the federal law governing employee collective action, including the law governing organizing, employee-union relations, collective bargaining (including tools of economic pressure), and preemption of state law. We will then consider the appropriate scope of application of the NLRA regime; assess the political economic role of organized labor; consider historical and institutional explanations for American ‘exceptionalism’, and; explore the advantages and disadvantages of American labor law as compared to its alternatives.<p> Attributes: INLJ, JD, LAWB, LLM, PIE.

LBGL 0361. EMPLOYMENT LAW. (3 Credits)
This course will address several key topics in the area of employment law. For example: Is a person who provides labor and/or services an employee or an independent contractor? In what circumstances may a company be an employer although it did not hire and does not pay or directly supervise a worker? When may an owner or manager be individually liable for a corporate violation of an employment law? Is there or should there be a public policy exception to the employment-at-will doctrine? When is expression by a public employee protected by the First Amendment? What duties may an employee owe to his/her current or former employer?<p> What rights of privacy does a current or prospective employee have vis-a-vis his/her employer? Issues will be examined as if presented to a law firm called upon to decide whether to take a case or to litigate a motion for summary judgment. From time to time, class members, working together as a two-person team, may be asked to briefly discuss one side of a given issue with a second two-person team advocating the opposite position on that issue.<p> An examination, probably open-book, will be administered at the end of the semester. Class participation will also be considered in determining grades. Quality will be more important than quantity.
Attributes: INLJ, LAWB, PIE.

LBGL 0375. LABOR & EMPLOYMENT ARBITRATION. (2 Credits)
This course will provide a comprehensive look at the world of labor and employment arbitration – its history, procedures, laws, ethics and practice, with a specific focus toward labor arbitration. This course will address arbitration topics such as discipline and discharge, contract interpretation and due process issues through a wide diversity of materials including judicial decisions and arbitration awards.
Attributes: INLJ, LDE, LIDR, LLM.

Updated: 10-11-2017
LBGL 0471. LABOR LAW: WAGE & HOUR LAWS. (2 Credits)
The wage and hour laws are an important element in the protection of low wage immigrant workers. Many of these new immigrants are vulnerable to exploitation because of their linguistic isolation, low awareness of their legal rights and alien status. The wage and hour laws can in some extent protect these workers by providing for minimum wages and overtime pay and prohibiting child labor and take-home work. These laws cover almost all workers including domestic workers in the home, garment workers in the factory and manual day laborers hired off the street. The wage and hour laws are rarely part of the traditional labor law or employment law curricula of law schools where the focus is on union-management issues and on discrimination. Any student interested in sweatshop labor and the exploitation of immigrant workers needs to understand these laws. <p>The seminar focuses substantively on the Fair Labor Standards Act, 29 U.S.C. § 201 et seq. and on New York Labor Law § §190 et seq. and 650 et seq. in the context of low wage immigrant workers. The course material is a mix of statutory and case law as well as transcripts from actual cases in which the workers speak for themselves. The seminar investigates why the exploitation of these immigrant workers continues despite these laws, administrative enforcement, and the unionization of some of the industries where these practices predominate. Depending on class size and interest, there may be some litigation skills components. Attributes: INLJ, LAWB, LLM, LPI.

LBGL 0521. WORKERS, LAW & CHANGING ECO. (2 Credits)
This seminar explores changes in the economy of the United States—including globalization, high levels of immigration, new ways of structuring the employment relationship, and most recently the economic downturn—and the challenges they pose to the enforcement of the major laws governing workplace standards in this country. The course draws on academic materials, cases, statutes, and documents from practice to understand the current situation and to examine emerging models of litigation, regulatory enforcement, legislation, and labor organization that respond to these transformations and seek to re-establish a floor on wages and working conditions in the context of low-wage work today. Students write three short papers over the course of the semester. There is no final exam. Attributes: INLJ, PIE.

LBGL 0906. EXECUTIVE COMPENSATION AND EMPLOYEE BENEFITS LAW. (2 Credits)
There is perhaps no single more important aspect in an employee's work-life than his or her compensation and benefits. Similarly, from an employer's perspective, determining how best to compensate its employees is of extreme importance. Any in-house general counsel, M&A attorney, securities lawyer or labor and employment attorney must have at least a working familiarity with the laws governing these issues. <p>Students will come away from this class with a high-level general understanding of executive compensation and employee benefits, the market and regulatory forces driving their provision and structure, the benefits of deferring compensation, the aspects of ERISA and the Internal Revenue Code addressing these matters, differences between qualified and non-qualified benefit plans, SEC disclosure obligations regarding executive compensation, and the differences between various forms of equity. Students will also be exposed to and review the elements of employment, severance, retention and change in control agreements and equity arrangements. The final examination will be open book. The exam will consist of multiple choice and short-answer questions. Attribute: LLM.

LBGL 0929. COMPARATIVE EQUALITY AND ANTI-DISCRIMINATION LAW. (2 Credits)
This seminar will examine anti-discrimination laws and equality norms from a global perspective. Specifically, the readings will compare U.S. law with the law of several other legal systems, such as Europe, South Africa, China, Colombia, and Argentina. Coverage includes equality issues in employment, affirmative/positive action, gender parity, marriage, reproductive rights, secularism and the rights of religious minorities, and hate speech. Readings are primarily drawn from cases, codes and constitutions, with additional commentary by legal scholars. The course is organized as a seminar in which students are expected to participate in weekly discussions and to write weekly response essays based on the readings. The grade will be based on class participation (including the response essays), and a final research paper. There will be additional supplemental materials made available via an online course platform. Attributes: INLJ, LAWJ, LLM, PIE.

Language (LANG)

LANG 1502. IB. (3 Credits)

LANG 2001. IB. (3 Credits)

Latin (LATN)

LATN 1001. INTRODUCTION TO LATIN I. (3 Credits)
An introduction to Latin grammar with selected readings. Attribute: MVST.

LATN 1002. INTRODUCTION TO LATIN II. (3 Credits)
This course will enhance the skills acquired by students in Introduction to Latin I or from prior study. It will further promote a deeper understanding of Latin and its literary and cultural traditions. Attributes: MVST, ZLB1.

Prerequisite: LATN 1001.

LATN 1004. INTENSIVE LATIN. (4 Credits)

LATN 1501. INTERMEDIATE LATIN I. (3 Credits)
A continuation of LATN 1002 with an introduction to the reading of texts. Attribute: MVST.

LATN 2001. LATIN LANGUAGE AND LITERATURE. (3 Credits)
An appreciation of the language, literature, and culture of antiquity through original readings in classical Latin authors. Attribute: MVST.

Prerequisite: LATN 1501.

LATN 3000. LATIN POETRY. (4 Credits)
To introduce advanced students of Latin to the lyric poetry of Catullus and Horace through translation, stylistic and metrical analysis and discussion of the poets’ literary tradition. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Attribute: COLI.
LATN 3009. HORACE: ODES. (4 Credits)
Readings in and literary analysis of the Odes of Horace. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

LATN 3021. ROMAN LOVE POETRY. (4 Credits)
Readings from the works of Catullus, Ovid, Propertius and Tibullus. Study of Metrics and Poetic Forms. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LATN 3041. OVID. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

LATN 3043. DRAMA IN ANCIENT ROME. (4 Credits)
Close reading of selections from Plautus, Terence and Seneca. The cultural history of Roman drama. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LATN 3050. CICERO’S ORATIONS. (4 Credits)
Reading in the speeches of Cicero. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LATN 3060. READINGS IN VERGIL. (4 Credits)
Readings from Eclogues, Georgics, and Aeneid. Taught in Latin. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

LATN 3061. CHRISTIAN LATIN. (4 Credits)
A study of the language and literature of the late classical and early Christian eras. Taught in Latin. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, AMCS, COLI, MVST, REST.

LATN 3300. ADVANCED LATIN. (4 Credits)
A reading of selections from Ovid’s Amores and his Ars Amatoria, with cultural and literary analysis. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

LATN 3332. SENEC’S LETTERS. (4 Credits)
A select survey of Seneca’s Moral Epistles in Latin. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

LATN 3456. IMPERIAL LATIN BIOGRAPHY. (4 Credits)
A reading of selections from the imperial lives of the "Historia Augusta," with literary and historical analysis. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

LATN 3466. LATE LATIN POETRY. (4 Credits)
A survey of late-antique Latin poetry, in particular Claudian, Ausonius, Rutilius, and the Centones. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: LATN 2001.

LATN 3999. TUTORIAL. (3 Credits)
LATN 4999. TUTORIAL. (1-4 Credits)
Classical Civilization.

LATN 5001. INTRODUCTION TO LATIN I. (3 Credits)
An introduction to Latin grammar with selected readings.

LATN 5002. INTRODUCTION TO LATIN II. (3 Credits)
This course will enhance the skills acquired by students in Introduction to Latin I or from prior study. It will further promote a deeper understanding of Latin and its literature and cultural traditions.

LATN 5003. INTERMEDIATE LATIN. (3 Credits)
A continuation of LATN 5002 with an introduction to the reading of texts.

LATN 5004. LATIN LANGUAGES AND LITERATURE. (3 Credits)
An appreciation of the language, literature and culture of antiquity through original readings in classical Latin authors.

LATN 5006. INTENSIVE LATIN. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LATN 5061. CHRISTIAN LATIN. (3,4 Credits)
LATN 5090. LATIN FOR READING. (0 Credits)
A course designed for graduate students seeking a reading knowledge of Latin in their discipline. Some prior study of Latin is desirable but not necessary.

LATN 5093. ECCLESIASTICAL LATIN. (3 Credits)
A study of the grammatical structure, form, and vocabulary of Church Latin, focussing on the Bible, the Church Fathers, and medieval thinkers.

LATN 5211. LATIN PROSE COMPOSITION. (3-4 Credits)
LATN 5300. ADVANCED LATIN. (3 Credits)
A reading of selections from Ovid’s Amores and his Ars Amatorie, with cultural and literary analysis.

LATN 5456. IMPERIAL LATIN BIOGRAPHY. (4 Credits)
A reading of selections from the imperial lives of the "Historia Augusta," with literary and historical analysis. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LATN 6321. ROMAN ELEGY. (3 Credits)
A survey of Roman Elegy from Gallus to Ovid. A survey of Roman elegy from Gallus to Ovid.

LATN 6332. LUCRETIUS. (3 Credits)
Literary, philosophical, and philological analysis.
LATN 6423. CICERO’S SPEECHES. (3 Credits)
LATN 6453. CAESAR’S COMMENTARIES. (3 Credits)
Readings in the "Commentaries," with a focus on the literary genre and Caesar’s purposes in writing.
LATN 6454. LIVY’S FIRST PENTAD. (3 Credits)
Select latin readings from Livy 1-5 with thematic, historiographical, and literary analysis.
LATN 6455. SALLUST. (3 Credits)
This course offers a close reading and in-depth analysis of the works of Sallust, "the most brilliant author of Roman history" in Tacitus’s opinion (Ann. 3.30.2). Most of the course will be devoted to the study of Sallust’s two fundamental monographs (Bellum Catilinae and Bellum Jugurthinum), but we shall read also selected passages from Sallust’s most ambitious but fragmentary Historiae and from works that were not written by Sallust, but attributed to him. Close attention will be devoted also to Sallust’s language and style, the transmission of his texts, and the fortuna of his work. In addition to the textual work and discussion of issues of translation, we shall focus on the following broader topics: Sallust’s place within the tradition of ancient historiography, the historical context of his works, and the complex relationship between ancient rhetoric and historiography. Additional readings of ancient sources (e.g., Cicero’s Catilinarian Orations, excerpts from Plutarch’s Life of Marius etc.) will be assigned in translation.
LATN 6464. SENeca’S TRAGEDIES. (3 Credits)
We will read five of Seneca’s tragedies; discussing questions of performance, poetics, politics, historical content, and reception.
LATN 6465. GELLiUS AND THE TRADITION OF ROMAN ANTIQUARIANISM. (3 Credits)
This course surveys the Roman tradition of antiquarianism from the second century BCE to the sixth century CE. We will focus in particular on the Attic Nights of Aulus Gellius and read selection from Varro, Verrius Flaccus, Festus, and Isidore.
LATN 6466. LATE LATIN POETRY. (3 Credits)
A survey of late-antique poetry, in particular Claudian, Ausonius, Rutilius, and the Centones.
LATN 6471. SUETONIUS. (3 Credits)
LATN 6521. LATIN PALAEOGRAPHY. (3 Credits)
"From Script to Print." A study of the history and development of Latin handwriting from Antiquity to the Renaissance. Also a study of the manuscripts as book (codicology) and cultural artifacts. Some consideration of textual transmission and critical editing. There will be hands-on practice in reading the various scripts. A study of the history and development of Latin handwriting from antiquity to the Renaissance. Also a study of the manuscript as book (codicology) and cultural artifact. Some attention will be paid to textual transmission and critical editing. Primary emphasis will fall on the reading and recognition of the various scripts, with a final project transcribing transcribing and identifying an original manuscript leaf from the Fordham collection. Advanced students in other fields, with specific research needs, may, with permission, develop their own final palaeographical projects.
LATN 8999. INDEPENDENT STUDY. (1-3 Credits)
LATN 9101. INTRODUCTION TO LATIN I. (0 Credits)
LATN 9102. INTRODUCTION TO LATIN II. (0 Credits)
LATN 9151. INTERMEDIATE LATIN I. (0 Credits)
LATN 9201. LATIN LANGUAGE&LITERATURE. (0 Credits)

Latin American and Latino Studies (LALS)
LATN MTNC. MAINTENANCE-GSAS. (0 Credits)
GSAS Administrative registration to maintain matriculation while away from the University with no contact with faculty, staff or advisors. Attribute: ZAMM.
LATN 0912. REQUIREMENT PREPARATION. (0 Credits)
For Ph.D. and Master’s students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement, such as comprehensive exam, Master’s thesis, or dissertation submission. Attribute: Z410.
LATN 0914. REQUIREMENT PREPARATION IN SUMMER. (0 Credits)
For Ph.D. and Master’s students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement during the summer. (e.g., to be used by Ph.D. students after the oral examination/defense and prior to receiving the degree).
LATN 1003. BRAZILIAN PORTUGUESE FOR SPANISH-SPEAKERS AND LEARNERS. (3 Credits)
An accelerated introductory course for students with knowledge of Spanish, this course concentrates on aspects of the Portuguese language that are most difficult for Spanish-speakers or learners, such as pronunciation, vocabulary, idioms, grammatical structures that are different from Spanish and particular to Portuguese, and introduces students to Brazilian media and culture.
LATN 1100. AFRO-LATIN AMERICA. (3 Credits)
An introduction to the central themes in the study of people of African descent in Latin America. In considering race and blackness in L. America we will pay attention to the flexibility of racial categories, the importance of gender and class, and the role of visual images in the making of racial identities.
Attribute: GLBL.
LATN 1503. BRAZILIAN PORTUGUESE FOR SPANISH-SPEAKERS AND LEARNERS II. (3 Credits)
An intermediate course for students with knowledge of Spanish, this course focuses on Portuguese language as it contrasts with Spanish. Development of speaking, reading, and listening skills. Special practice in areas of grammar, linguistic structure, pronunciation and idioms that differ from Spanish. Emphasis on Brazilian media and culture. Fulfills the language requirement of the Latin American and Latino Studies major and minor. An elective of the LALS and the Spanish Studies minor.
LATN 2000. CULTURE AND IDENTITY IN FRENCH CARIBBEAN LITERATURE: FROM CHAOS-MONDE TO TOUT-MONDE. (3 Credits)
In this course we will read contemporary francophone literature from Martinique, Guadeloupe and Haiti, translated to English, in an effort to familiarize ourselves with the colonial and post-colonial history of the region, its cultural richness and its literary modes.
LATN 2005. AMERICAN PLURALISM. (4 Credits)
Contemporary and historical studies in the racial and ethnic diversity of American (U.S.) society with a special emphasis on the issues of race relations, migration and immigration and their relation to either (1) the distribution of economic or political power or (2) their cultural manifestations in literature, the arts and/or religion. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Attributes: AMST, PLUR.

Updated: 10-11-2017
LALS 3305. LATIN AMERICAN THEMES. (4 Credits)
This course allows students to explore ways to synthesize key topics in Latin American and Latino/o Studies (LALS) as an interdisciplinary field of study. It will compare the distinct approaches to these topics of the different disciplines represented by the LALS faculty (including History, Literature, Film Studies, Theology, Art History, Sociology, and Anthropology). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, COMC, COMM.

LALS 3307. SPANISH LINGUISTICS. (4 Credits)
This course focuses on the linguistic study of the Spanish language. The course discusses the formal domains of language structure - including speech sounds and their mental representations, sentence structure and semantic meaning, as well as social realities of language use and language change across different varieties of Spanish in the world. The course is taught in Spanish.
Attribute: ASSC.

LALS 3325. HYBRID FUTURES: A PANORAMA OF MEXICAN SHORT FICTION. (4 Credits)
This course will explore the main themes of Mexican science fiction, from the late nineteenth century to today, using a panoramic approach that encompasses different forms of cultural production and media (literature, film, comics, street art, etc.). Through the science fiction lenses we will examine Mexico’s relation to technology and the processes of modernization, as well as the imagined future of labor, gender, and immigration, among other issues. We will frame Mexican science fiction as part of a larger Latin American tradition, while also discussing the connections to more mainstream (i.e. American and English) visions of the genre. All materials will be available online.
Attribute: ALC.
Prerequisite: SPAN 2500.

LALS 3343. CRIME AND MINORITY RIGHTS. (4 Credits)
This course is designed to present an overview of the problems for decision in the promulgation, invocation, and administration of a law of crimes. Topics include theories of crime, the purpose of punishment, and specific types of crimes. The rights of minorities will be discussed within the context of a viable criminal law. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: URST.

LALS 3344. CRIME, LITERATURE, AND LATINOS. (4 Credits)
This course examines the relationship between criminal law and literature. We will study how writers use stories about the law to express ideas of humanity. We will also examine the interplay between law and morality and discuss how authors have viewed the criminal justice system, with particular emphasis on the experience of Latinos. The reading list will include criminal law and criminal procedure law, as well as works by Latino fiction writers such as Bodega Dreams, Carlito’s Way, and House of the Spirits, and by non-Latino writers such as Billy Budd and The Trial. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: COLI.

LALS 3346. LATINOS AND THE MEDIA. (4 Credits)
A seminar and workshop on the impact and influence of the news media on Latin Americans and U.S. Latinos and their image by acclaimed journalist and memoirist, Luisita Lopez Torregrosa, former national editor at The New York Times and author of the critically acclaimed memoirs, Before the Rain: A Memoir of Love and Revolution and The Noise of Infinite Longing. This course will discuss and analyze the impact of negative labels and cultural and social typecasting on news written about Latin Americans and U.S. Latinos. It will also examine sources, such as films, memoirs, and scholarly books, as alternative ways to transform and reinvent these images of Latin Americans and Latinos in the news. Students will learn to analyze the presentation of Latin American and Latino subjects in the news and compose news reports and essays that present more expansive and knowledgeable views of the lives and cultures of Latin Americans and U.S. Latinos. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: FCLC.

LALS 3352. POL ISSUES AND PROCEDURE IN CRIMINAL LAW. (4 Credits)
Utilizing the casebook and problem-solving approaches, this course will study the manner in which criminal laws are created and the effect on minority communities throughout the country. The course will examine such issues as the scope and nature of criminal liability, the insane defense and other defenses to crimes, as well as the purpose and effectiveness of traditional sentencing. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LALS 3359. CRIME: A CASE STUDY. (4 Credits)
An exploration of trial advocacy through an examination of a case from its inception to its conclusion. Examines each stage of the criminal justice process, issues related to the rights of minorities, the role race and the police play in the system. Course will culminate in a mock trial after analyzing issues arising from the substantive study of criminal law and procedure. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LALS 3400. SOCIAL REALITY: BOGOTA. (1 Credit)
This one week course in the capital of Colombia, Bogota, will explore contemporary social reality in one of Latin America’s most representative and vibrant cities, with special emphasis on the way this nation’s armed conflict has impacted its population and its modernization process and on current conflict resolution and civic participation through social service-learning projects.

LALS 3401. LATIN AMERICAN SOCIAL REALITY: PUEBLO. (1 Credit)
One-week study tour to Puebla, Mexico. The course will explore the socioeconomic reality of Puebla, Mexico. The city is the main source of Mexican immigrants to New York and has sites important for every major period of Mexican history. The tour will include lectures on history and contemporary issues as well as visits to sites important to the history and culture of Mexico.
LALS 3421. LATIN AMERICAN FICTION. (4 Credits)
A study of Latin American narrative forms. Selected readings from major Latin American writers. Topics such as unity, diversity, magic realism, the search for a national identity, literature and underdevelopment, etc. will be examined in their social and literary context. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: GLBL.

LALS 3435. BRAZILIAN LITERATURE AND FILM. (3 Credits)
This course examines some of Brazil's best known cinematic and literary classics in translation. We start with Jose' de Alencar's "tracema" continuing through to works that treat the military dictatorships in Brazil during the 1960's and 1970's. Taught in English.

LALS 3437. AFRO-BRAZILIAN FILM, LITERATURE, AND CULTURE. (4 Credits)
This course examines central themes in Afro-Brazilian film, literature, and culture. We will study the depiction of slavery the depiction of slavery during the construction of syncretic religions such as Candomble and Macumba, the experience of Afro-Brazilian women, the image of favelas or shantytowns and conclude with Afro-Brazilian woman, the music and performance. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COLI, GLBL.

LALS 3575. PAINTING THE EMPIRE: UNDERSTANDING THE SPANISH EMPIRE THROUGH ART AND LITERATURE. (4 Credits)
The Golden Age of Spanish art and literature (known as "el Siglo de Oro") coincided with the configuration of Spain as a global empire after the rise of the Habsburg dynasty to the Spanish throne (from around 1550 to around 1650). This course proposes a study of the main social, political and cultural conflicts that conformed that empire from a multidisciplinary perspective that combines the works of the empire's most famous painters (El Greco, Diego Velázquez, José de Ribera, among others) with the works of its most representative writers (Lope de Vega, Miguel de Cervantes, María de Zayas, among others); topics such as the symbolic construction and shaping of space, gender, national identity or social and religious relationships will be approached through a combination of visual and textual representations. The course will also take great advantage of the important collections of Spanish Renaissance and Baroque painting held at several New York institutions such as the Metropolitan Museum of Art of the Hispanic Society of America, including visits to those institutions and field work. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: GLBL.

LALS 3600. LATIN AMERICA: CURRENT TRENDS. (4 Credits)
The objective of this course is to help students develop the basic tools for political analysis in the context of an overview of the current political environment and economic circumstances of Latin America's main players. The course will provide information and guidelines for understanding the present situation within each of the main influential countries in the region and the interrelationship among these countries. The relationship with the United States and other extraregional players with increasingly important roles in the region, as well as the influence of the Organization of American States will also be explored. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: INST, PJST.

LALS 3601. LATIN AMERICAN ARCHEOLOGY. (4 Credits)
Latin America is one of the great culture areas of the ancient and modern worlds. The peoples of the region developed unique civilizations long before the arrival of Europeans. This course considers the religion, hieroglyphic writing systems, architecture, political economy, myth, and history of Pre-columbian cultures of Mesoamerica, South America and the Caribbean. We examine the latest archaeological research and primary ethnographic documents to study the Maya, Zapotec, Aztec, Moche, Inca, and Taino culture. A broad historical and geographical sweep allows us a deeper understanding of how the Latin American past continues to shape the present. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LALS 3602. CROSSING BORDERS: MIGRATIONS, GENDER, SEXUALITY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LALS 3840. LATIN AMERICA THROUGH FILM. (4 Credits)
Major topics of Latin American cultural criticism through an examination of Latin American and Latino film production, with a special emphasis on the documentary as an alternative to mainstream cinema and television. Latin American media theories and cultural criticism. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: FITV, INST.

LALS 3930. CONTEMPORARY CUBAN CULTURE STUDY TOUR. (1 Credit)
This one-week, one-credit, spring study-tour course will explore renewed importance of Havana as both a local and global purveyor of culture since the fall of Soviet-style socialism in the 1990’s. It will focus on the city's vibrant contemporary cultural scene in music, art, dance, literature and film as exhibited in museums, galleries, workshops, concert halls, and community centers and will give students a lived sense of the issues, topics and concerns addressed by contemporary Cuban artists in new innovative forms that respond to local conditions of economic transitions and to a globalized world market.
Prerequisite: SPAN 2001.

Updated: 10-11-2017
LALS 4005. QUEER THEORY AND THE AMERICAS. (4 Credits)
Drawing from the often divergent traditions of Anglo and Hispanic America, this course will take an interdisciplinary approach to queer methodologies for cultural and literary studies. Students will encounter foundational queer theoretical texts (both historical and contemporary) as well as novels, plays, and films, and will explore, for themselves, what queerness means and does. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, ENGL, ICC.

LALS 4100. SPEAKING FOR/AS THE OTHER. (4 Credits)
What are the implications of giving voice to those who are “voiceless”? This course explores the role of writing and speaking during the encounter of black, Indian, mestizo and Hispanic cultures in Latin America and Latina/o United States. By examining these cultural encounters, the course examines the political and ethical implications of speaking for and as the other Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COLI, EP4, VAL.

LALS 4200. PRAGMATISM AND IDEOLOGY: LATIN AMERICA. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: GLBL.

LALS 4347. LATINOS: FACT AND FICTION. (4 Credits)
This course uses an interdisciplinary approach to examine the experiences of Latin Americans and Latinos. It employs literature and history to introduce students to the benefits of using multiple ways of acquiring knowledge. It then relies on other academic areas such as art and sociology to reinforce its interdisciplinary. As a capstone course, it allows students to incorporate disciplines from their own academic foundation. It covers topics such as politics, social justice, race, gender, and identity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: GLBL, ICC.
Prerequisite: SPAN 2500.

LALS 4900. TOPICS IN LATIN AND LATINO STUDIES. (4 Credits)
Advanced study of a Latin American or Latino topic. Must be approved by Chair/Associate Chair. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LALS 4999. TUTORIAL. (1-4 Credits)

LALS 5001. LAT AMER & LATINO CULTRS. (4 Credits)
In-depth study of cultural phenomena (linguistic, literary, artistic, etc) and the intellectual, social and political contexts in which they manifest themselves in Latin America and U.S. Latino communities. The topics will be addressed from historical and contemporary perspectives. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: INST, URST.

LALS 5004. TESTIMONY & REVOLUTION: READING TESTIMONIOS BY MEN AND WOMEN FROM CENTRAL & SOUTH AMERICA. (4 Credits)
This course is about how self-consciously radical or ‘revolutionary’ working people (workers and peasants), as well as those middle class protagonists who claim to speak on behalf of the subaltern, see themselves through autobiography/testimonies and how others (historians and social scientists) have chosen to see and represent them. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: PJST.

LALS 5005. CONTEMPT CUBAN CULT HIST. (3-4 Credits)
An exploration of the cultural transformations that have shaped Cuban society from the Revolution of 1959 to the present-day "special period" of economic change through the examination of its literature and film.

LALS 5006. LATINO NEW YORK. (3-4 Credits)

LALS 5007. WORKING WITH SURVIVORS. (3-4 Credits)

LALS 5008. CUBA:REV,LIT & FILM. (3,4 Credits)
The evolution of Cuban culture as seen in literature and film from the early years of the revolution of 1959 to the contemporary post-Soviet "special period." Literary texts from writers such as Barnet, Morejon, Desnoes, Piners, Lezama Lima, Arenas, Valdes, Ponte, and Pedro Juan Gutierrez will be studied, as well as representative films from directors such as Gutierrez Alea, Sola, and Perez.
Attribute: PJST.

LALS 5010. LATIN AMERICAN MIGRATIONS. (3,4 Credits)
Geographical, cultural and linguistic migration has been a major theme of Latin American fiction since its very beginnings. Throughout the 20th Century, the myth of entering modernity through geographical displacement became the cause of major transformations in the Latin American landscape: from the gradual emptying out of rural areas to the unplanned explosions of cities into megalopolis of overwhelming complexity. In recent decades, even more complex dislocations of culture and identity have flourished with the increasing number of people leaving their country of origin to try their luck elsewhere, either within the continent or in the US, Europe, or Asia. In dialogue with recent critical discourse on migrancy, racism, globalization, hybridity and transnationalism, the Latin American fiction to be read and analyzed in this course will foster a discussion on the rapidly changing dynamics of the multiple cultural and linguistic identities of increasingly nomad Latin Americans of different social, racial and linguistic backgrounds.

LALS 5020. LALS RESEARCH SEMINAR. (3-4 Credits)
This course focuses on the writing of the M.A. capstone and the presentation of the capstone to a peer audience.

LALS 5021. LALS SEM FOR SERV LEARN/RES. (3-4 Credits)

LALS 5035. LATINO JOURNALISM. (4 Credits)
A hands-on reporting and writing workshop with a focus on Latin American and Latino subjects. Students will uncover, investigate and produce pieces on local and international issues of special relevance to Latinos, including news articles, profiles and features. The course will evaluate the local media's reporting on Latino minorities and will examine the work of American foreign correspondents who work in Latin America, as a way to study the region and the job of reporting abroad. Students will also be expected to debate issues examined in news articles and books. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Updated: 10-11-2017
LALS 5520. LALS RESEARCH SEMINAR. (4 Credits)
The course focuses on the writing of the MA capstone and the presentation of the capstone to a peer audience. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LALS 5907. CAR DIASPORAS: LONDON & NY. (4 Credits)
"Caribbean Diasporas: London and New York," This course will compare the experience of immigration and the formation of diasporic communities in two cities with strong connections to the Caribbean. It will explore the causes of and pace of immigration and the complexity of trans-national identities and politics. The topics discussed in depth include: New York and London’s tie to the slave economies of the Caribbean; major Caribbean political exiles in London and New York (Jose Martí, C.L.R. James); and the tensions between national and diasporic identities in the two cities. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LALS 6000. LATIN AMERICA: CURRENT TRENDS. (3 Credits)
The objective of this course is to help students develop the basic tools for political analysis in the context of an overview of the current political environment and economic circumstances of Latin America’s main players. The course will provide information and guidelines for understanding the present situation within each of the main influential countries in the region and the interrelationship among these countries. The relationship with the United States and other extraregional players with increasingly important roles in the region, as well as the influence of the Organization of American States will also be explored.

LALS 8999. INDEPENDENT STUDY. (4 Credits)

Legal and Policy Studies (LGPO)

LGPO 0100. FORDHAM PRE-LAW INSTITUTE. (3 Credits)
This course will introduce students to the fundamentals of the U.S. legal system and U.S. law. Topics include Introduction to the U.S. Legal System, Constitutional Law and Legislation/Regulation, Foundations of Private Law, Criminal Justice, Civil Procedure and Litigation, Legal Ethics and Professional Responsibility, and Legal Research and Writing. Classes are taught by Fordham Law School faculty, who will introduce the Socratic method of teaching common in legal education. Optional sessions will prepare students for the law school admissions process, the first year of law school studies, and legal professional development. One class will feature a conversation with law graduates working in various legal positions in the public and private sectors. This course is designed for those contemplating law school but all are welcome.

LGPO 1105. INTRODUCTION TO LEGAL AND POLICY STUDIES. (3 Credits)

LGPO 3000. POLICY AND FEDERAL AGENCIES? WHO MAKES THE RULES YOU LIVE BY?. (4 Credits)
Who makes the rules? An examination of the enormous impact of government agencies on the day-to-day lives of citizens and noncitizens; a comprehensive overview of the myriad government agencies created over the last century to formulate policy and promulgate rules and regulations that implement the laws enacted by Congress; an examination of how these agencies function as an ad hoc fourth branch of government; the intersection of agency rule making with the three branches of government: executive, legislative and judicial, and agency impact on policy development; how the agencies serve as an extension of executive power, generate test cases for judicial review that define the scope of laws and determine whether agency interpretations are within Congressional intent. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LGPO 3010. WRITING AND RATIFICATION CONSTITUTION. (4 Credits)
Written in secrecy and without authority, the US Constitution was nothing more than a mere proposal upon its release to the public in 1787. The Federal Convention (referred to today as the Constitutional Convention) specified that the decision whether or not to establish the new document as the supreme law of the young confederacy was to be in the hands of “We the People” through ratifying conventions – not a unanimous consent the 13 independent state legislatures. This course is an examination of the writing and ratification of the US Constitution, with particular attention to the role of American Revolution ideology, the failures of the Articles of Confederation that led to the Convention, and the monumental political debate that surrounded its ratification. The course includes a substantial online component and an overnight field trip to the National Constitution Center and Independence Mall in Philadelphia. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LGPO 3015. US CONSTITUTIONAL MOMENTS. (4 Credits)
This course is a study of the watershed moments in US Constitutional history. Several times in the history of the United States, the US Constitution has undergone dramatic change, calling into question the meaning and legal definitions of personal rights and liberties. Often, these moments changed the path of civil rights in the country, for example: the passage of the Bill of Rights, the Reconstruction Amendments, and the New Deal era. Students will explore these moments – and the moments change was considered but not accomplished – within the greater historical and legal policy context of the United States. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LGPO 3100. HEALTHCARE IN THE U.S.: A RIGHT OR A PRIVILEGE. (3 Credits)
There is a national debate on health care in the U.S. as the Affordable Care Act with mandated insurance coverage is creating a sea change in the health care industry away from fee-for-service toward performance-based delivery of health care services. This course examines the debate, government’s role in providing health care coverage and services, how to formulate policy and who is entitled to coverage.
LGPO 3200. REGULATING BUSINESS: WHO NEEDS IT?. (3 Credits)
With the implementation of provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act in the wake of the recent economic downturn, this course will examine the regulatory climate for businesses and corporations in the United States as well as U.S.-based transnational corporations. An analysis of recent trading practices and efforts to regulate previously self-policing financial industry members through pursuit of insider trading investigations by the SEC and other government agencies will be included in the analysis of consumer protection in an assessment of what is the role of government in regulating business.

LGPO 3300. GOVERNMENT AND PUBLIC ADMINISTRATION. (3 Credits)
An overview of the implementation of government policy with the view to prepare individuals for working in the public service. This course will analyze how the management of public programs and policies is accomplished so that government can function and politics is translated into reality. The course will include examination of government decision making and analysis of the policies themselves, the various interest groups and individuals that give rise to these policies and the creation of alternative policies when necessary.

LGPO 3400. BASIC ECONOMIC POLICYMAKING. (3 Credits)
This course surveys the major economic policies made by the government, political influences on economic policymaking, and the consequences of economic policy on politics. Some concepts covered will include macroeconomic policy and indicators (e.g., GDP, inflation and unemployment), fiscal and monetary policy, taxes, regulation and trade, deficits and debts, structural reform, fiscal stimulus vs. austerity and the influences on economic policymaking by the executive, legislative, and judicial branches of government as well as interest groups and the public.

LGPO 3500. EFFECTING CHANGE: ACTIVISM, ADVOCACY, LOBBYING, AND PACS. (3 Credits)
The process of effecting policy change may involve a complex interplay of forces at many levels operating both within and outside government, ranging from individual activists, community organizers advocating on behalf of a cause or group, lobbyists employed by private or corporate special interest groups or political action committees organized to aggregate financial resources to support or block a particular agenda. This course examines the variety of mechanisms utilized to implement policy change, the constraints (or lack thereof) under which they operate and the efficacy of their respective approaches.

LGPO 4999. TUTORIAL. (1-4 Credits)

Legal Writing (LTGL)

LTGL 0106. LEGAL WRITING/RESRCH. (3 Credits)
Training in analysis of legal problems, the legal process, legal writing, and legal research. This is a small-group required course that meets weekly for approximately twelve weeks in the fall semester and eight weeks in the spring. The fall semester focuses on objective writing (law office memoranda) and common law research, while the spring semester concentrates on advocacy writing (briefs) and oral argument skills. Although the number and length of the writing assignments are uniform for all writing sections, the content of the problems varies from professor to professor. Legal research sessions, which meet in a different time slot for six weeks in the fall semester, are conducted by lawyer-librarians on the law library staff. Students learn the process of legal research using basic primary and secondary sources in both print and electronic formats. The course also introduces students to the lawyering skills of interviewing and negotiating.

Attribute: JD.

LTGL 0124. LL.M. DRAFTING FOR TRANSACTIONAL PRACTICE. (2 Credits)
In this skills course, students will learn the foundation skills of negotiation, client management and contract drafting. Students will work through the process of translating deal terms into contract concepts through a series of lectures and in-class drafting sessions. Additionally, students will engage in mock negotiations and client communications. Guest lecturers with substantive area expertise will work with students during drafting sessions on identifying strategies geared toward avoiding litigation. Students will complete a series a drafting and writing assignments and will be responsible for a final group project.<p>Prereqs: None required, but suggested to take contracts for LL.M. as prereq or concurrently.<p>Class meeting dates: 1/19, 1/26, 2/2, 2/23, 3/2, 3/23, 4/6.

Attributes: LAWB, LAWI.

LTGL 0129. DISCOVERY DRAFTING. (3 Credits)
This seminar covers the preparation of civil discovery papers and related documents in a trial court. Students analyze the discovery issues raised by real cases and hypothetical fact patterns, learn how the discovery process fits within the larger pre-trial preparation process, evaluate, critique, and comment on sample discovery-related documents, and prepare various discovery-related documents, such as initial disclosures, interrogatories, requests for production, requests for admissions and deposition outlines. Students will consider special problems related to electronic discovery, expert discovery, and privilege disputes, and will be required to draft court papers common in situations involving those topics, including letters to opposing counsel, privilege logs, and motions to compel. Students will also gain some experience in specific practice skills based on the discovery and court papers drafted.

Attributes: JD, LAW, LDS.

LTGL 0153. SECURITIES REGULATION DRAFTING. (3 Credits)

Attributes: BFS, LAW.

Prerequisites: BUGL 0201 (may be taken concurrently) and SCGL 0417 (may be taken concurrently).

LTGL 0156. ENTERTAINMENT LAW DRAFTING. (3 Credits)

Attributes: IPIS, LAW.

LTGL 0193. ADVANCED LEGAL WRITING SEMINAR. (3 Credits)

Attributes: JD, LAW.

LTGL 0225. LEGAL WRITING AND RESEARCH FOR LLMS. (2 Credits)
http://www.fordham.edu/info/23814/llm_legal_writing_program.

Attribute: LL.M.

LTGL 0226. LEGAL WRITING & RESEARCH for LLMs (ESL). (3 Credits)
Designed for foreign-trained LL.M. students, this course provides an introduction to basic principles of American legal writing and research. Students review American research techniques and prepare documents such as memoranda, contracts, and client letters. This section will be taught using ESL techniques and will include a focus on developing English skills. <p>LL.M. Notes: The course (either with or without the ESL component) is mandatory for LL.M. candidates; enrollment is determined by the Graduate Program. Required for foreign-trained students.

Attribute: LL.M.
LTGL 0230. CRIMINAL LITIGATION DRAFTING. (3 Credits)
http://www.fordham.edu/info/22148/
advanced_legal_writing_program/7316/criminal_litigation_drafting.
Attributes: LDS, PIS.

LTGL 0260. LLM DRAFTING IN IP/IT. (2 Credits)
This course will build on analytical and writing skills and will provide you with opportunities to sharpen your legal analysis through drafting various types of documents commonly used in IP/IT representation, which may include a cease and desist letter, work made for hire agreement, license agreement, on-line agreements such as privacy policy and terms of use, and legal memorandum. We will examine legal arguments, specific provisions and will study the conventions and expectations unique to each of the documents you write. Additionally, we will conduct legal research for the legal memorandum which will also influence the agreements you draft. For various assignments you will negotiate with classmates who represent opposing interests and draft agreements reflecting your negotiations.
Attributes: LAWT, LLM.

LTGL 0301. COMMERCIAL DRAFTING. (3 Credits)
http://www.fordham.edu/info/22148/
advanced_legal_writing_program/7315/commercial_drafting.
Attributes: BFS, LAW.

LTGL 0302. ADVANCED LEGAL WRITING STRATEGIES AND SKILLS. (3 Credits)
The class will focus on enhancing each student’s legal writing strategies and skills by engaging in a critical analysis of the trial and appellate judging processes, with a special focus on the influences impacting judicial decision-making. Students will work from an actual case currently pending in a state or federal appellate court, analyzing a trial record, assessing lower-court decisions, and developing strategies for writing (a) a legal memorandum, and (b) a statement of facts and argument.
Attributes: JD, LAW, LDS, PIS.

advanced_legal_writing_program/7319/family_law_drafting.
Attributes: JD, LAW.

LTGL 0329. UPPER-CLASS LEGAL WRITING WORKSHOP. (2 Credits)
This 2-credit seminar will build on the first-year legal writing course in developing and enhancing basic legal writing skills. The primary focus will be on writing in a clear, organized, precise, and accessible fashion. Class sessions will review basic principles of good writing, covering in particular issues of structure, style, and grammar (and also analysis to the extent that good legal reasoning is essential to good legal writing). The course will consist of a series of short writing assignments in a variety of substantive areas. Students will learn to write objective, non-litigation documents that new lawyers typically produce in practice, including memoranda, letters, client advisories, judicial opinions, and simple contracts. The course will also explore the writing process (prewriting, writing and rewriting) and teach students effective techniques of self-editing. There is no final examination. Enrollment is limited to 12 students.

LTGL 0331. LEGISLATIVE DRAFTING. (3 Credits)
http://www.fordham.edu/info/22148/
advanced_legal_writing_program/7322/legislative_drafting.
Attributes: JD, LAW, PIS.

LTGL 0900. WRITING REQUIREMENT. (0 Credits)

LTGL 0901. LLM WRITING REQUIREMENT. (0 Credits)

LTGL 0906. CONTRACT DRAFTING IN SPANISH FOR INTERNATIONAL LAWYERS. (2 Credits)

LTGL 0929. CONTRACT DRAFTING AND NEGOTIATION FOR GRADUATE STUDENTS. (2 Credits)
This course will focus on the basic principles of negotiation and contract drafting. Special emphasis will be placed on financial and commercial contracts. The course will be divided into three parts. First, we will cover the basic principles of effective negotiation. Second, we will cover the basic principles of clear and unambiguous contract drafting including general principles of proper English usage. Finally, we will review and understand specific types of agreements. Particular attention will be given to the US financial system by studying Credit Agreements and other types of agreements typically used in financing transactions. The course is taught through a combination of lectures and hands-on drafting and negotiation exercises.
Attributes: LAWB, LAW.
LTGL 0963. COMMERCIAL CONTRACT DRAFTING IN THE FINANCIAL INDUSTRY (LLM ONLY). (3 Credits)

I. Course Objectives The course is designed to provide international LL.M. students with a basic understanding of commercial contract drafting in the U.S. financial market. The course will review fundamental common law contract principles and will provide the foundational knowledge for the students to be able to draft the principal documents involved in secured lending, structured financing, and derivatives. The course will also discuss contract drafting strategy so as to avoid litigation. The objective of the course is to give the student enough knowledge to be able to hit the ground running after obtaining their first legal position in the U.S. as a financial transactional lawyer after earning their LL.M. degree.

II. Course Format and Procedures The class will be a combination of lecture, class discussion, and negotiation workshop. Students are expected and encouraged to participate.

III. Class Format Each of the fourteen lectures will be divided as follows: 1. Contract Drafting Techniques (1 hour) 2. Financial Transaction subject matter (1.5 hours) 3. Tips for the practicing financial lawyer new to the industry (5-10 mins) 4. Ethics discussion for the newly practicing financial transactions lawyer (5-10 mins) 5. Questions from class members (10 mins)

London Dramatic Academy (LODA)

LODA 3000. INVESTIGATING LONDON: A RESEARCH MODULE. (2 Credits)
The course's main objective is to allow students to explore a specific research topic within the setting of London's rich and diverse cosmopolitan background. The topic will be discussed with the faculty before-hand and allow students to get hands-on research experience. The ultimate goal of the research module course is to produce a tangible piece of work (e.g., research paper, multi-media presentation, artistic contribution, etc.) that will further enhance the student's main academic area of focus.

Attribute: LCLA.

LODA 3005. MODERN ACTING. (3 Credits)
This practical acting course focuses on equipping students with new skills and styles in the craft of acting, enabling them to expand and develop existing abilities by practical work mainly on British plays of the 20th century.

LODA 3007. PRACTICAL SHAKESPEARE ACTING. (3 Credits)
In this course students develop a fluency in Shakespeare's rhetorical style through practical study, performing extracts from Shakespeare plays as well as speaking Sonnet. The course will enable students to place Shakespeare firmly in the context of his own time, as well as in ours.

LODA 3010. ACTING. (6 Credits)
Shakespeare's true rhetorical style is unfamiliar to many. This class gives you a new fluency in language. The work focuses on individual plays as well as on the Sonnets in order to place Shakespeare firmly in his own era as well as in ours. Culminating in a showing of work-in-progress this course also includes a visit to two productions by the Royal Shakespeare company in Stratford-upon-Avon.

LODA 3020. THEATRE HISTORY, LITERATURE & CRITICISM. (3 Credits)
Working mainly on British plays of the 20th Century, students learn new skills and styles that enable them to expand and develop existing abilities. In addition to the regularly scheduled class, students have individual weekly tutorials to work on a wide variety of speeches from a period spanning four centuries, 1600-2000.

LODA 3030. PHYSICAL TRAINING FOR ACTORS. (4 Credits)
Concentrates on the period 1580-1642 enabling students to have a clear sense of the theatre and the audiences for which Shakespeare and his contemporaries wrote. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

LODA 3040. VOICE TRAINING FOR ACTORS (LDA). (3 Credits)
A detailed examination of content and context to a major play from the 20th century and another from the Age of Shakespeare.

LODA 3050. BRITISH 20TH CENTURY FICTION: ASPECTS OF A NATION. (3 Credits)
This course focuses on that slippery notion, British identity, as it is both reflected and constructed in fiction. Students will move chronologically through a series of texts by male and female writers, including some whose "Britishness" is debatable, or at least complicated. Our texts will examine the supernatural, the sexual, the criminal, the financial, the artisitic and the overtly national nature of Britain. Locations will significantly include "elsewhere:" but much of the fiction is set not only in Britain, but London, so that students may examine the settings in detail for themselves. It is hoped that we may have a visit from the writer.
LODA 3060. BRITISH CULTURE. (3 Credits)
British Culture aims, in a practical and academic sense, to introduce students from the United States to the historical and social development of specific aspects of British culture using London itself as the classroom. Topics covered are: British Theater, concentrating mainly on Shakespeare and his ongoing influence on actors and acting from the 17th century to the present; British Art from Hogarth to Hockney, taught at the National and several other galleries and museums; British Architecture, which will entail examining the architecture of three iconic buildings together with their historical context and influence, and the British Novel, focusing on three representative works of different periods.

LODA 3070. 20TH CENTURY BRITISH HISTORY. (3 Credits)
An understanding of the history of the UK is vital to make sense of current events-from the loss of Empire, to wars, through immigration, Britain’s history is fascinating, and richly complex subject to study in country. This course examines how Britain has responded to political, economic, social and cultural forces during the 20th Century and how it is developing in the 21st Century. Topics analyzed and discussed will include: changing perceptions about the role of the state; the decline of empire; the effect of two world wars; economic strategies; multiculturalism, and gender. Using interdisciplinary examinations of social, economic and political history, the course will evaluate how the lives of ordinary British people have changed during the past century.

LODA 3080. BRITISH BROADCASTING TODAY. (3 Credits)
This course will examine the variety and range of programme genres on British TV and radio. Its current ecology will be studied as will its global impact. Reference will be made to the overall principles of British broadcasting and industry structures, which nurture them. New delivery systems, new approaches to regulation and the international market will be considered, as will scheduling issues. The course will begin with a survey of the development of the British broadcasting system, contrasting it with the US model.

LODA 3090. ANALYZING AND EXPLORING THE GLOBAL CITY: LONDON-MODERNITY, EMPIRE AND GLOBALIZATION. (3 Credits)
Cities around the world are striving to be "global". This course focuses on the development of one of the greatest of these global cities, London, from the nineteenth through to the twenty first century and investigates the nature and implications of it’s “globality” for it’s built environment and social geography. We will examine how the city has been transformed by the forces of industrialisation, imperialism and globalisation and consider the ways in which London and it’s inhabitants have been shaped by their relationships with the rest of the world. Students will gain insight into London’s changing identity as a world city, with a particular emphasis on comparing the city’s imperial, post-imperial, and transatlantic connections and the ways in which past and present, local and global intertwine in the capital. The course is organised chronologically: themes include the Victorian metropolis; London as an imperial space; multicultural London; London as a commercial centre of imperial, and transatlantic connections and the ways in which past and present, local and global intertwine in the capital. The course is organised chronologically: themes include the Victorian metropolis; London as an imperial space; multicultural London; London as a commercial centre of global capitalism; the impact of the Olympics; future scenarios of urban change. The course will mix classroom work with experiential learning, and will be centred on field trips to sites such as the 2012 Olympic sites, Whitehall, Greenwich, Spitalfields and Docklands in London's East End to give students the opportunity to experience it's varied urban geographies first hand and interact with these sites in an informed and analytical way.

LODA 4000. ALEXANDER TECHNIQUE. (0 Credits)
LODA 4010. ADV BRITISH THEATRE ACTING. (6 Credits)
LODA 4030. ADVANCED MOVEMENT. (3 Credits)
LODA 4040. ADVANCED VOICE TRAINING. (3,4 Credits)
This course will continue with an intensive voice training to further advance skills required by actors. Students continue to learn how to integrate various techniques (relaxation, breathing, alignment, pitch and resonance, tone, pace, range and articulation skills). This course will give the student opportunity to develop, individually as well as in a group, skills in precision of diction and variety of tone, and to help to develop an authentic voice.

LODA 4100. THEATRE OBSERVATION. (3 Credits)
The student will observe a whole professional rehearsal process from first read through final rehearsal; meet with experienced professional actors and director; observe them at work, question them and analyze the whole creative process. Students are expected to keep a journal of these rehearsals which will be graded as part of this course.

LODA 4800. LONDON INTERNSHIP. (1 Credit)
Participants in the London Internship Program will be enrolled in this section to meet UK immigration requirements for interns.

Management Science (Graduate) (MGGB)

MGGB 76A0. SUSTAINABILITY MINDSET. (3 Credits)
This course is for individuals ready to take on the greatest set of career and life challenges any of us will face: the challenges created by changes in the world’s climate and in the ecosystem which supports life on this planet. We will develop ways to take advantage of opportunities created by these changes and to avoid some of the problems they are already creating for our lives and careers. To do so we will develop “sustainability mindset” based upon awareness, passion, and action. The course will be in workshop format and is designed to work equally well for individuals with deep knowledge of climate-change/global-unsustainability and for those without such knowledge—the only thing needed is a commitment to take a hold of your life and to make a difference in the world. GLOBAL SUSTAINABILITY COURSE.
Attribute: ABGS.
Prerequisite: MGGB 6613.

MGGB 76AA. TRANSNATIONAL MGT & SYS OPER. (3 Credits)
The operations function for both manufacturing and service organizations is studied with the objective of the simultaneous optimization of the quality and productivity of the operating systems. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AB. PERSONAL LEADERSHIP DEVELOPM’T. (3 Credits)
A study of personal leadership development. Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AD. QUANT METH & DECISION ANALYSIS. (3 Credits)
A study of quantitative methods and decision making analysis. Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.
MGGB 76AE. TURNAROUND MANAGEMENT. (1.5,3 Credits)
In today's demanding and fast-paced environment, there is a premium on individuals who can produce outstanding results on a continuing basis. Business as usual is not sufficient to sustain organizational vitality over the long term. Increasingly, leaders are expected to deliver growth and productivity improvements while satisfying clients, motivating employees, and meeting the needs of a myriad of internal and external stakeholders. This course is designed to prepare students to lead organizations to higher levels of performance by applying critical elements of leadership theory and practice. Using actual cases and a variety of learning experiences, as discussed below, students will become familiar with, among other things, the following themes and their interrelationships: # Role of Leaders in Effecting Change # Motivating People For High Performance # Effective Time Management/ Meeting Dynamics # Building a Culture of Integrity and Ethical Behaviour # Strategy Development and Execution # Collaborative Decision Making # Organizational Alignment # Measuring Performance- “The Balanced Scorecard” # Developing Communication Skills # Balancing Stakeholder Interests # Personal and Professional Development. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AF. CAREER MANAGEMENT. (3 Credits)
A study of career management. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AG. MANAGING INNOVATION CHANGE. (3 Credits)
This course is geared towards deepening the understanding of the challenges, the techniques and the burdens associated with initiating and implementing major change in an organization. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AH. GETTING GREEN DONE. (3 Credits)
A study of getting green done. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AI. MANAGING TRANSNATIONAL FIRM. (3 Credits)
Organizations are complex systems. Different theories of designing structure and processes of such organizations are presented. The elements of the global competitive environment within which such organizations operate and ways of relating to this environment. Prerequisite: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AJ. GLOBAL LEADERSHIP 21ST CENTURY. (3 Credits)
A study of global leadership in the 21st century. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AK. CORP ENVIRONMENT SUSTAINABILITY. (3 Credits)
A study of corporate environmental sustainability. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AL. THE TOTAL QUALITY WAY OF LIFE. (3 Credits)
A study of the total quality way of life. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AM. INDUSTRY ANALYSIS. (3 Credits)
A study of industry analysis. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AN. SUSTAINABILITY IMMERSION SEMINAR. (3 Credits)
During spring break, we spend nine days with communities, agencies, and individuals in southern Mexico who are exploring sustainable economic development. Prerequisite: MGGB 6613.
Attribute: ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AP. PROJECT MANAGEMENT. (3 Credits)
This course is designed to enhance the MBA’s understanding of the theory and reality of decision making at the most senior levels of the corporate organization. It will focus on decision making among the Board of Directors, CEO/CFO and other senior management in a variety of contexts and will include international as well as U.S. perspectives. In addition to lectures and case studies, current CEOs, CFOs and Directors will share their experiences with the class. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.
MGGB 76AT. GLOBAL SUSTAINABILITY. (3 Credits)
This seminar is for individuals ready to become leaders in grappling with the most challenging issue of the 21st Century: dealing with the realities of the new world that is already being shaped by climate change and the many other aspects of global unsustainability. Guest speakers, readings, case discussions, and team projects will assist seminar members in finding and dealing with the business opportunities and risks created by climate changes and related aspects of global unsustainability. Prerequisite: MGGB 6613.

Attribute: ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AU. EMERGING MARKETS & SUSTAINABILITY. (3 Credits)
Emerging markets increasingly provide innovative models for sustainable business practices. This immersion trip, the third in a series for GBA students, will provide opportunities to encounter organizations in Peru which produce such innovations. We shall be in Peru over the midterm break. Before and after the trip, we shall hold seminar sessions for readings, guest lecturers, and trip preparations. In Peru, we shall live as a community through the resources of Community Links, Inc., a long-term partner of Fordham and many other schools engaged in such projects. Prerequisite: MGGB 6613.

Attributes: ABGS, ABIB.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AV. DEV THE SUSTAINABILITY MINDSET. (3 Credits)
This hands-on workshop/seminar is designed for individuals ready to take leadership roles in contributing to solutions to our species’ greatest challenge – dealing with the climate-change/global-unsustainability situation already impacting our lives, careers, businesses, and societies. It meets three Saturdays spread across the Spring term with two virtual meetings between the Saturdays. Prerequisite: MG 6613.

Attribute: ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AW. LEADERSHIP & TRUST. (3 Credits)
This course will cover some evolving concepts of leadership and then concentrate on how leaders build trust among followers and other stakeholders and how they architect high trust teams and organizations. The course will be centered around Dr. Hurley’s new book The Decision to Trust which was named one of the best leadership books of 2011 by the Washington Post. Prerequisite: MGGB 6613.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76AX. STRATEGIC MANAGEMENT & PHARMACEUTICAL IND. (3 Credits)
This course will introduce students to the skills and techniques in researching highly regulated industries using the pharmaceutical industry as an example. The industry is going through major transformations with the basic business model being threatened. This course will analyze the reasons for this and will help in defining newly emergent business models in the Pharmaceutical industry. The uncertainties created by turbulence in the political, economic, social and technoscientific systems will be highlighted as will the creative solutions being attempted. Prerequisite: MGGB 6613.

Attribute: ABHM.

MGGB 76AY. GLOBALIZATION, HEALTHCARE AND THE MARKET. (3 Credits)
This course will describe the different elements of the healthcare system and highlight the role of the payers, providers, patients, healthcare service workers and the industry (pharmaceutical, devices, supplies and diagnostics) within the context of a larger social system governed by local regulations and different demographic realities. While the emphasis will be on the United States key differences with other systems such as in Europe, Canada, Brazil and China will also be presented. The role of key associations in the US such as the AMA, IOM, PhRMA, patient advocacy groups and unions will be described. Emerging trends in the system in the United States will be presented as will the impact of other countries on the US.

Attribute: ABHM.
Prerequisites: GBA Waiver Fundamentals Mgmt with a score of 070 or MGGB 6613.

MGGB 76AZ. MANAGING FOR BUSINESS & BETTER WORLD. (3 Credits)
AYF - This course presents business from cultural, political, and philosophical perspectives. It introduces conceptual frameworks and provides practical solutions necessary for addressing 21st century management issues. This course will be offered as weekend intensive. This course will count toward Global Sustainability designation. Not open to students who have taken: MGGB 769M or CMGB 759M: Managing and Communicating Global Sustainability.

Attributes: ABGS, ABIB.
MGGB 76BA. DEMING’S THEORY OF ORGANIZATIONS. (3 Credits)
Students explore the management thinking of W. Edwards Deming in the context of management thinking generally, and management practice currently. Students read and conduct research as individuals and in small groups, comparing and contrasting, writing and discussing Deming’s ideas and how they apply in the business world today. By the end of the course, students should understand Deming’s theory of organizations and management, be able to articulate it, and help others understand how it could be used in companies today.

MGGB 76BB. STUDIES IN QUALITY MANAGEMENT. (3 Credits)
MGGB 76BC. JUDGMENT & DECISION MAKING. (3 Credits)
Decision-making is a central human activity, but how good are we at it? Scientific evidence suggests that our decisions are often biased and flawed, resulting in disappointing or even disastrous outcomes. This course draws upon contemporary research in economics and psychology to answer two questions: (1) how should we rationally approach decision-making, and (2) why is it that our actual decision-making is so often irrational? PREREQUISITE: MGGB-6613.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

Updated: 10-11-2017
MGGB 76BD. LEADERSHIP UNDER FIRE. (3 Credits)
Behavioral economics and best practices in strategy have shown us that pressure and uncertainty strongly influence leaders' decision making. This course uses film, fiction, and case material to understand when leaders' decisions can suffer and how they can change their approaches to achieve optimal results. Participants will leave the course knowing specific strategies to make and manage critical decisions under the most difficult conditions. This course will especially highlight the decisions made in a single case, the Battle of Gettysburg. We'll reconstruct battlefield decisions made under intense pressure with incomplete information. Besides film and readings, the course will include a daylong ‘rolling seminar’ during which we’ll travel to the Gettysburg battle site, during a class weekend, to understand those decisions and to experience the conditions under which they were made.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76BE. LEAD & BUILD TRUST ORG. (3 Credits)

MGGB 76BF. SOCIAL INNOVATION WORKSHOP. (3 Credits)

MGGB 76BG. NEW MODELS OF MGMT. (3 Credits)
This new course will explore the management systems, management processes, and global context required for the 21st-century. There is ample evidence that the "business as usual" management systems, processes, leadership, and goals of the 20th century are inappropriate for the realities of the 21st-century. Building upon the conceptual framework of three technologies (systems) of managing - traditional management, managing for quality and productivity, and managing for global sustainability - this course will explore the possibilities and emerging realities of management systems and leadership for global sustainability. Particular attention will be paid in the course to developing among class members the management skills necessary for this new system of managing and, most importantly, the mindset necessary to provide leadership for this emerging future.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76BH. HIST OF INTERNATIONAL BUSINESS. (3 Credits)
History of International Business explores the transition from an agrarian to a modern business economy of four nations: China, Russia/Soviet Union, Germany, and Japan. Each of these nations came to understand that economic modernization was vital for true independence in the world of the nineteenth and twentieth centuries. How they faced their unique challenges shaped the futures of their nations, often bringing down governments and forcing radical reformation of their societies. History of International Business will explore these efforts and relate them to the continuing challenges of the twenty-first century economy.

MGGB 76BI. TEAM DYNAMIC:CO-LOC&VIRT TEAM. (3 Credits)

MGGB 76BJ. FROM MANAGING CREATIVITY TO LEADING INNOVATION-A SURVEY COURSE. (3 Credits)
Knowing how and where to innovate and do so in a way that is sustainable financially, socially and environmentally makes you invaluable to any employer. In this course you will learn tools and gain insights that can equip you to understand the process of innovation at a deeper level, understand its complexity and the multiple levels it can and needs to occur to be successful (including individual creativity, product/service innovation, business model innovation, governance innovation, social/sustainable innovation at the systems level).

MGGB 76BK. THE ROSE PROGRAM. (3 Credits)
This course is intended for students who want to learn more about regulation in the financial services industry and want to get actively involved in shaping the regulatory space. Top performing project teams will present their proposals to a panel of Wall Street executives and will be invited to Washington, DC (all expenses paid) to present to regulators. Prerequisite: MGGB 6613.
Prerequisite: MGGB 6613.

MGGB 76BL. HISTORY OF LABOR IN AMERICA. (3 Credits)
This course will examine the development of the labor movement in America starting with its colonial roots in the eighteenth century, through the rapid growth of the movement in the nineteenth century as America industrialized, to the increasing politicization of the movement as it reached the height of its influence in the twentieth century and ending with an analysis of the modern decline of organized labor. Discussions will include the changing legal climate within which the unions operated, the often hostile business climate against which the unions organized, and the struggles against internal corruption within the unions. PREREQUISITE: MGGB 6613.
Prerequisite: MGGB 6613.

MGGB 76BM. INNOV IN BUSINESS & ENERGY. (3 Credits)
This course aims to frame and critique opportunities for business to create innovations in energy systems. It discusses how contemporary energy systems have evolved and how energy infrastructures vary across regions of the world. It also examines how business decision makers can think about choices of energy and energy systems by encouraging students to think broadly in terms of innovation possibilities.
Attribute: ABGS.

MGGB 76BN. JESUIT LEADERSHIP & CULTURE. (3 Credits)
Experience the Spiritual Process that made Saint Ignatius of Loyola; Reflect and Discern on your own Leadership Style and how it compares to the Jesuit Culture of Leadership; Understand the Importance of Team Building in recreating a successful Walking Pilgrimage; Learn the Foundation of Jesuit History.

MGGB 76BO. URBAN LAB. (4.5 Credits)
This interdisciplinary course explores groundbreaking issues in urban research with the goal of inspiring new ways to think about the city's future and Fordham's role in helping to shape that future. The course includes a lab component focused on applied research and scholarship, deep engagement with the urban community, and the development of innovative solutions. Students will work with civic and community organizations, public agencies and urban experts to identify, evaluate, and implement effective policies and programs in specific topic areas.

MGGB 76BP. CURRENT TOPICS IN HEALTHCARE. (3 Credits)
Healthcare management operates in a very dynamic environment. As healthcare policies change with new administrations so do the priorities of providers and payers. The patients feel the impact of these changes the most while the industry has to continuously re-assess the validity of its business models. Further, new technologies, scientific breakthroughs and system innovations keep healthcare administrators on their toes. This course provides an opportunity to discuss the most prevalent issues in healthcare as they are happening. Guest lecturers and professors provide their views on different challenges that the healthcare industry faces including policy, operations, risk taking and decision-making uncertainties and the developing solutions. Students will participate in these discussions and do a final paper on one of the topics of their choosing. Each formal lecture will be followed by one or two in-depth discussion sessions.

Updated: 10-11-2017
MGGB 76BQ. ENTREPRENEURSHIP BUBBLE. (3 Credits)
Entrepreneurship Bubble: Coworking, Incubators, Startup contests, and the Purpose Bubble—This course provides a focus on the entrepreneurial and innovation bubbles as well as the shortcomings of startup structures. Topics include sources of funding and organizing such as: incubators, coworking spaces, open floor plans, angel investors, venture capital, IPO’s, and governmental mechanisms. Upon completion, students will be able to effectively analyze the weakness of an entrepreneurial venture and innovation processes.

MGGB 76BR. HEALTH CARE OPERATIONS MGT. (3 Credits)
Health Care Operations Mgt is a discipline that integrates scientific principles of operations management to determine the most effective and efficient methods to support patient care delivery. The biggest challenge in health care is to provide high quality care while at the same time keeping cost down. As such, all health care sectors must be driven by process management, quality improvement, information technology, knowledge management, and resource alignment. This course addresses the challenge in many ways, from the design of patient flow to streamlined process, from resource management to supply chain management, from quality control to patient safety, from forecasting to capacity planning, from continuous improvement to project mgmt.

MGGB 76BS. BLOCKCHAIN: INDUSTRY DISRUPTOR & CREATOR. (3 Credits)
Blockchain (the technology underlying Bitcoin and Ethereum) is a transformative technology that will up-end existing industries and spawn completely new ones. In this course, students will study the fundamentals of blockchain and examine its potential impact on industries as diverse as banking, energy, music and non-profits.

MGGB 76A. LEADERSHIP FOR THE 21ST CENTUR. (3 Credits)
The challenges of leading organizations, especially businesses, in the current era are vast. Globalization requires competitive strategies and cultural sensitivity, the worsening environmental crisis calls for sustainable practices, and increasing social problems and inequalities increase pressure for social responsibility beyond traditional profit making. Many current management paradigms have to be rethought and remodeled to deal with these challenges effectively. In this course we look at challenges to organizations on the systemic level (environmental and social pressures), the organizational level (employee commitment and stakeholder trust), and the individual level (happiness) and examine ways of dealing with them proactively. Prerequisite: MGGB 6613.
Attribute: ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76B. LEADERSHIP FOR UNCERTAIN TIMES. (3 Credits)
We will study time tested techniques to learn how to flourish in times like these of uncertainty and change. Using the great thinkers as our guide, we will attempt to develop strategies of survival to face today’s new realities. Taking a multidisciplinary approach to leadership, readings will include Managing in Times of Great Uncertainty by Peter Drucker; Mastery by George Leonard; selections from Mary Parker Follett; James Collins, Marshall McLuhan and Edgar Allen Poe. Prerequisite: MG 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76C. SPRTL&REL CONTRIB GLOBAL SUS. (3 Credits)
In the spirit of the “Stockdale Paradox” (Collins, 2001), this seminar is for folks who are willing “to confront the brutal facts” of climate change and global (un)sustainability and “yet (will) never lose faith” that we can still take meaningful actions to mitigate many of the tragic consequences of our parent’s and grandparent’s (and our professors) failures to heed the warnings contained in such books as The Limits to Growth (1972). The seminar accepts that climate change and global (un)sustainability are very, very serious situations, are intertwined with many of the other pressing issues of the new millennium, and are calls to action for all of us. That is, the issues of financial and economic crisis in America and around the world, the enormous inequality of wealth in the world and in America, deforestation, desertification, ocean warming, melting glaciers, the progressive disappearance of species, the mutual tragedy of international terrorism, etc., are intertwined with the issues of climate change and global (un)sustainability and are yours and my problems to be dealt with today—not merely someone else’s problems to be solved for us in some distant future. The seminar is one of a series of seminars and courses devoted to developing tools and concepts for contributing to a more sustainable world and to taking actions to make such contributions. THEME: The seminar/workshop’s theme is that the global (un)sustainability situation can usefully be viewed as a “spiritual problem” and that spiritually (and religiously) based actions can be “part of the solution.” PURPOSE: The purpose of the seminar is to find out how such spiritually (and religiously) based actions can be taken and to help to bring them into being. CONTENT: The seminar will focus on (1) how the wisdom of the world’s great spiritual and religious traditions call for actions to reverse the tragic ways of being in the world that have taken our spesious to the very precarious position we are now in (and that has already led to the recent extinction of many other species—the sixth great extinction—the first created by mankind), (2) what is currently being done by various spiritual and/ or religious groups to create a more sustainable world, (3) what more could be done to leverage the ability of the world’s great spiritual and religious traditions to make even greater contributions, and (4) what the seminar members can do now to make these greater contributions happen. Prerequisite: MG 6613.
Attribute: ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76D. MGT SKILLS FOR ENTPRPRNRS. (3 Credits)
This is a survival course for the owner who is directly responsible for the customers and the employees. The course will examine small businesses that have succeeded and the techniques used to achieve this status. The successful implementations of these techniques are the result of good management. We will then examine the people skills needed for a successful implementation. Prerequisite: MGGB 6613.
Attribute: ABEP.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76E. INTL SUSTAINABILITY-MEXICO. (3 Credits)
During spring break, we spend nine days with communities, agencies, and individuals in southern Mexico who are exploring sustainable economic development. Prerequisite: MGGB 6613.
Attributes: ABEP, ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 76F. SPORTS MARKETING. (3 Credits)
A study of sports marketing. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.
MGGB 769G. THE EVOLUTION OF BUS IN 20TH C. (3 Credits)
Evolution of Business explores the economic development of three
nations—Russia/Soviet Union, Germany and Japan—from the late
nineteenth century through the mid twentieth century. The course
emphasizes interrelationship between the governments of each nation
and their business communities—analyzing the impacts of the different
government policies on the business environment. Prerequisite: MG
6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.

MGGB 769H. KNOWLEDGE MANAGEMENT. (3 Credits)
A study of knowledge management. Prerequisite: MG 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.

MGGB 769J. SOCIAL ENTREPRENEURSHIP. (3 Credits)
This course discusses ways of creating social value through the
principles of entrepreneurship. Prerequisite: MGGB 6613.
Attributes: ABEP, ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.

MGGB 769K. HISTORY OF BUSINESS. (3 Credits)
This course will focus on the interrelationships between the business
community and the development of the United States of America. The
course is divided into three sections that will cover such topics as
the colonization of America by the Europeans, industrialization in the
United States and the civil war and creating an environment of business
regulation. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.

MGGB 769L. EMOTIONAL INTELLIGENCE. (3 Credits)
A study of emotional intelligence. Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.

MGGB 769M. MGMT & COMM FOR GLOB SUST: SOC & ENV
RESPONSIBLE BUS. (3 Credits)
This is a foundation course for those interested in learning about
global business sustainability and power and influence strategies that
are effective within business organizations and in the marketplace.
Readings, guest lectures, films, and case studies of for-profit companies
and entrepreneurial ventures will demonstrate the strategic decision-
making, communication, and negotiation challenges and opportunities
faced by corporate leaders and entrepreneurs as they develop more
socially and environmentally responsive business models. Power
and influence strategies and skills related to effecting change toward
global sustainability will be emphasized. The course will help class
members become change leaders driving organizational change of
any kind (economic, environmental, social, and other). This course is not
a “read-and-take-the-exam course.” Instead, class members will
develop and present (orally and in writing) an individual project – for
example, an analysis of a particular company’s or sector’s change
strategy, or a proposal for advancing change in their own company or
other organizational setting. We seek students seriously committed
to learning how to use problem analysis, stakeholder mapping, and systems
thinking to diagnose business opportunities and obstacles, and then
apply strategic decision making, communication, and negotiation skills to
make change happen. Prerequisite: MG 6613. Also offered as CM 759M.
Attribute: ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.

MGGB 769N. INTERNATIONAL MANAGEMENT. (3 Credits)
The most important entity in international business today is the
multinational corporation (MNC). Its strategies, structures, and
processes are largely the context within which everything else in
international business takes place. This course provides an in-depth and
current understanding of the strategies, structures, and management
processes that are associated with MNCs. International strategies and
organizational designs are currently in a period of high transition. To a
large extent, the dominant designs of the recent past are gone, and new
dominant designs have not yet emerged. It would appear that there is
currently a lot of experimentation going on in multinational corporations,
both in terms of strategy and, even more, in terms of organizing to
implement such strategy. No one knows when this period of transition
might come to an end or what the dominant organizational forms will
look like when this occurs. As a result of the above situation, the course
seeks to provide students with the conceptual knowledge required to
understand and critically evaluate what is going on in international
firms today. It is not a time to blindly study best practices or the latest
thing firms are attempting to do. The approach will be to first study and
discuss the theoretical frameworks that exist and then attempt to apply
these to international cases and current situations. The goal is to develop
insight and capability that has lasting value, even in a field that continues
to change rapidly. The course should be of value to anyone interested
in managing or working within a multinational corporation. Prerequisite:
MGGB 6613.
Attribute: ABIB.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.

MGGB 769O. INNOVATION: CURRENCY OF COMPET. (3 Credits)
A study of innovation and currency of competition. Prerequisite:
MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.

MGGB 769P. CHANGING LEADERSHIP PARADIGMS. (3 Credits)
In this course we look at challenges to organizations on the systemic
level (environmental and social pressures), the organizational level
(employee commitment and stakeholder trust), and the individual
level (happiness) and examine ways of dealing with them proactively.
Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.

MGGB 769Q. CORPORATE SUSTAINABILITY. (3 Credits)
This course is for students who want to understand how businesses
incorporate environmental and socially responsible agendas into their
management and marketing strategies. Prerequisite: MGGB 6613.
Attribute: ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.

MGGB 769R. SUSTAINABILITY MARKETING. (3 Credits)
A study of sustainable marketing Prerequisite: MGGB 6613.
Attribute: ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a
score of 070.
MGGB 769S. CREATIVITY & ENTREPRENEURSHIP. (3 Credits)
Many different factors contribute to becoming a successful entrepreneur. Prominent among these factors are the ability to think creatively and the skill at operationalizing the results in innovative ways. This seminar will take a close look at these abilities and skills to explore how 'creativity' contributes to entrepreneurial success. The course has several components. Prerequisite: MG 6613.

Attribute: ABEP.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 769T. ME, INC. (3 Credits)
If you were to conduct your life like a well-run business, what would it look like? The key to unlimited personal and professional success in daily life is in incorporating the best practices of exceptional companies into everyday living. This course begins by sharing basic business principles of the most successful and enduring companies and how they can be applied to your personal life. From there, this practical course will show you how to envision the kind of success you want and craft an "exceptional living plan"—much like a business plan—that will get you there.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 769U. CORPORATE DEVELOPMENT. (3 Credits)
A study of corporate development. Prerequisite: MGGB 6613.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 769V. APPLYING SUCCESSFUL BUS PRACT. (3 Credits)
Overall, this course will help students build their careers while managing the delicate balance between personal and professional interests.

Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 769W. ARTS & GLOBAL SUSTAINABILITY. (3 Credits)
A study of arts and global sustainability

Prerequisite: MGGB 6613.

Attribute: ABGS.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 769X. CORPORATE GOVERNANCE. (3 Credits)
A study of corporate governance. Prerequisite: MGGB 6613.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 769Y. VALUE INNOVATION. (3 Credits)
This course will introduce students to blue ocean strategy and value innovation: the strategic logic of high growth. Students will learn how to develop value innovation strategies that reshape industries and lead to the creation of new market space. The course will include lectures, class team work, and case studies. Prerequisite: MGGB 6613.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 769Z. ALLIED EFFORT. (3 Credits)
A study of allied efforts in management. Prerequisite: MGGB 6613.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 869A. LEADERSHIP FORUM. (1.5 Credits)
Do you think you can lead? Leading in today's complex environment is probably more of a challenge than at any other time in our history. The challenge is distinguishing between a true leader and a good manager. Additionally, how do leaders handle work/live balance? The Fordham Leadership Forum brings together many successful CEOs to articulate their road to success and the obstacles they needed to overcome as well as great institutional leaders who will discuss how fortuity lead to their becoming heads of their respective institutions. Who should take this course? If you intend to eventually run a company, begin your own, or move up within the institution in which you are presently employed, this is probably the right course for you. Sander Flaum is well known as a leader within the pharmaceutical industry having been the Marketing Head of a large pharmaceutical company as well as CEO of the No. 2 global advertising agency in healthcare. He now runs a marketing and sales effectiveness firm which also trains the "rising stars". Prerequisite: MG 6613.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 869B. LEADING GLOBAL CORPORATIONS. (1.5 Credits)
In this course we will focus on three specific areas: managing large-scale organizational change, creating cultures of integrity for sustainable growth and developing the inner qualities of the global leader.

Prerequisite: MGGB 6613.
Attribute: ABIB.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 869C. TRANSNATIONAL MINDSET. (1.5 Credits)
Transnational mindset for the GPMBA students.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 869D. RESEARCH FOR FINAL PROJECT. (1.5 Credits)
Under the guidance of a faculty member(s), students will work as a team to analyse and dissect issues and generate recommendations for each group member and their specific action plan. This course will thus allow for some type of "return on investment" for the student. Prerequisite: MGGB 6613.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 869E. IRAQ WAR STRATEGIC LEARNING 1. (1.5 Credits)
Iraq War-Strategic Learning 1 (1.5 credits) - An Analysis of the War in Iraq. For this course you can take one or two of the class meetings listed below. Dr. Hurley will specify which additional readings and assignment you will do from the list. Module 1: Tuesday Nov 15 9am to 1pm A politics and stakeholder perspective on the War in Iraq Module 2: Tuesday Nov 15 7pm to 10pm Decision making biases applied to the War in Iraq Module 3: Wednesday Nov 16 10am to 5 pm Strategy formulations and the War in Iraq (Process and Approaches) Module 4: Thursday Nov 17 9am to 5pm Strategy Execution and the War in Iraq Prerequisite: MGGB 6613.

Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.
MGGB 869F. IRAQ WAR STRATEGIC LEARNING 2. (1.5 Credits)
Special Topics: Iraq War-Strategic Learning 1 (1.5 credits) - An Analysis of the War in Iraq. For this course you can take one or two of the class meetings listed below. Dr. Hurley will specify which additional readings and assignment you will do from the list. Module 1: Tuesday Nov 15 9am to 1pm A politics and stakeholder perspective on the War in Iraq Module 2: Tuesday Nov 15 7pm to 10pm Decision making biases applied to the War in Iraq Module 3: Wednesday Nov 16 10am to 5 pm Strategy formulations and the War in Iraq (Process and Approaches) Module 4: Thursday Nov 17 9am to 5pm Strategy Execution and the War in Iraq Prerequisite: MGGB 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 869G. ENTR & NEW BUSINESS START-UPS. (1.5 Credits)
Focuses on the initiation and development of the first stages of a new business. Students are required to search out business opportunities and develop a business plan. Examines the particular problems of new business start-ups, emphasizing financing arrangements. Prerequisite: MGGB 6613.
Attribute: ABEP.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 6610. INTRO TO MODERN MANAGEMENT. (1 Credit)
This course introduces students to the current challenges managers are facing. It provides frameworks of competing theories on human nature and explores their consequences for managing organizations.
Mutually Exclusive: MMGB 6610.

MGGB 6613. FUNDAMENTALS OF MGMT. (3 Credits)
MBA CORE COURSE Presents theories of designing the structure and processes of organizations, as well as the elements of the global competitive environment within which such organizations operate and ways of relating to this environment. Explores critical issues related to the individual and the firm. Focuses on defining management's role and responsibilities in the continual improvement of quality, productivity, and the competitive position of the enterprise.
Mutually Exclusive: MMGB 6613.

MGGB 6627. OPERATIONS MANAGEMENT. (3 Credits)
MBA CORE COURSE Studies the operations of both manufacturing and service organizations with the objective of simultaneously optimizing the quality and productivity of the operations systems. Develops techniques for strategic planning and system design, such as quality control, aggregate and capacity planning, project planning, scheduling and control, material and inventory management and just-in-time production.
Mutually Exclusive: MMGB 6627.

MGGB 7600. ANATOMY OF DECISIONS. (3 Credits)
Examines how modern managerial support systems are evolving from a reliance on data and information to the utilization of knowledge and wisdom. This transition both demands and creates new approaches to decision-making.

MGGB 7601. FUND MGMT ACROSS CULTURES. (4.5 Credits)
MGGB 7603. GROWING THE FIRM TO MULTINAT'L. (4.5 Credits)
MGGB 7605. PROCESS CONTROL. (3 Credits)
Introduces and, in an applied framework, examines modern statistical evaluation and control methods to enhance the performance of all productive processes. To improve such processes, managers must evaluate ever-present variability to determine process stability and distinguish normal fluctuations from special disturbances. Prerequisite: MGGB 6627.
Prerequisites: MGGB 6627 or GBA Waiver Operations Mgmt with a score of 070.

MGGB 7610. LEADERSHIP AND CHANGE. (3 Credits)
Prepares students to meet the requirements of today's economy, where leadership demands a combination of personal capabilities and insights, as well as in-depth knowledge of organizational change processes and practices. Through readings, cases, class discussions, self-assessment exercises, and leader-directed learning projects, participants gain important insights into their own management style and develop essential knowledge and skills for successful implementation of major change initiatives. PREREQUISITE: MG 6613.
Attribute: ABEP.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 7614. MGMT OF SYSTEMS & OPERATIONS. (4.5 Credits)
MGGB 7615. CROSS CULTURAL NEGOTIATION AND COMMUNICATION. (3 Credits)
Explores how cultural differences and international settings affect business communication and negotiation—key skills for managers who seek to get solutions accepted and implemented. The dimension of culture is used to increase the student-managers' self-awareness and reflection and to build flexibility in their conceptual understandings and skills. Emphasizes specific strategies, styles and techniques that help the negotiator/communicator.
Attributes: ABGS, ABIB.

MGGB 7616. TRAINING AND DEVELOPMENT. (3 Credits)
An introduction to preparing, offering, and evaluating interventions for personnel training and organizational development. Topics include needs assessment, adult learning, instructional design, and transfer of training from the corporate classroom to the work site.

MGGB 7617. ASSESSMENT IN HUMAN RESOURCES. (3 Credits)
Prepares students to conduct measurements, assessments, and reports of human resources programs and practices. Topics include job analysis, organizational development surveys, compensation reviews, organizational culture, and benchmarking.

MGGB 7618. ORGANIZATION THEORY. (3 Credits)
While discussion of business is often couched in economic terms, more often than not business is influenced by sociological and psychological factors. In this class, you will study the key dimensions of what is known as "Macro OT" (sociological perspectives) and "Micro OT" (psychological perspectives). Macro OT coverage will include Institutional Theory (legitimacy, certifications, and isomorphism), Network Theory (structure, position, tie type and network dynamics), and Social Movement Theory & Media Construction (performances). Micro OT coverage will include Search Theory and Organizational Learning Theory (exploration vs. exploitation), Decision-making Biases (confirmation bias, anchoring, etc.) and Agency Theory (monitoring and incentive alignment). Other Meso Theoretical Constructs covered include Identity, Myths and Artifacts, Roles and Deviance/Conformity.
MGGB 7619. LEADING ORGANIZATIONAL CHANGE. (3 Credits)
Students learn to analyze organizational environments to identify challenges and constraints, to understand stakeholders’ attitudes about the status quo, to understand and manage change according to several change models, and to align business strategies with organizational systems and structures. Elements of strategy, planning, and implementation are included.

MGGB 7621. STUDIES IN QUALITY MGMT. (3 Credits)
Applies knowledge of Quality Management to actual human systems, either at the place of students’ employment or elsewhere. Working individually or in teams, students prepare Quality Management-related studies and present their final reports to faculty members or client companies. Prerequisites: MG 7605 and MG 7610.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 7622. CONSULTING SKILLS. (3 Credits)
Students develop the skills involved in each phase of the consultation process: contracting with clients, gathering critical performance data, diagnosing the information for improvement opportunities, providing feedback to the client, and building strategies for intervention. This course prepares students for different types of client-consultant relationships, internally and externally.

MGGB 7623. CONTEMPORARY ISSUES IN HR. (3 Credits)
This course provides an in-depth exploration of a current topic, issue, or practice in the area of strategic human resource analysis. The course uses cases, readings, and applied exercises to examine the topic and its implications for HR practice.

MGGB 7625. TEAM DYNAMICS. (3 Credits)
Focuses on examining and developing interpersonal skills consistent with modern business’s evolution toward an integrated, self-managing, team-oriented structure. This structure emphasizes group problem-solving, interpersonal communication and leadership among peers. There are two face-to-face class sessions. The rest of the class is taught through asynchronous online modules. Prerequisite: MG 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 7626. BIMBA: GLOBAL POLICY. (4.5 Credits)

MGGB 7635. INTL DIMENSIONS OF BUS. (3 Credits)
Uses case studies to explore various strategies of participation in the global business environment and the ways in which multinational corporations and transnational cooperative ventures create new managerial challenges and opportunities. Prerequisites: MGGB 6613 and FNGB 6411.
Attribute: ABIB.
Prerequisites: (MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070) and (FNGB 6411 or GBA Waiver Fin Environment with a score of 070).

MGGB 7637. ENTREPRENEURIAL MINDSET. (1.5,3 Credits)
Focuses on the initiation and development of the first stages of a new business. Students are required to search out business opportunities and develop a business plan. Examines the particular problems of new business start-ups, emphasizing financing arrangements. (Former title Entrepreneurship and New Business Ventures)
Attributes: ABEP, ABGS.

MGGB 7638. CAREER MANAGEMENT. (3 Credits)
Helps students plan and control their personal and career development by surveying theoretical concepts and research findings. Through discussions, case analyses and interpretation of diagnostic tests, students acquire the personal insights necessary to complete a self-assessment and career/life plan.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 7641. BRITISH ECONOMY & BREXIT. (3 Credits)
This intensive course is designed to give students an in-depth understanding of Brexit including the implications for the British economy and the companies that operate in it. Students meet three times as a class in preparation for travel to England, scheduled for May 10-20, 2017. This course may count toward a Finance or Management concentration. Please see your program director or dean-adviser for further registration information.

MGGB 7642. MOTIVATION & MANAGEMENT. (3 Credits)
Concentrates on prominent theories of motivation, as well as implementation skills needed to deal with issues such as evaluation and feedback, compensation and incentives and cultural and group influences. Emphasizes intrinsic Motivation Theory, referring to the innate desire to be effective at one’s job. Uses day-to-day exchanges with employees, including those apparently suffering from a lack of motivation. Reviews current research linking managerial styles and group productivity. Prerequisite: MG 6613.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 7660. STRATEGY. (3 Credits)
MBA CORE COURSE Focuses on defining an organization’s mission, establishing its objectives, developing strategies for achieving those objectives and assuring implementation and continual updating of long-term plans. As the capstone of the MBA Program, this course integrates the knowledge and skills developed in the core courses. (Previous title: Business Policy)
Mutually Exclusive: MMGB 7660.

MGGB 7661. STRATEGY. (3 Credits)
This course introduces the strategic management framework integrating the perspectives of different functional areas in understanding a firm’s performance. Learning goals involve the development of diagnostic reasoning skills, the practice of strategy communication skills and the application of a toolkit to analyze issues relevant to the development of an appropriate strategy for a firm. Lectures, case studies and project work are part of the pedagogy of this course.

MGGB 7670. MGM OF HUMAN RESOURCES. (3 Credits)
Studies the personnel function in private and public organizations from the viewpoint of the manager. Topics include recruiting, employment, wage and salary administration, management development, performance appraisal, job evaluation and design, career development, employee turnover, manpower planning, training and affirmative action.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

Updated: 10-11-2017
MGGB 7671. INDUSTRY ANA & STRAT PLN. (3 Credits)
Discusses techniques for analyzing the long-term attractiveness of different industries and develops a framework to understand the nature of competition and the relative competitive position of firms within industries. Emphasizes global factors that affect industry attractiveness and competitive positioning. In particular, highlights the impact of differences in and the competitive advantages of nations and trade, as well as the development of global standards for the long-term profit potential of industries. While this course emphasizes the industry level, it also includes competitive factors of firms within industries to introduce a framework for strategic planning at the firm level. Prerequisites: MGGB 6627 and FNGB 6411 and MKGB 6710.
Attributes: ABIB.
Prerequisites: (FNGB 6411 or GBA Waiver Fin Environment with a score of 070) and (MGGB 6627 or GBA Waiver Operations Mgmt with a score of 070) and (MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070).

MGGB 7673. STRATEGY IMPLEMENTATION. (3 Credits)
Addresses how managers turn strategy into reality. Increasing evidence suggests that the best companies in globally competitive industries excel through superior implementation of strategy more often than through possession of a superior strategy. Key issues addressed include the acquisition, allocation, and use of resources; organizing for performance; selecting and motivating individuals; and controlling strategy implementation. Prerequisite: MGGB 6627.
Attributes: ABEP, ABGS, ABIB.
Prerequisites: MGGB 6627 or GBA Waiver Operations Mgmt with a score of 070.

MGGB 7675. STRATEG MGMT INNOV & TEC. (3 Credits)
Investigates the theoretical and practical issues of managing innovations and technology to achieve competitive advantage. Case studies provide an understanding of how technologically-dependent organizations succeed. Prerequisites: MGGB 6627 and FNGB 6411 and MKGB 6710.
Attribute: ABEB.
Prerequisites: (MGGB 6627 or GBA Waiver Operations Mgmt with a score of 070) and (FNGB 6411 or GBA Waiver Fin Environment with a score of 070) and (MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070).

MGGB 7677. SYST DYNAMICS (IB). (3 Credits)
Introduces the group model-building process that world-class firms use to improve their institutional learning and performance. Role-playing games and live case studies challenge participants' strategic thinking about global transformations. Course participants build very user-friendly graphical computer models of international Business (IB) strategic situations to generate new insight about transnational strategy design and implementation. Prerequisite: MG 6613.
Attributes: ABGS, ABIB.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 7678. STRAT MGMT GLOBAL SUPPLY CHAIN. (3 Credits)
Increased globalization, the growth of the Internet and the potential for e-commerce have changed the way firms compete. Innovations in the management of supply chains have given rise to new business models and new sources for value creation in a firm. Collaborative information technology-enabled commerce (e-commerce) is likely to change conventional thinking regarding supply chains. Supply chain management (SCM) represents a philosophy of doing business that stresses processes and integration. It is a system approach to managing the entire flow of information, materials, and services from raw materials suppliers through factories, warehouses and distribution channels to the end-customer. Managers must understand how to optimize the value-creating potential of supply chains by understanding how they work, the impact of new technologies, and their design/redesign. This course prepares students for these tasks and covers operational coordination within a firm; inter-function, inter-firm, and international coordination; the role of new information technologies; and the role of supply chain intermediaries. This is a team-taught course featuring lectures, cases, and simulations. Prerequisite: MGGB 6613.
Attributes: ABGS, ABIB.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 7679. SYSTEM DYNAMICS II (IB). (3 Credits)
Introduces the group model-building process that world-class firms use to improve their institutional learning and performance. Role-playing games and live case studies challenge participants’ strategic thinking about global transformations. Course participants build very user-friendly graphical computer models of international Business (IB) strategic situations to generate new insight about transnational strategy design and implementation.

MGGB 7699. SPEC TOPICS IN SYS MGMT. (1.5-3 Credits)
Offered from time to time, this course permits faculty and students to explore a management systems topic of particular interest. The specific topic and prerequisites are announced at the time the course is offered.

MGGB 7811. MANAGEMENT INTERNSHIP. (1-3 Credits)
This course is intended for students with a Management internship for this trimester that wish to receive academic credit for it. The course will begin with an orientation session and will be followed by additional meetings with students. The course instructor will provide additional details to enrolled students.

MGGB 8000. CROSS-CULTURAL MGMT. (1.5-4.5 Credits)

MGGB 8610. SEMINAR IN MANAGEMENT. (3 Credits)
Offered from time to time, this seminar is designed to give advanced students opportunities to conduct integrative research, writing, and discussion on selected issues in managing complex organizations. Under faculty supervision, in-depth studies are conducted by students, either individually or in groups. May be offered for fewer than three credits. Prerequisites: MGGB 6613 AND TWO MANAGEMENT SYSTEM ELECTIVES.
Prerequisites: MGGB 6613 or GBA Waiver Fundamentals Mgmt with a score of 070.

MGGB 8999. INDEPENDENT STUDY. (3 Credits)
Management Science (Undergraduate) (MGBU)

MGBU 2142. STATISTICAL DECISION-MAKING. (3 Credits)
MGBU 3223. PRINCIPLES OF MANAGEMENT. (3 Credits)
This course introduces the student to the management process within an organization. Special emphasis is placed on the role of the first line supervisor in balancing, coordinating and integrating individual and organizational needs. Other subjects covered are the development of management thought, the role of the supervisor as a decision maker and the processes of planning, organizing, leading and controlling organizational activities.

Attribute: BUMI.

MGBU 3226. SPECIAL TOPIC: EXPLORING ENTREPRENEURSHIP. (3 Credits)
An introductory course that allows students to discover and grasp the nuances of entrepreneurship - particularly how to think, feel, and act differently - which are the three cornerstones of the new Entrepreneurship program. Using a variety of reading assignments, case studies, and interactive projects, students will learn how to identify and evaluate potential business ideas, push the limits of their imagination and creativity, challenge the status quo, and learn to embrace change.

Attributes: ENT, NMDD.
Prerequisites: MGBU 3223 or MGBU 3222 or MGBU 3224.

MGBU 3227. SPECIAL TOPIC: INNOVATION AND RESILIENCE. (3 Credits)
This course focuses on the process of innovation, including the resilience required to weather inevitable ambiguity, risk, mistakes, and even failures along the journey. Topics include: identifying opportunities, managing creativity, evaluating ideas, decision making in uncertain environments, and resilience.

Attributes: ENT, NMDD.
Prerequisite: MGBU 3226.

MGBU 3228. SPECIAL TOPIC: EXECUTING ENTREPRENEURIAL VISION. (3 Credits)
An action-oriented course that requires students to a) develop and continually improve upon a solid-but dynamic-business plan, and b) go beyond the classroom to launch a new venture. This course should be taken as the capstone course of the Entrepreneurship concentration as it integrates what has been learned and built in previous courses and challenges students to transform their business ideas into legitimate businesses.

Attribute: ENT.
Prerequisites: MGBU 3226 and MGBU 3227.

MGBU 3233. ST: START-UP VENTURE EXPERIENCE. (3 Credits)
Intern duty and weekly seminar during which students analyze their work experience with a faculty member. Selected readings, case analysis, and written projects. The course will be taught in a business incubator, and include interaction with startup entrepreneurs. The focus will be real world exposure to the issues and uncertainty that exists for a startup with limited resources.

MGBU 3234. ST: HOW TO CHANGE THE WORLD. (3 Credits)
Do you long to live with meaning and purpose, applying your talents to what really matters to yourself and the world? This class explores "mission" in life through social entrepreneurship to make this world a better place. We will examine sustainable businesses, fair-trade and mission-driven leaders, while exploring our own missions.

MGBU 3235. ST: INSIDE TECH VENTURES. (3 Credits)
This experiential course is designed to give students the opportunity to gain an in-depth look and understanding of tech-based ventures from inception to exit. The merging of Entrepreneurship and Technology is - and will continue to be - the foundation of business for the foreseeable future. The course includes a one week intensive in Silicon Valley (required) hosted by NASDAQ Entrepreneurial Center. The overall objective is for students to be better prepared to take on a leadership role in a tech-based venture to maximize profitability and impact.

MGBU 3236. ST: THE START UP CALLED YOU: UNLEASHING YOUR LEADERSHIP POTENTIAL. (3 Credits)
Choosing a meaningful career or "discovering one's calling" can be a challenging and tricky process requiring self-awareness and leadership skills to navigate one's path to career success. In this course, a follow up to The Principles of Management, students learn theoretical frameworks and research-based methodologies and techniques to address these challenges effectively. Course objectives include skill improvement in utilizing insights regarding one's talents and career aspirations to create a personal brand, conveying one's unique value as well as improvement in networking and opportunity creation.

Prerequisite: MGBU 3223.

MGBU 3237. ST: LEADERSHIP FORUM. (1.5 Credits)
MGBU 3430. SPECIAL TOPIC: SUSTAINABLE BUSINESS. (3 Credits)
Foundations of Sustainable Business. This course will provide a general overview of the problems and opportunities provided by the challenges of sustainable management. Students will learn what it means to manage for planet, people and profit simultaneously. In the first part of the class, students will be exposed to the context of business in the 21st century and learn how strategies of the 20th century need to be rethought. In the second part of the class, students will examine the traditional perspectives on the organization (business) and how it needs to be rethought to successfully address the challenges of sustainable management. We will examine business strategy, supply chain management, and the supporting functions of finance, accounting, marketing, communications and information technology.

Attribute: ENST.

MGBU 3433. INDUSTRIAL RELATIONS AND PERSONNEL MANAGEMENT. (3 Credits)
An advanced treatment of issues, problems and techniques in personnel management. Findings from the behavioral sciences are applied to the problems and practices of human resource management in organizations. The course utilize small group and organization-theory as frameworks for analyzing the latest methods in the areas of selection, training, compensation, collective bargaining and performance measurement.

MGBU 3436. Capitalism and Its Alternative. (3 Credits)
What is the philosophical foundation of capitalism? What are the viable alternatives to capitalism? This course considers answers to these questions from the fields of economics, political theory, and humanistic management. Authors covered include Adam Smith, Milton Friedman, and FA Hayek.
MGBU 3438. OPERATIONS AND PRODUCTION MANAGEMENT. (3 Credits)
The operations function within an organization is responsible for managing the process flow that an organization has to use to produce a product, deliver a service, or both. Operations managers are responsible for the design, the daily operation, and the improvement of these processes. This course provides an introduction to the field of operations management: to understand the key decisions and to see how these decisions directly impact an organization’s competitiveness and market performance. Pre-requisite: MGBU 2142. STATISTICAL DECISION-MAKING.

Prerequisites: MGBU 2142 or HPCB 4703 or ECON 2142.

MGBU 3441. ST: INTRO HEALTH CARE SYSTEMS. (3 Credits)
This course will describe the different elements of the healthcare system and highlight the role of the payers, providers, patients, healthcare service workers and the industry (pharmaceutical, devices, supplies and diagnostics) within the context of a larger social system governed by local regulations and different demographic realities. While the emphasis will be on the United States key differences with other systems such as in Europe, Canada, Brazil and China will also be presented. The role of key associations in the US such as the AMA, IOM, PhRMA, patient advocacy groups and unions will be described. Emerging trends in the system in the United States will be presented as will the impact of other countries on the US.

Prerequisite: MGBU 3223 or MGBU 3222 and MGBU 3224.

MGBU 3442. ST: HEALTH CARE OPERATIONS MGT. (3 Credits)
Health Care Operations Mgt is a discipline that integrates scientific principles of operations management to determine the most effective and efficient methods to support patient care delivery. The biggest challenge in health care is to provide high quality care while at the same time keeping cost down. As such, all health care sectors must be driven by process management, quality improvement, information technology, knowledge management, and resource alignment. This course addresses the challenge in many ways, from the design of patient flow to streamlined process, from resource management to supply chain management, from quality control to patient safety, from forecasting to capacity planning, from continuous improvement to project mgt.

MGBU 3446. SPECIAL TOPIC: SOCIAL ENTREPRENEURSHIP. (3 Credits)
This course discusses ways of creating social value through the principles of entrepreneurship. Social entrepreneurship is a rapidly developing movement that is blurring the boundaries between government, business, and the NGO sector. Social entrepreneurs are individuals with innovative solutions to society’s most pressing social problems. Rather than leaving societal needs to the government or business sectors, social entrepreneurs find what is not working and solve the problem, spread the solution, and change the system by persuading entire societies to take new leaps. We study examples of successful social entrepreneurs, such as Mohammad Yunus (Nobel Laureate, 2006), and identify patterns that promote positive social change. We will also engage in Social Business Plan writing based on the students’ project ideas.

Attribute: PJST.

MGBU 3447. ST: CURRENT TOPICS HEALTHCARE. (3 Credits)
Healthcare management operates in a very dynamic environment. As healthcare policies change with new administrations so do the priorities of providers and payers. The patients feel the impact of these changes the most while the industry has to continuously re-assess the validity of its business models. Further, new technologies, scientific breakthroughs and system innovations keep healthcare administrators on their toes. This course provides an opportunity to discuss the most prevalent issues in healthcare as they are happening. Guest lecturers and professors provide their views on different challenges that the healthcare industry faces including policy, operations, risk taking and decision-making uncertainties and the developing solutions. Students will participate in these discussions and do a final paper on one of the topics of their choosing. Each formal lecture will be followed by one or two in-depth discussion sessions.

Prerequisite: MGBU 3441.

MGBU 3448. HEALTH BUSINESS PRACTICUM. (3 Credits)
This course offers students concentrating in Healthcare Management to do an internship at an approved healthcare institution or conduct research on a specific topic at Gabelli’s Global Healthcare Innovation Management Center.

Prerequisite: MGBU 3441.

MGBU 3450. ST: MANAGING IMPRESSIONS IN ORGANIZATIONS: RESEARCH IN MANAGEMENT (Fitness Integrated Learning). (3 Credits)
This course introduces students to research in impression management within the organizational behavior field in management. It aims to improve students’ understanding of scholarly research effort in defining impression management concepts, theories, methodological techniques, and findings, as well as to improve students’ analysis and usage of impression management in the workplace. This course is also designated as Fitness Integrated Learning (FIL), which is an innovative way of teaching and learning course material while students are engaged in a physical activity of spinning. The class will take place in the Spinning studio at the McGinely Center. Students will be riding stationary bikes at their own effort level throughout the duration of the class.

Prerequisite: MGBU 3223.

MGBU 3454. ST: DESIGN THINKING. (3 Credits)
Design thinking is an iterative problem-solving process of discovery, ideation, and experimentation that, when combined with business models, provides decision-makers with effective tools for innovation and transformation. This hands-on course will guide students in the use of a variety of design-based tools and techniques to clarify and solve human-centered organizational, business, and public service challenges.

MGBU 3550. ST: FILM, CHARACTER & LEADERSHIP. (3 Credits)
This course uses the inherent power of the cinema to better clarify the topics of character and character-based leadership.

Prerequisites: MGBU 3223 or (MGBU 3222 and MGBU 3224).

MGBU 3552. ST: THE ROSE PROGRAM. (3 Credits)
This course is intended for students who want to learn more about regulation in the financial services industry and want to get actively involved in shaping the regulatory space. Top performing project teams will present their proposals to a panel of Wall Street executives and will be invited to Washington, DC (all expenses paid) to present to regulators.
MGBU 3560. ST: STUDY TOUR ITALY. (3 Credits)
This course is designed to provide students with an opportunity to combine academic study of international business and on-site corporate visits to international firms and exchange markets. International visitations provide students with the ability to observe the implementation of business theories into practice. Students are further enriched by cultural trips to renowned landmarks of Florence/Rome, Italy coupled with opportunities to experience other regions of the country.
Attributes: GLBB.
Prerequisite: MGBU 3223.

MGBU 3562. ST: SINGAPORE GLOBAL IMMERSION: ENTREPRENEURSHIP, INNOVATION AND ECONOMIC DEVELOPMENT. (3 Credits)
Innovation is generally believed to be a major driver of economic growth and development as it may increase the output of an economy for a given level of input. Entrepreneurs play an important role in translating technological inventions into commercially viable innovations, thereby contributing to economic growth and development. While this account of economic development seems simple enough to understand by policy makers, countries significantly vary in terms of prosperity and economic development.

MGBU 4001. FAIR TRADE AND MICROFINANCE. (3 Credits)
This course examines the structure of Fair Trade as an alternative form of commerce which specifically expresses solidarity with the poor. The course is concerned with running all aspects of a small Fair Trade business. The class acts as employees on a team which seeks to make profit sustainably, yet effectively. Readings support a greater understanding of the realities of poverty.
Attributes: GLBB, PJST.

MGBU 4003. SPIRITUALITY & FAIR TRADE. (3 Credits)
This course is designed to ignite a spiritual awareness of economic injustice which ultimately motivates action, large or small. We begin by exploring the mechanisms of poverty, and looking at alternative forms of commerce. We look at why Fair Trade is able to answer some of the human rights issues associated with poverty. Readings highlight spiritual leadership from the past, and the models for action that their life stories provide. How should business students evaluate their lives and their careers? What might "solidarity with the poor" mean, in a variety of contexts.
Attributes: GLBB, PJST.

MGBU 4004. ENTREPRENEURSHIP AND FAIR TRADE. (3 Credits)
This course focuses on the entrepreneurial response to economic injustice, as expressed in the Fair Trade movement. The class will be divided into teams, to consult with emerging Fair Trade businesses in the New York area, ongoing throughout the semester. Against this backdrop we will learn from problem solving methods of entrepreneurs who have involved themselves with using business structures as a means of fighting poverty.
Attributes: GLBB, PJST.

MGBU 4005. ST: FAIR TRADE ENTREPRENEURSHIP. (3 Credits)
Fair trade is a global response to social injustice and poverty. Whether it is capital for "startups" or markets for fair trade coffee, the fair trade movement promotes socially and environmental responsibility business practices here and abroad. This course reviews the fair trade movement's successes and failures to find alternatives to business as usual that reduce poverty and build a sustainable global economy. Students focus on country specific examples of fair trade and microfinance social innovation that reduce poverty by creating viable livelihoods. Marketing, insurance, finance and management can all be applied to build a socially justice and sustainable global economy. "We urgently need a humanism capable of bringing together the different fields of knowledge, including economics, in the service of a more integral and integrating vision" Pope Francis argues in his recent Encyclical Letter, this course explores this vision.
Attributes: GLBB, INST.

MGBU 4441. STRATEGY. (3 Credits)
This integrated course brings together the student's previous study of the functional areas of business. The course focuses on the activities of the chief executive's top management group in defining the objectives and goals of the organization and in developing programs for the achievement of those goals. Major attention is devoted to the sophisticated, contemplative action of top-level decision makers.

MGBU 4443. SPECIAL TOPIC: PERSONAL LEADERSHIP. (3 Credits)

MGBU 4476. ST: CROSS CULTURAL NEGOTIATION. (3 Credits)
This course exposes students to the legal, ethical, and practical challenges of negotiating globally. It develops negotiation skill sets and enhances appreciation of the impacts of cultural difference and international institutional settings on business negotiations. Case-based simulations offer the opportunity to refine in practice the concepts learned in reading and films. Students will emerge from the course better prepared to work in multi-cultural teams and business settings.
Attributes: GLBB, INST.

MGBU 4488. ST: SPORTS MANAGEMENT. (3 Credits)
An in-depth treatment of special topics in sports management, that integrates the sport industry and strategic management, will be explored through the use of case studies, lectures, and projects. Sport management programs that train people for positions in such areas as professional sports, coaching, college athletics, fitness centers, officiating, marketing, and sporting goods manufacturing will be highlighted.

MGBU 4507. PROJECT MANAGEMENT. (3 Credits)
This course provides the project management skills needed to develop information and communications systems on time and within budget. It concentrates on methods and issues of organizing, planning and controlling projects, and the use of computer-based project management tools.

MGBU 4999. INDEPENDENT STUDY. (1-3 Credits)

Mandarin Chinese (MAND)

MAND 1001. INTRODUCTION TO MANDARIN I. (5 Credits)
An introductory course that focuses on the four skills: speaking, reading, writing, and listening providing students with a basic knowledge of Chinese Linguistic structures, vocabulary and culture, which, studied interdependently, comprise the Chinese Language.
Attribute: ZLB1.
MAND 1002. INTRODUCTION TO MANDARIN II. (3 Credits)
This course will enhance the reading, writing, speaking and listening skills acquired by students in Introduction to Chinese I for prior study. It will further promote a deeper understanding of Chinese.
Prerequisite: MAND 1001.

MAND 1103. MANDARIN I FOR HERITAGE SPEAKERS. (3 Credits)
An introductory course for Mandarin Chinese heritage speakers that focuses on improving their reading and writing proficiency. Students will expand their vocabulary and develop their aural-oral skills. Completion of this course prepares students for Intermediate Chinese I, or 1501.

MAND 1501. INTERMEDIATE MANDARIN I. (3 Credits)
Attribute: IPE.
Prerequisites: MAND 1001 or MAND 1002.

MAND 1502. INTERMEDIATE MANDARIN II. (3 Credits)
Prerequisite: MAND 1501.

MAND 1551. BUSINESS MANDARIN. (4 Credits)
Development of communication skills in everyday and business context with attention to vocabulary building, grammar review, conversation, and composition. Reading and discussion of literary, cultural, and business-related texts. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MAND 1999. TUTORIAL. (1 Credit)

MAND 2001. MANDARIN LANGUAGE AND LITERATURE. (3 Credits)
A critical analysis of selected cultural and literary texts: composition, conversation, and review of pertinent grammatical structures.
Attribute: ZLB1.
Prerequisite: MAND 1502.

MAND 2500. APPROACHES TO LITERATURE. (4 Credits)
An intensive reading course in the major genres (prose, fiction and drama) of Mandarin Chinese literature. A basic introduction to literature in Mandarin Chinese and to the varieties of critical strategies for reading its forms or genres. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisite: MAND 2001.

MAND 2550. READING CHINESE SHORT STORIES. (4 Credits)
This course will introduce students to the narrative of well-known 19th and 20th-century Chinese writers such as Lu Xun, Bing Xin and others. Upon completion of the course, students will have acquired a basic knowledge of modern Chinese literature and will have further enhanced their speaking, reading and writing skills in Mandarin Chinese. Taught in Chinese. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisite: MAND 2500.

MAND 2601. MANDARIN CONVERSATION AND COMPOSITION. (4 Credits)
This course is designed for advanced mandarin learners to improve their listening, speaking, reading, and writing proficiency. It will enable the learners to acquire up-to-date spoken Chinese by introducing contemporary TV series, mini plays, and movies. Students will also produce written texts based on the materials covered in class. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MAND 2620. CHANGING CHINA. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MAND 2001.

MAND 2650. ADVANCED BUSINESS MANDARIN. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MAND 2001.

MAND 2670. ORIGIN AND DEVELOPMENT OF SINO-AMERICAN RELATIONS. (4 Credits)
This course examines the origin and development of Sino-American relations by reading newspaper reports and writers’ and ordinary people’s reflections and recollections, and by discussing films related to the issue. By the end of the course, students will better understand the bilateral relations and the impact that Sino-American relations have on both China and the USA. This course will further develop students’ language skills, especially reading and speaking. Taught in Chinese. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, AMST, COLI.
Prerequisite: MAND 2001.

MAND 3002. TOPICS IN CHINESE CULTURE. (4 Credits)
This course is designed for intermediate high and advanced Chinese learners. The aims of the course are 1) to further develop students’ language proficiency in all areas: listening, speaking, reading and writing and 2) to increase students’ awareness and appreciation of Chinese culture. Students will learn various aspects of contemporary Chinese society and compare Chinese cultural practice products and perspectives with their own culture to enhance understanding of Chinese people and culture. Class discussions will be held and reading and writing assignments will be assigned regularly to help students improve their skills in articulating Chinese in spoken and written forms. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC.
Prerequisite: MAND 2500.

MAND 3020. LEARN CHINESE THROUGH FILM. (4 Credits)
It is a course designed for advanced Chinese learners, who successfully completed Mandarin 2500 or equivalent to continue developing their skills in listening, speaking, reading, and writing through studying Chinese films and to achieve a better understanding of Chinese culture. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.
Prerequisite: MAND 2500.
MAND 3040. TOPICS IN MANDARIN CHINESE LITERATURE. (4 Credits)
This course examines the rich tradition of Mandarin Chinese literature form 1900 to present. Readings include a variety of genres in Mandarin Chinese, such as short stories, critical essays, poetry and screen plays. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, INST, PJST.
Prerequisite: MAND 2500.

MAND 3050. CHINA IN THE HEADLINES: AN ADVANCED NEWSPAPER READING COURSE IN MANDARIN CHINESE. (4 Credits)
This course will have students reading skills in formal written Chinese through studying texts, such as, new reports, editorial essays, and transcripts of interviews. A variety of students will also develop listening and speaking skills through watching news clips and discussion and debate over top stories in Chinese media. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisite: MAND 2001.

MAND 3055. CHINA AND GLOBALIZATION. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, INST.

MAND 4999. TUTORIAL. (3,4 Credits)

MAND 9101. INTRO TO MANDARIN I. (0 Credits)
MAND 9152. INTERMEDIATE MANDARIN II. (0 Credits)
MAND 9201. MANDARIN LANGUAGE & LITERATURE. (0 Credits)
MAND 9305. CHINA IN THE HEADLINES. (0 Credits)

Marketing (Graduate) (MKGB)

MKGB 76AR. STRATEGIC PRICE MANAGEMENT. (3 Credits)
MKGB 77AA. MARKETING DECISION MODELS. (3 Credits)
Demonstrates the benefits of using systematic analytic and modeling based approach to marketing decision-making and equips. Enables students to work on marketing data with a heavily applied approach and construct models to aid managerial decisions about which strategies to choose. Prerequisite: MKGB 7730.
Prerequisite: MKGB 7730.

MKGB 77AB. E-BUSINESS STRATEGIES & APPL. (3 Credits)
Introduces students to concepts, issues and technologies essential to conducting business in information-enabled economies. Students will look at the transformation of traditional marketplaces into electronic market spaces, from traditional supply chains to virtual alliances and industrial webs, from traditional product focus to mass customization. Reviews common E-Business applications, such as customer relationship management, Enterprise Resource Planning(ERP), e-procurement, supply chains and web portals. Issues discussed include the reactions of consumers to e-retailing, regulatory and tax concerns, use of vertical and horizontal exchanges in managing supplier-customer interactions, security and privacy concerns, digital rights managements and mobile commerce. This course has a global perspective: many cases studies focus on international issues in a variety of business sectors, including retailing, financial services and information services. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 77AC. STUDY TOUR ISTANBUL. (3 Credits)
This course focuses on doing business and marketing in (and of) Turkey by allowing students to personally experience business practice and culture in Turkish market. Students meet as a class periodically during the trimester and engage in independent activities focused around assignments and preparation for a week trip to Istanbul in Spring. The selection of readings, assignments, lectures, and films is designed to insure that students obtain a thorough understanding of the issues and opportunities involved in doing business in Turkey. Prerequisite: MKGB 6710.
Attribute: ABB.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 77AD. UNDERSTANDING LA MKTS. (3 Credits)
This course focuses on the successes of prominent business families throughout South America. Students will learn about the successes and failures of these businesses while emphasizing the role of marketing in different South American countries. Students meet as a class several times prior to and after the study tour and will engage in independent studies, preparing students for a two week trip to South America in March. The selection of readings, assignments, lectures, and films will be designed to ensure that students obtain a thorough understanding of the issues and opportunities involved in successful business development in South American countries. Students will travel throughout South America, including: Santiago Chile, Cordoba Argentina, Buenos Aires Argentina, Porto Alegre and Sao Paulo, Brazil. Students will meet as a class with local businesses, focusing on prominent business families, in order to learn first-hand about South American business. The class will also visit a variety of cultural and historical sites and will take classes while in these countries. The tour encourages students and faculty to share their observations and thoughts throughout the tour. Interested students should contact Fordham FAB at fordhamfab@gmail.com to seek admission to the study tour. Prerequisite: MKGB 6710.
Attribute: ABB.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

Updated: 10-11-2017
MKGB 77AE. RETAIL STRATEGIES. (3 Credits)
This course examines the retailers from the perspective of the entire firm, allowing students to integrate topics covered in other disciplines with new material specific to retailers’ challenges and tools. Topics covered include: retail strategy and branding; market, trading-area location analysis, consumer patronage behavior, demand and sales forecasting, merchandise planning and management, integrated retail communications, customer service, advertising, store image, pricing, and analysis of emerging forms of new retail competition. PREREQUISITE: MKGB-6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 77AF. SERVICES MARKETING. (3 Credits)
This course provides in-depth analysis of the unique challenges and opportunities in marketing services to consumers and businesses. Students learn to identify, create and develop winning services marketing strategies. Topics include positioning services in the marketplace, developing the right target market for service companies, buyer behavior and delivery of service quality in both consumer and business markets. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 77AG. STUDY TOUR:CUBA. (1.5 Credits)
As European, Chinese, and Latin American firms build there, Cuba is looking for domestic models that will preserve its egalitarian tradition and its rich historic culture. In this study tour, through class meetings, assigned readings, guest speakers and visiting Cuba, students will learn about this unique culture and economy while it is faced with the challenges of a socialist economic system developing a budding entrepreneurial private sector.
Prerequisites: MKGB 6710 or MIGB 6710.

MKGB 77AH. THE ART OF SOCIAL BUSINESS. (3 Credits)
Social Media is not a technology, a tool, or a trend; it is a fundamentally new way for businesses to connect with all of the people that matter at an unprecedented scale. People have embraced social platforms faster than any other form of communication, forcing organizations to ultimately reconstruct their business models. The course will provide students with a foundation of new social business practices across different industries. It will introduce new concepts and theories on how to transform existing business structures or develop new models that are social and personalized at the core. Students will learn how all disciplines within companies, especially marketing and marketing-related functions, are now being socialized (e.g. Marketing, Advertising, New Product Development, HR, Finance, R&D, Operations, etc.) The course will also address how a company’s culture is impacted by creating more connectivity across employees and its customers. Specific areas that will be covered include: Brand and Media Management, Creative and Advertising, Data and Measurement, which will also touch upon consumer privacy. Course work will include readings, in-depth discussions, and three group projects. PREREQUISITE: MKGB-6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 77AI. INNOVATION IN BUS & ENERGY. (3 Credits)
The purpose of the course is to frame and critique opportunities for business to create innovations in energy systems. Consequently, the course will seek to induce the student to learn about energy systems in different parts of the world, as well as energy systems supporting different sectors of contemporary economies. This course will encourage students to think broadly, which should influence how to gather information and determine what information to gather as specifying context is key to understanding whether an innovation could be viable.
Prerequisite: MKGB 6710.
Attribute: ABGS.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 77AJ. MARKETING LABORATORY. (3 Credits)
This course is based on a simulation to get students in virtual and simulated market environment for data driven, strategic marketing decisions. The Marketing laboratory (ML) presents a context rich environment, beginning with an initial scenario (some history), the teams work through plans, execution, and adaptation to the vagaries of an environment that changes as teams begin to pursue their various strategies, and opportunities to compete against, collaborate with, and even ignore other teams in the space. Prerequisite: MKGB 7730.
Prerequisite: MKGB 7730.

MKGB 77AK. MULTIPLATFORM ADVTG SALES. (3 Credits)
This course will apply to anyone interested in the Sales, Advertising, Marketing and Product Management professions. The content is designed to educate students on what it takes to be successful in today's highly competitive and complex advertising sales profession. Students will be provided with an overview of multiplatform advertising properties including print, digital, social and TV, as well as analytics related to advertising sales and audience metrics. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 77AL. INNOV IN BUSINESS & ENERGY. (3 Credits)
This course aims to frame and critique opportunities for business to create innovations in energy systems. It discusses how contemporary energy systems have evolved and how energy infrastructures vary across regions of the world. It also examines how business decision makers can think about choices of energy and energy systems by encouraging students to think broadly in terms of innovation possibilities.
Attribute: ABGS.

MKGB 77AM. DIGITAL MARKETING. (3 Credits)
Digital Marketing is designed to provide students with a thorough knowledge of the digital marketing process. Throughout this course, students will be taught various digital marketing techniques and strategies so they have will have a strong knowledge base once this course is complete.
Prerequisite: MKGB 6710.

MKGB 779A. CORPORATE ENVIRONMENT SUSTAINBLT. (3 Credits)
A study of corporate environmental sustainability. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.
MKGB 779B. NEW VENTURE PRACTICM. (3 Credits)
This course develops the skills necessary to evaluate and create a new venture. You will learn how to sell the endeavor effectively through written and verbal presentations. This course will introduce you to the unique issues inherent to effectively evaluating business opportunities, as either an intrapreneur or entrepreneur... and as an investor, within start-ups or established companies. In today's competitive environment, size of company does not define entrepreneurship. Companies like Apple Computer, FedEx and Wal-Mart have maintained excellent cultures of entrepreneurship despite decades of phenomenal growth. On the other hand, large companies usually find their most aggressive competitors to be start-ups. But the failure rate of start-ups is absurdly high. In this course, you will learn why Entrepreneurship is a form of Strategy. Prerequisite: MK 6710.

Attribute: ABEP.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779C. STUDY TOUR: MKTG IN BRITAIN. (3 Credits)
Study tour: London England Prerequisite: MKGB 6710.

Attribute: ABB.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779E. ENTERTAINMENT MARKETING. (3 Credits)
A study of marketing in entertainment. Prerequisite: MKGB 6710.

Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779F. MKTG WONDERS/BLUNDE. (3 Credits)
This course requires each student to pick a firm / institution that developed a new product (good or service) or repositioned an existing product and then (a) achieved outstanding success or (b) scored no success with the marketing plan. The course requires several oral presentations as the student discovers the genesis of the new product and reports on the historic timeline of the product's product life cycle, from introduction through growth, maturity, and decline (assuming growth occurred). Prerequisite: MK 6710.

Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779G. STUDY TOUR:TURKISH/MIDDLE EAST. (3 Credits)
Study Tour: Istanbul Turkey Prerequisite: MKGB 6710.

Attribute: ABB.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779I. DATA-DRIVEN MARKETING DECISIONS. (3 Credits)
The course aims at offering students advanced analytical marketing and decision making skills in order to help them address marketing managerial decisions. Adopting a "learn by doing" approach, the course provides students with hands-on training that will allow them to simulate data-driven marketing decisions and formulate sound recommendations. More specifically course objectives are to: • Bring more science to the art of marketing decision making. The course will expose students to the emerging facet of "scientific" marketing (marketing by the numbers) and get them to experience data-driven marketing decisions. • Develop students' knowledge and skills to close the gap between managerial decisions on one hand and the available data and analytical techniques on the other hand. • Provide students with hands-on training in data-driven marketing decisions in a broad range of areas of marketing-related topics including segmentation, positioning, targeting, promotion, customer life-time value, and retailing. Introduce students to contemporary areas including web analytics and social networks analysis Pre-requisite: MK 7730 .

Prerequisite: MKGB 7730.

MKGB 779J. QUALITATIVE RESEARCH METHODS. (3 Credits)
This course delves into the different qualitative research methods including one on one interviewing, triads, dyads, focus groups and ethnographies. We will also review the latest technological advancements in qualitative methodologies including, on-line bulleting boards, chat rooms, on-line communities and advanced strategy labs. Prerequisite: MKGB 6710.

Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779K. SUSTAINABILITY MARKETING. (3 Credits)
A study of sustainability marketing. Prerequisite: MKGB 6710.

Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779M. DATA-DRIVEN CASE STUDIES MKTG. (3 Credits)
A study of data driven case studies in marketing.

Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779N. SPORTS MARKETING. (3 Credits)
It is estimated that the sports industry generates over $200 billion a year in revenue and it is still growing. Sports products are more than just the sporting event, the athlete and the arena and now encompass items such as sporting goods and equipment, licensed merchandise and clothing lines, collectibles and memorabilia, personal training/fitness centers and health services, sports camps and instruction as well as sports information and media. In addition, sports products include the successful and strategic management of operations/facilities, overseeing revenues and investments as well as bringing events to the attention of the public through advertising, sales, promotion and sponsorships. This course is designed to provide the sport business student with an overview of the major marketing issues facing the sports industry. As one can see, this is a diverse and growing industry centered around THE ASSOCIATION OF SPORT. With this as a background, this course will focus on the industry, the market opportunities and strategies for seizing those opportunities. Prerequisite: MKGB 6710.

Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.
MKGB 779O. CORPORATE SUSTAINABILITY. (3 Credits)
This course is for students who want to understand how businesses incorporate environmental and socially responsible agendas into their management and marketing strategies. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779P. CUSTOMER RELATIONSHIP. (3 Credits)
A study of customer relationships. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779Q. CHINESE MINSET/MKKTG PRACTICE. (3 Credits)
A study of chinese mindset. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779R. ENTREPRENEURSHIP/PHILANTHROPY. (3 Credits)
A study of entrepreneurship in marketing Prerequisite: MKGB 6710.
Attribute: ABEP.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779S. MKT’G EXECUTIVE OF THE FUTURE. (3 Credits)
Many have stated that the marketing executive is the new key figure. The continually changing business environment coupled with rapidly evolving marketing processes point to the critical need for well-trained marketing executives. The trends indicate that current marketing professionals and/or “practitioners of marketing” are and will be expected to carry on an even greater share of the responsibility of business growth and development in the future. As a result, the strategic development of the marketing executive who can not only improve the effectiveness of the marketing function but who can also meet the challenges of tomorrow has become more important, than ever before, in today’s business paradigm. With this as a background, this course is interdisciplinary in nature and will explore multiple methods to develop the Marketing Executive of the Future from a business development, cultural, holistic, relevant to “product” part of marketing mix and management. It focuses on an even greater share of the responsibility of business growth and development in the future. As a result, the strategic development of the marketing executive who can not only improve the effectiveness of the marketing function but who can also meet the challenges of tomorrow has become more important, than ever before, in today’s business paradigm. With this as a background, this course is interdisciplinary in nature and will explore multiple methods to develop the Marketing Executive of the Future from a business development, cultural, holistic, innovative, ethical, and fellowship perspective. Prerequisite: MK 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779T. MARKETING MGT & STRATEGY. (3 Credits)
Introducing the fundamental concepts and processes essential for marketing goods, and services in today's competitive environment. This course presents an integrated framework on how such strategic decision should be made. The course is anchored on three tools: Strategic Marketing Theory, Computer Simulation and Application and Cases. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779U. HOSPITALITY MARKETING. (3 Credits)
A study of hospitality marketing. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779V. STRATEGIC PRODUCT PLANNING. (3 Credits)
This course aims to introduce students to product planning process, including product line and mix strategies. It covers topics that are relevant to “product” part of marketing mix and management. It focuses on the development and application of value-enhancing strategies used by successful product managers Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779W. GREEN MKTG & SUSTAINABILITY. (3 Credits)
Green marketing practices are rapidly changing and with them the analytical tools needed in 2011—where every company wants to be green, where communications are dominated by social media and where serious corporate sustainability efforts are global. Students will learn • What the green marketing tools and concepts are and how they can be fully integrated into marketing and management strategies • How major corporations have transformed their entire companies into green ones • How to use well-established, robust analytics to separate greenwashing from serious efforts • What policy level green marketing and management jobs are available in Fortune 200 companies. Prerequisite: MK 6710.
Attribute: ABGS.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779X. STRATEGIC PRICE MANAGEMENT. (3 Credits)
The objective of this course is to provide students with the fundamental skills needed to optimally manage prices. The course capitalizes on the three anchoring points: (a) Techniques for analysis of consumer research data related to prices and market demand; (b) Ability to integrate consumer research findings into optimal price recommendations; (c) Strategic management of prices in order to maximize profitability in competitive markets. The course will utilize a combination of lectures, hands-on-in-class exercises, computer simulations, and case studies in order to develop students’ applied skills in pricing. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779Y. MULTICULTURAL MARKETING. (3 Credits)
This course delves into how marketers can successfully reach multicultural markets. There will be an overview of marketing principles and a discussion of the impact of race, ethnicity and culture on consumer behavior. The course will take a deep dive into the important marketing considerations for the 3 major multicultural target groups in the U.S. specifically, Hispanic Americans, African Americans and Asian Americans. Through this highly interactive class, students will be educated on the evolving role of marketing in today’s diverse culture. Students will learn tools for marketing to Hispanic American, African-American and Asian-American market segments, and analyze and understand the nuances of multicultural marketing communication. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 779Z. APPLIED MKT’G RESEARCH PROJECT. (3 Credits)

MKGB 879A. FASHION MARKETING. (1.5 Credits)
This course examines the marketing mix through the lens of the fashion industry. Topics to be covered include merchandising, new product development with an emphasis on private label and celebrity brands, customer loyalty programs, and licensing. We will also explore the key issues and challenges of the fashion business model and discuss emerging trends such as m-commerce, social media and apps. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879B. MARKETING ANALYTICS. (1.5 Credits)
In this course, we will use a hybrid lecture and work problem format to ensure you gain proficiency with all key business metrics used in global marketing departments to guide the active management of their brands/ businesses. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.
MKGB 879C. TRADITIONAL AND ONLINE DISTRIBUTION STRATEGY. (1.5 Credits)
This course will examine the latest channel design models and identify the core decision areas and the critical contemporary issues associated with the management of traditional and online distribution channels. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879D. SOCIAL MEDIA MARKETING. (1.5 Credits)
This course aims to provide students with pragmatic and managerial insights into using various social media tools as part of marketing plans and business strategy. This course will examine the ways companies and individuals can identify social media sites that appeal to their target audience, develop their voices and get closer with customers. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879E. LUXURY MARKETING. (1.5 Credits)
This course will provide excellent support for those planning a career in luxury marketing, brand management, retailing and distribution and communications. It covers areas such as history and trends of the luxury sector; marketing of luxury goods and services; strategy evaluation for luxury businesses; luxury consumer behavior, luxury product and brand management; luxury marketing communications and retailing and channel management within the luxury sector. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879F. PRODUCT INNOVATION&RENOVATION. (1.5 Credits)
This mini-course provides a comprehensive "inside" overview of bringing consumer products to market. Topics will include idea generation, strategy, business case analysis and commercialization. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879G. RETAIL BUYING & MERCHANDISING. (1.5 Credits)
This course explores the creative, financial and analytical aspects of merchandising and buying. During this mini-course students will build a merchandise assortment for the fall 2012 season while exploring: The fundamentals of retail math The nuts and bolts of Inventory management and sales performance/analysis The influence of fashion trend The impact of historical performance The importance of merchandise planning and store allocation Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879H. ENTERTAINMENT AS MKTG TOOL. (1.5 Credits)
This course offers a solid understanding of how marketers and media suppliers interact while utilizing branded entertainment and various content platforms in pursuit of reaching today's consumers through multiple touch points at home, at work and throughout the marketplace. Primary focus will be given to understanding how branded entertainment plays a critical part in the marketing and media mix and how it has evolved into one of the most effective tools used by mainstream marketers today. It is during the project development process that entertainment marketing is created, utilized and evaluated as part of the advertiser's overall marketing effort. Each class of the seven-week program will focus on a particular aspect of this process. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879I. SERVICES MARKETING. (1.5 Credits)
Services account for over 75% of the GDP in the U.S. and, even in a difficult economic environment, many service sectors are growing rapidly. Yet, because services are intangible, marketing these businesses can be complex and challenging. In this course students will learn how to identify, create and develop winning service marketing strategies. Marketing principles and buyer behavior as applied to services will be covered from both consumer and business-to-business perspectives. Emphasis will be on real-world case studies and students will work on projects which will focus on their areas of professional interest. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879J. MANAGING CUSTOMER CENRITICITY. (1.5 Credits)
Customers are the most valuable assets of many firms. This course is designed to introduce students to the fundamentals of managing customer relationships; the discipline of getting, keeping and growing profitable customers. Students will explore the relevance of customer-centricity to creating a successful organization. The course will examine methods to initiate, develop, implement, and evaluate customer-focused initiatives. The goals of the course are to increase student competency levels in understanding of the role and relevance of customer-centricity in an organization, and understanding implementation, organizational, and customer issues surrounding customer relationship management. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879K. EVENT MARKETING. (1.5 Credits)
Event Marketing is a significant and powerful component in the world of Integrated Marketing. It is vital to PR campaigns, product launches and building brands; and just as with more traditional disciplines, Event marketing is a medium to acquire new customers and establish brand loyalty. Students in this class will learn fundamental principles of event marketing, various ways event marketing is utilized in today's marketplace, core category essentials including strategy, creative end production, and the measurement of the success of an Event Marketing campaign. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879L. MARKETING TO YOUNG CONSUMERS. (1.5 Credits)
This course examines special considerations in developing and marketing products designed for infants, preschoolers, kids and tweens. Topics include: Concept/product development and testing with children and the youth and advertising to the children among others. Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.
MKGB 879M. CAUSE MARKETING. (1.5 Credits)
As consumers continue to expect companies to improve our world, social issues are being integrated into core business strategies. Many established firms and start-ups are developing and selling products through an approach of “social innovation.” And a wide range of companies are moving “cause marketing” to the center of their marketing strategies. This course focuses on purpose-driven marketing that enhances brand equity. The course is designed to examine interrelated areas such as corporate social responsibility, non-profit organizations, social innovation and green marketing. Applications to be discussed include positioning, branding, new product platforms and advertising to expand students’ ability to think creatively and critically about managing brands. Prerequisite: MK 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879N. PRESENTING MKTG INSIGHTS. (1.5 Credits)
In today’s information-rich society, there is no shortage of data and analysis methods available to marketers. A more pressing problem today is how to parse that information and communicate it effectively to audiences including consumers or decision-makers responsible for authorizing marketing programs. This mini-course will be structured around three components: Narrate, Visualize, and Share. In “Narrate,” students will learn principles of using storytelling as a persuasion tool. In “Visualize,” students will learn how to effectively show data and interactive data visualizations. Finally, in “Share,” students will learn how to combine your narration and visualization skills to resonate with audiences and gain support for your ideas. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879O. MARKETING OF HIGH TECH PRODUCTS. (1.5 Credits)
This course will examine the particular considerations of marketing high technology products and services in a business-to-business environment. Such deals require a consultive (some say “consultative”) approach, have long sell cycle, involve multiple decision makers, and engage all of your business skills—knowledge of strategy, organizational behavior, industry analysis, and financial analysis. The principles examined in this course may be applied to sales of complex products, projects, or services (such as consulting). The format of the course will be presentation of main principles, discussion of case studies, and open seminar format when we may discuss students’ experiences in this field. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879P. SCIENCE OF SHOPPING. (1.5 Credits)
This course will examine the anthropological dimensions of retail shopping from four interconnected perspectives: practical, relational, socio-economic and sensory-physical. Students will learn the pragmatics of shopping – how people manage to navigate a store; they will explore shopping malls in terms of self-identity, social class and feelings of community; they will look at the rituals of Christmas shopping; they will evaluate the sensory dimensions of a store in experiential shopping. From exploring the interplay of these variables, students should receive a practical and theoretical understanding of the retail experience for consumers and its importance to our culture. Students will read a range of materials, write essays and conduct primary ethnographic research in shopping locations. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879R. PSYCHOLOGY OF PRICING. (1.5 Credits)
When is it better to price a product at $3.99 compared to $4.00? Should an e-tailer include shipping charges in their products’ prices or add them separately? Among a marketer’s tools, price is arguably the most important because it is the only one that represents revenue, rather than a cost, to the firm. Yet decisions like these are often wrought with complexity and uncertainty. This mini course brings structure to the issue through explorations of consumers’ beliefs, feelings, and behaviors with respect to prices and pricing tactics. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879S. MANAGING PEOPLE AS BRANDS. (1.5 Credits)
This course investigates how companies create and manage brands from individuals ranging from celebrities to athletes, and to politicians. It looks at very different personal brands and their positive or negative impact on the businesses. Informal, intensely participatory and highly interactive class sessions will offer an introduction to experts that have created and/or remedialized people as brands. It will also create “personal-workshop” climate for student self-branding purposes. PREREQUISITE: MKGB-6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879T. MKTG WITH BIG DATA. (1.5 Credits)
“Big data” describes the enormous numbers of large data sets that are generated through social media, client payment systems, consumer buying patterns and GPS satellite mapping. This course will discuss utilized to manage the terabytes of data produced daily, the methods used to spot trends, and the myriad ways that Big Data can enhance marketing strategies and optimize the ROI of a firm’s marketing budget. PREREQUISITE: MKGB-6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879U. CONSUMER SOCIAL RESPONSIBILITY. (1.5 Credits)
This mini-course is aimed at exploring the consumer’s role in shaping the social environment and, as such, focuses on demand-side issues of social responsibility. At the end of this course, students should have a better understanding of how the tools of marketing can be used to prompt socially responsible consumption As a result, students should better understand themselves both as business people and as individuals. Prerequisite: MKGB 6710.
Attribute: ABGS.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879V. MULTIPLATFORM ADVTG SALE. (1.5 Credits)
This mini-course will apply to anyone interested in the Sales, Advertising, Marketing and Product Management professions. The content is designed to educate students on what it takes to be successful in today’s highly competitive and complex advertising sales profession. Students will be provided with an overview of multipractical advertising properties including print, digital, social and TV, as well as analytics related to advertising sales and audience metrics. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 879W. CUBA IN TRANSITION. (1.5 Credits)
Cuba is looking for business models and partnerships that will preserve its egalitarian tradition and its rich historic culture. In this course, through class meetings, assigned readings, and guest speakers, students will learn about the unique Cuban culture and economy that is faced with the challenges of a socialist economic system developing a budding entrepreneurial private sector.
Corequisite: MKGB 6710.
MKGB 6710. CUSTOMER-DRIVEN MARKETING. (3 Credits)
MBA CORE COURSE This course introduces students to marketing both as a company orientation and as a company function, and emphasizes why and how successful marketing needs to be customer-driven. Interactive class discussions focus on the role and importance of marketing for the entire organization, individuals and society at large. Students learn how marketing interacts with other business functions within a company, as well as how marketing contributes to both the company bottom-line and customers’ well-being. Topics covered include the strategic marketing process; the creation, communication, delivery and exchange of value; market segmentation, targeting, and positioning; and the marketing mix. Lectures, comprehensive case analyses, in-class exercises, and team projects are used to provide a complete understanding of customer-driven marketing practices within a global framework. (Previous title: Marketing Management). PREREQUISITE: BEGB 6220.
Prerequisites: BEGB 6220 or GBA Waiver Managerial Eco with a score of 070.
Mutually Exclusive: MMGB 6710.

MKGB 7720. CONSUMER BEHAVIOR. (3 Credits)
Analyzes the latest social science research and theories to better understand consumer behavior. Special attention is directed to applications in managerial decision-making. Topics including motivation, learning, memory, perception, attitude formation and change and decision-making are covered to explain and predict how consumers behave in the marketplace. Prerequisite: MKGB 6710.
Attribute: ABGS.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7721. MARKETING MANAGEMENT FOR CHINA. (4.5 Credits)
MKGB 7722. ADVANCED MARKETING SEMINAR. (3 Credits)
MKGB 7723. STRATEGIC BRANDING. (3 Credits)
Demonstrates the strategic importance of branding by focusing on the various ways the brands acquire and sustain value in the marketplace. Analyzes relevant and comprehensive theories, and all the necessary tools, ideas and concepts to uncover the brands’ identities and help managerial branding decisions. Topics discussed include socio-cultural perspectives on branding and brand management, emotional branding, financial considerations and consequences of branding decisions. Prerequisite: MK 6710. PREVIOUSLY TITLED: BIG BRAND MARKETING.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7724. UND THE CHINESE MARKET. (3 Credits)
Focuses on doing business in (and of) China by allowing students to personally experience business practice and culture in this major global market. Explores the knowledge and understanding of the historical, economic, social and cultural context of Chinese business. Provides an understanding of business issues in a foreign setting with an exposure to the local people, businesses and social and government agencies. Co-requisite: MKGB 6710.
Attribute: ABIB.
Prerequisites: MKGB 6710 (may be taken concurrently) or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7730. MARKETING RESEARCH. (3 Credits)
Provides a fundamental understanding of marketing research methods and their applications, offering perspectives from both the provider and user of information needed for managerial decision-making. Discusses the marketing research process with an emphasis on the identification, collection, analysis and dissemination of data. Topics include problem definition, the use of secondary data, various quantitative and qualitative methods, preparation and evaluation of surveys, and basics of data analysis. Prerequisites: MKGB 6710 and DGGB 6820. REQUIRED COURSE FOR MARKETING CONCENTRATION.
Prerequisites: (MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070) and (DGGB 6820 or GBA Waiver Statistics with a score of 070 or DGGB 6830).

MKGB 7746. BUSINESS TO BUS MKTG. (3 Credits)
Examines marketing as it is applied to business markets and organizational buying/selling with an emphasis on how they differ from consumer markets. Discusses specific issues and problems faced by firms in having organizations as customers. Basic marketing issues as market identification and segmentation, pricing, logistics, advertising and sales promotion are explored within the business-to-business environment. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7750. GLOBAL MARKETING. (3 Credits)
Examines proven theories and practices of global marketing, as well as the research tools and techniques that can help marketers develop strategic decisions in global markets. Provides a comprehensive overview of global marketing environment and the critical factors involved in choosing the appropriate market-entry strategies for selected foreign markets. Demonstrates successful marketing practices from various emerging markets and regions. Prerequisite: MKGB 6710.
Attribute: ABIB.
Prerequisites: MKGB 6710 (may be taken concurrently) or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7755. INTEGRATED MKTG COMM. (3 Credits)
Analyzes the planning, execution and measurement of advertising programs, with a focus on the creation of an advertising campaign and media planning. Topics include the role of advertising within the marketing mix, tools, techniques and processes used in creating advertising strategy, media planning, legal issues and ethical considerations in advertising. Guest speakers complement classroom experience and discuss their specialties, as necessary. Prerequisite: MKGB 6710; Recommended Prerequisite: MKGB 7720. (Formerly Advertising and Media Planning.)
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7765. SALES MANAGEMENT. (3 Credits)
Focuses on personal selling and salesforce management in the context of large and small organizations. Examines the sales process and its relationship to overall marketing strategy, evaluation of salesforce performance and the function of sales manager. Explores such topics as sales planning, forecasting as well as recruiting, selecting, motivating and compensating a salesforce. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

Updated: 10-11-2017
MKGB 7775. MKTG OF FINL SERVICES. (3 Credits)
Provides a scientific understanding of tactics and strategies associated with the marketing of financial services. Emphasizes the role of industry deregulation, intensified competition, and the emergence of new technologies and products on the emerging marketing practices used by financial services institutions. Explore consumers’ unique decision-making styles in financial matters, the effects of technology deployment, and the fiduciary constraints that guide marketing activities in the markets for commercial banking services, mutual funds, investment banking services, insurance and other forms of financial services. Prerequisite: MK 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7782. COMM CORP IMAGE RESPONSIBILITY. (3 Credits)
Analyzes various means and tactics available to public relations practitioners and demonstrates the value of pragmatic public relations activities for businesses. Explores social and ethical concerns about generating publicity and how resulting public perceptions can create or deepen corporate crises. Current practices of planning for and managing crises are demonstrated via a number of guest speakers. Prerequisite: MKGB 6710. Also offered as CMGB 7531.
Attribute: ABGS.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7785. MKTG OF FINL SERVICES. (3 Credits)
Provides a scientific understanding of tactics and strategies associated with the marketing of financial services. Emphasizes the role of industry deregulation, intensified competition, and the emergence of new technologies and products on the emerging marketing practices used by financial services institutions. Explore consumers’ unique decision-making styles in financial matters, the effects of technology deployment, and the fiduciary constraints that guide marketing activities in the markets for commercial banking services, mutual funds, investment banking services, insurance and other forms of financial services. Prerequisite: MK 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7792. COMM CORP IMAGE RESPONSIBILITY. (3 Credits)
Analyzes various means and tactics available to public relations practitioners and demonstrates the value of pragmatic public relations activities for businesses. Explores social and ethical concerns about generating publicity and how resulting public perceptions can create or deepen corporate crises. Current practices of planning for and managing crises are demonstrated via a number of guest speakers. Prerequisite: MKGB 6710. Also offered as CMGB 7531.
Attribute: ABGS.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7795. MKTG OF FINL SERVICES. (3 Credits)
Provides a scientific understanding of tactics and strategies associated with the marketing of financial services. Emphasizes the role of industry deregulation, intensified competition, and the emergence of new technologies and products on the emerging marketing practices used by financial services institutions. Explore consumers’ unique decision-making styles in financial matters, the effects of technology deployment, and the fiduciary constraints that guide marketing activities in the markets for commercial banking services, mutual funds, investment banking services, insurance and other forms of financial services. Prerequisite: MK 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7799. SPEC TOPICS: MARKETING. (1.5-3 Credits)
These courses are offered from time to time to permit faculty and students to explore a marketing topic of particular interest. The specific topic and prerequisites are announced when the course is offered. Note: Some of the MKGB 7799 Special Topics in Marketing courses are designed as Entrepreneurship courses. Prerequisite: MKGB 6710.
Prerequisites: MKGB 6710 or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 7811. MARKETING INTERNSHIP. (1-3 Credits)
This course is intended for students with a Marketing internship for this trimester that wish to receive academic credit for it. The course will begin with an orientation session and will be followed by additional meetings with students. The course instructor will provide additional details to enrolled students.

MKGB 8701. MARKETING ANALYTICS. (1.5 Credits)
Provides students with a hands-on experience with using various analytical methods and tools to explore digital marketing, including social media marketing and google analytics.
Prerequisite: MKGB 6710 (may be taken concurrently).

MKGB 8702. EXPERIMENTAL DESIGN. (1.5 Credits)
This course will familiarize students with principal research methods used in qualitative research in marketing from both a theoretical and a practical perspective. It will prepare students in the skills, techniques, and knowledge necessary to undertake and/or evaluate various qualitative research methods. By the end of this course, students will get a better understanding of key aspects involved in designing and conducting qualitative research through assigned readings, class discussion, and research projects. Prerequisite: MKGB 7730.
Prerequisite: MKGB 7730.

MKGB 8703. QUALITATIVE RESEARCH. (1.5 Credits)
This mini-course exposes students to a variety of marketing metrics including those related to brand performance in-store (e.g., Nielsen measures used in CPG/brand management) and on-line and the use of those marketing metrics in marketing decision making. The course will cover basic data manipulation and analysis of secondary data from syndicated sources such as Nielsen and IRI. Co-requisite: MKGB 6710. REQUIRED COURSE FOR MARKETING CONCENTRATION Offered in Fall/Spring only.
Prerequisites: MKGB 6710 (may be taken concurrently) or GBA Waiver Marketing Mgmt with a score of 070.

MKGB 8704. EXPERIMENTAL DESIGN. (1.5 Credits)
In this course students will learn how to design an experimental study, carry out an appropriate statistical analysis of the data, and properly interpret and communicate the analyses. Topics to be covered include design of experiments, prevalent experimental techniques and instrumentation, data collection, and various statistical analysis techniques. Prerequisite: MKGB 7730.
Prerequisite: MKGB 7730.

MKGB 8705. DIGITAL MARKETING ANALYTICS. (1.5 Credits)
Provides students with a hands-on experience with using various analytical methods and tools to explore digital marketing, including social media marketing and google analytics.
Prerequisite: MKGB 6710 (may be taken concurrently).

MKGB 8799. SPEC TOPICS: MARKETING MINI. (1.5 Credits)
MKGB 8999. INDEPENDENT STUDY. (1.5-3 Credits)
Marketing (Undergraduate) (MKBU)

MKBU 3225. MARKETING PRINCIPLES. (3 Credits)
Marketing's role within an organization is to develop products or services that have value to potential customers, to estimate that value and price accordingly to distribute the goods efficiently and to communicate their value and availability effectively. This course introduces students to techniques and theories that help the marketer to accomplish these tasks, whether for a mom-and-pop store or a global or multinational manufacturer.

Attribute: BUMI.

MKBU 3431. SALES MANAGEMENT. (3 Credits)
American businesses spend substantial sums on personal selling and employ over 6.4 million people in sales and sales-related jobs. This course studies the field in depth with an analytical approach to organizing and managing the sales function, personnel, development, forecasting, budgeting, communication ethics and the role of government. Selective cases relate theory and practice. Independent (but supervised) research by students is encouraged.

Prerequisite: MKBU 3225.

MKBU 3432. ST: FASHION MARKETING. (3 Credits)
"This course examines the marketing mix through the lens of the fashion industry. Topics to be covered include merchandising, new product development with an emphasis on private label and celebrity brands, customer loyalty programs, and licensing among others. Students will also explore the key issues and challenges of the fashion business model and discuss emerging trends such as m-commerce, social media and apps".

Prerequisite: MKBU 3225.

MKBU 3434. INTEGRATED MARKETING COMMUNICATION. (3 Credits)
Advertising is the most pervasive element of the marketing mix: the average American family of four is exposed to 1,500 advertising messages a day! Students will study the role of advertising in the marketing communications mix, allocating the promotional budget and developing advertising strategy: product positioning, creative development, media planning, research and control, legal issues and ethical considerations. Students will apply theories to case discussion and develop a full-fledged competitive advertising campaign for a potential "client." Since MKBU 3434 is an upper-level business course, credits for this course can only come from accredited business schools (AACSGB guidelines) and not from similarly titled courses from liberal arts colleges.

Attributes: COMC, COMM, NMDD.

Prerequisite: MKBU 3225.

MKBU 3435. CONSUMER BEHAVIOR. (3 Credits)
An interdisciplinary approach to the study of consumer behavior and motivation. Topics include behavioral science findings and their implications in the marketing mix; socioeconomics, demographic and cultural influences; theories of promotion and communication; consumer behavior models; attitude measurement; perception and consumerism.

Prerequisite: MKBU 3225.

MKBU 3436. ST: THE BUSINESS OF FASHION. (3 Credits)
This course explores the dynamic business of fashion which is a significant contributor to the economy of NYC and the United States and is one of the largest employers in our country. Topics discussed will include: textiles, fibers, fabrics, leather and fur as well as product development, fashion enterprises, unique channels of distribution, retailing, merchandising, globalization, the buying and selling of fashion products. Students will also learn basic business concepts such as: forms of business, entrepreneurship, management, human resources, marketing, financial information, and socially responsible behavior and ethical issues in fashion. Whenever possible, guest speakers and visits to fashion-centric exhibits and points-of-interest will be incorporated into course-related activities.

MKBU 3437. DIRECT MARKETING. (3 Credits)

MKBU 3438. RETAILING. (3 Credits)
The retail merchandising function is examined. Topics covered include: retail strategy, trading-area analysis, store location, market analysis and sales forecasting, merchandise planning and management, retail advertising, store image, pricing and analysis of emerging forms of new retail competition.

Prerequisite: MKBU 3225.

MKBU 3439. ST: BRANDING. (3 Credits)
This course examines the strategic importance of branding by focusing on the various ways the brands acquire and sustain value in the marketplace. It analyzes relevant and comprehensive theories, ideas and concepts to demonstrate how managers can make strategic branding decisions. Students learn about socio-cultural perspectives on branding and brand management, financial considerations and consequences of branding decisions.

Prerequisite: MKBU 3225.

MKBU 3440. GLOBAL MARKETING. (3 Credits)
This course addresses the need for global approaches to today's business by focusing on product design, promotion, distribution channels and pricing strategies that are tailored to diverse international cultural, political, competitive and economic environments. Specific attention is placed on the feasibility of import/export, and national or global policies regarding marketing issues.

Attribute: GLBB.

Prerequisite: MKBU 3225.

MKBU 3441. MARKETING RESEARCH. (3 Credits)
A practical approach to the study of research principles and procedures as an important tool of marketing, stressing the role of research in planning, operating and controlling marketing activities. Problems are examined from the perspective of managerial decision making in the age of computers. Analytical and qualitative techniques and their applications to "live" cases are emphasized. Credit will not be given for both this course and DCBU 3430-Design of Experiments. Students concentrating in marketing may not substitute DCBU 3430 for this course.

Prerequisite: MKBU 3225.

Updated: 10-11-2017
MKBU 3442. ST: MARKETING CONSULTING. (3 Credits)
Small groups of students—maximun 3—will work with organizations on a real life marketing problem. The students will work, with the host organization, but not necessarily at the organization premises, towards a solution. The solution will be formally presented at the end of the semester to the host organization. Additionally the students will be able to draw on a tutor who is an experienced Marketing professional who will provide academic and practical support. This could be in any area of marketing, for eg: Research; Product Development; Communications; Internet. The students will be responsible for finding a host organization. This will be part of the grading criteria.

MKBU 3444. ST: CHINESE CULTURAL COMPETENCY. (3 Credits)
China is governed by culture as well as by government. This course is designed to give Fordham students a competitive edge in marketing through and exploration of cultures—American and Chinese. Preconceptions, misperceptions and expectations are presented from both sides, allowing students to find a common ground for effectively marketing a product and negotiating business deals. In a series of interactive meetings, students are presented with a background on each topic and then carry through to active role-playing, dialogue, and written response demonstrating their understanding of the differences between American and Chinese cultural nuances, points-of-view and expectations.
Attribute: GLBB.
Prerequisite: MKBU 3225.

MKBU 3445. ST: MARKETING ANALYTICS. (3 Credits)
The course introduces students to a variety of marketing metrics and analyses. Students will be exposed to syndicated sources of data such as Nielsen and IRI, as well as the techniques for manipulating and analyzing primary data.
Prerequisite: MKBU 3225.

MKBU 3446. MARKETING IN CHINA. (3 Credits)
This course provides students with knowledge needed to develop and execute a successful marketing strategy in China and is divided into three modules: Overview of Chinese history, culture and government, and the economy referred to as capitalism with Chinese characteristics; Chinese business etiquette and its role in developing relationships with government officials, members of other organizations, and individuals; marketing strategy planning and execution, including knowledge of first and second tier markets. Students are challenged to explore their personal beliefs and perceptions, employing self-assessment and role playing techniques and debate social issues from all points of view. Implications for other high-context hierarchical cultures are explored.
Attribute: GLBB.
Prerequisite: MKBU 3225.

MKBU 3448. ST: SOCIAL MARKETING. (3 Credits)
This learning-by-doing course introduces students to the marketing dimensions of social innovation and sustainable business. Course projects address the full spectrum of marketing activities from conducting market research and identifying market opportunities to improving existing services and developing new services.
Prerequisite: MKBU 3225.

MKBU 3449. ST: CUSTOMER EXPERIENCE MGT. (3 Credits)
This course aims to teach students the discipline, methodology and process used to comprehensively manage a customer’s exposure, interaction and transaction with a company, product, brand or service. It offers an integrated framework for managing customer experiences that would create a competitive advantage for companies.

MKBU 3450. ST: MARKETING ENTREPRENEURIAL VENTURES. (3 Credits)
The entrepreneurial ventures don't have the time, staff, or money for strategy development, testing, and sequential marketing campaigns. Nonetheless, marketing is critically important. This course will introduce students to theories and best practices in marketing for entrepreneurial ventures. Students will analyze and discuss relevant case studies, and they will apply their learning in assignments and group projects.
Prerequisite: MKBU 3225.

MKBU 3451. ST: STRATEGIC PRODUCT PLANNING. (3 Credits)
This course aims to introduce students to product planning process, including product line and mix strategies. It covers topics that are relevant to “product” part of marketing mix and management. It focuses on the development and application of value-enhancing strategies used by successful product managers.
Prerequisite: MKBU 3225.

MKBU 3452. ST: MKTG&INNOVATION IN ENERGY. (3 Credits)
The purpose of the course is to frame and critique opportunities for business to create innovations in energy systems. Consequently, the course will seek to induce the student to learn about energy systems in different parts of the world, as well as energy systems supporting different sectors of contemporary economies. This course will encourage students to think broadly, which should influence how to gather information and determine what information to gather.
Prerequisite: MKBU 3225.

MKBU 3453. ST: INNOVATION & RESILIENCE. (3 Credits)
This course focuses on the process of innovation, including the resilience required to weather inevitable ambiguity, risk, mistakes, and even failures along the journey. Topics include: identifying opportunities, managing creativity, evaluating ideas, decision making in uncertain environments, resilience.

MKBU 3454. ST: DESIGN THINKING. (3 Credits)
Design thinking is an iterative problem-solving process of discovery, ideation, and experimentation that, when combined with business models, provides decision-makers with effective tools for innovation and transformation. This hands-on course will guide students in the use of a variety of design-based tools and techniques to clarify and solve human-centered organizational, business, and public service challenges.

MKBU 3455. BUSINESS ANTHROPOLOGY IN GLOBAL CONTEXT. (3 Credits)
Business anthropology is a growing field of study and an emerging professional market, globally. Anthropology holds that there are many different and complex social and cultural ways of ordering life. This course will instruct students on ways to develop and understand local consumer behavior for global brand reach, devise brand strategies for specific markets, and understand brands from a local point of view.
Prerequisite: MKBU 3225.

MKBU 3456. GLOBAL CONSUMER BEHAVIOR. (3 Credits)
This course studies consumer behavior in a global context with an interdisciplinary approach. Topics include behavioral science findings and their implications in the marketing mix; socioeconomics, demographic and cultural influences; theories of promotion and communication; consumer behavior models; attitude measurement; perception and consumerism.
Prerequisite: MKBU 3225.
MKBU 3457. BUS ANTHROP IN GLOBAL CONTEXT. (3 Credits)
Business anthropology is a growing field of study and an emerging professional market, globally. Business leaders increasingly find that insights from anthropology are necessary to reduce complexity and rethink what they can offer their customers on their terms. This course will instruct students on ways to develop and understand local consumer behavior for global brand reach, devise brand strategies for specific markets, and understand brands from a local point of view.
Prerequisite: MKBU 3225.

MKBU 3458. ST:GLOBAL SUSTAINABILITY MKT. (3 Credits)
This course aims to provide the knowledge and skills necessary to successfully market sustainable products and services in global markets. It examines global trends and issues that influence the success of sustainability marketing and discusses the role it plays for global companies. Students learn about the key elements of developing a successful marketing approach for sustainable offerings in global markets.
Prerequisite: MKBU 3225.

MKBU 3459. CROSS CULTR CONSUMER INSIGHT. (3 Credits)
This course applies theories of anthropology and ethnography to the study of consumer insights in a cross-cultural context. Topics include the study of cultures and subcultures, ethnographic research designs, customer immersion, and contemporary ethnocentric writing.
Prerequisite: MKBU 3225.

MKBU 4101. ST: PSYCHOLOGY OF PRICING. (1.5 Credits)
When is it better to price a product at $3.99 compared to $4.00? Should an e-tailer include shipping charges in their products' prices or add them separately? Among a marketer's tools, price is arguably the most important because it is the only one that represents revenue, rather than a cost, to the firm. Yet decisions like these are often wrought with complexity and uncertainty. This mini course brings structure to the issue through explorations of consumers' beliefs, feelings, and behaviors with respect to prices and pricing tactics.
Prerequisite: MKBU 3225.

MKBU 4102. ST: FASHION MARKETING. (1.5 Credits)
This course examines the marketing mix through the lens of the fashion industry. Topics to be covered include merchandising, new product development with an emphasis on private label and celebrity brands, customer loyalty programs, and licensing. This course will also explore the key issues and challenges of the fashion business model and discuss emerging trends such as m-commerce, social media and apps.
Prerequisite: MKBU 3225.

MKBU 4105. ST: SERVICES MARKETING. (3 Credits)
Services account for over 75% of the GDP in the US and, even in a difficult economic environment, many sectors are growing rapidly. This course will provide in-depth analysis of the challenges and opportunities in marketing services to consumers and businesses. Students will learn how to identify, create and develop winning service marketing strategies. Topics will include marketing principles, buyer behavior and delivery of service quality from both consumer and business-to-business perspectives.
Prerequisites: (MKBU 3225 or MKCL 3225 or MKCB 3225).

MKBU 4107. ST: SCIENCE OF SHOPPING. (1.5 Credits)
The Science of shopping will examine the anthropological dimensions of retail shopping from four interconnected perspectives: practical, relational, socio-economic and sensory-physical. Students will study the pragmatics of shopping — how people manage to navigate to a store; they will explore shopping malls in terms of self-identity, social class and feelings of community; they will look at the rituals of Christmas shopping; they will evaluate the sensory dimensions of a store in experiential shopping. Form exploring the interplay of there variables, students should receive a practical and theoretical understanding of the retail experience for consumers and its importance to our culture.

MKBU 4108. ST: MARKETING TO YOUNG CONSUMERS. (1.5 Credits)
This course examines special considerations in marketing products designed for infants, preschoolers, kids and tweens. Topics to be covered include concept/product testing with children, advertising to children, the parent vs. child as decision maker, and the role of peer influence on decision making.
Prerequisite: MKBU 3225.

MKBU 4109. ST:REVEALING CONSUMER INSIGHTS. (1.5,3 Credits)
This course aims to teach students about revealing insights and underlying themes from vast consumer data to identify opportunities for improving consumer products, brands and services. Students will learn to discover insights and overall consumer trends and use them to make strategic marketing decisions.
Prerequisite: MKBU 3225.

MKBU 4111. ST:CUBA IN TRANSITION. (1.5 Credits)
Cuba is looking for business models and partnerships that will preserve its egalitarian tradition and its rich historic culture. In this course, through class meetings, assigned readings, and guest speakers, students will learn about the unique Cuban culture and economy that is faced with the challenges of a socialist economic system developing a budding entrepreneurial private sector.

MKBU 4441. MARKETING STRATEGY. (3 Credits)
Students exercise the business skills they have developed in previous course work in all functional fields by applying these techniques and theories to a series of marketing challenges. Case analysis and discussion present an integrated approach to decision making that will achieve corporate objectives.
Prerequisite: MKBU 3225.

MKBU 4442. ST: MKTG FINCL SERVICES. (3 Credits)
The objective of this course is to provide an understanding of the successful strategies associated with the marketing of financial services. Financial services have witnessed a significant growth in marketing activity during the past five years due to industry deregulation, intensified competition, and the emergence of new technologies and products. These changes have made it critical for business students who anticipate being active in financial services to expand their skill sets and to explore new approaches for successful marketing of these services. Many of these approaches are found through systematic exploration of opportunities arising from the financial decision making styles of consumers the dynamics by which technology will be influencing consumer choices in the near future. This course is intended for students who anticipate becoming active marketers of financial services at some point in their careers. Having completed this course, students should be able to manage consumer marketing activities for a wide array of financial services organizations.

Updated: 10-11-2017
MKBU 4443. SPECIAL TOPIC: PERFORMING ARTS IN THE 21ST CENTURY. (3 Credits)
To chart careers with the widest possible scope for their talent, performers must understand the economic system in which they operate. This course provides a basic understanding of the complex business of the arts, through a series of guest lectures by managers of orchestras, theater, dance, and opera companies, record companies, etc. No business experience is required. Offered in collaboration with the Julliard School on their campus at Lincoln Center.
Attributes: COMC, COMM, THEA.
Prerequisite: MKBU 3225.

MKBU 4446. SPECIAL TOPIC: ENTERTAINMENT MARKETING. (3 Credits)
This is a survey course addressing the fundamental planning and strategic concepts and processes essential for marketing entertainment goods and services in today's competitive domestic and global environments.
Prerequisites: (MKBU 3225 or MKCL 3225 or MKCB 3225).

MKBU 4451. SPECIAL TOPIC: DATA DRIVEN MARKETING DECISIONS. (3 Credits)
The course aims at offering students advanced analytical marketing and decision making tools in order to help them solve typical marketing managerial situations. It will allow students to simulate data driven marketing decisions and formulate sound recommendations. The course will deal with lectures that will immediately be applied to case studies and in-class exercises.
Prerequisite: MKBU 3225.

MKBU 4454. SPECIAL TOPIC: SPORTS MARKETING. (3 Credits)
The entertainment sector is a major industry. Within that sector, sports activities are targeting a number of demographic and other segments of the population. While some sports (collegiate and professional) are quite successful in their marketing strategies, others struggle to gain or to hold their audience within a competitive market place. This course evaluates the marketing mix of those sports teams and institutions that are successful and assesses the marketing ingredients of those sports activities that are struggling to gain a larger or profitable share of the audience.
Prerequisite: MKBU 3225.

MKBU 4457. ST: CB CONSULTING PROJECT. (3 Credits)
A team of undergraduate students will have the opportunity to participate in a one semester project acting as consultants in an advisory role. Students will be given a consulting project and asked to complete a plan for a final course of action for which a company can undertake. Students will apply their academic and individual expertise to the development of this plan.

MKBU 4458. SPECIAL TOPIC: INTRODUCTION TO PUBLIC RELATIONS. (3 Credits)
Strategic and tactical approaches are given to public relations as a business and as a business/management tool. Emphasis is on planning and executing public relations programs and activities, including relations with the news media and other external communications as well as internal/organizational communication.
Prerequisite: MKBU 3225.

MKBU 4459. ST: MARKETING THE ARTS. (3 Credits)
Learn how to incorporate marketing techniques, public relations and advertising to develop specific strategies targeting new audiences. These classes will stress how to communicate, present materials and create events that will identify and stimulate new participants. Samples of materials and case studies will be utilized. Selected communities will be analyzed and techniques discussed to best involve them in audience development. For this course, "the Arts" will include theater, dance, museums, painting and the plastic arts. Guest speakers will add both theoretical and practical insights.

MKBU 4462. ST: GLOBAL IMMERSION: ROME. (3 Credits)
This class aims to teach how a city as a whole could be incorporated into the marketing mix and be used for marketing purposes. It is a mix of rigor and eclecticism delivered in an accessible manner, in historical city of Rome. Class meetings prior to departure will be comprised of lectures focused on the class model, as well as film screenings to provide context and prepare students for their experience in Rome.

MKBU 4463. ST: GLOBAL IMMERSION IRELAND. (3 Credits)
This study tour course focuses on doing business in Ireland and the European Union by allowing students to personally experience business practices and culture in this major global market. Students meet with faculty and periodically during the preceding semester to discuss reading assignments and tour arrangements. Students travel to Ireland in early January, to meet as a class with local businesses, advertising agencies, the U.S.-Irish Chamber of Commerce, government agencies, and manufactureres and retailers.
Attribute: GLBB.

MKBU 4465. ST: STUDY TOUR IN PARIS. (3 Credits)

MKBU 4477. ST: STUDY TOUR TO SPAIN. (3 Credits)
This course includes travel to Spain for business and cultural site visits as well as pre-travel lectures, assigned readings, pre-travel exam, company research assignments, and a final research paper.
Attribute: GLBB.

MKBU 4484. ST: STUDY TOUR OF TOKYO. (3 Credits)
This class aims to teach how a city as a whole could be incorporated into the marketing mix and be used for marketing purposes. It is a mix of rigor and eclecticism delivered in an accessible manner, in an extraordinary mega city of Tokyo. Class meetings prior to departure will be comprised of lectures focused on the class model, as well as film screenings to provide context and prepare students for their experience in Japan.
Prerequisite: MKBU 3225.

MKBU 4485. ST: STUDY TOUR ICELAND. (3 Credits)
Students will have the opportunity to learn firsthand the journey Iceland has taken from a country in the middle of a major financial crisis in 2008, to a new era of economic growth beginning in 2011 with growth in GDP as well as declined trends in unemployment. Visits to a variety of marketing/business related companies, both domestic and foreign, will focus on marketing to a segment of the EU that is still in the process of transforming a challenging situation into a country with an improved consumer confidence. A visit to Iceland's capital, Reykjavik, will be a representation of the marketing difficulties that once faced this now thriving city. In addition to business visits, cultural visits will enable students to understand the impact that this financial crisis has had on the social/cultural environment. Students will experience what many regard as“ One of Europe's Recovery Success Stories”
Prerequisite: MKBU 3228.
MKBU 4505. E-COMMERCE. (3 Credits)
This course introduces students to concepts, issues and technologies for transacting electronic business. Topics include use of Internet and Web technologies for interacting with customers and suppliers, electronic business-to-business and business-to-consumer transactions, capturing and processing transactions online, electronic publishing and entertainment, electronic payment, and settlement systems, security and privacy, encryption and firewalls and corporate intellectual property protection. Prerequisite: INSY 2300 or INSY 2400.
Prerequisites: INSY 2300 or INSY 2400.

MKBU 4706. HONORS PROJECT 2 - MARKETING. (3 Credits)
Honors project in Marketing.

MKBU 4999. INDEPENDENT STUDY. (1-4 Credits)

Marketing Intelligence (MIGB)

MIGB 779H. MARKETING DECISION MODELS. (3 Credits)

MIGB 779Z. APPLIED PROJECT. (3 Credits)

MIGB 6710. CUSTOMER-DRIVEN MARKETING. (3 Credits)
This course introduces students to marketing both as a company orientation and as a company function, and emphasizes why and how successful marketing needs to be customer-driven. Interactive class discussions focus on the role and importance of marketing for the entire organization, individuals and society at large. Students learn how marketing interacts with other business functions within a company, as well as how marketing contributes to both the company bottom-line and customers’ well-being. Topics covered include the strategic marketing process; the creation, communication, delivery and exchange of value; market segmentation, targeting, and positioning; and the marketing mix. Lectures, comprehensive case analyses, in-class exercises, and team projects are used to provide a complete understanding of customer-driven marketing practices within a global framework.

MIGB 7720. CONSUMER BEHAVIOR. (3 Credits)
Analyzes the latest social science research and theories to better understand consumer behavior. Special attention is directed to applications in managerial decision-making. Topics including motivation, learning, memory, perception, attitude formation and change and decision-making are covered to explain and predict how consumers behave in the marketplace. Prerequisite: MIGB 6710.
Prerequisite: MIGB 6710.

MIGB 7732. DATA DRIVEN MKTG DECISIONS. (3 Credits)
Analyzes the latest social science research and theories to better understand consumer behavior. Special attention is directed to applications in managerial decision-making. Topics including motivation, learning, memory, perception, attitude formation and change and decision-making are covered to explain and predict how consumers behave in the marketplace. Prerequisite: MIGB 6710.
Prerequisite: MIGB 6710.

MIGB 7785. MARKETING STRATEGY. (3 Credits)

MIGB 8701. MARKETING ANALYTICS. (1.5 Credits)
Exposes students to a variety of marketing metrics including those related to in-store and online brand performance (i.e., Nielsen measures used in CPG/brand management) and the use of those metrics in marketing decision-making. Covers basic data manipulation and analyses of secondary data from syndicated sources, such as Nielsen and IRI. COREQUISITE: MIGB 6710.
Prerequisite: MIGB 6710.

MIGB 8702. EXP CAREER DEV PORTF I. (0 Credits)

MIGB 8703. REVEAL CONSUMER INSIGHTS. (1.5 Credits)

MIGB 8704. QUALITATIVE RESEARCH. (1.5 Credits)

MIGB 8705. APPLIED CRM. (1.5 Credits)

MIGB 8706. EXPERIMENTAL DESIGN. (1.5 Credits)

MIGB 8707. LANGUAGE OF CONSUMERS. (1.5 Credits)

MIGB 8708. JOB ANALYSIS. (0 Credits)

MIGB 8709. DIGITAL MARKETING ANALYTICS. (1.5 Credits)
Provides students with a hands-on experience with using various analytical methods and tools to explore digital marketing, including social media marketing and google analytics.
Prerequisite: MIGB 6710.

MIGB 8712. EXP CAREER DEV PORTF II. (0 Credits)

MIGB 8722. EXP CAREER DEV PORTF III. (0 Credits)

MIGB 8730. INTRO TO MARKETING RESEARCH. (1.5 Credits)
Provides a fundamental understanding of marketing research methods and their applications, offering perspectives from both the provider and user of information needed for managerial decision-making. Discusses the marketing research process with an emphasis on the identification, collection, analysis, and dissemination of data. Topics include problem definition, the use of secondary data, various quantitative and qualitative methods, preparation and evaluation of surveys, and basics of data analysis. Prerequisite: MIGB 6710.
Prerequisite: MIGB 6710.

MIGB 8731. SURVEY & QUESTIONNAIRE DESIGN. (1.5 Credits)
Provides the framework, skills, and tools to develop valid and reliable marketing research techniques. Working in support of marketing objectives, this course examines practical executions of research surveys with consumers and businesses. Enables students to structure and scale research surveys with a variety of implications and methods of analysis, measurement, and evaluation. Prerequisite: MIGB 6710.
Prerequisite: MIGB 6710.

MIGB 8999. TUTORIAL. (1.5 Credits)

Master's Seminar (Gabelli) (MSGB)

MSGB 809A. ADV PRES AND PUBLIC SPEAKING. (1.5 Credits)
A course on advanced skills in public speaking and presentation skills.
Attribute: ESL.

MSGB 809B. ADV CORPORATE COMMUNICATIONS. (1.5 Credits)
A course on advanced communication skills in the corporate environment.
Attribute: ESL.

MSGB 6801. CAREER DEVELOPMENT BOOT-CAMP 1. (0 Credits)
Designed for the MBA cohort to participate in numerous personal and professional development activities to enhance employability and ensure "career readiness." Students will be required to attend a recruitment overview, complete a career assessment and attend a related small group discussion session, complete an Excel workshop, and meet with a career adviser at least once per term to fulfill the career check-in component of the course.

Updated: 10-11-2017
MSGB 6802. CAREER DEVELOPMENT BOOT-CAMP 2. (0 Credits)
This course builds on the foundation laid in boot camp 1. In order to ensure further career readiness, students will take part in a workshop to help them develop cross-functional leadership skills and participate in a presentation skills workshop as well as a negotiations skills workshop. Students are also required to meet with a career adviser at least once per term to fulfill the career check in component of the course.

MSGB 8099. SPECIAL TOPICS. (1.5 Credits)
Broad base seminar course.

Mathematics (MATH)

MATH 12AB. TRANSFER CALCULUS AB. (3 Credits)

MATH 12BC. TRANSFER CALCULUS BC. (3 Credits)

MATH 0100. MATH 0100 EFFECTIVE MATHEMATICAL THINKING. (2 Credits)
A preparatory course to assist students in PCS with the analytical, computational and reasoning skills necessary to succeed in further mathematics courses including Finite Mathematics. Emphasis is on the use of problem solving tools and critical thinking. Topics include numeration, algebra, functions and graphs, probability and sets, logical thinking, and patterns and sequences. This course does not satisfy the mathematical reasoning core curriculum requirement.

MATH 1000. PRECALCULUS. (3 Credits)
This course does not fulfill the Mathematics reasoning portion of the Curriculum. The course is designed to allow students entry into calculus courses.

MATH 1001. MATH FOR BUSINESS: PRECALCULUS. (3 Credits)
A preparatory course to assist students at GSB to take Math for Business: Calculus. Topics include inequalities; linear, polynomial, rational, exponential, logarithm and inverse functions and their graphs; distance, lengths and area of simple regions. This course does not satisfy the mathematical reasoning core area requirement.

MATH 1002. BEATS, VIBRATION AND HARMONY; A MUSICAL PLAYBILL TO MATHEMATICS. (3 Credits)
This course covers classic mathematical concepts found in music. Part one of the course considers consonance and dissonance from the perspective of mathematical properties of trigonometric functions. In the second part of the course, we study combinations of pitches and use these combinations to explain the unique sound characteristics of well-known instruments. The final part of the course deals with the tuning of musical scales and describing symmetries that arise in musical composition. Successful students will be able to use mathematics to explain musical sounds from their everyday experience. They will understand the motivations that led to modern tuning systems and be able to contextualize instrumentation and patterns in contemporary music. The material does not assume a background in Calculus or music theory, and the lectures include experimental demonstrations.

MATH 1003. APPLIED STATISTICS. (3 Credits)
This course covers basic statistical methods such as correlation and regression analysis. Illustrations are taken from a variety of fields. Practical experience with statistical software. Prerequisite: MATH 1203 or equivalent.

MATH 1100. FINITE MATHEMATICS. (3 Credits)
Solutions to systems of linear equations, counting techniques including Venn diagrams, permutations, combinations, probability, Bayes theorem, Markov chains. This course is designed to introduce general liberal arts students to the use of mathematics as a tool in the solution of problems that arise in the "real world". Applications will be chosen from areas such as business, economics, and other social and natural sciences. These applications will be based upon mathematical topics chosen from a field called Finite Mathematics. Specific topics to be covered may include Linear Programming, Probability, Statistics, and Finance. The only prerequisites are arithmetic, elementary algebra, and graphing, which students should already be familiar with from previous high school or college courses and/or the Mathematics Workshop. It will be presumed that students possess basic skills in these areas.

Attribute: MCR.

MATH 1108. MATH FOR BUSINESS: FINITE. (3 Credits)
Open only to CBA students. Solutions to systems of linear equations, elementary matrix theory, linear programming, elementary counting techniques, probability, mathematics of finance.

MATH 1109. MATH FOR BUSINESS: CALCULUS. (3 Credits)
Open only to CBA students. Calculus for business majors. Topics include derivatives of polynomial, rational, exponential and logarithm functions. Curve sketching and optimization problems. The definite integral. Applications are drawn from business and economics.

MATH 1198. HONORS BUSINESS MATH. (4 Credits)
Review of Calculus. Solutions of systems of linear equations using matrix algebra. Discrete and continuous probability. Applications to business. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MATH 1203. APPLIED CALCULUS I. (3 Credits)
Calculus for nonscience majors. Topics include derivatives of polynomial, rational, exponential, and logarithm functions. Curve sketching and optimization problems. The definite integral.

Attributes: ENVS, MCR.

MATH 1204. APPLIED CALCULUS II. (3 Credits)
A continuation of MATH 1203. Topics include derivatives of trigonometric functions, methods of integration and applications, calculus of functions of several variables, Lagrange multipliers. Prerequisite: MATH 1203 or equivalent.

Prerequisite: MTEU 1203.

MATH 1205. APPLIED STATISTICS. (3 Credits)
Course designed for students in fields that emphasize quantitative methods. It includes calculus based preliminary probability material followed by introduction to the basic statistical methods such as estimation, hypothesis testing, correlation and regression analysis. Illustrations are taken from a variety of fields. Practical experience with statistical software. Prerequisite: MATH 1203 or equivalent.

Attribute: ENVS.

Prerequisite: MATH 1203.

MATH 1206. CALCULUS I. (4 Credits)
Calculus for science and math majors. Functions, limits, continuity, Intermediate Value Theorem. The derivative and applications, antiderivatives, Riemann sums, definite integrals, the Fundamental Theorem of Calculus. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ENVS, MCR.
MATH 1207. CALCULUS II. (4 Credits)
A continuation of MATH 1206. The definite integral, area, volumes, work. Logarithm, inverse functions, techniques of integration, Taylor polynomials. Prerequisite: MATH 1206 or equivalent. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 1206 or MATH 12AB or MATH 12BC.

MATH 1700. MATHEMATICAL MODELLING. (4 Credits)
This course shows how discrete and continuous mathematical models can be built and used to solve problems in many fields. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ENVS.
Prerequisites: MATH 1206 or MATH 1207.

MATH 1800. INTERNSHIP. (1 Credit)

MATH 1999. SERVICE LEARNING-1000 LEVEL. (1 Credit)
In this student-initiated program, the student may earn one additional credit by connecting a service experience to a course with the approval of the professor and the service-learning director.

MATH 2001. DISCRETE MATHEMATICS. (4 Credits)
Topics include elementary logic, set theory, basic counting techniques including generating functions, induction, recurrence. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 1206 or MATH 1207.

MATH 2004. MULTIVARIABLE CALCULUS I. (4 Credits)
The calculus of sequences and series, power series, uniform convergence, vector methods of solid geometry, vector valued functions, functions of several variables, partial derivatives, gradients, Lagrange multipliers. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 1206 or MATH 1207.

MATH 2005. MULTIVARIABLE CALCULUS II. (4 Credits)
This is a continuation of MATH 2004. Topics include vector fields and their derivatives, multiple integrals, line and surface integrals, and the theorems of Gauss, Green and Stokes. Additional topics, as time permits, may cover one or more of the following: differential forms, functions of a complex variable, equations of fluid mechanics, or mean and Gauss curvature.
Prerequisite: MATH 2004.

MATH 2006. LINEAR ALGEBRA I. (4 Credits)
Topics include systems of linear equations, Real and complex vector spaces, linear independence, dimension, linear transformations, matrix representations, kernel and range, determinants and eigenvalues. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 1206 or MATH 1207.

MATH 2007. LINEAR ALGEBRA II. (4 Credits)
Topics include polynomials, linear independence, dimension, linear transformations, matrix representations, kernel and range, determinants and eigenvalues. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 2006.

MATH 2008. LINEAR ALGEBRA III. (4 Credits)
Topics include inner product spaces, canonical forms, coding theory.

MATH 2009. LINEAR ALGEBRA IV. (4 Credits)
Topics include polynomials, linear independence, dimension, linear transformations, matrix representations, kernel and range, determinants and eigenvalues. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 2008.

MATH 2010. LINEAR ALGEBRA V. (4 Credits)
Topics include polynomials, linear independence, dimension, linear transformations, matrix representations, kernel and range, determinants and eigenvalues. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 2009.

MATH 2011. PROGRAMMING FOR MATH AND SCIENCE. (4 Credits)
Basic Python programming and scripting and basic algorithms of linear algebra. Students will develop their own Python implementations of these algorithms, which form the basis of many computational methods in the sciences. The course is accessible to students in the physical and social sciences, computer science and math. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: CISC 1600.

MATH 3001. LINEAR ALGEBRA II. (4 Credits)
Topics include vector spaces over arbitrary fields, triangular form, Jordan canonical form, inner product spaces, coding theory. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 2001 and MATH 2006.

MATH 3002. DIFFERENTIAL EQUATIONS. (4 Credits)
Topics include existence and uniqueness theorems for ordinary differential equations, linear differential equations, power series solutions and numerical methods. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MATH 2004.

MATH 3003. REAL ANALYSIS. (4 Credits)
Analysis on the real line. Topics include cardinality of sets, limits, continuity, uniform continuity, sequences of numbers and functions, modes of convergence, compact sets and associated theorems. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MATH 3004. COMPLEX ANALYSIS. (4 Credits)
Topics include complex numbers and mappings, analytic functions, Cauchy-Riemann equations, Cauchy integral theorem, Taylor and Laurent series expansions, residue theory. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MATH 2004.

MATH 3005. ABSTRACT ALGEBRA I. (4 Credits)
Topics include well ordering and induction, unique factorization, modular arithmetic, groups, subgroups, Lagrange's theorem, normality, homomorphisms of groups, permutation groups, simple groups. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 2001 and MATH 2006.

MATH 3006. PROBABILITY. (4 Credits)
Topics include discrete and continuous probability models in one and several variables, expectation and variance, limit theorems, applications. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
MATH 3007. STATISTICS. (4 Credits)
Topics include sampling distributions, estimation, testing hypotheses, analysis of variance, regression and correlation, nonparametric methods, time series. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MATH 3006 and MATH 2004.

MATH 3008. NUMBER THEORY. (4 Credits)
Topics include divisibility and related concepts, congruencies, quadratic residues, number theoretic functions, additive number theory, some Diophantine equations. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MATH 2001.

MATH 3009. MATHEMATICS OF FINANCE. (4 Credits)
The market for options, a type of contract in finance, has grown quickly in the past fifty years. In this course we will explore the Nobel Prize-winning Black-Scholes-Merton model for valuing these contracts. We will introduce basic notions of probability (such as Brownian motion) as well as basic notions from finance (such as the No Arbitrage Principle) and use these to derive and solve the Black-Scholes equation. Prerequisite: Math 2004. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MATH 2004.

MATH 3010. SCIENTIFIC COMMUNICATION. (4 Credits)
Students develop skills in written and oral communication needed to produce scientific articles, monographs and presentations that are accomplished in both form and content. The course covers both the use of LaTeX to produce work that meets the highest standards of design and typography, and the techniques of writing, organization, and scholarly citation needed to ensure that this work accurately embodies, effectively communicates, and professionally documents the author's scientific thought. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MATH 3012. MATH OF INFINITY. (4 Credits)
Elementary set and function theory. Notion of counting infinite sets, including Hilbert's infinite hotel. Cardinality and infinite cardinals. Cantor's work on infinite sets. Additional topics may include: well-ordered sets and math induction; prime number generators; the Riemann zeta function; logic and meta-mathematics. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MATH 4004. TOPOLOGY. (4 Credits)
Topics include open sets and continuity in metric spaces and topological spaces, subspaces and quotient topologies, compact sets, connected sets. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MATH 4006. NUMERICAL ANALYSIS. (4 Credits)
Prerequisites: MATH 1700 and MATH 2006. Topics include approximation of functions, interpolation, solution of systems of equations, numerical integration, and solutions to different equations, error analysis. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 2004 and MATH 2006.

MATH 4009. TOPICS IN GEOMETRY. (4 Credits)
This course focuses on the study of Euclidean and Non-Euclidean geometries using both axiomatic and discovery based approaches. We review some of the basics in logic and study some of the proofs presented in Euclid's Elements before focusing on more advanced topics. We may use Geometer's Sketchpad in making discoveries and conjectures. We will study the history of the parallel postulate, the discovery of Non-Euclidean Geometry and the attendant philosophical implications. We will build models and focus on some interesting properties in hyperbolic geometry. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MATH 2004.

MATH 4020. DIFFERENTIAL GEOMETRY. (4 Credits)
This course introduces the geometry of curved spaces in many dimensions, which are the basis of subjects such as Einstein's theory of gravitation. Topics include manifolds, tangent spaces, the Gauss map, the shape operator, curvature, and geodesics. Prerequisites: MATH 2004 and MATH 2006. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: (MATH 2004 or MTEU 2004 or MTRU 2004 or MTLU 2004) and (MATH 2006 or MTRU 2006 or MTEU 2006 or MTLU 2006).

MATH 4022. PARTIAL DIFFERENTIAL EQUATION. (4 Credits)
This course is an introduction to the theory of partial differential equations. The course covers first hyperbolic, heat and wave equations, Poisson's equation and harmonic functions. Topics include Poisson's integral formulas, the method of characteristics, the method of images, maximum principles and barriers and series solutions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MATH 2005 or (MATH 2006 and MATH 3002).

MATH 4999. INDEPENDENT STUDY. (1-4 Credits)

MATH 5001. PROBABILITY. (4 Credits)
An introductory course in probability theory intended for schoolteachers working on a graduate degree in mathematics education. It presents standard probability topics: combinatorial probability, overview of basic random variables, limit theorems. The course includes pedagogical components such as lesson studies focusing on effective presentation of probability topics in the classroom. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
MATH 5003. GEOMETRY. (4 Credits)
This course focuses on the study of both Euclidean and Non-Euclidean Geometry using axiomatic and discovery based approaches. It is intended for teachers working on a graduate degree in mathematics education. The course includes a pedagogical component such as lesson studies focusing on effective presentation of geometry topics in the classroom and the use of GSP. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Medieval Studies (MVST)

MVST 3057. MEDIEVAL GERMAN LITERATURE: POTIONS, PASSIONS, PLAYERS, AND PRAYERS. (4 Credits)
This course will introduce students to the rich literary and cultural heritage of Medieval Germany. The texts will all be read in English translation, but we will go over some passages in their original languages in class to catch some of the flavor of the Medieval German. Topics covered will include pre-Christian charms, the epic of the Nibelungs, love poetry, and urban carnivale plays. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, GERM.
Prerequisite: GERM 2001.

MVST 3102. MEDIEVAL WOMEN WRITERS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MVST 3210. KING, COURT, AND CRUSADE: WRITING KNIGHTLY LIFE IN THE HIGH MIDDLE AGES. (4 Credits)
This course will view the medieval world through a lens provided by the life and writings of one man, John of Joinville (d. 1317). John was a knight, a crusader, and a close friend of King Louis IX of France (canonized as Saint Louis). He wrote a Life of Saint Louis that is rich with information about his own life, as well as the saintly king's. We will use the Life to open an examination of key themes in the knighthood experience in the high middle ages, including: power, faith, the crusades, noble culture, family and social relations. It will also consider the usefulness of biography-autobiography in understanding the past.
Attributes: AHC, HIST.

MVST 3500. THE KNIGHTS OF THE ROUND TABLE. (4 Credits)
In this course, we will look for the traces of King Arthur and his Knights in modern-day London and its environs. Reading the foundational texts of Arthurian literature right where it all happened, we will be able to go to the sites and see the artifacts that remain. We will be reading excerpts from the early annals and chronicles, which laid the foundation for Arthur's fame in history, and we will follow the exploits of some of the most prominent members of the Round Table as they were depicted in medieval literature: Sir Gawain, the ladies' man (Sir Gawain and the Green Knight, Geoffrey Chaucer's "Wife of Bath's Tale), Sir Perceval, the Grail Knight (Chretien de Troyes, Perceval), Sir Tristrem, the knight who fell in love with his uncle's wife, (Gottfried von Strassburg, Tristan and Isolde) and Merlin the sorcerer (in the modern rendition by Mary Stewart, The Crystal Cave). We are planning excursions that will take us to Winchester to have a look at the tangible, wooden, "Round Table," Stonehenge, the mystical stone circle associated with Merlin and his craft, and Canterbury, the destination of the most important pilgrimage on English soil. In London, we will visit Westminster Cathedral, the British Library, Museums holding Arthurian artifacts, and the Crypt of St. Martin-in-the-Fields for some brass rubbing and afternoon tea. This immersion into medieval culture will allow us to read Arthurian literature in a way uniquely possible in London. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
**MVST 3535. BUILDING THE IDEAL CITY. (4 Credits)**
This course introduces students to the investigation of the role that economic concepts such as profit, work, utility, and exchange play in defining the ideal city as a realizable political project. Students will investigate ethical and economic concepts and their interrelation in the debate on the best form of State and government that developed from antiquity to modern American Utopian Communities. The course includes texts from various sources, philosophical, theological, society developed in time and influence modern political thought. The course focuses on the impact of the socio-economic doctrines of the Church in shaping the idea of a possible, realizable, ideal city.

**Attribute:** AHC.

**MVST 3700. MEDICINE, MAGIC, AND MIRACLES: SICKNESS AND HEALTH IN THE EARLY MIDDLE AGES. (4 Credits)**
This course provides an introduction to the systems of learned medicine of western Europe from Late Antiquity to the High Middle Ages. Using a wide range of sources, including medical texts, hagiography, liturgy, and modern scientific studies, we will explore the distinctions between medical theory and practice, the relationship of secular and ecclesiastical authorities to the compilation of medical knowledge and the fundamental question of what constitutes medicine and what does not. In addition, we will consider the changing definition of illness and health through an investigation of medieval responses to the cataclysm of the Black Death. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attribute:** AHC.

**MVST 3701. ROYAL SAINTS OF MEDIEVAL EUROPE: POLITICS, LITURGY AND GENDER. (4 Credits)**
This course investigates how kings and queens became saints during the European Middle Ages, alongside broader debates about medieval notions of sanctity, gender, and power. Using varied sources including hagiography, liturgy, chronicles, and material culture, we will explore the reasons why royal saints were remembered and the ways they were venerated in the celebrations of the Church. Through a series of case studies, we will also consider the uses of royal saints as propaganda by church and secular authorities to legitimize their rule, promote ongoing Christianizing efforts, and engender zeal for the Crusades.

**MVST 3800. CLOISTERS, CASTLES, AND KINGS: MEDIEVAL BAVARIA. (4 Credits)**
This course will explore medieval secular and church history as it manifested itself in the literature and culture of Bavaria. Includes a study abroad component. Spring break visit to Regensburg and Munich. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attributes:** ALC, COLI, GERM, MLL.

**MVST 4003. WAR AND PEACE: JUST WAR THEORY. (4 Credits)**
This is a Senior values seminar, usually offered in Philosophy. It is a course in applied ethics. It will involve the application of a normative ethical theory to the moral problems associated with war. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attribute:** HIST, ICC.

**MVST 4005. THE MEDIEVAL TRAVELER. (4 Credits)**
This course follows the routes of pilgrims, crusaders, merchants, nobles and peasants as they charted a course for lands of promise and hoped-for prosperity. In Medieval Traveler, we will read selections from the diaries, chronicles, and historical literature written by and about travelers in the Middle Ages. We will begin and end with travelers who sought miracles, marvels, and new trading routes on the cusp of the known world. We will focus in particular on the practicalities of medieval travel, and well as the reasons for traveling: the sacred, the profane, and everything in between. This will be an interactive class, be prepared to discuss and debate issues of interest. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attributes:** ENGL, GLBL, HIST, ICC, OCST, REST.

**MVST 4006. DANTE’S COSMOS SCIENCE, THEOLOGY AND LITERATURE. (4 Credits)**
This course investigates Dante’s cosmos in the Divine Comedy through medieval science, theology, and poetry. Disentangling the context of the Comedy from Dante’s encyclopedic culture through reading in the disciplines of his time will lead students to a deeper comprehension of the multidimensionality of Dante’s universe than is possible through any singular disciplinary. The course will broaden students perception of the medieval cosmos in contrast with contemporary notions of cosmology. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attributes:** IIC, ITAL, MLL.

**MVST 4007. MEDIEVAL FOUNDATIONS OF MODERNITY. (4 Credits)**
This course retraces the foundations of modern consciousness in Petrarch’s works through poetry and philosophy. Students will concentrate on Petrarch’s library and philosophical works to explore the passage from a medieval to a humanist vision of the self and of the world. The interdisciplinary approach of the course will provide a deeper understanding of Petrarch’s ideas on the educative role of the intellectual, the crisis of scholastic thought, and the emergence of a new perception of the self. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attributes:** COLI, ICC, ITAL.

**MVST 4008. MEDIEVAL AUTOBIOGRAPHIES. (4 Credits)**
Although writing about oneself is often considered classical or modern, and autobiography was not classified as a genre until the eighteenth century, a handful of medieval clerics, monks, mystics, nobles and merchants wrote about their own lives. These autobiographical accounts, and the conventions and societies that shaped them are the topic of the course. By asking both the questions of genre, narrative voice, subjectivity and authorship usually posed by literary analysis, and the historical questions of what such sources about past authors, audiences and the societies that read and copied the lives, the goal is to understand autobiography and the sources themselves from an interdisciplinary perspective. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attributes:** HIST, ICC.

**MVST 4009. MEDIEVAL JERUSALEM.** (4 Credits)
What has made Jerusalem so beloved to - and the object of continual strife for - Jews, Christians, and Muslims? This course will explore the ancient and medieval history of Jerusalem, from its Jebusite inhabitants before the time of King David through Suleiman’s construction of the modern city walls in the 1540s. Students will learn to analyze a variety of literature, through which we will explore the themes of sacred space, conquest, destruction and lament, pilgrimage and religious political. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attributes:** ICC, JWST, MEST, OCST, REST.

**MVST 4654. MEDIEVAL LONDON.** (4 Credits)
This course draws on material and documentary sources to explore the townscape of medieval London-its wards, streets, and buildings- and the social life of its people, including their daily routines, work, and rituals. We will examine such documentary sources as chronicles, charters, and wills, along with material evidence from human skeletons, excavated houses and churches, coins pottery and clothing.

**Attributes:** HIST, ICC.

**MVST 4998. STUDY TOUR: MEDIEVAL SPAIN.** (4 Credits)
One of the great medieval pilgrimage routes, the Camino de Santiago crosses northern Spain from the passes of the Pyrenees to Santiago de Compostela. This study-tour will consider the legends of the Camino, some of its many surviving monuments, and the modern revival of the pilgrimage by walking for two weeks with the peregrinos/-as from Leon to Santiago de Compostela. This class will meet periodically at Fordham before the walk to discuss reading assignments and prepare. A journal is required at the end of the course. Fees and travel costs not included. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attributes:** EP3, ICC.

**MVST 4999. INDEPENDENT STUDY.** (1-9 Credits)

**MVST 5024. MEDIEVAL POLITICAL THOUGHT.** (3-4 Credits)

**MVST 5031. BYZANTIUM, ISLAM AND THE WEST.** (4 Credits)
This course is a seminar specifically designed around an exhibition at the Metropolitan Museum of Art opening in March 2012. Byzantium and Islam: Age of Transition (7th-9th century). The exhibition offers a unique opportunity to study not only the impact on the visual arts of the interaction of the Byzantine and Islamic cultures at this critical historical period, but also to examine the art of architecture of Carolingian France and Visigothic Spain from this perspective. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**MVST 5050. WORLD OF LATE ANTIQUITY: INTRO TO HISTORY, ART AND CULTURE.** (4 Credits)
This course offers an introduction to the history, art and culture of the Late Antique world from the third to the sixth century. We will explore the older narratives of decline in this period alongside powerful alternatives proposed by scholars more recently, drawing on both primary sources and monuments and critically examining the secondary literature that studies them. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attribute:** CLAS.

**MVST 5070. MANUSCRIPT CULTURE.** (4 Credits)
Introduction to principles, materials, and study of medieval manuscripts and primary documents as well as to problems of evaluation of the cultural contexts of their production and use. Ancillary topics will include manuscript illumination, the resources of codicology and paleography, the preparation and evaluation of modern editions, the assessment of readership and patronage, material philology and the materialism of the middle ages, the development of libraries. Students will do hands-on work with primary sources at the Morgan Library, the rare book collection of the New York Public Library, and the rare books and manuscripts collection in Walsh Library. Final projects will be tailored to the students' primary research areas and expertise. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**MVST 5077. EDITING MEDIEVAL TEXTS.** (4 Credits)
This is a course in the theory and practice of editing, especially as it relates to medieval texts, with most of the examples coming from Middle English. We'll give attention to documentary, historical, and aesthetic approaches, and we will spend some time exploring digital methods and concerns. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**Attribute:** ENGL.

**MVST 5078. MEDVL BOOKS & MATERIALS.** (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**MVST 5095. MEDIEVAL PILGRIMAGE.** (4 Credits)
Pilgrimage will be conceptualized broadly, entertaining a variety of aims for travel and also considering the pilgrimage form as a purely conceptual exercise as well as a journey with more practical aims. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**MVST 5100. CULTURES OF MUSIC AND SOUND IN THE MEDIEVAL WORLD.** (4 Credits)
Music and Sound enriched every facet of pre-modern life, liturgy and ritual above all. This interdisciplinary seminar introduces medievalists - especially those without formal musical education- to the cultures of medieval and Renaissance music. It should enable students from any discipline to engage music and the sonic more fully in their research and teaching. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**MVST 5200. MEDVL IBERIAN LIT & SOC.** (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

**MVST 5201. THE RENAISSANCE OF THE 12TH CE.** (4 Credits)
This graduate seminar explores the religious, intellectual, literary, and cultural contours of the "long" 12th Century with equal weight given to the diversity of medieval sources that survive and to modern historiographic interpretations. The class will include visits to the Coisters museum and to the Morgan library. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
MVST 5205. COURT CULTURE MED IBERIA. (4 Credits)
This course will explore the cultural, social, political and religious tensions that helped to form medieval Iberian courtly communities from the 10th to the 15th centuries. The unique situation of Iberia during this period, when the centralization and consolidation of sovereignty occurred in different religious and cultural contexts (Islamic and Christian) and political territories (Castile, Aragon) allows for a diverse, rich and contrasted analysis of medieval court culture. Our approach will be multidisciplinary and include literary texts, artistic manifestations, legal codes, religious writings, and chronicles. Among the courts to be studied will be the Omeyyid court of the 10th century Cordoba, the Muslim kingdoms of 11th century Granada and Zaragoza, the Christian courts of Alfonso X of Castile and Jaume I of Aragon, and the late medieval court of Isabella Ferdinand. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MVST 5300. OCCITANIA: LANGUAGE AND POWER. (3 Credits)
This course introduces students to the cultural world of a medieval "south": Occitania. Texts in Old Occitan include documentary writing, historical narrative, and the poetry of the troubadours. Topics include urban/rural communities, gender and power, the Albigensian crusade and its aftermath and the beginning of vernacular book production.

MVST 5305. Writing East: Outremer and Identity in the Middle Ages. (4 Credits)
As the stage for the central events of the Gospel narrative, the lands of the eastern shore of the Mediterranean long occupied a central place in the collective imagination of Latin western Europe. Over the course of the Middle Ages, however, increasingly frequent encounters resulting from trade, pilgrimage, and crusade not only enriched the European image of the East, but vastly enhanced the significance to how medieval Christians approached the eastern Other. This course will trace the rise of a discourse of differences centered in what was called in England and France, "Outremer," the land beyond the sea. Together with medieval literary productions, histories, letters and travel narratives, we will read works from the growing body of scholarship on this important topic.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MVST 5570. MEDIEVAL CRUSADES. (4 Credits)
This course adopts an interdisciplinary approach to the study of the medieval crusades in the Levant, southern France, Iberia, and the Baltic, with attention paid to the Islamic and Byzantine perspectives. The sources to be discussed include chronicles, charters, sermons, literary texts, songs, and hagiography, as well as architectural and artistic monuments and objects. Among the themes to be treated are crusader motivations, crusades and memory, European 'colonization', women and family in crusading society, crusading liturgies, the military orders, and diplomacy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MVST 5707. Meditation, Contemplation, and the Spiritual Senses. (4 Credits)
The late Middle Ages saw an astonishing proliferation of texts, practices, and styles of devotion seeking to draw human beings closer to God through the body. New emphasis on Christ's humanity and Aristotelian natural philosophy prompted the rediscovery of the five corporeal senses and their cognitive processes in devotional literature. In this course, we will examine the languages, knowledges, desires, and anxieties surrounding the senses in a diverse corpus of texts, probing them for their theological import as much as for their literary design. Major authors: Aristotle, Augustine, Origen, Hugh of St. Victor, Bonaventure, Richard Rolle, Chaucer, Margery Kempe, Meditationes Vitae Christi.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MVST 6209. THEMES IN PRECONQUEST LIT. (4 Credits)
This course is an advanced-level seminar on the language and literature of Anglo-Saxon England. We will read (in Old English) texts including poetry, homilies, saints' lives, and chronicles. Substantial attention will also be given to Anglo-Saxon palaeography and relevant critical literature, with the aim of providing students with the resources needed for the scholarly study of OE. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MVST 6232. FR OF ENG: DOC & LIT CULT. (4 Credits)
This course focuses on law, mercantile, medical and other forms of documentary and civic texts in the French of England, as well as literary texts, both the well-known and the under-researched: texts with Middle English versions will be included wherever possible. For newcomers to the subject, a linguistic practicum, which should be regarded as obligatory, is offered in the hour preceding the class meeting: some knowledge of modern French is a must. Some linguistic work together with seminar student presentations and discussion takes place in each class. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MVST 6700. MEDIEVAL SCHOLASTICISM. (4 Credits)
This interdisciplinary graduate course will provide an introduction to the history, theology, and philosophy of the Scholastic movement in the High Middle Ages. Topics to be considered include: the economic, social, political, religious, and educational transitions that together constitute the "renaissance of the twelfth century"; the rise of open urban schools and the development of the university; and characteristic modes of thought and discourse in scholastic theology and philosophy. Thinkers to be examined include Anselm of Canterbury, Hugh and Richard of St. Victor, Peter Abelard, the school of Laon, Peter Lombard, Albert the Great, Thomas Aquinas, Bonaventure, John Duns Scotus, and William of Ockham. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MVST 8100. INTERNSHIP FOR MEDIEVALISTS. (1 Credit)
This is the obligatory tutorial to be taken in conjunction with any internships taken at libraries, museums, or other institutions of professional interest to medievalists. The student will meet with the instructor regularly to reflect on their internship experience and document their work in an appropriate format (journal, blog etc)
MEST 8500. INDEPENDENT RESEARCH. (1-4 Credits)
MEST 8501. INDEPENDENT RESEARCH. (1 Credit)
MEST 8999. TUTORIAL. (4 Credits)

Middle East Studies (MEST)

MEST 1999. TUTORIAL. (1 Credit)

MEST 2000. INTRODUCTION TO THE MODERN MIDDLE EAST. (4 Credits)
A multidisciplinary introduction to the modern Middle East and North Africa from the perspectives of history, anthropology/sociology, economics, political science and international affairs. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: GLBL, JWST.

MEST 2400. MIDDLE EAST DILEMMAS. (4 Credits)
This course examines intellectual, political, and social change and reaction to it in the Middle East from 18c to the 21c. Focus is on the impact of the West, the transformation of identities, the constancy of tradition, the establishment of modern nation-states, and the effects of globalization. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MEST 2600. MEDIEVAL ISLAM. (4 Credits)
This course surveys the rise of Islam in Arabia and its spread throughout the Mediterranean and beyond. It examines Muslim civilization and its institutions in the medieval period, the impact of Turkic and Mongol invaders, and the rise of the Ottoman and Safavid Empires. Emphasis is on the political and cultural role of the religious and military classes, on the impact of Islam on gender and minorities, and on the various exchanges with Christendom. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MEST 3324. ISRAEL IN FICTION AND FILM. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: CO1.

MEST 3500. MODERN EGYPT. (4 Credits)
This course will survey the transformation of Egypt from the end of the 18th century to the present. A dormant Ottoman province when Napoleon Bonaparte invaded it in 1798, by the end of the 19th century, Egypt had turned into the region's entrepot while evolving as a center of political and cultural dynamism. During the Cold War, the country emerged as the USSR's main client in the Middle East until the Camp David Accords of 1979 when it became a strategic partner for the US. Topics to be covered include British economic and French cultural imperialism; the genesis and growth of Egyptian nationalism; urbanization; gender issues; foreign resident minorities; the Muslim Brotherhood; the formation of a modern indigenous bourgeoisie; Nasser's revolution, its impact, and his pan-Arabism; Sadat's domestic and regional policies, crony capitalism under Mubarak; and the re-Islamization of society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: GLBL.

MEST 3501. MODERN TURKEY AND IRAN. (4 Credits)
This course will assess the ideas, events, and personalities that contributed to the transformation of the Ottoman and Persian Empires into modern Turkey and Iran respectively in the past two centuries. Topics examined comparatively will include the impact of the west, the internal forces of modernization, Islamist and other reactions to such developments, the formation of nationalist identities, authoritarian transition to modern democracy in Turkey and Islamist republic in Iran education, industrialization, urbanization, religion, and mass politics, gender and minorities, and the impact of regional dynamics since the end of World War II. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MEST 3502. PALESTINE-ISRAEL CONFLICT. (4 Credits)
This course examines the issues, events, and personalities that shaped dynamics between Jews and Palestinians from 19th-century nationalism to the present. Topics include land and its symbolism, religious identity, political aspirations and frustrations, the origins and consequences of wars, as well as regional and global interplay. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: INST, JWST.

MEST 3620. ISLAM IN AMERICA. (4 Credits)
This course will examine the history of Islam and the experience of Muslims in American from the time of the slave trade to the present day. Through a close analysis of both primary and secondary materials, students will explore – through speaking and writing exercises – the rich diversity of US Muslim communities and their multi-faceted contributions to the global umma and the formation of an “American Islam”. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: EP3, PLUR.

MEST 3701. URBAN THEATRE DANCE AND MUSIC. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: GLBL, INST.

MEST 3702. URBAN THEATRE, MUSIC, DANCE: CULTURE AND THE FORMATION OF MIDDLE EAST IDENTITIES. (4 Credits)
Performances, productions, and some museum and gallery trips will enable students to witness bold, artistic works of the Middle East as seen through the lens of the art world of urban New York and Paris. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MEST 3800. INTERNSHIP. (3 Credits)

MEST 3901. THE MIDDLE EAST IN FILM. (4 Credits)
Using documentaries and features from Algeria to Yemen, this course examines politics, religion, gender, and minorities as well as love, comedy, and music, sometimes all together, and their impact on the region's diverse societies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Updated: 10-11-2017
Military Science ROTC (MLSC)

MLSC 1001. LEADERSHIP LABORATORY I. (0 Credits)
Provides practical experience within the setting of a military organization to develop discipline and team work. The course provides opportunities to apply learned leadership principles and to plan, instruct and practice military skills such as drill and ceremonies, marksmanship, communications and physical fitness. Students in the Basic Course are organized into squads and platoons under the supervision of Advanced Course cadets. Senior cadets are responsible for Basic Course training and logistics and function as officers within the cadre battalion. Cadets who will attend ROTC National Advanced Leadership Camp are provided with an intensive program of military and leadership skills enhancement and assessment under cadre direction.

MLSC 1002. LEADERSHIP LABORATORY I. (0 Credits)
Provides practical experience with in the setting of a military organization to develop discipline and team work. The course provides opportunities to apply learned leadership principles and to plan, instruct and practice military skills such as drill and ceremonies, marksmanship, communications and physical fitness.

MLSC 1101. INTR LDRSHIP & US ARMY 1. (0 Credits)
This is an introductory course open to all students without obligation. It focuses on the military as a profession and examines its organization, ethics and values. The course explores the responsibilities and impact of leadership and the rules, customs and traditions of military service. Students are introduced to the fundamentals of land navigation, physical fitness, drill and ceremonies, first aid and public speaking.

MLSC 1201. BASIC LDRSHIP & MGMT II. (0 Credits)
Open to all students without obligation. The course explores leadership principles, decision-making and team building. Students are introduced to tactical systems and the field environment. Students learn advanced techniques in land navigation, terrain association, and first aid. Students also begin their program in professional military reading.

MLSC 2001. LEADERSHIP LABORATORY II. (0 Credits)
Provides practical experience within the setting of a military organization to develop discipline and team work. The course provides opportunities to apply skills such as drill and ceremonies, marksmanship, communications and physical fitness. Students in the Basic Course are organized into squads and platoons under the supervision of Advanced Course cadets. Senior cadets are Leadership Camp are provided with an intensive program of military and leadership skills enhancement and assessment under cadre direction.

MLSC 2002. LEADERSHIP LABORATORY II. (0 Credits)
Provides practical experience within the setting of a military organization to develop discipline and team work. The course provides opportunities to apply learned leadership principles and to plan, instruct and practice military skills such as drill and ceremonies, marksmanship, communications and physical fitness.

MLSC 2101. BASIC LDRSHIP DEVEL-PH 1. (3 Credits)
Open to all students without obligation. Continues the basic leader development process. The course focuses on applying the fundamentals of leadership and team-building skills. Students gain an understanding of small team dynamics and the roles and responsibilities of junior leaders. The course further reinforces the ideals of service, ethics and values and develops students' confidence in their own skills, knowledge and attributes.

MLSC 2201. BASIC LDRSHIP DEV PHASE II. (3 Credits)
Open to all students without obligation. The course continues the application of leadership and team-building principles. Proficiency in individual skills and leadership abilities is assessed during situational training to evaluate students in leadership roles. Advanced techniques in problem analysis, sound decision making, planning and organizing, delegation, control and interpersonal skills. Advanced small team operations, movement techniques and tactics are emphasized.

MLSC 3001. LEADERSHIP LABORATORY III. (0 Credits)
See MSBU 4001 for description.

MLSC 3002. LEADERSHIP LABORATORY III. (0 Credits)
Provides practical experience within the setting of a military organization to develop discipline and team work. The course provides opportunities to apply learned leadership principles and to plan, instruct and practice military skills such as drill and ceremonies, marksmanship, communications and physical fitness.

MLSC 3101. ADV LDRSHIP & MGMT-PH 1. (0 Credits)
Expands and refines the leader development process. This is an intensive program to prepare cadets for tasks, skills and responsibilities associated with Advanced Camp. Cadets are trained and evaluated on the full range of leadership skills and attributes. Written and oral communication skills, motivational behavior, interpersonal skills, administrative procedures, decision-making and military field skills are emphasized. Must be taken in conjunction with MSBU 3001.

MLSC 3201. ADV LDSP & MGMT PHASE II. (3 Credits)
Expands on the skills introduced in MSBU 3101 and incorporates increasingly challenging situations involving military technical, tactical and leadership skills. Advanced training in marksmanship and physical fitness is emphasized. Course culminates with several field training exercises where students are placed in simulated combat and evaluated on performance. Course is designed to bring cadets to peak proficiency in physical conditioning and leadership ability. Must be taken in conjunction with MSBU 3001.
MLSC 4001. LEADERSHIP LABORATORY IV. (0 Credits)
Provides practical experience within the setting of a military organization to develop discipline and team work. The course provides opportunities to apply learned leadership principles and to plan, instruct and practice military skills such as drill and ceremonies, marksmanship, communications and physical fitness. Students in the Basic Course are organized into squads and platoons under the supervision of Advanced Course cadets. Senior cadets are responsible for basic course training and logistics, and function as officers within the cadet battalion. Cadets who will attend ROTC Advanced Camp are provided with an intensive program of mental and leadership skills enhancement and assessment under cadre direction.

MLSC 4002. LEADERSHIP LABORATORY IV. (0 Credits)
Provides practical experience within the setting of a military organization to develop discipline and team work. The course provides opportunities to apply learned leadership principles and to plan, instruct and practice military skills such as drills and ceremonies, marksmanship, communications and physical fitness.

MLSC 4101. CMD/STF TRAIN & MGMT-PH1. (0 Credits)
Refines military skills and knowledge to the precommissioning level. Senior students assume leadership roles as cadet commanders, staff officers, or staff assistants responsible for the planning, coordination and execution of all cadet training and operations. Training focuses on Army legal, administrative, and logistical systems and training methodologies. It reinforces individual competencies and maximizes opportunities for practical application of leadership skills. Must be taken in conjunction with MSBU 4001.

MLSC 4201. CMND & STF TRNG & MGT II. (4 Credits)
Culminates the leader development process at the precommissioning level. Designed to prepare cadets for transition from cadre to Second Lieutenant. Instruction seeks to expand the frame of reference. Cadets examine ethical and legal issues related to being an officer and continue to improve their leader and decision-making skills. Several practical exercises and field training events supplement classroom instruction. Must be taken in conjunction with MSBU 4001. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MLSC 4999. TUTORIAL. (3 Credits)

Modern Languages (MLAL)

MLAL 1010. SPANISH COLONIALISM THROUGH FILM. (3 Credits)
Study of US and foreign cinematographic representations of Spanish imperialism and conquest, accompanied by readings and pertinent Colonial chronicles in translation.
Attributes: EP1, EP2, LALS, MANR.

MLAL 1100. INTRODUCTION TO LINGUISTICS. (3 Credits)
An introduction to linguistics, the study of language. The course surveys the core domains of theoretical linguistics including phonology, syntax, and semantics as well as select areas of applied linguistics. Taught in English.
Attributes: CLAS, COFI, ENGL.

MLAL 1210. LITERATURE AND SOCIETY. (3 Credits)

MLAL 1230. HISTORY AND THE NOVEL: DON QUIJOTE AND MODERN LITERATURE. (3 Credits)

MLAL 1240. TRAGEDY AND COMEDY. (3 Credits)

MLAL 1250. TRADITION OF STORY-TELLING. (3 Credits)

MLAL 1500. INTRODUCTION TO PSYCHOLINGUISTICS. (3 Credits)
An introduction to psycholinguistics, also called the psychology of language. The course focuses on how the mind and brain acquire and process language across the lifespan and in different populations. Taught in English.

MLAL 2000. T&C: REMEMBERING ITALY'S LONG CENTURY IN LITERATURE, FILM, AND MUSIC. (3 Credits)
This course examines the way in which the literary and artistic forms of modern Italy represent political and social movements such as revolution, unification, modernization, and migration. We will focus on texts from the 19th, 20th and 21st centuries that utilize differing modes--such as fiction, nonfiction, film, poetry, and music--and we will analyze how these texts draw upon, reflect and refashion the meaning of historical events. In juxtaposing texts of different types, we will explore the mechanisms by which symbols and ideas are inherited through and adapted to differing contexts. Taught in English.
Attributes: EP2, TC.
Prerequisite: ENGL 1102.

MLAL 2100. ADVANCED GERMAN GRAMMAR. (4 Credits)
The course is designed to help students gain more insight into the structure of the German language and to further develop and strengthen their knowledge of German grammar. Survey and practice of German grammar as well as more advanced features of German syntax and style. Course will be conducted in English with readings and exercises in German. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: GERM 2001.

MLAL 2601. RUSSIAN CONVERSATION AND COMPOSITION. (4 Credits)
This course provides intensive practice of spoken and written language with an emphasis on vocabulary building and idiomatic fluency. The course uses various media from film to news sources in order to expand students' familiarity with contemporary Russian culture. Recommended for students interested in pursuing upper-level Russian literature and culture courses. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MLAL 2820. GERMAN TEXTS ON FILM. (3 Credits)
Subtle: Parallels and doppel ganger. This course investigates identity through parallels lives and uncanny encounters.
Attribute: COFI.
MLAL 3000. GENDER AND SEXUALITY STUDIES. (4 Credits)
This course investigates contemporary theories of gender and sexuality from a range of disciplinary perspectives. The course explores how gender and sexuality function as dimensions of social identity, difference, inequality, and power. Students will be introduced to a range of theoretical schools that concern a range of identities, respond to earlier theoretical formulations, and engage activism and historical experiences. Students will be introduced to concepts such as the social construction of gender, queerness, gender difference, intersectionality, universalism, identity politics, reproductive justice, materialist and/or versus symbolic theories, masculinity studies, critical race theory, sex positivity and pornography studies, and a range of feminist accounts of gender. The course foregrounds feminist, queer, critical race, postcolonial, and other critical scholarly literatures and methods. While it focuses on the contemporary period (after 1975), the course surveys a range of theories, situating them in social and political context. Disciplinary focus may vary from year to year, but the interdisciplinary character of the field will be retained. Taught in English. Coursework in Spanish for credit toward the Spanish major or minor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS, PLUR, SPAN, WCSS.

MLAL 3001. THE ITALIAN AMERICAN EXPERIENCE IN LITERATURE AND FILM. (4 Credits)
The Italian American experience has found cogent and compelling expression in numerous works of fiction, poetry, drama and cinema. The rich documents left by immigrants from the earliest times to the contemporary writers provide a rich body for exploring styles, achievements, traditions and, generally, the life of Italian Americans and their changing status and civic concerns. The course discusses the representation of Italian American identity, stereotypes, family relationships, sexual mores, political and social values. The contribution of Italian Americans to the various art forms of the American world will be highlighted. The discussions will include theories from the most recent ethnic studies. Authors and critics to be studied are Di Donato, Tusiani, Mangione, Aridizzone, Puzo, Barolini, Stella, Gardaphè, Marazzi, Scorsese, among others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MLAL 3007. SPANISH LINGUISTICS. (4 Credits)
This course focuses on the linguistic study of the Spanish language. The course surveys the formal domains of linguistics - including phonetics, phonology, syntax, semantics, and sociolinguistics — with an exclusive focus on the Spanish language. The course is taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. 
Attribute: ALC.

MLAL 3010. POLITICS AND POETRY IN THE MIDDLE AGES: THE RISE OF VERNACULAR CULTURE IN THE MEDITERRANEAN. (4 Credits)
This course analyses the development of vernacular culture and literature in the Mediterranean during the Middle Ages. Students will explore the political, historical, and linguistic context within which vernacular languages and cultures emerged between the XI-XIII centuries. Following Dante’s On Vernacular language - the first linguistic and poetic “map” of the Middle Ages- students will retrace the interrelations linking the Italian vernacular culture to the other traditions within the “romance” domain in the Mediterranean. With the imperial court of Frederick II in Sicily, the Pope in Rome, and the most powerful centers of trade and finance in Florence and other Italian city-states, the Italian peninsula provides a special standing point for the analysis of the relationship between poetry and power in different political contexts: the court of the emperor Frederick II and the powerful communal republics in center and northern Italy will be the focus of the course. Among the texts, authors, and movements included are: Provencal and Italian trobadours; the “Sicilian School” and the encyclopedic culture at the court of the emperor Frederick II (poetry, law, philosophy, medicine, astronomy, translations); religious literature and the Tuscan School of poetry (S. Francis, Jacopone da Todi, Guittone d’Arezzo); the “New Sweet Style” (Guido Guinizzelli, Guido Cavalcanti, Dante Alighieri). Fulfills the Advanced Literature requirement of the core and satisfies the requirement of Minor and Major in Italian. Cross-listed with MVST and COLI. Taught in English with coursework in Italian for credit in Italian. ITAL 2500 or ITAL 2561 or Instructor’s Permission Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, ITAL, MLL, MVST.
Prerequisites: ITAL 2500 or ITAL 2561.

MLAL 3022. PRINCIPLES OF WORLD LANGUAGE LEARNING AND TEACHING. (4 Credits)
This course will introduce undergraduate students to a variety of frameworks that inform good practices for foreign language learning and teaching. We will examine the implications of different views of the learner and the learning process on the teaching of world languages. We will discuss how different teaching methodologies respond to different learning contexts, needs, and purposes and we will be actively engaged in connecting theories and actual teaching practices with respect to various levels of instruction. Taught in English. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MLAL 3040. CHINESE LANGUAGE AND SOCIETY. (4 Credits)
This course will familiarize students with major topics concerning Chinese language and society. We will explore the ways in which the language helps shape and is shaped in turn by the social, cultural, historical and political situations in China. Conducted in English. Coursework in Chinese for credit toward the Mandarin Chinese minor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
MLAL 3043. MODERN CHINESE LITERATURE. (4 Credits)
Survey of modern Chinese literature: this course will introduce students to major writers and canonical works from China's modern period. We will discuss formal aesthetics, historical contexts, cultural upheaval and transformation, gender and class relations, family and kinship, as well as dialogues between national and regional imaginaries. All readings in English (students may opt to read in Chinese). No previous knowledge of China or Chinese required. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, GLBL.

MLAL 3045. WOMEN IN CHINESE LITERATURE AND SOCIETY. (4 Credits)
In this course we will examine issues of gender and representation in the context of Chinese society. We will explore the roles that women have played in China, how women are portrayed in various Chinese texts and genres - poetry short stories and novels, and films - and how Chinese women write about themselves and others. This course is taught in English and no prior knowledge of Chinese is required. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, INST.

MLAL 3047. CHINESE CULTURE: TRADITIONS AND TRANSFORMATION. (4 Credits)
This course provides a broad introduction to Chinese culture from earliest times to the contemporary period. Students will engage with diverse genres including philosophical texts, Buddhist sutras, folklore, modern fictions, films and visual materials. We will explore topics on Chinese culture, including philosophical and religious systems, the status of art, gender roles, encounters between tradition and modernity, and legacies of Maoism. All readings in English (students may opt to read in Chinese). No previous knowledge of China or Chinese required. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, GLBL.

MLAL 3057. MEDIEVAL GERMAN LITERATURE: POTIONS, PASSIONS, PLAYERS, AND PRAYERS. (4 Credits)
This course will introduce students to the rich literary and cultural heritage of Medieval Germany. The texts will all be read in English translation, but we will go over some passages in their original languages in class to catch some of the flavor of the Medieval German. Topics covered will include pre-Christian charms, the epic of the Nibelungs, love poetry, and urban carnaval plays. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, GERM, MVST.
Prerequisite: GERM 2001.

MLAL 3060. MAGIC AND REALITY IN RUSSIAN LITERATURE. (4 Credits)
Explores the traditions of Mysticism and the Fantastic in Russian literature. By analyzing magical motifs both as an exploration of the inexplicable and as an artistic means to counter social and ideological oppression, students will develop their understanding of different periods and aspects of Russian, Soviet and Post-Soviet culture. Selected readings include works by Pushkin, Gogol, Dostoevsky, Bulgakov, Petrushevskaya and Pelevin, among others. Conducted in English.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, INST, OCST.

MLAL 3065. DOSTOEVSKY. (4 Credits)
This course explores the oeuvre of Fyodor Mikhailovich Dostoevsky (1821-1881), one of the greatest Russian novelists and world literature's most insightful psychologists. Select texts include: The Gambler, The Idiot, The Adolescent, The Brothers Karamazov (dubbed by Freud "the most magnificent novel ever written"), several short stories, etc. TAUGHT IN ENGLISH. May count toward Minor in Russian if course work is completed in Russian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: OCST, RUSS.

MLAL 3070. RUSSIAN VISIONS: THE INTERPLAY BETWEEN RUSSIAN LITERATURE AND ART IN MID-19TH/EARLY 20TH CENTURY. (4 Credits)
This interdisciplinary course explores the interaction between the Russian visual arts and Russian literature during two artistically flourishing periods of Russian and early Soviet history in the nineteenth and twentieth centuries. The first is the rise of the daguerreotype in Russia (and photojournalism shortly thereafter) in conjunction with the rise of the Natural School in Russian literature in the 1840s. The second is the pinnacle of the Russian avant-garde (1917-1932: and visual art from several movements such as Constructivism, Zaum, Russian Cubism and Cubo-Futurism) in conjunction with the brilliant work of dissident Soviet writers during this time. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: OCST, RUSS.
MLAL 3080. TOLSTOY, DOSTOEVSKY AND THE MEANING OF LIFE AND DEATH. (4 Credits)
We will read two works — one large book on Russian family life, one short meditation on death — from each of Russia’s two most famous authors: Leo Tolstoy and Fyodor Dostoevsky. We will read Tolstoy’s Anna Karenina (1878) and The Death of Ivan Ilych (1886) and Dostoevsky’s The Brothers Karamazov (1880) and The Dream of a Ridiculous Man (1877). Tolstoy and Dostoevsky are each profound psychologies and religious philosophers. While Tolstoy masters interpersonal and societal relations, Dostoevsky illuminates the extreme ranges of the human psyche. Tolstoy’s Levin in Anna Karenina asks “What is the meaning of life?” and Dostoevsky’s Ivan Karamazov struggles to reconcile God’s creation with the suffering of innocent children. The two novels were written in close proximity of each other and bear fruitful comparisons. Tolstoy’s The Death of Ivan Ilych explores the mind of a prestigious court official who is terminally ill. Dostoevsky’s The Dream of a Ridiculous Man reveals the story of a man who dreams his own death. These two great authors are often pitted against each other, but Dostoevsky himself described Tolstoy’s Anna Karenina as “flawless,” and Tolstoy adored Dostoevsky’s religious teachings in The Brother’s Karamazov expressed through the character of Father Zosima. This course shows how the works of the great Russian writers compliment our understanding of life and death. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

MLAL 3115. HISTORY AND THE NOVEL: DON QUIXOTE AND MODERN LITERATURE. (4 Credits)
Examination of the fundamental character, role and value of the Quixote as the first “modern” novel, as a unique product of Western civilization, and of its immediate influence, imitation and development in other Western literatures and cultures. The evolution and absorption of the Quixote’s Cervantes and Quixotic features by subsequent prominent writers of prose fiction (and drama) will also be analyzed in itself, as a novel, as a theory of the novel, and as a literary exposition of humanity and its values. Taught in English. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

MLAL 3200. MACHIAVELLI’S UTOPIA. (4 Credits)
In this course we will analyze The Prince as well as Machiavelli’s creative work (e.g., his theatrical piece The Mandrake Root and his short story Belfagor). By adopting an interdisciplinary approach for the examination of both the historical and the artistic context in which Machiavelli lived, we will address the question of how and why The Prince was misinterpreted by Italian and European intellectuals and humanists of Machiavelli’s time, leading to a misperception of many of the text’s core ideas in an historical moment in which Europe was steadily transforming itself into a domain of absolutism (we will read Reginald Pole, Innocent Gentillet, Erasmus, Montaigne, among others). We will retrieve the original cultural context in which Machiavelli wrote: a climate of strong limitation of political creativity and liberty, which lead Machiavelli to compose The Prince (1513 ca.) inspired by an utopian desire for a new leader who could reconcile all the contradictions of Italy. Course taught in English. Coursework in Italian for credit in Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, ITAL.

MLAL 3202. ARIOSTO TO GALILEO: THE INVENTION OF MODERNITY IN RENAISSANCE ITALY. (4 Credits)
Ariosto and Galileo represent two chronological ends of a revolutionary intellectual period in the Italian Renaissance culture. Between the years 1516 (date of the first edition of Ariosto's Orlando Furioso) and 1610 (date of edition of Galileo's Sidereus Nuncius), Italian civilization contributed significantly to the shaping of a new idea of reality. The course is dedicated to the study of this particular period in which masterpieces such as the Furioso, Torquato Tasso's pastoral poem Aminta, and his epic poem Jerusalem Delivered, as well as Galileo’s works (Sidereus Nuncius, Copernican Letters, Dialogue Concerning the Two Chief World Systems) become the founding texts of a new realism that questioned and distrusted appearances and, by doing so, prepared the intellectual background where Galileo could develop his new scientific method and discover intellectual models useful for his innovative comprehension of the natural world (with strong implications about the separation of theology and science). Recent scholarship insists on the deep influence that literary humanism had on Galileo’s mind who, no surprise, was a reader, a writer of literature and also a literary critic (for example he wrote about Ariosto and also an incomplete commentary on Tasso’s Jerusalem). The course is therefore dedicated to the study of the relationship of literature to the History of Science with close reading of the above mentioned works and also following an interdisciplinary approach devoted to the exploration of the artistic civilization around Ariosto, Tasso and Galileo. Taught in English with coursework in Italian for credit in Italian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

MLAL 3210. ISLAM AND ITALY. (4 Credits)
From Medieval Sicily to the Renaissance and the modern world, the involvement of Arab culture in Italy has been both varied and enduring in nature. This course examines interaction between these two cultures from the 900s to today. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
MLAL 3300. LITERATURES AND CULTURES OF MODERN ISRAEL. (4 Credits)
The course will explore major themes in modern Israeli literature, film, art, and popular culture. Among topics discussed will be the social and cultural dynamics of Israeli history and contemporary life, constructions of identity, questions of ethnicity, nationality, gender, war, and conflict, and more. Texts and assignments will be in English. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

MLAL 3307. GERMANY AND MIGRATION. (4 Credits)
Migrants have played a role in many countries’ culture. Germans started coming to the U.S. in the 17th century, and about 17% of Americans have German ancestry. Migrants entered Germany starting around the turn of the 20th century, and today about 21% of Germany’s population has a migration background. How do migrants assimilate and learn the language of their new country? What influences do migrants have on a country’s culture and language? In the first part of the semester, we will examine the migration of Germans to the United States, and in the second part we will focus on migration into Germany. Taught in ENGLISH. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

MLAL 3402. INTRODUCTION TO RUSSIAN DRAMA. (4 Credits)
this course examines the modern Russian theatrical tradition from the nineteenth century to the present and explores a range of plays that include works by Pushkin, Gogol, Ostrovsky, Chekhov, Bulgakov, Shvarts, Petrushevskaya, Pelevin, Grishkovets, among others. Conducted in English. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, OCST.

MLAL 3405. MASTERPIECES OF RUSSIAN FILM. (4 Credits)
Examining some of the most critically acclaimed works of Russian, Soviet, and post-Soviet cinema, students will gain an insight into a variety of historical, cultural, and social contexts through the creative lens of Dziga Vertov, Sergei Eisenstein, Andrei Tarkovsky, Alexander Sokurov, Kira Muratova, Larissa Shepitko, and other Russian-language directors. The course focuses on analyzing cinematic "texts" through critical watching, reading, thinking, and writing. Taught in English. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, INST, OCST.

MLAL 3410. ARAB CINEMA: HISTORY AND CULTURAL IDENTITY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, INST, MEST.

MLAL 3440. ARABIC LITERATURE IN TRANSLATION. (4 Credits)
A survey of Arabic literature from the 6th century A.D. to the present, this course will explore the development of the literary genres of the Arabic canon, while keeping a keen (and critical) eye on the political, cultural, religious and social circumstances that have accompanied – and, in many cases, given rise to – their development. Some of the questions the course will explore are: What is considered “literature” in the Arabic canon? What is the relationship between literature and politics? What impact has the Quran had on Arabic literature? What is the role of women in the Arabic literary tradition? What kind of dialogue has there been between Arabic and “Western” literatures? What is “commitment” in contemporary Arabic literature? Class discussions will be in English. All readings will be in English translation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, GLBL, MEST.

MLAL 3442. ARAB CULTURE AND NEWS MEDIA. (4 Credits)
The American news media portrays the Arab world as one of endless political upheaval and repression, with a culture shaped strictly by Islam. This course broadens students’ understanding of contemporary Arab societies through the study of Arab TV/radio/print/internet news, propaganda and cartoons from those sanctioned by government-run outlets to those of national-resistance activists, democracy-promoting movements and even jihadists. The news is used in this course to investigate cultural issues, including authority and decision-making, religion, gender and family dynamics, in Arab societies as well as to explore American-Arab relations. Through a study of media, students can compare Arab culture as portrayed by American media and American culture as portrayed by the media in Arab world. The class is conducted in English, with materials in English and Arabic with English subtitles. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, INST, MEST.

MLAL 3450. THE ARAB SPRING IN ARABIC LIT. (4 Credits)
A survey of Arabic literature from 2011 to the present, this course will explore the development of the literary genres of the Arab Spring in the Middle East. What is the relationship between literature and politics? We will read short stories, poetry, graphic novels, blogs, and Facebook pages of prominent literary and social figures, redefining and modernizing the notion of what is literature in order to try and workout whether the revolution could have been predicted, and how it took place. Class discussions will be in English. All readings will be in English translation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, INST, PJST.
MLAL 3474. THE ARAB-ISRAELI CONFLICT: CULTURAL PERSPECTIVES. (4 Credits)
The Arab-Israeli conflict is one of the longest and most controversial conflicts in the world. Through careful analysis of Israeli literature and film, this course provides a nuanced cultural and political history of Arab-Israeli relations. Our texts emphasize the dialectic relationship between art and politics, representation and history, as well as aesthetic and ethics. The course thus explores the effect of art on politics, and the effect of politics on art. Specifically, we examine how art is instrumental in producing 1) "imagined communities" with stable national identities and 2) political resistance that disrupts these hegemonic metanarratives. We also consider the internal dynamics of Israeli society as represented in literature and film, especially tensions between the Jewish-Arab, Ashkenazi-Mizrahi, and religious-secular communities. By analyzing canonical and more contemporary stories, poems, and films (including those by S. Yizhar, Amos Oz, Said Kashua, Mahmoud Darwish, among others) we explore the dialectic between art and politics in Israeli society since 1948.
Attributes: ALC, COLI, JWST, MEST, MLL.

MLAL 3475. OPPOSITIONAL THOUGHT IN ISLAMIC LITERATURE. (4 Credits)
This class will explore various schools of thought and practice in Islamic literature. Works will range from the writings of early Islamic scholars like Al-Ashari, Mutazila, Al-Ghazali, and Rumi to the resurgence of the literalist approach to Islamic scripture in the contemporary Arab world. The course will be taught in English. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

MLAL 3500. WRITING UNDER GERMAN CENSORSHIP: A CULTURE OF BANNED BOOKS. (4 Credits)
This course examines the politics of censorship of literature in German society during the twentieth century. Books, articles, pamphlets, and magazines have been classified threatening to the regime, they have been seized from libraries and bookstores across Germany, they have been burned on bonfires during nighttime parades, and they were eliminated from all media. Writers and creators have been infiltrated and observed, fined, jailed, tortured or killed in the name of governmental censorship. We will examine a range of systems and orchestrated campaigns of censorship of the Nazi regime as well as the government of the former German Democratic Republic. We will look at the implementation of censorship, and we will read important authors who have been banned or self-censored within the larger context of twentieth-century Germany. Taught in English. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

MLAL 3504. STUDY TOUR: BERLIN TALES: GERMANY’S KIEZ. (4 Credits)
This course will take us on a journey-a journey that will start in the urban sphere of New York City in a classroom reading historical texts and cultural narratives on the metropolis Berlin. But during Spring Break 2012, we will also have a truly unique opportunity of traveling together to discover the actual streets of Berlin, the center of modernity in Germany itself. We will read authors who present conflicting views and engaging perspectives on four distinct Berlin: The Jewish Berlin of the Weimar Republic, Berlin during the Third Reich, the City as the Capital of East Germany, and lastly, Berlin as booming Metropolis of the 21st Century. And together, we will visit Berlin to discover different life styles, the pulse of minorities, and the nostalgic feeling of Ostalgie or present day Berlin. TAUGHT IN ENGLISH. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

MLAL 3535. BUILDING THE IDEAL CITY. ETHICS AND ECONOMICS FOUNDATIONS OF REALIZABLE UTOPIAS. (4 Credits)
This course introduces students to the investigation of the role that economic concepts such as profit, work, utility, and exchange play in defining the ideal city as a realizable political project. Students will investigate ethical and economic concepts and their interrelation in the debate on the best form of State and government that developed from antiquity to modern American utopias.
Attribute: ALC.

MLAL 3600. WOMEN’S VOICES IN GERMAN AND AUSTRIAN LITERATURE. (4 Credits)
This course focuses on the role of women in German and Austrian society in particular on literary and theoretical texts produced by women in the nineteenth, twentieth, and twenty-first centuries. To articulate their ideas and to establish themselves on a public stage, women writers have used different forms of expression over the course of time such as letters, diaries, poems, novellas, political pamphlets, theoretical articles, dramas and essays. We will study the different genres by exploring questions of gender, authorship, personal, national and transnational identities, and the politicization of the private sphere within the cultural context of Germany and Austria. By analyzing literary texts of authors like Lou Andreas-Salome , Else Lasker-Schuler, Anna Seghers, Ingeborg Bachmann, Marlen Haushofer, Monika Maron, Herta Muller and Julia Franck and drawing on visual arts, film, and feminist theory, we will still situate German-speaking women writers with a global context. Topics to be considered in relation to the literary texts are women as writers and artists, sexuality and bodies, friendship and intimacy, politics and political activism, as well as writing and identities. TAUGHT IN ENGLISH. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, GERM, WGSS.

MLAL 3607. TOPICS IN MULTILINGUALISM. (4 Credits)
This course discusses the historical and contemporary underpinnings of multilingualism in the globalized world. The course content includes discussion of empirical social and cognitive research on multilingualism as well as multilingual language education and policy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, GLBL, LALS.
MLAL 3624. MUSIC AND NATION IN THE ARAB WORLD. (4 Credits)
Though music is a domain of individual expression, it may also reflect
or respond to social, cultural and historic influences of a time and place.
This course explores the ways in which music acts as an expression
of national identity in the Arab world. It considers this relationship in
a region where the idea of nation has multiple meanings, and where
conflicting factors such as regional diversity and the notion of pan-
Arabism exists. Specifically, the course focuses on how particular types
of music, including the Aleppian, Waslah, Al-Qasida al-qhinaiy, and Al-
Muwashah, have affected the development and embodiment of national
identity in the 20th century. Course materials are presented in English,
however students of Arabic language are encouraged to Four-credit
courses that meet for 150 minutes per week require three additional
hours of class preparation per week on the part of the student in lieu of
an additional hour of formal instruction.
Attributes: ALC, COLI, MEST.

MLAL 3701. VILLAINS, VAMPS AND VAMPIRES: AN INTRODUCTION TO
GERMAN CINEMA. (4 Credits)
Film is a powerful art form and means of communications. The messages
embedded in the mesmerizing images often escape us, and we miss the
opportunity to understand something about the culture that produced
it. With this class we will attempt to explore 20th and 21st Century
ideas and concepts of German identity, culture, history and politics
through German film analysis and readings around the topics and genres
of villains, vamps and vampires. Each of these genres deals with our
most primal nature and its fears: our nightmares, our vulnerability, our
alienation, our revulsions, our terror of the unknown, our fear of death,
our loss identity, and last but not least our often ambiguous relationship
to power and sexuality. With this course we intend to read German Cinema
through these genres from its inception in the 1890’s until the present.
It includes an examination of early expressionist and avant-garde films
from the classic German cinema of the Weimar era, fascist cinema,
postwar rubble films, New German Cinema from the classic German
Cinema from the 1970’s, post 1989 heritage films as well as 21st Century
German Films. TAUGHT IN ENGLISH. Four-credit courses that meet for
150 minutes per week require three additional hours of class preparation
per week on the part of the student in lieu of an additional hour of formal
instruction.
Attributes: ALC, AMST, COLI.

MLAL 3710. FIN-DE-SIECLE VIENNA: KLIMT, CAFES, AND CEMETERIES.
(4 Credits)
Vienna at the turn of the 19th to the 20th century was an important
center for intellectuals, artists, architects, the opera and literature as
well as the sciences not only for Austria, but for the rising movement
of Modernism in Europe at large. In Vienna, this intellectual ferment
was played out less in universities or elite salons but rather in the cafes
and artist studios of their time. There, the Viennese celebrated life and
pleasure but also concerned themselves with death quite happily; they
sing and write about it, play with it and build monuments to it. This
course will examine various aspects of the Viennese contribution to
the birth of Modernism and address the most important authors and
artists of their time. We will discuss Jugendstil and Impressionism,
the architecture of Adolf Loos and Otto Wagner, authors like Arthur
Schnitzler, Robert Musil, and Hugo von Hofmannsthal, and give
an introduction to the psychoanalysis of Sigmund Freud, whose
"Interpretation of Dreams" and "Studies on Hysteria" left their mark on the
period. But most excitingly of all during spring break of 2015, we will also
have the truly unique opportunity of traveling together to discover the
actual streets of Vienna, visit the "Zentralfriedhof" and marvel at Gustav
Klimt’s "Beethovenfries" at the "Wiener Secession". Taught in German.
Four-credit courses that meet for 150 minutes per week require three
additional hours of class preparation per week on the part of the student
in lieu of an additional hour of formal instruction.
Attributes: ALC, INST.

MLAL 3800. CLOISTERS, CASTLES, AND KINGS: MEDIEVAL BAVARIA. (4
Credits)
This course will explore Medieval secular and church history as it
manifested itself in the literature and culture of Bavaria. Includes a
study abroad component. Spring break visit to Regensburg and Munich.
Four-credit courses that meet for 150 minutes per week require three
additional hours of class preparation per week on the part of the student
in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, GERM, MVST.

MLAL 3820. MEMORY AND IDENTITY IN MODERN ITALY. (4 Credits)
This course focuses on the historical and cultural process of nation
building in the 19th- and 20th-century Italy. Particular attention will be
paid to the formation and conceptualization of an Italian national identity
as presented or questioned in literary works by Bufalino, Consolo, Levi,
Morante, Sciascia and Tomasi di Lampedusa, and films by Blasetti,
Rossellini, Scola, the Taviani brothers and Visconti. Conducted in English.
Four-credit courses that meet for 150 minutes per week require three
additional hours of class preparation per week on the part of the student
in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.

MLAL 3822. THE ARABIAN NIGHTS. (4 Credits)
This course will examine the cycle of stories, known as the Arabian
Nights or 1001 Nights. In the first half of the course we will read some
of the major tales cycles and study the relevant historical and cultural
contexts. In the second half of the course we will consider a number of
adaptations- novels, plays, and films- that have been inspired by
the Nights. Class discussion will be in English. All readings will be in
English and in English Translation. Four-credit courses that meet for
150 minutes per week require three additional hours of class preparation
per week on the part of the student in lieu of an additional hour of formal
instruction.
Attributes: ALC, COLI, MEST.

MLAL 3999. TUTORIAL. (3 Credits)
Independent research and reading with supervision from a faculty
member.

Updated: 10-11-2017
MLAL 4005. QUEER THEORY AND THE AMERICAS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ICC.

MLAL 4010. ANNI DI PIOMBO / YEARS OF LEAD: CULTURE, POLITICS, AND VIOLENCE. (4 Credits)
The period from the late 1960s to the early 1980s in Italy, known as "anni di piombo" or years of lead, was characterized by intense social and political unrest, and terrorist activities. The 1969 bombing in Piazza Fontana in Milan and the 1980 bombing of the train station in Bologna serve as the tragic bookends of a decade of political violence culminating in the kidnapping and murder of Aldo Moro by the Red Brigades in 1978. In this course, we will study these years by closely examining the cultural production of the time – literature, film and other media. We will pay particular attention to the social and political motivations underlying extremist activism, both left- and right-wing, as represented in literature and the popular press, and to writers’, filmmakers’, and intellectuals’ diverse responses to politically motivated violence, whether to criticize the terrorists themselves or to question the state-sponsored "strategy of tension". We will also discuss the ways in which these experiences have been revisited and reimagined in recent years, and their relevance for today’s Italy. Taught in English with texts in Italian and English translation. Coursework in Italian for credit toward the Italian major or minor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COLI, EP4, ITAL, VAL.

MLAL 4347. LATINOS: FACT AND FICTION. (4 Credits)
This course uses an interdisciplinary approach to examine the experiences of Latin Americans and Latinos. It employs literature and history to introduce students to the benefits of using multiple ways of acquiring knowledge. It then relies on other academic areas such as art and sociology to reinforce its interdisciplinary. As a capstone course, it allows students to incorporate disciplines from their own academic foundation. It covers topics such as politics, social justice, race, gender, and identity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: GLBL, ICC, LALS.

MLAL 4999. TUTORIAL. (2,4 Credits)
Independent research and reading with supervision from a faculty member.

MLAL 8999. INDEPENDENT STUDY. (4 Credits)

Music (MUSC)

MUSC 1100. INTRODUCTION TO MUSIC HISTORY. (3 Credits)
This course presents a survey of music history, with a focus on developing the skills of thinking and writing critically about music. Students will learn to listen in a focused way and relate what they hear to issues of musical "meaning" and general culture. Students will learn some technical vocabulary that will help them describe or advocate for any music they encounter, and they will apply this vocabulary to examples throughout the semester, for instance a Beethoven Symphony or a Duke Ellington jazz arrangement. Sections may have different focuses in terms of geography or chronology.
Attributes: FACC, FRFA.

MUSC 1101. OPERA: AN INTRODUCTION. (3 Credits)
Through recordings and in live performance, this course studies the changing form of musical theater called opera. It focuses on skills to analyze an opera’s basic elements: the drama, the words, the music, the voices, the staging. It surveys the history of opera from its beginnings around 1600 to the present, emphasizing the works of Mozart, Verdi, Wagner, and Puccini. And it fosters critical thinking in placing the development of opera in its intellectual, social, and cultural contexts.
Attributes: FACC, FRFA.

MUSC 1210. MUSIC FOR DANCERS I. (3 Credits)
This two-course sequence develops general knowledge of the major historical periods, styles and genres of western music, as well as familiarity with world music. It also provides critical tools to understand the basic components of music: melody, harmony, rhythm, texture, tempo, dynamics, instrumentation. To cultivate musicality, class taught, in part, through practical application: singing and rhythm exercises, elementary score reading etc. Open to B.F.A. students only.

MUSC 1211. MUSIC FOR DANCERS II. (3 Credits)
This two-course sequence develops general knowledge of the major historical periods, styles and genres of western music, as well as familiarity with world music. It also provides critical tools to understand the basic components of music: melody, harmony, rhythm, texture, tempo, dynamics, instrumentation. To cultivate musicality, class taught, in part, through practical application: singing and rhythm exercises, elementary score reading etc. Open to B.F.A. students only.

MUSC 1221. FLUTE ENSEMBLE. (1 Credit)
Weekly rehearsals, coaching, and semester-end performance for flute choir, in which the chamber music literature for flute ensemble is explored. Pass/Fail only. Lab fee.

MUSC 1230. CHAMBER MUSIC INSTRUCTION. (1 Credit)

MUSC 1231. CHAMBER MUSIC INSTRUCTION. (1 Credit)
Consists of ten weekly coachings for ensembles of 3-5 musicians (can be instrumental, vocal, or a combination of the two). Interested students should contact the Dept. of Art History and Music for more information. Groups are formed at the start of the semester and includes an end-of-semester performance. Pass/Fail only. Lab fee.

MUSC 1232. CHAMBER MUSIC INSTRUCTION. (1 Credit)

MUSC 1233. CHAMBER MUSIC INSTRUCTION. (1 Credit)

MUSC 1234. CHAMBER MUSIC INSTRUCTION. (1 Credit)

MUSC 1235. CHAMBER MUSIC INSTRUCTION. (1 Credit)

MUSC 1236. CHAMBER MUSIC INSTRUCTION. (1 Credit)

MUSC 1237. CHAMBER MUSIC INSTRUCTION. (1 Credit)

MUSC 1238. CHAMBER MUSIC INSTRUCTION. (1 Credit)

MUSC 1239. CHAMBER MUSIC INSTRUCTION. (1 Credit)

MUSC 1241. CONCERT CHOIR-ROSE HILL. (1 Credit)
Rehearsal and performance of selected choral music. Requirements include regular attendance at two weekly rehearsals, dress rehearsals, and regularly scheduled performances. By audition and permission of the instructor. Interested students should contact Campus Ministry for more information. For Rose Hill-based students. Pass/Fail only.

MUSC 1242. CONCERT CHOIR-LINCOLN CENTER. (4 Credits)
Rehearsal and performance of selected choral music. Requirements include regular attendance at two weekly rehearsals, dress rehearsals, and regularly scheduled performances. By audition and permission of the instructor. Interested students should contact Campus Ministry for more information. For Lincoln Center-based students. Pass/Fail only.
MUSC 1243. CHAMBER SINGERS. (0 Credits)
Rehearsal and performance of selected choral music. Requirements include regular attendance of weekly rehearsals, dress rehearsals and scheduled performances. By audition and permission of the instructor. Pass/Fail only.

MUSC 1244. CHAMBER SINGERS. (2 Credits)
Students earn two credits for Chamber Singing by taking MULU 1243 and then successfully completing this course in the following semester. Requirements include regular attendance of weekly rehearsals, dress rehearsals and scheduled performances. By audition and permission of the instructor. Pass/Fail only. (Sequence MULU 1243-1244 may be repeated once)

MUSC 1260. VOCAL INSTRUCTION: CLASSICAL. (1 Credit)
A sequence of private weekly lessons in classical voice, available for credit to all students. Students' progress is monitored by the department. Pass/Fail only. Lab fee.

MUSC 1261. VOCAL INSTRUCTION: JAZZ. (1 Credit)
A sequence of private weekly lessons in jazz voice, available for credit to all students. Students' progress is monitored by the department. Pass/Fail only. Lab fee.

MUSC 1262. INSTRUMENTAL INSTRUCTION: PIANO CLASSICAL. (1 Credit)
A sequence of private weekly lessons in classical piano, available for credit to all students. Students' progress is monitored by the department. Pass/Fail only. Lab fee.

MUSC 1263. INSTRUMENTAL INSTRUCTION: PIANO JAZZ. (1 Credit)
A sequence of private weekly lessons in jazz piano, available for credit to all students. Students' progress is monitored by the department. Pass/Fail only. Lab fee.

MUSC 1264. INSTRUMENTAL INSTRUCTION: GUITAR CLASSICAL. (1 Credit)
A sequence of private weekly lessons in classical guitar, available for credit to all students. Students' progress is monitored by the department. Pass/Fail only. Lab fee.

MUSC 1265. INSTRUMENTAL INSTRUCTION: GUITAR JAZZ. (1 Credit)
A sequence of private weekly lessons in jazz guitar, available for credit to all students. Students' progress is monitored by the department. Pass/Fail only. Lab fee.

MUSC 1266. INSTRUMENTAL INSTRUCTION: FLUTE. (1 Credit)
A sequence of private weekly lessons in flute, available for credit to all students. Students' progress is monitored by the department. Pass/Fail only. Lab fee.

MUSC 1267. INSTRUMENTAL INSTRUCTION: CLARINET. (1 Credit)
A sequence of private weekly lessons in clarinet, available for credit to all students. Students' progress is monitored by the department. Pass/Fail only. Lab fee.

MUSC 1268. INSTRUMENTAL INSTRUCTION: BRASS HORNS/SAXOPHONE. (1 Credit)
A sequence of private weekly lessons in a brass instrument, available for credit to all students. Students' progress is monitored by the department. Pass/Fail only. Lab fee.

MUSC 1269. INSTRUMENTAL INSTRUCTION: VIOLIN/VIOLA. (1 Credit)
A sequence of private weekly lessons in violin/viola, available for credit to all students. Students' progress is monitored by the department. Pass/Fail only. Lab fee.

MUSC 1270. INSTRUMENTAL INSTRUCTION: CELLO. (1 Credit)
A sequence of private weekly lessons in cello, available for credit to all students. Students' progress is monitored by the Department. Pass/Fail only. Lab fee.

MUSC 1271. CONCERT BAND INTERNSHIP. (4 Credits)
Rehearsal and performance of selected band music. Requirements include regular attendance at rehearsals and performances. By audition and permission of the instructor. Pass/Fail only.

MUSC 1272. CONCERT BAND INTERNSHIP. (4 Credits)
Instrumentalists may earn 4 credits by participating in the band for 4 consecutive semesters. Students register for MUSC 1271 in the first 3 semesters and MUSC 1272 in the 4th semester. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MUSC 1280. INSTRUMENTAL INSTRUCTION: MISCELLANEOUS. (1 Credit)

MUSC 1281. ORCHESTRA INTERNSHIP. (0 Credits)
Rehearsal and performance of selected orchestral music. Requirements include regular attendance at rehearsals and performances. By audition and permission of the instructor. Pass/Fail only.

MUSC 1282. ORCHESTRA INTERNSHIP. (4 Credits)
Instrumentalists may earn 4 credits by participating in the orchestra for 4 consecutive semesters. Students register for MUSC 1281 in the first 3 semesters and 1282 in the 4th. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MUSC 1291. JAZZ ENSEMBLE. (1 Credit)
The Jazz Ensembles are hosted in collaboration with Jazz at Lincoln Center (JALC) and meet weekly in the Irene Diamond Education Center at JALC (20 West 60th St). The ensembles are taught by Fordham University instructors and focus on a wide range of jazz styles and levels for each ensemble. Students will have the opportunity to work with Fordham University instrumental instructors, JALC teaching artists, and other special guests throughout the semester. All Chamber Jazz Ensembles perform a concert at the end of the term. Credit toward the music major/minor ensemble performance requirement is offered. Attribute: Z207.

MUSC 1292. JAZZ ENSEMBLE. (1 Credit)
The Fordham Jazz Ensembles are hosted in partnership with Jazz at Lincoln Center (JALC) and meet weekly in JALC studio spaces (20 West 60th St.). The ensembles are taught by JALC and Fordham University instructors focusing on a wide range of jazz styles for each ensemble. Students will have the opportunity to work with Fordham University instrumental instructors, JALC Teaching Artists, and other special guests throughout the semester. All Jazz Ensembles perform a final concert at the end of the semester. Credit toward the music major/minor ensemble performance requirement is offered. Attribute: Z207.
MUSC 1293. JAZZ ENSEMBLE. (1 Credit)
The Fordham Jazz Ensembles are hosted in partnership with Jazz at Lincoln Center (JALC) and meet weekly in JALC studio spaces (20 West 60th St.). The ensembles are taught by JALC and Fordham University instructors focusing on a wide range of jazz styles for each ensemble. Students will have the opportunity to work with Fordham University instrumental instructors, JALC Teaching Artists, and other special guests throughout the semester. All Jazz Ensembles perform a final concert at the end of the semester. Credit toward the music major/minor ensemble performance requirement is offered.

MUSC 1294. JAZZ ENSEMBLE. (1 Credit)
The Fordham Jazz Ensembles are hosted in partnership with Jazz at Lincoln Center (JALC) and meet weekly in JALC studio spaces (20 West 60th St.). The ensembles are taught by JALC and Fordham University instructors focusing on a wide range of jazz styles for each ensemble. Students will have the opportunity to work with Fordham University instrumental instructors, JALC Teaching Artists, and other special guests throughout the semester. All Jazz Ensembles perform a final concert at the end of the semester. Credit toward the music major/minor ensemble performance requirement is offered.

MUSC 1295. JAZZ ENSEMBLE. (1 Credit)
The Fordham Jazz Ensembles are hosted in partnership with Jazz at Lincoln Center (JALC) and meet weekly in JALC studio spaces (20 West 60th St.). The ensembles are taught by JALC and Fordham University instructors focusing on a wide range of jazz styles for each ensemble. Students will have the opportunity to work with Fordham University instrumental instructors, JALC Teaching Artists, and other special guests throughout the semester. All Jazz Ensembles perform a final concert at the end of the semester. Credit toward the music major/minor ensemble performance requirement is offered.

MUSC 1296. JAZZ ENSEMBLE. (1 Credit)
The Fordham Jazz Ensembles are hosted in partnership with Jazz at Lincoln Center (JALC) and meet weekly in JALC studio spaces (20 West 60th St.). The ensembles are taught by JALC and Fordham University instructors focusing on a wide range of jazz styles for each ensemble. Students will have the opportunity to work with Fordham University instrumental instructors, JALC Teaching Artists, and other special guests throughout the semester. All Jazz Ensembles perform a final concert at the end of the semester. Credit toward the music major/minor ensemble performance requirement is offered.

MUSC 1297. JAZZ ENSEMBLE. (1 Credit)
The Fordham Jazz Ensembles are hosted in partnership with Jazz at Lincoln Center (JALC) and meet weekly in JALC studio spaces (20 West 60th St.). The ensembles are taught by JALC and Fordham University instructors focusing on a wide range of jazz styles for each ensemble. Students will have the opportunity to work with Fordham University instrumental instructors, JALC Teaching Artists, and other special guests throughout the semester. All Jazz Ensembles perform a final concert at the end of the semester. Credit toward the music major/minor ensemble performance requirement is offered.

MUSC 1298. JAZZ ENSEMBLE. (1 Credit)
The Fordham Jazz Ensembles are hosted in partnership with Jazz at Lincoln Center (JALC) and meet weekly in JALC studio spaces (20 West 60th St.). The ensembles are taught by JALC and Fordham University instructors focusing on a wide range of jazz styles for each ensemble. Students will have the opportunity to work with Fordham University instrumental instructors, JALC Teaching Artists, and other special guests throughout the semester. All Jazz Ensembles perform a final concert at the end of the semester. Credit toward the music major/minor ensemble performance requirement is offered.

MUSC 1300. CHAMBER ORCHESTRA. (1 Credit)
The Chamber Orchestra is a Lincoln Center-based musical ensemble open to all students, University wide. The group will hold weekly rehearsals culminating in one or more performances each semester. The Chamber Orchestra invites all orchestral instruments to join, including string, woodwind, brass, and percussion players. Both 0- and 1-credit options are available.

MUSC 1301. JAZZ ORCHESTRA. (1 Credit)
The Fordham Jazz Orchestra is open to students interested in learning about and performing music by great jazz composers and arrangers, including Duke Ellington, Benny Carter, Thad Jones, Count Basie, Dizzy Gillespie, Mary Lou Williams, Charles Mingus, John Clayton, and Wynton Marsalis, among others. The Jazz Orchestra will provide ensemble, sectional, and solo experience in a big band jazz format. Improvisation is encouraged, but not required for participation. The Jazz Orchestra is hosted by Jazz at Lincoln Center (JALC) and meets weekly in the Irene Diamond Education Center at Jazz at Lincoln Center (20 West 60th St). Members will have the opportunity to work with Fordham University instrumental instructors, JALC Teaching Artists, and other special guest artists. The Jazz Orchestra will perform a concert at the end of the term. Credit toward the music major/minor ensemble performance requirement is offered.

Attribute: ZCGO.

MUSC 1999. TUTORIAL. (1 Credit)

MUSC 2014. JAZZ: A HISTORY IN SOUND. (4 Credits)
This course studies jazz historically from the turn of the 20th century to the present, through both the shifting relations between white and black cultures in America, and the changes in musical tastes and practices over time. It considers the development of New Orleans, Swing, bebop, modal, fusion, and contemporary jazz styles, with special attention to the contributions of Armstrong, Ellington, Parker, Davis and Coltrane. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, PLUR, URST.

MUSC 2022. BROADWAY MUSICALS. (4 Credits)
This course studies Broadway's musical theater in its ever-changing forms. It surveys the history of musicals from the 19th century to the present, drawing on the work of influential figures such as the Gershwin brothers, Rodgers & Hammerstein, and Stephen Sondheim. It focuses on skills to analyze how books, lyrics, and music work in a musical. And it fosters critical thought in probing how musicals reflect and engage the political, economic, and social concerns at given moments in American culture. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: AMST.

MUSC 2025. AMERICAN POPULAR MUSIC. (4 Credits)
Music not only reflects the history and cultures of the US, it shapes them. This course takes a tour of American musical styles, from those of indigenous groups before the arrival of Europeans, to the present in NYC. We will analyze musical styles and consider broader issues including: African-American experience, commerce and mass media, "high" vs. "low" culture. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: OSS.
MUSC 2031. ROCK AND POP MUSIC SINCE WORLD WAR II. (4 Credits)
Rock and pop music have played key roles in Western culture for over half a century. This course considers the roots and musical features of rock and related styles, their changing status within "mainstream" culture, and the musical and ethical issues they raise. From the R&B music of the early 1950's to the British Invasion, punk, disco, rap, alternative and the spread of electronica, pop musicians have moved billions of people, while raising questions about race, gender, generation gaps, commercialism, and globalization. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AMST.

MUSC 2048. WORLD MUSIC AND DANCE. (4 Credits)
This course will take an approach based on the premise that to study music is to study people, community, history, religion, politics and dance, as well as to study musical styles, forms and instruments. This approach provides the student with an appreciation of the sound, power and meaning of music as it exists within culture. Previously titled Worlds Of Music. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: GLBL.

MUSC 2060. SACRED SOUNDS: MUSIC AND RELIGION IN CULTURE AND TIME. (4 Credits)
Music gives voice to our deepest hopes and fears, beliefs and uncertainties; it is therefore central to many religions. In this course we will deepen our musical knowledge through an exploration of music and spirituality. We will examine musical practices spanning many centuries and several religious traditions: Judaism, Christianity (Catholic, Orthodox, and Protestant), Islam, Hinduism, and Buddhism. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MUSC 2120. INTRODUCTION TO MUSIC THEORY. (4 Credits)
Intro to Music Theory is a course designed for the student who wants to learn the basics of reading music notation (music written on the staff using treble and bass clefs), as well as the fundamentals of music theory such as scales, keys and key signatures, and intervals. This course assumes little to no formal musical training, and students need not be able to read music before taking this class. Students who do read music already, but lack some knowledge in theory fundamentals, are also encouraged to take this course. This class is a pre-requisite to Music Theory I (MUSC 2145) for those with no formal music theory training.

MUSC 2121. EAR TRAINING. (4 Credits)
Ear Training is an aural skills class designed to enhance the student musician’s ability to hear music in context as well as increase fluency in sight-reading and performance. Students will learn to both recognize by ear, and sing on command, the diatonic intervals, as well as training in rhythm and solfège. While there is no course pre-requisite, students must be fluent in reading music and have some knowledge of music theory fundamentals, such as the topics covered in Introduction to Music Theory (MUSC 2120).

MUSC 2140. KEYBOARD FUNDAMENTALS: A MUSIC-THEORY APPROACH. (3 Credits)
An intensive hands-on course in the basic skills necessary for the expression of musicianship at the keyboard. First, we learn to read, write, and interpret the fundamental elements of music theory: pitch, clef, and interval; rhythm and meter; scales and key signatures. Then, we apply these tools to the analysis and realization of triads and seventh chords, using both Roman numerals and jazz lead-sheet notation. No prior background assumed.
Corequisite: MUSC 2141.

MUSC 2141. KEYBOARD LAB. (1 Credit)
Offered in conjunction with MUSC 2140. This practical lab focuses on applying music-theoretical skills at the keyboard: playing diatonic scales and chord progressions; mastering specific compositions from the classical repertoire; developing a reliable sense of rhythm and meter; acquiring basic improvisational strategies and the technique of realizing jazz and popular styles from lead sheets.
Corequisite: MUSC 2140.

MUSC 2145. MUSIC THEORY I. (4 Credits)
Music Theory I is the first in a series of three required semester-long courses designed to offer a comprehensive overview of the theory of tonal music, especially of classical music during the Common Practice era, but also relating to the other genres, such as jazz and popular music. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MUSC 2146. MUSIC THEORY II. (4 Credits)
Music Theory II is a continuation of the required three-course music theory sequence. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MUSC 2145.

MUSC 2147. MUSIC THEORY III. (4 Credits)
This course is the last in the required three-course music theory sequence. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MUSC 2146.

MUSC 2148. MUSIC THEORY IV. (4 Credits)
This final music theory course focuses on further exploration of counterpoint, musical forms, and advanced analytical approaches. Students will study imitative counterpoint, such as fugal writing, the Sonata Principle in the 19th and 20th centuries, and will learn to write about music using technical language. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: MUSC 2147.

MUSC 2222. MUSIC COMPOSITION. (4 Credits)
This class will engage in the study of instrumental music composition covering a wide range of stylistic approaches and historical genres. Students will compose several short musical works over the course of the semester culminating in a final project that will be performed in a workshop setting by professional musicians. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: MUSC 2145 and MUSC 2146.
MUSC 2231. INTRODUCTION TO JAZZ IMPROVISATION. (4 Credits)
Introduction to the practice of jazz improvisation including scales, chords, transcription, stylistic analysis and performance. Students will play through exercises in class and transcribe solos for their own instruments. Open to all students regardless of background and experience. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MUSC 2300. ELECTRONIC MUSIC AND MUSIC PRODUCTION. (4 Credits)
An introduction to the creation, editing, and sequencing of electronic and recorded music using MIDI, computer software, sampling, and audio recordings. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MUSC 3110. MUSIC BEFORE 1600. (4 Credits)
This course spans 2000 years: from Pythagoras and Ancient Greek musical culture, to the birth of a commercial music industry in Renaissance Italy. We will examine carefully a number of musical worlds in order to extend our abilities as listeners, writers, analysts, and musicians. We will combine a study of musical style and technique with discussions of mysticism, gender and sexuality, morality, science, economics (class, commerce, and colonialism), and art and architecture. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: MVST, REST.

MUSC 3121. BAROQUE MUSIC: MUSIC BETWEEN ANCIENTS AND MODERNS. (4 Credits)
Musicians of the Baroque era (c. 1600-1750) distinguished themselves through the creation of distinctively modern sounds even as they found inspiration in the past: Monteverdi, Vivaldi, Handel, Bach (and their contemporaries) created music that continues to be performed. To understand what music meant during the Baroque, and what Baroque music might mean to us today, we will combine a study of musical style and technique with discussions of: sexuality, science and the occult, drama, morality, religion, class, colonialism, and the cultural upheavals of the Enlightenment. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MUSC 3122. MUSIC, ENLIGHTENMENT, AND REVOLUTION. (4 Credits)
From the 1750's to Beethoven's music in the early nineteenth century, this course examines the cultural issues of this crucial period in music history and their reflection in the compositions of such composers as Pergolesi, Gluck, Haydn, Mozart, and Beethoven. It considers how changing ideas about nature, government, social class, improvisation, dance, and language—as well as national rivalries, war, and technological advances—shaped the music that has come to represent the "classical" era in European art music. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MUSC 3123. MUSIC IN THE ROMANTIC CENTURY. (4 Credits)
Most of our current behaviors and beliefs with respect to Western music were first shaped in the cultural discourse of the 19th century. This course examines these as part of the interactions of 19th-century music composition, performance, and criticism with the major social, intellectual and cultural movements of the age, focusing on the work of Beethoven, Rossini, Berlioz, Wagner, Verdi, Brahms and Mussorgsky. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: COLI.

MUSC 3124. MUSIC IN THE 20TH CENTURY. (4 Credits)
Beginning with the innovations of Mahler, Debussy, Schoenberg, and Stravinsky, this course traces the main developments in the history of the 20th century Western music to the present. It examines both the music and its engagement with such social and cultural issues as the challenge of modernism; the technological revolution, high vs mass culture, art in democratic and totalitarian societies; and the impact of jazz, popular and world music. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

MUSC 3800. INTERNSHIP. (3 Credits)

MUSC 4800. MUSIC AND NATIONALISM. (4 Credits)
Since modern nationalism first emerged in the eighteenth century, music has been used in many ways by nationalists to shape and to stand for their cultural and political claims. This interdisciplinary course will examine how music helped motivate the earliest interest in "folklore," and how "classical" and even recently "popular" musics have drawn on these foundations. We will examine how historians, musicologists, folklorists, composers, sociologists and others have treated music in this context. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

NSCI 1010. PHYSICAL SCIENCES: FROM PAST TO PRESENT. (3 Credits)
Designed to introduce the non-science major to the development of concepts and theories in chemistry and physics. Topics will include atomic theory, interactions of energy and matter, light, and astronomy. Laboratory sessions will complement the lecture topics.

Attribute: PSCI.
Prerequisites: MATH 1100 or MATH 1203 or MATH 1206 or CISC 1100 or CISC 1400 or CISC 1600.

NSCI 1020. PHYSICAL SCIENCE: TODAY'S WORLD. (3 Credits)
This course will introduce the non-science major to the applications of physics and chemistry to medical, industrial, and environmental issues. Laboratory sessions will complement the lecture topics.

Attributes: ENST, PSCI.
Prerequisites: MATH 1100 or MATH 1203 or MATH 1206 or CISC 1100 or CISC 1400 or CISC 1600.

Natural Science (NSCI)
NSCI 1030. HUMAN FUNCTION AND DYSFUNCTION. (3 Credits)
Introduces the non-science major to intrinsic and extrinsic factors affecting the human body. Topics include genetic engineering, neuroscience, behavior, and disease. Laboratory sessions will complement the lecture topics.
Attributes: BIOE, LSCI.
Prerequisites: NSCI 1010 or NSCI 1020.

NSCI 1040. PEOPLE AND THE LIVING ENVIRONMENT. (3 Credits)
Introduces the non-science major to the place of humans in global biological systems. Topics include principles of population and community ecology, learning and behavior, evolution and sustainability. Laboratory sessions will complement the lecture topics.
Attributes: ENST, LSCI.
Prerequisites: NSCI 1010 or NSCI 1020.

NSCI 1050. HEALTH AND DISEASE I. (3 Credits)
Designed to introduce the non-science major to basic and applied physics and chemistry impacting human health. Topics include: radiation, medical imaging, pharmacology, toxicology, and biochemistry. Laboratory sessions will complement the lecture topics. This is the first of a two-course sequence. Health and Disease II (NSCI 1051) must be taken to complete the Physical and Life science core requirements.
Attribute: PSCI.
Prerequisites: MATH 1100 or MATH 1203 or MATH 1206 or CISC 1100 or CISC 1400 or CISC 1600.

NSCI 1051. HEALTH AND DISEASE II. (3 Credits)
Designed to introduce the non-science major to basic and applied life sciences as they impact human health. Topics to include diseases associated with genetic, pathogenic, immunologic and neurologic dysfunction, and current and future treatments of these disorders. Laboratory sessions will complement the lecture topics. This is the second of a two-course sequence that fulfills the science core requirement.
Prerequisite: NSCI 1050 (may be taken concurrently).

NSCI 1321. GENERAL CHEMISTRY LECTURE I. (4 Credits)
An introductory course covering treachemical bonding, thermochemistry, properties of gases. Lecture: three hours; recitation: one hour. (Every Fall.)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ENVS, ZLB3.
Corequisite: NSCI 1331.
Prerequisite: MATH 1203 (may be taken concurrently).
Mutually Exclusive: CHEM 1321.

NSCI 1322. GENERAL CHEMISTRY LECTURE II. (4 Credits)
A continuation of NSCI 1321. Properties of liquids, solids and solutions; chemical kinetics, equilibria, and thermodynamics. Lecture: three hours; recitation: one hour. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ENVS.
Corequisite: NSCI 1332.
Prerequisite: NSCI 1321.
Mutually Exclusive: CHEM 1322.

NSCI 1331. GENERAL CHEMISTRY LAB I. (2 Credits)
The laboratory to accompany NSCI 1321. Lab fee.
Attributes: ENVS, ZLB3.
Corequisite: NSCI 1321.
Prerequisite: NSCI 1331.

NSCI 1332. GENERAL CHEMISTRY LAB II. (2 Credits)
The laboratory to accompany NSCI 1322. Lab fee.
Attributes: ENVS, ZLB3.
Corequisite: NSCI 1322.
Prerequisite: NSCI 1331.

NSCI 1403. GENERAL BIOLOGY LECTURE I. (3 Credits)
Theoretical and experimental aspects of biology through study of structural and functional interrelationships of the cellular and organismal levels. Chemical and cellular basis of life, integrating and functional systems and maintenance of homeostasis. Lecture: three hours. (Every Fall)
Attribute: ENVS.
Corequisite: NSCI 1413.
Mutually Exclusive: BISC 1403.

NSCI 1404. GENERAL BIOLOGY LECTURE II. (3 Credits)
Attribute: ENVS.
Corequisite: NSCI 1414.
Prerequisites: NSCI 1403 or NSCI 1423.
Mutually Exclusive: BISC 1404.

NSCI 1413. GENERAL BIOLOGY LAB I. (2 Credits)
The laboratory to accompany NSCI 1403. Lab fee.
Attributes: ENVS, ZLB3.
Corequisite: NSCI 1403.

NSCI 1414. GENERAL BIOLOGY LAB II. (2 Credits)
The laboratory to accompany NSCI 1404. Lab fee.
Attributes: ENVS, ZLB3.
Corequisite: NSCI 1404.

NSCI 1423. CONCEPTS IN BIOLOGY LECTURE I. (3 Credits)
Theoretical and experimental aspects of the biology of animals emphasizing structural and functional interrelationships at the cellular and organismal levels. Topics include cellular and biochemical basis of life, functional anatomy, neurobiology and homeostasis. Lecture: three hours. (Every Fall)
Corequisite: NSCI 1433.

NSCI 1424. CONCEPTS IN BIOLOGY LECTURE II. (3 Credits)
Theoretical and experimental aspects of the biology of animals emphasizing structural and functional aspects of self-perpetuation. Topics include reproduction, heredity, behavioral biology, evolution and organism-environment interactions. Lecture: three hours. (Every Spring)
Corequisite: NSCI 1434.
Prerequisites: NSCI 1423 or NSCI 1403.

NSCI 1433. CONCEPTS IN BIOLOGY LAB I. (2 Credits)
The laboratory to accompany NSCI 1423. Lab fee.
Attribute: ZLB3.
Corequisite: NSCI 1423.

NSCI 1434. CONCEPTS IN BIOLOGY LAB II. (2 Credits)
The laboratory to accompany NSCI 1424. Lab fee.
Attribute: ZLB3.
Corequisite: NSCI 1424.
Prerequisite: NSCI 1433.
NSCI 1501. GENERAL PHYSICS LECTURE I. (3 Credits)
The fundamental physics course for majors in natural sciences. A study
of physical quantities, phenomena, and laws in mechanics, heat and
sound. Lecture: three hours; recitation: one hour. (Every fall.)
Corequisite: NSCI 1511.
Prerequisites: MATH 1203 or MATH 1205.

NSCI 1502. GENERAL PHYSICS LECTURE II. (3 Credits)
The continuation of General Physics I with studies in electromagnetism,
optics, relativity, atomic and nuclear physics. Lecture: three hours;
recitation: one hour. (Every spring.)
Corequisite: NSCI 1512.
Prerequisite: NSCI 1501.

NSCI 1511. GENERAL PHYSICS LAB I. (1 Credit)
The laboratory to accompany NSCI 1501 and NSCI 1061. Lab fee.
Attribute: ZLB3.
Corequisite: NSCI 1501.

NSCI 1512. GENERAL PHYSICS LAB II. (1 Credit)
The laboratory to accompany NSCI 1502 and NSCI 1062. Lab fee.
Attribute: ZLB3.
Corequisite: NSCI 1502.
Prerequisite: NSCI 1511.

NSCI 1999. TUTORIAL. (1 Credit)

NSCI 2010. GLOBAL ECOLOGY LECTURE. (3 Credits)
An introduction to the principles of ecology, with emphasis on global
environmental problems of the present day. The interaction of biological
principles with social, political and economic systems. Selected topics
include the ecology of global habitats, population biology, air and water
pollution, waste disposal and environmental impacts. (Fall, even years).
Attributes: ENST, ENVS.
Prerequisites: NSCI 1030 or NSCI 1040 or NSCI 1051 or NSCI 1404.

NSCI 2011. GLOBAL ECOLOGY LAB. (2 Credits)
The laboratory to accompany NSCI 2010. Lab fee.
Attribute: ENST.
Prerequisite: NSCI 2010 (may be taken concurrently).

NSCI 2018. BIOLOGY OF AGING. (3 Credits)
The emphasis in this course is on present knowledge regarding
biological, anatomical, physiological, and cytological changes in people
during the aging process. Topics include somatic mutation, cancer
and changes in the genetic material, immune systems in aging, free
radicals, hormones, sensory systems, neurobiology of aging, and possible
directions for future research.
Prerequisites: NSCI 1404 or NSCI 1424.

NSCI 2030. NEUROSCIENCE. (3 Credits)
Introduction to chemical bases of psychology, neurodegenerative and
behavior disorders. Structure/function of endogenous and exogenous
neuroactive agents, neuropeptides, genetic susceptibility, receptor theory;
current research on depression, schizophrenia, obsessive-compulsive
behavior, eating disorders and neuroimmunology. (Spring- even years.)
Prerequisites: (NSCI 1000 and NSCI 1100) or (NSCI 1322 and (NSCI 1404
or NSCI 1424)).
Mutually Exclusive: BISC 4532.

NSCI 2040. RESEARCH DESIGN AND ANALYSIS. (3 Credits)
Modern methods in the natural sciences generate an embarrassment
of riches with respect to data. Scientists need effective methods for
acquiring, interpreting, and presenting data. This course provides an
overview of the theory and practice of data handling in the modern
natural sciences. Topics will include efficient and effective study designs,
statistical and graphical aids to summarizing, presenting, and drawing
conclusions from data, and accessing and drawing conclusions from
biological data bases. The course will reflect the fact that the data
handling today is heavily computer based. (Spring, every year)

NSCI 2060. ENVIRONMENT: SCIENCE, LAW, AND POLICY. (3 Credits)
Using problem-based investigations and case studies, students will
examine scientific, legal and policy aspects of selected topics. The
course includes field trips to environmentally sensitive sites and guest
speakers.
Attribute: ENVS.
Prerequisites: NSCI 1404 or NSCI 1040.

NSCI 2122. IMMUNOLOGY LECTURE. (3 Credits)
(Formerly NSCI 2012 or 2022.) An introduction to the concepts of
immunology, including theory, clinical applications and techniques.
Mutually Exclusive: NSCI 2012.

NSCI 2141. VERTEBRATE ANATOMY LECTURE. (3 Credits)
(Formerly NSCI 2041.) The origin, relationships and anatomy of
vertebrates. Current concepts in evolutionary theory. Emphasis
is given to mammals, particularly humans. A systems approach
is used to consider the embryological origins as a guide to the
anatomical structures in the adult. Prerequisites: NSCI 1404 and 1414;
Recommended: NSCI 3154.
Corequisite: NSCI 2841.
Prerequisites: (NSCI 1404 and NSCI 1414) or HPLC 1604.
Mutually Exclusive: NSCI 2041.

NSCI 2800. INTERNSHIP. (2 Credits)

NSCI 2822. IMMUNOLOGY LAB. (2 Credits)
(Formerly part of NSCI 2022.) Optional lab for NSCI 2122 Immunology.
Lab fee.
Attribute: ZLB3.
Corequisite: NSCI 2122.

NSCI 2841. VERTEBRATE ANATOMY LAB. (2 Credits)
(Formerly part of NSCI 2041.) Lab for NSCI 2141, required. Lab fee.
Attribute: ZLB3.
Corequisite: NSCI 2141.
Prerequisites: NSCI 1404 and NSCI 1424.

NSCI 2999. NATURAL SCIENCE TUTORIAL. (2 Credits)

NSCI 3014. MOLECULAR ECOLOGY LAB. (2 Credits)
This course will introduce students to the field of Molecular Ecology,
the use of molecular methods to address evolutionary, behavioral,
conservation, and ecological questions. This laboratory course will
provide hands-on training in molecular ecology experimental and
analytical skills. In addition, students will gain experience in experimental
design, the critical evaluation of the scientific literature and in written and
oral scientific communication. This will be accomplished in the context of
semester projects that the students design and implement.
Attribute: ZLB3.

Updated: 10-11-2017
NSCI 3121. ORGANIC CHEMISTRY LECTURE I. (4 Credits)
(Formerly NSCI 3021.) Comprehensive organic chemistry course which includes an understanding of how structure relates to activity, pi bond chemistry, stereochemistry, elimination versus substitution reactions, and an introduction to infrared and nuclear magnetic resonance spectrosopies, and mass spectroscopy.

Attribute: ENVS.
Corequisite: NSCI 3821.
Prerequisite: NSCI 3122.
Mutually Exclusive: CHEM 2521.

NSCI 3122. ORGANIC CHEMISTRY LECTURE II. (4 Credits)
(Formerly NSCI 3031.) A continuation of NSCI 3121. Topics include electrophilic aromatic substitution carbonyl chemistry, condensation reactions, UV and mass spectroscopy, proteins, carbohydrates and lipids. Every spring. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ENVS.
Corequisite: NSCI 3822.
Prerequisite: NSCI 3121.

NSCI 3133. GENETICS LECTURE. (3 Credits)
(Formerly NSCI 3023 or 3033.) This course will examine aspects of genetics including the biological basis of inheritance, the molecular and cellular biology of genes, genetic engineering, and evolution and population genetics. We will focus on classic and cutting edge genetic experiments, tools, and model organisms in order to understand fundamental genetics principles and to explore real-world applications in medicine, agriculture, and industry.

Attribute: ENVS.
Prerequisites: (NSCI 1404 and NSCI 1414) or (HPLC 1604) and (NSCI 1331 and NSCI 1332).
Mutually Exclusive: BISC 2539.

NSCI 3154. CELL AND DEVELOPMENT BIOLOGY LECTURE. (3 Credits)
(Formerly NSCI 3054 or 3044.) Study of growth, patterning, and differentiation in multicellular organisms, with an emphasis on vertebrate and invertebrate model organisms. This course discusses our current understanding of how multicellular organisms are formed based on experiments in classical embryology, cell biology and developmental genetics. This course emphasizes interpretation and analysis of experiments. (Spring, even years)

Prerequisites: NSCI 1404 and NSCI 1414 and NSCI 1322 and NSCI 1332.
Mutually Exclusive: BISC 3754.

NSCI 3821. ORGANIC CHEMISTRY LAB I. (2 Credits)
(Formerly NSCI 3022.) A laboratory course introducing the student to the experimental techniques of organic chemistry. Lab Fee.

Attributes: ENVS, ZLB3.
Corequisite: NSCI 3121.
Mutually Exclusive: CHEM 2541.

NSCI 3822. ORGANIC CHEMISTRY LAB II. (2 Credits)
(Formerly NSCI 3032.) A continuation of NSCI 3821. Lab Fee.

Attribute: ZLB3.
Corequisite: NSCI 3122.
Mutually Exclusive: CHEM 2542.

NSCI 3833. GENETICS LAB. (2 Credits)
(Formerly part of NSCI 3033.) Optional lab for NSCI 3133 Genetics. Lab fee.

Attribute: ZLB3.
Corequisite: NSCI 3133.
Prerequisites: (NSCI 1404 and NSCI 1414) or (HPLC 1604) and (NSCI 1331 and NSCI 1332) and (NSCI 3133 (may be taken concurrently) or NSCI 3023).
Mutually Exclusive: BISC 2549.

NSCI 3854. CELL AND DEVELOPMENT BIOLOGY LAB. (2 Credits)
(Formerly part of NSCI 3054.) Optional lab for NSCI 3154 Cell & Development Biology. Lab fee.

Attribute: ZLB3.
Corequisite: NSCI 3154.

NSCI 3999. TUTORIAL. (3 Credits)
Independent research and reading with supervision from a faculty member.

NSCI 4032. NEUROBIOLOGY LABORATORY. (2 Credits)
Laboratory course designed to complement Neuroscience (NSCI 2030) or Physiology Without Lab (NSCI 4022).

Prerequisites: NSCI 2030 (may be taken concurrently) or NSCI 4112 (may be taken concurrently).

Mutually Exclusive: NSCI 4812.

NSCI 4080. PHARMACOLOGICAL CHEMISTRY. (3 Credits)
This course presents the chemistry of molecular recognition between drugs and their targets (receptors, ion-channels, enzymes and nucleic acids) and how this information is used to design new drugs with specific biological functions. In addition to traditional theories of structure and function in drug design, the course will include the most recent research publications in nanoparticle drug delivery, pharmacogenetics (the study of genetic factors and gene-environment interactions that influence drug delivery, bio-availability, metabolism, clearance, and toxicity) and innovative methods for treating cancer. Ethical considerations of the use and misuse of drugs will also be addressed. Prerequisites NSCI 3031 or NSCI 3122.

Prerequisite: NSCI 3031.

NSCI 4081. NEUROCHEMISTRY. (3 Credits)
This course explores the function of the nervous system on the chemical level, with emphasis on the structure and function of the neurotransmitters and their receptors and psychoactive drugs of use and abuse.

Prerequisite: NSCI 3031 (may be taken concurrently).

NSCI 4112. ANIMAL PHYSIOLOGY LECTURE. (3 Credits)
(Formerly NSCI 4012 or 4022.) Processes by which homeostasis is maintained particularly in humans. Basic cell properties; development of biopotentials; the integrating systems: nerve, muscle, and endocrine; and the functional systems: cardiovascular, respiratory, digestive, reproductive, and excretory. Prerequisites: NSCI 1404 and NSCI 1414 or NSCI 1424 and 1434, NSCI 1322 and NSCI 1332; strongly recommended: NSCI 2141.

Attribute: ENVS.

Prerequisites: (NSCI 1404 and NSCI 1414) or (NSCI 1424 and NSCI 1434) and NSCI 1322 and NSCI 1332.
Mutually Exclusive: NSCI 4012.
NSCI 4143. ADVANCED MICROBIOLOGY LECTURE. (3 Credits)
(Formerly NSCI 4043.) Study of structural and functional characteristics of bacteria, fungi, viruses, and unicellular and multicellular eukaryotic animal parasites. Topics will include cell structure, physiological pathways, microbial genetics, disease mechanisms, and ecology. Laboratory experiments will acquaint students with techniques of isolation, culture, and identification of organisms from soil, water, food, and air; bacterial genetics and ecology.
Attributes: ENVS, ZLB3.
Corequisites: NSCI 4843.
Prerequisites: (HPLC 1604 or NSCI 1404 and NSCI 1414) and NSCI 1322.
Mutually Exclusive: NSCI 4043.

NSCI 4144. MICROANATOMY LECTURE. (3 Credits)
(Formerly NSCI 4044.) Microscopic anatomy of mammalian cells and tissues. Theoretical analysis and practical techniques illustrate the interrelationships of structure and function in tissues and organs. Histological slides and histochemical preparations will be used to identify and correlate structure with physiological/biochemical activities. Spring, odd years.
Corequisite: NSCI 4844.
Prerequisites: NSCI 1404 and NSCI 1414.
Mutually Exclusive: NSCI 4044.

NSCI 4153. BIOLOGICAL CHEMISTRY LECTURE. (3 Credits)
An introduction to the chemistry of biological molecules (carbohydrates, proteins, polynucleic acid and their constituents, and lipids), emphasizing their biosynthesis and role as biostructural building blocks. Other specialized topics to be covered include enzyme kinetics, mechanism and regulation; energy conversion and dynamics. (Every fall) Prerequisite: NSCI 3031 or NSCI 3122.
Attribute: ENVS.
Prerequisite: NSCI 3031.
Mutually Exclusive: CHEM 4221.

NSCI 4176. MOLECULAR BIOLOGY LECTURE. (3 Credits)
(Formerly NSCI 4076.) This course covers the biology of the gene, including regulation and mechanism of replication, transcription and translation as well as principles of genetic engineering. The course emphasizes interpretation and analysis of experiments. The laboratory focuses on analysis and manipulation of DNA and RNA. (Spring, odd years)
Corequisite: NSCI 4876.
Prerequisites: NSCI 3122 and NSCI 3133 and NSCI 4143.
Mutually Exclusive: BISC 3752.

NSCI 4222. SCIENCE, TECHNOLOGY, AND SOCIETY VALUES. (4 Credits)
This course serves as a capstone seminar for senior majors. Students will explore original literature, the relationship of the natural sciences to other disciplines, and ethical considerations in the sciences. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ENVS.

NSCI 4812. ANIMAL PHYSIOLOGY LAB. (2 Credits)
(Formerly part of NSCI 4012.) Optional lab for NSCI 4112 Animal Physiology. Lab fee.
Attribute: ZLB3.
Corequisite: NSCI 4112.
Mutually Exclusive: NSCI 4032.

NSCI 4843. ADVANCED MICROBIOLOGY LAB. (2 Credits)
(Formerly part of NSCI 4043.) Lab for NSCI 4143, required. Lab fee.
Corequisite: NSCI 4143.

NSCI 4844. MICROANATOMY LAB. (2 Credits)
(Formerly part of NSCI 4044.) Lab for NSCI 4144, required. Lab fee.
Attribute: ZLB3.
Corequisite: NSCI 4144.

NSCI 4853. BIOLOGICAL CHEMISTRY LAB. (2 Credits)
(Formerly NSCI 4065.) A one-semester laboratory course to familiarize advanced students with the research techniques applied to proteins and nucleic acids. Included are subcellular fractionation, spectrophotometry, gel electrophoresis, centrifugation, and column chromatography. Lab fee. (Every semester) Prerequisites: NSCI 3031 or NSCI 3122; corequisite NSCI 4153 or NSCI 4065.
Attribute: ZLB3.
Corequisite: NSCI 4153.
Mutually Exclusive: CHEM 4231.

NSCI 4876. MOLECULAR BIOLOGY LAB. (2 Credits)
(Formerly part of NSCI 4076.) Lab for NSCI 4176, required. Lab fee.
Attribute: ZLB3.
Corequisite: NSCI 4176.

NSCI 4999. TUTORIAL. (1-4 Credits)
As above, except that a laboratory project under faculty supervision is an integral component of the course. One course may be counted as a laboratory elective in the major. (Every semester)

Naval ROTC (NAVY)

NAVY 1100. NAVAL LABORATORY I. (0 Credits)
Midshipmen are provided the opportunity in laboratory to develop personally while participating in activities as a team leader or team member. Naval Science Laboratories are a blend of academic lectures on naval theory and naval administration and practical training in physical readiness, military discipline, and an appreciation of the customs and traditions of the Naval Service. Approximately two hours each week, usually held on Wednesdays at 16:00 (4 p.m.) at the SUNY Maritime College campus each semester. All NROTC midshipmen, STA-21 and MECEP students are required to attend.

NAVY 1101. NAVAL ORIENTATION. (0 Credits)

NAVY 1102. HISTORY OF SEA POWER. (3 Credits)

NAVY 2200. NAVAL LABORATORY II. (0 Credits)

NAVY 2201. NAVAL LEADERSHIP I. (2 Credits)
A comprehensive study of organizational behavior and management in the context of the naval organization. Senior year, fall semester, for Navy Option midshipmen. (Maritime NVSC 401.) Degree credit through CBA.

NAVY 2202. MARINE ENGINEERING. (3 Credits)

NAVY 2204. NAVIGATION AND NAVAL OPERATION I. (3 Credits)
Piloting and celestial navigation including theory, principles, procedures, the use of charts, visual and electronic aids, and the theory and operation of magnetic and gyro compasses. Celestial navigation is covered in depth. Practical skills are developed. Topics include tides, currents, effects of wind and weather, plotting, use of navigation system, and day's work in navigation. Required of all Navy Option NROTC midshipmen. Sophomore year, spring semester. Degree credit through CBA. (Maritime NVSC 211).
NAVY 3330. NAVAL LABORATORY III. (0 Credits)
NAVY 3332. NAVAL OPERATIONS. (0 Credits)
NAVY 3333. NAVAL SHIP SYS I (ENGINEERING). (3 Credits)
NAVY 3334. NAVAL WEAPONS SYSTEMS. (3 Credits)
Modern naval weapons, attention is given to airborne, surface systems. The facets of command, control, integration. Required of all Navy Option, CBA. (Maritime NYSC 303)
NAVY 3331. EVOLUTION OF WARFARE. (3 Credits)
NAVY 3332. AMPHIBIOUS WARFARE. (3 Credits)
NAVY 4400. NAVAL LABORATORY IV. (0 Credits)
NAVY 4402. NAVAL LEADERSHIP II. (2 Credits)
NAVY 4403. NAVIGATION & NAVAL OPER II. (3 Credits)

New Media and Digital Design (NMDD)

NMDD 1001. EXPLORE NEW MEDIA AND DIGITAL DESIGN. (3 Credits)
This course critically explores notable histories, geographies and practices of digital design. Students will gain an understanding of fundamentals of contemporary design paradigms, internet architecture and governance and the politics of designing media that operates at intimate, local and global scales.

NMDD 1800. INTERNSHIP. (1 Credit)

NMDD 3020. EXPLORATIONS IN DIGITAL STORYTELLING. (4 Credits)
This class explores storytelling in emerging platforms. From the still image and the soundscape, we will evolve to discuss digital filmmaking, game design and interactive web narratives. Integrated workshops in cinematography, sound and video editing, and other storytelling technologies will enable students to create story projects of their own. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMC, COMM, DTEM, CVW.

NMDD 3220. INTRODUCTION TO GAME NARRATIVE. (4 Credits)
Students will examine how game stories motivate players and propel games from beginning to end. By examining games old and new, analog and digital, students will identify themes and narrative strategies while the class offers both design and technology instruction to enable them to create their own game stories. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMM, DTEM, FITV.

NMDD 3308. PROFESSIONAL SOCIAL MEDIA. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMC, COMM, DTEM, JOUR.

NMDD 3338. DIGITAL STRATEGY FOR CAUSE MARKETING. (4 Credits)
This course provides a comprehensive overview of the current landscape of digital cause marketing. Students will have a chance to explore the variety of tools, best practices and strategies commonly found in the industry while taking a deep dive into case studies of digital content marketing for social causes in action. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

NMDD 3450. USER EXPERIENCE DESIGN: DESIGN FOR EMPOWERMENT. (4 Credits)
This course focuses on how human-centered design and participatory design methods can be used as approaches to empowerment. Students will gain a hands-on experience with conducting user research, synthesizing findings into insights, ideating, sketching, rapid prototyping, and validating concepts with users. Course reading, discussions, and activities will be organized into a user-experience project to help students get out and interact with real users, needs, and challenges.
Attribute: DTEM.

NMDD 3880. DESIGNING SMART CITIES. (4 Credits)
“Smart Cities” represents the rapid integration of digital media and communication networks into all modes of urban living and the reorientation of urban economies toward digital industries. This course combines an introduction to smart urbanism with a community-based research and design project for service-learning credit. Students gain experience in the field both conducting a digital needs assessment and designing digital networks that prioritize access, empathy and local participation. (Community service required.) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMC, COMM, DTEM, JOUR.

NMDD 3890. DATA VISUALIZATION AND REPRESENTATION. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: DTEM.

NMDD 3900. INTERNSHIP SEMINAR. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

NMDD 4600. SENIOR CAPSTONE SEMINAR. (4 Credits)
A seminar and hands-on working group for senior capstone projects in the New Media and Digital Design program Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: NMDD 1001.

NMDD 4800. INTERNSHIP. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

NMDD 4999. TUTORIAL. (4 Credits)
New York Real Estate Institute (REAL)

REAL 1000. NEW YORK LANDLORD TENANT LAW. (0 Credits)
The course will cover laws concerning residential and non-residential tenancies; the rights and obligations of owners and occupants; lease provisions of rent-regulated apartments and commercial properties; termination of the landlord-tenant relationship, including legal proceedings.
Attribute: Z35B.

REAL 1100. PROPERTY MANAGEMENT AND MANAGING RISK. (0 Credits)
A basic overview of real estate management and asset insurance coverage and methodology. The topics will cover the financial reporting, budgeting, insurance coverage and premiums, leasing, operations and maintenance (MEP), tenant/employee/employer relationship, computer and security technology.
Attribute: Z35B.

REAL 1200. FAIR HOUSING. (0 Credits)
This course covers basic fair housing principles which salespersons and brokers are expected to know and practice. The course also examines the Federal, State, local and regulatory codes that shape fair housing as we know it.
Attribute: Z35A.

REAL 1300. CONSTRUCTION PROJECT MANAGEMENT. (0 Credits)
Provides a comprehensive approach to understand the dynamics of the construction business structure, how to formulate a reputable company, solve the puzzle as to how to review and prepare for the business plan, bidding process, understand the RFI, RFQ and RFP procedures.
Attribute: Z35C.

REAL 1400. ZONING COMPLIANCE AND URBAN DEVELOPMENT. (0 Credits)
A basic review of the origin, implementation, and enforcement of NYC zoning regulations. The class covers the zoning issues facing each community, zoning maps, land use regulations, definition of F.A.R., building envelope, building accessories, sprinkler requirements, real estate taxes, historic preservation, green building tech.
Attribute: Z35B.

REAL 5014. NEGOTIATION IN REAL ESTATE. (1.5 Credits)
This course provides an introduction to negotiation along with a strong foundation in a number of key concepts, including the three major roles of the conflict specialist, theories of communication and conflict, approaches to negotiation and their limitations, private versus court-centered approaches to resolving conflict and psychological biases and barriers in addressing conflict. Students explore new roles for conflict specialists with an eye towards preparing themselves to engage in various negotiation scenarios that arise in the real estate industry.

REAL 5016. ETHICAL ISSUES IN REAL ESTATE. (1.5 Credits)
Students in this course study how ethics are considered from various points of view: historically, relationally and transactionally. In a series of different situations commonly occurring in the real estate industry, students consider the ethical issues present and then evaluate the adequacy of the real world responses to those issues.

REAL 5102. REAL ESTATE RISK AND PORTFOLIO MANAGEMENT. (3 Credits)
This course discusses the theory and principles of investments and portfolio management. Students acquire a working knowledge of the risks associated with individual real estate investments, such as asset-specific underwriting, credit evaluation, and tenant credit risk and then explore advanced topics including portfolio selection, calculation of efficient sets, and portfolio performance evaluation for the holding entity.

REAL 5104. THE REAL ESTATE DEVELOPMENT PROCESS. (3 Credits)
This course provides a practical analysis of the phases of the real estate development process including conceptualization, site acquisition, planning and design, construction, financing, leasing and marketing. Leadership, management and control of the development team are featured issues.

REAL 5106. REAL ESTATE ASSET MANAGEMENT. (3 Credits)
Students learn how to develop an investment strategy and an actionable asset management plan based on that strategy for increasing the value of real estate assets under management on behalf of ownership. Students examine acquisitions, leasing, operations, budgets, capital expenditures, repositioning, refinancing, dispositions and distressed foreclosure workouts using financial modeling, underwriting, risk analysis, and performance benchmarking concepts and tools. The decision-making process will be examined from the property, asset and portfolio management perspectives.

REAL 5108. REAL ESTATE CREDIT ANALYSIS AND UNDERWRITING. (3 Credits)
Students learn how to underwrite and structure commercial real estate (CRE) loans for the acquisition, development and construction of income-producing properties. A combination of market, risk and financial analysis tools will be used to assess commercial investment properties and borrower credit worthiness, and to make prudent, defensible lending decisions.

REAL 6002. REAL ESTATE DEVELOPMENT FEASIBILITY STUDY. (3 Credits)
This course examines the components of a real estate development feasibility study report. Students refine leadership, team and presentation skills to deliver a comprehensive and persuasive report on a currently available real estate project.

REAL 6004. ADAPTIVE REUSE AND SUSTAINABILITY. (1.5 Credits)
Utilizing sustainable principles and building practices, this comprehensive course challenges students to think critically about reusing existing building stock and maintaining historic structures. It encourages adaptive reuse by owners and developers entering the design review process. The goal is to help developers think critically about the opportunities presented by adaptive reuse.

REAL 6006. DEVELOPMENT PROJECT LEADERSHIP, MANAGEMENT AND COMMUNICATIONS. (1.5 Credits)
Gain essential leadership, management and reporting skills and strategies to effectively control the design and construction process, ensuring that every decision is made in the owner’s best interest. Become acquainted with different types of reporting, and learn best practices and tools needed to improve performance, standards and timely project delivery.
REAL 6008. AFFORDABLE HOUSING. (1.5 Credits)
In this course, students acquire an understanding of the history and current state of affordable housing in the US in general and NYC in particular. Students learn from a combination of formal lectures and interviews with past and current industry participants and leaders. The focus of the course is examine the multiple factors that must be addressed in the planning and execution of affordable housing projects.

REAL 6010. INFRASTRUCTURE PROJECT FINANCE. (1.5 Credits)
This course presents the financial and legal principles of project and infrastructure finance. The increasing demand for infrastructure projects including roads, airports, conventional and alternative (renewables) power generation and health and education facilities has positively affected the growth of privately and publicly funded infrastructure investments, thus the existence, improvement or creation of infrastructure is critical to any real estate project.

REAL 6012. GLOBAL REAL ESTATE INVESTMENT. (1.5 Credits)
This course provides a comparative and critical approach to undertaking international real estate transactions, investments and development projects by providing a framework for analyzing real estate investments across borders within specific markets.

REAL 6014. LAND USE LAW. (1.5 Credits)
Real estate development is profoundly impacted by land use law and environmental regulations. A successful developer must navigate through land use controls, federal, state and city environmental regulations, landmark and historic preservation restrictions and community concerns, in addition to building and fire codes and other safety regulations.

REAL 6016. REAL ESTATE ENTREPRENEURSHIP BUSINESS PLANNING. (1.5 Credits)
This course integrates the concepts, tools and practices of entrepreneurship. Students learn to be superior opportunity assessors and shapers, to understand the integration of people and process in entrepreneurship, to write, articulate and present a new venture execution plan, to understand the alternatives and trade-offs in financing, starting and operating a venture, and to gain a better understanding of their personal entrepreneurial capabilities.

REAL 6020. INTERNSHIP. (1.5 Credits)

REAL 6022. SPECIAL TOPICS IN REAL ESTATE. (1.5 Credits)
These courses, which will be offered periodically, are designed to enhance the student's educational experience by supplementing the standard array of courses with topics that are very highly specialized. Areas of study will include real estate finance, investment and development. In most cases, they will be of interest to those students who desire a more intense exposure to a particular field of study.

REAL 6100. APPLIED PROJECT. (3 Credits)
The Applied Project capstone course provides for a comprehensive application of core, flex core and elective course principles, concepts, and professional practice to real world real estate investment projects.

REAL 6200. RESEARCH PROJECT (THESIS). (3 Credits)
Students work with a qualified supervisor to conduct research, collect data, analyze, test their hypotheses and write up their findings. The finished thesis must demonstrate the student’s ability to conduct comprehensive research and articulate original ideas and thought processes that make a practical contribution to the existing body of knowledge in the field of real estate.

Organizational Leadership (ORGL)

ORGL 2000. THEORIES OF LEADERSHIP. (4 Credits)
Designed to provide a context for the beginning student in the Organizational Leadership major, this course presents a range of theoretical perspectives and a common vocabulary for discussing leadership. It includes an analysis of historical concepts and contemporary theories, focusing on the idea of leadership and the contributions of several disciplines to our understanding of it. Designed to provide a context for the beginning student in the Organizational Leadership major, this course presents a range of theoretical perspectives and a common vocabulary for discussing leadership. It includes an analysis of historical concepts and contemporary theories, focusing on the idea of leadership and the contributions of several disciplines to our understanding of it. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ORGL 2300. ISSUES IN HUMAN RESOURCE MANAGEMENT. (4 Credits)
An overview of current issues in human resource management in organizations. Topics include: career development, recruitment, retention, training, interviewing, performance appraisal and improvement, employee relation, technology, legal issues, compensation, motivation, ethics, work-life balance. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ORGL 2500. ORGANIZATIONAL BEHAVIOR, CHANGE, AND LEADERSHIP. (4 Credits)
This course will explore individual and group behavior in organizations. Scholarly perspectives, theoretical framework, practitioner methods, measurement instruments within the field of organizational behavior and change management will be presented. Course academic content and skills exercises emphasize the social, psychological, and cultural dynamics and practices influencing individual and group behavior. Key focus areas of the course include theories of organizational behavior, cultural change models, and the leader's role in assessing, facilitating and achieving change. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ORGL 2600. MEDIATION, NEGOTIATION, ALTERNATIVE DISPUTE RESOLUTION. (4 Credits)
A review of the history principles and practices of ADR (Alternative Dispute Resolution) including mediation, negotiation, arbitration, conflict resolution--increasingly used in all areas of society (Law, Business, Family). Combines lectures and exercises. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ORGL 2700. ORGANIZATIONAL COMMUNICATION. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Updated: 10-11-2017
ORGL 2800. U.N. AND POLITICAL LEADERSHIP. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: PJST.

ORGL 2900. ENTREPRENEURSHIP. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PCGR 6310. LEADING WITH EMOTIONAL INTELLIGENCE. (4 Credits)
Leading with emotional intelligence is the capacity for effectively recognizing and managing our own emotions and those of others. It is self-awareness and self-management, social awareness, and social management and other items. The course relates IQ to organizational effectiveness and personal success. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PCGR 6440. PAST COUNSELING SKILLS. (3 Credits)
This course addresses theological and spiritual issues in the field of pastoral care and counseling and proposes a theological method for reflecting on these issues.

PCGR 6382. SOC & CUL FOUND OF COUNSELING. (3 Credits)
This course will explore the multicultural dimensions of counseling. It will elaborate the social and cultural goals of therapy from this perspective. Various theories, research and practice of counseling will be developed, including the spiritual dimensions of the theory.

PCGR 6384. PROF ETHICS/PAST COUNS. (3 Credits)
An exploration of critical issues in the ethical practice of counseling and psychotherapy, this course addresses the roles and responsibilities of the professional counselor. Using case studies and small group work, we will explore potential ethical conflicts and methods of ethical reasoning, as students develop skills to work through ethical conflicts in the counseling setting.

PCGR 6386. PAST COUNSELING THEORY. (3 Credits)
Faith and ministry of pastoral counseling. Consideration of religious resources and identity, theories of the counseling process and practical issues of therapeutic relationship, contract, setting, referral, etc.

PCGR 6390. PSYCHOPATHOLOGY & DIAGNOSIS. (3 Credits)
The course will introduce students to the basics of psychopathology and psychological diagnosis for use in clinical and pastoral work. This course is designed to help students cultivate the ability to think critically and creatively about psychopathology and diagnosis “on the ground,” so that they can work from a diagnostic standpoint that is human, flexible, empathic, and non-judgmental, with a focus on the real person one meets in the consulting room or ministry setting. Within this framework, the course will cover interviewing and assessment skills, DSM 5 categories, ethical considerations, character/personality issues, and pastoral assessment. Weekly case studies will be used to practice the art of diagnostic formulation, with an eye toward treatment planning and case formulation.

ORGL 4000. LEADERSHIP CONCEPTS AND CASES. (4 Credits)
This course combines historical examples with vision into the future of organizational development to identify the qualities and responsibilities that will dramatically redefine and improve leadership performance in today’s rapidly changing world of work. This course, through case study analysis, will help students identify and understand fundamental shifts in leadership development shifts that are essential if organizations are to grow and prosper. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

ORGL 4999. LEADERSHIP TUTORIAL. (1-5 Credits)

Pastoral Counseling (PCGR)

PCGR 6310. HUMAN GROWTH & DEVELOPMENT. (3 Credits)
This course will explore the development from birth and adolescence through the tasks and crisis of middle and later life. Stage theories, cognitive, social and emotional development will be the focus of this course. Special consideration will be given to spiritual life issues throughout the development process.

PCGR 6380. THEOL P. C. & SPIRIT CARE. (3 Credits)
This course addresses theological and spiritual issues in the field of pastoral care and counseling and proposes a theological method for reflecting on these issues.

PCGR 6382. SOC & CUL FOUND OF COUNSELING. (3 Credits)
This course will explore the multicultural dimensions of counseling. It will elaborate the social and cultural goals of therapy from this perspective. Various theories, research and practice of counseling will be developed, including the spiritual dimensions of the theory.

PCGR 6384. PROF ETHICS/PAST COUNS. (3 Credits)
An exploration of critical issues in the ethical practice of counseling and psychotherapy, this course addresses the roles and responsibilities of the professional counselor. Using case studies and small group work, we will explore potential ethical conflicts and methods of ethical reasoning, as students develop skills to work through ethical conflicts in the counseling setting.

PCGR 6386. PAST COUNSELING THEORY. (3 Credits)
Faith and ministry of pastoral counseling. Consideration of religious resources and identity, theories of the counseling process and practical issues of therapeutic relationship, contract, setting, referral, etc.

PCGR 6390. PSYCHOPATHOLOGY & DIAGNOSIS. (3 Credits)
The course will introduce students to the basics of psychopathology and psychological diagnosis for use in clinical and pastoral work. This course is designed to help students cultivate the ability to think critically and creatively about psychopathology and diagnosis “on the ground,” so that they can work from a diagnostic standpoint that is human, flexible, empathic, and non-judgmental, with a focus on the real person one meets in the consulting room or ministry setting. Within this framework, the course will cover interviewing and assessment skills, DSM 5 categories, ethical considerations, character/personality issues, and pastoral assessment. Weekly case studies will be used to practice the art of diagnostic formulation, with an eye toward treatment planning and case formulation.

PCGR 6410. PSYCHOLOGY & RELIG/SPIR. (3 Credits)
This course explores spirituality and religious experience from a psychological viewpoint. The theories of Freud, Jung, Winnicott, and others are engaged in order to understand how our psychology affects our religious lives and vice-versa. Using text, experiential exercises, and critical reflection, we will engage our own religious history and traditions, and explore what it means to be a fully alive human being.

PCGR 6420. MARRIAGE/FAMILY THERAPY. (3 Credits)
A systemic approach to family treatment. A survey of the major contributors to the field, using videotape demonstrations of family sessions. Genograms will be used to explore family-of-origin issues.

PCGR 6440. PAST COUNSELING SKILLS. (3 Credits)
Integrates humanistic counseling theory with intragroup practice. Focus on the listening skills of attending, accurate empathy, clarifying and focusing. Use of audio and video. No audit. (three hours).

PCGR 6510. ADVANCED LIFE SPAN ISSUES & CAREER COUNSELING. (3 Credits)
This course explores the advanced lifespan issues of adulthood, through the lens of pastoral and clinical care. Specific focus will be given to issues of career and vocation.

PCGR 7330. ASSESSMENT & APPRAIS OF INDIV. (3 Credits)
This course of study presumes a working knowledge of family systems theory and practice. the theoretical approach employed for individual and family functioning will be structural, solution focused and narrative family therapy. The course will focus on the clinical assessments and presentation by both students and course instructor of real family interactional issues. There will be the consideration of the impact of culture and cultural differences in understanding and responding to the patterns of family interactions.
PCGR 7410. RESEARCH METHODS IN PC. (3 Credits)
This course will be a review of research in pastoral counseling. It will introduce basic concepts and methods of qualitative research, consider ways of studying change as a result of pastoral care and counseling interventions and programs, and familiarize students with basic skills in evaluating research literature.

PCGR 7420. DEATH DYING & BEREAVEMENT. (3 Credits)
Focus on integrating theoretical knowledge, ministerial skills and personal experiences in relation to specific topics and issues. Not just how to minister, but how one goes about explaining the meaning of loss, death and grief.

PCGR 7422. GROUP PROCESS: TH & TECH. (3 Credits)
An experiential and didactic introduction to group process. Group-as-a-whole, interpersonal and general group models. Applications to the different forms of pastoral ministry. Limited enrollment (three hours). (No audit).

PCGR 7426. GROUP PROCESS/DYNAMICS. (3 Credits)
This course will meet weekly for three hours. The first hour will be experiential and two hours will focus on various Group theories, group facilitation, group leadership and an understanding of the challenges that may occur in setting up groups. The various stages of Group development will be explored. Students will be required to apply to the theory to an actual group and/or apply it to a group that will be part of their ministry. Basic skills, Counseling Theories are prerequisites for this course.

PCGR 7471. CLINICAL INSTR/INTEGR PROC. (3 Credits)
This course is designed to accompany the Field Placement for students in the Clinical Pastoral Counseling 60-Credit Program. Students will engage current approaches to counseling and psychotherapy in dialogue with their own clinical work. Classes will focus on the presentation of students' clinical work in connection with relevant topics in the clinical literature, addressing such matters as transference and countertransference, addictions treatment, spiritual issues, and working with trauma. The aim of the course is to integrate previous classroom work and clinical experience, so that students are prepared to begin work as professional counselors and therapists.

PCGR 7472. CLINICAL INSTR INTEGR PROC II. (3 Credits)
This continuation course is designed to accompany the field placement for students in the clinical pastoral counseling 60 Credit Program.
Prerequisite: REGR 6839.
Prerequisite: REGR 6839.

PCGR 8999. TUTORIAL. (6 Credits)

Pastoral Ministry (PMGR)

PMGR 6510. THEOLOGY OF MINISTRY. (3 Credits)

PMGR 6612. MINISTRY WITH LATIN@S. (3 Credits)
This course presents a comprehensive introduction to the principal issues related to U.S. Latin@ Christianities from an ecumenical perspective. The course is divided into three parts: The Landscape of Latin@s in the U.S., Latin@s and the Churches, and Hispanic Ministries. Among the topics covered are: the history of the principal Latino groups in the U.S. (Mexicans, Puerto Ricans, Cubans, Dominicans, and Central Americans), the churches’ responses to Latin@s, parish ministry, youth ministry, the sacraments, popular religiosity, and an introduction to U.S. Latin@/Hispanic theology.

PMGR 6613. U.S. LATIN@ THEOLOGY. (3 Credits)
This course presents an introduction to the theological output of US Latin@ theologians from an ecumenical perspective. We begin with an overview of US Latin@ Theology as a contextual theology and then proceed topically looking at US Latin@ Catholic theology, U.S. Latina Feminist theology, and US Latin@ Protestant theology.

PMGR 6616. LATIN@ PREACHING. (3 Credits)
A practicum in preaching to Latino congregations with review of the pertinent literature on different preaching styles and Latino audiences. Facility in Spanish required.

PMGR 6617. LATIN@ SPIRITUALITY. (3 Credits)
This course presents an introduction to the way Latinos and Latinas live-out their relationship or faith in God or spirituality. While the focus of the course will be on Latino Christian spirituality—both Catholic and Protestant—attention will also be paid to non-Christian Latino spiritualities, especially Santería. We begin with an overview of the variety of spiritualities practiced by Latinos and Latinas and then proceed topically looking at popular Catholicism, the Latino celebration of the sacraments, Marian devotion (especially to Our Lady of Guadalupe), New Ecclesial Movements (especially the Charismatic Renewal and the Neo-Catechumenal Way, Mainline Latino Protestant spirituality, and Latino Pentecostalism.

PMGR 6618. HISP FAMILY MINISTRY & CATECHE. (3 Credits)
Latinas/os are deeply religious, and their way of experiencing God and life is often different from that of the U.S. mainstream culture. This course will study the lived reality of U.S. Hispanic families. It will challenge participants to critically reflect, analyze and articulate in what ways family ministry and family catechesis is embodied in families and faith communities today; to explore what helps or hinders religious development within families, and the responsibility of church and society to foster growth in faith; to explore experientially based frameworks for ministering with Latino communities; and to nuance their role as religious educators. Our conversation partners will include the writings of U.S. Hispanic theologians and religious educators.

PMGR 6620. MODELS OF PASTORAL THEOLOGY. (3 Credits)

PMGR 6650. ETHICS IN PASTORAL MINISTRY. (3 Credits)
Ethics in Pastoral Ministry is an online course that addresses ethical conduct in ministry for professionals working in a supervisory or leadership capacity with emphasis on legal issues and moral decision-making. The course will focus on the formation of conscience as it relates to the self, ministry, and society. It includes case studies and the application of ethical principles to real-life situations as well as the study of theory. It is theoretical, establishing a theological basis for ethical conduct and moral decision-making, and practical, giving students skills and resources to deal with the various issues they may encounter in ministry.

PMGR 6780. ANALYSIS FOR MINISTRY. (3 Credits)
Analysis for Ministry is a graduate seminar that seeks to assist ministers of the Gospel to reflect on the context of their pastoral practice in light of Catholic social teaching and social science analysis. Readings will focus on social justice concerns at the global, national and local level.

PMGR 7510. THEOLOGY OF MINISTRY. (3 Credits)
DMIN Students Only.

PMGR 7616. LATIN@ PREACHING. (3 Credits)
A practicum in preaching to Latino congregations with review of the pertinent literature on different preaching styles and Latino audiences. Facility in Spanish required.

Updated: 10-11-2017
PMGR 7617. LATIN@ SPIRITUALITY. (3 Credits)
This course presents an introduction to the way Latinos and Latinas live-out their relationship or faith in God or spirituality. While the focus of the course will be on Latino Christian spirituality—both Catholic and Protestant—attention will also be paid to non-Christian Latino spiritualities, especially Santería. We begin with an overview of the variety of spiritualities practiced by Latinos and Latinas and then proceed topically looking at popular Catholicism, the Latino celebration of the sacraments, Marian devotion (especially to Our Lady of Guadalupe), New Ecclesial Movements (especially the Charismatic Renewal and the Neo-Catechumenal Way, Mainline Latino Protestant spirituality, and Latino Pentecostalism. This course is for Doctor of Ministry students only and will require doctoral level participation and additional research/writing elements.

PMGR 7628. PAST & PRACT THEOLOGY. (3 Credits)

PMGR 7650. ETHICS IN PASTORAL MINISTRY. (3 Credits)
Ethics in Pastoral Ministry addresses ethical conduct in ministry for professionals working in a supervisory or leadership capacity with emphasis on moral decision-making. The course will focus on the formation of conscience as it relates to the self, ministry, and society. It includes case studies and the application of ethical principles to real-life situations as well as the study of theory. It is theoretical, establishing a theological basis for ethical conduct and moral decision-making, and practical, giving students skills and resources to deal with the various issues they may encounter in ministry.

PMGR 7688. SPEC TOPICS: PASTORAL STUDIES. (3 Credits)
Reserved for special courses in Pastoral Studies.

PMGR 7713. U.S. LATIN@ THEOLOGY. (3 Credits)
This course presents an introduction to the theological output of US Latin@ theologians from an ecumenical perspective. We begin with an overview of US Latin@ Theology as a contextual theology and then proceed topically looking at US Latin@ Catholic theology, U.S. Latina Feminist theology, and US Latin@ Protestant theology. This course is for Doctor of Ministry students only and will require doctoral level participation and additional research/writing elements.

PMGR 8030. CAPSTONE: PASTORAL STUDIES (MA). (3 Credits)
The concluding capstone course for all students in the M.A. Pastoral Studies degree.

PMGR 8530. EVANGELIZATION: FAITH& CULTURE. (3 Credits)
This course will introduce students to the opportunity and challenge of the "New Evangelization" by studying the history, theology, and practice of evangelization. Students will learn fundamental principles of rhetoric and communications practice in order to consider or imagine what eloquentia perfecta would look like today.

PMGR 8628. PAST & PRACT THEOLOGY. (3 Credits)

PMGR 8632. RESEARCH SEMINAR: PASTORAL THEOL & PRACTICE. (3 Credits)
Study of particular problems and issues in pastoral theology and practice through probing pastoral experiences, theological reflection, and examination of methods and approaches. Students will prepare a ministry paper, demonstrating their theological knowledge and pastoral expertise with appropriate application to a selected pastoral problem or issue.

PMGR 9999. ST TUTORIAL-PASTORAL MINISTRY. (3 Credits)
This course is reserved for students pursuing a special research topic in Pastoral Ministry with the approval of the area faculty and Dean.

Peace and Justice Studies (PJST)

PJST 1800. INTERNSHIP. (1 Credit)

PJST 3110. INTRODUCTION TO PEACE AND JUSTICE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PJST 3210. REVELATION: NIGHTMARE OF GOD. (4 Credits)
The Book of Revelation is rich in imagery, symbolism, numerology, hidden codes, and apocalyptic overtones. Its storytelling devices, universal themes and subtext of remaining faithful to causes despite persecution, provide metaphors to interpret the biblical text in light of current world events. What insights can the book provide about historical and contemporary peace and justice struggles reported in the media? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PJST 3220. PEACE MAKING IN SCRIPTURE. (4 Credits)
In a time of war we will take a close look at scriptural alternatives. Both Hebrew and Christian bibles offer such alternatives through the Prophets and Jesus. We shall study key passages on the subject of peace and peacemaking from the major Prophets: Isaiah, Jeremiah, Ezekiel and Daniel. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PJST 3230. BIBLICAL WOMEN OF PEACE. (4 Credits)
The course will look at 15 women of the Bible: Eve, Tamar, Miriam, Deborah, Naomi, Ruth, The Queen of Sheba, Huldah, Hannah, Ester, Abigail, the Blessed Virgin Mary, Mary Magdolene, Lydia and Salome and their role in biblical peacemaking with an eye on current peace and justice issues. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PJST 3320. POEMS BY POETS IN TORMENT. (4 Credits)
An examination of poetry of religious or political (or simply prohuman) resistance, written by poets from a variety of cultures who have been surveilled, exiled, jailed, tortured, disappeared, sent to gulags or outright killed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PJST 3321. POETRY OF RESISTANCE. (4 Credits)
How does poetry help a world in crisis and social upheaval? What role does the poet play in historic social movements? We look at poetry from a variety of cultures and assess its contribution to the discourse of social justice. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
PJST 3322. PAN-AMERICAN POETIC REBELLION. (4 Credits)
This course focuses on the creation of a Pan-American poetic language of rebellion, against the constricting poetic forms of the past, and against political repressions. Iconoclastic poets such as Walt Whitman, Ruben Dario, Pablo Neruda, Allen Ginsburg, and others, form a line of influence, on each other, and every other poet who has come after them. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: LALS.

PJST 3323. BIBLICAL WOMEN OF PEACE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: LALS.

PJST 3324. GENDER, SPIRITUALITY, AND THE BIBLE. (4 Credits)
An exploration of the way in which gender plays a role in the Spiritual lines of Biblical personages, and how their spirit has been handed down through the storytelling of generations to the present biblical reality. An in depth study of the lines of David, Jonathan, Naomi, Ruth, Amar, Paul, John the Beloved disciple and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PJST 3325. THE NEWS IN POEMS. (4 Credits)
What's the good of poetry in a world of crisis? Why bother? Can poetry actually do anything? W.H. Auden said that "poetry makes nothing happen," and William Carlos Williams wrote that "it is difficult to give the news in poetry." He added, however, that "thousands die each day for lack of what is found there," and Auden, that poetry survives in place where the corporate mind never goes. This course will consider poetry of religious, political, or simply pro-human resistance, written by poets from a variety of cultures who have been marginalized, servilled, exiled, jailed, tortured, disappeared, sent to gulags or outright killed. No previous knowledge or extensive reading of poetry is presupposed, only a desire to read poetry relevant to our lives. We will begin with the three weeks of exercises in the reading of poetry, to develop a common vocabulary with which to discuss the poems and deepen our understanding of poetry's place in the world. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PJST 3999. TUTORIAL. (1-4 Credits)
Independent research and reading with supervision from a faculty member.

PJST 4970. COMMUNITY SERVICE/SOCIAL ACTION. (4 Credits)
This course will deepen students understanding of the meaning of community service and social action in America and challenge them to confront the moral issues and social commitments necessary to be members of a just democratic society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, EP4, LALS, SL, SOCI, URST, VAL.

PJST 4990. CONFLICT RESOLUTION AND JUSTICE CREATION. (4 Credits)
This course examines the psychological, social, and philosophical foundations of peacemaking and conflict resolution drawing on theories and experience from sociology and philosophy, and to some extent theology. The course will include experiential exposure to workshops on conflict resolution and non-violent social action techniques, drawn from social justice organizations. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ICC.

PJST 4999. TUTORIAL. (1-4 Credits)
Independent research and reading with supervision from a faculty member.

Philosophy (PHIL)

PHIL MTNC. MAINTENANCE-PHILOSOPHY. (0 Credits)

PHIL 0912. REQUIREMENT PREPARATION. (0 Credits)
For Ph.D. and Master's students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement, such as comprehensive exam, Master’s thesis, or dissertation submission.

Attribute: Z410.

PHIL 0914. REQUIREMENT PREPARATION IN SUMMER. (0 Credits)
For Ph.D. and Master's students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement during the summer. (e.g., to be used by Ph.D. students after the oral examination/defense and prior to receiving the degree).

PHIL 0925. PHD QUALIFY PAPERS-PHILOSOPHY. (0 Credits)

PHIL 0930. PHD COMPREHENSIVE EXAMINATION-PHILOSOPHY. (0 Credits)

PHIL 0932. MASTER'S SPECIAL PROJECT. (3 Credits)
Students in the M.A. program have the option of completing a three-credit special project. Faculty members will evaluate the special project on a Pass/Fail basis.

PHIL 0936. MASTER'S COMPREHENSIVE EXAMINATION-PHILOSOPHY. (0 Credits)

PHIL 0938. MASTERS THESIS. (6 Credits)
Students in the M.A. program have the option of completing a six-credit thesis. Faculty members will evaluate the thesis on a High Pass/Pass/Fail basis.

PHIL 0940. LOGIC EXAMINATION. (0 Credits)

PHIL 0950. PROPOSAL DEVELOPMENT. (1 Credit)

PHIL 0960. PROPOSAL ACCEPTANCE. (3 Credits)

PHIL 0970. DISSERTATION MENTORING- PHILOSOPHY. (0 Credits)
The Philosophy Ph.D. student is required to register for Dissertation Mentoring, which has a 3 credit fee, the semester after the student’s proposal is accepted.

Attribute: Z407.

Updated: 10-11-2017
PHIL 1000. PHILOSOPHY OF HUMAN NATURE. (3 Credits)
A philosophical reflection on the central metaphysical and epistemological questions surrounding human nature, which includes discussion of some or all of the following problems: the body/soul distinction and the mind/body problem; the problem of knowledge, (relativism, skepticism, the objectivity of knowledge, faith and reason); free will and determinism; and self and society (subjectivity, personhood, sociality, historicity and tradition). At least 60 percent of each section of the course is devoted to readings from Plato, Aristotle, Augustine or Aquinas, and Descartes. Each section includes some writings by at least one contemporary figure. Selected sections will be offered as Eloquencia Perfecta I seminars.

Attribute: FRPT.

PHIL 1003. LOST INTERLOCUTOR: PHILOSOPHY OF HUMAN NATURE. (3 Credits)
This course examines the philosophical views of pre-Socratic thinkers, Plato, Aristotle, Augustine, Aquinas, Descartes, and Ignatius of Loyola and their connections to contemporary science, religion, and Jesuit education. We analyze primary texts, critique theories, compose philosophical arguments, and critically challenge the thinking of multiple perspectives. These skills comprise the greater philosophical tradition that stems from the ancients to us today. Salient themes of our lives — knowledge, understanding, truth, falsity, doubt, goodness, mortality, reality, evidence, belief, love — stir fundamental questions that need systematic investigation in order to make sense of our human nature and give greater purpose to life. Since this Manresa course satisfies the FCRH Freshman Eloquencia Perfecta I requirement, it stresses critical spoken dialogue and writing-intensive assignments. It also consists of interactive (and fun) out-of-class learning experiences, and the professor even feeds you at most of these.

Attributes: ENST, ENVS, PJST, SRVL, URST.

PHIL 1010. INTRODUCTION TO CRITICAL THINKING. (3 Credits)
The course is intended to sharpen a student's ability to think clearly, consistently, critically, and creatively. The course objective considers principles of sound judgment and helps students learn how to recognize and analyze arguments present in ordinary spoken and written language, how to distinguish correct reasoning from incorrect reasoning, and how to construct valid, sound arguments.

PHIL 1999. SERVICE LEARNING-1000 LEVEL. (1 Credit)
In this student-initiated program, the student may earn one additional credit by connecting a service experience to a course with the approval of the professor and the service-learning director.

PHIL 2999. TUTORIAL. (2 Credits)
Independent research and reading with supervision from a faculty member.

PHIL 3000. PHILOSOPHICAL ETHICS. (3 Credits)
This course involves philosophical reflection on the major normative ethical theories underlying moral decision making in our everyday lives. The principal focus of the course is a systematic introduction to the main normative ethical theories, i.e., eudaimonism, natural law ethics, deontological ethics, utilitarianism, virtue ethics, and feminism. The differences among these approaches are illuminated by studying various moral issues. In each section of the course, at least half the readings will be selected from Aristotle and Kant. Each section will include writings by at least one contemporary figure.

Attribute: PETH.

Prerequisites: PHIL 1000 or PHIL 1001 or PHIL 1002 or PHIL 1003 or HPRH 1002.

PHIL 3109. ENVIRONMENTAL ETHICS. (4 Credits)
This senior values seminar surveys major theories in environmental ethics dealing with our moral duties regarding nature: for example, environmental stewardship, sustainable development, environmental justice, ecological virtue ethics, animal rights, biocentrism, Leopold's land ethic, and ecological feminism. It has not only philosophical but also scientific, economic, political, and design dimensions as it deals with such topics as global warming, alternative energy, pollution control, suburban sprawl, deforestation, biodiversity loss, and the prospect of a sixth mass species extinction event threatening the future of human and nonhuman life as we know it. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ENST, ENVS, PJST, SRVL, URST.

PHIL 3115. PARADOXES IN VALUE AND MORALITY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3130. PHILOSOPHY OF LAW. (4 Credits)
The nature and philosophical foundations of law. Relations of justice and morality, civil and moral law, and their respective rights and obligations. Types and conceptions of law; natural law, legal realism, legal positivism. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3131. PHILOSOPHY OF ECONOMICS. (4 Credits)
Economics grew out of philosophy, carrying forward key philosophical ideas that continue to operate as grounding assumptions, goals, and regulatory ideals in the discipline. Some of these philosophical ideas have been challenged on the grounds of realism, coherence, usefulness, consequences, and compatibility with important values like justice, fairness, human dignity, democracy, liberty, equality, and the general welfare. Philosophy of Economics analyzes, criticizes, and creatively rethinks both classical and contemporary texts that deploy and challenge the philosophical ideas that continue to guide economics as a discipline that has great influence in framing and rationalizing public policy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3195. POLITICAL LIBERTARIANS AND CRITICS. (4 Credits)
An exposition and critique of political libertarianism - a philosophical theory developed by Ayn Rand, Hayek, Friedman, Nozick, Navenos and others - that has come to dominate neoconservative political thought in the U.S. We will read major libertarian texts and criticisms by David Gauthier, Hazlett, Rawls, Singer, and other defenders of public goods. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: PJST.

PHIL 3200. INTRODUCTION TO LOGIC. (4 Credits)
A study of the methods and principles that distinguish correct argumentation. Attention is given both to the nature of argument and to its applications. Topics discussed include induction, deduction (including symbolic notation) and the common fallacies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Updated: 10-11-2017
PHIL 3204. SYMBOLIC LOGIC. (4 Credits)
Humans are capable of altering their behavior, verbal and otherwise, in light of deductive consequences and in conformity with standards of logical consistency. Although Aristotle, the Stoics, and others developed formal techniques for the evaluation of logical consequence and consistency, the early 20th Century witnessed an unprecedented expansion in the scope and power of those techniques through the construction of formal languages based on mathematical principles. Students consider the modern development of formal logical techniques including propositional logic, first-order logic, and if time permits, a system of intentional logic (e.g. modal logic), and then explore some of the philosophical issues surrounding them. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3235. THEORIES OF KNOWLEDGE. (4 Credits)
Analysis and study of the central issues in epistemology; illusion and reality, sense perception, and reason; extent, validity and limitations of human knowledge. Classical and contemporary texts. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3243. PHILOSOPHY OF COGNITIVE SCIENCE. (4 Credits)
Unlike inanimate objects such as rocks, we are aware of the world around us. Energy from the sun heats both the rock and you, but unlike the rock you also feel the heat, you know that it comes from the sun, you can understand what it is, and can think about it even when it is absent. How exactly are we able to do this? What makes us capable of thinking, feeling, and perceiving? Cognitive science is an interdisciplinary attempt to answer questions like these. This course explores some of the dominant research programs in cognitive science with an eye to understanding and critically evaluating the philosophical assumptions on which they depend. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3253. RELATIVISM AND PHILOSOPHY. (4 Credits)
This course analyzes and evaluates various forms of contemporary relativism: epistemological, ontological, and moral. It also investigates whether human rationality is so diverse as to be relativistic in nature. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3254. PHILOSOPHY OF PERCEPTION. (4 Credits)
This course examines a selection from the many contemporary philosophical debates about our perceptual awareness of the external world. The course involves issues in epistemology (e.g. what is perceptual information?), philosophy of mind (e.g. representationalism, perceptual content), neuroscience (e.g. how does the visual system work?), and metaphysics (e.g. color theory). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3257. SKEPTICISM. (4 Credits)
Skepticism about the possibility of knowledge, and in particular about our knowledge of the external world, has a long history, from Sextus Empiricus to Hume and Berkeley up to a wide array of present-day debates. As it is plausible that epistemological theory emerges from a dialectic with skepticism, analysis of skeptical arguments gives substance to our claims to have achieved knowledge. This course examines many of these arguments, historical and contemporary. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3266. PHILOSOPHY OF SCIENCE. (4 Credits)
Critical appreciation of the relation of the physical and social sciences to philosophy. The course takes a historical and systematic approach, dealing with the methods and theories of science from the 17th to the 20th century from a philosophical perspective. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3269. LAW AND RELIGION. (4 Credits)
Emphasis on contemporary authors. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Attribute: REST.

PHIL 3301. PROBLEM OF GOD. (4 Credits)
A systematic study of the existence of God, of His nature, of His relation to the world. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3306. FAITH AFTER THE DEATH OF GOD. (4 Credits)
Can belief in God be justified, or are there compelling reasons to suspend judgment or to believe that there is no God? This course will debate the rationality of faith after death of God and the rise of atheism in modernity. The course will investigate whether it is rational to believe in God and what would be the epistemological foundations necessary for beliefs about the existence of God or about the nature of God. Students will examine proofs for the existence of God from classic sources, e.g., Aristotle, Neo-Platonism, Augustine, Aquinas, and rationalism, as well as from defenders of skepticism and atheism. Students will read major authors on these questions, both classic and contemporary, such as Hume, Kant, Nietzsche, Aquinas, Plantinga, Feser, Eliade. Prerequisites: PHIL 1000 or HPLC 1001 or HPRH 1002.

PHIL 3307. FAITH AND RATIONALITY. (4 Credits)
The course will focus on the rationality of belief in God. What is required for belief in God to be rational? Are there any proofs that God exists? Does the fact of evil in the world prove that God does not exist? What role does religious experience play in the justification of religious belief? Emphasis on contemporary authors. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3310. ISSUES IN PHILOSOPHY OF LAW. (4 Credits)
This course will examine and critically evaluate different accounts of the nature of law; the relationship between law and morality; the rule of law and constitutional government; judicial review and interpretation; foundations of private law; the foundations of public law. These and related issues in the philosophy of law shall be discussed and illustrated by reference to specific legal cases and controversies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
PHIL 3300. PHILOSOPHY OF RELIGION. (4 Credits)
The course will focus on issues in the philosophy of religion from the view point of the divine attributes. Traditional proofs for God's existence, forms of evidentialism and anti-evidentialism, and dilemmas concerning divine simplicity, foreknowledge, as well as the problem of evil, will be treated. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: REST.

PHIL 3348. CONCEPTS AND REALITY. (4 Credits)
In the Critique of Pure Reason, Immanuel Kant raised the question of how concepts relate to reality. This course will examine 20th and 21st century attempts to answer Kant's question. Topics discussed may include (1) the nature of concepts, (2) varieties of conceptual schemes, (3) the distinction between descriptive and revisionary metaphysics, and (4) intentionality; authors discussed may include Robert Brandom, John McDowell, Peter Strawson, and Wilfrid Sellars. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3350. PROBLEMS IN METAPHYSICS. (4 Credits)
Nature and methods of metaphysics, our knowledge of being, self-identity and process, the unity and interrelationship of beings, action as unifying principle, causal explanation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: REST.

PHIL 3354. PROBLEM OF EVIL. (4 Credits)
"Do bad things that happen prove that there is no God? This course shall focus on this question and consider what has been said about it form ancient times right up to what people are saying about it today. We shall pay attention to what has been argued for and against the existence of God given that there is much that is bad in our world. We shall try also to evaluate what a number of philosophers have said about this fact." Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AMCS.

PHIL 3355. METAPHYSICS. (4 Credits)
This course introduces students to major metaphysical questions and problems, such as free will and determinism, persistence through time, necessity and identity, possible worlds, universals and particulars, change, substance, causation, realism vs. anti-realism, and the prospects of immortality. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3360. CONTEMPORARY METAPHYSICS. (4 Credits)
An examination of some issues in metaphysics, with an emphasis on 20th and 21st century texts and figures. Topics may include universals and particulars, space and time, constitution, identity and persistence, free will, necessity and possibility, the mind-body problem and causation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3412. PHILOSOPHY OF EMOTIONS. (4 Credits)
Through class discussions, lectures and readings, this course aims, in phenomenological fashion, to analyze human emotions as lived conscious experiences. Stress is placed on the central importance of emotions in human life. The realm of feeling is related to physical and mental health; to knowing and willing; to art, morality and religion. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3422. HARRY POTTER AND PHILOSOPHY. (4 Credits)
This course will use the Harry Potter novels to explore several central themes in philosophy, and will use philosophical analysis to interpret the books and their cultural impact. Some central topics of the course will include: the nature and relationships of minds, souls, and bodies; the conflict of good and evil and some related issues in moral psychology and the ethics of 'love'; metaphysical implications of the magical world of HP and its enchantment of muggles. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AMST.

PHIL 3501. ANCIENT PHILOSOPHY. (4 Credits)
This course aims to acquaint the student with the basic problems and directions of Western philosophy as developed in its early and decisive phase by the principal thinkers of ancient Greece, Pre-Socratics, Plato, Aristotle and Plotinus are among the figures that can be treated, as well as Stoic, Epicurean and Neoplatonic. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: CLAS, OCST, REST.

PHIL 3502. PRE-SOCRATIC PHILOSOPHY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: CLAS.

PHIL 3504. STOICS AND SKEPTICS. (4 Credits)
This course is an examination of philosophy during the extraordinarily dynamic era that began after Alexander the Great had spread Hellenistic ideals throughout the ancient world. The course will enter into the debates among the five major schools of Hellenistic philosophy - Stoicism, Skepticism, Cynicism, Epicureanism and Neo-Platonism. Students will read representative authors from each school, but since philosophy was regarded as a way of life during this period, students will read authors from many walks of life, such as the Roman emperor, Marcus Aurelius, the statesman, Cicero and the Poet, Virgil. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: CLAS.
PHIL 3520. PHILOSOPHY OF ARISTOTLE. (4 Credits)
Perhaps no philosopher in the history of the world has been as influential in as many ways as Aristotle. A paragon of insight, systematicity, and rigor, he has inspired philosophers for over two thousand years. He remains an icon of Western intellectual culture, and his influence can be discerned even now in fields as diverse as history, theology, rhetoric, theatre, psychology, metaphysics, biology, law, political theory, ethics, and logic. This course introduces students to key features of his philosophical framework. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: CLAS.

PHIL 3525. PHILOSOPHY OF PLATO. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: CLAS.

PHIL 3526. PLATO: THE UNREAD DIALOGUES. (4 Credits)
Although Plato wrote at least 28 dialogues, his philosophy is usually taught from only a few, such as the Apology, Meno, Phaedo, and Republic. This course examines his philosophy as expounded in the many dialogues seldom read in undergraduate courses. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: CLAS.

PHIL 3530. PHILOSOPHY AFTER CONSTANTINE. (4 Credits)
This course will discuss some of the various ways in which the Christian East was influenced by and employed ancient philosophy in order to grapple with central philosophical questions such as the nature of the soul, its relation to the body, human freedom and choice, fate and providence, the pursuit of virtues and vices, the role of reason and of beauty, and the divine energies. Thinkers discussed may include Gregory of Nyssa, Nemesius of Eulses, Maximus the Confessor, and John of Damascus. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3552. MEDIEVAL PHILOSOPHY. (4 Credits)
The origins of medieval philosophy. The Carolingian renaissance. Anselm. Abelard and 12th-century humanism. Philosophical currents of the 13th century; introduction of Aristotle into the University of Paris; the reaction of the Augustinian philosophers to Aristotle; Bonaventure, Aquinas and Siger of Brabant. Duns Scotus. William of Ockham and the rise of nominalism. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: MVST, OCST.

PHIL 3557. CONFESSIONS OF AUGUSTINE. (4 Credits)
A study of St. Augustine's most popular philosophical work, The Confessions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: CLAS, MVST, OCST, REST.

PHIL 3559. DANTE AND PHILOSOPHY. (4 Credits)
By examination of the Divine Comedy and other works by Dante, this course will consider such important philosophical themes and divine providence, free choice of the will, the sources of ethics, and the nature of happiness. The course will involve study of various ancient and medieval thinkers whom Dante used to explore the perennial questions of human existence. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: PHIL 1000 or HPRH 1002 or HPRH 1051.

PHIL 3560. PHILOSOPHY OF AQUINAS. (4 Credits)
Historical setting, doctrinal influences, themes of knowledge and the meaning of person; metaphysics and God; freedom and ethics; and reason and revelation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3565. FOUR MEDIEVAL THINKERS. (4 Credits)
This course introduces the thought of Augustine, Anselm, Aquinas and Buridan, and its influence on the development of medieval philosophy, especially in the philosophy of mind and natural theology. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: REST.

PHIL 3591. MEDIEVAL POLITICAL PHILOSOPHY. (4 Credits)
An investigation of the major political theories of the Middle Ages from the collapse of the Roman Empire in the West until the eve of the Protestant Reformation. Students will read the classic texts of this era from Augustine's "City of God" to Masilius of Padua's "The Defender of Peace." Special attention will be given to different theories of kingship and of the basis of political authority and the relationship between papacy and empire. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: MVST, OCST, PJST.

PHIL 3600. DESCARTES AND THE RATIONALISTS. (4 Credits)
The course considers the great rationalist systems of philosophy on the continent in the pre-Kantian period. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3601. MODERN PHILOSOPHY. (4 Credits)
A history of philosophy from Descartes to contemporary times, including Spinoza, Leibniz, Locke, Berkeley, Hume, Kant, Hegel and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3604. RATIONALISTS AND EMPIRICISTS EPISTEMOLOGIES. (4 Credits)
This course will address the epistemological problems stemming from Descartes’ “methodological skepticism” and their proposed solutions in early modern philosophy ranging from Descartes through British Empiricism to the rationalism of Kant. The course will also trace the conceptual roots of the problems of modern epistemologies in late-medieval philosophy, and seek their resolutions for contemporary philosophy through this historical analysis. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
PHIL 3609. MODERNITY AND ITS CRITICS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3620. IMMANUEL KANT. (4 Credits)
A study of Kant's philosophy concentrating on the Critique of Pure Reason. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3623. MARX AS A PHILOSOPHER. (4 Credits)
Karl Marx is more commonly approached as an economist, sociologist, or political theorist than as a philosopher. But this class will explore the original philosophical positions offered by Marx as well as the philosophical basis and results of his often polemical exchanges with others. Topics include Marx’s philosophy of history, philosophical anthropology, materialist critique of idealism, as well as his normative social and political philosophy. We will also discuss Marx’s theory of revolution and his stance on the limits of philosophy itself. The goal is to develop the possible internal consistency, social applicability, and limits of Marx’s philosophy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3643. HEIDEGGER: BEING AND TIME. (4 Credits)
A course on Martin Heidegger's Being and Time, one of the most important philosophical works of the twentieth century. Readings in addition to noteworthy commentary will include some of the political controversies associated with Heidegger's thought. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3652. CONTEMPORARY FRENCH PHILOSOPHY. (4 Credits)
This course introduces the work of French thinkers from the 20th and 21st centuries. Themes under consideration might be subjectivity, violence, justice, embodiment, and epistemology. Figures covered may include Badiou, Deleuze, Derrida, Foucault, Irigaray, Kofman, Le Doeuff, Lyotard, Merleau-Ponty, and Ranciere. Reference may also be made to recent developments of French theory in the Anglo-American context, including in feminist theory and social and political philosophy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3653. LATIN AMERICAN PHILOSOPHY. (4 Credits)
This course will introduce students to select texts in Latin American and Caribbean Philosophy. Central themes will include the (persistent) effects of the colonial period, the inheritance of various European philosophies, and the possibility of a distinctive Latin American Philosophy. Currents and thinkers may include Sor Juana Ines de la Cruz, Simon Bolivar’s influence, Leopoldo Zea and Positivism, the Negritude Movement in Martinique, Liberation theology and philosophy, and Latina/o Thought in North. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: COLI, LALS, PJST.

PHIL 3655. PHILOSOPHY AND LANGUAGE. (4 Credits)
Early in the 20th Century, philosophy took what has been called “the linguistic turn.” While continental structuralists and post-structuralists developed theories according to which all concepts are interpretative, in analytic philosophy, positivists tried to reduce many key questions of metaphysics and epistemology to issues of usage. This course will survey major contemporary theories of sense, reference, and meaning that have developed since the mid-20th century, explaining their methodological implications for the analysis of other philosophical topics. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3656. IMMANUEL KANT. (4 Credits)
A survey of themes central to the development of phenomenology and existentialism. Themes to be studied might include methodology, intentionality and consciousness, subjectivity, anxiety or dread, embodiment, emotions, the Other, authenticity, freedom, agency and action, history and historicity, the individual versus community, social and political responsibility. Readings will be drawn from Edmund Husserl, Martin Heidegger, Jean-Paul Sartre, Maurice Merleau-Ponty, Soren Kierkegaard, and Friedrich Nietzsche. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: COLI.

PHIL 3657. PHENOMENOLOGY AND EXISTENTIALISM. (4 Credits)
An investigation of themes central to the development of phenomenology and existentialism. Themes to be studied might include methodology, intentionality and consciousness, subjectivity, anxiety or dread, embodiment, emotions, the Other, authenticity, freedom, agency and action, history and historicity, the individual versus community, social and political responsibility. Readings will be drawn from Edmund Husserl, Martin Heidegger, Jean-Paul Sartre, Maurice Merleau-Ponty, Soren Kierkegaard, and Friedrich Nietzsche. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: COLI.

PHIL 3661. HUSSELR AND HEIDEGGER. (4 Credits)
This course investigates the nature, methods, and development of phenomenology through a study of its two major, German thinkers. The course will compare and contrast the views of Husserl and Heidegger on (1) the concept and method of Phenomenology, (2) intentional; and (3) subjectivity. It will also illustrate the differences between the two by examining their failed collaboration on the Encyclopedia Britannica entry for phenomenology. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3666. PHILOSOPHY OF SPACE AND TIME. (4 Credits)
Space and time are fundamental features of the physical universe in which we live, and are essential to our consciousness of the world. Philosophers from Augustine to Leibniz and Kant have asked what time is, whether it is a real feature of the causal order of nature or rather imposed by our conscious experience. Developments in 20th century physics and philosophy have forced us to rethink the relation of space and time, reconsider whether the future might be as real as the past, and whether time really “moves” forward. The course will explore the leading contemporary theories and draw connections with developments in science. No advanced background in physics is required. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3670. EXISTENTIALISM. (4 Credits)
A survey of themes in the main 19th and 20th century existentialist writers, such as Jean-Paul Sartre, Martin Heidegger, Soren Kierkegaard and Friedrich Nietzsche. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: COLI.

PHIL 3671. PHENOMENOLOGY AND EXISTENTIALISM. (4 Credits)
An investigation of themes central to the development of phenomenology and existentialism. Themes to be studied might include methodology, intentionality and consciousness, subjectivity, anxiety or dread, embodiment, emotions, the Other, authenticity, freedom, agency and action, history and historicity, the individual versus community, social and political responsibility. Readings will be drawn from Edmund Husserl, Martin Heidegger, Jean-Paul Sartre, Maurice Merleau-Ponty, Soren Kierkegaard, and Friedrich Nietzsche. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: COLI.

PHIL 3672. CONTEMPORARY FRENCH PHILOSOPHY. (4 Credits)
This course introduces the work of French thinkers from the 20th and 21st centuries. Themes under consideration might be subjectivity, violence, justice, embodiment, and epistemology. Figures covered may include Badiou, Deleuze, Derrida, Foucault, Irigaray, Kofman, Le Doeuff, Lyotard, Merleau-Ponty, and Ranciere. Reference may also be made to recent developments of French theory in the Anglo-American context, including in feminist theory and social and political philosophy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: COLI.

PHIL 3673. MODERNITY AND ITS CRITICS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
PHIL 3672. CONTINENTAL PHILOSOPHY OF RELIGION. (4 Credits)
An introduction to contemporary philosophy of religion from a Continental perspective, considering issues of religious experience, the manifestation (or "truth") of faith, and/or a philosophical analysis of religious practices. The course may include texts from thinkers such as Paul Ricoeur, Jean-Luc Marion, Michel Henry, Jean-Louis Chrétien, Jean-Yves Lacoste or John D. Caputo. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3673. EXISTENTIALISM AND LITERATURE. (4 Credits)
Existentialism and Literature seeks to examine how the ideas of existentialist philosophy—in such thinkers as Kierkegaard, Nietzsche, Heidegger, Marcel, Sartre, Camus, Blanchot and Merleau-Ponty—are expressed in and through literature. Alongside philosophical writings, we will read literary works by such writers as Dostoevsky, Rilke, Kafka, Sartre, de Beauvoir, and Camus. Themes include the nature and structure of the self; authenticity and inauthenticity; alienation and the fear of death; meaning and meaninglessness, and the existence or absence of God.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3674. HUMANITARIANISM AND PHILOSOPHY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: INST, PJST.

PHIL 3712. GLOBAL ENVIRONMENT AND JUSTICE. (4 Credits)
Ethical principles of sustainability and an "endowment model" of intergenerational justice applied to the world's largest-scale environmental problems, such as usable land and food yields, fresh water supplies, loss of rainforests and biodiversity, clean air and global warming, fossil fuels and alternative energies, and population growth and poverty.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ENST, GLBL, INST.

PHIL 3713. HUMAN RIGHTS AND GLOBAL JUSTICE. (4 Credits)
This interdisciplinary class will focus on the development of the human rights paradigm in international law and philosophical questions about how we can justify universal basic rights. For example, are universal rights consistent with a wide array of varying cultures and ways of life? Are concepts of rights somehow inherently "western" or "individualist", and can relativist doubts about human rights be answered? We will also look at some debates about the content of such rights, e.g. rights to educational opportunity, to welfare or subsistence, to basic health care, to membership in a culture, to immigration, to a sustained environment and other controversial cases. We will also consider humanitarian intervention in the name of rights, problems with the UN system, and ways that the international order could be restructured if we take seriously the idea that there are universal basic rights to freedom from tyranny and to development out of poverty.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: BIOE.

PHIL 3714. KANT AND HEGEL. (4 Credits)
This course will examine the relationship between the philosophical writings of Immanuel Kant and G.W.F Hegel. Kant's philosophy was understood by many of his contemporaries primarily as a philosophy of freedom, and in the first part of this course, we will attempt to understand the pivotal role that the relationship between nature and freedom plays in both Kant's theoretical and moral writings. During the second part of the course, we will examine both Hegel's criticisms of Kant's philosophy and the ways in which Hegel's philosophy, nevertheless, attempts to develop particular Kantian insights.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: (PHIL 1000 or PHEF 1000 or PHEU 1000 or PHIL 1000 or PHLU 1000 or PHRF 1000 or PHRU 1000) and PHIL 3000.

PHIL 3715. KANT ON MORALITY AND RELIGION. (4 Credits)
In the 18th century, Immanuel Kant developed a theory of autonomy that revolutionized moral and religious thought. This course will examine Kant's moral philosophy and philosophy of religion in writings like the Critique of Practical Reason, Critique of Pure Reason, Groundwork for the Metaphysics of Morals, Metaphysics of Morals, and Religion within the Boundaries of mere Reason. Topics discussed may include (1) Kant's categorical imperative, (2) Kant's theory of human autonomy, (3) Kant's concept of God, (4) Kant's theory of moral belief in God and immorality, (5) Kant's treatment of the problem of evil, and (6) Kant's view of the relationship between morality and revealed religion.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: BIOE.

PHIL 3720. AFRICAN AMERICAN PHILOSOPHY. (4 Credits)
Using texts by Frederick Douglass, Sojourner Truth, W.E.B. DuBois, Alain Locke, Martin Luther King, Jr., Malcolm X, James H. Cone, Angela Davis, Cornel West, Patricia Hill Collins, Howard McGary, William E. Lawson, Leonard Harris, Lucius Outlaw and others, this course will focus on pillars, prophets and prospects for African American philosophy, a 'philosophy born of struggle' created by profound critical and transformative voices from times of chattel slavery to the present that plays an influential role in American philosophy and American society today.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, COLI, PJST, PLUR, WGSS.

PHIL 3722. NATIVE AMERICAN PHILOSOPHY. (4 Credits)
This seminar-style course will explore the philosophical contributions of Native Americans (also known as American Indians, and best known by the names these diverse people have given themselves), including insights about how to preserve our biotic community and to live with one another amidst our American pluralism in ways that are spiritually satisfying.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, COLI, ENST, PJST, PLUR.
PHIL 3756. CHINESE PHILOSOPHY. (4 Credits)
A study of the philosophical traditions of Confucianism, Taoism, and Buddhism (including Ch'an, which spread to Japan as Zen) with special attention to the tension between ethico-political and mystical-religious dimensions of these traditions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: GLBL.

PHIL 3759. BUDDHIST PHILOSOPHY. (4 Credits)
The course is a historically-based introduction to Buddhist philosophy that gives students a basic understanding of the central ideas, issues and approaches in the various Buddhist traditions. Students will be encouraged to bring Buddhist philosophy into dialogue with some Western philosophical perspectives. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: GLBL, INST, REST.

PHIL 3800. INTERNSHIP. (3 Credits)

PHIL 3810. DEMOCRATIC THEORY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3815. POLITICAL PHILOSOPHY. (4 Credits)
This course explores various conceptions of justice on both national and international levels, from the perspective of contemporary political philosophy. Topics include distributive justice, the politics of recognition, reparations for past injustices, the process of transition from unjust to just regime, global justice, and environmental justice. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3850. HERMENEUTICS. (4 Credits)
Hermeneutics is the philosophical theory and practice of interpretation. The course will focus especially on Hans-Georg Gadamer's and Paul Ricoeur's philosophical approaches to understand and interpreting texts and experiences in the realms of art, history, religion, literature (especially narrative), formation of the self, politics and justice. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: COLI.
Prerequisite: PHIL 1000.

PHIL 3865. CRITICAL THEORY FRANKFURT SCHOOL. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3901. PHILOSOPHICAL ISSUES OF FEMINISM. (4 Credits)
Philosophical exploration of issues raised by historical and contemporary reflection on the relationship between the sexes. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: PJST.

PHIL 3903. PHILOSOPHY AND FEMINIST THEORY. (4 Credits)
A philosophical exploration of issues raised by historical and contemporary reflection on the relationship between the sexes. In this course, we will explore how the tradition of philosophy has responded to gender and account for the struggles to bring feminist discourse to philosophical theory. We will examine the connections between Marxist, post-modern, existentialist and phenomenological theories to the issues of women and gender-identity politics. Counts for Women's Studies.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3907. EXISTENTIALIST FEMINISM. (4 Credits)
Existential Feminism includes the classical existentialism of Jean-Paul Sartre in dialogical exchange with the feminist thinking of Simone de Beauvoir. Philosophies like Nietzsche, Heidegger, Bataille, Merleau-Ponty, Marcuse, Foucault, and Bourdieu (via the sociology of Michel de Certeau), in addition to Lacanian psychoanalytic theory can illuminate thinkers like Luce Irigaray but also, and in another context, the writings of authors like Elfriede Jelinek and the political thinker, Hannah Arendt.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
PHIL 3908. PHILOSOPHY OF HAPPINESS. (4 Credits)
The class examines the major theories of happiness in the Western philosophical tradition. Attention will also be given to some religious traditions, Asian philosophies, and contemporary discussions of happiness in philosophy and psychology. Throughout there will be consideration of the relationship between happiness and morality. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3910. SHAKESPEARE AND AQUINAS. (4 Credits)
A philosophical study of human emotions by reading “in tandem” certain plays of Shakespeare and the treatises by Thomas Aquinas on the passions and on human nature in general. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: MVST.

PHIL 3920. EVIL CHOICES. (4 Credits)
What makes a bad choice evil? And what motivates somebody to do evil? Are only morally depraved persons capable of making evil choices? Or can an evil choice be made by someone who might be considered good or even admirable under other circumstances? Is it possible to choose evil for evil’s sake? Or is every evil choice motivated by a desire to obtain some good, for oneself or for others? This course explores these questions with the help of great philosophers throughout history. We consider ancient accounts of evildoing (Plato and Aristotle), medieval views on Lucifer (Augustine, Anselm, and Aquinas), modern approaches to radical evil (Kant), and contemporary reflections on the Holocaust. We will also read some contemporary psychological research. Our goal is not only to better understand evil, but also to shed some light on human nature and our capacity to choose good in the face of evil. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: PHIL 3000.

PHIL 3930. PHILOSOPHY AND LITERATURE. (4 Credits)
Philosophy and Literature is devoted to the study of philosophical theories of literature, including studies of literary and poetic language, of the relationship between literary and other kinds of knowledge, of the philosophical meaning of literary works, and of questions regarding the status of the author and reader in the work of literature. The course covers readings from the history of philosophy and from recent philosophical and literary sources. Philosophers and authors studied include Plato, Aristotle, Nietzsche, Heidegger, Iser, Blanchot, Bachelard, Sartre, Nehamas, and de Bolla, as well as literary works by Rilke, Proust, Moravia, and writers of Holocaust literature. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COLI, OCST.

PHIL 3945. PHILOSOPHY AND ART. (4 Credits)
Philosophy and Art is a course in philosophical aesthetics for upper-level students with interests both in philosophy and in the various artistic and literary disciplines. Starting from a historical survey of discussions of art, we consider issues such as mimesis and representation, the ontological and epistemological value of art, the structure of artistic experience, and the status of the artist as the origin of the work of art. Readings include selections from Plato, Aristotle, Hume, Kant, Hegel, Nietzsche, Freud, Dewey, Merleau-Ponty, Heidegger, Danto, Foucault and de Bolla, and are presented in conjunction with studied attention to works of visual art as well as works in other media. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: COLI.

PHIL 3970. HUMANITY’S VALUE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: BIOE.
Prerequisite: PHIL 3000.

PHIL 3975. PHILOSOPHY AS A WAY OF LIFE. (4 Credits)
This course considers the role of philosophy in a happy life. Is a philosophical reflection necessary for a life worth living? Special attention will be given to the ancient Greek conception of philosophy as a way of life, especially in the writings of Plato and the Stoics, but modern understandings of philosophy will be considered as well. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 3978. PHILOSOPHY AND DIGITAL MEDIA. (4 Credits)
Participants in this course will examine the classic distinction, beginning with Plato, between orality and literacy, with an overview of the signal changes in mass reproduction from books to lithographs, photographs, film, and audio recording to today’s digital, online and cell-phone mediated culture, including texting and the Twitter and Instagram suffusion of everyday life, old new media like faxes and email, not to mention the ever changing varieties of social media, blogs, feeds, etc. To explore the changes wrought by the various technological means of ‘reproduction,’ ‘communication,’ and ‘representation,’ on human life and expression, authors to read include Walter Benjamin and Martin Heidegger as well as Theodor Adorno, in addition to McLuhan, Anders, Kittler, Baudrillard, and a bunch of ever changing new names. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: PHIL 1000.

PHIL 3979. PHILOSOPHY AND MEDIA. (4 Credits)
Philosophy has been concerned with media since Plato’s Phaedo. Beginning with a discussion of orality and literacy and moving to explore so-called “new media,” including cell phone accessibility and its texting culture to the Twitter and Instagram suffusion of everyday life, faxes/email, Facebook, YouTube, etc. Participants will also review the signal change in the 19th C. from traditional print forms to photography, films, and recording. Examining the change wrought by technological means of reproduction on human life and expression. Possible authors include Benjamin, Adorno, Illich, de Certeau, Anders, Kittler, Attali, Baudrillard, Virilio, and Laruelle. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Updated: 10-11-2017
PHIL 3980. CONTEMPORARY ISSUES IN METAETHICS. (4 Credits)
Metaethics steps back from moral debates to ask metaphysical, epistemological, and semantic questions. The epistemological questions seek to understand how we can know of or be justified in believing moral claims. The semantic questions seek to understand what we mean when we use moral terms: are we making truth claims or are we just expressing our feelings? In this course, we will explore contemporary answers to these kinds of questions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: BIOE.

PHIL 3990. ENVIRONMENTAL WORLDVIEWS AND ETHICS. (4 Credits)
Survey of environmental philosophy worldviews and ethics such as the universe story, deep ecology, the land ethic, zoocentrism, biocentrism, ecofeminism, ecotheology, utilitarian economics, environmental pragmatism, ecological virtue ethics, and environmental justice. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, ENST, ENVS, PJST.

PHIL 3999. TUTORIAL. (3 Credits)
Independent research and reading with supervision from a faculty member.

PHIL 4001. POLITICS AND BIOPower. (4 Credits)
This course will examine the recent trend in Continental Philosophy that makes central the concept of life in understanding contemporary politics. The primary focus will be on the work of Michel Foucault and Giorgio Agamben, with readings also by Carl Schmitt, Hannah Arendt, Judith Butler, and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: BIOE.

PHIL 4044. MODERN ETHICAL THEORIES. (4 Credits)
This course is an introductory survey of major theories and themes in twentieth-century moral philosophy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: BIOE.

PHIL 4205. SEMINAR: JUSTICE AND SOCIAL IDENTITY. (4 Credits)
This seminar examines the multicultural environment of today's Western democracies which demand group recognition that challenges prevailing conceptions of justice and selfhood, and forces philosophers to rethink how our personal identity is formed and interpreted in relation to society. Ethnic and cultural aspects of personal identity and their implications for pressing issue in democratic justice will be studied. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: SRVL.

PHIL 4301. HAPPINESS AND WELL-BEING. (4 Credits)
An investigation into the nature and value of happiness and well-being (understood as connected concepts) from the perspective of both psychology and philosophy. Emphasis will be placed on research about the topic in each discipline, but efforts will also be made to explore fruitful interactions between the two disciplines in understanding the topic. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ICC.

PHIL 4302. ENVIRONMENTAL POLICY & ETHICS. (4 Credits)
This seminar is designed primarily for philosophy, environmental studies and natural science majors and presupposes substantial previous course work in one or more of these disciplines. Using these disciplines, the ethical dimensions of environmental problems will be explored from an interdisciplinary perspective. Requirements include a 40-page essay, three class presentations, and a hands-on learning practicum outside of class (minimum 1 hr per week). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, ENST, EP3, ICC.

PHIL 4303. HUMAN ERROR: PHILOSOPHICAL AND PSYCHOLOGICAL PERSPECTIVES. (4 Credits)
This course takes error in human judgment and reasoning as its central topic. Human error is something we know about firsthand: we all make mistakes. That's a platitude, but in this course we will try to say more. Through reading and discussion of classic and recent work by philosophers and psychologists, we'll think carefully about error and the significance of error for our intellectual lives. What factors lead us to err? What kinds of mistakes are there to make? What's the reasonable response to learning that we may have make an error? What can be done to get things right more often? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ICC.

PHIL 4304. THE PHILOSOPHY AND ECONOMICS OF LAW (Interdisciplinary Capstone Core). (4 Credits)
This course examines the different ways in which philosophers and economists think about the law, with a focus on property, tort, contract, and criminal law. Readings are both historical and contemporary. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ICC.
PHIL 4305. THE CITY AS TEXT: MODERNITY AND MODERISM IN LONDON. (4 Credits)
This course examines the relationship between theoretical ideas of modernity and the literature and art criticism of modernism, with London as its cultural geography. Philosophical descriptions of modernity and theories of Marx, Darwin and Freud serve as a basis for understanding transformations in human self-understanding that characterize the mid 19th to early 20th centuries. We examine modern literary works influenced by these transformations, all written and set in London, by Dickens, Kipling, Ryhs, Woolf, Eliot, Yeats, and the modernist art critics Fry and Hulme. Interconnections between theory, literature, and art are emphasized through readings and excursions in the city. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 4310. HUMAN RIGHTS IN CONTEXT. (4 Credits)
Human rights have become a universal language of protest. When and how did this happen? What are human rights and how are they justified? Do they mean the same thing in all the contexts in which they are invoked around the world? To address such questions we focus on how different methodologies – mainly historical, philosophical, and ethnographic – produce knowledge about human rights. For instance, what can we learn by identifying historical continuities and discontinuities between different conceptions of rights? What can we learn about human rights from the kind of conceptual analysis that many philosophers do? How can the “thick description” of ethnography help us understand the meaning and effects of human rights discourse in various settings? Finally, can historical, philosophical, and ethnographic approaches to human rights be fruitfully combined? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ICC.
Prerequisite: PHIL 3000.

PHIL 4407. GENDER, POWER, AND JUSTICE. (4 Credits)
The seminar examines the impact of gender norms, roles and assumptions on the moral structure of social life. The seminar will draw on the extensive materials available from feminist theory of ethics, law, and society; the developing body of work on the cultural construction of masculinity, and its moral and social impacts; and new interest in gender differences and women’s welfare in global context. The subject cannot fail to be fundamental to student’s personal experiences of social and political life. especially as they make the transition from college years to the workplace or to professional training. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, EP4, VAL, WGSS.

PHIL 4408. HOSPITALITY AND COSMOPOlITANISM. (4 Credits)
This course examines contemporary approaches to hospitality as it relates to “otherness” and cosmopolitanism. Issues addressed include personal and political forgiveness, representations of cultural and racial “others” in media and literature, and the relation between the search for identity and openness to foreigners. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: EP4, OCST, VAL.

PHIL 4409. ENVIRONMENTAL ETHICS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ENST, EP4, VAL.

PHIL 4410. LOVE AND EMPIRE. (4 Credits)
Previously PHIL 3510. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: CLAS, EP4, SRVL, VAL.

PHIL 4412. CLASSICAL VALUES: ART OF LIVING. (4 Credits)
This course considers the art of living a human life, focusing on classical values including poetry and philosophy, with special attention to the Stoic conception of the cultivation or care of the self. Readings include Homer and Pindar as well as Epictetus and Marcus Aurelius and commentaries ranging from Nietzsche and Foucault to Pierre Hadot, Alasdair Maclntyre, and Alexander Nehamas. Previously PHIL 3512. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: CLAS, EP4, SRVL, VAL.

PHIL 4413. RELIGION AND MORALITY. (4 Credits)
An exploration of the religious life in terms of the question, What does it mean to be religious? The seminar will then study differing views of the relation of the religious to the moral life, personal and social, including the formation of conscience and moral judgment, from writers such as Augustine, Kierkegaard, Kant, Levinas and Marx. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: SRVL.

PHIL 4416. ART, MORALITY, AND POLITICS. (4 Credits)
The seminar explores the inter-relationship among artistic, moral and political values. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, COLI, EP4, SRVL, VAL.

PHIL 4418. ISSUES OF LIFE AND DEATH. (4 Credits)
The objective of this course is to make students aware of several issues in biology and medicine that require moral reflection, judgment, or decision, while also indicating how justified moral conclusions are reached. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMCS, AMST, BIOE, EP4, REST, SRVL, VAL.

PHIL 4422. HARRY POTTER AND PHILOSOPHY (ICC). (4 Credits)
This course will use the Harry Potter novels to explore several central themes in philosophy, and will use philosophical analysis to interpret the books and their cultural impact. Some central topics of the course will include: the nature and relationships of minds, souls, and bodies; the conflict of good and evil and some related issues in moral psychology and the ethics of ‘love’; metaphysical implications of the magical world of HP and its enchantment of muggles. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ICC.
PHIL 4423. BUSINESS ETHICS. (4 Credits)
Business ethics is the study of moral values and conduct in business institutional contexts. The seminar will combine study of ethical theories with analysis of case studies involving real-world ethical issues that managers, employees, firms and other business stakeholders are dealing with today and that members of the class may face in the future. Previously PHIL 3123. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, PJST, SRVL, VAL.

PHIL 4425. BUDDHIST MORAL THOUGHT. (4 Credits)
This course focuses on Buddhist ethical thought and practice, as well as interpretations and developments of this from Western perspectives. We will discuss topics such as karma, happiness, enlightenment (nirvana), meditation and moral development, emotions such as compassion and anger, as well as free will, responsibility, and determinism. We will also examine practical issues such as human rights, environmental ethics, and war and violence. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, INST, VAL.

PHIL 4430. EDUCATION AND DEMOCRACY. (4 Credits)
In this seminar we will investigate the relationship between education and democracy. In what ways does democracy depend on education? Do some educational practices promote democratic values better than others? Should education be in the service of politics at all? We will examine answers to these questions and others found in a number of different philosophical traditions, reading the work of authors such as John Dewey, Paolo Friere, bell hooks, Martha Nussbaum, and Jacques Ranciere. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, IN4, VAL.

PHIL 4442. FANTASY AND PHILOSOPHY. (4 Credits)
An interdisciplinary study of moral themes in J.R.R. Tolkien’s “Lord of the Rings.” The course focuses on Tolkien’s artistic treatment of such philosophical questions as the lure of power, good and evil, freedom and fate, the nature of the divine, the natural environment and the function of literature in human life. We may consider similar themes in the works of other prominent fantasy authors. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, SRVL, VAL.

PHIL 4444. AI, SCI FI, AND HUMAN VALUE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMC, COMM, EP4, VAL.
Prerequisite: PHIL 3000.

PHIL 4455. RESPECTFUL DISAGREEMENT. (4 Credits)
This seminar concerns a problem that has broad practical implications, concerns how we should conduct our intellectual lives, and is of great interest in philosophy: what should we do when we find out that someone we consider just as intelligent and informed as we are on a certain topic disagrees with us on that topic? If we stick with our ipinion are we being arrogant? If we give up our old belief are we considered spineless? We all hold opinions we know are denied by people we consider our peers or even superiors on the relevant topic, whether it’s religious, political, or specific to our favorite fields of study. This seminar examines this common situation. Previously PHIL 3255. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, SRVL, VAL.

PHIL 4469. SEX, LOVE, AND THE VIRTUES. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, VAL.

PHIL 4470. LINCOLN: DEMOCRATIC VALUES. (4 Credits)
This senior seminar will survey key themes in American political philosophy from the Federalist Papers to the Lincoln-Douglas Debates, focusing on rival conceptions of the moral conditions that must be met for democratic government to count as legitimate, or capable of making law that deserves our principled allegiance. Using famous texts by Henry Jaffa and Gary Wills, we will consider the relation between popular sovereignty and human rights; the balance between personal conscience and constitutional order; and arguments for greater centralization of power for essential coordination and to secure basic justice. We will reconstruct this ideal of democratic justice from the tradition of ‘civic republicanism’ as it developed in the Federalist and Whig parties up to 1860. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, PJST, VAL.

PHIL 4473. WAR AND PEACE: JUST WAR THEORY. (4 Credits)
This seminar in applied ethics will examine the history and development of just war doctrine with special attention given to its medieval and classical theorists, e.g., Augustine, Aquinas, Vitoria, Suarez and Grotius. Students will debate the central questions just war theory was developed to address: what war is, whether war may be waged, and if so under what circumstances and in what ways. Before investigating just war theory, students will examine two rival ethical theories about war, namely, pacifism and realism. The closing weeks of the semester will focus on current issues and challenges for just war doctrine, especially pre-emptive war, terrorism, and counter-insurgency. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, MVST, REST, SRVL, VAL.
PHIL 4480. TECHNOLOGY AND VALUES. (4 Credits)
This senior values seminar examines the challenge that modern technology presents to our traditional ethical standpoints and, ultimately, to the very idea of an ethical culture insofar as modern technology has shifted from merely serving the culture to shaping the culture in fundamental ways regarding the measure of our humanity. Previously PHIL 3180. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, SRVL, VAL.

PHIL 4484. FREEDOM AND RESPONSIBILITY. (4 Credits)
The course will investigate several problems concerning freedom, responsibility and the morality of punishment. Is freedom possible in a world completely governed by physical laws? How can I be blamed (or praised) for my actions, given that upbringing, character, and environment are largely matters of luck? Is the practice of punishing criminals morally justifiable? How? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: BIOE, EP4, VAL.

PHIL 4486. EVIL, VICE, AND SIN. (4 Credits)
This senior values seminar takes a negative strategy in approaching moral questions by focusing on actions labeled "evil", "vicious", "sinful" in order to create an opportunity for reflecting on the reality and experience of evil from which we might evolve some positive conception of "value" as well as the context and nature of moral choice and conscience. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, EP4, SRVL, VAL.

PHIL 4800. INTERNSHIP. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 4990. SENIOR THESIS: PHILOSOPHY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHIL 4999. INDEPENDENT STUDY. (1-4 Credits)
Supervised individual study project.

PHIL 5001. INTRODUCTION TO PLATO. (3-4 Credits)
Study of Plato's developing thought, starting with the materials he inherited from poetic and philosophical forerunners, and analyzing how his original ethical-political interests compelled him to confront epistemological, metaphysical, and theological concerns. Course will focus mainly, but not exclusively, on early and middle dialogues.
Attributes: CLAS, MVST.

PHIL 5002. 19TH CENTURY PHILOSOPHY. (3-4 Credits)
Post-Kantian developments in philosophy from Hegel to Nietzsche.

PHIL 5003. NATURAL LAW ETHICS. (3-4 Credits)
A study of the natural law tradition in ethics: its origins in classical philosophy, its integration with Christian thought in the Middle Ages, and its application to selected contemporary problems. A study of the principles of natural law ethics and its applications to selected current moral problems. The course includes a treatment of the historical origins of the theory of natural law, with special emphasis on the relevant texts of Thomas Aquinas from the Summa Theologiae. Among the topics treated will be the relation of morality to positive law and to divine law, the nature and limits of authority, the common good, the nature of the human person, virtue and vice, and such principles as subsidiarity double effect, and finality.
Attribute: CEED.

PHIL 5005. CLASSICAL MODERN PHIL. (3-4 Credits)
A study of teh history of philosophy from Descartes to Kant.

PHIL 5009. INTRO TO ARISTOTLE. (3-4 Credits)
An introduction to teh thought of Aristotle through the study of the De Anima and the Metaphysics.
Attribute: MVST.

PHIL 5010. INTRODUCTION TO ST. THOMAS AQUINAS. (3-4 Credits)
This course will be a general introduction to Aquinas's philosophical thinking. We shall pay special attention to his philosophy of God. We shall also turn to what he says about questions such as the scope of human knowledge, the nature of the human being, and the nature and significance of human action. As well as being expository, the course will consider the cogency of Aquinas's position on various topics. It will also try to relate what Aquinas says to what other philosophers, especially modern philosophers, have to say. The course will not presuppose any previous detailed knowledge of Aquinas on the part of students.

PHIL 5012. INTRO TO ST. AUGUSTINE. (3-4 Credits)
This seminar is going to provide a systematic survey of the main themes of St. Augustine's philosophy and theology. Topics will include faith and reason, divine ideas, time, eternity, and creations, the theology of the Holy Trinity, the nature of teh soul, the freedom of the will and divine predestination, goodand evil, original sin and divine grace, and the human history as the history of salvation. The unifying theme of the discussion will be a synthetic account of St. Augustine's Neoplatonic Christian anthropology, occasionally contrasted with St. Thomas Aquinas' Aristotelian Christian anthropology. The discussion will be organized around student presentations and two term papers on topics other than one's presentation topics.

PHIL 5075. CONTINENTAL PHILOSOPHY & FAITH. (3 Credits)
A survey of significant movements in 20th century European philosophy in regard to their consideration of and impact on questions of faith or religion, especially in regard to postmodern culture, the "death" of the subject, and the grounding of rationality.

PHIL 5098. SEM: PHILOSOPHIC INTEGRATION 1. (3 Credits)
This course supports the student in constructing an adequately grounded and coherent personal synthesis of the five systematic areas of philosophy, i.e., metaphysics, epistemology, philosophy of the human person, philosophy of God, and ethics. Appropriate course work in each of these areas, as well as in the history of philosophy, is presupposed. For students in MAPR program.

PHIL 5099. SEM: PHILOSOPHIC INTEGRATION 2. (3-4 Credits)
A continuation of PHGA 5098, Seminar: Philosophical Integration I.

PHIL 5100. LOGIC I. (3-4 Credits)
An introduction to symbolic logic.

Updated: 10-11-2017
PHIL 5114. NORMATIVE ETHICAL THEORY. (3,4 Credits)
This is a masters-level introduction to major theoretical approaches in normative ethics, including virtue ethics (mainly in the Aristotelian tradition), utilitarianism, deontological or rights-based theories, and contractualism. It does not cover natural law theories or alterity ethics. The main readings will focus on contemporary examples of these normative theories with some attention to applications, historical sources may be included as needed, but our discussion will focus on the strengths and weaknesses of the theories rather than on historical developments. The course assumes no particular background, though it is helpful if students have read some Aristotle, Kant, and Mill before.
Attribute: CEED.

PHIL 6025. PHILOSOPHY'S ORIGINS. (3 Credits)
Starting with the beginnings of Philosophy in Greek antiquity (i.e., the testimonies and fragments of works transmitted from the early pre-Socratics of the 6th century B.C.E), the seminar takes up three intersecting topics. The first considers commentary from the classical Greek era to the 20th century on how and why this new inquiry, "philosophy", originated. The second, related topic is the role, indeed the centrality, of the topic of "origins" for the early Greek thinkers themselves. The third seminar topic is the concept of "origins".

PHIL 6190. FEMINIST POLITICAL PHILOSOPHY. (3 Credits)
We will balance a study of feminist critiques with a study of feminist contributions to reimagining political theories, institutions, and practices. We will focus our study around a current scholarly debate in the field, while inquiring into the philosophical context of this debate in canonical texts and figures.

PHIL 6215. FRENCH PHIL OF EDUCATION. (3 Credits)
An examination of philosophies of education in recent French thought, paying particular attention to the teaching of philosophy itself. Authors studied include Bourdieu, Derrida, Le Doeuff, and Ranciere.

PHIL 6251. AMERICAN PRAGMATISM. (3 Credits)
A survey of the central themes and figures of American Pragmatism from Peirce to the present.

PHIL 6252. AMERICAN PHILOSOPHY. (3 Credits)
From transcendentalism to naturalism- Emerson, Royce, Peirce, James and Dewey.

PHIL 6410. UNDERSTANDING AND WISDOM. (3 Credits)
The course will mainly deal with contemporary work from epistemology and philosophy of science on these topics, but we will also look at some ancient traditions that are relevant, as well as spend a few classes looking at continental and hermeneutical approaches.

PHIL 6457. MIND-BODY PROBLEM. (3 Credits)
"The mind-body problem" refers loosely to the philosophical difficulties involved in integrating the image of ourselves as free, rational beings having beliefs, desires, hopes, fears, joys, loves, etc. with the image of ourselves as complex biochemical systems. We consider some of these difficulties with an eye to understanding how they have shaped approaches to human nature both in philosophy and in scientific disciplines such as psychology, and then consider whether any of these difficulties can be overcome using the resources available to the currently dominant philosophical theories. Finally, we examine the claim that there are viable historical alternatives to these theories capable of circumventing the mind-body problem altogether.

PHIL 6460. INTENTIONALITY. (3 Credits)
This course explores the key concept of intentionality both in its medieval and in its modern varieties, as it functions in various medieval and modern theories of cognition and mental representation.

PHIL 6471. RESPONSIBILITY AND BLAME. (3 Credits)
In this course: we will examine the nature of moral responsibility, the nature of blame, and the connection between them. We will ask questions such as the following. Does moral responsibility require free will? Can we understand blame exclusively in terms of attitudes such as resentment and indignation, or must blame have an outward manifestation? Does understanding the nature of blame shed light on the nature of moral responsibility?

PHIL 6472. RESPONSIBILITY, BLAME, AND FORGIVENESS. (3 Credits)
In this course, we will examine the natures of moral responsibility, blame, and forgiveness, as well as the connections between them.

PHIL 6580. VIRTUE EPISTEMOLOGY. (3 Credits)
Virtue epistemologists are especially interested in what it is that makes people intellectually excellent- what it is, for example, that makes a person a responsible inquirer, of what is that makes his or her beliefs amount to knowledge. In this class we will consider the main positions and some of the most recent developments in the area of virtue epistemology.

PHIL 6630. DISCOURSE ETHICS. (3 Credits)
This seminar will trace the development of Jurgen Habermas's "discourse ethics." We will also analyze alternative versions of discourse ethics in the work of Karl-Otto Apel, Albrecht Welmer, Seyla Benhabib, and Rainer Forst, and consider challenges from communitarians like Charles Taylor and contractualists such as Thomas Scanlon and Stephen Darwall.

PHIL 6805. TOPICS IN PHIL OF REL.. (3 Credits)
This course will introduce and discuss a range of topics in the philosophy of religion. Topics to be considered will include: the propriety and possibility of natural theology: arguments for God's existence; the problem of evil; the attributes of God; life after death.

PHIL 6850. HERMENEUTICS. (3 Credits)

PHIL 7009. PLOTINUS. (3 Credits)
This course will examine in detail Plotinus' original positions in metaphysics, epistemology, psychology, and ethics as presented in the Enneads along with his polemics against the Stoics, Epicureans, Peripatetics, and quasi-philosophical schools such as the Gnostics.

PHIL 7018. ANCIENT PSYCHOLOGY. (3 Credits)
This course examines ancient accounts of human cognitive and moral psychology. The primary focus will be on Plato and especially Aristotle, since their accounts are the most complete, but Epicurean and Stoic psychology will also receive attention.

PHIL 7039. AQUINAS'S PHILOSOPHY OF GOD. (3 Credits)
This course is devoted to explaining and commenting on Aquinas's philosophy of God and presented in texts such as his Summa Contra Gentiles, his Summa Theologica, and his De Potentia.

PHIL 7042. BURIDAN ON THE SOUL. (3 Credits)
This course is going to be based on the new edition of the Latin text and annotated translation of Buridan's "Questions on Aristotle's De Anima" along with a companion volume of critical essays, analyzing his sometimes astonishingly modern ideas concerning the nature, powers and workings of human and animal souls, consciousness, and understanding, shedding a stark light on the historical origins and conceptual roots of some of the most persistent problems in post-Cartesian philosophy of mind.

PHIL 7071. AQUINAS:QUESTIONS ON GOD. (3 Credits)
An exposition and critical discussion of 'Summa Theologies', la, 1-26.
PHIL 7076. Metaphysical Themes in Duns Scotus. (3 Credits)
This course focuses on central metaphysical issues in the thought of Duns Scotus, such as being, substance, essence and individuation.

PHIL 7080. MEDEIVAL VIEWS ON COGNITION AND CERTAINTY. (3 Credits)
In this course, we will study some medieval thinker’s views on cognition and certainty. The main focus will be on the debate of cognition and the role of divine illumination in the years following Thomas Aquinas’s death in authors such as Henry of Ghent, John Duns Scotus, and Peter Auriol. Some consideration will be given to the influence that the later medieval debate had on early modern philosophy.

PHIL 7106. KANT I. (3 Credits)
The aim of this course is to achieve an appreciation of, and some facility with the problems and mode of philosophizing that dictate the arguments in Kant’s Kritik der reinen Vernunft. Accordingly, the course is organized along thematic lines that, while corresponding to specific passages and sections of the Kritik, provide a route through the text as a whole. After an initial introduction to the structure and context of teh work as a while, the course will focus primarily on the positive doctrines of Kant’s critical or transcendental philosophy as presented in the Transcendental Aesthetic and the Transcendental Analytic of the Transcendental Logic.

PHIL 7110. DESCARTES AND SPINOZA. (3 Credits)
Primarily a study of Descartes’ Meditations, preceded by a reading of his Regulae and Discourse on Method, and a study of Spinoza’s Ethics, preceded by a reading of his Emendation on the Understanding and selections from other works.

PHIL 7140. KANT AND GERMAN IDEALISM. (3 Credits)
This course will examine Kant’s detailed treatment of issues in the Critique of the Power of Judgement and will examine how thinkers like Hegel, Schelling, and Schiller helped to develop the German Idealist tradition in the wake of Kant’s third and final critique.

PHIL 7145. PHENOMENOLOGY AND RELIGIOUS EXPERIENCE. (3 Credits)
This course is a philosophical investigation into major traditional and contemporary forms of religious life and experience, such as asceticism, liturgy, monasticism, mysticism, spirituality, and fundamentalism.

PHIL 7149. HEGEL’S PHENOMENOLOGY. (3 Credits)
A reading of Hegel’s Phenomenology of Spirit, in the context of his other writings and in conversation with various other philosophers.

PHIL 7153. HUSSERL’S LATER THOUGHT. (3 Credits)
An investigation of Husserl’s later philosophy by way of a careful reading of Cartesians Meditations and the Crisis.

PHIL 7159. KIERKEGAARD. (3 Credits)
Sources, development, influence of Kierkegaard’s thought.

PHIL 7161. NIETZSCHE. (3 Credits)
Detailed investigation of principal Nietzschean themes.

PHIL 7166. RECOGNITION & INTERSUBJECTIVITY. (3 Credits)
This course will examine the notion of recognition, as well as the related notion of intersubjectivity, in philosophical discourses extending from the late eighteenth century to the present time.

PHIL 7203. MERLEAU-PONTY. (3 Credits)

PHIL 7204. Wittgenstein and Later Wittgenstein. (3 Credits)
A focus on Wittgenstein’s classic texts (Tractatus, Philosophical Investigation, On Certainty) along with later receptions of Wittgenstein’s work.

PHIL 7210. WHITEHEAD. (3 Credits)
An analysis of the development of the philosophy of organism in Whitehead’s earlier works and its full expression in Process and Reality.

PHIL 7229. DERRIDA. (3 Credits)
A study of major texts of Jacques Derrida dealing with such themes as writing, differance, and deconstruction, as well as his relation to traditional and contemporary figures.

PHIL 7236. The Emotions and Moral Perception. (3 Credits)
This course will examine phenomenological (and some comparable non-phenomenological) accounts of (1) the nature of the emotions and (2) their role in evaluation, in general, and moral evaluation, in particular.

PHIL 7240. CONTEMPORARY METAETHICS. (3 Credits)
Metaethics steps back from substantive moral debates to ask questions about morality itself. We will consider a range of positions in order to see the benefits and limitations of different ways of answering these questions, and each student will work at developing her or his own answers throughout the term.

PHIL 7310. SELF-CULTIVATION PHILOSOPHIES. (3 Credits)
Self-cultivation philosophies propound a program of development for radically improving the lives of human beings on the basis of an understanding of human nature. We will study the nature and variety of these practice-oriented philosophies through an examination of prominent examples from ancient India, China and Greece as well as more recent approaches in Western philosophy.

PHIL 7350. EVIDENTIAL UNDERMINING. (3 Credits)
Sometimes we gain confidence that a belief is false. Sometimes we gain evidence that our grounds for a belief are not good grounds. The latter is a case of "evidential undermining". We will explore several important recent arguments that purport to show that particular moral, philosophical, and religious beliefs face evidential undermining.

PHIL 7459. HEIDEGGER'S BEING AND TIME, BLACK NOTEBOOKS. (3 Credits)
We will read Heidegger’s 1927 Sein und Zeit, which may be found in English in a range of translations, along with several other works in order to situate a reading of the recently published Black Notebooks, and even more recently translated for publication in English. The topic is not merely the controversial and scandalous question of what is called Heidegger’s anti-Semitism but also the status of his published and unpublished writings in addition to the question of the question of the being of.

PHIL 7465. THE EMOTIONS. (3 Credits)
This course will examine and evaluate competing theories of the emotions, their relation to evaluation or values, their relation to action, and their relation to moral judgment and decision-making.

PHIL 7650. ARISTOTELIAN ETHICS. (3 Credits)
This course, "Aristotelian Ethics" is centrally concerned with Aristotle’s book, "The Nicomachean Ethics." We will work through the book in detail, mostly in the order that the text is presented. Along the way, we shall examine some relevant secondary literature in the field.
PHIL 7664. PHILOSOPHY OF LITERATURE. (3 Credits)
Philosophy of Literature is devoted to studying the tensions and connections between philosophical analysis and the evocations and descriptions of literary experience. We will consider the philosophy of hermeneutics insofar as this grounds literary interpretation; the philosophical problems concerning the status of the author and the reader in respect to the generation of meaning; the ethics of literary representation; and the ontology of literary language. Our readings will be drawn from such sources as Gadamer, Sartre, Bachelard, Heidegger, iser, Natanson, Nehamas, Hamburger, and Blanchot.

PHIL 7730. RECENT WORK IN EPistemology. (3 Credits)
This seminar will examine recent articles and books in contemporary epistemology. The seminar’s themes will likely include: the nature of reasons and evidence, the challenge of skepticism, and the purpose of epistemological theorizing. The seminar’s texts will feature perspectives from traditional, social, feminist, and virtue epistemology.

PHIL 7758. HUMAN DIGNITY. (3 Credits)
This seminar will focus on recent philosophical work on the concept of dignity. Issues discussed will include the connection between the idea of human dignity and equal status, the role of dignity in constitutions, the social construction of dignity, and the relation between the concepts of human dignity and human rights.

PHIL 7760. Dimensions of Political Justice. (3 Credits)
An intensive introduction to key themes in contemporary analytic political philosophy, including contractarian and consequentialist theories of justice; human capabilities and other possible grounds for universal basic rights; collective action problems, market failures and public goods; other problems for libertarian conceptions of legitimate government (including equal opportunity, reward according to merit, and initial acquisition); and (time permitting) issues in global justice including globalizing democracy.

PHIL 7857. TOPICS IN CONTMP METAPHY. (3 Credits)
The full course title is "Topics in Contemporary Metaphysics." In this course one central topic of current work in analytic metaphysics will be investigated thoroughly. The topics change every time the class is offered.

PHIL 8001. SEM: PHIL EDUCATION. (3 Credits)
Detailed investigation of methods in the teaching of philosophy and preparation for teaching Fordham core courses.

PHIL 8050. PROSEMINAR: PHIL RSCH/Writing. (3 Credits)
A detailed study of methods for successful philosophical research and writing.

PHIL 8070. PROFESSIONAL WRITING SEMINAR. (0 Credits)
This seminar is designed to assist advanced graduate students in Philosophy and prepare for successful academic careers doing research and publishing in Philosophy. Participants will meet regularly to discuss student work and strategies for effective professional writing and success in publishing. This will assist them in preparing articles for publication in professional philosophy journals as well as developing writing samples for job applications. The seminar will be open to PhD candidates who have successfully defended a dissertation proposal. Students may repeat the course.

PHIL 8999. INDEPENDENT STUDY. (0.5-4 Credits)

PHIL 9999. DISSERTATION DIRECTION. (1 Credit)

Physics (PHYS)

PHYS 1201. INTRODUCTION TO ASTRONOMY. (3 Credits)
Includes discussions of the solar system, stars, galaxies and cosmology. Method of making observations. An investigation of physical phenomena including lenses, spectroscopy and refraction. Direct observation through the telescope of celestial objects depending on their position and weather conditions. Astro photography and film development is also available. The lab is intended for the student with little mathematical background. Note that there will be regular night-time observation labs. (No lab fee).

Attribute: ENVS.

PHYS 1203. ENVIRONMENTAL PHYSICS. (3 Credits)
An introductory course for nonscience majors. Topics include heat engines, energy supply and consumption, nuclear fission and fusion; renewable energy resources, fossil fuels and acid rain. Emphasis will be on basic physical principles as applied to environmental issues. Course requirements include several laboratory experiments. The laboratory is designed to investigate various physical properties of the environment. Experiments will include water-testing and air quality measurements as well as the rudiments of electronic circuitry and the investigation of radioactivity in the environment. (Freshmen and sophomores only). (No lab fee).

Attributes: ENVS, PJST, PSCI, URST.

PHYS 1206. PHYSICS OF EVERYDAY LIFE. (3 Credits)
An introductory course for nonscience majors. Topics include physical phenomena that one comes across in everyday life. Physical principles will be explained and numerous examples (many from sports) will be presented. There will be several laboratory experiments that will give students a better understanding of several physical quantities. The experiments will illustrate aspects of mechanics, wave motion, heat and electricity and magnetism. (Freshmen and sophomores only). (No lab fee).

Attribute: CO09.

PHYS 1207. PHYSICS OF LIGHT AND COLOR. (3 Credits)
An introductory course for nonscience majors. Topics include laser light and how lasers influence our lives, with examples from telecommunications, compact disk players, laser surgery and holograms. An investigation of the human eye and the mechanism of color vision. Course requirements include several laboratory experiments. The laboratory is designed to investigate various physical properties of laser light and color. (Freshmen and sophomores only). (No lab fee).

Attribute: PSCI.

PHYS 1501. GENERAL PHYSICS I. (3 Credits)
An introductory course in physics at the noncalculus level. A study of the basic laws of classical and modern physics, including mechanics, heat, sound, electricity and magnetism. Attribute: ENVS.
Corequisite: PHYS 1503.

PHYS 1502. GENERAL PHYSICS II. (3 Credits)
Continuation of PHYS 1501. Corequisite: PHYS 1504.

PHYS 1503. GENERAL PHYSICS I RECITATION. (0 Credits)
Discussion and problem solving on topics to be covered in PHYS 1501 General Physics I.
Corequisite: PHYS 1501.
PHYS 1504. GENERAL PHYSICS II RECITATION. (0 Credits)
Discussion and problem solving on topics to be covered in PHYS 1502
General Physics II.
Corequisite: PHYS 1502.

PHYS 1511. PHYSICS I LAB. (1 Credit)
Measurements in mechanics, heat, waves, electricity and magnetism, 
optics and atomic and nuclear physics. Lab fee.
Attribute: ENVS.

PHYS 1512. PHYSICS II LAB. (1 Credit)
Continuation of PHYS 1511. Lab fee.
Attribute: ZLB3.

PHYS 1601. INTRODUCTION TO PHYSICS I. (4 Credits)
Introductory course for physics majors. A study of mechanics, 
thermodynamics, electricity and magnetism, optics and atomic physics. 
Four-credit courses that meet for 150 minutes per week require three 
additional hours of class preparation per week on the part of the student 
in lieu of an additional hour of formal instruction.
Corequisite: PHYS 1604.
Prerequisite: PHYS 1601.

PHYS 1602. INTRODUCTION TO PHYSICS II. (4 Credits)
Continuation of PHYS 1601. Four-credit courses that meet for 150 
minutes per week require three additional hours of class preparation per 
week on the part of the student in lieu of an additional hour of formal 
instruction.
Corequisite: PHYS 1604.

PHYS 1603. INTRODUCTION TO PHYSICS I RECITATION. (0 Credits)
Discussion and problem solving on topics to be covered in PHYS 1601 
Introductory Physics I.
Corequisite: PHYS 1601.

PHYS 1604. INTRODUCTION TO PHYSICS II RECITATION. (0 Credits)
Discussion and problem solving on topics to be covered in PHYS 1602 
Introductory Physics II.
Corequisite: PHYS 1602.
Prerequisite: PHYS 1601.

PHYS 1701. PHYSICS I. (3 Credits)
Introductory course for students who have completed one year of 
college calculus (MT 1206-1207 or equivalent). A study of mechanics, 
thermodynamics, electricity and magnetism, optics and atomic physics.

PHYS 1702. PHYSICS II. (3 Credits)
Continuation of PHYS 1701.
Corequisite: PHYS 1704.

PHYS 1703. PHYSICS I RECITATION. (0 Credits)
Discussion and problem solving on topics to be covered in PHYS 1701 
Physics I.
Corequisite: PHYS 1701.

PHYS 1704. PHYSICS II RECITATION. (0 Credits)
Discussion and problem solving on topics to be covered in PHYS 1702 
Physics II.
Corequisite: PHYS 1702.

PHYS 2005. INTRODUCTION TO MODERN PHYSICS. (4 Credits)
A survey course of the more important areas of modern physics. Topics 
include special theory of relativity, introduction to quantum mechanics, 
atomic physics, molecules and solids, nuclear structure and elementary 
nuclear physics applications and particle physics. Four-credit courses 
that meet for 150 minutes per week require three additional hours of 
class preparation per week on the part of the student in lieu of an 
additional hour of formal instruction.
Prerequisites: PHYS 1601 and PHYS 1602.

PHYS 2010. LAB METHODS AND TECHNIQUES. (1 Credit)
Topics to be covered are (a) lab safety procedures, (b) machining 
techniques using Machine Shop equipment and tools, (c) maintenance 
of equipment, (d) handling of high voltage electrical equipment, (e) trouble 
shooting and diagnostic tests of electronic equipment, (f) handling of 
precision instruments, and (g) any other topics deemed necessary to 
make the lab a safe place to work.
Attribute: ZLB3.
Prerequisite: PHYS 1601.

PHYS 2011. INTERMEDIATE LABORATORY. (2 Credits)
Measurements in electricity and magnetism. This course will also include 
practical machine shop experience. Lab fee.
Attribute: ZLB3.
Prerequisites: PHYS 2305 or PHYS 2005.

PHYS 2101. ENGINEERING STATICS AND DYNAMICS. (4 Credits)
The following topics will be covered: forced system resultants, 
equilibrium or rigid body, structural analysis, internal forces, friction, 
center of gravity centroid, moments of inertia, virtual work, impulse and 
momentum, rigid-body kinematics, relative motion, Coriolis accelerations, 
and rigid-body kinetics. Four-credit courses that meet for 150 minutes per 
week require three additional hours of class preparation per week on the 
part of the student in lieu of an additional hour of formal instruction.
Prerequisites: PHYS 1601 and PHYS 1602.

PHYS 2102. MECHANICS OF MATERIALS. (4 Credits)
An introduction to the mechanical properties of materials including 
their response to: stress, strain, torsion, bending and shear. Four-credit 
courses that meet for 150 minutes per week require three additional 
hours of class preparation per week on the part of the student in lieu of 
an additional hour of formal instruction.
Attribute: FCRH.

PHYS 2111. INTRODUCTION TO INVENTIONS AND PATENTS. (1 Credit)
Introduction to the creative process that drives inovation and 
inventorship. Includes discussions on creative development of ideas, 
formalizing patent applications, commercialization and technology 
transfer.
Attribute: FCRH.

PHYS 2201. CLASSICAL MECHANICS I. (4 Credits)
An introduction to classical mechanics including kinematics and 
dynamics of particles and rigid bodies. Includes a discussion of 
D'Alembert's principle, Lagrange's equations and Hamilton's principle. 
Four-credit courses that meet for 150 minutes per week require three 
additional hours of class preparation per week on the part of the student 
in lieu of an additional hour of formal instruction.
Prerequisites: PHYS 1601 and PHYS 1602 and PHYS 2005.

PHYS 3001. ELECTRICITY AND MAGNETISM I. (4 Credits)
Electrostatics, dielectric media, direct current circuits, magnetism and 
magnetic media, transients and alternating currents, electromagnetic 
induction, Maxwell's equations, electromagnetic waves and wave guides. 
Four-credit courses that meet for 150 minutes per week require three 
additional hours of class preparation per week on the part of the student 
in lieu of an additional hour of formal instruction.
Prerequisites: PHYS 1601 and PHYS 1602 and MATH 2005.

PHYS 3011. ADVANCED LABORATORY I. (2 Credits)
Measurements in electronics, diodes, transistors, and operational 
amplifiers. Lab fee.
Attribute: ZLB3.

Updated: 10-11-2017
PHYS 3012. ENGINEERING EXPERIMENTATION. (3 Credits)
Statistical and other measures of data uncertainty, propagations of uncertainty, curve fitting, introduction to basic instrumentation for measuring pressure, temperature, strain. The laboratory component of the course teaches the students how to construct and perform their own experiments. Laboratory experiments include material tensile and hardness testing, beam buckling, pipe flow, flow dynamics, electrical circuits, op-amps, and power circuits.

PHYS 3013. EXPERIMENTAL TECHNIQUES IN ENGINEERING AND PHYSICS. (3 Credits)
Experimental Techniques in Engineering and Physics seeks to provide broad overview of engineering and physics concepts and experimental methods through lectures and laboratory experiments. The experiments are designed to demonstrate the physical principles learned in engineering and physics courses. In addition to experimental procedure, focus will be placed on technical writing and presentation.

Prerequisite: PHYS 2010.

PHYS 3100. MATH METHODS IN PHYSICS. (4 Credits)
Implicit function theorem, Jacobians, curves and line integrals, multiple integrals, surface and volume integrals, divergence theorem, Stokes’ theorem, and Green’s theorem. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHYS 3101. MATH METHODS IN PHYSICS I. (4 Credits)
Matrices and determinants, series expansion, complex numbers and functions, Fourier series, ordinary differential equations, partial differential equations, and special functions of physics, theory of special relativity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: MATH 2005.

PHYS 3102. MATH METHODS IN PHYSICS II. (4 Credits)
Continuation of PHYS 3101. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: PHYS 3101.

PHYS 3103. MATH METHODS IN PHYSICS III. (4 Credits)
Topics to be covered include suffix notation and tensor algebra, theory of complex variables, contour integration, applications of contour integration, Sturm-Liouville Theory, integral equations. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: PHYS 1601.

PHYS 3201. FLUID MECHANICS. (4 Credits)
This course introduces the fundamentals of fluid statics, dimensional analysis and modeling, viscous flow in pipes, channel flows, laminar flow, transition, turbulence; flow past an object, wake, separation, vortices, drag; convection, conduction, transition from periodic to chaotic behavior, compressible flow; transition to turbulence. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: PHYS 1601.

PHYS 3205. FUNDAMENTALS OF ENGINEERING THERMODYNAMICS. (4 Credits)
Basic principles and laws of thermodynamics and their relation to pure substances, ideal gases, and real gases. Use of thermodynamic property tables. Development of concepts of reversibility and availability. First and Second Law application to engineering systems; power and refrigeration cycles. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: FCRH.
Prerequisites: PHYS 1601 and PHYS 1602.

PHYS 3211. COMPUTATIONAL PHYSICS AND PROGRAMMING I. (2 Credits)
An introductory course in the use of computers to numerically solve problems in physics using PASCAL or FORTRAN. Topics include numerical solution of non-linea equations, interpolation and extrapolation, numerical differentiation and integration. No prior knowledge of computer language is required.

PHYS 3401. THERMO AND STAT PHYSICS. (4 Credits)
Fundamental principles, first and second laws, thermodynamic functions; a discussion of the kinetic theory of gases and introductory statistical mechanics. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PHYS 1602 and PHYS 2005.

PHYS 3555. MODELING, SIMULATION, AND DESIGN. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PHYS 1601 and PHYS 1602.

PHYS 3601. OPTICS. (4 Credits)
Wave propagation, interference, diffraction, and polarization; electromagnetic theory of light. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PHYS 4003. CLASSICAL MECHANICS II. (4 Credits)
Lagrange’s equations, variational principles, Hamilton’s equations, canonical transformations, Hamilton-Jacobi theory, rigid body motion, small oscillations, central forces and Kepler’s planetary motion. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PHYS 2201 and PHYS 3101.

PHYS 4004. ELECTRICITY AND MAGNETISM II. (4 Credits)
Continuation of PHYS 3001. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PHYS 1601 and PHYS 1602 and PHYS 3001.

PHYS 4005. QUANTUM MECHANICS I. (4 Credits)
Foundations of quantum mechanics, Schrödinger equation, Hermitian operators, solution of the Schrödinger equation, harmonic oscillator, hydrogen atom, angular momentum operators, variational method, perturbation theory. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PHYS 2005 or PHYS 2305.
Phys 4006. Quantum Mechanics II. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Phys 4010. Introduction to Electrical Engineering. (4 Credits)
Electrical circuit laws and theorems, transient and steady-state response, phasors, frequency response, resonance. Diode and transistor circuits, digital logic devices. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Phys 4011. Nuclear and Particle Physics. (4 Credits)
A survey of nuclear and particle physics for advanced undergraduate students. It explores the common roots and tools of the nuclear (medium energy) and particle (high energy) fields. The primary goal is to understand the basic ideas of the Standard Model of quarks, leptons and the fundamental interactions of the universe. Specific topics include properties and simple models of nuclei, fundamental interactions and their mediators, quarks and leptons, symmetries and tests of conservation laws, physics beyond the Standard Model, and other ideas in theoretical and experimental nuclear and particle physics. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Phys 4012. Solid State Physics. (4 Credits)
An introduction to the elastic, thermal, electromagnetic, and optical properties of solids; energy bands, semiconductors, superconductors, surface and defect structures and device applications. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Phys 4020. Biomechanics. (4 Credits)
Engineering principles such as mechanics, rigid body dynamics, fluid dynamics and solid mechanics are applied to the study of biological systems such as ligaments, tendons, bone, muscles, joint, etc. Methods for both rigid body and deformational mechanics are developed in the context of bone, muscle, and connective tissue. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Phys 4021. Medical Instrument and Imaging. (4 Credits)
Introduction to the physics and the practical technology associated with such methods as X-ray computed tomography (CT), magnetic resonance imaging (MRI), functional MRI (f-MRI) and spectroscopy, ultrasونics (echocardiography, Doppler flow), PET scans as well as optical methods such as bioluminescence and optical tomography. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Phys 4025. Machine Dynamics and Mechanical Design. (4 Credits)
The principles of dynamics as applied to the analysis of the accelerations and dynamic forces in machines such as linkages, cam systems, gears, belts, chains, couplings, bearings, brakes, clutches, and flexible mechanical elements. Concepts of engineering design, material selection, failure theories, fracture and fatigue. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Phys 4401. Undergraduate Research I. (4 Credits)
Participation of the undergraduate in research under the direction of one of the faculty. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Phys 4402. Undergraduate Research II. (4 Credits)
Participation of the undergraduate in research under the direction of one of the faculty. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Politics Science (POSC)

Posc 0914. Requirement Preparation in Summer. (0 Credits)
For Ph.D. and Master's students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement during the summer. (e.g., to be used by Ph.D. students after the oral examination/defense and prior to receiving the degree).

Posc 0922. Phd Comprehensive Examination Preparation. (0.5 Credits)

Posc 0930. Phd Comprehensive Examination-Political Science. (0 Credits)

Posc 0934. Master's Comprehensive Examination Preparation. (0.5 Credits)

Posc 0936. Master's Comprehensive Examination-Political Science. (0 Credits)

Posc 0950. Proposal Development. (1 Credit)

Posc 0960. Proposal Acceptance. (3 Credits)

Posc 1100. Introduction to Politics. (3 Credits)
Introduces students to major approaches to the study of politics. Examines key political concepts such as power, democracy, and freedom; types of political actors, such as political parties, interest groups, and leaders; and important political institutions. Situates contemporary politics within social structure and history.

Attributes: AMST, FRSS, SSCI.
POSC 1298. GOVERNMENT AND POLITICS COMPARATIVE. (3-6 Credits)

POSC 1300. THE ENLIGHTENMENT AND ITS CRITICS. (3 Credits)
The European Enlightenment was an intellectual and political movement committed to preventing religious warfare. This course surveys the work of major Enlightenment political philosophers such as Immanuel Kant, John Locke, and Mary Wollstonecraft; considers the arguments of counter-Enlightenment authors; and surveys contemporary debates in Islamic political thought about religion, politics, and the role of women in Islam.

Attributes: EP1, FRSS, MANR, SSCI.

POSC 1999. TUTORIAL. (1 Credit)
Independent research and reading with supervision from a faculty member.

Attribute: PLUR.

POSC 2001. POLITICAL ANALYSIS. (4 Credits)
Provides students with the essential methods and concepts for the quantitative analysis of political phenomenon, such as polls and election returns. Techniques of analysis introduced will include graphics, descriptive statistics, cross-tabular and correlation analysis, hypothesis testing, and computer applications. The goal of the course is to make the student a component consumer of political analysis. It will also focus on how political analysis is used in the real world, e.g. by campaign strategists and governments. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 2102. INTRODUCTION TO URBAN POLITICS. (4 Credits)
A study of politics and power within urban political systems, including an examination of their historical development, current political economy, and prospects for the future. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, PLUR, URST.

POSC 2202. INTRODUCTION TO AMERICAN POLITICS. (3 Credits)
An introduction to American government and politics. The course is a 3 credit version of POSC 2201: American Government & Politics, designed for summer sessions.

Attribute: AMST.

POSC 2203. INTRODUCTION TO THE AMERICAN LEGAL SYSTEM. (3 Credits)
This course is an introduction to the American legal system in theory and practice. It will examine issues of jurisprudence, as well as some of the procedural and substantive areas of the law. Among the legal principles/topics to be considered: The Rule of Law; The Bill of Rights; Precedent; Test Case; 'Reasonable Person' Standard; Judicial Standing; U.S. Supreme Court; Organization of U.S. Court Systems; Freedom of Speech ('Hate' Speech); Legal Rights of College Students; Wrongful Convictions.

Attribute: AMST.

POSC 2205. THE U.S. CONGRESS. (4 Credits)
A study of the historical development and current operation of the U.S. Congress. Particular attention is paid to the impact of elections, political parties, formal and informal rules and procedures, and congressional committees on the policies produced by Congress, and to Congress' relation to the executive branch. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: AMST.

POSC 2401. INTRODUCTION TO POLITICAL PHILOSOPHY. (4 Credits)
This course will study the major philosophers from Plato to Marx, discussing questions such as the best regime, the nature of justice and the relation between the individual and the community. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 2501. INTRODUCTION TO INTERNATIONAL POLITICS. (4 Credits)
A look at modern nation-states in terms of national character, resources, industrial and military capacity, and geography. An examination of their foreign policies in terms of alliance and balance of power theories as influenced by regional and international organizations and movements. A study of war and its alternatives, such as diplomacy, peaceful change, peaceful settlement of disputes, and future models of world order. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: INST, IPE, MEST.

POSC 2610. INTRODUCTION TO COMPARATIVE POLITICS. (4 Credits)
This course involves the systematic study and comparison of the world's political systems. It seeks to explain differences between as well as similarities among countries including the United States. Comparative politics is particularly interested in exploring patterns, processes, and regularities among political systems. It looks for trends, for changes in patterns, and tries to develop general propositions or hypotheses that describe and explain these trends. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: INST, IPE, LALS.

POSC 2800. INTRODUCTION TO POLITICAL ECONOMY. (4 Credits)
An examination of conservative, liberal and radical approaches to the relationship between economics and politics. Topics include: corporate power in politics; government regulation of business; the political economy of class, race and gender; socioeconomic movements; the interrelationship of international and domestic political economies; and the relationship between political democracy and economic systems such as capitalism and socialism. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 2999. TUTORIAL. (1-2 Credits)
Independent research and reading with supervision from a faculty member.
POSC 3120. NEW YORK CITY INTERNSHIP. (4 Credits)
The purpose of this course is to help students gain practical experience in the operation of New York government and politics by working in offices of elected officials, governmental agencies, or non-partisan public interest organizations. Requirements will also include readings, short papers and discussions based on the internship experience. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, URST.

POSC 3121. NEW YORK CITY POLITICS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, PLUR, URST.

POSC 3131. POLITICS, URBAN HEALTH, AND ENVIRONMENT. (4 Credits)
This course will examine the intersection of urban life, individual and community health and public policy. It will examine the evolution of urban public problems, the urban environment and the role and responsibility of society and the political system to respond to individual and health issues in urban settings. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, BIOE, ENST, EP3, PJST.

POSC 3205. THE U.S. COURTS IN THE FIGHT FOR AFRICAN AMERICAN CIVIL RIGHTS. (4 Credits)
This course will examine the quest for legal and political rights by the African American community through the lens of the US judicial system. The timeline of the course is from the writing of the federal Constitution to the Voting Rights Act of 1965. Among the topics to be covered: slavery, the Reconstruction Amendments, segregation, the legal strategy of the NAACP, and federal civil rights legislation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, BIOE, ENST, EP3, PJST.

POSC 3209. CONSTITUTIONAL LAW. (4 Credits)
A casebook analysis of central issues of constitutional law. Examines the Constitution’s origins, judicial review, federalism, separation and balance of powers, domestic and foreign affairs, the commerce clause, substantive due process, the rise of the administrative state, philosophies of interpretation. Presents the Constitution as defining a structure of government, rights and political economy. Examines the Constitution’s role in American political development and democracy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3210. CIVIL RIGHTS AND LIBERTIES. (4 Credits)
A casebook analysis of Supreme Court decisions on civil rights and civil liberties. Topics include freedom of speech and religion, the right to privacy, gender and racial equality, the death penalty, and protections against unreasonable searches and seizures. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3213. INTEREST GROUP POLITICS. (4 Credits)
An examination of pressure groups and their role in the political process. Special attention will be paid to the origins of groups, who joins and who does not and how groups affect their own members. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, PLUR.

POSC 3214. THE U.S. CONGRESS. (4 Credits)
A study of the historical development and current operation of the U.S. Congress. Particular attention is paid to the impact of elections, political parties, formal and informal rules and procedures, and congressional committees on the policies produced by Congress, and to Congress’ relation to the executive branch. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3215. AMERICAN POLITICAL PARTIES. (4 Credits)
Examines the workings of American political parties and their role in the political system. Analyzes the effect of parties on the campaigns of presidential and congressional candidates, the influence of parties on the electoral decisions of voters, and the impact of parties on the workings of both the presidency and Congress as policymaking institutions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3217. THE AMERICAN PRESIDENCY. (4 Credits)
An examination of presidential leadership, including the development, growth, and exercise of presidential power. Includes analysis of republican foundations of the presidency, organization and operation of office, role in domestic and foreign policy, relations with Congress, and the importance of character. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3219. CONSTITUTIONAL LAW AND THE DEATH PENALTY. (4 Credits)
The course will examine the historical, philosophical, religious, and legal roots underlying the use of the death penalty by political systems. Part of the course will focus on contemporary U.S policy regarding the death penalty, relevant legal cases and social commentary. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3220. CRIMINAL LAW AND JUSTICE IN THE U.S.. (4 Credits)
This course analyzes criminal law and justice, specifically using the Amendments (4th, 5th, 6th, and 8th) and how they relate to criminal procedure. The course will use current issues with criminal justice reform as a framework. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.
POSC 3223. CONSTITUTIONAL LAW: CRIMINAL JUSTICE. (4 Credits)
Case method analysis of Supreme Court decisions in the area of Criminal Justice. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3225. HUMAN TRAFFICKING AND THE LAW. (4 Credits)
The course will examine human trafficking and the ways in which the legal system addresses it in the United States. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: PJST.

POSC 3228. CIVIL RIGHTS. (4 Credits)
A casebook analysis of legal responses to public and private discrimination, with emphasis on race and gender. Examines Supreme Court decisions, laws, and politics, involving the 5th, 13th, 14th, 15th, and 19th amendments, equal protection and level of scrutiny, civil and voting rights, public accommodations, employment, private associations, schools, privacy, “natural” roles, the public/private dichotomy. Studies movements for equality. Evaluates busing, affirmative action, pay equity and other remedies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, PLUR.

POSC 3231. JUDICIAL POLITICS. (4 Credits)
This course provides an introduction to the study of law and courts as political institutions and judges as political actors. Topics include judicial behavior and policymaking, the politics of Supreme Court nominations, the role of public opinion in shaping judicial doctrine, and the impact of courts on society. Because this is an American Pluralism course, a major objective of the course is to increase knowledge of how reform groups have used the courts to combat discrimination based on race, sex, and sexual orientation. The course also explores how the structure of the legal system systematically advantages some litigants more than others based on class. The primary institutional focus is the U.S. Supreme Court, but we also study other courts as well, including the state supreme courts and lower federal courts. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, PLUR.

POSC 3232. FAMILY, LAW, AND SOCIETY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: POSC 1100.

POSC 3233. YOUTH AND THE LAW. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: POSC 1100.

POSC 3301. CAMPAIGNS AND ELECTIONS. (4 Credits)
This course undertakes an in-depth study of campaigns and voting, with an emphasis on the presidential and congressional elections. We will examine elections from the perspectives of candidates, political parties, interest groups, the media, political consultants, and voters. In addition, we will address some basic questions about elections in America: What are the rules? Who wins and why? What difference do elections make? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3302. VOTING BEHAVIOR AND ELECTIONS. (4 Credits)
Why people vote the way they do; the role of issues in vote choice; the quality of the American electorate; party systems and electoral change. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3307. ENVIRONMENTAL POLITICS. (4 Credits)
The course introduces students to the history and evolution of environmentalism and environmental policy from a comparative perspective. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, ENVS, INST, IPE, URST.

POSC 3309. WOMEN IN AMERICAN POLITICS. (4 Credits)
This course examines the role of women in three major areas of American politics: women as citizens and voters; women as candidates of elective office; and women as political officeholders. The course analyzes each of these areas in the context of the unique experience woman have had both historically and currently. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, WGSS.

POSC 3310. RACIAL AND ETHNIC POLITICS. (4 Credits)
This course provides an introduction to the major theoretical frameworks in the racial and ethnic politics literature. The class will help students better understand how incorporation, identity, and participation shape political identity in the US. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, LALS.

POSC 3311. AMERICAN SOCIAL MOVEMENTS. (4 Credits)
A survey of American Social Movements. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3313. POLITICAL PSYCHOLOGY. (4 Credits)
This course draws from psychology and political science to explore the psychological sources of political behavior. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.
POSC 3315. POLITICAL PARTICIPATION. (4 Credits)
Studies the relation between participation, political effectiveness and American democracy. Analyzes who participates and how; who doesn't, and why. Examines political participation and questions of gender, race, education, class and ideology. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3316. MASS MEDIA AND AMERICAN POLITICS. (4 Credits)
This course looks at the role that the mass media play in American Politics specially and democracy in general. Particular topics will include the evolution of media-governmental relationships, the impact of technological and economic forces on the media's role in politics, and the growth of government concern with media relations. We will also consider the impact of the media on the attitudes and behaviors of citizens, the public agenda and the policy making process. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, COMC, COMM, JOUR.

POSC 3317. MEDIA AND PUBLIC OPINION. (4 Credits)
A critical examination of the nature, formation, and distribution of public opinion and partisan attitudes in the United States. Emphasis on the importance of the media in the formation of public opinion and the connection between public opinion and democracy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3319. FILM AND POLITICS. (4 Credits)
Views and analyzes films in class as a means of exploring the relationship between popular culture, political values/ideologies, and political socialization in American life. Also studies genre, filmmaking style and structure, and overt versus subtle messages to further examine film's point of view. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3321. AMERICAN PUBLIC POLICY. (4 Credits)
Analysis of the process of policy making at the national level, including the politics of selected policy issues. Students examine how some issues never make it to the public agenda and the forces that shape those that do. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3324. POLITICS OF IMMIGRATION. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, IRST, LALS, PLUR, URST, WGSS.

POSC 3326. LATINO POLITICS. (4 Credits)
The class will cover the history and contemporary role of Latinos in the U.S. political system. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3327. GENDER AND SEXUALITY IN US POLITICS. (4 Credits)
This course locates gender and sexuality central to the study of US politics, looking at how gender and sexuality shape opinion formation, candidacy, election outcomes, group identity formation, political interests, policy design, and political representation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, WGS.

POSC 3404. AMERICAN POLITICAL THOUGHT. (4 Credits)
What does it mean to be an American? What are the principles of American politics? This course poses these questions to key figures in American political thought, including Jefferson, Hamilton, Madison, Tocqueville, Dubois, Goldman, Rawls, Strauss, and Connolly. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3405. RADICAL AND CONSERVATIVE THOUGHT. (4 Credits)
Some modern thinkers have advocated far reaching changes in the political and economic systems, notably the followers of Karl Marx in their pursuit of socialism, or, more radically, communism. Other political thinkers are defenders of classical ideals of liberty or of tradition. We shall read and discuss some key primary writings by thinkers advocating radical political change and by thoughtful defenders of tradition. Writers on the Left include Marx, Lenin, Trotsky and Marcuse. Those on the Right include Ortega y Gasset, Carl Schmitt, Oakeshott and Hayek. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3411. CLASSICAL POLITICAL THOUGHT. (4 Credits)
The politics of the Ancient World will be studies through the writings of Sophocles, Euripides, Plato, Aristotle and others in order to understand ideas of family, property, freedom, torture, truth, and the struggles for individual and collective power. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, CLAS.

POSC 3412. MODERN POLITICAL THOUGHT. (4 Credits)
Through selected readings of major political theorists, this course will examine the ideas of the individual, the state, and society, from the 16th through the 19th century. The course will trace the development of such theories as democracy, socialism, communism, and totalitarianism. Writers whose works will be examined include Machiavelli, Hobbes, Locke, Rousseau, Wollstonecraft, Hegel, Marx, and Freud. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.
POSC 3413. CONTEMPORARY POLITICAL PHILOSOPHY. (4 Credits)
This course considers contemporary answers to the perennial questions of political philosophy, including what is human nature? and what political principles accord with human nature? We read leading figures in liberalism (Rawls), conservatism (Straus), civic republicanism (Arendt), communitarianism (Taylor), and postmodernism (Deleuze and Guattari, Connolly). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

POSC 3414. POLITICS, NATURE, AND HISTORY. (4 Credits)
Some thinkers have appealed to nature as a way of understanding the political community and its concerns. Others have claimed that history is far more important than human nature in understanding politics. We shall be looking at this debate as it unfolds in the writings fo political thinkers both in antiquity and in the modern era. We shall be discussing writings from such theorists as Aristotle, Augustine, Hobbes, Kant, Nietzsche, Freud, Skinner, and Heidegger. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3415. POLITICS, REASON, AND REVELATION. (4 Credits)
How do different prominent political thinkers, such as Augustine, Maimonides, Locke, Spinoza, and Mill view the compatibility of the demands of religion and the needs of political communities? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3416. LIBERALISM AND ITS CRITICS. (4 Credits)
Modern liberal political thought, its intellectual roots and varieties; consideration of the best of liberalism's critics; examples will be drawn from philosophical, popular and public policy sources. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3417. ISLAMIC POLITICAL THOUGHT. (4 Credits)
The relationship between religious authority and political legitimacy in the classical and modern Islamic worlds. Various ways Muslims over the past 1,400 years have thought about the proper distribution of power and authority in their societies. What is an "Islamic state," and has there ever actually been such a thing? How did classical Muslim thinkers deal with the disjunction between political reality and political ideals? How have Sunni and Shiite thinkers differed in their conceptions of proper government? How useful a concept is "Islamic fundamentalism," and how modern is it? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST, IPE, MEST, PJST, REST.

POSC 3419. POLITICS AND (SCIENCE) FICTION. (4 Credits)
We shall be reading and discussing works of fiction, especially science fiction and fantasy, which center upon political themes and ideas. Such works will deal with modern political movements such as libertarianism, communism and fascism. Authors include, among others C.S. Lewis, R. Heinlein, A. Rand, G. Orwell, and N. Spinrad. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 3420. WOMEN AND FILM. (4 Credits)
Students will examine the representation of women as subject of film and politics. Through texts placing women's history in context with emancipation in political life, students will view films which address these controversies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3421. POLITICAL THEORY IN POPULAR CULTURE. (4 Credits)
This course introduces students to political ideologies such as liberalism, conservatism, socialism, anarchism, nationalism, fascism, feminism, ecologism, and multiculturalism. The course then sees how these ideas express themselves in popular movies, comic books, television shows, and video games. In the Summer of 2015, we will focus on the Marvel Universe Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, COMC, COMM, REST.

POSC 3422. POLITICS OF THE PRESENT. (4 Credits)
A survey of recent and contemporary political thought, focusing on 19th- and 20th-century writers. Readings will include Lenin, Goldman, Bernstein, Nietzsche, Freud, Michels, Weber, de Beauvoir, Sartre, Camus, and Irigaray. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3423. POLITICAL IDEOLOGIES. (4 Credits)
Beginning with a theoretical inquiry into the nature of political movements, this course will examine a variety of political ideologies (including anarchism, socialism, communism, fascism, nationalism, conservatism, liberalism, feminism and minority liberation) which are associated with such movements. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, COLI, INST, IPE.

POSC 3424. DEMOCRATIC THEORY. (4 Credits)
This course studies theories of modern democracy, their historical antecedents, their foundational assumptions about power, human nature and identity, and areas of agreement and disagreement between them over key ideas such as rights, equality, citizenship, justice, and difference. It evaluates contemporary democratic practices in the "era of globalization" through the lens of each theory. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST.

POSC 3436. CAPITALISM AND ITS ALTERNATIVES. (3 Credits)
What is the philosophical foundation of capitalism? What are the viable alternatives to capitalism? This course considers answers to these questions from the fields of economics, political theory, and humanistic management. Authors covered include Adam Smith, Milton Friedman, and FA Hayek.
POSC 3500. ADVANCED INTERNATIONAL RELATIONS THEORY. (4 Credits)
Writing and speaking intensive examination of international relations and foreign policy theories. Subjects include international security, international organizations, foreign policy analysis, psychological theories, and diplomacy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Attribute: EP3.
Prerequisite: POSC 2501.

POSC 3502. UN AND POLITICAL LEADERSHIP. (4 Credits)
In this summer course, diverse aspects of diplomacy, decision-making and political leadership at the United Nations will be reviewed, theory, research practice and ethical issues considered. Includes exercises, fieldwork, and visits to the U.N or diplomatic community. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, IPE.

POSC 3505. INTERNATIONAL LAW. (4 Credits)
Historical evolution of general principles of international law. Modern transformation of the law of nations under the impact of growing complexity of international relations; relationship between the national and international legal systems. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, IPE.

POSC 3507. INTERNATIONAL HUMAN RIGHTS. (4 Credits)
An examination of the international system for the protection of human rights: legal and political theory, cultural relativism, diplomatic protection and the concept of human rights law; legal instruments and institutions; substantive law. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, COLI, IPE, URST.

POSC 3508. THE POLITICS OF HUMANITARIANISM IN AFRICA. (4 Credits)
This course explores contemporary international politics of humanitarianism in Africa, with a focus on sub-Saharan Africa. Issues to be analyzed include international, regional, and sub-regional responses to complex humanitarian emergencies and natural disasters in Africa; the politics of forced displacement, gender-based violence, famine, civilian protection of women and children in armed conflict, and emergency shelter and camp management; local perceptions of humanitarianism; the relationship between international peacekeeping and humanitarianism; and early engagement and recovery through international peacebuilding on the continent. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, HUST, INST, PJST.

POSC 3509. POL HUMANITARIAN INTERVENTION. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 3510. STATECRAFT AND NEGOTIATION. (4 Credits)
This course explores strategic interaction and interstate bargaining from both theoretical and practical perspectives. It is first and foremost a political science course. We will cover theoretical and policy studies on such topics as nuclear disarmament, trade, and human rights. But theory and policy are fundamentally driven by real world situations and dynamics, which we will elucidate through simulation. These simulations will provide you with an opportunity to test out theories and approaches, understand strategic interaction, and develop as successful negotiators. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: POSC 2501 or POSC 2610.

POSC 3511. WAR AND PEACE. (4 Credits)
This course introduces the student to the leading theories of the causes of war and peace. After an introduction to the major theoretical perspectives on conflict, strategy and interstate wars (wars between political rivals) will be the primary focus in the first half of the course. Later we will examine the role of ethnicity and nationalism in internal conflicts, as well as non-conventional forms of warfare. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, HUST, INST, PJST.

POSC 3516. CONFLICT ANALYSIS/RESOLUTION. (4 Credits)
This course focuses on post-Cold War international conflict analysis as an instrument of peacemaking. We will analyze inter-state, internal, state-formation, and protracted social conflict and focus on the development of conflict analysis and resolution as an interdisciplinary component of international studies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, EP3, HUST, PJST.

POSC 3520. MIDEAST AND THE WORLD. (4 Credits)
An introduction to the international politics of the Middle East and North Africa defined as the whole of the Arab world plus Israel, Turkey, Iran, and those states neighboring these countries that have influence on the region's external relations. Emphasis will be placed on the colonial and postcolonial periods with particular attention paid to the post-World War Two era. Competing theoretical approaches to the study of international politics will precede a more issue-based analysis of the key factors that animate the region's behavior in world affairs. Topics receiving in-depth treatment include: inter-state conflicts, oil politics, political system types and their relationship to international politics, the role of religion, terrorism, external actors influence on the region, United States foreign policy goals, instruments, and actions, among others. No prior background in Middle East studies is assumed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COLI, GLBL, INST, IPE, MEST, PJST.
POSC 3521. GLOBAL GOVERNANCE. (4 Credits)
This course introduces the student to the leading past and contemporary theories and perspectives in the study of global governance. It provides the student with the ability to survey and understand the wide variety of information regarding multiple aspects of global governance and prepares students to assess the possibilities for the global future and its impact on our lives. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST, IPE.

POSC 3522. UNITED NATIONS. (4 Credits)
Structure and powers of contemporary international organizations; the role of the U.N., and regional organizations as related to war, peace, change, and development. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST, IPE, PJST.

POSC 3526. DEM TERRORISM AND MODERN LIFE. (4 Credits)
This course examines the requisites of democracy and modernity as ways of thinking and ways of life and the threat posed to them by terrorism. It asks, what is terrorism, why does it exist, how fundamental are the conflicts it is embedded in, how extensive a threat is it to U.S. and others, and how can it be stopped? It analyzes the vulnerabilities (and considers the strengths) of modern, highly technological, media driven, highly integrated, international liberal social and economic regimes and the modern philosophical systems with regard to terrorism, and considers ways to mitigate points of danger. Finally, it considers the advantages of democracy and modernity in overcoming this threat. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST, PJST.

POSC 3527. UNITED NATIONS PEACE OPERATIONS. (4 Credits)
This course examines the challenges of contemporary peacekeeping, peace enforcement, and peacebuilding through the institution of UN peace operations. Students will explore the generational evolution of UN peace operations since 1945, and focus on key issues related to effective peacekeeping, peace enforcement, and peacebuilding, including sovereignty/non-interference; troop-contributing country interests and political will; civil-military interactions; civilian protection; mission mandates and rules of engagement; and regional as well as UN headquarters politics. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, HUST, PJST.

POSC 3528. CIVIL WARS AND THE DEVELOPING WORLD. (4 Credits)
Civil wars are those conflicts that are internal to a particular country and its sovereign borders. However, contemporary civil wars in the developing world have particular features that merit a deeper study: structural causes related to globalization, complex regional dynamics, and an emerging normative consensus internationally on both the right and responsibility to intervene to halt the violence. The course will examine the the causes, internal dynamics, nature of violence, organizational structure, role of outside interveners, role of gender, and consequences of civil wars in the developing world. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST.

POSC 3529. Politics of Building and Keeping Global Peace. (4 Credits)
Students in this course will develop and apply theoretical and empirical knowledge to analyze effectively the politics of building and keeping global peace through focused case analyses, as well as interaction and exchange with key actors from the UN’s Department of Peacekeeping Operations; the UN Peacebuilding Commission; the UN Office of the High Commissioner for Human Rights; the UN diplomatic community, and select NGO’s working in the areas of peacebuilding and humanitarian response. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 3530. U.S. FOREIGN POLICY. (4 Credits)
This course will consider the goals and instruments of United States foreign policy, both in the security and economic realms, as well as through an historical context. Students will examine how foreign policy is made, contending explanations, as well as the main actors involved. Current issues and controversies will be used to test different theoretical approaches. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, INST, IPE.

POSC 3531. US SECURITY POLICY. (4 Credits)
This course analyzes US security policy, specifically including the topics of American military operations and policy, the increase in unconventional warfare, and the threats unique to the 21st century world. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 3540. POLITICS OF CYBERSPACE. (4 Credits)
This course examines the impact of the Internet on the political system. Topics include the potential of the internet to deepen public debate, the use of the Internet by political parties and social movements, and the challenge of the Internet to prevailing conceptions of privacy and property. Extensive use of web sites. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

POSC 3605. COMPARATIVE DEMOCRACY. (4 Credits)
An examination of current explanations of stable democracy and an attempt to apply them to small, fragmented democracies of Western Europe. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, GLBL, IPE.

POSC 3610. POLITICAL ECONOMY OF DEVELOPMENT. (4 Credits)
This course provides an introduction to the politics and comparative study of international development, both human and economic. A central question will help organize the course: why have some countries developed successfully, while others have not? Whereas much of Western Europe, North America and East Asia have experienced economic development, much of Africa has not. Latin America, Eastern Europe and Eurasia are hybrids, with both pockets of success and failure. While defining what success or failure may mean in light of globalization, our collective focus will be on how best to understand such differences Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, GLBL, IPE, LALS, PJST, URST.
POSC 3611. THIRD WORLD POLITICS. (4 Credits)
The study of contemporary politics of the Third World. An examination of state formation, participation, dissent, resistance movements, nationalism, migration development policies, and issues of class, ethnicity, and gender. Case studies will be chosen from Africa, Latin America, and Asia. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, GLBL, INST, IPE, LALS, MEST.

POSC 3613. POLITICAL MOVEMENTS. (4 Credits)
Explores modern political resistance to established forms of power. Analyzes goals, programs, and ideologies of political movements. Whether they seek revolution or reform, political movements make urgent moral and political claims on society and can even transform social and political systems. This course evaluates such impact on society and the state. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST.

POSC 3614. POLITICAL INSTITUTIONS. (4 Credits)
Suppose for a moment that you are a political advisor to the United States government or a major Intergovernmental Organization (IGO) and your task is to come up with an ideal combination of political institutions for a new democracy. You are asked to choose among different types and combinations of institutional rules and practices - such as the organization and operation of the executive, the structure of the legislature, the type of electoral system, and the relationship between the central and local governments. Which political institutions would you recommend? Why? We will ask whether an optimal combination of political institutions exists by examining the effect of these institutions on a broad range of outcomes such as political inclusiveness, citizen participation, economic growth and income distribution, political conflict among the branches of government, proximity between government policy and voter preferences, public goods provision, political corruption, and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST.

POSC 3616. POLITICAL ECONOMY OF POVERTY. (4 Credits)
This course examines the causes of widespread poverty in the developing world from a political economy perspective. The aim is to understand the relationship between political, economic, and social phenomena in causing, perpetuating, and alleviating poverty across the globe. Course readings include classic texts in the field, policy strategies and debates, and case studies on Latin America, Middle East, South and East Asia, and sub-Saharan Africa. Critical analysis of the issues and approaches is strongly encouraged. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, GLBL, INST, IPE, LALS, PJST.

POSC 3621. EUROPEAN POLITICS. (4 Credits)
Introduction to the politics of contemporary Europe including analyses of political economy, democratic governance, and political integration. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, IPE.

POSC 3622. POLITICS OF THE EUROPEAN UNION. (4 Credits)
Analysis of the development of the European Union with special emphasis on its enlargement and the reform of the European Union institutions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST, IPE.

POSC 3623. ISLAM IN EUROPE. (4 Credits)
This course aims at acquainting students with the history and present situation of Muslim communities across Europe. The political significance of identity and image among Muslims in Europe will be addressed in depth. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, COLI, INST, IPE, MEST.

POSC 3624. THE QU'RAN AND HADITH IN THE GLOBAL POLITICAL PERSPECTIVE. (4 Credits)
This course analyzes: the Qur’an as a Muslim common constitution and a sacred and historical book; Hadith (Sunnah) as a second source of Muslim faith and of Qur’an interpretation; the relationship between Christians, Jews and Muslims through Qur’an and Hadith; the misunderstanding of Qur’an and Sunnah in the terror era. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, MEST, REST.

POSC 3631. CHINA AND RUSSIA IN COMPARATIVE PERSPECTIVE. (4 Credits)
The course will identify and describe recent political and socioeconomic changes in China and Russia while evaluating the relationship between capitalism and autocracy in comparative perspective. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, GLBL, INST.

POSC 3632. CHINA AND U.S. IN GLOBAL ERA. (4 Credits)
This course compares China and the U.S. with respect to political system, philosophy, and political economy. It includes lectures, discussion, joint Chinese-American student study projects, and field trips to important historic and contemporary Chinese political and cultural sites in southern China, and in Hong Kong and Macau. The class concludes with a discussion of the future of Chinese-American political and economic relations in the contemporary era of globalization. Fee Required. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, GLBL, INST, IPE.

POSC 3633. CHINA AND US-GLOBAL ERA/STUDY TO. (4 Credits)
This course compares China and the U.S. with respect to political system, culture, philosophy, and political economy. It includes a two-week study-abroad study tour and lectures, discussions, joint Chinese-American student study projects, and field trips to historic Chinese political and cultural sites in Beijing, Guangzhou, and Hong Kong. It also includes independent research and analysis in conjunction with the professor. Its goal is to enable students to better comprehend the future of evolving Chinese-American political and economic relations in the contemporary era of globalization. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: GLBL, INST.
POSC 3634. THE GREAT LAW OF CHINA. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 3635. CHINA, JAPAN, KOREA, AND THE U.S. IN THE GLOBAL ERA. (4 Credits)
This course is a study tour and independent study to familiarize students with the political systems and cultures of China, Japan, and Korea and the relations between these countries and with the United States.
Attribute: ASSC.

POSC 3641. LATIN AMERICAN POLITICS. (4 Credits)
An examination of Latin American politics from theoretical and case study perspectives. Topics include parties and interest groups, militarization of the state, environmental politics, revolution, development and human rights. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, GLBL, INST, IPE, LALS.

POSC 3642. CARIBBEAN POLITICS. (4 Credits)
The course is designed to introduce students to the politics of the Caribbean. Students will thus examine the politics of ethnicity, class, economic development, revolution and reform, women, and foreign intervention. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, IPE, LALS.

POSC 3645. POLITICS OF IMMIGRATION. (4 Credits)
The course examines the politics of contemporary immigration. Topics include the construction of citizen and alien, the (re)negotiation of immigrant sexuality and sexual identity, the racialization of naturalization, the family and immigration law, the formation of social movements around immigrant rights, and a comparative analysis of immigration policies in the U.S. and those in Europe. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, INST, IRST, LALS, PJST, PLUR, URST, WGSS.

POSC 3651. COMPARATIVE POLITICS OF THE MIDDLE EAST. (4 Credits)
An introduction to the comparative politics of the Middle East and North Africa (MENA) viewed from the competing theoretical perspectives of political economy and political culture. Focus will be placed on identifying key conceptual and empirical variables that help explain the nature and behavior of MENA states in the modern period. Among the relevant issues to be discussed include political elites, ideologies, institutions, parties, civil society, democracy, authoritarianism, conflict, political economy, religion, women, and ethnic groups, among others. No prior background in Middle East studies is assumed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, GLBL, INST, IPE, MEST, OCST.

POSC 3800. INTERNSHIP. (3 Credits)
Supervised placement for students interested in work experience.
Attribute: ASSC.

POSC 3915. INTERNATIONAL POLITICAL ECONOMY. (4 Credits)
Examines some of the implications of the growing intertwining of foreign and domestic policies, of the economic and political aspects of international relations. Gives special attention to the growth of dependency and interdependence, the importance of transnational actors (such as multinational corporations), and the distribution of benefits and influence between poor and rich areas in the international order. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, INST, IPE, LALS, PJST, URST.

POSC 3999. TUTORIAL. (3 Credits)
Independent research and reading with supervision from a faculty member.

POSC 4013. RELIGION AND AMERICAN POLITICS. (4 Credits)
This interdisciplinary seminar explores the nexus of religion and American public life. After treating topics related to electoral politics (e.g., candidate religion, voter religion, “value voters,” religious rhetoric), students will then engage a series of “hot topics” that encompass (and often combine) both religious and political discourse. The goal is to provide students with two alternative, yet complementary methods of analyzing the intersection of religion and American politics - one from a political science perspective and one from a theological perspective. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMCS, AMST, ICC.

POSC 4015. AMERICAN ECONOMIC POLICYMAKING. (4 Credits)
This course surveys the major economic policies made by the U.S. government, political influences on economic policy making and the consequences of economic policy on politics. Some of the policies we will look at will include macroeconomic policy, fiscal and monetary policy, taxes, regulation and trade. Influences on economic policy making include the president, congress, interest groups and the public. We will also discuss the trade off between economic efficiency and equity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ICC.

POSC 4020. PLACE, SPACE, AND IMMIGRANT CITIES. (4 Credits)
This course will introduce students to the main issues and current debates on immigrant minorities in large urban areas. Due to their density, cities represent microcosms of interaction and identity formation among and between different minority and majority groups. This often manifests itself spatially, as certain neighborhoods become areas of residence and territorial concentration for immigrant minorities. In the process of settling, immigrants also start identifying strongly with their spaces of settlement. This course will trace the historical patterns of this process, as well as explore its contemporary manifestations, as cities are being rediscovered and “gentrified,” rendering their neighborhoods into fierce battlegrounds of spatial contestation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ICC, INST, URST.
POSC 4025. YOUTH AND POLITICS. (4 Credits)
An examination of the sources, functions and impacts of political beliefs and attitudes, with special emphasis on the political culture of the United States. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ICC, INST, PJST.

POSC 4036. HUMAN NATURE AFTER DARWIN. (4 Credits)
This course enters contemporary theological, political and scientific debates about how to conceptualize human nature after Darwin. We read Epicures, Lucretius, Augustine, Aquinas, Darwin and contemporary theologians, political theorists and scientists. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ICC.

POSC 4037. SOCIAL MOVEMENTS AND REVOLUTIONS. (4 Credits)
Over the course of world history, various social movements were formed to challenge dominant power relations and bring about social change. Drawing upon literature in history, political science, and sociology, this course examines a wide range of challenger organizations and revolutions. In particular, this course discusses the development of several twenty-first century social movements and revolutions in the United States and abroad, including Black Lives Matter, the Occupy Wall Street, Otpor (Serbia), the Arab Spring (Middle East), Umbrella Revolution (Hong Kong), and EuroMaidan (Ukraine).
Attribute: ICC.

POSC 4210. SEMINAR: STATE, FAMILY, AND SOCIETY. (4 Credits)
This seminar will examine the relationship between political systems and the family by exploring the connection between varying philosophical/ideological perspectives on state intervention in the family. Public policy issues to be discussed will include marriage and divorce, adoption and foster care, child care, family and child autonomy and child and domestic abuse. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, EP4, PJST, SRVL, VAL, WGSS.

POSC 4215. SEMINAR: PRESIDENTIAL ELECTIONS. (4 Credits)
The course will analyze the dynamics of presidential elections, including pre-nomination stage, nominations, campaigns, and voting behavior. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AMST.

POSC 4220. SEMINAR: RELIGION AND THE LAW. (4 Credits)
What does it mean to live a religious life in a country that takes seriously the separation of church and state? What is the proper role of religion in public discourse? This course examines the status of religious expression in the law, examining such issues as school prayer, vouchers for religious education, and the teaching of intelligent design, as well as the role that religion has played in the decision making of the nation’s leaders. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, SRVL, VAL.

POSC 4260. THE POLITICAL HISTORY OF SEX AND SEXUALITY IN THE UNITED STATES. (4 Credits)
This seminar examines the history of activism and political organizing by lesbian, gay, bisexual, and transgender people in the United States between 1950 and 2012. Using an interdisciplinary approach - across gender and sexuality studies, queer theory, critical race theory, political science, and history - we will explore: 1) the ways that lesbian, gay, bisexual, and transgender identities have been constructed in the context of US politics and 2) how lesbian, gay, bisexual, transgendered, and “LGBT” political interests achieve their meaning and are co-constituted by their intersections with other axes of identity, such as race, ethnicity, class, nation, and ability. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, WGSS.
Prerequisite: POSC 1100.

POSC 4305. SEMINAR: AMERICAN POLITICS. (4 Credits)
This course studies contemporary American political development through analysis of the historical and philosophical roots, current ideologies and practices, and likely future of U.S. politics. Using democratic theory, and political, and policy analysis it examines selected aspects of contemporary political behavior, agendas, ideologies, and institutions to explain current trends in American politics. It studies, in particular, the relation between power, social structure, and politics in order to assess the viability and character of political democracy today. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 4315. SEMINAR: POLARIZATION IN AMERICAN POLITICS. (4 Credits)
This course will examine the causes and consequences of partisan polarization in American politics. Topics to be covered include polarization in Congress, are ordinary citizens polarized, the role of religion, class and race in fueling partisan polarization on the policy making process. Since this is a seminar students are expected to be able to work and the impact independently by carrying out an extensive research project addressing some aspect polarization. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 4400. SEMINAR: GLOBAL JUSTICE. (4 Credits)
What is global justice and how can we achieve it? This course considers the answers of Immanuel Kant, John Rawls, Martha Nussbaum, Samuel Huntington, Leo Strauss, Tariq Ramadan, and Pema Chodron. Then we apply their ideas to topics such as American foreign policy, The United Nations, human rights, the wars in Afghanistan, Darfur, etc. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 4420. SEMINAR: NATIONALISM AND DEMOCRACY. (4 Credits)
An examination of nationalism with particular attention to its effects on democratic principles and practices and its intersection with identity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
POSC 4430. SEMINAR: FREUD, POLITICS, SEXUALITY. (4 Credits)
The course will explore Freud’s writings on infantile sexuality and sexual difference in their relation to his writings on culture, civilization, and politics. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 4515. SEMINAR: INTERNATIONAL POLITICS OF PEACE. (4 Credits)
Students in this course will integrate informed analysis and reflection to critique, orally debate, and articulate in writing their ideas regarding how actors in international politics can nurture, envision, (re)build, manage, enhance, and enforce ¿peace¿ in contemporary international politics. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, IPE, PJST, VAL.

POSC 4518. INTERNATIONAL DEVELOPMENT COOPERATION: IDEAS, DEBATES, ACTORS. (4 Credits)
This course will examine the politics, theory and practice of international development cooperation, with particular focus on the 20th and 21st centuries. Issues under focus will include decolonization, modernization, development/underdevelopment, newly industrialized countries, sustainable development, financing for development, aid for trade, aid effectiveness, policy coherence for development, and cooperation for development along the North-South divide, international humanitarian cooperation and link between humanitarian and development work. Bilateral and multilateral mechanisms of development cooperation will also be explored, alongside major actors – international organizations, regional organizations, nation-states, and non-state actors. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, PJST.

POSC 4525. SEMINAR: GLOBALIZATION. (4 Credits)
This seminar provides an overview over the core theoretical views on globalization: its historical development, the main actors, and determinants of "winners and losers" of globalization. The second part of the seminar will use case studies that highlight specific issues most contested in the discussion of globalization to foster a connection between the theories we covered and the actual unfolding of globalization as experienced by a number of actors. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: IPE.

POSC 4526. SEMINAR: THE POLITICS OF HUMANITARIAN INTERVENTION. (4 Credits)
Political decisions about when, how, and whether to intervene in other countries’ affairs have been framed in humanitarian terms. The course provides students with an overview of the politics of humanitarian intervention and asks them to consider a variety of perspectives on the feasibility, effectiveness, ethics, and altruism of protecting civilians with force. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: PJST.

POSC 4530. SEMINAR: POLITICAL ECONOMY OF CONFLICT. (4 Credits)
Why do civil wars occur? Why are some conflicts so violent while others are not? Why are poor countries so conflict prone? Why are abundant natural resources so often associated with civil war? Why are some conflicts easier to resolve than others? This course will address these questions from the perspective of political economy, focusing on incentive structures, political institutions, and economical development. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: INST.

POSC 4535. SEMINAR: POST-COLD WAR HUMAN RIGHTS AND PROTECTION ARCHITECTURE. (4 Credits)
This seminar will explore the politics surrounding the unprecedented growth, development and advancement of the global human rights regime and protection of civilians architecture following the demise of the Cold War. The context of the emerging global governance order at the end of the 20th century will form the backdrop for the study of this transformation, and students will analyze the normative, political and peace and conflict dynamics that precipitated and informed its growth and development as well as develop a mastery of the theory and practice of international human rights and civilian protection. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

POSC 4620. SEMINAR: THE WORLD OF DEMOCRACY. (4 Credits)
This course studies democracies across of the globe. It analyzes the meaning of democracy in different cultures and theories, and compares political systems, including democratic nations that aspire to democracy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, PJST, VAL.

POSC 4800. INTERNSHIP. (1-4 Credits)
Analysis and discussion of selected topics and problems in political economy. Provides students the opportunity to work on guided research projects tailored to the student’s interests and the course’s objectives.

EP4, IPE, PJST, VAL.

Updated: 10-11-2017
POSC 4900. SEMINAR: DEMOCRACY, DEVELOPMENT, AND THE GLOBAL ECONOMY. (4 Credits)
This course seeks to understand, analyze, and critique both liberalism and its alternatives. Specifically, we will explore how democracies and nondemocracies integrate into the global economy and how, in turn, the global economy impacts state politics, poverty, and prosperity. The goal of the course is to critically and scientifically assess the significance and success of diverse domestic political institutions and policies in advancing human welfare in our current era of economic interdependence. The course is structured to first cover the fundamental structures and values of democratic and undemocratic political institutions, liberal and state capitalist market models, and various economic development theories. Then, in the second part of the course, we will critically evaluate and discuss the complex relationships between these phenomena (democracy, development, and the global economy), focusing on the capacity, sustainability, and success of liberal goals and organizational structures in advancing the human condition. This is an advanced writing, research, and discussion based course for students interested in international political economy, international development, and/or comparative politics. We will dedicate substantial class time to research design and methodology, including case study analysis. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, IPE, PJST, VAL.

POSC 4999. TUTORIAL. (8 Credits)
Student and faculty member together design a course to meet the student’s needs and interests, and to advance the student’s knowledge and scholarship. The faculty member works directly with the student and guides the student’s reading and research and/or analysis project. A tutorial is dependent on the faculty member’s agreement to participate. It usually is a one-on-one collaboration, but also may be designed to accommodate several students at the same time.

POSC 5100. AMER POLITICAL BEHAVIOR. (3-4 Credits)
POSC 5130. POL INSTITUTIONS & PROCES. (3-4 Credits)
Legislative, executive, and judicial powers. The formation and implementation of public policy. Institutional norms and behavior in American national government.

POSC 5238. STRAT OF POL COMMUNICATION. (3-4 Credits)
POSC 5240. POL CAMP MANAGMNT. (3-4 Credits)
POSC 5243. CAMP FIN & ETHICS. (3,4 Credits)
POSC 5244. ECM INTERNSHIP. (3,4 Credits)
POSC 5245. EARNED MEDIA STRATEGIES. (3 Credits)
This course will explore how campaigns develop strategies to attract media attention, publicity and news coverage. Topics include: speech-writing, press releases, press conferences, social media communications.

POSC 5246. TECHNOLOGY AND CAMPAIGNS. (3 Credits)
This course will explore the use of modern technology in campaigns. Students will learn how to capitalize on developments in technology and new media for electioneering purposes to target, mobilize and persuade voters. Students will also learn how to use campaign management software, database management and GIS mapping technologies, to execute effective campaigns.

POSC 5247. DATA ANALYTICS FOR POLITICAL CAMPAIGNS. (1 Credit)
This course will explore how campaigns can use data analytics to target and deliver voter appeals and mobilization efforts. Topics include: micro-targeting, data analysis, polling research and quantitative analysis.

POSC 5250. INTRO QUANT ANALYSIS. (3,4 Credits)
An introduction to the major theoretical frameworks of quantitative research. This course will give students first-hand experience at the fundamentals of research design and quantitative methodologies used in American political science.

POSC 5251. POLITICAL SURVEY RESEARCH. (3 Credits)
This class is designed to take students through the entire process of conducting both telephone and Internet public opinion surveys, with a specific look at political polling method. It applies academic and practical research to teach question writing and selection, survey construction, managing and fielding questionnaires, and analyzing and writing about data. Its goal is to provide students with a working knowledge of how to conduct and analyze their own surveys as well as how to evaluate others’ surveys.

POSC 5299. SPECIAL TOPICS: CAMPAIGNS. (3 Credits)
POSC 5301. MODERN POLITICAL THOUGHT. (3-4 Credits)
This course considers the relationship between religion and politics by reading Euro-American political thinkers such as Spinoza, Leibniz, Kant, Hume, and Locke. We also consider how post-Enlightenment philosophers—such as Michel Foucault, Jürgen Habermas, Tariq Ramadan, and Abdullahi Ahmed An-Na’im—address the Islamic revival.

POSC 5500. COMPARATIVE POL ANALYSIS. (3-4 Credits)
Problems of stability and change in the First, Second, and Third Worlds are examined with relation to socioeconomic factors that affect, and are affected by, institutions, processes, and policies.
Attribute: INST.

POSC 5560. CONFLICT RESOLUTION. (3,4 Credits)
This course will focus on the nature of international and regional conflict during the post-Cold War period in terms of both current theory and the reality of recent conflict situations. Topics will include: analysis of the causes of contemporary conflicts; assessment of current international, regional and national approaches to conflict resolution; psychological implications of civil and ethnic conflicts; challenges of multiparty international mediation; and consideration of the role played by international, regional and community level institutions in addressing conflict situations. Particular emphasis will be placed on what theories and ideas actually work when put in to practice.
Attribute: INST.

POSC 5600. ANALYSIS OF INT'L POL. (3-4 Credits)
Designed to stimulate and clarify our theorizing about foreign policy and global politics; also it presents a critical overview of many of the key perspectives and problems that characterize such analysis.
Attribute: INST.

POSC 6520. International Business and Governments. (3 Credits)
Overview of the major principles, theories and issues regarding the role of contemporary international business within an interdependent world political economy. Course topics include corporate strategy, identity, governmental policies, diplomacy, foreign policy, ethics, mediation, entrepreneurship, and trade. Specific case-study materials will be used to supplement academic literature.
POSC 6530. POLITICAL ECONOMY OF DEVELOPMENT. (3,4 Credits)
This course provides an introduction to the politics and comparative study of international development, both human and economic. A central question will help organize the course: why have some countries developed successfully, while others have not? Whereas much of Western Europe, North America and East Asia have experienced economic development, much of Africa has not. Latin America, Eastern Europe and Eurasia are hybrids, with both pockets of success and failure. While defining what success or failure may mean in light of globalization, our collective focus will be on how best to understand such differences.

Attributes: URST.

POSC 6552. POLIT ECON OF MIDEAST. (3 Credits)
Comparative analysis of Middle Eastern actors, institutions, and processes since World War II, paying special attention to the role of international forces in shaping national development and to the role of the Middle East as a major international actor and arena.

Attributes: IPED, MEST.

POSC 6640. POL OF GLOBAL ECON REL. (3-4 Credits)
Implications of growing intertwining of foreign and domestic policies, economic and political aspects of international relations. Special attention to the growth of dependency and interdependence, importance of transnational actors (such as multinational corporations), and distribution of benefits and influence between poor and rich areas in the international order.

Attributes: ABGS, INST, IPED.

POSC 6991. POLITICAL RISK ANALYSIS. (3 Credits)
This course is primarily a research/writing course that culminates in an original paper where you will be required to analyze the political risks associated with a country of your choosing. While there will be only a minimal number of lectures, the instructor will serve as your individual mentor as you develop and present your paper. As part of the process of writing this paper, you will study methods used to assess and manage the political risks associated with foreign investment and international business; learn how to assess the domestic political climate of a country by examining factors such as the level of political violence, the stability of the government, and the existence of political democracy, and make an overall assessment of a country’s economic climate by evaluating key macroeconomic indicators. You will also learn the importance of studying foreign relations of a country in order to evaluate the likelihood of any conflict it might have with its neighbors.

POSC 8900. MA THESIS RESEARCH I. (3 Credits)

POSC 8901. MA THESIS RESEARCH II. (3 Credits)

POSC 8998. GBVT AND PGL OF NORTH AFRICA. (3 Credits)
This course is an independent study for IUDC Consortium students from member schools. The course addresses the political systems of the North African Region.

POSC 8999. INDEPENDENT STUDY. (1-4 Credits)

POSC 9999. DISSERTATION DIRECTION. (1 Credit)

Portuguese (PORT)

PORT 1001. INTRODUCTION TO PORTUGUESE I. (5 Credits)
An introductory course that focuses on the four skills: speaking, reading, writing and listening. Providing students with a basic knowledge of Portuguese linguistic structures, vocabulary and culture, which studied interdependently, compose the Portuguese language.

PORT 1002. INTRODUCTION TO PORTUGUESE II. (3 Credits)
This course will enhance the reading, writing, speaking, and listening skills acquired by students in Introduction to Portuguese I or from prior study. It will further promote a deeper understanding of Portuguese and its literary and cultural traditions.

PORT 1003. PORTUGUESE FOR SPAN SPEAKERS. (3 Credits)
Designed for students with knowledge of Spanish, this INTENSIVE course focuses on speaking, reading and writing Portuguese. It provides students with knowledge of the difference between Spanish and Portuguese phonetic and linguistic structures and brings students to an intermediate-level of proficiency in Portuguese. Brazilian and Portuguese world culture is also a key component of this course. Corequisite: 2 hours of lab work and two tutorial hours per week.

PORT 1501. INTERMEDIATE PORTUGUESE I. (3 Credits)

PORT 1502. INTERMEDIATE PORTUGUESE II. (3 Credits)

PORT 2001. PORTUGUESE LANGUAGE AND LITERATURE. (3 Credits)
A critical analysis of selected cultural and literary texts; composition, conversation and review of pertinent grammatical structures.

**Prerequisite(s): PORT 1502 or placement. Corequisite(s): lab work upon instructor’s recommendation.

Prerequisite: PORT 1502.

PORT 4999. TUTORIAL. (1-4 Credits)

PreMasters Colloquium in Business (PMGB)

PMGB 8999. TUTORIAL. (3 Credits)

Professional English (PCS) (PREN)

PREN 0100. PROFESSIONAL ENGLISH I. (0 Credits)

PREN 0200. PROFESSIONAL ENGLISH II. (0 Credits)

Professional Studies New Media (PSNM)

PSNM 2000. PROFESSIONAL COMMUNICATIONS IN NEW MEDIA. (3 Credits)
A comprehensive overview of the history and forms of the new media and the possibilities they offer for participation and interaction. Explorations of the cognitive and cultural implications and issues surrounding computers and computer-mediated communication, digital technologies, gaming, the internet, the web, social media, and online communication.

PSNM 2001. BUSINESS AND PRACTICE OF NEW MEDIA. (3 Credits)
An introduction to new media industries covering matters of economics, technology and regulation; convergence in media and entertainment industries as well as social and cultural consequences.
PSNM 2350. PROGRAMMING FOR THE WEB. (4 Credits)
Using a process of incremental development, students will learn the latest technologies used in developing dynamic, database-driven websites. Principle of good web design will be covered, as well as techniques and languages for layout and scripting. The course is open to all students. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PSNM 3307. SOCIAL MEDIA MARKETING AND PUBLIC RELATIONS. (4 Credits)
An exploration of computer-mediated communication, electronic networking, online internet communication and emerging interactive social contexts. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PSNM 4000. NEW MEDIA INTERNSHIP. (1 Credit)
Weekly intern duty and regular meetings with a faculty adviser, during which time students extend classroom experience into the real world. Written projects and readings relating to the internship are assigned. Can be repeated for credit.

PSNM 4001. SPECIAL PROJECT IN DIGITAL DESIGN. (1-4 Credits)
Independent project supervised on a tutorial basis. Can be repeated for credit.

PSNM 4002. INDEPENDENT RESEARCH IN NEW MEDIA. (1-4 Credits)
Independent study supervised on a tutorial basis. Can be repeated for credit.

PSNM 4010. SPECIAL TOPICS IN NEW MEDIA. (4 Credits)
An examination of current issues, practices, or trends in new media. Specific topics to be covered vary by semester. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Project USA L’Italia (UICE)

UICE 9000. GBA:MRKT ITALIAN HIGH-QUAL GDS. (0 Credits)

Property Law (PRGL)

PRGL 0107. PROPERTY. (4-5 Credits)
An introduction to the law of personal and real property. Topics may include possession, finding, gifts, bailments, estates in land, future interests, adverse possession, concurrent ownership, easements, covenants running with the land, servitudes, zoning, takings, nuisance, land conveyancing, title assurance, and the economic and philosophic bases of property rights. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: JD, LMCO.

PRGL 0223. LAND USE AND REAL ESTATE DEVELOPMENT SKILLS. (2 Credits)
This course will provide students with practical skill development in real property and land use issues. A review of effective skills needed in the representation of clients before land use administrative agencies as well as employment of best practices in drafting real property documents will be studied. Consideration of special issues to be addressed in appearing before Planning, Zoning and other real property administrative bodies will be undertaken. This class will explore drafting requirements concerning real property matters as well as client concerns from an applicant, municipal entity and citizen group viewpoint when advocating for or against real estate projects. Real property issues involving civil rights and RLUIPA cases will also be reviewed from a practical perspective representing clients. Litigation skills involving real property and land use cases will be studied and also developed from both the drafting of pleadings perspective as well as use of “courtroom” skills for utilization in practice before administrative agencies.

Attribute: LAW.

PRGL 0232. TRANSACTIONAL RESEARCH AND SKILLS: A HOUSING COURT PRACTICUM. (1 Credit)

PRGL 0299. AFFORDABLE HOUSING. (2 Credits)
This seminar explores the law and policy of affordable housing. We will begin with an overview of housing market dynamics—both for those who rent and those who own their homes—and ways in which housing markets fail. We will then turn to the primary policy tools that have developed in response, examining in detail several cutting-edge topics including the subprime mortgage crisis, on-going challenges for ensuring fair housing and equal opportunity, and sustainability and “green” affordable housing.

Attributes: INLJ, LLM, PIE.

PRGL 0315. COOPS & CONDOMINIUMS. (2 Credits)
Basics of the condominium and cooperative forms of ownership of real property. Includes discussion of legal nature and structure of condominiums and cooperatives; comparison of the two; review of the critical underlying documentation of each (declaration of condominium and by-laws and cooperative proprietary lease and by-laws); special tax aspects of each; regulatory concerns, including offering plans; tax aspects of each; review of documentation and procedures in typical transactions; loans; title insurance; operating issues of the associations; special topics of conversions, commercial properties, etc.

Attributes: JD, LLM.

PRGL 0363. LAW USE LAW. (2,3 Credits)
The course will provide an overview of land use law and planning, including the application of zoning and land use controls that have shaped American cities and towns, environmental impact review under both the National Environmental Policy Act and New York State Environmental Quality Review Act, and the use of eminent domain by federal and New York State agencies. Topics will also include the preservation of historic resources and landmark buildings, urban renewal, the protection of parkland under the public trust doctrine, and measures to address climate change through local planning. In addition to reviewing statutes and case law, the course will provide a how-to-do approach to land use planning, utilizing examples of large development projects currently occurring in New York City.

Attributes: INLJ, PIE.
Psyc and Educational Services (PSGE)

PSGE 0705. MASTER’S COMPREHENSIVE EXAM/ASSESSMENT IN COUNSELING. (0 Credits)
Comprehensive exam or assessment for master’s program in counseling and personnel services.

PSGE 0710. MASTER’S COMPREHENSIVE EXAM/ASSESSMENT IN EDUCATIONAL PSYCHOLOGY. (0 Credits)
Master’s Comprehensive Exam/ Assessment in Educational Psychology (0 credit) (MASTERS COMPS)

PSGE 0715. MSE COMPS ED PSY:THEORY. (0 Credits)

PSGE 0720. MASTER’S COMPREHENSIVE EXAM/ASSESSMENT IN THERAPEUTIC INTERVENTIONS. (0 Credits)
Master’s Comprehensive Exam/ Assessment in Therapeutic Interventions (0 credit) (MASTERS COMPS)

PSGE 0725. MASTER’S COMPREHENSIVE EXAM/ASSESSMENT IN PRESCHOOL PSYCHOLOGY. (0 Credits)
Master’s Comprehensive Exam/Assessment in Preschool Psychology (0 credit) (MASTERS COMPS)

PSGE 0730. MASTER’S COMPREHENSIVE EXAM/ASSESSMENT IN PSYCHOLOGY OF BILINGUAL STUDENTS. (0 Credits)
Master’s Comprehensive Exam/Assessment in Psychology of Bilingual Students (0 credit) (MASTERS COMPS)

PSGE 0735. MASTER’S COMPREHENSIVE EXAM/ASSESSMENT IN EDUCATIONAL EVALUATION AND INTERVENTION. (0 Credits)
Master’s Comprehensive Exam/ Assessment in Educational Evaluation and Intervention (0 credit) (MASTERS COMPS)

PSGE 0810. PD/PROFESSIONAL PRACTICE IN SCHOOL PSYCHOLOGY COMPREHENSIVE ASSESSMENT. (0 Credits)
PD/Advanced Certificate Comprehensive Exam/Assessment in School Psychology (0 credit) (PD/ADV CERT COMPS)

PSGE 0815. PD/PROFESSIONAL PRACTICE IN BILINGUAL SCHOOL PSYCHOLOGY COMPREHENSIVE ASSESSMENT. (0 Credits)
PD/Advanced Certificate Comprehensive Exam/Assessment in Bilingual School Psychology (0 credit) (PD/ADV CERT COMPS)

PSGE 0900. PERMANENT MATRICULATION STATUS. (0 Credits)
During the semester the student demonstrates satisfactory progress completing 12 to 15 credits, which leads to permanent matriculation status.

PSGE 0905. DOCTORAL COMPREHENSIVE IN COUNSELING PSYCHOLOGY EXAM/ASSESSMENT. (0 Credits)
Part one of the doctoral comprehensive exam or assessment for PhD program in counseling psychology.

PSGE 0910. DOCTORAL COMPREHENSIVE EXAM/ASSESSMENT IN COUNSELING PSYCHOLOGY. (0 Credits)
Part two of the doctoral comprehensive exam or assessment for PhD program in counseling psychology.

PSGE 0915. DOCTORAL COMPREHENSIVE EXAM/ASSESSMENT IN EDUCATIONAL PSYCHOLOGY PART I. (0 Credits)
Doctoral Comprehensive Exam/ Assessment in Educational Psychology Part I (0 credit) (DOCTORAL COMPS I)

PSGE 0920. DOCTORAL COMPREHENSIVE EXAM/ASSESSMENT IN EDUCATIONAL PSYCHOLOGY PART II. (0 Credits)
Doctoral Comprehensive Exam/ Assessment in Educational Psychology Part II (0 credit) (DOCTORAL COMPS II)

PSGE 0925. DOCTORAL COMPREHENSIVE EXAM/ASSESSMENT IN EDUCATIONAL PSYCHOLOGY PART III. (0 Credits)
Doctoral Comprehensive Exam/ Assessment in Educational Psychology Part III (0 credit) (DOCTORAL COMPS III)

PSGE 0930. DOCTORAL COMPREHENSIVE EXAM/ASSESSMENT IN SCHOOL PSYCHOLOGY PART I. (0 Credits)
Doctoral Comprehensive Exam/ Assessment in School Psychology Part I (0 credit) (DOCTORAL COMPS I)

PSGE 0935. DOCTORAL COMPREHENSIVE EXAM/ASSESSMENT IN SCHOOL PSYCHOLOGY PART II. (0 Credits)
Doctoral Comprehensive Exam/ Assessment in School Psychology Part II (0 credit) (DOCTORAL COMPS II)

PSGE 0999. PROPOSAL ACCEPTANCE. (0 Credits)
During the semester the dissertation proposal is completed.

PSGE 5203. INTRODUCTION TO RESEARCH. (3 Credits)
Presentation of the basic concepts, tools, and methods of research in education and psychology.

PSGE 5204. RESEARCH METHODS IN COUNSELING. (3 Credits)
Basic concepts, tools, and methods of research in counseling.

PSGE 5210. STATISTICAL METHODS IN EDUCATION AND PSYCHOLOGY. (3 Credits)
PSGE 5301. PSYCHOLOGICAL FACTORS IN YOUNG CHILDREN WITH DISABILITIES. (3 Credits)
This course provides an overview of the characteristics of disabling conditions in young children. It introduces the psychological, environmental, and biological conditions, and the interactions among them that place children at risk for developmental delays and disabilities. It discusses the sociocultural and political contexts impacting child development, and the effectiveness of various intervention approaches and models so as to provide students with a knowledge base and skills for interventions.

PSGE 5302. PSYCHOLOGY OF ADOLESCENT DEVELOPMENT AND LEARNING. (3.4 Credits)
Theory and study of development and learning process during the adolescent years. This course examines the cognitive, psychosocial, and character development of children from age 12 to 18 and young adults, their learning abilities and processes; and individual, sociocultural, and other environmental factors affecting their learning and development.

PSGE 5314. PSYCHOLOGY OF CLASSROOM ORGANIZATION AND MANAGEMENT. (1 Credit)
The study of teacher-pupil interactions in classrooms. Characteristics of effective learning environments, time and behavior management, classroom climate, and leadership. Causes of student misbehavior and techniques for prevention and correction. Open only to matriculated students in one of Fordham’s initial teacher education programs.

PSGE 5316. PSYCHOLOGY OF CHILD DEVELOPMENT AND LEARNING. (3 Credits)
This course will review current thinking in the study of child development as reflected in prevailing developmental theory and research. Course readings and assignments will address developmental issues throughout childhood within the physical, cognitive, and socioemotional domains. Special emphasis will be placed on the changes in learning that occur during infancy and childhood.

PSGE 5318. HUMAN DEVELOPMENT AND LEARNING: PRE-K–GRADE 12. (3 Credits)
This course will provide an overview of psychological principles relevant to the process of learning and teaching as applied to the kindergarten through secondary-school learner. Topics will include theories of human development and learning, models of learning and instruction, and academic assessment.

PSGE 5500. PSYCHOLOGICAL FACTORS IN CHILDREN WITH DISABILITIES. (3 Credits)
An introduction to understanding children with disabilities and special health care needs. Study of the physical, social, emotional, and learning characteristics of children identified as disabled.

PSGE 5505. PSYCHOLOGY OF LEARNING DISABILITIES. (3 Credits)
Identification of social, emotional, and learning characteristics of children diagnosed as brain injured, neurologically impaired, or learning disabled. Exploration of perceptual disabilities, language, and motivational and behavioral aspects of children who have learning problems.

PSGE 5620. INTRODUCTION TO COUNSELING I. (3 Credits)
An introduction to the profession of counseling. The processes and techniques of counseling are studied. Emphasis on the development of active listening skills. Prevention and remediation are addressed. Must be taken with PSGE 5622.

Corequisite: PSGE 5622.

PSGE 5621. FOUNDATION OF PROFESSIONAL COUNSELING AND CONSULTATION. (3 Credits)
An introduction to the profession of counseling. The processes and techniques of counseling are studied. Emphasis on the development of active listening skills. Prevention and remediation are addressed. Must be taken with PSGE 5623.

Corequisite: PSGE 5623.

PSGE 5622. PRE-PRACTICUM IN COUNSELING I. (3 Credits)
Guided and supervised experience in individual counseling using a variety of counseling techniques. Must be taken with PSGE 5620.

Corequisite: PSGE 5620.

PSGE 5623. CLINICAL INSTR COUNS PROCESS. (3 Credits)
Guided and supervised experience in individual counseling using a variety of counseling techniques. Must be taken with PSGE 5621.

Corequisite: PSGE 5621.

PSGE 5625. THEORIES FAM COUNS:ASST. (3 Credits)
This course covers leading theories of family counseling and reviews a variety of family assessment procedures and techniques. The course has an applied focus and integrates multicultural and social justice perspectives in understanding and working with families both within and across cultures.

PSGE 5627. COUNS COLLEGE & POST HS. (3 Credits)
This course provides systematic training in counseling for post high school planning including the college admission and selection process. Students will be introduced to concepts and practical skills required for competency in working with diverse populations: the traditionally aged college student applicant, the disadvantaged, the minority student, the gifted, the learning disabled, the student athlete, and the adult.

PSGE 5630. INTRODUCTION TO COUNSELING II. (3 Credits)
This course is designed to review and evaluate various theories of counseling and to encourage students to develop their own conceptualization of the counseling process. This course must be taken concurrently with PSGE 5632 Pre-practicum in Counseling II.

Corequisite: PSGE 5632.

PSGE 5631. COUNS THEORY & PRACTICE. (3 Credits)
This course is designed to review and evaluate various theories of counseling and to encourage students to develop their own conceptualizations of the counseling process. This course must be taken concurrently with PSGE 5633.

PSGE 5632. PRE-PRACT COUNSEL II. (3 Credits)
This course is the second semester of a two-semester pre-practicum experience. It must be taken concurrently with PSGE 5630 Introduction to Counseling II. Students will apply various theories of counseling to specific cases through role plays and taped practice counseling sessions. Feedback will be provided by the instructor and peers.

Corequisite: PSGE 5630.

PSGE 5633. PRE-PRACTICUM IN APPLICATIONS OF COUNSELING THEORY TO PRACTICE. (3 Credits)
This course is the second semester of a two-semester pre-practicum experience. It must be taken concurrently with PSGE 5631 Counseling Theory and Practice. Students will apply various theories of counseling to specific cases though role plays and taped practice counseling sessions. Feedback will be provided by the instructor and peers.

PSGE 6226. DESIGN OF INTERACTIVE LEARNING SYSTEMS. (3 Credits)
See EDGE 6226.
PSGE 6308. COGNITION AND INSTRUCTION I: FOUNDATIONS AND BASIC PROCESSES. (3 Credits)
Historical and contemporary perspectives on the nature of minds and their relation to current psychological theories and research on cognition. Analysis will center on processes underlying perception and understanding—instructional implications will be discussed. Pre- or corequisite: PSGE 6312.

PSGE 6309. COGNITION AND INSTRUCTION II: PROBLEM SOLVING. (3 Credits)
Analysis of the cognitive theories and research on problem solving. Processes underlying imagery, reasoning, transfer of skills, and cultural influences on problem solving will be discussed. Prerequisite: PSGE 6308.

PSGE 6310. INSTITUTE ON APPLIED COGNITION. (3 Credits)
The relation between recent developments in the study of cognition to the solving of applied problems. The institute will be organized around a series of lectures led by noted researchers.

PSGE 6311. APPLICATIONS OF BEHAVIOR ANALYSIS IN EDUCATIONAL SETTINGS. (3 Credits)
Theory and application of psychological principles to modification of social and academic behavior in classrooms and other educational settings.

PSGE 6312. PSYCHOLOGY OF COGNITION AND AFFECT. (3 Credits)
To introduce students to the theoretical & empirical investigation of human learning. Emphasis is on understanding both the cognitive & affective basis of learning, and on new findings that improve understanding and to maximize the use of these complex human skills in relation to educational & psychological practice.

PSGE 6314. PSYCHOLOGY OF PROBLEM SOLVING AND CREATIVITY. (3 Credits)
Definitions of problem solving and creativity; theory, research, and measurement of the creative problem-solving process. Principles and procedures to increase creative thinking. Prerequisite: PSGE 6312 or instructor’s permission.

PSGE 6320. PSYCHOLOGY OF MOTIVATION. (3 Credits)
Theoretical and empirical investigation of human motivation and self-determination. Emphasis on understanding emotional and control processes responsible for motivating selected behavior. Prerequisite: PSGE 6312 or instructor’s permission.

PSGE 6324. ENVIRONMENTS FOR MANAGING CHALLENGING BEHAVIORS. (3 Credits)
Focus on planning and managing instructional environments for at-risk students and students with disabilities. Students will learn to establish secure learning environments that are structured to facilitate the academic and behavioral success of learners. Contemporary approaches to modifying behavior will be studied.

PSGE 6325. PSYCHOLOGY OF MEDIA. (3 Credits)
This course is designed to examine key issues and theoretical perspectives within the interdisciplinary field of media psychology. Course readings will concern the psychological underpinnings of various forms of media, including television, telecommunications, and multimedia, and their impact on the viewer from a psychosocial and cognitive vantage point. Special emphasis will be placed on the child and the adolescent user.

PSGE 6337. ADVANCED EDUCATIONAL PSYCHOLOGY: INSTRUCTIONAL DESIGN. (3 Credits)
Theories and models of instructional design. Applications of theory and research in educational psychology to the analysis and development of instructional programs. Prerequisite: PSGE 6312 or permission of instructor.

PSGE 6338. DESIGN AND EVALUATION OF CREATIVITY PROGRAMS. (3 Credits)
Design, development, and evaluation of education and training programs to encourage creative thinking and problem solving. General problem-solving skills vs. discipline-based programs. Teacher and staff-development efforts. Selection and measurement of relevant creativity outcomes.

PSGE 6341. PSYCHOLOGY OF PERSONALITY AND INDIVIDUAL DIFFERENCES. (3 Credits)
Theory and research in differential psychology applied to educational settings. Topics include age, sex, intellectual, socioeconomic, racial, and ethnic differences; cognitive styles; and special-talent abilities. Prerequisite: PSGE 6312 or permission of instructor.

PSGE 6345. SOCIAL PSYCHOLOGY. (3 Credits)
Social psychological theories, concepts, and research are studied. Topics include interpersonal relations, social learning, social motivation, communication, attitudes, groups and organizations, and social change.

PSGE 6401. SEMINAR IN THE PSYCHOLOGY OF BILINGUAL STUDENTS. (3 Credits)
This seminar provides a theoretical foundation for understanding critical issues that impact on the psychological functioning of bilingual children and adolescents in the schools. The main objectives are to develop a multicultural psychological perspective, including an understanding of the acculturation process, the nature of bilingualism, bilingual assessment, and bilingual pedagogical issues.

PSGE 6417. DEVELOPMENTAL AND INTELLECTUAL DISABILITIES. (3 Credits)
This course focuses on the assessment and diagnosis of several disorders of early childhood onset. These disorders include mental retardation, autism, other pervasive developmental disorders, Rett’s Disorder, Asperger’s Syndrome, and various learning disabilities. The etiologies of these disorders, as well as how they are manifested throughout the life span, will be highlighted by reviewing relevant research and through course discussions.

PSGE 6418. EMOTIONAL DISORDERS OF CHILDHOOD AND ADOLESCENCE. (3 Credits)
Survey of causes and consequences of emotional problems of children and implications for educational planning. The major psychiatric and psychological classification systems are studied, as are the effects of social and cultural factors on emotional development.

PSGE 6446. CONSULTATION WITH FAMILIES IN A DIVERSE SOCIETY. (3 Credits)
The purpose of this course is to provide students with the skills necessary to be effective consultants with families of young children.

PSGE 6602. HUMAN DEVELOPMENT. (3 Credits)
This course presents an overview of human development through the life span. Theories of psychosocial development are emphasized, as are the implications of life stage for counseling assessment and intervention. Multicultural and feminist perspectives on human development are included.
PSGE 6603. MULTICULTURAL ISSUES IN PROFESSIONAL PSYCHOLOGY. (3 Credits)
The course is designed to provide psychologists, counselors, and school personnel with the requisite knowledge for working with clients and students of diverse racial, ethnic, and cultural backgrounds. Intervention techniques for working with a variety of racial/ethnic and special populations are included.

PSGE 6605. COUNSELING PROGRAM DEVELOPMENT AND EVALUATION. (3 Credits)
The purpose of this course is to provide students with an introduction to principles and methods of counseling program development and evaluation. Psychoeducational, therapeutic, developmental, and culturally appropriate interventions will be considered on individual, group, and system levels. The course focuses on developing and evaluating the effectiveness of counseling interventions based on research evidence. Students will apply the knowledge they gain—through course instruction, assigned readings, and focused reviews of literature relevant to their particular counseling interests—to develop a proposal for a counseling intervention program and design a plan for its implementation and evaluation. Prerequisites: PSGE 6620, 6622, 5204.

PSGE 6607. ASSESSMENT IN COUNSELING. (3 Credits)
This course is an introduction to basic issues and procedures in counseling assessment and testing across the life span. It is part of the PSGE 6602 – PSGE 6607 counseling module, and the content is geared toward practicing professional counselors in a variety of settings. Multicultural and ethical issues are infused throughout the course content.

Attribute: Z621.

PSGE 6609. ADVANCED ASSESSMENT AND APPRAISAL IN COUNSELING. (3 Credits)
Prerequisite for the course is Assessment in Counseling (PSGE 6607). This course is required for students in the Mental Health Counseling program. This class focuses on clinical assessment in mental health counseling with an emphasis on objective inventories of personality and psychopathology. Students will be exposed to a number of assessments of personality and psychotherapy, with a particular emphasis on the range of inventories. Students will also learn diagnostic interviewing and semi-structured assessments of psychopathology. Multicultural and ethical issues are infused throughout the course content and process.

PSGE 6615. HISTORY AND SYSTEMS OF PSYCHOLOGY. (3 Credits)
This doctoral-level course provides students with an overview of the development of psychological thought, from its culturally indigenous origins in roughly 3000 BC, to Western influences in the late 19th century, through to the present and anticipated future of the field. Major topics include: philosophical influences in psychology, structuralism, functionalism, behaviorism, Gestalt, psychoanalysis, multicultural psychology, and recent theoretical developments. While this course is organized in terms of the major schools of thought that have defined the field of psychology, there is extensive coverage of the history of “constructs” that have shaped the field of psychology, as well as exploration of pioneers in the field across race, gender, sexual orientation, and other individual differences. The course aims to promote a critical analysis of the history of psychology through deconstruction of the cultural and historical milieu that influenced the system of thought or construct under consideration. The place of counseling, vocation, multicultural, and social-justice-oriented psychology will be emphasized.

PSGE 6630. GROUP COUNSELING. (3 Credits)
Principles of group dynamics that have implications for group counseling are studied. Must be taken with PSGE 6632. Prerequisites: PSGE 5620 and PSGE 5622.

Corequisite: PSGE 6632.

PSGE 6632. PRE-PRACTICUM IN GROUPS. (3 Credits)
The course is an experientially focused group-counseling course in which students participate as both group members and leaders. Must be taken with PSGE 6630. Prerequisites: PSGE 5620 and PSGE 5622.

Corequisite: PSGE 6630.

PSGE 6640. CAREER COUNSELING. (3 Credits)
Theories, research, and processes of career development are examined. Must be taken with PSGE 6641. Prerequisites: PSGE 5620 and PSGE 5622.

Corequisite: PSGE 6640.

PSGE 6641. PRACT CAREER COUNSELING. (3 Credits)
Focus is on assessment techniques and methods of career development. A case-study approach is used. Must be taken with PSGE 6640. Prerequisites: PSGE 5620 and PSGE 5622.

Corequisite: PSGE 6640.

PSGE 6642. PRACTICUM IN CAREER COUNSELING. (3 Credits)
Focus is on assessment techniques and methods of career development. A case-study approach is used. Must be taken with PSGE 6640. Prerequisites: PSGE 5620 and PSGE 5622.

Corequisite: PSGE 6640.

PSGE 6645. GENERAL PSYCHOPATHOLOGY. (3 Credits)
This course will provide a comprehensive overview of psychopathology. The survey will begin by contextualizing notions of psychopathology within the historical milieu of the cultures of psychology and psychiatry. Methodological and taxonomic issues will be explored with an emphasis on the paradigm presented by DSM-IV. The major adult psychiatric disorders (both Axis I and Axis II) will be studied in detail. Related diagnostic and assessment strategies will also be discussed. Through readings and in-class activities, students are expected to develop an understanding of etiological, diagnostic, and treatment issues related to the various disorders addressed.

PSGE 6650. ETHICS AND PROFESSIONAL ISSUES IN COUNSELING. (3 Credits)
An integrating seminar in which the role and function of counselors in society are examined. Philosophical and psychological roots of counseling are studied, and the ethical guidelines of the major professional organizations are analyzed. Important issues facing the counselor are also studied. Must be taken with PSGE 6652. Prerequisites: Areas I, II, III, and IV from the counseling curriculum.

PSGE 6651. FIELD EXPERIENCE I IN MENTAL HEALTH COUNSELING. (3 Credits)
This is the first field experience course (fall only) for master’s students in mental health counseling. Students function as mental health counselors under supervision in a hospital, college, or other agency settings. Experiences vary by site, are individually planned, and may include individual or group counseling, assessment, and attendance at case conferences or staff meetings. Students are responsible for locating and contracting with their own qualifying site, subject to the approval of the coordinator of master’s field experience and their adviser. The course includes group supervision, case presentations, and content specific to developing mental health counseling competencies. Corequisite: PSGE 6650. Prerequisites: PSGE 5620-5622, 5630-5632, 6630-6632, 6640-6641, 6602, and 6607.

Corequisite: PSGE 6650.
PSGE 6652. FIELD EXPERIENCE IN COUNSELING I. (3 Credits)
Students must complete 130 hours of supervised, off-campus experience. Site should be chosen with a view toward the student’s vocational goals. Students will function as counselors under supervision in schools, colleges, hospitals, or mental health agencies. The practicum experience of each student will vary according to his or her site. Ideally, each student will have an opportunity to engage in a wide range of counseling activities, such as individual counseling, group counseling, assessment, attendance at case conferences or other staff meetings, and gradually become acquainted with the total counseling program at the agency or school. Students must provide their own sites, subject to the approval of the field experience coordinator. Generally the course is to be taken during the fall semester of the final year of study. Must be taken with PSGE 6650. Prerequisites: PSGE 5620, 5622, 6640, 6630, 6632, 6602, and 6702.
Corequisite: PSGE 6650.

PSGE 6653. FIELD EXPERIENCE II IN MENTAL HEALTH COUNSELING. (3 Credits)
This is the second field experience course (spring only) for master’s students in mental health counseling. Students function as mental health counselors under supervision in a hospital, college, or other agency settings. Experiences vary by site, are individually planned, and may include individual or group counseling, assessment, and attendance at case conferences or staff meetings. Students are responsible for locating and contracting with their own qualifying site, subject to the approval of the coordinator of master’s field experiences and their adviser. The course includes group supervision, case presentations, and content specific to developing mental health counseling competencies. Prerequisite: PSGE 6651.

PSGE 6654. FIELD EXPERIENCE IN COUNSELING II. (3 Credits)
This course is the second semester of a two-semester practicum experience for master’s students in counseling and personnel services.

PSGE 6655. FIELD EXPERIENCE III IN MENTAL HEALTH COUNSELING. (3 Credits)
This course is offered as an option of a third field experience course (summer I only) for those master’s students in mental health counseling who completed the minimum number of supervised hours in the first two practica. Students function as mental health counselors under supervision in a hospital, college, or other agency settings. Students are responsible for locating and contracting with their own qualifying site, subject to the approval of the coordinator of master’s field experiences and their adviser. The course includes group supervision, case presentations, and content specific to developing mental health counseling competencies. Prerequisite: PSGE 6653.

PSGE 6656. MULTICULTURAL COUNSELING. (3 Credits)
This course is designed to equip students with the awareness, knowledge, and skills for counseling culturally diverse clients. Students will be exposed to leading theories of multicultural counseling and racial/ethnic identity development and will be involved in case-study analysis, role plays, and other diverse experiences.

PSGE 6659. TRAUMA INTERP NEUROBIO. (3 Credits)
Shall bridge the gap between advances in neuroscience & the practice of psychotherapy topics: the brain & affect regulations, neurobiology of attachment, brain integration & the neurobiology of psychotherapy.

PSGE 6702. FUNDAMENTALS OF EDUCATIONAL AND PSYCHOLOGICAL MEASUREMENT. (3 Credits)
Survey of measurement methods in education and psychology. Basic psychometric properties of tests, principles of test development, types of tests, and evaluations of tests are studied.

PSGE 7210. EXPERIMENTAL DESIGN. (3 Credits)

PSGE 7211. CORRELATIONAL DESIGN AND ANALYSIS. (1-3 Credits)
Regression analysis (RA) and the design and interpretation of research using the general linear model (GLM). Interpretation Multiple R, beta coefficients, standard error. Dummy coding and interaction effects. Also, path analytic methods. Prerequisite: PSGE 7210.

PSGE 7213. APPLICATION OF MULTIVARIATE TECHNIQUES IN EDUCATION AND PSYCHOLOGY. (3 Credits)
Survey of multivariate statistics, including regression, discriminant function, canonical correlation, multivariate analysis of variance, and factor analysis. Emphasis is on the use of these techniques. Prerequisite: PSGE 7211.

PSGE 7301. ADVANCED DEVELOPMENTAL PSYCHOLOGY. (3 Credits)
Analysis of recent theory and research in developmental psychology. Prerequisite: PSGE 6301 or PSGE 6302.

PSGE 7372. PD PRO-SEMINAR IN THE PROFESSIONAL PRACTICE OF SCHOOL PSYCHOLOGY. (0 Credits)
This course is designed to develop student basic skills as related to the practice of school psychology. The topics to be covered include professional identity development, school culture, engagement in the supervision process and professional writing and communications.

PSGE 7412. PERSONALITY ASSESSMENT. (3 Credits)
Introduction to the theory of personality assessment. Practice in administration, scoring, and interpretation of selected projective techniques used with children, with emphasis on the Rorschach, Thematic Apperception Tests, and Drawings. Registration limited to matriculated students in school psychology with the permission of the instructor. Prerequisite: PSGE 7508.
Attribute: ZLBS.

PSGE 7413. SCHOOL PSYCHOLOGY: ADVANCED ASSESSMENT SEMINAR. (3 Credits)
This advanced seminar on assessment is designed to provide students with theoretical knowledge and applied skills in specialized areas of assessment. The specific topics covered will be offered as separate sections on an alternating basis. The major topics may include advanced personality assessment, neuropsychological assessment, preschool assessment, and dynamic assessment. Prerequisites: PSGE 7508 and permission from the instructor.

PSGE 7418. NON-BIASED ASSESSMENT AND DECISION-MAKING. (3 Credits)
In-depth examination of issues, research, and models in non-biased assessment. Topics will include adaptive behavior, problems in classification, test bias, fairness, and judicial and legislative influences. Prerequisite: PSGE 7508.

PSGE 7422. INSTRUCTIONAL CONSULTATION. (3 Credits)
Assessment and remediation of children with school learning problems. Teacher consultation, observation, task analysis, and evaluation of learning problems. Prerequisites: PSGE 7442 and PSGE 7445.

Updated: 10-11-2017
PSGE 7423. THERAPEUTIC INTERVENTIONS IN THE SCHOOLS. (3 Credits)
This course is presented in two parts. The first part focuses on treatment efficacy, various therapeutic orientations, ethics, and law. In the second half, practical, empirically based intervention techniques appropriate for school psychological services for children and adolescents are discussed. Current best practices in the treatment of social, behavioral, and emotional problems are emphasized.

PSGE 7424. ADVANCED ASSESSMENT SEMINAR: BILINGUAL ASSESSMENT. (3 Credits)
This course is designed to train graduate students in how to conduct bilingual assessments. Conceptualization of assessment incorporating specific ways of taking both culture and language into account shall be reviewed. It will extend prior knowledge of how to minimize bias in assessment and test construction.

PSGE 7425. ADVANCED INTERVENTION SEMINAR: PRESCHOOL INTERVENTION. (3 Credits)
This course is designed to be a topical seminar that will cover a number of major issues and trends in preschool intervention.

PSGE 7426. ADVANCED INTERVENTION SEMINAR: EDUCATIONAL INTERVENTION. (3 Credits)
This course is designed to be a topical seminar that will cover a number of major issues and trends in educational interventions.

PSGE 7427. ADVANCED INTERVENTION SEMINAR: BILINGUAL INTERVENTION. (3 Credits)
This course is designed to be a topical seminar that will cover a number of major issues and trends in interventions with bilingual students.

PSGE 7428. ADVANCED INTERVENTION SEMINAR: THERAPEUTIC INTERVENTION. (3 Credits)
This course is designed to be a topical seminar that will cover a number of major issues and trends in therapeutic interventions. Intensive supervision will be provided.

PSGE 7429. INTEGRATION OF ASSESSMENT TECHNIQUES. (3 Credits)
Supervised pre-internship experience in the integrated use of psychoeducational tests; histories; observation; and clinical interviews in the study of children, adolescents, and adults with learning and behavioral problems. Special considerations of assessment of minority children are addressed. The experience is based in the Rosa A. Hagin School Consultation Center and Early Childhood Center, where students will conduct assessments with clients and attend weekly staff meetings. Registration limited to matriculated students in school psychology or with the permission of the instructor. Prerequisites: PSGE 7508, PSGE 7412, and PSGE 7418.

PSGE 7435. FOUNDATIONS OF NEUROPSYCHOLOGY. (3 Credits)
Focus is on neuropsychology as a science, and its purpose is to assist psychology students in developing an understanding of the theoretical bases and principles underlying brain-behavior relationships. This course will be designed so that students of school, counseling, and educational psychology will be prepared in and introduced to the theoretical foundations of neuropsychology.

PSGE 7442. ROLE AND FUNCTION OF THE SCHOOL PSYCHOLOGIST. (3 Credits)
An analysis of the role of the school psychologist. Emphasis is on models for delivering effective services. Consideration of ethical and legal issues.

PSGE 7444. PSYCHOLOGY: HISTORY AND ETHICS. (3 Credits)
The course provides a survey of the development of theoretical issues and methodology of psychology from the early Greek philosophers to current trends, including historical and current approaches from various cultures. Additionally, ethical principles and practice considerations for the science and practice of psychology will be explored through a variety of sources.

PSGE 7445. THEORIES OF SCHOOL-BASED CONSULTATION. (3 Credits)
Theory and practice in school-based consultation, including mental health, ecological/behavioral, and organizational consultation.

PSGE 7452. CLINICAL SUPERVISION OF SCHOOL PSYCHOLOGISTS. (3 Credits)
This course, conducted mainly as a practicum, analyzes the process of supervision and the basic steps in providing supervision of school psychologists. Emphasis is placed on actual supervisory experience, providing supervision to others, with students expected to spend two laboratory hours weekly in addition to regular class. Registration limited to PhD students in school psychology.

PSGE 7456. EVALUATION OF PSYCHOLOGICAL SERVICES DELIVERY PROGRAMS. (3 Credits)
Theories, models, and practice of program evaluation in psychological and educational services. Prerequisites: PSGE 5210 and PSGE 6702.

PSGE 7480. PROFESSIONAL DIPLOMA INTERNSHIP IN SCHOOL PSYCHOLOGY I. (1.5-3 Credits)
Experience in providing school psychological services under qualified supervision that, in conjunction with PSGE 7481, is the equivalent of a full academic year. During the internship, students attend seminars on campus. Completion of appropriate coursework and program permission required. For professional diploma students only.

PSGE 7481. PROFESSIONAL DIPLOMA INTERNSHIP IN SCHOOL PSYCHOLOGY II. (1.5-3 Credits)
A continuation of PSGE 7480.

PSGE 7482. PROFESSIONAL DIPLOMA INTERNSHIP IN BILINGUAL SCHOOL PSYCHOLOGY I. (1.5-3 Credits)
Experience in providing school psychological services to a bilingual population under qualified supervision that, in combination with PSGE 7483, is the equivalent of a full academic year. Completion of appropriate coursework and program permission required. For bilingual professional diploma students only.

PSGE 7483. PROFESSIONAL DIPLOMA INTERNSHIP IN BILINGUAL SCHOOL PSYCHOLOGY II. (1.5-3 Credits)
A continuation of PSGE 7482.

PSGE 7490. DOCTORAL INTERNSHIP IN SCHOOL PSYCHOLOGY I. (1.5-3 Credits)
Experience in providing school psychological services under qualified supervision that, in conjunction with PSGE 7492, combines to be counted as the equivalent of a full academic year. Completion of appropriate coursework and program permission required (open only to PhD-degree students).

PSGE 7492. DOCTORAL INTERNSHIP IN SCHOOL PSYCHOLOGY II. (1.5-3 Credits)
A continuation of PSGE 7490.

PSGE 7500. CLINICAL PRACTICUM IN SCHOOL PSYCHOLOGY. (3 Credits)
Supervised pre-internship field experience in psychological services, eight hours weekly in an agency or school offering clinical services to children or adolescents. Registration limited to matriculated students in school psychology. Program approval required.

Updated: 10-11-2017
PSGE 7501. CLINICAL PRACTICUM IN BILINGUAL SCHOOL PSYCHOLOGY. (3 Credits)
Supervised pre-internship field experience in psychological services, eight hours weekly in an agency or school offering clinical services to bilingual or limited English proficient children or adolescents. Registration limited to matriculated students in school psychology. Program approval required.

PSGE 7502. CONSULTATION PRACTICUM IN SCHOOL PSYCHOLOGY. (3 Credits)
Supervised pre-internship fieldwork in delivering consultation services in schools eight hours weekly. Integrating seminar meets on campus. Registration limited to matriculated students in school psychology; completion of appropriate coursework and program approval required.

PSGE 7503. CONSULTATION PRACTICUM IN BILINGUAL SCHOOL PSYCHOLOGY. (3 Credits)
Supervised pre-internship field experience in delivering consultation services in schools serving bilingual or limited English proficient students, eight hours weekly. Integrating seminar meets on campus. Registration limited to matriculated students in school psychology; completion of appropriate coursework and program approval required.

PSGE 7505. RESEARCH SEMINAR IN THE PRACTICE OF PROFESSIONAL SCHOOL PSYCHOLOGY. (3 Credits)
This is an advanced seminar designed to enhance skills in research methods useful in gathering and sharing information on the clinical utility of evidence-based practices.

PSGE 7508. COGNITIVE ASSESSMENT. (3 Credits)
This course is designed to provide students with an in-depth knowledge of the process of cognitive assessment, including administration, scoring, and interpretation of several intelligence tests. Students are expected to assess several individuals and to write reports based on these assessments. The knowledge base that students are expected to obtain through this course consists of the history of intelligence testing, current theories of intelligence, alternative approaches to traditional assessment procedures, and issues in the measurement of intelligence.
Attribute: Z621.

PSGE 7510. SCHOOL PSYCHOLOGY EXTERNSHIP I. (0 Credits)
The externship provides an opportunity for students in the school psychology program to enhance research or practice-related skills and competencies above and beyond those typically required in the program. Participants are supervised by a field supervisor at an external setting and by school psychology faculty member(s). The externship could be taken after the completion of appropriate coursework or practica. Prerequisite: permission from instructor.
Attribute: ZEEF.

PSGE 7511. SCHOOL PSYCHOLOGY EXTERNSHIP II. (0 Credits)
A continuation of PSGE 7510.
Attribute: ZEEF.

PSGE 7520. DOCTORAL EXTERNSHIP IN SCHOOL PSYCHOLOGY. (1.5 Credits)
The externship consists of a specific professional experience during which students enhance the attitudes, knowledge, and skills learned during the program and practiced as part of their practica experience. The focus of the externship is on improving one’s skills in a specific area of school psychology practice in preparation for internship or future employment. Goals for the externship should be in keeping with the school psychology program goals.

PSGE 7530. COUNSELING PSYCHOLOGY EXTERNSHIP I. (0 Credits)
This course is intended for doctoral students in the Counseling Psychology program who wish to gain additional clinical experience by working in the field. Students must have completed the entire doctoral practicum sequence. Prerequisite: PSGE 7688.
Attribute: ZEEF.

PSGE 7531. COUNSELING PSYCHOLOGY EXTERNSHIP II. (0 Credits)
This course is intended for doctoral students in the Counseling Psychology program who wish to gain additional clinical experience by working in the field. Students must have completed the entire doctoral practicum sequence. Prerequisite: Counseling Psychology Externship I.
Attribute: ZEEF.

PSGE 7532. COUNS PSY EXTERNSHIP - SUMMER. (0 Credits)
This course is intended for doctoral students in the Counseling Psychology program who wish to gain additional clinical experience by working in the field. Students must have completed the entire doctoral practicum sequence. Prerequisite: PSGE 7530 and PSGE 7531.

PSGE 7609. ADVANCED PERSONALITY ASSESSMENT. (3 Credits)
Introduction to the theory of projective personality by assessment. Practice in administration, scoring and interpretation of selected projective techniques of children and adults, with emphasis on the Rorschach. Thematic Apperception Tests and Drawings. Registration limited to doctoral students.
Attribute: ZLB5.

PSGE 7612. ASSESSMENT IN PERSONALITY. (3 Credits)
Covers the ethics, administration, scoring and interpretation of both projective and objective personality tests. Students shall receive supervision in these aspects of testing.
Attribute: ZLB5.

PSGE 7613. INTELL ASST: CHILD/ADULT. (3 Credits)
Study of the major theories of cognitive and neuropsychological abilities. Intelligence is analyzed as a major individual difference characteristic in clinical and educational settings. Skills developed in the administrative scoring, and analysis of major intelligence measures.

PSGE 7615. ADULT PSYCHOPATHOLOGY. (3 Credits)
The course provides an overview of the etiology, course assessment, and treatment of adult disorders. Psychological, biological, and sociocultural perspectives of psychopathology are examined and differential diagnostic issues are explored. This course is intended for advanced (post-master’s) graduate students. For doctoral students.

PSGE 7620. THEORIES OF COUNSELING. (3 Credits)
Consideration of the major theories of counseling, including psychodynamic, cognitive, behavioral, and phenomenological models. Common factors and distinct features are analyzed, as is the research supporting the models. Recent integrative efforts are studied.

PSGE 7630. PSYCHOLOGY OF SMALL GROUPS. (3 Credits)
The principles of group dynamics are analyzed with an emphasis on contemporary theories of group behavior.

PSGE 7640. PSYCHOLOGY OF CAREER DEVELOPMENT. (3 Credits)
A critical analysis of theories and research concerning career development. Application of psychological theories to the career development of diverse persons are studied. Prerequisite: PSGE 6640 or equivalent.
PSGE 7649. CLINICAL SUPERVISION AND CONSULTATION IN COUNSELING PSYCHOLOGY. (3 Credits)
Students will study the developmental processes involved in the training of therapists. The nature of the supervisory relationship will be explored in depth and students will identify skills necessary for sound supervisory practice. Clinical consultation in mental health settings will also be addressed. Prerequisite: PSGE 7655.

PSGE 7654. DOCTORAL PRACTICUM IN COUNSELING PSYCHOLOGY I. (3 Credits)
This is the fourth course in the series of 4 practicum courses for doctoral students in counseling psychology. Students engage in closely supervised practice of counseling and psychotherapy in a professional setting for a minimum of sixteen hours each week. Approval of the site and supervisor by the practicum coordinator is required as is the student's eligibility to start the practicum. Theoretical emphasis of this semester is on integrative approaches to psychotherapy. Taping of counseling sessions is required. Master's level practicum.

PSGE 7655. DOCTORAL PRACTICUM IN COUNSELING PSYCHOLOGY II. (3 Credits)
The course is the second half of the field experience in counseling psychology required of students who are matriculated in the counseling psychology program. The course requirements are as described for PSGE 7654. Prerequisite: PSGE 7654.

PSGE 7656. DOCTORAL PRACTICUM IN COUNSELING PSYCHOLOGY III. (3 Credits)
This is the third semester of practicum for doctoral students in counseling psychology. Students engage in closely supervised practice of counseling psychology in a professional setting 16 hours each week, including one hour of face-to-face, individual supervision by a doctoral-level psychologist. Approval of the site and supervisor by the practicum coordinator is required. Taping of counseling sessions is required. Prerequisites: PSGE 7654 and PSGE 7655.

PSGE 7657. PRACTICUM IN SUPERVISION IN COUNSELING PSYCHOLOGY. (3 Credits)
Theories and methods of clinical supervision will be studied. This course requires weekly supervision of master's-level trainees following the class period. Prerequisite: PSGE 7655.

PSGE 7658. DOCTORAL PRACTICUM IN COUNSELING PSYCHOLOGY IV. (3 Credits)
This is the fourth course in the series of 4 practicum courses for doctoral students in counseling psychology. Students engage in closely supervised practice of counseling and psychotherapy in a professional setting for a minimum of sixteen hours each week. Approval of the site and supervisor by the practicum coordinator is required as is the student's eligibility to start the practicum. Theoretical emphasis of this semester is on integrative approaches to psychotherapy. Taping of counseling sessions is required. Prerequisite PSGE 7656.

PSGE 7667. INTERNSHIP IN COUNSELING PSYCHOLOGY I. (0 Credits)
A full-year, full-time experience in providing psychological services under qualified supervision in an approved agency (PSGE7668, PSGE7669). A formal application process is required, which must be completed and approved by the program in the year prior to the beginning of the internship. All coursework except the dissertation seminar must be completed before enrolling in this course.

Attribute: Z624.

PSGE 7668. INTERNSHIP IN COUNSELING PSYCHOLOGY II. (0 Credits)
The second term (Fall, Spring, Summer) of the internship requirement that is described in PSGE 7667.

Attribute: Z624.

PSGE 7669. INTERNSHIP IN COUNSELING PSYCHOLOGY III. (0 Credits)
The third term (Fall, Spring, Summer) of the internship requirement that is described in PSGE 7667.

PSGE 7680. QUALITATIVE RESEARCH METHODS IN COUNSELING PSYCHOLOGY. (3 Credits)
Qualitative research methods useful in the field of counseling psychology are examined. An overview of philosophy of science is included.

PSGE 7681. QUANT RES METHODS I. (3 Credits)
This first course in a two-semester sequence on applied statistical methods focuses on quantitative data analysis techniques used in the social sciences with special emphasis on designs and methods in psychological research. We then will cover analysis of variance (ANOVA) and Multiple Regression - the predominant tools for analyzing experimental and non-experimental quantitative data. Completion of an extensive statistics project is an essential component of this course.

PSGE 7682. QUANTITATIVE RESEARCH METHODS IN PSYCHOLOGY II. (3 Credits)
This second course in a two-semester sequence on applied statistical methods focuses on quantitative data analysis techniques that are frequently used in the social sciences with special emphasis on designs and methods in psychological research. Topics covered in this course include advanced regression analyses, multivariate approaches (MANOVA, path analyses), and factor analysis. Completion of an extensive statistics project is an essential component of this course.

PSGE 7711. PSYCHOMETRIC THEORY. (3 Credits)
Classical and modern test theories, latent trait analysis, scaling methods, and introductory factor analysis are studied. Prerequisites: PSGE 5210 and PSGE 6702.

PSGE 7712. RECENT TRENDS IN MEASUREMENT AND EVALUATION. (3 Credits)
Seminar on issues and developments in testing and evaluation. Original research and writing are required. Prerequisite: PSGE 7711.

PSGE 7900. PROSEMINAR IN PSYCHOLOGICAL AND EDUCATIONAL SERVICES. (0 Credits)
The proseminar serves as an orientation to the research process, allows students to learn about faculty research interests and encourages discussions of research topics. It constitutes an initial developmental step in the research process and is linked to the Experimental Design and Statistics Methods courses.

PSGE 8001. RESEARCH APPRENTICESHIP. (0 Credits)
In the Research Apprenticeship in Psychological and Educational Services, the student is required to work closely with a research apprenticeship faculty advisor to develop and carry out a research project over the course of three consecutive semesters. The student must register each semester for PSGE 8001. In addition to conducting research PES Research Colloquia each semester. Prerequisite: Permanent Matric Status.

Attribute: Z619.

PSGE 8100. COLLEGE TEACHING INTERNSHIP IN PSYCHOLOGY AND SERVICES. (0 Credits)
Supervised field experience as a college-level instructor. On-campus seminars. Prerequisite: Permission of the program faculty.

PSGE 8672. SOCIAL AND ETHICAL RESPONSIBILITIES IN COUNSELING PSYCHOLOGY. (3 Credits)
The social, professional, legal, historical, and ethical issues and standards relevant to the field of counseling psychology will be explored. This course is taken during the first semester of doctoral study in counseling psychology.
PSGE 8999. DISSERTATION SEMINAR IN PSYCHOLOGICAL AND EDUCATIONAL SERVICES. (3 Credits)
Consultation with faculty on the development and conduct of dissertation research. Prerequisite: Permission of program faculty.

PSGE 9990. INDEPENDENT STUDY. (1-3 Credits)
Designed to enable students to study selected topics in depth and to conduct research. For matriculated students only. An outline of the proposed work must be approved by the adviser. Registration requires the approval of the professor directing study, the division chairperson and the director of graduate studies.

Psychology (PSYC)

PSYC 0912. REQUIREMENT PREPARATION. (0 Credits)
For Ph.D. and Master's students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement, such as comprehensive exam, Master's thesis, or dissertation submission. Attribute: Z410.

PSYC 0914. REQUIREMENT PREPARATION IN SUMMER. (0 Credits)
For Ph.D. and Master's students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement during the summer. (e.g., to be used by Ph.D. students after the oral examination/defense and prior to receiving the degree).

PSYC 0922. PHD COMPREHENSIVE EXAMINATION PREPARATION. (0.5 Credits)
PSYC 0930. PSYCHOLOGY DOCTORAL COMPREHENSIVE EXAMINATION. (0 Credits)
PSYC 0934. MASTER'S COMPREHENSIVE EXAMINATION PREPARATION. (0.5 Credits)
PSYC 0936. MASTER'S COMPREHENSIVE EXAMINATION-PSYCHOLOGY. (0 Credits)

PSYC 0950. PROPOSAL DEVELOPMENT. (1 Credit)
PSYC 0960. PROPOSAL ACCEPTANCE. (3 Credits)

PSYC 0970. Dissertation Mentoring-Psychology. (3 Credits)
The Psychology Ph.D. student is required to register for Dissertation Mentoring, which has a 3 credit fee, the semester after the student’s proposal is accepted.

PSYC 1001. HUMAN DEVELOPMENT, ENVIRONMENT, AND PUBLIC POLICY. (3 Credits)
This course explores three interrelated areas of inquiry in psychology: theories of human development, studies of the role of social environments in development, and the manner in which such research contributes to policymaking and program development for children and families. Attribute: MANR.

PSYC 1050. DEATH/DYING LIFE/LIVING. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PSYC 1100. BIOPSYCHOLOGY. (3 Credits)
An introduction to the biological bases of psychology. Research will be presented with an emphasis on how the activity of the nervous system, as shaped by phylogeny and ontogeny, determines behavior. Students replicate classic studies, analyze the results, and prepare lab reports. Attributes: LSCI, ZLB3.

PSYC 1200. FOUNDATIONS OF PSYCHOLOGY. (4 Credits)
A systematic examination of the methods and content of psychology as a life science. A survey of history and development, principles, and theories of psychology related to sensation and perception, learning, cognition, motivation, developmental, personality, abnormal, and social psychology. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Attribute: ZLB3.

PSYC 1800. INTERNSHIP. (1 Credit)

PSYC 1999. SERVICE LEARNING-1000 LEVEL. (1 Credit)
In this student-initiated program, the student may earn one additional credit by connecting a service experience to a course with the approval of the professor and the service-learning director.

PSYC 2000. STATISTICS. (4 Credits)
This course covers descriptive statistics and (parametric and nonparametric) inferential statistics. It emphasizes mastery of statistical concepts and utilization of statistical software. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Prerequisites: (PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000 or PSYC 1200).

PSYC 2010. RESEARCH METHODS LAB. (5 Credits)
A hands-on introduction to research methods in psychology. In the lab, students will replicate classic studies from different areas of psychology, analyze the results, and write APA-style lab reports. The lectures introduce these areas and relevant methods, placing the methods in broad historical and ethical contexts. Attribute: ZLB3. Prerequisites: (PSYC 2000 or PSRU 2000 or PSLU 2000 or PSEU 2000) and (PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000 or PSYC 1200).

PSYC 2100. BIOLOGICAL PSYCHOLOGY. (4 Credits)
(Formerly Physiological Psychology, PSYC 3600) An introduction to the biological bases of psychology. Research will be presented with an emphasis on how the activity of the nervous system, as shaped by phylogeny and ontogeny determines behavior. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PSYC 2101. BIOLOGICAL PSYCHOLOGY LAB. (5 Credits)
An introduction to the biological bases of psychology. Research will be presented with an emphasis on how the activity of the nervous system, as shaped by phylogeny and ontogeny, determines behavior. Students replicate classic studies, analyze the results, and prepare APA style lab reports. Attribute: ZLB3. Prerequisites: PSYC 2010 (may be taken concurrently) or PSRU 2010 (may be taken concurrently) or PSLU 2010 (may be taken concurrently) or PSEU 2010 (may be taken concurrently).
PSYC 2200. LEARNING. (4 Credits)
Course focuses on the research and theories in animal and human learning. Empirical findings are discussed in relation to competing theories of learning, memory, and adaptive behavior. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: (PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000 or PSYC 1200).

PSYC 2201. LEARNING LABORATORY. (5 Credits)
Course focuses on the research and theories in animal and human learning. Empirical findings are discussed in relation to competing theories of learning and adaptive behavior. Students replicate classic learning studies, analyze their results, and prepare APA style lab reports. Prerequisite: Research Methods Lab.
Attribute: ZLB3.
Prerequisites: PSYC 2010 or PSRU 2010 or PSLU 2010 or PSEU 2010.

PSYC 2301. SENSATION AND PERCEPTION LAB. (5 Credits)
A survey of research on the senses, especially vision and hearing. Biological, psychophysical and cognitive perspectives will be considered. Students replicate classic studies, analyze the results and prepare APA style lab reports. Prerequisite: Research Methods Lab.
Attribute: ZLB3.
Prerequisite: PSYC 2000.

PSYC 2401. MEMORY LABORATORY. (5 Credits)
Covers historical approaches to memory, information processing and connectionist models of memory studies, analyze the results, and prepare APA style lab reports.
Attribute: ZLB3.
Prerequisites: PSYC 2010 (may be taken concurrently) or PSRU 2010 (may be taken concurrently) or PSLU 2010 (may be taken concurrently) or PSEU 2010 (may be taken concurrently).

PSYC 2500. COGNITION. (4 Credits)
The analysis of the process of acquiring and using knowledge: perceptual recognition, attention, memory, imagery, language, problem solving, decision making, and the development of these processes throughout one’s life. (Spring, odd years). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PSYC 2501. COGNITION LABORATORY. (5 Credits)
The analysis of the process of acquiring and using knowledge: perceptual recognition, attention, memory, imagery, language, problem solving and decision making. Students replicate classic studies, analyze the results, and prepare APA style lab reports.
Attribute: ZLB3.
Prerequisites: (PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000 or PSYC 1200) and (PSYC 2000 or PSRU 2000 or PSLU 2000 or PSEU 2000) and (PSYC 2010 or PSRU 2010 or PSLU 2010 or PSEU 2010).

PSYC 2600. SOCIAL PSYCHOLOGY. (4 Credits)
An examination of how others shape an individual’s behavior. A review of selected topics of interpersonal behavior, including antisoial and prosocial behavior, prejudice, attraction, social influence, attitudes and persuasion, research methods. (Every semester) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: SSCI.

PSYC 2601. LAB IN SOCIAL PSYCHOLOGY. (5 Credits)
(formerly PSYC 3470) This course involves social psychological research concerned with relationship formation, nonverbal behavior, attitude change, and group processes. Research on these topics will be conducted using laboratory designs, survey research, and observational techniques. Students will conduct both laboratory and naturalistic observations, analyze the results, and prepare APA-style lab reports and may be offered an opportunity to propose and conduct a research project of their own choosing.
Attribute: ZLB3.
Prerequisites: (PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000 or PSYC 1200) and (PSYC 2000 or PSRU 2000 or PSLU 2000 or PSEU 2000) and (PSYC 2010 or PSRU 2010 or PSLU 2010 or PSEU 2010).

PSYC 2611. LAB IN REASONING. (5 Credits)
(formerly PSYC 3405) An introduction to the experimental investigation of the cognitive processes underlying reasoning and problem solving. Major theories, research design, and report writing will be emphasized. Relevant topics include: concept formation, inductive and deductive reasoning, planning, and creative problem-solving. Students will replicate classic memory studies, analyze the results, and prepare APA-style lab reports.
Attribute: ZLB3.

PSYC 2700. INFANT AND CHILD DEVELOPMENT. (4 Credits)
A study within the framework of research and theory of emotional, intellectual and social growth of the child, with emphasis on norms in development and child-rearing practices. (Every Fall) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: SSCI.

PSYC 2701. LAB IN DEVELOPMENTAL PSYCHOLOGY. (5 Credits)
An introduction to the study of change in cognitive, personality, and social processes across the life-span. Students will conduct both laboratory and naturalistic observations, analyze the results, and prepare APA-style lab reports.
Attribute: ZLB3.
Prerequisite: PSYC 2010.

PSYC 2710. ADOLESCENT AND ADULT DEVELOPMENT. (4 Credits)
This course reviews the study of physiological, cognitive, emotional, personality and social change from puberty across the remainder of the life span. This course will also consider the influence of theories and methods of research on what we know, and can find out, about people and the contexts in which they live their lives. (Every Spring) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: SSCI.

PSYC 2800. PERSONALITY. (4 Credits)
A critical survey of theories concerned with the origin and development of personality, including psychoanalytic theory, behaviorism, trait theory, field theory and humanistic psychology. Attention will be given to conceptual problems, controversies and empirical verification. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: SSCI.

Updated: 10-11-2017
PSYC 2810. ADOLESCENT PSYCHOLOGY. (3 Credits)

PSYC 2900. ABNORMAL PSYCHOLOGY. (4 Credits)
(Formerly PSRU 3200) Analysis of the development and structure of the abnormal personality. Consideration of neuroses and major psychoses as well as the diagnosis, treatment and prevention of mental disorders is given. (Every semester) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: SSCI.

PSYC 2999. INDEPENDENT STUDY. (1-2 Credits)

PSYC 3000. PSYCHOLOGY OF MOTIVATION. (4 Credits)
The factors that motivate behavior range from the biological to the cultural. This course will focus on the integration of methods and data from the different approaches to motivation ranging from the biological to the humanistic and emphasis the multiple causes and their interactions that lead to human and animal behavior. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PSYC 1200 or PSYC 1000.

PSYC 3100. HEALTH PSYCHOLOGY. (4 Credits)
(Formerly PSYC 3020) An introduction to the study of psychological factors in health and illness. The major models, research methods, interventions, and issues in health psychology and behavioral medicine will be examined. Topics include stress illness, compliance, social support and coping, as well as prevention and health education. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PSYC 1200 or PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000 or AP Psychology with a score of 004.

PSYC 3110. COGNITIVE NEUROSCIENCE. (4 Credits)
This course reviews the neural basis for cognitive and perceptual processes including attention, vision, sensation, perception, language, motor control, learning and memory, executive functions, emotion, and social behavior. Basic structural and functional neuroanatomy are explored and empirical methods which inform inferences about the brain bases of cognition are reviewed. The course surveys research in cognitive neuroscience and covers a functional analysis of disorders vis-à-vis cognitive theory and the brain behavior relationship. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ASSC.

Prerequisites: PSYC 1200 or PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000.

PSYC 3141. PSYCHOLOGY OF ADJUSTMENT. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PSYC 1200 or PSYC 1000.

PSYC 3200. PSYCHOLOGICAL TESTING. (4 Credits)
An introduction to the science and profession of psychological testing. Covers basic topics common to all psychological testing such as the statistics used in testing, reliability, validity and test construction. In addition, the special properties of various types of psychological tests are considered, e.g., personality tests, interest inventories, and cognitive ability tests. (Fall, odd years) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PSYC 1200 or PSYC 1000.

PSYC 3201. LAB IN PSYCHOLOGICAL TESTING. (5 Credits)
After briefly outlining the types and functions of psychological tests, this course will engage students to learn the importance of proper test administration in its historical context of early experimental psychology; the means by which tests are scored and interpreted; explanations of the nature of test scores; test reliability and validity; and in particular, to understand the interactions of these variables (e.g., the importance of proper test administration for proper test interpretation). Students will conduct both laboratory and naturalistic observations, analyze the results, and prepare APA-style lab reports.

Attribute: ZLB3.

Prerequisites: (PSYC 2000 or PSRU 2000 or PSLU 2000 or PSEL 2000) and (PSYC 2010 or PSRU 2010 or PSLU 2010 or PSEU 2010).

PSYC 3300. INDUSTRIAL ORGANIZATIONAL PSYCHOLOGY. (4 Credits)
The application of psychological methods and concepts to business and industry. Includes personnel selection, placement and training, work environment, motivation and morale, the organization as a complex system, and an introduction to organization development. (Every Fall) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ASSC.

Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3320. CONSUMER BEHAVIOR. (4 Credits)
The role of psychological factors such as learning and memory, perception, motivation, personality, and information processing in the behavior of humans as consumers. Emphasis is placed on the two-way information flow between consumers and producers. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ASSC.

Prerequisites: PSYC 1000 or PSYC 1200.

PSYC 3330. FAMILY PSYCHOLOGY. (4 Credits)
(Formerly PSYC 4250) An introduction is given to the transgenerational emotional process within the family, that is, to the family as a system across generations. Subsystems (such as parent child, sibling, family of origin) will be studied in relationship to individual development and family functioning. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004 or PSRU 1000 or PSLU 1000 or PSEU 1000.
PSYC 3340. URBAN PSYCHOLOGY. (4 Credits)
How living in a large city can affect an individual's behavior and personality. Investigations into the "urban personality," stress, family, friends and strangers, crowding, the built environment, adaptation. Includes field research. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ENST, URST.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3360. SPORTS PSYCHOLOGY. (4 Credits)
This course involves an application of psychological theory and research to athletes and sport at youth recreational, and elite levels. Special attention is devoted to the connection between sports and spirituality, ethics, character development, and parenting. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3400. PSYCHOLOGY OF EDUCATION. (4 Credits)
An overview of psychological principles relevant to the process of learning and teaching. The relationship of education to society in general and to the student in particular is stressed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3410. CREATIVITY. (4 Credits)
An investigation of the creative process, both theoretically and phenomenologically. Students conduct case studies of a creative enterprise, based on autobiographical and/or interview material. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3500. APPLICATIONS OF SOCIAL PSYCHOLOGY. (4 Credits)
Learn about origins of applied orientation in experimental social psychology, the conceptualization and measurement of major concepts and consider how these concepts mediate the effects of the physical environment on behavior. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3530. PSYCHOLOGY OF SEX ROLES. (4 Credits)
The study of the development of sex differences and sex roles in women and men. The study of the psychological implications and consequences of sex role development in men and women will be discussed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3550. CONSCIOUSNESS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PSYC 3600. MULTICULTURAL PSYCHOLOGY. (4 Credits)
The focus of this course is the multicultural applicability of scientific and professional psychology. Traditional psychological theories, scientific psychology, psychological tests, and the practice of psychology will be examined and critiqued from cultural and socio-historical perspectives. Contemporary psychological theories and research specific to men, women, gay men, lesbians, and race/ethnicity will be reviewed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, LALS, PJST, PLUR, URST, WGSS.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004 or PSRU 1000 or PSLU 1000 or PSEU 1000.

PSYC 3610. GLOBAL HEALTH AND PSYCHOLOGY (ADVANCED SOCIAL SCIENCE CORE/ GLOBALISM). (4 Credits)
In order to address the needs of diverse populations, culturally-congruent training in health psychology is essential. The goal of this course is to provide a global perspective on understanding and treating significant public health problems and integrating cultural considerations into this framework. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, BIOE, GLBL.
Prerequisites: PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000 or PSYC 1200.

PSYC 3640. CROSS-CULTURAL-PSYCHOLOGY. (4 Credits)
This course examines the role of culture in shaping a broad spectrum of human experience around the globe. This course begins with a consideration of three important themes: Culture as meaning; the nature of cultural competence & ethnocentrism; and the phenomena of international migrations and acculturation. Then, it examines important conceptual and methodological issues in cross-cultural research.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, BIOE, GLBL.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3700. HUMAN SEXUALITY. (4 Credits)
An exploration of the physical characteristics that make up the core of male and female sexuality, as well as the psychological components in all sexual unions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, WGSS.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3720. PSYCHOLOGY OF WOMEN. (4 Credits)
An extensive examination of theory and research findings pertaining to female social and intellectual development, sex differences, sex role socialization and the relationship of women to social structure.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.
PSYC 3730. MEN AND MASCULINITIES. (4 Credits)
Traditional/classical psychodynamic theories on masculinity will be reviewed, as well as the more contemporary "new psychology of men" literature and research. Traditional masculinity ideology as a system of values will be examined and critiqued, with focus on examining how masculine values underline men's personal morality and societal mores. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, ASSC, EP3, PLUR, WGSS.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004 or PSRU 1000 or PSLU 1000 or PSEU 1000.

PSYC 3800. DRUGS: USE AND ABUSE. (4 Credits)
This course examines the use, abuse, and addiction to a variety of licit and illicit drugs from caffeine to heroin. This topic will be viewed from three perspectives: 1) the pharmacological effect of the drug; 2) the setting in which the drug is ingested; 3) the past experience of the drug taker. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3810. TRAUMA AND FAMILY VIOLENCE. (4 Credits)
The goal of this course is to provide an introduction to the field of trauma and family violence, including the causes and consequences of rape, partner violence and child abuse and neglect. Assessment, treatment and prevention issues will also be discussed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3820. FORENSIC PSYCHOLOGY. (4 Credits)
Focuses on the interaction of clinical psychology and the law. Addresses issues related to forensic assessment and expert testimony, understanding and treatment of criminal offenders, similarities and differences between assessment of adult and juvenile offenders. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ASSC.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004 or PSRU 1000 or PSLU 1000 or PSEU 1000.

PSYC 3830. THEORIES OF PSYCHOTHERAPY. (4 Credits)
An exploration of the various psychotherapies, including the psychoanalytic, humanistic, behavioral, cognitive-behavioral, and existential approaches. The theoretical assumptions and the practical applications of each psychotherapeutic orientation are emphasized. (fall, odd years) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3900. PSYCHOANalyTIC THEORIES. (4 Credits)
The evolution of psychoanalytic theories from their origins in Freud's writings to contemporary modifications and elaborations. Attention is given to interpersonal psychoanalysis, object-relations theory, ego psychology and self-psychology. Psychoanalytic theory is studied as continually developing within the history of ideas. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PSYC 1200 or PSYC 1000.

PSYC 3901. LAB IN BEHAVIORAL ANALYSIS. (5 Credits)
(formerly PSYC 3410) Introduction to the experimental analysis of behavior using laboratory animals. Behavior principles, their application, and how to conduct an experimental analysis will be reviewed in lecture and demonstrated in the laboratory.

Attribute: ZLB3.
Prerequisites: PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000 or PSYC 1200.

PSYC 3910. HUMANISTIC PSYCHOLOGY. (4 Credits)
Origins and development of Humanistic Movement as the "Third Force" in psychology; contemporary methods, theory, and empirical findings in humanistic psychology. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3930. INTRODUCTION TO CLINICAL PSYCHOLOGY. (4 Credits)
An introduction to clinical psychology, including major schools of clinical interventions, the relation between assessment and clinical practice, including specific areas of evaluation (such as intellectual, personality, and observational/behavioral). Areas of specialization will also be covered. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ASSC.
Prerequisites: PSYC 1200 or PSYC 1000 or AP Psychology with a score of 004.

PSYC 3940. THE FREUDIAN CASE HISTORY: SCIENCE, STORY, AND THE PROBLEM OF EVIDENCE. (4 Credits)
Students read and evaluate the complete set of Sigmund Freud's case studies: five early studies of hysteria, five major case histories (Dora, Little Hans, the Rat Man, the Wolf Man, and Dr. Schreber), the analysis of Leonardo DaVinci, and the case of a "beautiful and clever" homosexual girl. With a critical, contemporary lens, the course focuses on Freud's evolving theories, therapeutic practices, and research methods. Attention is given to the scientific, psychological, philosophical, sociological, cultural, and historical controversies the cases have generated, for instance issues of gender, narrative versus historical truth, and problems of evidence. For illuminating contrast, several more recent case studies are comparatively analyzed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
PSYC 3950. APPLIED BEHAVIOR ANALYSIS. (4 Credits)
The goals of the course are to teach the principles of behavior and their application to complex human behavior. Students will understand basic principles of behavior, how to analyze complex human behavior in terms of those principles, how to collect data and plot it on graphs, how conduct research to determine the causes of behavior, and the basics of how to change behavior. This course does not make a student competent to conduct therapy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: PSYC 1000 or PSYC 1200.

PSYC 3999. TUTORIAL. (1,3 Credits)

PSYC 4000. HISTORY AND SYSTEMS OF PSYCHOLOGY. (4 Credits)
The development of psychological thought through the history of psychology as a science is traced. Attention is given to the application of the philosophy of science to psychology. Systems covered include associationism, structuralism, functionalism, Gestalt psychology, psychoanalysis, behaviorism, and cognition. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ICC.

PSYC 4036. PSYCHOLOGY HORROR LITERATURE AND FILM. (4 Credits)
This course focuses on the so-called paradox of horror: Why do we enjoy an experience that is designed to make us feel uncomfortable? If the question is simple, the answer is not. It requires interdisciplinary tools. The course draws on literary criticism and psychology in close conjunction with concrete experiences of the phenomena themselves: reading classic and contemporary horror fiction and watching horror film. By combining literary theory—especially reader-response—with the major psychological theories of emotion, this course centers on the paradox of horror and addresses questions of many kinds from it. Prerequisite: Foundations of Psychology. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ICC.

PSYC 4245. ETHICS IN RESEARCH. (4 Credits)
This course will examine approaches to responsible research practices across the natural and social sciences, with particular attention to research involving human participants. The course will provide an overview of the research process, foundations in research ethics, and provide examples of research across disciplines that exemplify scientifically valid and ethically sound research methods planning, implementation, and dissemination. In particular, the course will draw on long-standing research traditions in the field of sociology, and psychology in order to provide a foundation upon which ethical issues can be discussed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: BIOE, EP3, ICC.
Prerequisites: PSYC 1000 or PSYC 1200.

PSYC 4310. AGING AND SOCIETY. (4 Credits)
A cross-disciplinary course that draws on research and theory from psychology and such other disciplines as sociology, anthropology, economics and political science to explore the biological, cognitive and psychosocial features of human aging. Attention is given to normal and abnormal development, to the interrelations between physical and mental health and to optimal aging. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, BIOE, ICC, PJST.
Prerequisites: PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000 or PSYC 1200.

PSYC 4330. MUSIC AND PSYCHOLOGY. (4 Credits)
A cross-disciplinary course that examines what psychological research and theories and an analytical approach tell us about music. Topics include perception and performance of music, emotional responses and cross-cultural approaches. Requires a background in psychology and/or music. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PSYC 4340. LAW AND PSYCHOLOGY. (4 Credits)
An introduction to (a) the issues relevant to understanding human behavior from the perspective of law and psychology and (b) the contributions of psychology as a behavioral science to such legal issues as legal evidence, juries, and criminal and civil responsibility. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, EP4, PJST, SRVL, VAL.

PSYC 4360. CULTS AND RELIGION. (4 Credits)
An examination of religious phenomena ranging from the traditional to witchcraft and cults with a focus on their social organizations and meanings in the lives of individuals. Spiritual experiences, values, beliefs and ritual practices will be explored in their cultural-historical context in light of sociological and psychological theories of religion. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

PSYC 4370. DISGUST IN LITERATURE AND PSYCHOLOGY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ICC.

PSYC 4510. EVOLUTIONARY PSYCHOLOGY. (4 Credits)
An evolutionary perspective on the behavior of humans and other animals, including sex, aggression, cooperation, altruism, parenting, status, and social dominance. Ideas from Darwin, Freud, Dawkins, Wilson and others will be discussed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Updated: 10-11-2017
PSYC 4600. CONTEMPORARY BEHAVIORISM. (4 Credits)
Survey of the development of contemporary behaviorism, which is a philosophy of science that approaches psychology as a natural science. Among the issues discussed will be culture, determinism, evolution, free will, grammar, individual responsibility, knowledge, meaning, mentalism, pragmatism, perception, purpose, religion and thinking. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: PSYC 1000 or PSYC 1200.

PSYC 4800. INTERNSHIP. (3-4 Credits)

PSYC 4810. CLINICAL CHILD PSYCHOLOGY. (5 Credits)
(Formerly PSYC 3270) This course provides an overview of the descriptive characteristics, diagnosis, and treatment of the primary psychological and behavioral disorders of childhood and adolescence. A fieldwork component offers supervised experience in a setting serving children with problems. (Every Fall).

PSYC 4820. COMMUNITY PSYCHOLOGY. (5 Credits)
This course focuses on the prevention of psychological disorders and the promotion of wellness across the life span. Topics covered include stress, coping, and social support; risk and protective factors for adjustment and maladjustment; empowering disenfranchised groups; developing and evaluating prevention and early intervention programs; and facilitating social change and responsive community organizations. Includes a fieldwork component that is integrated with class discussion.
Attribute: URST.

PSYC 4830. PRACTICUM IN PSYCHOLOGY. (5 Credits)
A field work course in which students spend one full day (or two half-days) in field placement doing work related to psychology. Placements include hospitals, schools, clinics and research facilities, and involve work in clinical, forensic, developmental and social psychology. Application must be filed with instructor in semester prior to enrollment.

PSYC 4900. PSYCHOLOGY AND HUMAN VALUES. (4 Credits)
This senior values seminar explores pioneering theories and research in the psychology of values. Topics include human motives/goals; the sense of right and wrong; cognitive, social, cultural, spiritual and gender aspects of ethical decision making; behavior in morally challenging situations; and virtue in relationships, work and community. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: BIOE, EP4, SRVL, VAL.

PSYC 4920. YOUTH, VALUES, AND SOCIETY. (4 Credits)
This course explores the history and current place of youth in society from a multidisciplinary perspective and consider how this social construction of youth influences their development of values. It explores the history of social constructions of adolescence and youth and the current place of youth in our society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, EP4, SRVL, VAL.

PSYC 4930. CODES FOR MENTAL HEALTH SERVICES. (4 Credits)
This course introduces students to contemporary standards of research and practice in the delivery of mental health care services to a variety of populations (e.g., children, institutionalized individuals, and cultural minorities) across a variety of contexts (e.g., schools, hospitals, nursing homes, prisons, and industrial settings). Students learn to examine the relationship of current professional codes of conduct to historical and political issues and contemporary social values. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: BIOE, EP4, SRVL, VAL.

PSYC 4977. HONORS THESIS IN PSYCHOLOGY I. (4 Credits)
This course, typically taken in the fall of senior year, involves carrying out the Honors Thesis. Typically, this includes data collection and analysis, and initial work on the written report. Students should have reviewed the relevant literature and completely planned the thesis prior to beginning the course. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: (PSYC 1000 or PSRU 1000 or PSLU 1000 or PSEU 1000 or PSYC 1200) and (PSYC 2000 or PSRU 2000 or PSLU 2000 or PSEU 2000) and (PSYC 2010 or PSRU 2010 or PSLU 2010 or PSEU 2010).

PSYC 4998. HONORS THESIS IN PSYCHOLOGY II. (4 Credits)
This course, taken in the spring of senior year, involves completion of the thesis. The student prepares and revises the final written report, and defends the thesis orally. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: (PSYC 1000 or PSRU 1000 or PSLU 2000 or PSEU 2000) and (PSYC 2010 or PSRU 2010 or PSLU 2010 or PSEU 2010).

PSYC 4999. TUTORIAL. (1-5 Credits)
Supervised individual research projects.

PSYC 5060. SPIRITUALITY, HEALTH & ADJUST. (3,4 Credits)
Integrates psychology of health and psychology of religion. Introduces students to constructs, models, and research, emphasizing the relevance of spirituality to the adjustment process.

PSYC 5070. SPIRITUALITY&PSYCHOTHERA THEOR. (3-4 Credits)
This course will explore the application of a spiritual orientation across a broad range of empirically supported psychotherapies, especially in the treatment of minority populations.

PSYC 5100. PSYCOMETRICS-THEORY. (3 Credits)
This course mainly covers what is commonly referred to as the classical test theory (CTT). It intends to provide you with the conceptual and technical skills necessary to develop and evaluate psychological tests and measures, and to provide foundations for further study of measurement theory, including but not limited to factor analysis and item response theory. A list of topics covered in this course include introduction to CTT, reliability, and validity of a test, and item analysis. The lab will assist software implementations (including Excel, SPSS, AMOS, and possibly R) and provide students hands-on experiences on how to plan psychometric analysis for a newly developed scale.
PSYC 5335. SOCIAL DEVELOPMENT. (3 Credits)

PSYC 5500. DIFFERENTIAL PSYCHOLOGY. (3-4 Credits)

PSYC 5600. SUCCESSFUL AGING. (3.4 Credits)
Introduces concepts of successful aging and explores mechanisms contributing to aging well. Compares early and more recent theories of successful aging, summarizes the empirical research, and examines current intervention approaches with the goal of developing a new intervention.

Attribute: CEED.

PSYC 5710. ISSUES IN SOCIAL PSY. (3-4 Credits)
The person in society: interdisciplinary approaches; personality and culture: subculture, class, and community. Development and the self-cognitive and motivational elements in the acquisition of language, attitudes, and values. Group membership, role behavior, and group dynamics.

PSYC 5715. PSYC OF COMPLEX EMERGENCIES. (4 Credits)
This course covers psychological aspects of complex emergencies and responder preparedness. Topics include team building, negotiation, and motivation of responders and aid-workers, preparing for emergencies, coping with violence for aid-workers, refugees, IDPs, and children in crisis, gender issues, and general psycho-social health of beneficiaries and aid-workers. (course is only open to IDHA)

PSYC 6005. ETHICS IN PSYCHOLOGY. (3-4 Credits)
This course provides general and specific guidance for ethical conduct in the science and practice of psychology. Using case examples and readings the course covers the clinical practice of psychology, research, teaching, supervision of trainees, development of assessment instruments, conducting assessments, school psychology, educational counseling, organizational consulting, forensic activities, social intervention, administration, and other activities. Also explored is the history and current role of the federal government, state licensure boards, and the American Psychological Association and other organizations in establishing guidelines and professional codes of ethics for research, teaching, and practice in psychology. The course helps students apply these codes and regulations to traditional areas of psychology and to emerging areas such as telecommunication and managed care.

Attribute: CEED.

PSYC 6010. RESEARCH ETHICS AND SOC JUSTIC. (3 Credits)
This course will examine approaches to responsible research practices in socio-behavioral research, with particular attention to research involving human participants. The course will provide foundations in research ethics and methods in research ethics decision-making that exemplify scientifically valid and ethically sound research method planning, implementation, and dissemination.

PSYC 6020. HEALTH PSYCHOLOGY. (3 Credits)
An introduction to the study of psychological factors in health and illness, which examines the major models, research methods, interventions, and issues in health psychology/behavioral medicine. Topics include stress, illness, compliance, psychosocial, and coping in disorders such as cardiovascular disease, pain, cancer, gastrointestinal disorders, and obesity.

PSYC 6030. TRAUMA & FAMILY VIOLENCE. (3 Credits)
This course will focus on understanding the cause and effects of trauma and family violence, such as child abuse and neglect, rape, and domestic violence. Diagnostic assessment, prevention and treatment issues will be emphasized.

PSYC 6040. CONTEXT & CONSEQUENCES - POVERTY. (3 Credits)
A comprehensive overview of research and policy literature on contexts and consequences of poverty (income, socio-economic status, poverty cofactors and risks) for children, youth, and families in US. Topics include defining and measuring poverty, the distribution of poverty across social and demographic characteristics; the role of labor markets, family structure and human social capital in reproducing poverty; quantitative and qualitative studies on the impact of poverty on children, youth, and families; debates about poverty's impact and the history.

PSYC 6050. BEHAVIORAL MEDICINE. (3 Credits)
Teaches students the clinical and research skills required in a medical setting. The overarching goal is for students to gain competency working with patients presenting with a range of medical conditions (as primary or secondary diagnosis).

PSYC 6060. RESEARCH PRACTICUM I. (3 Credits)
This course is comprised of three parts: A practical research experience ("research practicum"), in which the student is placed in a research setting and participates (ina substantive way) in ongoing clinical research (10-20 hours per week for at least one entire semester) A bi-weekly meeting with the course instructor and other students who are completing the research practicum (2 hours every other week) Supplemental readings to facilitate the student's independent research (approximately 5-10 hours per week).

PSYC 6066. HISTORY AND SYSTEMS. (3 Credits)
This course surveys the history of the major systems of psychology from pre-Socratic philosophers to contemporary cognitive science and neuroscience. Key men and women who contributed to the development of theories about and methods used to study personality, emotion, intelligence, cognition, and psychobiology are discussed within their historical, religious, cultural, and political contexts.

PSYC 6070. RESEARCH PRACTICUM II. (3 Credits)
This course is the second in a 2-course sequence designed to expose the student to the process of conducting applied clinical research and facilitate his or her own independent research project. This course is typically taken during the semester in which the student intends to complete the Master's Thesis. The research project that forms the basis of the students MA thesis is developed in consultation with the faculty mentor and research supervisor (note that under some circumstances both these roles may be fulfilled by the same individual. Decisions regarding the specific research project, including the length and depth of the introduction, the nature and sophistication of statistical analyses, and the format for compiling the results into a final document, will ultimately rest with the faculty mentor and reader.

PSYC 6105. CLINICAL INTERVIEWING. (3 Credits)
Students develop attending and listening skills, and learn to respond therapeutically in a decision-making framework. For students needing to acquire interviewing skills prior to undertaking a field placement.

PSYC 6106. COGNITIVE ASSESSMENT WITH LAB. (3 Credits)
Intensive supervised practice in administration, interpretation, and reporting of individual intelligence tests for children and adults. Students will learn and practice the administration and scoring of major developmental assessment instruments.

PSYC 6119. PERSONALITY ASSESS WITH LAB. (3 Credits)
Administration and introductory interpretation in personality assessment and research, concentrating on the Rorschach and TAT. Students will learn and practice the administration and scoring of major personality assessment instruments.

Updated: 10-11-2017
PSYC 6137. PERSONALITY ASMNT II. (2 Credits)  
Survey of the development of the MMPI and relevant research, followed by intensive practice in interpretation of MMPI profiles with special reference to clinical populations.

PSYC 6138. PERS ASMNT II LAB. (1 Credit)  
This is the laboratory component of PSGA6137. Students will learn and practice the administration and scoring of major personality assessment instruments. Co-requisite: PSGA6137.

PSYC 6142. DEVELOPMENTAL ASSESSMENT. (2 Credits)  

PSYC 6146. THEORIES OF DVLPMNTL ASMNT LAB. (1 Credit)  
Provides experience in using developmental assessment measures and report writing in the field of developmental psychology.

PSYC 6148. THEORIES & ASSESSMENT OF DVLPMNT. (3 Credits)  
The course examines three issues: how theories can be used to construct developmentally appropriate measures, how the development and use of assessment measures can be used to create or move theory forward, and the role of psychologists in creating measures. Both individual and group assessment measures will be considered. Students will gain experience administering and reporting results of classic developmental assessments.

PSYC 6170. MULTICULTURAL SEMINAR. (3,4 Credits)  
Focus on multicultural perspective for understanding and working with diverse populations. Will examine issues of gender, race/ethnicity, sexual orientation, religion, etc. in the provision of psychological services.

PSYC 6175. Multicultural Issues in Education. (3 Credits)  
The purpose of this course is to explore the ways in which race, culture, and socioeconomic resources interact to influence the educational opportunities and outcomes of children and adolescents. We will discuss structural, cultural, and psychological arguments that have been used to help explain between-group variations in academic achievement. Additionally we will discuss factors that serve as assets and resources for minority youth in the educational domain and help explain within-group variation in educational outcomes. Interventions and policies designed to improve educational opportunities and outcomes, particularly for minority youth, will also be examined.

PSYC 6184. BEHAVIORAL ASSESSMENT WITH LAB. (3 Credits)  
This course will establish an understanding of behavioral assessment and its implications for intervention, evaluation and research. Theoretical foundations, methods, and application of behavioral assessment to case formulation and treatment will be emphasized.

PSYC 6190. FORENSIC ASSESSMENT. (3 Credits)

PSYC 6205. CLINICAL GEROPSychology. (3 Credits)

PSYC 6210. PSYCHOTHERAPY THEORIES. (3-4 Credits)  
Comprehensive overview of most of the major contemporary approaches to psychotherapy, with special emphasis on underlying assumptions, techniques employed, and goals.

PSYC 6225. PERSONALITY THEO & RESEARCH. (3 Credits)

PSYC 6245. COGNITIVE BEHAVIOR THERAPY. (3 Credits)

PSYC 6251. FOUNDATIONS OF NEUROPSYCHOLOGY. (3 Credits)  
This course will provide a broad understanding of human brain-behavior relationships, neuropsychological theory, and the application of this knowledge to the clinical evaluation and treatment of individuals with brain disease or damage. The course will begin with an overview of clinical neuropsychology and its history, functional neuroanatomy, evidence based neuropsychological practice, and the foundations for research and theory of clinical neuropsychology (including the connection between neuropsychological evaluation and the practical implications of neuropsychological conditions), diagnosis of neurocognitive disorders, and neuropsychological intervention techniques. Finally, this course reviews non-neurologic considerations in CNS functioning and neuropsychological evaluation, including multicultural, ethical and forensic issues in clinical neuropsychology.

PSYC 6253. NEUROPSYCHOLOGICAL ASSESSMENT WITH LAB. (3 Credits)  
This course will review the practice of neuropsychological assessment and basic concepts related to classes of cognitive functions. We will discuss psychometric principals germane to neuropsychological assessment as well as the use of neuropsychological assessment for clinical practice. Laboratory activities will support the acquisition of knowledge related to the practice of neuropsychological practice, including test selection, administration, scoring, date interpretation, and report writing.

PSYC 6257. CHILD NEUROPSYCHOLOGY. (3 Credits)  
The relationship between development of brain structure and cognitive functions are discussed. Tests used to assess a variety of functions including memory, attention, achievement, visual spatial skills, executive function, and motor function are presented. Learning disabilities, attention deficits, pediatric neurological disorders, and other relevant topics are covered.

PSYC 6259. TOPICS IN DEVELOPMENTAL COGNITIVE NEUROSCIENCE. (3 Credits)  
This seminar covers topics in developmental cognitive neuroscience across the lifespan. Topics include neural correlates of cognitive development (memory, face perception, executive functioning), structural and functional brain changes associated with aging, and normal and pathological (e.g. Alzheimer’s disease) cognitive changes associated with aging.

PSYC 6270. FAMILY SYS: THEORY/PRAC. (3 Credits)  
Combination of readings, film, videotapes, and class discussions to provide the student with an overview of the theories and techniques of the major therapists in the field.

PSYC 6275. FAMILY PSYCHOLOGY. (3 Credits)  
Provide basic knowledge of family systems theory as a pre-requisite for understanding family psychology and family therapeutic intervention. Provides a survey of research models and findings relevant to family processes and therapeutic practice.

PSYC 6280. BRIEF PSYCHOTHERAPY. (3 Credits)  
This course will provide an overview of the major approaches to brief psychotherapy. Various theoretical perspectives are included: psychodynamic, cognitive, behavioral, and interpersonal.
PSYC 6290. HEALTH DISPARITIES AND SOCIAL INEQUALITY. (3 Credits)
This course focuses on the psychosocial correlates and consequences of health disparities involving individuals and groups that have been historically marginalized by society and in some cases by the health sciences and professions. Readings and class discussions will examine the relationship of contextual factors such as poverty, racial/ethnic discrimination, environmental hazards, incarceration, institutionalization and public policy to social and health inequities faced by children and adults with HIV/AIDS, mental illness, intellectual disabilities, and substance abuse disorders. The role of psychology in the emerging health and human rights paradigm in the United States and globally will also be explored.
Attribute: CEED.

PSYC 6298. PSYCHOANALYTIC THEORY. (3 Credits)
Theory, research methods, and therapy of the psychoanalytic movement will be explored, including the work of Freud and ego psychological, neofreudian, Jungian, interpersonal, object relational, self, archetypal, and existential orientations. Attention will focus on clinically relevant topics such as human development, personality, dreams, and psychopathology, using case material for illustrations.

PSYC 6300. DEV PSY: FOUNDATIONS. (3 Credits)
This course will cover the historical and theoretical foundations of developmental psychology and the emergence of the discipline of Applied Developmental Psychology. Major historical and contemporary theories of development and key topics and research will be considered across domains, with emphasis on core readings, developmentalists, and turning points in the field.

PSYC 6310. CULTURE, ETHNICITY, RACE. (3 Credits)
"Culture, Ethnicity, Race and Development" reviews how these concepts have been defined in psychological research. We then examine how these social influences affect youth development by focusing on topics in four areas: theories of ethnicity and race in human development, family, social dynamics and cultures.

PSYC 6320. ADOLESCENTS/YOUNG ADULTS. (3 Credits)

PSYC 6330. COGNITIVE DEVELOPMENT. (3 Credits)
Theories and research in structuralism, neo-structuralism, information processing, connectionism and contextualism are investigated.

PSYC 6340. PERSONALITY DEVELOPMENT. (3 Credits)
The course will provide a history of the life-span approach and examine current issues regarding the nature, directionality, and origins of personality stability and change within a life-span framework. Emphasis will be given to the interdependence of biological and environmental factors influencing personality development. Implications of these issues will be considered with regard to specific content areas and empirical findings.

PSYC 6350. APPLIED DEV PSYCHOLOGY. (3 Credits)
This course will provide an introduction to the roles and activities of professionals in applied developmental psychology. Topics will include definitions of the field, ethical issues, public policy, research design, and program evaluation.
Attribute: CEED.

PSYC 6360. SOCIAL POLICY AND APPLIED PSYCHOLOGY. (3 Credits)
This course will cover the implications of social policy for applied psychology. Examples include the impact of funding patterns on opportunities for research and the application of psychological interventions, and the implications of health legislation for psychologists' research priorities. The course will also emphasize the social policy implications of psychological knowledge. For example, how data on well-being of the elderly should impact regulation of nursing homes.

PSYC 6365. CHILD, FAMILY AND SOCIAL POLIC. (3 Credits)
This course will address the intersection of developmental science and child and family social policy. We will examine and discuss debates about problem definition and the role of public policy, stakeholders, research and evaluation, ethics, and advocacy in regards to a variety of topics related to child health and development, education, families, poverty and more.

PSYC 6370. COGNITION AND AFFECT. (3 Credits)
A development and comparative examination of significant cognitive theories and research Structuralist, contextualist, information processing, and connectionist perspectives as well as research from infant to elderly cognition are covered.

PSYC 6380. ANXIETY DISORDER SEMINAR. (3 Credits)
The course addresses the etiology of various anxiety disorders - research related to anxiety disorders and treatment options. This course is an in-depth coverage of the major anxiety disorders, beginning with etiological and maintaining factors, as well as information processing and behavioral features, and ending with psychosocial treatment and case management. Special attention is given to specific cases as illustrative of each condition, and complicating factors involved in case management.

PSYC 6390. GLOBAL MENTAL HEALTH. (3 Credits)
This course provides a survey of models, mechanisms, and critiques surrounding Global Mental Health. Materials are drawn from the burgeoning global mental health literature (e.g., Vikram Patel, Jorgen Unutzer, Helena Verdell) transcultural psychiatry (Author Kleinman, Laurene Kirmayer), post-conflict psychosocial mental health field (Ager, de Jong), and mental health capacity building. A section on methods in the middle of the course provides opportunities for students to review research design. Requirements will include weekly reflection papers, a term paper, and an exam. Outside speakers may be invited for selected lectures.

PSYC 6510. SOCIAL INFLUENCES ON BEH. (3 Credits)

PSYC 6530. DEV PSYCHOPATHOLOGY. (3 Credits)
This course will consider developmental disabilities and psychopathologies and the contexts, both natural and designed, that exacerbate or ameliorate these conditions. The ideas of disability, pathology, and dysfunction, and the contrasting ideas of ability, health, and functionality will be considered in relation to each other.

PSYC 6630. BEHAVIORAL PHARMACOLOGY. (3 Credits)

PSYC 6654. INTRODUCTION TO NEUROSCIENCE. (3 Credits)
An exploration of the neuro-anatomical, physiological, and chemical substrates of human behaviors, including movement, sensation, perception, cognition, emotion, and personality. Both typical and atypical behaviors will be considered, as will developmental issues.
Attribute: ZLB3.
PSYC 6670. PSYCHOPHARMACOLOGY I. (3 Credits)
This course covers the major psychiatric medication used in direct service delivery setting for mental health care. Special attention will be give to the role of psychotropic medication in the conduct of psychological services, including case management and treatment facilitating/interfering matters.

PSYC 6802. INTRO TO PSY STATISTICS W/ LAB. (3 Credits)
This course will replace PSYC 6800 and PSYC 6801. Most psychological research depends on statistical methods. This course aims to provide an introduction of a variety of statistical methods for psychological research.

PSYC 6830. PSY RESEARCH METHODOLOGY. (3 Credits)
The course will cover a variety of topics involving research methodology and design. Pitfalls and potential solutions to many experimental and quasi-experimental methodologies will be addressed. Students will complete their own research project during this course, including design, finding subjects, experimentation, analysis, and write-up.

PSYC 6850. EVALUATION OF PSYCHOLOGICAL & SOCIAL PROGRAMS. (3 Credits)
Review of the literature relating to the scientific evaluation of psychological programs in the areas of mental health, addiction, compensatory education, and societal innovation. Extensive discussion of the use of quasi-experimental designs, and numerous methodological issues and pragmatic problems associated with evaluation studies.

PSYC 6890. APPLIC OF STAT SOFTWARE. (3 Credits)

PSYC 7010. PSYCHOLOGY AND CRIMINAL LAW. (3 Credits)
This course is designed to provide an overview of the interaction between psychology and the criminal law. We will focus primarily on the three major aspects in which psychologists are involved in the criminal justice system: competence to stand trial evaluations, mental state at the time of the offense (mens rea and the insanity defense), and the assessment of risk/prediction of future dangerousness. Because the interaction of psychology and law is by definition interdisciplinary, this course is co-taught by a forensic psychologist (Professor Rosenfeld) and attorney (Professor Cohen), and is open to both psychology graduate students law students. The content of the course is evenly divided between understanding the legal issues involved and the application of psychological principals to these legal issues. In additional, specific topics such as forensic psychological assessment and expert testimony will be discussed.

Attribute: CEED.

PSYC 7020. PSYCHOLOGY AND CIVIL LAW. (3 Credits)
This course covers a number of the areas in which psychologists consult on forensic matters outside of the criminal arena. The semester will be divided relatively evenly between the reviewing case law and legal standards and issues related to clinical practice. Specific legal issues discussed include the concept of torts and malpractice, causation, best interest standards, and standards of proof. The first application of these issues pertains to civil law, including the role of psychologists in personal injury and sexual harassment cases, and disability law. The second are of focus concerns the role of psychologists in the family court, including a child custody and visitation evaluations, termination of parental rights, and divorce mediation. Finally, we discuss issues that arise in the elderly and medically ill such as informed consent, decision-making competence, physician-assisted suicide, and testamentary capacity. Overarching issues such as psychological testing, report preparation, and expert testimony are discussed in the context of these topics.

Attribute: CEED.

PSYC 7030. PSYCHOLOGY & JUVENILE JUSTICE. (3 Credits)
This course provides an overview of the interaction between psychology and the juvenile justice system focusing on four areas: 1) developmental theories and trajectories of antisocial behavior, 2) assessment and identification of risk and protective factors among justice system-involved youth, 3) clinical evaluations related to legal questions, and 4) empirically supported treatment/program.

PSYC 7050. PHIL FOUNDATIONS OF PSYC. (3 Credits)

PSYC 7111. PSYCHOPATHOLOGY. (3 Credits)
An overview of the primary types, causes, and symptoms of a working knowledge of the basic tools used in clinical diagnosis, including diagnostic evaluation skills in the assessment of specific psychological disorders, as well as case formulation skills from different theoretical perspectives.

PSYC 7121. CLINICAL DIAGNOSIS. (3 Credits)
This course is designed to promote the development of a working knowledge of the basic tools used in clinical diagnosis, including diagnostic evaluation skills in the assessment of specific psychological disorders, as well as case formulation skills from different theoretical perspectives.

PSYC 7122. DEVELOP & PREVENT SCIENCE. (3 Credits)

PSYC 7250. TREATMENT OF SUB ABUSE. (3 Credits)
This course will cover theories and supporting research data concerning the development and maintenance of substance abuse disorders. It will concentrate heavily on specific techniques and regimens developed especially for the treatment of substance abuse disorders. Emphasis will be placed on psychosocial forms of treatment.

PSYC 7422. PERCEP DEV THEORIES. (3 Credits)

PSYC 7500. COMPUTERIZED MULTISTAGE TESTING. (3 Credits)
This course provides a general overview of adaptive and multistage test (MST)'s important concepts. The MST design is described, why it is needed, and how it differs from other test designs, such as linear test and CAT designs, and how it represents a middle ground between the linear and intern-level adaptive tests. It will illustrate and discuss the processes of test design, assembly, routing, scoring, applications, and operational implementation considerations, as well as the most recent development on software for simulations to aid the operational implementation.

PSYC 7804. REGRESSION WITH LAB. (3 Credits)
This course covers all types of regression analyses and related ideas. Hands on experience and development of expertise in conducting regression analyses.

PSYC 7806. MULTIDIMENSIONAL SCALING. (3 Credits)
A consideration of the theory and applications of the scaling of data, univariate and multivariate, metric and non-metric in psychology and related sciences. Emphasis is on the various theoretical models for scaling data multi-dimensionally and their computer program analogues.

PSYC 7810. STATISTICAL COMPUTING WITH R. (3 Credits)
This course teaches the fundamentals of data analysis using the R computing environment. The course will cover data manipulation and visualization and standard statistical analyses such as t-tests, ANOVA, regression and X 2-tests. No prior programing experience is required.

PSYC 7812. FACTOR ANALYSIS. (3 Credits)
Theories of trait organization and techniques of factor analysis. Critical evaluation of major research on the identification of aptitude and personality traits.
PSYC 7815. CLUSTER ANALYSIS. (3 Credits)
Cluster Analysis is a generic term for a range of methods that use criteria, and algorithms for discovering and defining groups of similar objects, subjects, concepts, stimuli, or other entities. Current methods and their comparative evaluation are presented in the context of behavioral science applications. The interrelationship of cluster analysis with factor analysis, multidimensional scaling and discriminant analysis is discussed. Students are expected to use the computer to analyze behavioral science data in the course.

PSYC 7816. INTRODUCTION TO MULTIVARIATE ANALYSIS. (3 Credits)
This course covers elements of matrix theory, multivariate regression, exploratory factor analysis, principal component analysis, discriminant analysis, the generalized T-distribution, multivariate analysis of variance, and canonical regression. It also includes a treatment of pattern, profile analysis, and a brief introduction of correspondence analysis.

PSYC 7820. NONPARAMETRIC STATS. (3 Credits)

PSYC 7821. Advanced Multivariate Analysis for Psychology. (3 Credits)
This course will cover the major multivariate statistical techniques used in social and behavioral sciences. The topics covered are similar to those in introduction to Multivariate Analysis; the multivariate normal distribution, the multivariate general linear model (MANOVA, Multivariate Multiple Regression, MANCOVA), discrimination and classification, canonical correlation analysis, and methods of analyzing covariance and correlation structures such as principal components and factor analysis. The coverage on this class goes beyond application of these techniques by focusing on their statistical and theoretical foundations, and by emphasizing matrix algebra computations.

PSYC 7825. TOPICS IN QUANT METHODS. (3 Credits)
Topics in quantitative research methods are selected by the instructor.

PSYC 7826. TOPICS IN QUANT METHOD II. (3 Credits)

PSYC 7827. MODELS OF DECISION AND CHOICE. (3 Credits)
This course will cover normative and descriptive models of individual choice and decision-making beginning with Expected Value and concluding with Cumulative Prospect Theory. The course will emphasize the interface and exchange between theory and experimentation. In particular we will focus on the ways in which theory has changed and adapted in response to empirical behavioral results.

PSYC 7830. STRUCTURAL EQUATION MODELING. (3 Credits)
The course and lab familiarizes students with methodology topics include: determination of model parameters, fitting models to data, etc., LISREL, EQS, AMOS, MPLUS and SEPATH.

PSYC 7832. META-ANALYSIS. (3 Credits)
This course will introduce participants to the methodology of systematic reviews of scientific literatures and meta-analysis—a set of techniques designed to synthesize research findings across studies as the basic units of data analysis. The course will cover all major synthesis (meta-analysis) with special attention to the unique features of such analyses. Participants will read and critique published meta-analyses and will gain experience with some meta-analysis software.

PSYC 7835. CATEGORICAL DATA ANLYSYS. (3 Credits)

PSYC 7840. ADVANCED STRUCTURAL EQUA. (3 Credits)
This course covers advanced aspects of structural equation modeling, such as: power and sample size determination; longitudinal data analysis and growth curve modeling; and use of structural equation models to examine variable interactions.

PSYC 7850. HIERARCHICAL LINEAR MODELS. (3 Credits)
This course introduces linear models (regression, ANOVA and ANCOVA) for populations having a hierarchical structure. An example of such a structure would be students grouped in universities. Here there is assumed to be a population of universities and, for each university, a population of students. Suppose there is some outcome variable of interest (perhaps GPA in this example). Predictors for this variable might be available at the student level (admission test scores) as well as the university level (selectivity). Hierarchical linear models provide an appropriate framework for exploring data obtained from such a structure (involving a sample of universities and a sample of students from each of the sampled universities). Bayesian, non-Bayesian, and Empirical Bayesian approaches will be discussed and compared.

PSYC 7860. Introduction to Diagnostic Models. (3 Credits)
This course will provide an overview of cognitive diagnostic models, diagnostic classification models, or similar, as well as estimation, and model equivalency issues. The format of the course will be a seminar where participants earn credit by taking on responsibility to write up and present a topic during one of the classes.

PSYC 7890. QUALITATIVE METHODS. (3 Credits)
This course examines strategies available for the analysis of data not appropriately addressed by typical statistical methodologies. This course provides knowledge of qualitative research methods and skills necessary to carry out this kind of research in psychology. Principles, procedures, ethics, and illustrative studies in phenomenology, grounded theory, narrative psychology, hermeneutics, heuristic research, psychoanalysis, action research, programs of evaluation, and feminism will be explored. Hands-on activities include the formulation of research problems, design, data collection, analysis, validation, and report writing.

PSYC 7900. STATS FOR TEST CONSTRUCT. (3 Credits)
Requirement for students applying for: Teaching Fellow, Senior Teaching Fellow, and Teaching Associates.

PSYC 7920. ITEM RESPONSE THEORY. (3 Credits)
This course focuses on item response theory psychometric models, including two- and three-parameter models. Theory and application are discussed and studied, using the various models.

PSYC 7921. ITEM RESPONSE THEORY LAB. (1 Credit)
Provides experience in modeling data and using IRT programs.

PSYC 7930. MATRIX ALGEBRA. (3 Credits)

PSYC 7940. BAYESIAN STATISTICS. (3 Credits)

PSYC 7950. CORRESPONDENCE ANALYSIS. (3 Credits)

PSYC 7960. EQUATING TEST SCORES. (3 Credits)
Test equating methods are used to produce scores that are comparable across different test forms. The course will provide a detailed overview of the observed-score equating (OSE) methods and framework, and of the IRT OSE method; the assumption that underlie different methodologies and the relevant data collection designs will also be discussed. In this course, theoretical issues will be considered along with numerical examples and software demonstrations using real data.

PSYC 7965. EXPERIMENTAL DESIGN. (3 Credits)
This course exposes students to the basic principles of experimental design and the appropriate tools for analysis of results from experimental studies. We will cover single- and multi-factor designs, blocking and repeated measures designs, analysis of covariance and the special statistical issues associated with multile comparisons and non-orthogonal designs.
PSYC 7990. THE TEACHING OF PSYCHOLOGY. (3 Credits)
Theory and practice of college teaching will be reviewed. Topics will include lecturing, demonstrations, assessment methods, out of class writing assignments, syllabus preparation, local requirements and values.

PSYC 8000. SEM ON TEACHING OF PSYCH. (0 Credits)

PSYC 8001. INTERNSHIP IN APPLIED PSYCHOLOGICAL METHODS. (3 Credits)
Students will identify a research project or program evaluation project in collaboration with their site supervisor and their internship mentor, and complete that project, drawing upon skills learned during the course of the Master’s program. Students will have one semester to complete this project.

PSYC 8013. PSYCHOMETRIC TOPICS SEMINAR I. (0 Credits)

PSYC 8014. PSYCHOMETRIC TOPICS SEMINAR II. (3 Credits)

PSYC 8015. IDENT. OF CHILD ABUSE. (0 Credits)
The seminar will deal with the identification and reporting of child abuse. The sequelae of child abuse and maltreatment (medical, psychological, and legal) will be discussed. New York State laws and regulations dealing with reporting responsibilities will receive special emphasis.

PSYC 8023. CLINICAL TOPICS SEMINAR. (0 Credits)

PSYC 8025. RESEARCH COLLOQUIUM. (0 Credits)
Students will learn about research being conducted by faculty members, other graduate students, and invited speakers from other institutions.

PSYC 8030. INDIVIDUAL READING. (3 Credits)

PSYC 8040. INDEPENDENT RESEARCH. (3 Credits)
This course offers opportunities for students to work with individual faculty on individual projects of their own design.

PSYC 8043. ADP RESEARCH APPRENTICESHIP I. (3 Credits)
A research apprenticeship for all students in the Applied Developmental Program, taken within the first two years of study. Students working under the direct supervision of a Developmental faculty member, gain firsthand experience in design, implementation, and analysis of a research project pertaining to the development of infants, children, adolescents, mid-life, or older adults.

PSYC 8044. ADP Research Apprenticeship II. (3 Credits)
A continuation of PSGA 8043.

PSYC 8045. ADP Research Apprenticeship III. (3 Credits)
A continuation of research apprenticeship I and II for all students in the Applied Developmental Program taken within the first two years of study. Students working under the direct supervision of a Developmental faculty member, gain firsthand experience in design, implementation and analysis of research, project pertaining to the development of infants, children, adolescents, mid-life, or older adults.

PSYC 8050. PRE-DOCTORAL THESIS. (3 Credits)
Under the direction of a faculty mentor, student conducts a short-term research project, analyzes results, and prepares a report in a journal article format.

PSYC 8060. RESEARCH SEMINAR I. (1-3 Credits)
Prior to beginning work on dissertation, each doctoral student prepares a written proposal of the research project and discusses it orally at a meeting of the seminar. Required of all doctoral students.

PSYC 8070. RESEARCH SEMINAR II. (3 Credits)
Each doctoral student is required to make a written and oral progress report on the dissertation research after completion of data gathering analysis.

PSYC 8080. CLINICAL PSYCHOLOGY INTERNSHIP. (1 Credit)
To be taken only after completion of all other degree requirements.

PSYC 8081. APPLIED DEV. INTERNSHIP. (1 Credit)

PSYC 8082. PSYCHOMETRIC INTERNSHIP. (1 Credit)

PSYC 8083. HALF-TIME DEV. INTERNSHIP. (0.5 Credits)

PSYC 8085. APPLIED DEV. INTERNSHIP. (0 Credits)

PSYC 8202. CLINICAL EXTERNSHIP I. (3 Credits)
Supervised training in clinical psychology as affiliated practicum agencies.

PSYC 8203. CLINICAL EXTERNSHIP II. (3 Credits)
Continuation of PSGA 8202.

PSYC 8211. PSYCHOTHERAPY PRAC II. (3 Credits)

PSYC 8212. CLINICAL EXTERNSHIP III. (2 Credits)
Supervised experiences in psychotherapy, with discussion and reading assignments on personality dynamics, therapeutic techniques, and problems in psychotherapy.

PSYC 8213. CLINICAL EXTERNSHIP IV. (2 Credits)
Continuation of PSGA 8212.

PSYC 8221. CLINICAL EXTERNSHIP V. (1 Credit)

PSYC 8223. CLINICAL EXTERNSHIP VI. (1 Credit)

PSYC 8271. CHILD PSYCHOTHERAPY. (1 Credit)

PSYC 8290. CLINICAL SUPERVISION. (1 Credit)

PSYC 8350. APPLIED DEV PSY PRAC I. (3 Credits)
Supervised work in the application of developmental psychology to field settings. Students complete a project, such as a needs assessment or program design and evaluation practicum site. Prerequisites: PSGA 6350 and PSGA 6000.
Prerequisites: PSGA 6350 (may be taken concurrently) and PSGA 6000 (may be taken concurrently).

PSYC 8351. APPLIED DEV PSY PRAC II. (3 Credits)
Continuation of PSGA 8350.

PSYC 8550. ST SEM:DEVELOP ASSESS &LAB. (3 Credits)
This course examines developmental and multicultural issues in assessment use and construction. The lab provides experience in testing children and adolescents and report writing.

PSYC 8999. INDEPENDENT STUDY. (1-3 Credits)
Under the direction of a faculty mentor, student conducts a research project not directly related to either the second-year project (PSGA 8050) or the doctoral dissertation.

PSYC 9999. DISSERTATION DIRECTION. (1 Credit)

Public Media (PMMA)

PMMA 5001. PUBLIC MEDIA THEORY AND PRACTICE. (3 Credits)
This course will trace the evolution of public broadcasting in the United States, with particular emphasis on the ways in which PBS, NPR, Pacifica, community broadcasters and other noncommercial entities have defined the “public” in response to changing social, political, economic and technological factors.

Updated: 10-11-2017
PMMA 5002. PUBLIC JOURNALISM. (3 Credits)
This course covers the theories, history, and main conventions of public service and nonprofit journalism. It explores the basic forms that public service journalism takes today in broadcast, print, and on the Internet. It also covers the ethical and legal framework for public journalism in the United States. Students will also have the opportunity to create and workshop journalistic content in the tradition of public journalism. This course is open to senior undergraduates majoring or concentrating in Journalism with the instructor's permission.

PMMA 5003. STRATEGIC COMMUNICATION. (3 Credits)
This course provides an introduction and overview of the field of strategic communication, covering topics such as communication within and between organizations; persuasion, promotion, and public relations; and the planning and development of coordinated communication campaigns utilizing various modes, forms, and technologies of communication.

PMMA 5011. MULTIMEDIA TOOLS. (1.5 Credits)
This intensive graduate course is ideal for beginners with little or no prior experience using Flash software, a web animation authoring tool. The class provides experience developing web-based multimedia materials that contain sound, graphic, animation, and interactive components. Students will be involved in examining and evaluating existing Flash projects, gaining hands-on experience through a series of practical skills-building tasks, and planning and creating a meaningful, authentic final project such as an informational or instructional tutorial, a dynamic simulation, or an engaging multimedia activity.

PMMA 5012. FUNDAMENTALS OF WEB DESIGN. (1.5 Credits)
In this week-long intensive course, students will develop fundamental programming skills that will facilitate the creation of interactive media projects, data visualization, and digital portfolios/websites. It will cover principles and best practices for creating usable websites, HTML and use of HTML-based tools, web page writing and editing, web graphics and interactive elements, website architecture and/or content management.

PMMA 5101. FREEDOM OF EXPRESSION. (3 Credits)
This course examines the history and theory of freedom of expression in the United States. We will trace the philosophical and political origins of free speech, examining key assumptions about human nature, individual liberty, and the role of government in a Democracy underlying the First Amendment. The Constitutional Framers gave us an incredible gift of freedom. But with that freedom comes responsibility. This class explores that tension. When, if ever, should expression be regulated in a Democratic society? When should the rights of the individual be curtailed to protect the group? Should all forms of media have the same degree of freedom? What special challenges are posed by the development of new communication technologies? Are there any types of speech that should be restricted? If so, which ones, and who should decide? Are there certain circumstances when free speech should be curtailed in order to support other interests, such as diversity, equality or respect for differences in religious beliefs? Should limits on speech be allowed in the name of national security? Should certain forms of expression be prohibited during wartime? What kind of restrictions can be placed on public protests? Should propaganda be legal? An investigation of our nation's history -- and the major Supreme Court cases dealing with freedom of expression -- suggests that despite often lofty rhetoric about liberty, Americans actually have a great deal of ambivalence about free speech. By studying the application of First Amendment theory to various situations, such as flag burning, hate speech, restrictions on public protests, leaks of classified material and dissent during wartime, we will explore just how much freedom we actually have, and how much we really want to have.

PMMA 5102. PRESS, POLITICS, & PUBLIC POLICY. (3 Credits)
This course covers the interaction between the American mass media, politics, and public policymaking. We examine some of the most important interactions between the press and politicians to answer questions about the role of the media in American society.

PMMA 5103. ENVIRONMENT AND THE MEDIA. (3 Credits)
This course focuses on the intersections between contemporary environmental issues, communication and media systems, culture and social change. It explores the unique contributions that perspectives from communication and media theory can bring can bring to the study of the environment and the natural world. It also considers how these perspectives can inform strategic communication practices that aim to bolster long-term global environmental sustainability.

PMMA 5104. THEORIES OF MEDIA, CULTURE, AND SOCIETY. (3 Credits)
This course uses primary sources to deepen students' understanding of the inter-relationship between media, culture, and society. One of the main objectives is therefore to build students' reading and analysis skills by exposing them to difficult theoretical material in an environment designed to help them learn to read this kind of text.

PMMA 5105. MEDIA ETHICS. (3 Credits)
This course will examine the practices of mass media from the standpoint of producers and the public, with focus on intellectual property, privacy, confidentiality, conflict of interest, censorship, corporate responsibility, and new technologies.

PMMA 5106. RACE, GENDER, & DIGITAL MEDIA. (3 Credits)
This course analyzes representations of social class, racial and ethnic identity, and gender and sexuality in digital media. The class will use a mixture of hands-on activities with contemporary media (such as blogging, journaling, and online discussion) plus more traditional readings about theories of representation and embodiment.
PMMA 5201. SOCIAL MEDIA & CIVIC ENGAGEMENT. (3 Credits)
This theoretical course focuses on how social media impacts political participation, crowdsourcing (and the role of mobile), the role of digital networks in contemporary social movements, networked/participatory citizenship.

PMMA 5202. DIGITAL MEDIA AND SOCIAL RESPONSIBILITY. (3 Credits)
This course examines the choices and responsibilities that shape personal identity and common humanity for those who regularly employ the tools of digital media and computer technology. Regular use of digital media enables individuals to separate from their physical selves and from the community spaces in which they have traditionally lived. This course focuses on the resulting ethical tensions.

PMMA 5203. TECHNOLOGY & PUBLIC COMM.. (3 Credits)
This course focuses on the study of technology in the context of public communication, and is primarily concerned with the role that media, technology, and symbol systems play in shaping communication, consciousness, and culture, from the evolution of our innate capacity for speech and language, to the development of writing systems, to the invention of the printing press with movable type, to our contemporary electronic media environment.

PMMA 5204. CIVIC MEDIA. (3 Credits)
Participating in local life can be difficult. Information is hard to obtain and validate, local meetings are difficult to attend, networks are challenging to build. Increasingly, governments, advocacy groups, community organizers, and individual citizens are looking to digital tools to increase and improve the conditions in which we live and enhance our opportunities to engage. We will look at academic research surrounding citizenship and engagement in a digital era and cover research into many genres of civic media, from citizen journalism to hackathons, tech for development, activist art hacker culture, and games for good. This class will not only explore the various goals campaigns are using digital tools to meet, but will also focus on what type of citizen these tools are enabling and encouraging people to become.

PMMA 5205. SOCIAL ENTREPRENEURSHIP. (3 Credits)
This course provides an overview of the use of business and entrepreneurial skills to drive social change. Students will analyze different definitions of social entrepreneurship, examine the fundamental theories and frameworks of social entrepreneurship, and engage with current debates around social change. Social ventures around the New York City area will be used as case studies of sustainable solutions to social problems.

PMMA 6101. AUDIO NARRATIVE (REPORTING AND PRODUCTION). (3 Credits)
This course teaches the basics of storytelling in video form. Students will learn to research, report, shoot, and edit video stories appropriate for use in a public media setting.

PMMA 6102. VIDEO NARRATIVE (REPORTING AND PRODUCTION). (3 Credits)
This course teaches the basics of storytelling in video form. Students will learn to research, report, shoot, and edit video stories appropriate for use in a public media setting.

PMMA 6103. DATA JOURNALISM AND INTERACTIVE GRAPHICS. (3 Credits)
This class will blend theories of digital media and journalism with journalistic practice and the development of skills related to both understanding and translating big data. This emerging discipline touches on information and interactivity design, mapping, graphing, animation tools, and data analysis. In this class, we will apply these interdisciplinary areas of study to the practices of reporting and editing as they relate to gathering, analyzing, and visualizing interactive data-driven stories. We will focus not only on official journalism, but also include awareness-raising efforts by advocacy/civic groups.

PMMA 6104. ALTERNATIVE AND ADVOCACY JOURNALISM. (3 Credits)
Students will learn how to produce, aggregate and disseminate journalistic content with the explicit goal of making disadvantaged communities better informed, connected to one another, and able to influence policy decisions. We will focus the voice-giving role played by citizen journalism, giving special attention to the content, economics, and community-building role played by ethnic, youth, homeless, incarcerated media sectors, and the role played by digital media.

PMMA 6105. CROSS-PLATFORM JOURNALISM. (3 Credits)
*THIS COURSE TAKES PLACE OFF CAMPUS AT WNET STUDIOS—(8th Ave & 50th St)* This course is offered in collaboration with WNET, New York’s public television station. The course will focus on teaching students to craft video pieces for public television, including story generation, interviewing, reporting, writing, shooting video and editing. The course will also cover how to create content for digital media including websites and social media platforms. Students will learn best practices in broadcasting and discuss ethical issues facing multimedia journalists, particularly those in public media.

PMMA 6106. ONLINE JOURNALISM. (3 Credits)
This course centers on the most current trend facing journalism today: the Internet’s effect on the content of news media and the work of reporters. The course begins with a survey of open source journalism and convergence culture, examining the collision between old and new media, and the mass amateurization of professional communication. We will consider the transformation of journalism in the digital age in light of the apparent shrinking size of articles, the reduction in readers’ attention span, and the decline of deep reading.

PMMA 6107. OPINION WRITING. (3 Credits)
This course explores the great American tradition of opinion writing and commentary in traditional print and evolving online formats in order to gain an understanding of contemporary social, professional and intellectual concerns in the practice of journalism. This is as much an exploration of critical thinking as it is of writing, so there will also be emphasis on aspects of philosophy, logic and argumentation. The course will attempt to cover print, broadcast and all forms of new media.

PMMA 6108. ADVANCED INTERVIEWS AND PROFILES. (3 Credits)
This course will teach students advanced reporting and profile writing for different multimedia journalism platforms. Heavy emphasis will be placed on the art of interviewing. Students will learn how to compose interviews, invite subjects to interact with them on the meaningful level, and engage with public issues.
PMMA 6109. FIRST PERSON JOURNALISM. (3 Credits)
First person journalism is nothing new. As part of the New Journalism movement, reporters like Tom Wolfe and Joan Didion have been infusing their storytelling with subjectivity for decades. Still, the digital shift in journalism and explosion of social media has brought a new wave of first person journalism to the web. This course will explore the history of first person journalism and help students use first person perspective to bring reported pieces to life. Students will look critically at the form to consider the limitations of personal narrative in journalism. On that note, this course will not be limited to personal narratives. Students will also work on reported stories in which their experiences as journalists and citizens impacts their storytelling structure.

PMMA 6110. DIGITAL STORYTELLING. (3 Credits)
This class explores storytelling in emerging platforms. From the still image and the soundscape, we will evolve to discuss the tools and narrative forms across digital film-making, game design and interactive web narratives. Exposure to and workshops in integrated storytelling technologies will enable students to create story projects of their own.

PMMA 6201. PR FOR THE PUBLIC INTEREST. (3 Credits)
This course is designed to simulate the real-world public relations needs of an organization in the non-profit, advocacy or public interest sectors. It covers the wide range of PR needs and functions such organizations have, preparing students to succeed in organizational environments from large, established charities or NGOs to start-ups, from grassroots advocacy groups to blended businesses involving social entrepreneurship.

PMMA 6203. MARKETING AND BRANDING IN THE PUBLIC INTEREST. (3 Credits)
Social marketing seeks to integrate research, best practice, theory, audience, and partnership insight to inform the delivery of social change programs that are effective, efficient, equitable and sustainable. This course offers a strategic framework for developing a social media advocacy campaign, using social and digital media to help shape public debate, mobilize public action and to speak directly to those with influence to help bring about social change.

PMMA 6204. CROSS-PLATFORM COMM STRATEGIES. (3 Credits)
This course will use theory and practice to learn the skills needed to produce cross-platform campaigns that successfully target and reach key populations. Additionally, we will focus on the socio-technical conditions that make this approach necessary and practical in today's media environment. We will highlight areas of viral content, the politics of platforms, translating messages across channels, and creating shareable media within the context of advocacy, electoral and nonprofit sectors.

PMMA 6205. ONLINE ANALYTICS AND METRICS. (3 Credits)
In this course, you will learn how to use data to construct, analyze, and circulate stories that are important to you. Analytics from email CMS systems, websites, and social media can tell you about who’s reading your content, what messages are working (and which aren’t), and help you increase or refine their reach. This course will focus on theories behind using data to assess refine, and target messages, and cover best practices for doing so through hands-on work with a variety of commonly-used platforms.

PMMA 6206. PERSUASION AND PUBLIC OPINION. (3 Credits)
This course blends theory and practice to explore how we convince others to change their attitudes or behavior in order to accomplish specified goals. Working in multiple contexts, the course is designed to help students become better analysts and evaluators of persuasive messages in several social and political arenas; better persuaders—better at recognizing opportunities for influence, and at employing effective strategies for convincing others and building support; and more versatile at persuasion across a variety of communication channels and media platforms.

PMMA 6207. INTERNATIONAL COMMUNICATION. (3 Credits)
The course will take at least two issues that involve many countries and determine how communication theories could effectively address them. Examples of issues include hunger, drinking water, internet governance, trade policy, or health care could be one type of issue, while the other could be an issue such as terrorism. Topics include how experts communicate their knowledge effectively, how cultural traditions affect perception, how changes of the medium affect the communication process, the role of nation-states, transnational corporations and non-government institutions, and the consequences of the current trends in globalization.

PMMA 6208. DATA AND COMMUNICATION. (3 Credits)
Obtaining, interpreting, visualizing and displaying data are essential skills for communication professionals in the 21st Century. Featuring hands-on practice and examples, this course explores a wide range of data based communications, ranging from campaign strategy to data journalism and advertising tactics. Students will work on in-depth projects that require a demonstrable understanding of data, visualization, strategy, testing and evaluation.

PMMA 6209. STORYTELLING FOR PUBLIC GOOD. (3 Credits)
In this class, students will focus on how to craft stories that inform, mobilize, or persuade, and ultimately serve the public interest. Special attention will be paid to the role of narrative in both journalism and advocacy and changing channels of storytelling, including film and television, long form and citizen journalism, interactive documentaries, and games for social change.

PMMA 6210. CROSS PLATFORM PRODUCTION. (3 Credits)
This course will provide students with a variety of production skills for media-oriented professions, including shooting and editing for sound, still image, and video, with an eye toward editing for a variety of digital platforms. Students will be expected to produce professional quality content over the course of the semester. This will build upon the Public Media program’s summer workshop course.

PMMA 6398. INTERNSHIP. (3 Credits)
The internship will be chosen by the student, working in conjunction with the graduate director. This internship is to be supervised by an appropriate faculty member, and will involve regular meetings, bi-monthly reports, and a final written summary of the internship experience.

PMMA 6399. INTERNSHIP II. (3 Credits)
Students have the possibility to do an internship for three credits per semester, for a total of up to six credits for the program. The internship will be chosen by the student, working in conjunction with the graduate director and Fordham University’s career center. This internship is to be supervised by an appropriate faculty member, and will involve regular meetings, bi-monthly reports, and a final written summary of the internship experience.
PMMA 6619. SPECIAL MASTER'S PROJECT. (3 Credits)
This course represents the culmination of the student's course of study. He/She will create a final project based on projected future plans and career path.

Quantitative Finance (QFGB)

QFGB 8901. ACCOUNTING I. (3 Credits)
Provides a basic understanding of the preparation and analysis of corporate financial statements. Introduces generally accepted accounting principles (GAAP) and the standard-setting process. Discusses current issues in the reporting process, such as the benefits and problems of the Sarbanes-Oxley Act.

QFGB 8902. BASICS OF ECONOMICS. (1-3 Credits)
Covers both microeconomics and macroeconomics. Microeconomics topics include theory of demand and the nature of profit and utility-maximizing market equilibrium that constitute the economic basis of finance theory and applications. The macroeconomics segment defines the major components of the economy, outlines a simple model of long-run, real economic behavior with competitive, market clearing prices, then establishes a companion model of short-run adjustments without flexible pricing.

QFGB 8903. BASICS OF FINANCE. (1-3 Credits)
Provides a conceptual framework for decision-making processes in many diverse areas of finance. Concepts including time value of money, stock and bond valuation, project and firm valuations, risk and return measures, portfolio management, basic CAPM and APT, diversification and hedging are reviewed. Basic theoretical aspects of corporate finance, such as dividend policy and capital structure, are also introduced.

QFGB 8905. MATH FOR QUANTITATIVE FINANCE. (1.5 Credits)
Reviews the basics of mathematics in preparation for advanced courses in the MSQF program. Topics include: Special functions, Multivariate calculus, Optimization, Integration, Differential equations (ODE and PDEs), and Linear algebra.

QFGB 8906. PROBABILITY & STATISTICS. (1.5 Credits)
Reviews the basics of probability and statistics in preparation for advanced courses in the MSQF program. Topics include special distributions like binomial, poisson, normal, lognormal, gamma, beta, and fat-tailed distributions.

QFGB 8911. ADV FINANCIAL MODELING. (2 Credits)
Provides the foundation for developing skills in the quantitative analysis of financial decisions, primarily using Microsoft Excel. Topics include business planning, forecasting, sensitivity and scenario analyses, risk and return measures, portfolio analysis, binomial option pricing and Value-at-Risk (VAR) analysis. Emphasizes practical skills to produce computer models that are useful for a variety of decision-making purposes.

QFGB 8914. BASIC OF DERIVATIVES. (2 Credits)
Introduces deferred delivery (i.e. exchange-traded futures and OTC-traded forward) markets and option markets. The course covers the following: (1) briefly examines the institutional features of these markets; (2) discusses hedger, arbitrageur and speculator strategies; (3) provides an analytical foundation for the pricing of these contracts; (4) reviews some of the available empirical evidence concerning these markets; and (6) uses the data to perform small-scale suggestive tests of the theories and strategies.

QFGB 8915. INTRO TO STOCHASTIC CALCULUS. (2 Credits)
Focuses on the practical applications of stochastic differential equations subject to appropriate boundary conditions, solving valuation problems, and using measure-transformations as required in advanced financial engineering practice to value assets within a risk-neutral framework. Builds a theoretical foundation for continuous-time models that are essential for the pricing and hedging of financial derivatives.

QFGB 8923. FINANCIAL ECONOMETRICS 1. (2 Credits)
Covers estimation of parametric and non-parametric techniques commonly used in finance, applying high-frequency financial databases. Discusses properties of financial data, linear time series data analysis, basic theory of statistical inference with linear models, general linear models, conditional Heteroskedasticity models, nonlinear models and Bayesian inference and estimation.

QFGB 8924. EQUITY STYLE DERIVATIVES. (2 Credits)
Designed to complement and extend the topics discussed in Basics of Derivatives (QF 8914), this course includes all types of derivatives where a commodity, equity, or currency is the underlying asset. Hull's software and a Bloomberg/Reuters terminal are used for pricing options and gathering data. The data to perform small-scale suggestive tests of theories and strategies is used.

QFGB 8925. SIMULATION APPLICATIONS. (2 Credits)
Introduces state-of-the-art computational techniques essential for implementing financial models, pricing derivatives, obtaining numerical solutions to estimation problems, and simulating stochastic systems in risk management. Provides conceptual framework for gaining experience on simulation design and implementation using MATLAB. This course builds a skill set that combines financial modeling, data analysis, and computation.

QFGB 8926. FINANCE THEORY. (2 Credits)
Introduces financial theory with a particular emphasis on portfolio choice and the fundamentals of asset pricing. Focuses on both the partial equilibrium theory (CAPM), and the general equilibrium theory (Arrow-Debreu Pricing Theory) with brief introductions on the arbitrage-based theories. Introduces the basics of asymmetric information and how the problems it imposes can be mitigated via security design. It also emphasizes and understanding of the theories of Discrete-Time Asset Pricing; studies the application of the theory of stock options to real options and complex corporate liabilities; and explores the basic foundation of the GMM tests of asset-pricing theories.

QFGB 8927. INTRODUCTION TO C++. (2 Credits)
This course will introduce quantitative finance students to programming in C++.

QFGB 8928. AUTO TRADING SYSTEMS - INTRO. (3 Credits)
This course discusses key issues involved in the design of an Auto (Algorithmic) Trading Systems, and provides hands-on experience. The end product is a prototype Auto Trading System designed by students that successfully trades in the real market (stock, futures, option) using live data feeds from exchanges. Issues covered include: typical structures of trading systems; efficient processing of live information; minimizing trade slippages; handling large number of securities; asynchronous information processing; GUI interfaces; etc. Industry experts are invited to discuss new developments. Key programming techniques will be reviewed at the beginning, very briefly. The course is suitable for students in MSGF, MSQF, and other master level students with some knowledge of programming (e.g. R, Matlab, VBA/Excel, etc) who are interested in building auto trading systems.
QFGB 8931. FIXED INCOME SECURITIES. (2 Credits)
Introduces fixed-income securities, basic fixed-income concepts, the different sectors of the fixed-income market, and basic bond mathematics. Studies quantitative fixed-income analysis and its use in valuing bonds and quantifying risk-return characteristics. Involves extensive training in the mathematical formulation of bond valuation problems and in the use of the existing models and software to solve these problems.

QFGB 8932. EQUITY PORTFOLIO MGMT. (2-3 Credits)
Introduces the basic concepts of equity portfolio management, including constructing optimal portfolio performance, passive and active performance strategies, and portfolio risk management. Involves extensive training in portfolio optimization software.

QFGB 8933. FINANCIAL ECONOMETRICS II. (2 Credits)
Introduces modern financial econometric techniques with a special focus on applications to finance. Both the theoretical framework for making statistical inference and exemplary applications using data in modern finance are emphasized. The course involves extensive use of commercial software packages as well as implementing new financial econometric techniques using high-level programming language, such as MATLAB.

QFGB 8934. INTEREST RATE DERIVATIVES. (2 Credits)
Studies continuous time no-arbitrage models of yield curves and pricing of fixed-income securities and derivatives. In particular, treasury bonds as well as more complicated instruments, such as options on bonds, interest rate swaps, option on interest rate swaps, caps, floors, and Mortgage Backed Securities are priced and analyzed.

QFGB 8935. RISK MANAGEMENT. (2 Credits)
Builds strong understanding of the risks of individual products and methods of hedging and/or replication those products. Also examines firm-wide risk issues from a financial perspective which requires aggregation of multiple positions and consideration of interrelationships among asset price fluctuations. Regulatory and other non-market risk issues are considered and simulation techniques for modeling risk are practiced.

QFGB 8941. FIXED INCOME PORTFOLIO MGMT. (2-3 Credits)
Introduces basic concepts and techniques of fixed-income portfolio management, including designing portfolio strategies, measuring portfolio performance, indexing, portfolio immunization techniques, and hedging risks. Emphasizes the practical application of modern techniques to optimize portfolio performance. Involves extensive training in the use of fixed-income portfolio management software.

QFGB 8942. ADVANCED FINANCE THEORY. (2 Credits)
This course build upon Financial Theory I (QF 8922) and examines cross-sectional and time series properties of asset returns. Offers and in-depth statistical review of several theoretical models of inter-temporal asset pricing. Microstructure effects on short-term asset returns as well as test of returns predictability are covered.

QFGB 8943. LARGE-SCALE DATA MODELING. (2 Credits)
Explores financial modeling topics using large data sets and various econometric techniques applied in a variety of financial problems. Topics include modeling the yield curve in the US and other countries, application of pattern recognition techniques in developing stock-rating systems, factor models in portfolio construction, and portfolio performance evaluation. Emphasis on project analysis using SAS to process large data sets and develop appropriate models for solving real problems in equity and fixed-income research.

QFGB 8944. CREDIT RISK MGMT. (2-3 Credits)
Introduces modern credit risk models with particular focus on credit derivative instruments. Focuses on derivative market methods, rather than accounting analyses of business risks. Exposes students to institutional practices and commonly used data. Students will be expected to thoroughly understand professional software output, along with the risks and rewards of credit product strategies.

QFGB 8946. C++ FOR FINANCE. (3 Credits)
This course uses C++ to solve Finance problems. Two types of students will take this course. One type is the student with a strong computer programming background (perhaps an engineering undergraduate), but who has not taken C++ or applied it to finance problems. The other type may have been a finance undergraduate student who has little computer programming experience before entering the MSQF program. The latter student must take the spring introduction to C++ course offered by the computer science department as a prerequisite to taking this course in their second fall term.

QFGB 8947. ADVANCED DERIVATIVE PRICING. (2 Credits)
This course covers advanced option pricing.

QFGB 8948. QUANTITATIVE METHODS FOR PORTFOLIO MANAGEMENT. (2 Credits)
Introduces the scope of the quantitative concepts used in asset management, with focus on practical application, challenges and limitations in constructing optimal portfolios, evaluating performance and portfolio risk. Involves extensive discussions of case studies and group project. **Subject to NY Approval.

QFGB 8949. ADVANCED FINANCIAL ECONOMETRIC. (2 Credits)
This course takes up Bayesian estimation of small-scale financial sector and macro-econometric models. Counter-factual simulations will also be used, as well as monte-carlo methods for evaluating confidence intervals. In addition to Bayesian estimation, the course will make use of extensive data sets to investigate topics such as contagion effects across countries in financial markets, and neural networks for predictive accuracy. **Subject to NY Approval.

QFGB 8950. ALTERNATIVE INVESTMENTS. (2 Credits)
The course is an introduction to the rapidly evolving universe of alternative investments. Delivered in modules, the course covers a broad array of alternative strategy classes (Quantitative/Systematic, Fundamental Long/Short, Global Macro, Private Equity) ranging across all major asset classes (Equities, Fixed Income, Currencies, Commodities, Derivatives).* **Subject to NY Approval.

QFGB 8951. INTERNSHIP AND PROJECT REPORT. (2-4 Credits)
A professional project report and presentation are the final outputs of this course. Students complete these projects under the supervision of a faculty member. Both individual and group-projects are possible.

QFGB 8952. BUSINESS COMM FOR QUANTS A. (1 Credit)
Covers the basics of professional speaking and writing. Develops oral and written presentation skills essential for successful careers. Coordinated with summer term internship to give students the opportunity to apply their new communication skills in a business setting.

QFGB 8953. RESEARCH SEMINAR 1. (1.5 Credits)
This fall course features a series of lecturers from the finance industry. They discuss research projects that their companies are working on.

QFGB 8954. RESEARCH SEMINAR 2. (1.5-3 Credits)
This spring course features a series of lecturers from the finance industry. They discuss research projects that their companies are working on.
QFGB 8955. COMPUTATIONAL FINANCE. (2 Credits)

QFGB 8956. ADV GLOBAL PORTFOLIO MGT. (3 Credits)
The course will review (1) basics of modeling of securities’ returns and volatility in the context of portfolio management / “buy-side”; (2) theoretical basis and empirical evidence of risk-return trade off and investor preferences; (3) main approaches to portfolio construction and challenges with their practical application; (4) performance evaluation, and other relevant portfolio management topics.

QFGB 8957. Financial Industry and New Regulations. (3 Credits)
This course will explore how the market structure has fundamentally changed after the 2008 liquidity and credit crisis, and how this crisis has impacted on liquidity, balance sheets, risk taking and returns across the entire financial services industry. The new reality is that regulation has changed the landscape of Wall Street and the dynamic of how the sell-side and buy-side will interact in the foreseeable future.

QFGB 8958. LECTURES IN APPLIED PORT MGT. (3 Credits)
This advanced Portfolio Management course quickly reviews Modern Portfolio Theory (MPT) conceptual underpinnings and builds on MPT 1.0. It delves into contemporary liability driven asset allocation, MPT 2.0 and portfolio management industry practices, issues and concerns. Lectures, problem solving, and self-study along with extensive hands-on tools using Microsoft Excel based models will be used to provide a practitioner’s perspective. We will review and demo contemporary asset allocation optimization and forecasting techniques, new asset class pricing and valuation, performance and risk attribution, tail risk measurement and management tools etc. using real time vendor based (third party) solutions. As prerequisites - the student should have class exposure to investment and portfolio analysis, Excel, stats, and basic regressions.

QFGB 8959. MACHINE LEARNING FOR FINANCE. (2 Credits)
This course explores the world of Machine Learning and financial applications. We will investigate how it uses large amounts of structured or unstructured data to discover patterns and hidden topics, transforming raw data into knowledge for decision making. We will investigate real and practical examples from finance, tracing parallels between data science, statistics, and data analytics.

QFGB 8960. ADVANCED C++ FOR FINANCE. (2 Credits)
Advanced C++ for finance.

QFGB 8961. BUSINESS COMM FOR QUANTS B. (1 Credit)
Covers the basics of professional speaking and writing. Develops oral and written presentation skills essential for successful careers.

QFGB 8962. ST IN QUANTITATIVE FINANCE. (1 Credit)
Covers different Quantitative Finance topics.

QFGB 8999. INDEPENDENT STUDY. (2,3 Credits)

**Religion (GSRRE) (RLGR)**

RLGR 0920. WRITING FOR GRAD RESEARCH I. (1 Credit)
Course will cover how to write at the graduate level in Theology, Spirituality, Pastoral Ministry, and Counseling and Religious Education. Course topics will include composition, structure, style, coherence and analysis.

RLGR 0921. WRITING FOR GRAD RESEARCH II. (1 Credit)
Continuation of RLGR 0920. Course will cover how to write at the graduate level in Theology, Spirituality, Pastoral Ministry, and Counseling and Religious Education. Course topics will include composition, structure, style, coherence and analysis.

RLGR 6010. OLD TESTAMENT. (3 Credits)
An in-depth examination of the first five books of the Bible. Historical origins of these texts in ancient Israel and the continuing significance to their central theological themes of promise, law, creation, election, redemption, and liberation. Introduction to the exegetical methods of modern biblical study.

RLGR 6011. NEW TESTAMENT. (3 Credits)
This course will engage questions about the development of the Christian canon while reading parts of the New Testament in the context of first century Judaism.

RLGR 6018. JOHN’S GOSPEL IN GREEK I. (3 Credits)
A close reading of the Greek text with detailed exegesis of selected passages.

RLGR 6019. JOHN’S GOSPEL IN GREEK II. (3 Credits)
A close reading of the Greek text with detailed exegesis of selected passages.

RLGR 6024. THE PROPHETS. (3 Credits)
A study of Old Testament prophets and prophetic books from historical, literary, and theological perspective with particular focus on the prophets’ roles and their enduring message.

RLGR 6030. CHRISTOLOGY. (3 Credits)
This is an introductory Christology course principally from a Roman Catholic perspective. Biblical, historical, and contemporary Christology will be examined.

RLGR 6031. THEOLOGY OF HUMAN PERSON. (3 Credits)
An inquiry into the meaning and possibilities of becoming fully human from a contemporary theological perspective complemented by a multidisciplinary perspective. This course grounds theories of conversion, asceticism, and ministry in an adequate understanding of the human, with special attention to gender issues and social justice implications.

RLGR 6032. CHURCH AND SOCIETY. (3 Credits)
Explores various ways of envisioning how faith communities can structure their internal lives and their relationship to the world. Includes a historical survey of understandings of church and society from biblical times to the present, with specific emphasis placed on using the resources of Scripture and Christian Traditions to help faith communities discern what God is enabling and requiring of them in the world today.

RLGR 6033. SACRAMENTS: THEOLOGY AND RITES. (3 Credits)
An introduction to the history and theology of the sacraments, and the contemporary rites that are used to celebrate them in the Roman Catholic Church.

RLGR 6070. LITURGICAL THEOLOGY. (3 Credits)
This course will explore contemporary articulations of liturgical theology, including Roman Catholic, Protestant, and Orthodox. Through readings and classroom discussion, students will be assisted in arriving at a theological basis for the explanation of worship and the liturgical traditions of the church.

RLGR 6872. HISTORY OF THE JESUITS. (3 Credits)
This course offers an intensive look at the founding and progress of the Society of Jesus. Starting with the founder, St. Ignatius of Loyola the course will progress through key documents and missionary activity up to the 21st century.

RLGR 7032. CHURCH AND SOCIETY. (3 Credits)
Doctoral only section (DMIN and PHD). This course reviews how the community established by Jesus Christ, also known as the Church, has been theologically understood over time.
This course offers an intensive look at the founding and progress of the society of Jesus. Starting with the founder, St. Ignatius of Loyola the course will progress through key documents and missionary activity up to the 21st century.

A tutorial in the area of Religion.

**Religious Education (REGR)**

**REGR ADVI. FACULTY ADVISING.** (0 Credits)

**REGR MTNC. MAINTENANCE OF MATRICULATION.** (0 Credits)

**REGR 6016. Personality Theories and Spiritual Formation.** (3 Credits)
This course will be a study of personality theories and how these theories relate to spirituality. The theories will be compared and contrasted to their corresponding spiritual perspectives.

**REGR 6102. FOUNDATIONS OF REL EDUC.** (3 Credits)
An examination of the various theological, philosophical, and educational models that inform the foundations of religious education. The attempt will be made to show how these models have influenced different schools, theorists, practitioners and materials of religious education. Criteria for evaluating the adequacy of competing models will be offered.

**REGR 6109. THOMAS MERTON:MENTOR.** (3 Credits)

**REGR 6120. EDUCATION PEACE/JUSTICE.** (3 Credits)
Focuses on developing a greater understanding of the social ministry of the Christian churches. After a historical survey of Christian attitudes toward peace and justice, participants will explore ways of bringing a concern for peace and justice issues into liturgy, preaching, religious education and pastoral ministry. The course also examines how to relate Christian understandings of peace and justice to everyday work, and civic, political and family life.

**REGR 6125. MORAL EDUCATION/DEVELOP.** (3 Credits)
This course explores various aspects of moral education. The topic will be explored from various perspectives: theology, psychology, education, sociology, and the arts. It will aid those involved in religious education and pastoral ministry to make effective use of the arts in their work. Provides a framework for exploring foundational issues of morality and moral development, including how our understandings of the human person, community, and attitude toward the natural environment shape our moral outlook. Emphasis is placed on enabling religious educators and pastoral ministers to make moral formation an integral dimension of education in Christian faith.

**REGR 6130. THEOLOGICAL ISSUES: RELIGIOUS EDUCATION AND MINISTRY.** (3 Credits)
The course explores major Christian classical themes in contemporary theological development. Foundational concepts of revelation, scripture and tradition, Trinity, creation, Jesus the Christ, and sin and grace are examined. The practical ministerial and educational implications of these developments will be collaboratively pursued.

**REGR 6134. REL ED & PASTORAL FORMATION.** (3 Credits)
This course probes and provides foundational categories for analyzing and engaging in the practice of religious education. The historical origins and contemporary foundations of the field are explored. Classical and contemporary models of religious education are compared and contrasted in terms of their conceptual framework and use in pastoral settings.

**REGR 6140. CURRICULUM & REL. EDUC..** (3 Credits)
The course is an exploration of the what, who, where, when, why, and how of curriculum design in religious education. The various philosophies, principles and processes of curriculum formation are critically examined. It addresses the central question and activities of curriculum designers, namely, what educative content do we make accessible to what learners under what governing structure? This highlights the impact on the religious education curriculum of the nature of content, the teaching processes, the readiness of learners, and the social-political arrangements in the diverse educational settings.

**REGR 6143. IMAGINATION: MINISTRY & REL ED.** (3 Credits)
This course will explore the link between the imagination, patterns of church ministry and religious educational activity. The role and power of imagination in disclosing new life and re-visioning our work will be examined. A central focus is the critical exploration of the images, metaphors and guiding visions underlying educational and ministerial work in churches and our public life. Our educational and ministerial task is to create a counter-discourse to the dominant discourse of our time. Particular perspectives (the religious, prophetic, feminist, artistic) will be employed as resources for enriching the imagination, fostering a counter discourse and cultivating imaginative activity with people.

**REGR 6170. SPIRITUALITY AND ARTS.** (3 Credits)

**REGR 6180. REL & EDUC DEV OF CHILD.** (3 Credits)
Inquires into the spiritual, moral and educational development of children and the implications of this development for religious education. Emphasis is placed on developing a theology of childhood, and the influence of childhood faith development on adult spirituality.

**REGR 6181. FAMILY MINISTRY: SP QUESTIONS.** (3 Credits)
Investigation and analyses of specific problems related to family ministry. Topics will include single-parent families, families of "special needs" children, "hurting" families, and ministry for leadership couples and families.

**REGR 6182. COMMUNITY, FAMILY & REL ED.** (3 Credits)
A critique of current assumptions regarding the relationship of religion, family and education in an attempt to point toward appropriate models of religious education. A consideration of what helps or hinders religious development within families, and the responsibility of church and society to foster growth in faith.

**REGR 6188. RELIGIOUS EDUCATION&HUMAN DEV.** (3 Credits)
How do our ministries foster growth for people of all ages to develop holistically and to mature as people of faith? This course examines this question as it explores a religious education perspective to the topic of human growth and development.

**REGR 6202. YOUTH & YOUNG ADULT MINISTRY.** (3 Credits)
Explores the personal and communal development of youth and young adults (11-30) through church teaching and such disciplines as philosophy, psychology, and sociology, education and religious education. A comprehensive framework for nurturing the faith and spirituality of youth and young adults is presented as an organizing framework for the course.

**REGR 6204. SPEC QUES:YOUTH&YOUNG ADUL MIN.** (3 Credits)
Offers a study of identity formation, sexual development, social consciousness, the influence of popular media culture, attitudes toward authority, and Generation X and Millennial Generation spirituality. Participants will explore ways of re-envisioning religious education and pastoral ministry to respond more adequately to contemporary youth culture.
REGR 6210. HISTORY OF RELIGIOUS EDUCATION. (3 Credits)
A study of principal movements and individuals in the history of religious education from the biblical and apostolic periods to the present time. An ecumenically oriented course that explores Catholic, Protestant and Orthodox developments.

REGR 6220. MINISTRY & LEADERSHIP. (3 Credits)
An investigation of the basic structures of organization and principles of administration and supervision as they apply to parish and other religious education settings. Emphasis is placed on the person and the role of leadership within evolving structures of parish and various learning communities.

REGR 6225. CHURCH:MISSION & MINISTRY. (3 Credits)
Explores the self-understanding of the Christian community in its classical forms and contemporary modifications. Biblical foundations and historical developments lay the foundation for revising the church in the modern world. The course is a study of the transformation of the church’s self-perception, a reshaping of its ministerial forms and redesigning of its mission in the world. Examines the creative tension between continuity and change in light of some major current issues confronting the Christian community.

REGR 6311. DIGITAL CATECHESIS. (3 Credits)
The Digital Catechesis course provides a new social landscape for imagining faith formation and religious education today. This new landscape integrates Pope Francis’ clarion call for the New Evangelization and the worthy potentials of the New Media, to come up with a leadership agenda that offer ways to explore and call into question traditional assumptions and understanding of both the catechetical and the technological. The course’s goal is to lead pastoral leaders to viewing digital catechesis as a vital expression of the truly catechetical in contemporary religious context.

REGR 6524. LATIN@ SPIRITUALITY. (3 Credits)
This course presents an introduction to the way Latin(a) speaks live-out their relationship or faith in God or spirituality. We begin with an overview of the ways-Christian and non-Christian that Latin(a) practice their spiritualities, and then proceed topically looking at popular Catholicism, Latino sacramentalty, Marian devotion, NEM’s, Mainline Latino Protestant spirituality and Pentecostalism.

REGR 6580. ADULT LEARNING & DEVELOPMENT. (3 Credits)
This course examines key issues in the religious education of adults. It situates adult religious education within the broader framework of adult education theory, principles of practice and the application of this theory to contexts of faith communities. Foundation issues explored will include the meaning of adulthood, adult learning, and development, and adult social worlds.

REGR 6705. RELIGION SOCIETY & CULTURE. (3 Credits)
Explores various ways of thinking about how Christians and Christian faith communities can and should relate to the broader social world of which they are a part. Emphasis is placed on developing a heightened awareness of the ways religious educators and pastoral ministers can enable people to work for greater peace and justice in the world.

REGR 7102. FOUNDATIONS OF REL EDUC. (3 Credits)
An examination of the various theological, philosophical, and educational models that inform the foundations of religious education. The attempt will be made to show how these models have influenced different schools, theorists, practitioners and materials of religious education. Criteria for evaluating the adequacy of competing models will be offered. Additional Doctoral readings and assignments per instructor.

REGR 7120. EDUCATION PEACE/JUSTICE. (3 Credits)
This course is for PHD Students only. Focuses on developing a greater understanding of the social ministry of the Christian churches. After a historical survey of Christian attitudes toward peace and justice, participants will explore ways of bringing a concern for peace and justice issues into liturgy, preaching, religious education and pastoral ministry. The course also examines how to relate Christian understandings of peace and justice to everyday work, and civic, political and family life.

REGR 7130. THEO ISSUES:RELIGIOUS ED & MIN. (3 Credits)
This course is for PHD Students only. The course explores major Christian classical themes in contemporary theological development. Foundational concepts of revelation, scripture and tradition, Trinity, creation, Jesus the Christ, and sin and grace are examined. The practical ministerial and educational implications of these developments will be collaboratively pursued.

REGR 7140. CURRICULUM & REL. EDUC.. (3 Credits)
This course is for PHD Students Only.

REGR 7170. SPIRITUALITY AND ARTS. (3 Credits)
This course is for PHD Students Only.

REGR 7180. REL & EDUC DEV OF CHILD. (3 Credits)
Inquires into the spiritual, moral and educational development of children and the implications of this development for religious education. Emphasis is placed on developing a theology of childhood, and the influence of childhood faith development on adult spirituality. Additional Doctoral readings and assignments per instructor.

REGR 7182. COMMUNITY, FAMILY & REL ED. (3 Credits)
A critique of current assumptions regarding the relationship of religion, family and education in an attempt to point toward appropriate models of religious education. A consideration of what helps or hinders religious development within families, and the responsibility of church and society to foster growth in faith. Additional Doctoral readings and assignments per instructor.

REGR 7188. RELIGIOUS EDUCATION&HUMAN DEV. (3 Credits)
This course is for PHD Students only. How do our ministries foster growth for people of all ages to develop holistically and to mature as people of faith? This course examines this question as it explores a religious education perspective to the topic of human growth and development.

REGR 7202. YOUTH & YOUNG ADULT MINISTRY. (3 Credits)
Explores the personal and communal development of youth and young adults (11-30) through church teaching and such disciplines as philosophy, psychology, and sociology, education and religious education. A comprehensive framework for nurturing the faith and spirituality of youth and young adults is presented as an organizing framework for the course.

REGR 7204. SPEC QUES:YOUTH&YOUNG ADUL MIN. (3 Credits)
This course is for PHD Students only. Offers a study of identity formation, sexual development, social consciousness, the influence of popular media culture, attitudes toward authority, and Generation X and Millennial Generation spirituality. Participants will explore ways of re-envisioning religious education and pastoral ministry to respond more adequately to contemporary youth culture.
REGR 7230. SPEC ISSUES IN RELIGIOUS ED. (3 Credits)
This course is an in-depth study of three key issues in the field of religious education. Its focus is the systematic treatment of: 1. An exploration of teacher-learning as the practice of revelation; 2. The nature, direction and scope of religious development; and, 3. The meaning of professional and its link to the professional identity of the religious educator. The three themes will be examined within the context of the current challenges facing church and culture.

REGR 7311. DIGITAL CATECHESIS. (3 Credits)
Doctoral Students Only The Digital Catechesis course provides a new social landscape for imagining faith formation and religious education today. This new landscape integrates Pope Francis’ clarion call for the New Evangelization and the worthy potentials of the New Media, to come up with a leadership agenda that offer ways to explore and call into question traditional assumptions and understanding of both the catechetical and the technological. The course’s goal is to lead pastoral leaders to viewing digital catechesis as a vital expression of the truly catechetical in contemporary religious context.

REGR 7580. ADULT LEARNING & DEVELOPMENT. (3 Credits)
This course examines key issues in the religious education of adults. It situates adult religious education within the broader framework of adult education theory, principles of practice and the application of this theory to contexts of faith communities. Foundation issues explored will include the meaning of adulthood, adult learning, and development, and adult social worlds. See Doctoral requirements on syllabus.

REGR 7705. RELIGION SOCIETY & CULTURE. (3 Credits)
Explores various ways of thinking about how Christians and Christian faith communities can and should relate to the broader social world of which they are a part. Emphasis is placed on developing a heightened awareness of the ways religious educators and pastoral ministers can enable people to work for greater peace and justice in the world. See Doctoral requirements on syllabus.

REGR 7910. SPECIAL TOPICS: RELIGIOUS ED. (3 Credits)
See syllabus online for details of this special elective offering.

REGR 8063. SPIR DIRECTION PRACTICUM. (6 Credits)
Integrates participants’ spiritual and theological resources with sound counseling practice in one-to-one work with clients. Identifies and develops individual resources and self-understanding for discerning a call to this ministry, or refining skills for those already thus engaged. Case studies, role plays, verbatims, individual and group supervision. By invitation.
Attribute: YEAR.

REGR 8102. FOUNDATIONS OF REL EDUC. (3 Credits)
“Doctoral Students Only” An examination of the various theological, philosophical, and educational models that inform the foundations of religious education. The attempt will be made to show how these models have influenced different schools, theorists, practitioners and materials of religious education. Criteria for evaluating the adequacy of competing models will be offered.

REGR 8120. EDUCATION PEACE/JUSTICE. (3 Credits)
“Doctoral Students Only” Focuses on developing a greater understanding of the social ministry of the Christian churches. After a historical survey of Christian attitudes toward peace and justice, participants will explore ways of bringing a concern for peace and justice issues into liturgy, preaching, religious education and pastoral ministry. The course also examines how to relate Christian understandings of peace and justice to everyday work, and civic, political and family life.

REGR 8125. MORAL EDUCATION/DEVELOP. (3 Credits)
“Doctoral Students Only” This course explores various aspects of moral education. The topic will be explored from various perspectives: theology, psychology, education, sociology, and the arts. It will aid those involved in religious education and pastoral ministry to make effective use of the arts in their work. Provides a framework for exploring foundational issues of morality and moral development, including how our understandings of the human person, community, and attitude toward the natural environment shape our moral outlook. Emphasis is placed on enabling religious educators and pastoral ministers to make moral formation an integral dimension of education in Christian faith.

REGR 8130. THEOLOGICAL ISSUES: RELIGIOUS EDUCATION AND MINISTRY. (3 Credits)
“Doctoral Students Only” The course explores major Christian classical themes in contemporary theological development. Foundational concepts of revelation, scripture and tradition, Trinity, creation, Jesus the Christ, and sin and grace are examined. The practical ministerial and educational implications of these developments will be collaboratively pursued.

REGR 8140. CURRICULUM & REL. EDUC.. (3 Credits)
“Doctoral Students only.” The course is an exploration of the what, who, where, when, why, and how of curriculum design in religious education. The various philosophies, principles and processes of curriculum formation are critically examined. It addresses the central question and activities of curriculum designers, namely, what educative content do we make accessible to what learners under what governing structure? This highlights the impact on the religious education curriculum of the nature of content, the teaching processes, the readiness of learners, and the social-political arrangements in the diverse educational settings.

REGR 8143. IMAGINATION: MINISTRY & REL ED. (3 Credits)
“Doctoral Students only.” This course will explore the link between the imagination, patterns of church ministry and religious educational activity. The role and power of imagination in disclosing new life and re-visioning our work will be examined. A central focus is the critical exploration of the images, metaphors and guiding visions underlying educational and ministerial work in churches and our public life. Our educational and ministerial task is to create a counter-discourse to the dominant discourse of our time. Particular perspectives (the religious, prophetic, feminist, artistic) will be employed as resources for enriching the imagination, fostering a counter discourse and cultivating imaginative activity with people.

REGR 8180. REL & EDUC DEV OF CHILD. (3 Credits)
“Doctoral Students Only” Inquires into the spiritual, moral and educational development of children and the implications of this development for religious education. Emphasis is placed on developing a theology of childhood, and the influence of childhood faith development on adult spirituality.

REGR 8188. SEMINAR: RELIGIOUS EDUCATION. (3 Credits)
Reserved for special seminar topics in religious education.

REGR 8189. RELIGIOUS EDUCATION&HUMAN DEV. (3 Credits)
“Doctoral Students Only.” How do our ministries foster growth for people of all ages to develop holistically and to mature as people of faith? This course examines this question as it explores a religious education perspective to the topic of human growth and development.
REGR 8202. YOUTH & YOUNG ADULT MINISTRY. (3 Credits)
"Doctoral Students only." Explores the personal and communal development of youth and young adults (11-30) through church teaching and such disciplines as philosophy, psychology, and sociology, education and religious education. A comprehensive framework for nurturing the faith and spirituality of youth and young adults is presented as an organizing framework for the course.

REGR 8204. SPEC QUES: YOUTH & YOUNG ADULT MIN. (3 Credits)
"Doctoral Students Only." Offers a study of principal movements and individuals in the history of religious education from the biblical and apostolic periods to the present time. An ecumenically oriented course that explores Catholic, Protestant and Orthodox developments.

REGR 8230. SPEC ISSUES IN RELIGIOUS ED. (3 Credits)
"Doctoral Students Only" This course is an in-depth study of three key issues in the field of religious education. Its focus is the systematic treatment of: 1. An exploration of teacher-learning as the practice of revelation; 2. The nature, direction and scope of religious development; and, 3. The meaning of professional and its link to the professional identity of the religious educator. The three themes will be examined within the context of the current challenges facing church and culture.

REGR 8401. RESEARCH METHODS. (3 Credits)
Research Methods course is for students in the PhD in Religious Education.

REGR 8580. ADULT LEARNING & DEVELOP. (3 Credits)
"Doctoral Students Only" This course examines key issues in the religious education of adults. It situates adult religious education within the broader framework of adult education theory, principles of practice and the application of this theory to contexts of faith communities. Foundation issues explored will include the meaning of adulthood, adult learning, and development, and adult social worlds.

Remedies Law (RMGL)

RMGL 0204. REMEDIES. (3 Credits)
Students are expected to master the basis concepts of the equity and law traditions. We study of legal and equitable civil remedies for tort, contractual, employment law, and constitutional claims. Equitable remedies such as injunctions, specific performance, restitution, reformation, and rescission are a focus. particular attention is given to structural injunctions, centering on the history of public school integration litigation engenderedby Brown II. Attention is given to compensatory and punitive damages, both in actions in tort and for breach of contract under the Uniform Commercial Code. Particular attention is given to mass tort remedies for economic loss, as in the BP Gulf Oil spill, and structured settlements in mass tort cases such as the J&J Hip Implant cases. Also covered are statutory remedies such as declaratory judgments and attorneys fees as damages in intellectual property and civil rights cases.
Attributes: LDF, LIDR, LMCO.

RHGL 0207. LAW PRACTICE TECHNOLOGY. (2 Credits)

Russian (RUSS)

RUSS 1001. INTRODUCTION TO RUSSIAN I. (5 Credits)
An introductory course that focuses on the four skills: speaking, reading, writing and listening providing students with a basic knowledge of Russian linguistic structures, vocabulary and culture, which studied interdependently, comprise the Russian Language.
Attribute: ZLB1.

RUSS 1002. INTRODUCTION TO RUSSIAN II. (3 Credits)
This course will enhance the reading, writing, speaking and listening skills acquired by students in Introduction to Russian I or from prior study. It will further promote a deeper understanding of Russian and its literary and cultural traditions.
Prerequisite: RUSS 1001.
RUSS 1501. INTERMEDIATE RUSSIAN I. (3 Credits)
Attribute: ZLB1.
Prerequisites: RUSS 1001 or RUSS 1002.

RUSS 1502. INTERMEDIATE RUSSIAN II. (3 Credits)
The second semester continues and amplifies the work of the first. Conducted in Russian.
Attribute: ZLB1.
Prerequisite: RUSS 1501.

RUSS 1901. GRAMMAR REVIEW RUSSIA SPEAKER. (4 Credits)
For heritage speakers of Russian. Will improve the literacy of native Russian speakers. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

RUSS 1999. TUTORIAL. (1 Credit)

RUSS 2001. RUSSIAN LANGUAGE AND LITERATURE. (3 Credits)
A critical analysis of selected cultural and literary texts; composition, conversation, and review of pertinent grammatical structures.
Attribute: ZLB1.
Prerequisite: RUSS 1502.

RUSS 2500. APPROACHES TO LITERATURE. (4 Credits)
This course examines the masterpieces of the nineteenth-century Russian prose, using a broad selection of the excerpts from the literary works of Pushkin, Gogol, Turgenev, Dostoevsky, Tolstoy and Chekhov. One of the goals of the course is to analyze how these writers expanded the boundaries of the genres in which they worked, even as they exposed the acute social problems of their time. Taught in Russian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
 Attribute: OCST.
Prerequisite: RUSS 2001.

RUSS 2601. RUSSIAN CONVERSATION AND COMPOSITION. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

RUSS 2640. RUSSIAN SHORT FICTION. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

RUSS 2650. MEDIA AND THE RUSSIAN STATE: NEWS OUTLETS FROM 19TH CENTURY TO PRESENT DAY RUSSIA. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, OCST.
Prerequisite: RUSS 2001.

RUSS 3001. CONTEMPORARY RUSSIAN PROSE. (4 Credits)
This survey course focuses on the works of prose by such late-Soviet period and contemporary Russian authors such as Voynovich, Aksyonov, Shukshin, and Yerofeyev. These works, which represent a wide range of stylistic and thematic approaches, marked a major transition from the remnants of Socialist Realism imposed by the Soviet totalitarian regime to the generally free expression found in the Russian literature of the 1990s. In addition to analyzing and discussing these works, this course will also place them in a broader cultural and literary context. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

RUSS 3002. GENRES AND STYLES RUSSIAN LITERATURE. (4 Credits)
This course will introduce students to a wide variety of genres in both synchronic as well as in diachronic aspect. It will undertake a close analytical examination of a number of types of literary and folkloric texts. These masterworks of Russian literature will be analyzed in terms of their defining features such as their intrinsic imaginative system, language devices, themes, and ethical function, which are significant for the chronologically relevant cultural tradition. The course will enable students to perceive the literary works in their multi-dimensional depths as the students will engage in a deeper analysis of each text surveyed. The course will include texts from the present day to the distant Russian literary past. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

RUSS 3010. 19TH CENTURY RUSSIAN LITERATURE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

RUSS 3011. RUSSIAN ROMANTIC NOVEL. (4 Credits)
This course will examine the literary works of the Age of Romanticism in Russian literature. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, OCST.

RUSS 3020. THE RUSSIAN SHORT STORY. (4 Credits)
This course will examine the literary works of the age of Romanticism. Though it will focus primarily on the prose of Alexander Pushkin and Mikhail Lermontov, it will also consider the writings of their predecessors like Vasily Zhukovskiy and Konstantin Batyushkov. Students will have the opportunity to discover and evaluate the peculiarities of Russian Romanticism, particularly in the context of the synthesis of the autochthonic cultural traditions and Western Romantic ideas. Special attention will be paid to the evolution of the idea of the "hero." Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, OCST.

Updated: 10-11-2017
RUSS 3021. THE MODERN RUSSIAN NOVEL. (4 Credits)
This course will examine the literary works of the age of Romanticism. Though it will focus primarily on the prose of Alexander Pushkin and Mikhail Lermontov, it will also consider the writings of their predecessors Vasiliy Zhukovskiy and Konstantin Batyushkov. Students will have the opportunity to discover and evaluate the peculiarities of Russian Romanticism, particularly in the context of the symbols of the autochthonic cultural traditions and Western Romantic ideas. Special attention will be paid to the evolution of the idea of the "hero." Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ALC.

RUSS 3025. INTRODUCTION TO RUSSIAN THEATER. (4 Credits)
This course explores the modern Russian theatrical tradition from the nineteenth century to today and examines a range of plays that include works by Gogol, Ostrovsky, Chekhov, Bulgakov, Kharms, Shvarts, Petrushevskaya, Pelevin, Grishkovets, and others. Conducted in Russian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ALC, OCST.

RUSS 3027. RUSSIAN CINEMA. (4 Credits)
This course serves as a survey of Russian cinema in a variety of historical, cultural, and social contexts, as well as an introduction to the work of its major directors. In addition to exploring main styles and genres in Russian, Soviet, and post-Soviet filmmaking, students will learn to analyze film as a medium through critical watching, reading, thinking, and writing. Conducted in Russian. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ALC.

RUSS 9152. INTERMEDIATE RUSSIAN II. (0 Credits)

RUSS 9201. RUSSIAN LANGUAGE & LITERATURE. (0 Credits)

Securities (SCGL)

SCGL 0202. ECONOMIC & SOCIAL RIGHTS. (2 Credits)
This two-credit seminar will provide an in-depth examination of the international legal framework protecting economic and social rights. International human rights law protects both "traditional" or "first generation" civil and political rights, as well as "second generation" economic, social, and cultural rights. International law affirms that both sets of rights be equally protected, but arguments that subjugate economic and social rights to second tier status persist. Despite opposition to the rights, they have been protected in a wide range of domestic jurisdictions, and advocates have engaged economic and social rights advocacy as a means to social change. This course will explore the foundations of the human rights framework and consider the place of economic and social rights within that framework. We will examine in depth the international protection regime and available mechanisms, and inspect the ways that domestic jurisdictions have executed these rights in their constitutions, legislation, policies, and the courts. Case studies will be used to generate discussion, and we will survey additional current topical issues, including the role of the corporate sector, national budgeting and human rights, extreme poverty and human rights, extraterritorial obligations on states, and global efforts to address development, including the Sustainable Development Goals.

Attributes: INLJ, LLM.

SCGL 0299. SECURITIZATION. (2 Credits)
This course examines the legal aspects of the multi-trillion dollar securitization industry. Securitization is a method of finance which seeks to minimize the bankruptcy risks that are faced by commercial lenders, but it provides other benefits to lenders and borrowers alike. The course will focus on the bankruptcy law, uniform commercial code, banking law, tax and international law issues that arise in structuring securitization transactions and how such issues are addressed by securitization attorneys in today's legal and business environment.

Attributes: CORC, CRCP, LAWB, LLM.
SCGL 0321. TITLE VII DODD-FRANK DERIVATIVES COMPLIANCE. (2,3 Credits)
The course objective is to give the students an overview of Dodd-Frank's Title VII - Wall Street Transparency and Accountability ("Title VII"). Since Dodd-Frank represents the most comprehensive regulatory reform measures taken since The Great Depression, it impacts the financial market in a comprehensive and significant way. All U.S. financial transaction lawyers going forward will need to be intimately acquainted with Dodd-Frank, and starting with Title VII is a good place to start. Once the students have a handle on Title VII, the other Titles will be easier to digest. No prior course pre-requisites apply to this class. All JD's and international LL.M. students are welcome to register. The course will examine whether the drafters of Title VII understood the over-the-counter derivative products well enough to legislate the market properly, whether the rules issued by the federal agencies have been promulgated in the way that the legislators intended, and whether the provisions of Title VII have helped to stabilize the derivatives market. One of the principles underlying this compliance class is that in order to truly understand how to regulate a financial product (and therefore know how to comply with the regulation), one must understand thoroughly the workings of the financial product as a starting point. This course will first start with an examination of the legal, market, and economic risks of three types of derivative instruments: (i) an interest rate swap, (ii) an option, and (iii) a CDS-on-ABS. The third instrument, CDS-on-ABS, has been alleged as having caused the financial crisis that started in 2007. We will examine in class whether this is the case. In this course, the students will learn the legal, regulatory and risk management framework of the derivatives market before Title VII was implemented which will then be compared to the legal, regulatory and risk management issues that market participants face after Title VII was signed into law. Basically, how have the day-to-day operation and client-facing activities within a corporation, financial entities and investment banks been impacted due to the implementation of these rules. Before Title VII, one of the main focus of the industry was to customize the derivative products to meet the client's needs. The focus now is compliance with Title VII in the most cost-effective way. The class will include discussions on whether there is still room in the market for creativity in customizing derivative products. The students will review the key derivative contracts that run the industry (such as the ISDA and CSA) and consider how the promulgated rules have impacted those contracts. The class will also cover the methods that the corporations, hedge funds, financial institutions and investment banks have undertaken to ensure compliance with Title VII. Some cross-border matters (from the U.S. perspective) will be included in this class. Equipped with the foundational knowledge regarding Title VII of Dodd-Frank, the course will conclude with each student addressing in a paper his or her thoughts on whether Title VII would have been able to prevent the economic crisis that began in 2007 if Title VII had been in place prior to 2007. The course grade will be determined by a combination of 20% class attendance and participation, 40% on the final paper, and 40% on the final exam. Condensed semester: Class meets Feb. 13, 27, April 9, 23, 2016.
Attributes: CORC, CRCP, LAWB, LLM.

SCGL 0402. BROKER DEALER. (2 Credits)
Broker-dealer regulation explores the federal and state securities laws and the self-regulatory system and rules under which brokerage firms and their associated persons operate. We also contrast other regulatory schemes, including for investment advisers, fund managers and swap entities. We take a pragmatic look at the regulatory challenges faced by financial services firms and the lawyers who advise industry participants. Topics include broker-dealer registration and exemptions from registration, sales and trading, research, investment banking, cross-border securities activities, supervision, managing conflicts of interest and controlling inside information, enforcement defense, arbitration and litigation. The course is conducted in an informal seminar style and requires a paper.
Attributes: CORC, CRCP, LAWB.

SCGL 0417. SECURITIES REGULATION. (3,4 Credits)
Emphasizes the Securities Act of 1933, the registration process, statutory and administrative exemptions from registration, and civil liabilities. Surveys the reporting requirements of the Securities Exchange Act of 1934 and the state Blue Sky laws. Examines the role of the Securities and Exchange Commission and the ethical obligations of securities lawyers. Open to students who have completed at least one semester of Corporations and Partnerships.
Attributes: BFF, CORC, CRCP, LAWB, PIE.
Prerequisite: BUGL 0201 (may be taken concurrently).

SCGL 0423. SECUR REGULATIONS REFASHIONED. (2 Credits)
Securities Regulation Refashioned provides students with an insider's perspective of the U.S. system of securities regulation and recent fundamental reforms. We will discuss the effects and effectiveness of topical regulation, such as the implementation of the Dodd-Frank and JOBS Acts. We will examine current issues in regulatory enforcement, including the prominent securities scandals and frauds of recent years. Students will also learn about the substantive and procedural law governing broker-dealers and investment banking firms. The course focuses on the real-world application of securities regulation and, where possible, seeks to provide students with practical experience in preparation for legal practice. In prior years, we have invited leading members of the securities industry to guest lecture during the course of the semester. Our syllabus is tentative, and we attempt to modify it during the semester to meet the students' interests and respond to developments in the securities industry.
Attributes: CORC, CRCP, LAWB.

SCGL 0451. SECURITIES LAW ENFORCEMENT. (2 Credits)
This seminar will deal with the enforcement activities of the SEC and the various self-regulatory organizations (NASDAQ and NYSE) (the ASROs@) in enforcing compliance with the federal securities laws and, in the case of the SROs, also their own disciplinary rules. While the scope of the seminar will encompass an overview of the regulatory and self-regulatory scheme in the securities industry and, where relevant, with respect to the issuance and trading of securities in the financial markets, it will primarily be a litigation-oriented seminar focusing on counseling and defending those subject to enforcement investigations and proceedings. Each student will prepare a paper on a significant relevant issue and make a presentation to the seminar group.
Attributes: JD, LAWB, LLM.
SCGL 0605. SECURITIES LITIGATION. (2 Credits)
This course will be a review of and clinical exercises with respect to certain aspects of securities litigation. It will focus on the key differences between traditional civil litigation and securities litigation including class action procedures. The initial focus will be a review of the provisions of the key securities laws that can lead to liability, particularly Sections 11 and 12 of the Securities Act of 1933 and Section 10(b) of the Securities Exchange Act of 1934, and Rule 10b-5 thereunder. Intertwined with the review of Rule 10b-5 cases will be clinical components. First, a five minute moot oral argument (based only on materials assigned), addressing the issue of scienter on a motion to dismiss. Second, a five minute moot oral argument (based only on materials assigned) on a motion to dismiss or other key issues such as materiality, pleading standards, etc. Again, no outside research is required or permitted for either of these exercises. The next phase will review a variety of recent Supreme Court decisions addressing current issues in class action certification. This next phase will also include a clinical component focusing on a review of an actual class action complaint and a motion to dismiss with a discussion as to the tactics, strengths and weaknesses presented. There will be a final clinical component at the end of the Rule 10b-5 and class action sections which will be the preparation of a draft brief insert with respect to a motion to dismiss of no longer than 500 words (two typewritten pages). Time permitting, we will also review less intensely insider trading issues, international securities fraud litigation, including the Morrison decision, and its argument before the Supreme Court, and securities arbitration as providing a remedy for individual investors. Because a general course in securities regulation is not a prerequisite, there may be digressions along the way on capital markets and other regulatory issues. The basic course text will be Nagy, Painter and Sachs, Securities Litigation and Enforcement: Cases and Materials. In addition, a compilation of the relevant statutes and regulations is required. Grading will be, 20% general class participation, 20% for each of three "practical" components (the two moot arguments and brief point draft) (or 60% total) and 20% from a final.

SCGL 0807. M & A - Sec Reg Pract Fund. (2 Credits)

SCGL 0807'. M & A/SECURITIES PRACT FUNDAME. (2 Credits)

Service Learning (SERV)

SERV 0099. SEMINAR SERVICE LEARNING:. (1 Credit)
Through the Service-Learning Interdisciplinary Seminar offered each semester, students independently make the connection between a course they are enrolled in and service to the community. By completing 30 hours of service, attending a series of 5 interdisciplinary seminars arranged by the service office, and writing 2 integrative essays, the student deepens course concepts connecting to societal issues through ongoing dialogue and reflection. After successful completion of all requirements, the student may earn an additional 1 credit for the course with which they are connecting the service experience. To become a participant in the Interdisciplinary Seminar a student must: 1. Pre-register for SERV 0099, choose the section for your home campus. 2. Choose which course and service agency with which you would like to partner (Service-Learning staff assists in each student’s placement at an agency). 3. Pick up a service-learning agreement from the Community Service Program office. 4. Discuss connections between service and the course with a Community Service Program staff member. 5. Discuss connections between service and the course with instructor, get instructor’s approval and have the course instructor sign the agreement. 6. Discuss the agreement with the agency supervisor, who must also sign the agreement. 7. Make a copy of the agreement for your own records and return the original to the Community Service Program Office on your campus the second Friday of the semester. Students may receive only 1 extra course credit per semester and a total of 3 credits during their undergraduate career. Students receive credit for the learning that takes place through the integration of service and scholarship, not for the service itself.

Attribute: SL.

SERV 1000. COMMUNITY HEALTH PROGRAM IN CALI, COLOMBIA. (1 Credit)
The Fordham College at Rose Hill Spring Break Community Health Program in Cali, Colombia is a service abroad program designed for students in the services with an interest in health issues in developing countries; the government, societal, and environmental, cultural factors that influence healthcare; and international health issues and programs. Students should expect to learn about overcoming challenges in healthcare from the context of a developing country.

Social Work (graduate) (SWGS)

SWGS 0766. MAINT MATRIC - NO MENTOR. (0 Credits)
Students who have been granted permission, for serious personal reasons, to take a leave of absence from the program register for this course each semester.

Attribute: ZAMM.

SWGS 0799. MAINT MATRIC - MENTORED. (0 Credits)
Intended for students who have completed all course requirements and require faculty mentoring and the use of the library and other university facilities while completing research and writing the dissertation.

Attribute: ZSMN.
This course will review basic pharmacology including how and why certain drugs cross the blood brain barrier (BBB) and target the CNS as the site of action.

This course will foster an understanding of America's ambivalence regarding substance abuse, and how this ambivalence has resulted in a fragmented service delivery system that is often geared towards criminal justice interventions.

This course will introduce the knowledge, skills and strategies necessary to examine the health, safety, and recovery of persons suffering from addiction and their families (NYS OASAS Ethics Trainers Manual) and introduce future practitioners to the values and principles of the profession, including a review of the Canon of Ethics for the practice of professional addiction counseling.

The course uses the development of the 12 core functions and the global criteria to enhance the participant's skill level in screening, assessments, and intake. All participants conduct multiple types of screenings used during the interview for client intake and reassessment.

The legal foundations for social welfare policies and programs are examined, including the history and development of the rule of the law, civil liberties and civil rights, sources of different systems of law, due process and legal institutions. Special attention is given to professional ethics and on preparing social workers to practice in and with the courts.

The first of two required courses covering the content of social welfare policies and services, this course introduces students to the ways American society has provided for human needs and addressed social problems through the social welfare institution, and to the underlying values, assumptions and philosophical perspectives that explain the development of this country's social welfare system. The major forms of social provision are addressed in an historical framework that traces the development, expansion, contraction, reorganization and (at times) their elimination. Special attention is given to how economic, political and social forces lead to differential policies and provisions with racial, class and gender dimensions, as well as to inequities, and social and economic injustices. The role of the social work profession in influencing social welfare is emphasized.

This course is designed to emphasize the development and importance of Treatment Planning, Discharge Planning, Record Keeping, Referral, and Service Coordination. Participants practice comprehensive treatment planning, develop discharge plans for multiple types of chemical dependency services using appropriate grammatical principals and obtainable measurable objectives and integrated activities.

The course encompasses but is not limited to the listed populations: HIV/ AIDS, Veterans, Latino(as), LGBT, etc.

The course introduces the knowledge, skills and strategies necessary to examine the impact of specific social policies on clients, agencies, service delivery and practice, and to influence these policies as participants in the major arenas where policy is analyzed, formulated, implemented and changed. This course is offered with a broad focus upon diverse fields of practice or, alternatively with a focus on a specific practice area. Prerequisite: SWGS 6006. This Foundation- level course is usually taken while the student is in the Advanced phase of the program.

SWGS 6009. SOC POL ANAL FOR MACRO PRAC. (3 Credits)
This course further develops the analytical and political skills needed by social work leaders to effectively address the multiple and complex social issues affecting communities, organizations, planning and administration. Students are exposed to advanced policy analysis skills such as fiscal analysis of government budgets and legislative analysis. The course explores the different ways in which social policies are made and implemented at each level of government, and ways in which analysis can be used by administrators, community and organizational practitioners to affect purposeful change. This course builds on basic policy skills and research principles from foundation-year courses by applying them to questions of policy suitability and effectiveness.

SWGS 6012. INTERDIS:CHILD ABUSE/NEG. (3 Credits)
The course is designed for social work and law students to jointly study the efficiency and limitations of the professional responses of lawyers and social workers to the children and families that come to the attention of the child protection system and family court. This course will examine the legal, ethical and clinical standards that govern professional responsibilities to children and families. Dilemmas shared by practitioners in both professions and common ground for collaboration between the professions will be explored. This course is team-taught by members of the social work faculty and Law School faculty. Prerequisite: Completion of the Foundation requirements.

SWGS 6014. WOMEN, WORK AND POVERTY. (3 Credits)
This transverse elective course focuses on low income and working class women in the United States taking an interdisciplinary perspective on issues of race, class and gender, and striving to understand their effects on women's quality of life and opportunities for advancement. More specifically, theory and empirical research are harnessed to examine the causes of women's poverty and economic dependence, women's experiences in the family and the workplace, and the impact of public policy on women. Various strategies for social change are critically analyzed as vehicles for achieving economic justice and parity for women.

Attribute: CEED.
Prerequisite: SWGS 6801 (may be taken concurrently).

SWGS 6015. PROFESSIONAL WRITING - SW. (0 Credits)

SWGS 6016. ETHNICITY & CULTURE / SW PR. (3 Credits)
This course examines the ways in which ethnicity and culture affect individuals and groups and their interactions with society and social institutions. In particular, it explores the ways in which ethnicity is influential in all areas of social work practice as the perceptions of clients, practitioners, administrators, and policy makers reflect their own ethnic backgrounds. Consequently, the social work relationship itself is shaped by ethnic values and beliefs. Understanding and being knowledgeable about the role played by ethnicity is critical for effective social work. The course presents a model that is applicable to all aspects of social work as it helps to clarify the ways in which ethnicity can affect perceptions. The influence of ethnicity throughout the life course as well as its role in work with immigrants, individuals, families, groups, agencies, and communities is examined. The course also explores the ways that health care and social policies impact on and relate ethnically diverse persons. The focus of the course is the development of knowledge and understanding among students that can assist them in working effectively with diverse populations in diverse settings.

SWGS 6017. EMPOW PR IMMIGR & REFUGE. (3 Credits)
Empowerment Practice with Immigrants and Refugees is an advanced lecture-seminar course that focuses on critical approaches to practice with/in immigrants and refugees. This course builds on HBSE, social policy, research, and micro and macro practice content in the Foundation Curriculum. This course focuses on: 1) introduction of post-colonial perspective and theoretical representations of immigrant and refugee communities, 2) critical examination of the principles of empowerment practice and understanding of trauma and recovery, 3) effects of displacement and transnational migration on immigrant and refugee individuals and their communities; and 4) social service provision strategies pertaining to working with/in immigrant and refugee communities.

SWGS 6028. CHILD ABUSE. (3 Credits)
This course focuses on intervention with abused children and battered women from an ecological perspective. It highlights the need for trauma-specific interventions with individuals and families, as well as system-wide advocacy with social and cultural institutions that contribute to the continuation of abuse within family relationships.

SWGS 6030. DEATH & DYING. (3 Credits)
This course examines the experience of death as encountered by social workers in clinical practice. The focus is on providing a theoretical base for understanding the psychosocial aspects of loss, death and bereavement across the life cycle. Additional emphases include strategies, techniques and goals of interventions in clinical work with the bereaved.

SWGS 6036. Social Work Practice with Service Members, Veterans and Their Families. (3 Credits)
This course, open to all advanced year social work students, explores the role of social work within the military in meeting the needs of active duty soldiers, veterans and their families. The course begins with an exploration of social work practice within the military from an historical perspective. The changing demographic makeup of the military and the implications for social work practice are also a part of this exploration. Issues related to the development of cultural competence and cultural sensitivity when working with the military are also explored. The course then focuses on developing an evidence-based understanding of the current social service, mental health, and health needs of active duty soldiers, veterans, and their families and the intervention methods being used to respond to these needs. While the needs of soldiers returning from Iraq and Afghanistan are emphasized, the similar and different needs of veterans from previous conflicts are also considered. The challenges being faced by social workers in meeting the needs of military women, single parents, gay and lesbian soldiers and immigrant soldiers and their family members are also explored. Students analyze and critique current methods of intervention at all levels of practice and consider ways that the social work profession could further contribute to meeting the needs of active duty soldiers, veterans, and their families.
SWGS 6038. AGN & COM ASSESS & EVAL. (3 Credits)
Rationale: As professionals who intervene on behalf of vulnerable populations, social workers have an ethical obligation to evaluate the effectiveness of interventions with the individuals, families, organizations, and communities they serve. Contemporary social work practice requires that administrators and practitioners are accountable to multiple stakeholders, including policy makers, funders, agency executives, and clients. Social workers must be prepared to respond to stakeholders using research and quantitative and qualitative research and evaluation measures. Purpose: The purpose of this course is to prepare students for contemporary social work practice that demands that social workers are proficient in evaluating agency and community-based programs. Students who take this course will learn about a variety of evaluation methods, including their purpose, effectiveness, and efficiency. The range of philosophies, methods, and skills commonly used for evaluating human service programs and social work practice interventions will be covered. Special attention is placed on evaluating the extent to which social programs address diversity and empowerment across diverse populations and settings.

SWGS 6040. SOC WORK-HUMAN RIGHTS PE. (3 Credits)
This course is an introduction to the human rights perspective and an exploration of its intersection with social work values, ethics, theory, and practice. The learner is challenged to examine how adopting the human rights perspective could alter social work’s service provision, administration, research, education, language, policy analysis, and advocacy.

SWGS 6050. HUMAN RIGHTS & SOCIAL JUSTICE. (3 Credits)
Foundations of the HR Social Justice perspective in social work.

SWGS 6102. CASE MGMT IN DIVERSE POP. (3 Credits)
This course examines principles of case management, models of service delivery, clinical issues in case management and the range of service delivery systems. Special attention is given to the diverse populations using case management (e.g., persons with HIV/AIDS, mental illness or frailty). The advocacy role of the social worker in case management is emphasized, as is the range of social work practice activities used in case management.

SWGS 6103. SOCIAL WORK AND AIDS. (3 Credits)
This course focuses on the impact of HIV and AIDS upon individuals, families and communities. A knowledge base from social work, social sciences, psychology, psychiatry, medicine, law and public policy is used to explore policy and practice implications. Advocacy and case management interventions are stressed.

SWGS 6104. SPIRITUALITY & SOC WK PR. (3 Credits)
This course will explore a number of holistic concepts under the definition of spirituality. The many ways spirituality can be used in a variety of social work practice settings will be the main theme. A range of methods of spiritual practice and approaches to healing will be taught.

SWGS 6106. DOMESTIC VIOL:SW & LAW. (3 Credits)
This course, open to both social work and law students, explores the roles of social work and law in the field of domestic violence. The course is based on the premise that increased interdisciplinary understanding will lead to more effective intervention for both victims and perpetrators. Jointly taught by a social work professor and a law professor, the course provides students with both an historical and a contemporary perspective on the social and legal response to domestic violence. An understanding of the practice skills required in the performance of social worker and lawyer roles is emphasized. Specifically, students explore roles in detection, crisis intervention, assessment and intervention. Prerequisite: Completion of the Foundation requirements.

SWGS 6108. SEXUALITY & SOCIAL WORK. (3 Credits)
This course presents an integrated approach to understanding human sexuality and the range of human sexual expression using the ecosystems and strengths perspectives. Students will learn to assess and to explore sexual issues that social workers frequently encounter in organizational practice settings and develop an overview of the social worker’s professional role in helping clients with sex-related concerns. Models of practice applicable to individuals, couples, and families will be considered as well as practice models aimed at meeting organizational and community needs. Current and historical research will be examined to understand the context and development of diverse treatment models. Sexuality as it relates to GLBT populations, race and ethnicity, and cultural diversity are integrated within the course content. This course emphasizes the social worker’s ethical responsibility to clients within diverse social work practice settings to promote the highest practice standards. This is a transverse elective.

SWGS 6109. Meeting the Challenge of Poverty: Capacity Building with Faith Communities. (3 Credits)
This course will introduce students to capacity building with the faith community on behalf of the poor. The stage will be set to consider the role of social work and faith communities through review of poverty in the U.S, the incumbent challenges the poor experience, and the role that different faith traditions have based on their belief in social justice as a lived mission. Specific methods for capacity building will include asset-based community development, use of a strengths perspective, empowerment practice and building sanctuary and understanding social work traditions of community development, advocacy and community-based clinical practice. Students will be introduced to faith capacity building initiatives in New York City, for example: housing collaboratives, congregational organizing, alternatives to incarceration, creating refuge and sanctuary, mentoring programs for the formerly homeless, and emergency food services. This is a transverse elective.

Attribute: CEED.

SWGS 6110. FORENSIC SOCIAL WORK PRACTICE. (3 Credits)
Forensic Social Work Practice, prepares social workers to practice at the intersection of social work, public health, and the legal system in order to tackle contemporary social problems, such as health disparities and mass incarceration. Many forensic populations, such as racial and ethnic minorities, at-risk youth, the elderly, veterans, immigrants, LGBTQ persons, persons with disabilities, or those living in poverty or communities of violence often lack access to quality services and political, civil, social, economic, and cultural justice. Course participants learn and apply a human rights legal framework and social justice and empowerment theories to guide multi-level prevention, assessment, and interventions with historically underserved individuals, families, and communities. After completing the course, participants will increase their knowledge, values, and skills for collaborative empowerment practice with forensic populations in diverse practice settings, such as healthcare, social service, and legal settings, including protective services, the courts, and corrections.

SWGS 6206. PSYCH ASPECTS IN SW. (3 Credits)
This course uses a seminar approach to focus on the psychological dimensions of various theoretical, clinical, practice and philosophical aspects of social work. There is significant eclectic content and use of audiovisuals.
SWGS 6208. HUMAN BEHAV-SOC ENVIR I. (3 Credits)
The is the first of a two-semester course sequence. The course presents content from the behavioral sciences and related professional literature regarding those theoretical constructs and insights most relevant for social work practice. It uses an ecosystems perspective to coordinate and synthesize a broad range of knowledge pertinent to practice concerning the transactional and interactional aspects of large and small systems.

SWGS 6209. HUMAN BEHAV-SOC ENVIR II. (3 Credits)
The second semester course in the Human Behavior and Social Environment sequence discusses human development over the life course. Similarities and variations in personal and social functioning; in social, cultural and physical environments; in complex organizations and social institutions. All are examined for insights concerning the interplay between people and their environment. This focus includes biological, psychological and sociocultural factors and how the environment affects individual development. Prerequisite: SWGS 6208.

SWGS 6303. HUM SERV AGENT-THE CONT OF PRA. (3 Credits)
This course will focus on how agency goals, structure, members, technologies and relationships with the environment affect how and to whom services are provided. Emphasis is given to the skills and strategies social workers need to engage in organizational change and efforts to enhance the quality and delivery of services. This course is open to beginning nonmatriculated students as well as to all interested matriculated students in the Foundation or Advanced phase of the program.

SWGS 6319. SOCIAL JUSTICE - ORG & COMM. (3 Credits)
First in a three-course generalist social work practice sequence, this course examines the organizational and community context of social work practice from a social justice perspective. It places particular emphasis on oppression, institutional racism, economic and social discrimination and how these factors affect access to social services. Students consider how systemic oppression and social justice may emerge in agency, organizational and community settings. A strengths-based, ecological assessment-planning-intervention-evaluation paradigm is used to focus learning and help students develop practice values, knowledge and skills relevant for work with larger systems. Concurrent field instruction is required; students in the Experienced and Employed Social Service Practitioners plan are exempt from concurrent field instruction required but must be enrolled in the field practicum laboratory course (SWGS 6907).

Corequisite: SWGS 6321.
Prerequisites: SWGS 6208 (may be taken concurrently) and SWGS 6209 (may be taken concurrently) and SWGS 6802 (may be taken concurrently).

SWGS 6321. GEN SW PR IND FAM GRP ORG I. (3 Credits)
This second course in the generalist social work practice sequence covers the initial phase of the helping process with individuals and families and the middle phase with individuals. It focuses on building generalist practice skills in communication, interviewing, engagement, individual and family assessment, intervention planning, contracting and case documentation. Concurrent field instruction is required; students in the Experienced and Employed Social Service Practitioners plan are exempt from concurrent field instruction requirement but must be enrolled in the field practicum laboratory course (SWGS 6907).

SWGS 6322. GEN SW PR IND FAM GRP ORG II. (3 Credits)
The third course of the generalist practice sequence continues to build skills of generalist practice, attending in greater detail to the processes of intervention, evaluation and termination. Particular attention is paid to the beginning and middle phases of work with families and groups, and the necessary tasks and skills involved in endings and transition for all system levels including the evaluation of practice. Skills involved in case management are addressed. Prerequisite: SWGS 6321; concurrent field instruction required; students in the Experienced and Employed Social Service Practitioners plan are exempt from concurrent field instruction requirement but must be enrolled in the field practicum laboratory course (SWGS 6907).

SWGS 6403. FAMILY ORIENTED TRTMT. (3 Credits)
This course provides an introductory overview of major themes of family intervention. The approach is eclectic and integrates theory and practice. The styles of Ackerman, Satir, Minuchin, Bowen and others are emphasized.

SWGS 6404. CRISIS INTERVENTION. (3 Credits)
This course emphasizes the theoretical base that guides crisis intervention and trauma treatment with individuals, families and groups across the life cycle. Case materials illustrate the assessment and resolution of crisis and trauma in a variety of contexts.

SWGS 6408. SW PRACTICE W/ CHILDREN. (3 Credits)
The focus of this course is on the application of theories, concepts and principles in the direct treatment of children. A developmental and systemic perspective serves as the framework for assessing the child in the context of family and environment. A range of interventive modalities is presented, including individual, family and group treatment, as well as interdisciplinary collaboration and psychoeducational approaches.

SWGS 6409. PRAC OLDER PEOPLE & FAMS. (3 Credits)
This course focuses on direct practice with older people and their families. The course examines the social context of aging, the aging process, associated changes and the effects on older people and their families. Emphasis is on the nature of support systems and the social work role in maintaining and enhancing older people's functioning and well-being. The role of caregivers, when elders are limited in their capacity to function independently, is examined.

SWGS 6412. PRAC IN THE WORKPLACE. (3 Credits)
The focus of this course is on the individual as worker, the environment as defined by employing organizations, work itself, and social policy as it relates to the world of work. Special attention is given to: professional roles and ethical issues; models of service delivery like EAPs; opportunities and challenges in practice in workplace settings; and issues such as managing work and family, work transitions, diversity in the workplace, creating supportive work environments and organizational cultures and climate.

SWGS 6413. CLINICAL SW PRAC 1. (3 Credits)
The first of a two-course sequence in advanced clinical social work practice, this course expands and deepens the knowledge base of generalist practice, emphasizing advanced assessment with clients across the life cycle, and evaluation of practice. Treatment planning with individuals, families and groups are all explored. Special attention is given to the assessment of trauma. Prerequisite: SWGS 6319, 6321, 6322; concurrent field practice is required.
SWGS 6414. CLINICAL SW PRAC 2. (3 Credits)
This is the second of a two-course sequence in advanced clinical social work practice. Building upon a generalist approach to social work practice and an understanding of psychopathology and resiliency, it focuses on clinical decision making and interventions. It also examines ways in which specific models of intervention with individuals, families and groups can be tailored to client needs. Special attention is given to work with clients across the life cycle who are coping with vulnerable conditions or traumatic life events. Prerequisite: SWGS 6413; concurrent field practice is required.

SWGS 6415. SEM: CLINICAL SW PRAC. (3 Credits)
This required course assists students in integrating the knowledge gained in the required clinical practice courses and in field instruction. By developing and presenting an internship case, students demonstrate their ability to integrate theory and practice. Prerequisite: SWGS 6413; concurrent SWGS 6414 and field practice are required.
Prerequisites: SWGS 6413 (may be taken concurrently) and SWGS 6414 (may be taken concurrently).

SWGS 6417. PRAC: ABUSERS ALC & OTHE. (3 Credits)
This course examines the diagnostic and treatment implications for social work practice with alcoholics and those dependent on other drugs. Addictions are viewed from a bio-socio-psychological perspective. The diversified roles of the social worker are emphasized.

SWGS 6418. SCHOOL SOCIAL WORK PRACT. (3 Credits)
This course focuses on the knowledge, values and skills appropriate for social work practice within the school setting. Understanding of the school context and its politics is highlighted. Special attention is paid to working with students, teachers, parents and administrators as well as on interfacing with the community. Emphasis is placed on the tasks of social assessment for educational planning, the formulation of goals and objectives, record keeping, accessing school resources and external referrals. Theoretical approaches include problem solving, crisis and role theory, play therapy, brief treatment and group treatment.

SWGS 6420. CLIN SW PRAC II ADULTS & FAM. (3 Credits)
Clinical Practice 2 with adults and families expands and develops the knowledge base of Clinical Practice 1, emphasizing advanced clinical practice with groups, clinical interventions with adults across the life cycle, practice monitoring and evaluation, and endings and follow-up in clinical practice. This course builds on the theoretical and conceptual frameworks covered in Clinical Practice 1 by helping students to understand and apply clinical strategies and practice models that emerge from those frameworks, are guided by client needs, and are informed by empirical and research evidence. Case examples will be selected that demonstrate clinical practice with diverse client populations from various cultural groups.

SWGS 6421. CLIN SW PRAC II ChIL YTH & FAM. (3 Credits)
Clinical Social Work Practice II with Children, Youth, and Families uses a developmental framework within a dynamic ecosystems perspective that is trauma-informed as a foundation for advanced clinical practice. Attachment theory anchors assessment and intervention with preschoolers and their families; theories and models of play therapy and social competency are examined as ways to promote social and emotional mental health for school-aged children. Intervention with adolescents focuses on individual youth as well as family system intervention, group practice in school and residential contexts, and community-based multi-system models. The role of prevention, early intervention, and trauma-specific interventions are explored in relation to children, youth and their families. This advanced clinical practice course focuses on the use of evidence to inform practice and the implementation of evidence-based treatment models as they support best-practices. This course aims to create reflective practitioners who can make differential assessments, understand the use and purposes of different modalities of intervention, and learn to develop integrated treatment interventions that are theoretically informed and research-based. The multiple modalities examined in this course include culturally responsive work with parent-child dyads, psycho-education for multi-family groups, parent education, individual, group and family interventions as well as community based practices.

SWGS 6422. INDIV ORIENTED TREATMENT. (3 Credits)
This course provides an overview of the principles, premises and practices of a selected sample of current theories and methods of intensive individual treatment. Examining and comparing the clinical dimensions of history-taking, diagnosis, symptomatology, time and relationship, it focuses on critical appraisal of commonalities and differences across theories with a view toward developing an integrated approach to direct social work treatment of individuals.

SWGS 6424. WOMENS ISSUES IN SW PRAC. (3 Credits)
This course explores the evolving theory of women's psychological development with an emphasis on the implications for social work intervention. Through an examination of the impact of gender throughout the life cycle, the course seeks to increase understanding of gender-related premises underlying professional social work practice and the issues women clients present.

SWGS 6426. COGNIT & BEHAV SW PRACT. (3 Credits)
This course focuses on the theory and practice of cognitive-behavioral social work. Several common problems of children, adolescents and adults are examined, including aggression, depression and anxiety disorders. Techniques that effectively treat these problems such as cognitive reframing, behavior modification, assertiveness training, stress management, the use of homework and bibliotherapy and the evaluation of practice will be introduced.

SWGS 6427. BRIEF TRTMT: CURR MODELS. (3 Credits)
This course provides an overview of the theory, premises, practice principles, method and techniques used in the major current brief treatment models. It examines these elements, the models from which they are drawn, and the client populations and problems best served by a brief approach. The efficacy of these different approaches is also examined.

SWGS 6428. SOC WK PRAC WITH ADOLESC. (3 Credits)
Adolescence is explored within a developmental context in this course. The importance of maturational norms, family dynamics, class and cultural factors and peer group influence are examined. Particular attention is paid to adolescents at psychosocial risk and to the development of assessment and intervention skills with the adolescent client.
SWGS 6429. METHS OF GROUP INTERVENT. (3 Credits)
This course focuses on group practice as an integral part of social work intervention. It includes theories and methods of work with groups for prevention and treatment, and the use of groups in staff and team relationships. Theory and practice are integrated through an eclectic approach. Teaching is augmented by group exercises.

SWGS 6430. ADV CLINIC ASSESS& DIAGNO I. (3 Credits)
This course, required for those electing a clinical concentration, covers clinical assessment and diagnosis from an historical and developmental point of view. Special attention is paid to the social work perspective in relation to the classification systems available to the practitioner. The course focuses on recognizing and understanding mental health and mental illness, and distinguishing between client dysfunction and client strength within an environmental framework. Prerequisites: SWGS 6208 and SWGS 6209.

SWGS 6431. ADV CLIN ASSESS & DIAGNO II. (3 Credits)
This course continues the work of biopsychosocial assessment from a social-work value base that was presented in Advanced Clinical Assessment and Diagnosis I. After a review of the core human rights and social justice values that serve as foundation for both 6430 and 6431, it focuses on specific areas of biopsychosocial well being and illness, beginning with those first observable in childhood and adolescence. In subsequent modules, the biopsychosocial functioning related to confronting trauma, connecting to reality, relating to others, managing the body experience, being cared for, and responding to the vicissitudes of life. The course presents the skills and knowledge for the differential assessment of people across the life span, emphasizing the importance of recognizing both strengths and vulnerabilities at all ages and in all areas of functioning. As in Advanced Clinical Assessment and Diagnosis I, at the conclusion of the course students should be able to: complete comprehensive assessments of mental well mental illness in various areas of biopsychosocial functioning; create working case formulations based on their assessments; critically utilize the DSM-IV when appropriate; and identify empirically informed interventions relevant to their case formulations and diagnoses.

SWGS 6433. RELATIONAL PR-CH/ADOL/ADULTS. (3 Credits)
This course will emphasize the application of relational theories attachment theory, ego psychology, object relations theory, self psychology and women's relational theory to social work practice. Risk and protective factors in child development will also be considered. Case materials of children, adolescents and adults will be discussed.

SWGS 6434. EVIDENCE BASED MH PRACT. (3 Credits)
This course is aimed at developing the knowledge and skills necessary for working with individuals with a diagnosis of serious mental illness using recovery-oriented, evidence-based practices. Students will become familiar with evidence-based practices, within a recovery-oriented paradigm, as a general approach to practice as well as specific evidence-based interventions to use for individuals with a diagnosis of serious mental illness. It is assumed that students will have a basic knowledge of serious mental illness as a pre- or co-requisite, however, a review will be provided. Students will learn to examine research literature to determine the various levels of support for specific interventions and essential principles for translating research into practice. In addition, they will identify the appropriate treatment outcomes that reflect effective, quality mental health practice. Each evidence-based practice presented will also be examined for its utility with diverse groups. Providing assessment and treatment to a diverse group of individuals with a diagnosis of serious mental illness is the focus of this course and will be discussed in detail. This is a clinical elective and there is a prerequisite § SWGS6430 Advanced Clinical Assessment and Diagnosis.
Prerequisite: SWGS 6430.

SWGS 6435. CLINICAL PRAC & SPIRITUALITY. (3 Credits)

SWGS 6436. TRAUMA TRMT/CHILD & ADOL. (3 Credits)
This course will introduce students to the common concepts underlying evidence-based treatment for traumatized children and adolescents, using a case analysis format. Trauma is broadly defined, and includes children and adolescents exposed to traumatic events including, but not limited to natural disasters, war, abuse and neglect, medical trauma and witnessing interpersonal crime (e.g. domestic violence) and other traumatic events. The course will highlight the role of development, culture and empirical evidence in trauma-specific interventions with children, adolescents and their families. It will address the level of functioning of primary caregiving environments and assess the capacity of the community to facilitate restorative processes.

SWGS 6437. CLINICAL SW PR W/ LATINOS. (3 Credits)

SWGS 6438. SW PRACTICE -LGBT INDIVIDUALS. (3 Credits)

SWGS 6439. EVID BASED PRACT CHILD& FAM. (3 Credits)
Pre-Requisite - SWGS 6901.
Prerequisite: SWGS 6901.

SWGS 6440. PR FOR CLIENT CTR MANAGEMENT I. (3 Credits)

SWGS 6441. PR FOR CLIENT CTR MGMTN II. (3 Credits)

SWGS 6443. SUICIDE ASSESSMENT & TREATMENT. (3 Credits)

SWGS 6444. INTERVENTIONS IN CLINICAL SW. (3 Credits)
Apply theoretical concepts to practice experience.

SWGS 6471. PALLIATIVE SOCIAL WORK. (3 Credits)

SWGS 6598. INTERNATIONAL AUDIT. (0 Credits)
Audit of a GSS course at an international campus.
Attribute: Z558.

SWGS 6599. CONTINUING EDUCATION SW. (0 Credits)

SWGS 6605. COMMUNITY ORGANIZATION 1. (3 Credits)
This course provides a history of community organizing, especially in the context of the social work profession and a way of meeting the needs of vulnerable and at-risk populations and communities. Focus is on the various community organizing models and the array of roles and functions of community organizers. Emphasis is on practice strategies and tactics for assessing, planning, implementing and evaluating community organizing projects and campaigns.
SWGS 6607. PRACT W/ TASK-ORIENT GRP. (3 Credits)
This course focuses on the knowledge and skills for effective work in and with a variety of an organizational task groups such as boards, committees, teams, staff meetings, workgroups, coalitions or administrative policy and decision making bodies. It examines group processes, tasks and functions, membership and leadership roles and effective group functioning. Experiential exercises provide opportunities for student self-assessment, insight and professional growth in relation to practice with groups. Concurrent field practice is required. Required CourseSeq Track B (Client-Centered Practice and Management)

SWGS 6608. QUALITY MANAGEMENT. (3 Credits)
This course deepens the knowledge and skills of the social work administrator by focusing on management practices that are currently being used in response to the emphasis on measuring organizational performance. Total quality management and quality improvement approaches are applied to human service organizations. The course focuses on the tools and techniques used to define quality, assess problems and measure improvement.

SWGS 6614. INTEGRATING TECHNOLOGY IN SOCIAL WORK PRACTICE. (3 Credits)
PREVIOUS TITLE: TECHNOLOGY IN SOCIAL WORK PRA.

SWGS 6615. SUPV & STAFF DEVELOPMENT. (3 Credits)
This course examines supervision and staff development as management functions in diverse agency settings and within the context of social work values and ethics. The philosophy, functions, principles and methods of supervision as well as staff development and training are covered. Emphasis is given to the knowledge and skills required to motivate and retain an effective and multicultural workforce, and to effectively supervise varying levels of staff (volunteers, nonprofessionals, professionals) during turbulent times.

SWGS 6616. PROG & PROPOSAL DEV. (3 Credits)
Students learn, step-by-step, to develop and prepare proposals, design programs, seek foundation funding and respond to grant requests. Attention is given to what makes programs and proposals effective and would enhance the likelihood of funding. Emphasis is on how program proposals relate to both organizational mission and funding interests and offer opportunities to serve underserved, neglected, vulnerable and at-risk populations.

SWGS 6617. ADMINISTRATION 1. (3 Credits)
The first of a two-semester course sequence in administration, this course introduces the key knowledge and skills needed to effectively manage human service programs, units or agencies. Content focuses upon the generic requirements of managers, regardless of organizational role, function, position or setting. Different perspectives are used to examine the manager's job in human service organizations. Special attention is given to becoming a manager, possible obstacles to effective management and issues around leadership, motivation, gender, ethnicity and race. Prerequisite: SWGS 6319, 6321, 6322; concurrent field practice is required.

SWGS 6618. ADMINISTRATION 2. (3 Credits)
The second of a two-semester course sequence, this course focuses on significant management areas including strategic planning, designing and restructuring organizations; managing finances; managing a diverse and multicultural workplace; evaluating programs, performance and agencies; and managing the environment. Cases are used to examine the theories and skills that provide a framework for management practice. Prerequisite SWGS 6617; concurrent field practice is required.

SWGS 6620. CLIENT CENTERED MGT I. (3 Credits)
The first of a two-semester course sequence in the management of direct service agencies, this course broadens and deepens the knowledge base of macro generalist practice, introduces the concept of client-centered management, and focuses on the management roles of social workers engaged in practice with clients. It focuses on knowledge and skills in relation to the planning, design, and administration of community-based programs, and in working with communities and organizations to insure quality services are available and accessible especially to populations-at-risk. Prerequisite: SWGS 6319. 6321, 6322; concurrent field practice is required.

SWGS 6621. CLIENT CENTERED MGT II. (3 Credits)
This is the second of a two-course sequence in advanced management. It expands upon managerial roles and skills for improving or changing programs and service delivery. Special attention is given to interagency collaboration, enhancing community capacity, and managing programs and agencies faced with challenges related to funding, staffing, competing values and changing environments. Prerequisite: SWGS 6620; concurrent field practice is required. Corequisite: SWGS 6414.

SWGS 6624. INT SOCIAL DEV-GLOBAL CXT. (3 Credits)
This course aims to expand students’ understanding of the global context and to equip students to work with diverse communities locally or internationally. International social development increasingly becomes the core component of change, hence the essence of social work as a profession with international coherence and global reach. As small communities everywhere are part of a larger machinery affecting the social and economic tapestry of the world, it is crucial for social work professionals to gain a better understanding of significant global issues, and to be prepared to engage in global social development, as agents of change. The course will focus on enhancing students’ skills in the areas of community building; community needs assessment and capacity mapping; community organizing; stakeholder analysis; and advocacy. The course is designed around the following themes: (1) international social development and social work theoretical perspectives and the roles of a social worker in the global context; (2) globalization, global issues and the consequences of these issues for communities and their residents from an international perspective; (3) human rights and the implications of choosing to become an agent of change from a human rights perspective; and (4) international social development current approaches; best practices and future trends. This is an administrative elective.

SWGS 6625. FUNDRAISING. (3 Credits)
A significant portion of work in the social welfare arena involves the nonprofit sector, which depends on philanthropic resources and public funding to function and survive. Resource development in the nonprofit sector relates to every dimension of social work practice. On a micro level, funding supports the direct services provided by social workers and other human service professionals. On a macro level, organizational administrators and community leaders collaborate with foundations and other philanthropic entities to support organizational, community, and societal change. This course introduces students to resource development and stewardship via two predominant channels: fundraising and grant making. The course emphasizes supporting the well-being of vulnerable populations. In addition to the development of foundational knowledge and concrete skills, the course conceptualizes philanthropy and fundraising within the framework of human rights, social justice and the NASW Code of Ethics.
SWGS 6627. LEADERSHIP & MACRO PRAC I. (3 Credits)
Frameworks of human rights, social and economic justice, and empowerment. Our students will become social workers who are committed to social change in all forms, transforming and building capacities in communities and organizations, through inclusive and collaborative strategies, via anti-oppressive practices, increasing access to resources, innovations, and collaborations.

SWGS 6628. LEADERSHIP & MACRO PRAC II. (3 Credits)
The two-semester Leadership and Macro Practice course prepares social work practitioners who operate from the frameworks of human rights, social and economic justice, and empowerment. Our students will become social workers who are committed to social change in all forms, transforming and building capacities in communities and organizations, through inclusive and collaborative strategies, via anti-oppressive practices, increasing access to resources, innovations, and collaborations.

SWGS 6700. SOCIAL WORK STUDY ABROAD. (3 Credits)
Summer study through U.S. schools of social work on international issues.

SWGS 6705. COMP INTL SOC WELF. (3 Credits)
This course explores the similarities and differences among helping systems in the United States and other societies. This includes consideration of historical, economic, political and social forces which influence the nature and functioning of those systems. Other topics covered include social development and the globalization of social problems.

SWGS 6801. SW RESEARCH 1. (3 Credits)
This is the first of a two-course sequence that culminates in the completion of a research project and presentation of a research report. This course introduces students to social work research and focuses on various phases of the scientific method from the preparation of a research question developed by the class to the point of data collection.

SWGS 6802. SW RESEARCH 2. (3 Credits)
In this second course in the foundation research sequence, students implement the proposed class research projects. The course includes content on data collection and analysis, how to interpret the theoretical and practical meaning of findings for social work practice, and how to report on and present data. Basic computer skills and statistical concepts (SPSS) are presented through “hands on” training in the computer laboratory. Prerequisite: SWGS 6801.
Prerequisite: SWGS 6801.

SWGS 6806. PROGRAM EVALUATION. (3 Credits)
The use of evaluative research in social welfare planning, program development and theory building is examined. Recent evaluations of social work practice, including interventions on a social policy, neighborhood, family and individual level, are reviewed. Traditional research designs are considered, but emphasis is placed on emerging models of evaluation. Course is appropriate for students preparing for direct service practice. Note: Research students, with approval from the director of the doctoral program, may enroll in the SWGS 7000 course series listed in the Doctoral Course Offerings.

SWGS 6812. ADVANCED RESEARCH I. (3 Credits)
This is the first of a two-course sequence in which students design and conduct an original research project submitted as a master’s thesis. The course focuses on techniques of a literature review, definition of a research problem, hypothesis formulation, design of data collection instruments and writing a research proposal. Prerequisite: SWGS 6805 (unless a waiver has been obtained by examination); concurrent field practice required.

SWGS 6813. ADVANCED RESEARCH II. (3 Credits)
This is the second of a two-semester sequence in which each student completes an original research project as a master’s thesis. The course focuses on advanced data analysis using statistical software, including data management, data transformations, presentation of data using tables and graphs and report writing. Prerequisites: SWGS 6805 (unless a waiver has been obtained by examination) and SWGS 6812; concurrent field practice is required.

SWGS 6901. FIELD WORK I. (4,5 Credits)
Actual practice with a limited work load under close supervision designed to assist the student in applying theory to practice and to enable the student to master fundamentals of generalist practice. Includes 10 two-hour seminar sessions. Fourteen hours per week from September through July; 21 hours per week from September through May. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ZMAL.

SWGS 6902. FIELD WORK II. (4,5 Credits)
Actual practice with a limited work load under close supervision designed to assist students in applying theory to practice and to enable students to adapt fundamentals of practice to a particular concentration and field. Includes 10 two-hour seminar sessions. Prerequisite: SWGS 6901; Advanced Standing students are exempt from this prerequisite. Fourteen hours per week from September through July; 21 hours per week from September through May. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ZMAL.

SWGS 6904. INTERNATIONAL FIELD LAB. (3 Credits)

SWGS 6907. FIELD PRACTICUM LABORATO. (3 Credits)
This required laboratory course for students who enter as experienced employees in the social services complements the Generalist Social Work Practice with Individuals, Families and Groups I and II. The focus is on the integration of classroom learning with practice. Assignments are closely related to issues covered in these practice classes. Class participation, process recording, presentations, role-playing and focused journal writing are important tools in the course. Upon satisfactorily completing this course, students will receive three credits and will be eligible for SWGS 6908, Combined Field Work in the following academic year.

SWGS 6908. COMBINED FIELD WORK. (7,8 Credits)
Open only to students admitted to the Experienced and Employed Social Service Practitioner plan, this course combines a review of fundamentals of practice with a focus on applying fundamentals in a particular concentration and field of practice. Students are in placement 28 hours per week from September through May, and are required to attend 10 two-hour seminar sessions during the work day or in the evening. Prerequisite: SWGS 6907.
Prerequisite: SWGS 6907.
This lab class is taken with SWGS 7002, Statistics II.

SWGS 7002. ADV STAT IN SOC WELF. (3 Credits)
Building on SWGS 7012, this course covers such topics as ANCOVA, MANCOVA, linear regression methods, logistic regression, and an introduction to path analysis. The course links theory, statistics, hypothesis testing and measurement. Students are expected to be proficient in the use of SPSS statistical package.

SWGS 7003. QUAL METH SW RESEARCH. (3 Credits)
This course explores the conditions under which qualitative research methods are desirable and feasible, the nature of qualitative information, and the relationship between the researcher and the research subject. Methods of qualitative research, as well as the process of developing inferences from findings are examined.

SWGS 7004. PHILOSOPHY OF SCIENCE. (3 Credits)
This course examines theory and theory development and their roles in social work. Focus is on social work epistemology, salient issues in social work theory, and the critical appraisal of ways of knowing.

SWGS 7005. THEORIES OF SOCIAL WORK. (3 Credits)
This course explores, critically examines and compares the major theories of social work practice with individuals. It covers the historical contexts in which theories emerged, their underlying assumptions and their empirical support. The course draws on the works of major social work thinkers as it spurs students to consider implications for theory development and research.

SWGS 7006. PROGRAM PERFORMANCE/PRACTICE. (3 Credits)
Evaluation of program performance and practice.

SWGS 7007. EVIDENCE IN SOCIAL WORK. (3 Credits)
This course reviews and critically appraises the evidence base for social work practice theory. Topics covered include the nature of evidence, theories of change, research on social work's effectiveness, and frameworks for the analysis of social work practice theory.

SWGS 7008. FAMILY AND GROUP WORK. (3 Credits)
This course parallels in format and structure SWGS 7005. In it, students examine the major theories of group work and family practice, the evidence base for practices, and innovations in practice, research and theory.

SWGS 7011. STATISTICS LAB. (0 Credits)
This lab class is taken with SWGS 7012, Statistics I.

SWGS 7012. STATISTICS I. (3 Credits)
This course introduces the statistical techniques most commonly used in social welfare research. The course will include the following topics: an introduction to descriptive and inferential statistics, level of measurement, frequency distribution, cross-tabulations, measures of central tendency, parametric vs. nonparametric statistics, normal curve, z scores, confidence intervals, introduction to significance testing, t scores, chi square, correlation and one way ANOVA. Computer analysis using statistical software is taught with an emphasis on interpretation of results.

SWGS 7013. STATISTICS 2 LAB. (0 Credits)
This lab class is taken with SWGS 7002, Statistics II.

SWGS 7012. ADVANCED FIELD INSTRUCTION. (5 Credits)
This course examines the major theoretical perspectives that describe and explain organizational behavior and organizational processes, including classical, human relations, political economy and organizational culture approaches. Emphasis is placed on the application of organizational theory to human service organizations and the management of them.

SWGS 7200. SOC POL THEO & ANALYSIS. (3 Credits)
This course will include an overview of the philosophical foundations of the principles of medical ethics and present a methodology for their employment in the attempted resolution of these questions. Of particular importance will be consideration of the issues of patient and professional autonomy, confidentiality, informed consent, distributive justice and the movement toward managed care, euthanasia and physician assisted suicide. The course will be conducted as a seminar centered on the analysis of case studies.

SWGS 7300. INTERNSHIP. (3 Credits)
This course provides experience for non-M.S.W. doctoral students in a research, policy-making or educational setting. Can be taken during a regular semester or during the summer semester for 140 hours.

SWGS 7301. INTERNSHIP. (6 Credits)
This course provides experience for non-M.S.W. doctoral students in a research, policy-making or educational setting. It can be taken for two semesters, during the academic year or summer session, for 280 hours in lieu of SWGS 7300.

SWGS 7302. INTERNSHIP. (6 Credits)
This two semester course provides experience for doctoral students in a practice, research, policy-making or educational setting. It can be taken for two semesters during the academic year or summer session, in lieu of SWGS 7300 or 7301.

SWGS 7308. INDEPENDENT STUDY. (3 Credits)
This course is designed to assist students in further developing their understanding of problems and issues in services to children and families. The student, with the aid of a mentor, will select one area of special interest for extensive reading, study, and investigation.

SWGS 7409. CHILD & FAMILY MH POLICY. (3 Credits)
This course examines current research in policy, service delivery and practice in mental health and with children and families. Emphasis is placed on the identification of necessary knowledge, research gaps and the application of effective research methods. This course may be substituted for SWGS 7403 or SWGS 7614 in the curriculum.

SWGS 7520. RES IN MH/FAM/CHILDREN. (3 Credits)
This course examines current research in policy, service delivery and practice in mental health and with children and families. Emphasis is placed on the identification of necessary knowledge, research gaps and the application of effective research methods. This course may be substituted for SWGS 7403 or SWGS 7614 in the curriculum.

SWGS 7502. POL DEV IMPL ELDERLY. (3 Credits)
This course focuses on major policies determining entitlements for older persons in the United States, roles of governmental and private sectors, inequities in American society affecting older persons. A second focus is on comparative analysis of gerontological social policy in other countries, including Third World nations. A third component is the synthesis of strategies for effective social policy for older persons.

SWGS 7503. RESEARCH ISS AGING. (3 Credits)
This course includes a survey of practice and theoretical knowledge of aging developed through research efforts. Work will focus on the content and the methodology of research studies and their contributions to theory, policy and practice in the field of aging. Emphasis is on identification of knowledge in aging and application of research methods.
SWGS 7508. THEORIES PRAC OLDER PERS. (3 Credits)
This course will focus on different theories on aging and the range of programs which have developed to meet the differential needs of older people. Practice issues relevant to diverse older populations such as the frail elderly, healthy, active older persons; ethnic and racial minorities; and isolated persons will be discussed. Emphasis will be placed on emerging theories on aging and research efforts designed to expand knowledge of the aging process.

SWGS 7509. INDEPNT STUD IN GERONTO. (3 Credits)
This course is designed to assist students in further deepening their understanding of problems and issues in gerontology. The student, with the aid of a mentor, will select one area of special interest for extensive reading, study and investigation.

SWGS 7605. SOCIAL WORK EDUCATION. (3 Credits)
This course examines the principles, policies, philosophies and processes of learning and teaching in social work. It reviews the historical evolution of social work education and develops implications for classroom and field instruction.

SWGS 7606. TCHNG FOR THE PROFESSION. (3 Credits)
This course examines in depth the philosophy, principles, processes and pragmatics of teaching and learning in classroom and field setting. Emphasizes 1) educational concepts, premises, models, frameworks and 2) planning effective curriculum and teaching strategies.

SWGS 7610. WOMEN AND POVERTY. (3 Credits)
This course will focus on low-income women in the USA. Attending to the multidisciplinary dimension of race, class and gender, the course will explore ways in which poverty affects quality of life, opportunities, choices and human potential. Contemporary policy issues will be explored and varied social change strategies critically analyzed for their potential in achieving economic justice for women.

SWGS 7616. INDL STUDY IN MENTAL HE. (3 Credits)
This course is designed to assist students in deepening their understanding of problems and issues in mental health. The student, with the aid of a mentor, will select one area of special interest for extensive reading, study and investigation.

SWGS 7620. THEORIES IN MH/PSYCH DEV. (3 Credits)

SWGS 7700. SURVEY RESEARCH METHODS. (3 Credits)
This course examines methods used in descriptive research, including descriptive research designs, principles of causality, sampling data, data collection and ethical issues.

SWGS 7710. EXPERIMENTAL RESEARCH MTDS. (3 Credits)
This course examines experimental and quasi-experimental designs, experimenter and statistical controls, threats to internal and external validity, and strategies for analyzing significance and effectiveness of outcomes.

SWGS 7720. MEASUREMENT. (3 Credits)
This course examines quantitative and qualitative approaches to data collection in social work research. Among the topics covered are scale construction, case studies, qualitative approaches to data collection and use of existing records. Data analysis is linked to principles of measurement and measurement theory.

SWGS 7730. DATA MANAGEMENT & ANALYSIS. (3 Credits)
This course covers topics related to data management and analysis, including using data files, calculating sample size, preparing data analyses plans, and maintaining the quality of one's data at each phase of the research enterprise.

SWGS 7740. GRANTSMANSHIP. (3 Credits)
This seminar will cover the knowledge and skills necessary to prepare grant applications for both government and foundation funding; covering applications for applied research projects as well as those proposing program demonstrations, clinical trials and evaluation.

SWGS 7781. POVERTY AND RACE. (3 Credits)
This course provides an overview of U.S. social policies. It reviews the evolution of American social welfare policies, social welfare theories, and examines the condition, conceptual framework and empirical evidence of policies that target poverty in the United States. Particular emphasis is placed on the impact of policies on marginalized and disenfranchised populations.

SWGS 7782. POLICY IMPLEMENTATION. (3 Credits)
Drawing on theories of implementation and innovation, this course provides an in-depth examination of policy implementation in different fields of practice. It focuses on factors that promote and hinder policy implementation, as well as the historical contexts in which major policies have been implemented.

SWGS 7783. POLICY ANALYSIS SEMINAR. (3 Credits)
Using available frameworks for policy analysis, this course encourages students to critically analyze existing policies. It considers the implications of these analyses for the study of policy development, implementation and evaluation.

SWGS 7791. ADVANCED SEMINAR I. (1,2 Credits)
Concurrent with or following their advanced year research methods and specialization courses, all students take three advanced seminars. A faculty member with expertise in children and families, gerontology, or mental health research leads each seminar. The purpose of the seminars is to expose students to current research issues and methods in these substantive areas. In the process of examining such topics as the state of knowledge in each field, debates and controversies, research design, and emergent policy and practice themes, students are helped to develop and refine their research and scholarly interests in ways that lead to dissertation ideas.

SWGS 7792. ADVANCED SEMINAR II. (1,2 Credits)
Concurrent with or following their advanced year research methods and specialization courses, all students take three advanced seminars. A faculty member with expertise in children and families, gerontology, or mental health research leads each seminar. The purpose of the seminars is to expose students to current research issues and methods in these substantive areas. In the process of examining such topics as the state of knowledge in each field, debates and controversies, research design, and emergent policy and practice themes, students are helped to develop and refine their research and scholarly interests in ways that lead to dissertation ideas.

SWGS 7793. ADVANCED SEMINAR III. (1,3 Credits)
Concurrent with or following their advanced year research methods and specialization courses, all students take three advanced seminars. A faculty member with expertise in children and families, gerontology, or mental health research leads each seminar. The purpose of the seminars is to expose students to current research issues and methods in these substantive areas. In the process of examining such topics as the state of knowledge in each field, debates and controversies, research design, and emergent policy and practice themes, students are helped to develop and refine their research and scholarly interests in ways that lead to dissertation ideas.
Social Work (online) (SWKO)

SWKO 6006. SOCIAL POLICY I: POLICY&PROFES. (3 Credits)
The first of two required courses covering the content of social welfare policies and services, this course introduces students to the ways American society has provided for human needs and addressed social problems through the social welfare institution, and to the underlying values, assumptions and philosophical perspectives that explain the development of this country's social welfare system. The major forms of social provision are addressed in an historical framework that traces the development, expansion, contraction, reorganization and (at times) their elimination. Special attention is given to how economic, political and social forces lead to differential policies and provisions with racial, class and gender dimensions, as well as to inequities, and social and economic injustices. The role of the social work profession in influencing social welfare is emphasized.

SWKO 6007. SocPol II:PlcyPrct&HumRghtsAdv. (3 Credits)
This is the second of two required courses covering content on social welfare policies and services. Building on the first course, this course introduces the knowledge, skills and strategies necessary to examine the impact of specific social policies on clients, agencies, service delivery and practice, and to influence these policies as participants in the major arenas where policy is analyzed, formulated, implemented and changed. This course is offered with a broad focus upon diverse fields of practice or, alternatively with a focus on a specific practice area. Prerequisite: SWKO 6006. This Foundation-level course is usually taken while the student is in the Advanced phase of the program.

SWKO 6010. SOCIAL POLICY II: POLICY&PRAC. (3 Credits)
This course examines the diagnostic and treatment implications for social work practice with alcoholics and those dependent on other drugs. Addictions are viewed from a bio-socio-psychological perspective. The styles of Ackerman, Satir, Minuchin, Bowen and others are studied in their ability to integrate theory and practice. Prerequisite: SWKO 6007; concurrent SWKO 6413 and field practicum are required.

SWKO 6011. CRISIS INTERVENTION. (3 Credits)
This course examines the diagnostic and treatment implications for social work practice with alcoholics and those dependent on other drugs. Addictions are viewed from a bio-socio-psychological perspective. The styles of Ackerman, Satir, Minuchin, Bowen and others are studied in their ability to integrate theory and practice. Prerequisite: SWKO 6007; concurrent SWKO 6413 and field practicum are required.

SWKO 6012. FAMILY ORIENTED TRTMT. (3 Credits)
This course provides an introductory overview of major themes of family intervention. The approach is eclectic and integrates theory and practice. The styles of Ackerman, Satir, Minuchin, Bowen and others are emphasized.

SWKO 6013. CLINICAL SW PRAC 1. (3 Credits)
This required course assists students in integrating the knowledge gained in the required clinical practice courses and in field instruction. By developing and presenting an internship case, students demonstrate their ability to integrate theory and practice. Prerequisite: SWKO 6012; concurrent SWKO 6414 and field practice are required. Prerequisites: SWKO 6013; concurrent SWKO 6414 and field practice are required.

SWKO 6014. PRAC: ABUSERS ALC & OTHE. (3 Credits)
This course examines the diagnostic and treatment implications for social work practice with alcoholics and those dependent on other drugs. Addictions are viewed from a bio-socio-psychological perspective. The diversified roles of the social worker are emphasized.
SWKO 6420. CLIN SW PRAC II ADULTS & FAM. (3 Credits)
Clinical Practice 2 with adults and families expands and develops the knowledge base of Clinical Practice 1, emphasizing advanced clinical practice with groups, clinical interventions with adults across the life cycle, practice monitoring and evaluation, and endings and follow-up in clinical practice. This course builds on the theoretical and conceptual frameworks covered in Clinical Practice 1 by helping students to understand and apply clinical strategies and practice models that emerge from those frameworks, are guided by client needs, and are informed by empirical and research evidence. Case examples will be selected that demonstrate clinical practice with diverse client populations from various cultural groups.

SWKO 6421. CLIN SW PRAC II Child YTH & FAM. (3 Credits)
Clinical Social Work Practice II with Children, Youth, and Families uses a developmental framework within a dynamic ecosystems perspective that is trauma-informed as a foundation for advanced clinical practice. Attachment theory anchors assessment and intervention with preschoolers and their families; theories and models of play therapy and social competency are examined as ways to promote social and emotional mental health for school-aged children. Intervention with adolescents focuses on individual youth as well as family-system intervention, group practice in school and residential contexts, and community-based multi-system models. The role of prevention, early intervention, and trauma-specific interventions are explored in relation to children, youth and their families. This advanced clinical practice course focuses on the use of evidence to inform practice and the implementation of evidence-based treatment models as they support best-practices. This course aims to create reflective practitioners who can make differential assessments, understand the use and purposes of different modalities of intervention, and learn to develop integrated treatment interventions that are theoretically informed and research-based. The multiple modalities examined in this course include culturally responsive work with parent-child dyads, psycho-education for multi-family groups, parent-education, individual, group and family interventions as well as community-based practices.

SWKO 6426. COGNIT & BEHAV SW PRACT. (3 Credits)
This course focuses on the theory and practice of cognitive-behavioral social work. Several common problems of children, adolescents and adults are examined, including aggression, depression and anxiety disorders. Techniques that effectively treat these problems such as cognitive reframing, behavior modification, assertiveness training, stress management, the use of homework and bibliotherapy and the evaluation of practice will be introduced.

SWKO 6430. ADV CLINIC ASSESS & DIAGNOSIS I. (3 Credits)
SWKO 6431. ADV CLINIC ASSESS & DIAGNOSIS II. (3 Credits)
This course continues the work of biopsychosocial assessment from a social-work value base that was presented in Advanced Clinical Assessment and Diagnosis I. After a review of the core human rights and social justice values that serve as foundation for both 6430 and 6431, it focuses on specific areas of biopsychosocial well being and illness, beginning with those first observable in childhood and adolescence. In subsequent modules, the biopsychosocial functioning related to confronting trauma, connecting to reality, relating to others, managing the body experience, being cared for, and responding to the vicissitudes of life. The course presents the skills and knowledge for the differential assessment of people across the life span, emphasizing the importance of recognizing both strengths and vulnerabilities at all ages and in all areas of functioning. As in Advanced Clinical Assessment and Diagnosis I, at the conclusion of the course students should be able to: complete comprehensive assessments of mental well mental illness in various areas of biopsychosocial functioning; create working case formulations based on their assessments; critically utilize the DSM-IV when appropriate; and identify empirically informed interventions relevant to their case formulations and diagnoses.

SWKO 6434. EVIDENCE BASED MH PRACT. (3 Credits)
This course is aimed at developing the knowledge and skills necessary for working with individuals with a diagnosis of serious mental illness using recovery-oriented, evidence-based practices. Students will become familiar with evidence-based practices, within a recovery-oriented paradigm, as a general approach to practice as well as specific evidence-based interventions to use for individuals with a diagnosis of serious mental illness. It is assumed that students will have a basic knowledge of serious mental illness as a pre- or co-requisite, however, a review will be provided. Students will learn to examine research literature to determine the various levels of support for specific interventions and essential principles for translating research into practice. In addition, they will identify the appropriate treatment outcomes that reflect effective, quality mental health practice. Each evidence-based practice presented will also be examined for its utility with diverse groups. Providing assessment and treatment to a diverse group of individuals with a diagnosis of serious mental illness is the focus of this course and will be discussed in detail. This is a clinical elective and there is a prerequisite SWGS6430 Advanced Clinical Assessment and Diagnosis.

SWKO 6439. EVID BASED PRACT CHILD& FAM. (3 Credits)

SWKO 6615. SUPV & STAFF DEVELOPMENT. (3 Credits)
This course examines supervision and staff development as management functions in diverse agency settings and within the context of social work values and ethics. The philosophy, functions, principles and methods of supervision as well as staff development and training are covered. Emphasis is given to the knowledge and skills required to motivate and retain an effective and multicultural workforce, and to effectively supervise varying levels of staff (volunteers, nonprofessionals, professionals) during turbulent times.

SWKO 6627. LEADERSHIP & MACRO PRACT I. (3 Credits)
Frameworks of human rights, social and economic justice, and empowerment. Our students will become social workers who are committed to social change in all forms, transforming and building capacities in communities and organizations, through inclusive and collaborative strategies, via anti-oppressive practices, increasing access to resources, innovations, and collaborations.
SWKO 6628. LEADERSHIP & MACRO PRAC II. (3 Credits)
The two-semester Leadership and Macro Practice course prepares
social work practitioners who operate from the frameworks of human
rights, social and economic justice, and empowerment. Our students
will become social workers who are committed to social change in
all forms, transforming and building capacities in communities and
organizations, through inclusive and collaborative strategies, via anti-
oppressive practices, increasing access to resources, innovations, and
collaborations.

SWKO 6801. SW RESEARCH 1. (3 Credits)
This is the first of a two-course sequence that culminates in the
completion of a research project and presentation of a research report.
This course introduces students to social work research and focuses
on various phases of the scientific method from the preparation of a
research question developed by the class to the point of data collection.

SWKO 6802. SW RESEARCH 2. (3 Credits)
In this second course in the foundation research sequence, students
implement the proposed class research projects. The course includes
content on data collection and analysis, how to interpret the theoretical
and practical meaning of findings for social work practice, and how
to report on and present data. Basic computer skills and statistical
concepts (SPSS) are presented through “hands on” training in the
computer laboratory. Prerequisite: SWGS 6801.

SWKO 6901. FIELD WORK I. (9 Credits)
Actual practice with a limited work load under close supervision designed
to assist the student in applying theory to practice and to enable the
student to master fundamentals of generalist practice. Includes 10
two-hour seminar sessions. Fourteen hours per week from September
through July; 21 hours per week from September through May.

SWKO 6902. FIELD WORK II. (2-5 Credits)

SWKO 6911. FOUNDATION FIELD INSTRUCTION. (5 Credits)

SWKO 6912. ADVANCED FIELD INSTRUCTION. (5 Credits)

Social Work (undergraduate) (SOWK)

SOWK 2600. INTRODUCTION TO SOCIAL WORK AND SOCIAL WELFARE.
(4 Credits)
Introduction to values, knowledge and skills of social work professions.
Focus on historical and contemporary rules and relations of social work
profession. Also includes social welfare history and policy. Four-credit
courses that meet for 150 minutes per week require three additional
hours of class preparation per week on the part of the student in lieu of
an additional hour of formal instruction.

SOWK 2999. TUTORIAL. (2 Credits)

SOWK 4999. TUTORIAL. (1-4 Credits)

SOWK 6006. SOCIAL WELFARE POLICY AND SERVICE. (3 Credits)
This course introduces students to the ways American society has
provided for human needs and addressed social problems through the
social welfare institution. It introduces students to the underlying values,
assumptions and philosophical perspectives that explain the historical
development of this country’s social welfare system. The impact of social
welfare policies, both past and current, on clients, agencies, service
delivery and social work practice are examined. The past and current role
of social workers and the social work profession in influencing social
welfare is emphasized.

SOWK 6050. HUMAN RIGHTS AND SOCIAL JUSTICE. (3 Credits)
This course is an introduction to the human rights, social justice
perspectives and the integration with social work values, ethics and
practice within a global context. Human rights framework provides
universal guidelines that promote dignity, respect and well-being of all
humans.

SOWK 6208. HUMAN BEHAVIOR: SOCIAL ENVIRONMENT I. (3 Credits)
This course presents from the behavioral sciences and various
professions those theoretical constructs and insights most relevant for
social work practice. It uses an ecosystems perspective to coordinate
and synthesize a broad range of knowledge pertinent to practice
concerning the transactional and interactional aspects of large and small
systems.

SOWK 6209. HUMAN BEHAVIOR: SOCIAL ENVIRONMENT II. (3 Credits)
This course discusses human development over the life course.
Similarities and variations in personal and social functioning; in social,
cultural and physical environments; in complex organizations and social
institutions are examined for insights concerning the interplay between
people and their environments.

SOWK 6303. HUM SERV AGEN-THE CONT OF PRA. (3 Credits)

SOWK 6319. SOCIAL JUSTICE: ORG & COMM. (3 Credits)
This practice course examines how organizational settings and
communities serve as a lens for understanding structural oppression,
unequal access to resources, and themes of economics and social
justice. This course focuses on how systemic oppression and social
justice emerge in agency, organizational and community settings.
The course facilitates the development of practice skills that reflect
an understanding of organizations and communities within a larger
structural context of achieving social justice.

SOWK 6321. GENERAL SOCIAL WORK PRACTICES WITH INDIVIDUALS,
FAMILIES, AND GROUPS. (3 Credits)
This course focuses on building generalist practice skills of engagement,
assessment and contracting. Particular attention is devoted to the initial
phase of the helping process with individuals and families and the middle
phase with individuals. It focuses on building generalist practice skills
in communication, interviewing, engagement, individual and family
assessment, intervention planning, contracting and case documentation.

SOWK 6322. GEN SW PR IND FAM GRP II. (3 Credits)
This course continues to build skills of generalist practice attending
in greater detail to the processes of intervention, evaluation and
termination. Particular attention is paid to the beginning and middle
phases of work with families and groups and the end phase with all levels
of client systems.

SOWK 6801. SOCIAL WORK RESEARCH I. (3 Credits)
This course introduces students to social work research. It focuses
on various phases of the scientific method from the development of
a researchable hypothesis to the point of data collection. Research
approaches to problems in practice, as well as theory development, are
related to the student’s field experience to the extent possible.
Attribute: URST.

SOWK 6802. SOCIAL WORK RESEARCH II. (3 Credits)
In this course, the class implements a research project of its own design.
Students review earlier material as the class project is developed.
The course then goes on to cover data collection and analysis, how to
interpret the theoretical and practical meaning of findings for social work
practice, and how to report on and present data. Basic computer skills
and statistical concepts (SPSS) are covered through "hands on" training
in the computer laboratory.

Updated: 10-11-2017
SOWK 6901. FIELDWORK I. (4.5 Credits)
Actual social work practice with a limited work load and close supervision designed to assist students in applying theory and classroom content to practice and to enable students to master fundamentals of generalist social work practice. Includes biweekly seminar sessions, either 14 hours per week from September through July or 21 hours per week from September through May, for a total of 570 field hours in placement and 30 hours in seminar at school. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOWK 6911. FIELD INSTRUCTION. (4.5 Credits)

Sociology (SOCI)

SOCI MTNC. MAINTENANCE-SOCIOLOGY. (0 Credits)

SOCI 0912. REQUIREMENT PREPARATION. (0 Credits)
For Ph.D. and Master’s students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement, such as comprehensive exam, Master’s thesis, or dissertation submission. Attribute: Z410.

SOCI 0914. REQUIREMENT PREPARATION IN SUMMER. (0 Credits)
For Ph.D. and Master’s students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement during the summer. (e.g., to be used by Ph.D. students after the oral examination/defense and prior to receiving the degree).

SOCI 0922. PHD COMPREHENSIVE EXAMINATION PREPARATION. (0.5 Credits)

SOCI 0930. PHD COMPREHENSIVE EXAMINATION-SOCIOLOGY. (0 Credits)

SOCI 0934. MASTER’S COMPREHENSIVE EXAMINATION PREPARATION. (0.5 Credits)

SOCI 0936. MASTER’S COMPREHENSIVE EXAMINATION-SOCIOLOGY. (0 Credits)

SOCI 0950. PROPOSAL DEVELOPMENT. (1 Credit)

SOCI 0960. PROPOSAL ACCEPTANCE. (3 Credits)

SOCI 0970. SOCIOLOGY DISSERTATION MENTORING. (0 Credits)
This is an administrative course used by PHD students in the semester after their proposal is accepted. SOCI 0970 is a 0 credit course with a 3 credit fee.

SOCI 1025. SOCIOLOGY OF AMERICAN CULTURE. (3 Credits)
A course for international students that introduces them to the study of American culture and identity; readings from the social sciences, literature, and history.
Attributes: AMST, ESL, PLUR, SSCI.

SOCI 1050. SOCIOLOGY FOCUS. (3 Credits)

SOCI 1100. INTRODUCTION TO SOCIOLOGY. (3 Credits)
An introduction to sociology with a focus on its nature as a scientific discipline. The analysis of society through the use of sociological theories, concepts, and methods. This course serves as a prerequisite to all other sociology courses and seeks to stimulate students to continue to deepen their understanding of societies.
Attributes: FRSS, SSCI.

SOCI 1999. TUTORIAL. (1-3 Credits)
Independent research and reading with supervision from a faculty member.

SOCI 2200. SOCIOLOGY OF CULTURE. (4 Credits)
"Culture" is a people's entire way of life expressed in language, art, law, religion, and other collective practices such as work, leisure, sports, food, and dress. Aspects of contemporary cultures including multiculturalism, groups identity, and global consciousness are studied. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 2410. INEQUALITY: CLASS, RACE, AND ETHNICITY. (4 Credits)
The recent history of the U.S. as a nation of distinct socioeconomic classes and the persistence of racial and ethnic conflict as a factor affecting inequality. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, LALS, PLUR, URST.

SOCI 2420. SOCIAL PROBLEMS OF RACE AND ETHNICITY. (4 Credits)
This course explores the historical and contemporary issues surrounding the impact that race and ethnicity have in society. Students will examine how racial and ethnic criteria often guide important economic, political, and social decisions that affect access to resources by various groups and which usually have major consequences for the individual. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, LALS, MVST, PJST, PLUR, URST.

SOCI 2505. RELIGION AND SOCIAL CHANGE. (4 Credits)
The course explores questions about religion and social change in domestic and international contexts and how religious institutions adapt to changes in gender roles, urbanization, migration, and religious and ethnic pluralism. What roles have religious movements, including fundamentalism, played in modernization? Students examine under what conditions religion is compatible with the global spread of democracy, environmentalism or individualist conceptions of human rights. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, IPE, PJST, REST.

SOCI 2570. SOCIOLOGY OF FUNDAMENTALISM. (4 Credits)
The attack on the twin towers of New York, the assassination of doctors and bombing of abortion clinics, and the proliferation of suicide bombers and suicide cults are examples of true believers—Muslim, Jew, Christian, and Hindu—at war with others in the name of faith. Dissent seems to be considered a heresy, and dogmatism seeks domination over democracy. Using film, selected readings, and occasional guest speakers, this course examines why in the 21st century, the most technologically-advanced, pluralistic, and globally unified era in the history of humanity, fundamentalism has become a dominant force on the world stage. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 2600. INTRODUCTION TO SOCIAL WORK AND WELFARE. (4 Credits)
Introduction to values, knowledge and skills of social work professions. Focus on historical and contemporary rules and relations of social work profession. Also includes social welfare history and policy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, URST.
SOCI 2606. SOCIAL SCIENCE STATISTICS. (4 Credits)
Introduces the student to the basic concepts of both descriptive and inferential statistics. Both models will be presented, their assumptions delineated, and their application to research in the social sciences emphasized. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: URST.

SOCI 2607. SOCIAL SCIENCE RESEARCH AND STATISTICS. (4 Credits)
This course provides an overview of the methodological approaches used in the social sciences, both in terms of designing research studies, and analyzing and interpreting data. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ENST, URST.

SOCI 2650. BASIC RESEARCH METHODS. (4 Credits)
A survey of the basic tools for data collection and research design. Focus on decisions involved in the selection of the research problem, research design and the interpretation of data. Methods to be explored include participant observation, survey analysis, content analysis and the case study approach. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ENST, URST.

SOCI 2701. INTRODUCTION TO CRIMINAL JUSTICE. (4 Credits)
An overview of the criminal justice system: law, its sociology, and its social and political functions. A critical examination of law enforcement agencies, the judicial system, and corrections. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, URST.

SOCI 2703. SOCIAL DEVIANCE. (4 Credits)
The study of deviance is closely related to social power and social class. Deviance from, or conformity to, social rules or norms raises the question, Who rules? The study of deviance has been particularly concerned with issues of class, race, ethnicity, gender, and sexuality. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: URST.

SOCI 2705. CRIMINAL JUSTICE POLICY. (4 Credits)
This course provides an overview of policies instituted at each level of the criminal justice system including police, corrections and courts. The class will focus on evaluating the benefits, costs and possible consequences associated with these policies. Focus will also be placed on the development of criminal justice policy taking into consideration: history, context, theoretical frameworks, and political factors. Special topics that will be covered include evidence-based interventions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 2800. SOCIOLOGICAL THEORY. (4 Credits)
A survey of classical and contemporary theory that gives students a grasp of the history, nature, and significance of theory for the study of contemporary societies and sociocultural processes. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: FCRH.

SOCI 2801. SOCIAL THEORY AT THE CINEMA. (4 Credits)
This course uses classical and contemporary theory for an introduction to sociological analysis through the lens of mainstream and independent cinema. The course considers the history, nature and significance of theory for the study of contemporary societies and sociocultural processes. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 2845. DRUGS, LAW, AND SOCIETY. (4 Credits)
This course examines the social organizations of illegal commerce in narcotics and other drugs, looking at this transnational business from the point of production to the points of consumption throughout the world. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: URST.

SOCI 2847. THE 60s: SEX, DRUGS, ROCK & ROLL. (4 Credits)
The 1960’s was one of the most tumultuous eras in American history, marked by a revolutionary movement led by youth struggling for freedom on many levels. African Americans, with white support, struggled against the oppression of racial segregation of the South in the Civil Rights movement: young people sought sexual freedom and the right to experiment with drugs; musicians broke away from the restraints of traditional pop and folk songs and created rock and roll; politically minded youth attacked the traditional institutions of political and economic power by protesting against the war in Vietnam; women challenged traditional male attitudes that confined them to domesticity or inferior status in the work place and in society; gays organized against the repressive laws and prejudices against homosexuality. This course will show how all of these social strands intertwined using films, music and writings from the era. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASSC.

SOCI 2850. METHODS SOCIAL RESEARCH I. (4 Credits)
Students are introduced to the fundamentals of empirical research while actively being involved in the research process by conducting their own survey. The first course includes a survey of different methodologies used by social scientists. Students gain hands-on experience in writing a literature review, specifying a research question, developing research hypotheses, designing a questionnaire and collecting data through interviewing. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: URST, ZLB1.

Updated: 10-11-2017
SOCI 2851. METHODS SOCIAL RESEARCH II. (4 Credits)
The second course focuses on data analysis. Students learn simple
descriptive and inferential statistics in conjunction with how to use
the computer. These skills provide the basis for obtaining answers to
research questions and testing hypotheses so that students can write
their final research reports. Four-credit courses that meet for 150 minutes
per week require three additional hours of class preparation per week on
the part of the student in lieu of an additional hour of formal instruction.
Attributes: ENST, URST.

SOCI 2870. GANGLAND IN AMERICA. (4 Credits)
This course examines the problem of street gangs in American society.
Areas of interest include (1) the history of gangland, (2) evolving patterns
of relationships between the gangs and social institutions, (3) the
structure and culture of gangs, and (4) the ways in which gangs now
spread. Course material includes theoretical literature empirical studies,
and historical accounts Four-credit courses that meet for 150 minutes
per week require three additional hours of class preparation per week on
the part of the student in lieu of an additional hour of formal instruction.
Attribute: FCRH.

SOCI 2925. MEDIA, CRIME, SEX, AND VIOLENCE. (4 Credits)
Turn on the television set, pick up the local newspaper, go on the Internet
or watch a movie. Wherever you turn, you will find the media saturated
with stories about corrupt cops and honest cops, drug dealers and
drug users, murderers and victims, organized crime and serial killers,
crusading district attorneys and defense attorneys, corrupt lawyers
and hanging judges, violent prisoners and convicted innocents. How
accurate are these representations? What are the ideological messages
and cultural values these stories communicate? In this course, you will
learn how to demystify media representations in order to understand how
and why they are produced, and who is responsible for their production.
Four-credit courses that meet for 150 minutes per week require three
additional hours of class preparation per week on the part of the student
in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, PJST, WGSS.

SOCI 2960. POPULAR CULTURE. (4 Credits)
This course will investigate the nature of contemporary popular culture.
How do people spend their “spare time”? Does this vary with social class?
Is sport the new religion? And how does this differ from that of earlier
periods and simpler societies? (Every year) Four-credit courses that
meet for 150 minutes per week require three additional hours of class
preparation per week on the part of the student in lieu of an additional
hour of formal instruction.
Attributes: ASSC, URST.

SOCI 2965. SCIENCE FICTION AND SOCIAL CRISIS. (4 Credits)
In a dreamworld inhabited by battle weary heroes and heroines who
confront alien forces, where machines find human beings disposable
and wizards’ spells sometimes fail, where madmen create monsters that
threaten humanity, we enter a realm in which science fiction often stands
as a metaphor for the human condition, resurrecting quasi-mythological
perceptions that have all but vanished in our nonfictional scientific world.
Through the use of selected readings, feature films and lectures, this
course will examine the sociological insights that science fiction films
and literature offer about how we live our lives in the "here and now" of
the post modern world. Four-credit courses that meet for 150 minutes per
week require three additional hours of class preparation per week on
the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC.

SOCI 2966. IMAGINING OTHER WORLDS. (4 Credits)
Confronted as we are by many major social problems throughout the
United States and the world, is it possible to even image a better society
than the present one. Drawing on utopian texts and science fiction
novels and films, student will work in teams to blueprint a small-scale
community of their choice that improves upon one that presently exists.
The students will examine specific social structure such as families,
educational institutions, gender relations, and political power, etc. They
will work together and conduct fieldwork such as interviews, photography
of sites, and graphic designs, to make a presentation at the end of the
course. Four-credit courses that meet for 150 minutes per week require
three additional hours of class preparation per week on the part of the
student in lieu of an additional hour of formal instruction.

SOCI 2999. TUTORIAL. (2 Credits)
Independent research and reading with supervision from a faculty
member.

SOCI 3000. LATINO IMAGES IN MEDIA. (4 Credits)
An analysis of changing Latino images in U.S. media. The emphasis will
be on English language film and television productions. Gender, color,
and class issues will be examined. Four-credit courses that meet for 150
minutes per week require three additional hours of class preparation per
week on the part of the student in lieu of an additional hour of formal
instruction.
Attributes: COMC, COMM, LALS, PLUR, URST.

SOCI 3001. ETHICAL ISSUES IN JUSTICE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three
additional hours of class preparation per week on the part of the student
in lieu of an additional hour of formal instruction.
Attribute: ASSC.

SOCI 3017. INEQUALITY IN AMERICA. (4 Credits)
A study of the ways in which inequalities of wealth, power, and prestige
are institutionalized in complex societies. Social class and social status
as they relate to other aspects of social organization and affect the life
chances of individuals. Four-credit courses that meet for 150 minutes per
week require three additional hours of class preparation per week on
the part of the student in lieu of an additional hour of formal instruction.
Attributes: LALS, URST.

SOCI 3021. SOCIOLOGY OF MEDICINE. (4 Credits)
This course explores the social context of health, disease, and illness
in American society. Thematic issues include the experience of illness,
the medical (and other healing) professions, health care policy, and the
relations between providers and patients. The effects of social inequality
on health and health care delivery are probed throughout the course.
Four-credit courses that meet for 150 minutes per week require three
additional hours of class preparation per week on the part of the student
in lieu of an additional hour of formal instruction.
Attribute: URST.
SOCI 3030. HIV/AIDS IN AFRICA. (4 Credits)
HIV/AIDS is both a biological and a social phenomenon. This course will examine the history and social evolution of the global pandemic as well as contemporary and future issues. Topics covered include the history and epistemology of HIV/AIDS, the social construction of the disease, demographic impacts, heavily affected social groups - such as orphans, and the global humanitarian and development response to the African HIV/AIDS pandemic. Students will acquire a better understanding of the varied issues related to HIV/AIDS, their emergence and effects on different individuals, groups, and societies in Africa. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASCC, BIOE.

SOCI 3044. POVERTY AND COMMUNITY DEVELOPMENT. (4 Credits)
This course is intended to provide students who have an interest in academic service learning with knowledge, skills and attitude they will need to shape their understanding of the socio-economic challenges of poverty, unemployment and inequality. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ICC, PJST.

SOCI 3046. INTERNATIONAL SOCIOLOGY. (4 Credits)
An examination of the impact of globalization on worldwide social development goals; the formation of transitional families in Africa, Asia, the Americas and Europe; family strategies of migration for social and economic gain; and, policies to safeguard the human rights of transitional families. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: GLBL, IPE, URST.

SOCI 3066. GLOBAL MEDIA: RACE, CLASS, GENDER AND ETHNICITY. (4 Credits)
This course will include readings on global media and pay particular attention to the representation and reception of racial, ethnic, gender and class groupings in mass media today. It will also examine how television programs exported from the US have affected basic social institutions, values and perceptions of race/ethnicity, class and gender in other countries, and, in the US. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, BIOE.

SOCI 3110. GLOBAL CONFLICT: WARS/RELIGION. (4 Credits)
Around the world, religion motivates both peace and justice efforts as well as lethal conflict. In this course, we explore the sociological context of these paradoxical dynamics and the promise of world movements aimed at a dialogue and nonviolence. An interdisciplinary perspective will introduce the student to the classical sociological studies of religion and conflict, contemporary issues of globalization, and the challenge of peaceful resolution. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: INST, IPE, MEST.

SOCI 3114. SOCIOLOGY OF HEALTH AND ILLNESS. (4 Credits)
This course will focus on health, illness, and medicine from a sociological perspective. It will provide students with an overview of the development of medicine as in institution, the impact of medicine on society, the socialization of health care practitioners, the social determinants of health and illness, healthcare policies in the U.S. and around the world, and patients' experiences with illness. By the end of this course, students will be able to: (1) develop an understanding of the ways in which society and medicine influence each other, (2) connect multiple social factors with people's health; and (3) grasp the construction of diverse illness identities in patients with chronic diseases. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, PJST, WGSS.

SOCI 3120. CONTROVERSIES IN RELIGION AND INTERNATIONAL RELATIONS. (4 Credits)
This course examines religious and secular organizations' involvement in international policy domains such as development, humanitarian aid, human rights, STI prevention, and biological reproduction, with special attention to tensions that emerge over competing religious and cultural frameworks. We will explore how different perspectives - economic, medical, human rights, security, justice- variably prioritize or marginalize different voices, ethical considerations and potential solutions to the social problems we examine. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, EP3, PJST, WGSS.

SOCI 3136. INEQUALITY-WHY/EFFECTS. (4 Credits)
What are the causes and consequences of inequality? Special consideration is given to the inequalities associated with class, sex and racial/ethnic membership. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, PJST, PLUR, URST.
SOCI 3140. OLD AND NEW MINORITIES IN THE U.S.. (4 Credits)
The situations of old minority groups, such as African Americans, Japanese, and earlier European immigrants, as compared to those of more recent groups such as Puerto Ricans, Cubans, other Hispanics, and recent Asian immigrants, including refugees. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, LALS, PLUR, URST.

SOCI 3145. ENVIRONMENT TECHNOLOGY SOCIETY. (4 Credits)
An introduction to the origins, breadth and present-day relevancies of environmental sociology. Topics include contextual analyses of philosophies of nature, historical emergence of industrial society - the nature of the materials cycle, cultural and cinematic (key films) analyses of environmental crisis, specific hands-on case studies, today's challenges and social movements, all this to bridge sociology and the natural and social sciences. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ENST.

SOCI 3148. POPULATION AND ECONOMIC DEVELOPMENT ISSUES. (4 Credits)
An examination of the interrelationships among development, population growth and migration. Fertility and migration (including urbanization) in the Third World will be reviewed in the context of development perspectives. The determinants and consequences of fertility and migration and their policy implications will be considered in a number of development sectors. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, GLBL, INST, IPE, LALS, PJST, URST.

SOCI 3149. ECONOMIC SOCIOLOGY. (4 Credits)
Economic sociology is the study of how the economy intersects with our culture, institutions, and social context. In this course, we seek to understand how economic activity, including the organization of production and consumption and the allocation of work, goods and profits and other scarce resources, is shaped by social relations. We will analyze the institutional and social foundations of markets and other mechanisms that facilitate the interaction of individuals, groups, institutions, societies and their environments in making their livelihoods, covering a variety of topics including information and uncertainty, economic inequality and stratification, globalization, social networks in markets, finding jobs, black markets, the market for human organs, and corporate crime and malfeasance. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: LALS.

SOCI 3151. SOCIOLOGY OF EDUCATION. (4 Credits)
We spend a great deal of our youth in school. As taxpayers, our dollars provide major funding for school systems. Through a study of the current goals, functions, and structures of educational institutions, how these have changed over time, and how they are interrelated to other major institutions in society, students will gain insights into social factors affecting their own experiences and their responsibility as taxpayers, as future parents, and, for some, as future teachers. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 3152. SOCIOLOGY OF SPORTS. (4 Credits)
In all societies, sports and athletics are socially organized into official events, group rituals, tests of manhood, areas for the expression of political sentiments. In modern societies they have become major industries (and their players, cultural heroes and celebrities); spectator sports and their audiences are important features of post-industrial societies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 3154. POLITICAL SOCIOLOGY. (4 Credits)
This course will examine, discuss, and debate how power is distributed within and amongst groups on the local, national, and international levels. Some of the topics explored include the Elite, Pluralist, Marxist, Realist, and Corporatist perspectives; trends in democratization, voting, and political participation; the ideologies and utopian visions that sometimes motivate political action; the role of the media and special interest groups as agents of political socialization; and the global dominance of the West. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 3172. GOD IN A BOX: THE QUEST FOR RELIGIOUS MEANING ON FILM. (4 Credits)
An exploration of the foundational concepts in the sociology of religion, this course finds its inspiration in a wide range of films, from early silent classics to documentaries to foreign films to today's reality TV series. Through a rigorous study of selected works as well as supplementary readings, we gain a better understanding of the nature of religious belief and nonbelief, of community and family, of ritual, of conversion, and of the relationship between religion and politics. Our focus is on the Judeo-Christian tradition, and our approach is interdisciplinary, centered on sociological thought but also drawing on film theory, history, philosophy, and psychology. No prerequisites are required, but the course is demanding in terms of reading, writing, and class participation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 3241. SOCIOLOGY OF HEALTH AND ILLNESS. (4 Credits)
This course takes a sociological perspective on health and illness, considering them not simply as biological or medical phenomena but products of complex social, economic, political, and cultural forces. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 3242. MENTAL HEALTH AND HUMAN RIGHTS. (4 Credits)
This multi-disciplinary course examines mental health institutions and practices through the lenses of human rights and civil liberties. Course material focus on social, political, and economic factors that have shaped accepted understandings and treatment of mental illness historically and into the present, and various ways that gender, race, class and sexuality have played into societal distinctions between sick and well. Some specific topics include forensic psychiatry, civil commitment, deinstitutionalization and homelessness, diagnostic inflation, coercive forms of treatment and social movements advocating for the rights of individuals who receive mental health intervention. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: PJST.
SOCI 3249. FOR THE DEATH OF ME! SOCIO-CULTURAL PERSPECTIVES ON DEATH AND DYING. (4 Credits)
The primary goal of this course is to explore the social and cultural implications of the biological experience of human death and dying. Examples of topics that will be covered include: mortuary rituals and funerary behavior, the cultural construction of death, the effects of death on the social fabric, morning and bereavement, end-of-life issues, as well as ethical and moral issues relating to death. Throughout the course, we will examine the fascinating variety of social and cultural responses to the biological fact of death. In doing so, we will explore Anthropological and Sociological literature that seeks to explain or interpret that tremendous variety. The course will be cross-cultural in its outlook and will require students to make conceptual connections between theoretical literature and empirical observations. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 3255. SOCIOLOGY OF MEDIA. (4 Credits)
This course examines the role of the media, particularly the news media, as a dominant institution in a contemporary democratic society. Students will examine news media content, the structure of news media organizations, and the relationship of news media organizations to other dominant institutions. The materials used for examination will be a variety of contemporary case studies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: AMST.

SOCI 3256. POLITICAL SOCIOLOGY IN FILM. (4 Credits)
Film has played a central role in shaping the political landscapes of the 20th and 21st centuries and our collective understanding of them. The objective of this course is to enable students to read and analyze global and domestic politics through the medium of film and provide them with a firm grasp of theoretical and empirical issues in contemporary world politics from a sociological perspective. This course makes use of documentary, short-, and feature-length films to interrogate key themes in political sociology and analyze the most important political developments of our time. It also aims to provide students with an appreciation of the complex relationship between art and politics, history and mythology. Substantive areas of study will include: (1) terrorism and war (including civil war, military intervention, and the Cold War); (2) globalization, human rights, and "development"; (3) transnational and domestic social movements; (4) democratic and undemocratic political regimes; and (5) colonialism and imperialism. Readings will be drawn primarily from the field of sociology, but also from political science, history, and film and cultural studies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 3260. POLITICS OF REPRODUCTION. (4 Credits)
The biological reproduction of the human species is a complex process that engages all major institutions of society: family, religion, morality, health, economy, and government. Using cross-cultural and social historical materials, this course will examine cases in which the control over reproduction is contested, focusing on such issues as family limitation, new reproductive technologies, and child custody. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ASSC, BIOE, GLBL, PJST.

SOCI 3300. "RACE" AND "MIXED RACE". (4 Credits)
The origins of "race," its historic role and social construction are examined. Ancient and modern day ideas are explored. Contrasts between the United States and Latin American conceptions of "race" and "mixed race" are analyzed. Future implications are discussed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ASSC, LALS, PJST, PLUR.

SOCI 3401. GENDER, CRIME, AND JUSTICE. (4 Credits)
This course describes, explains, and challenges the treatment of men and women victims, offenders, and workers in the criminal justice system. In the process, we will examine and critique a)theoretical and empirical approaches to gender and crime, b)the role of the criminal law, and c)our responses to crime and victimization. Issues of race, class, and sexuality also will be raised. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, ASSC, EP3, PJST, WGGSS.

SOCI 3405. GENDER, RACE, AND CLASS. (4 Credits)
This course examines the relationship between gender, race, and class as overlapping dimensions of social experience in the U.S. Drawing on a variety of sources, including theoretical, ethnographic, and literary writings, each of these dimensions is considered as part of a complex approach to social problems. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, ASSC, LALS, PJST, PLUR, URST, WGGSS.

SOCI 3406. RACE/SOCIAL CONSTRUCT. (4 Credits)
This course concerns the evolution of racial typologies and classification system in the U.S. We will draw on a variety of texts from natural and social sciences, law, and literature to examine how "scientific" typologies of race are actually more reflective of power dynamics and social hierarchies than biological or genetic differences. Our goal is to understand the continuing significance of race in terms of social and economic power, as well as individual self-conceptualizations and identity politics. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, URST.

SOCI 3409. RACE AND GENDER IN VISUAL CULTURE. (4 Credits)
This course will explore how different racial, engendered and class elements affect visual culture. Particular emphasis will be placed upon the cultural production in the Americas but this will be contrasted with other areas and regions from today's globalized and migrant world. The students will be taught how to assess visual culture and the varying powerful and multi-faceted medium it represents. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: AMST.
SOCI 3415. DEVELOPMENT AND GLOBALIZATION. (4 Credits)
This course will investigate development and globalization issues. Initially taking a broad theoretical approach and then delving into specific nation-state case study examples, students will be challenged to consider how globalization in terms of technology-based interconnection, cultural Westernization, economic liberalization, and political/social democratization is changing the lives of people throughout the world. Aspects of integration, assimilation, and reactionary movements and trends will be explored. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST, IPE, URST.

SOCI 3418. CONTEMPORARY IMMIGRATION IN GLOBAL PERSPECTIVE. (4 Credits)
Over the past decades, immigration has again transformed the United States. It is also producing significant changes in other countries, from the European nations that used to send their citizens to the United States more than a century ago, to oil-rich Middle Eastern states and developing nations. This class explores multiple questions related to immigration: Why do people migrate across international borders? Can states control migration, especially "unwanted" migrants? We examine the policies that let some people in, while keeping others out and then consider incorporation, the process by which foreign "outsiders" become integrated in their new home. Are immigrants and their children becoming part of the U.S. mainstream? What is the mainstream? The arrival of newcomers also affects the cultural, economic, political and social dynamics of the countries and communities that receive them. How do sociologists evaluate and theorize immigrant integration? Finally, the course looks at topical debates around membership, including citizenship. The large-scale movement of people raises questions about belonging, nationality, and social cohesion. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP3, INST, LALS, MVST, PJST, PLUR, URST.

SOCI 3426. RACE, RACISM, AND WHITENESS. (4 Credits)
Normally approached from the standpoint of people of color, analyses of race and racism in America remain incomplete without a consideration of the particular historical, cultural, and epistemological dimensions of white experience. In this senior-level special-topics course, students will critically examine this legacy from an anti-racist perspective. After reviewing canonical observations about whiteness by Black intellectuals including W.E.B. Du Bois, James Baldwin, Frantz Fanon, and Bell Hooks, students will have an opportunity to consider more recent submissions to the field of critical whiteness studies, including the historical work of figures like Noel Ignatiev, as well as cultural analyses by figures like Richard Dyer. In addition to coming to a greater appreciation of the particularities and contradictory dimensions of whiteness (a category that, even in critical race theory, is often rendered as an abstract universal), students will work toward devising an understanding of what might constitute an effective anti-racist practice for white people today. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AMST.

SOCI 3427. HISPANICS/LATINOS IN THE USA. (4 Credits)
Explores the Hispanic mosaic in the U.S. Special emphasis is given to Hispanic education, culture and assimilation; the political significance of Hispanics; issues of gender, color and race; and work and the changing economy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: INST, LALS, PLUR, URST.

SOCI 3450. TRANSNATIONAL SOCIAL MOVEMENTS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, INST.

SOCI 3456. MODERN AMERICAN SOCIAL MOVEMENTS. (4 Credits)
Social movements in 20th-century America have been vehicles of political protest, social change, and sometimes also resistance to change. Under what circumstances are social movements successful and what has been their impact on American institutional life and popular culture? In addition to a general and theoretical assessment of social movements, this course introduces students to particular movements that have formed over such issues as alcohol consumption, racism, war, and abortion. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, PJST, PLUR, WGSS.

SOCI 3460. SOCIOLOGY OF EMOTION IN PUBLIC SPACE. (4 Credits)
As we move from a print-oriented society to a visually-oriented society, display of emotion in mass publics establishes new forms of social interactions. The social arenas that we inhabit become real-life stages of presentation of self and observation of others, which ultimately establish imagined public communities that inform our perceptions of public life. This course explores social arenas such as public parks, memorials, stadiums, and public street life within the context of media, race, class, sex, culture, and the globalized community. Individual and group performances in these spaces establish dramas where authenticity is perpetually sought after in the hope of discovering life-affirming experiences. Through the use of selected readings, films, and lectures, the course emphasizes sociological insights on our role as participants in emotional dramas in public. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 3470. GLOBAL REFUGEE MIGRATION. (4 Credits)
This course is designed as a survey of the major issues associated with the subject of refugees. We shall proceed by dealing with a series of different themes including defining a refugee, causes of refugee situations, asylum and protection, emergency relief and non-governmental organizations, the impact of refugees on receiving countries, resettlement and repatriation. The last four weeks of the course will focus on the Middle East and Africa. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: INST, PJST.
SOCI 3471. UNDOCUMENTED MIGRATION. (4 Credits)
The undocumented category is technically not a "legal" category but is indirectly established by immigration law as it creates categories of admission. The number of undocumented immigrants began to increase after the 1965 amendments to the Immigration and Nationality Act of 1952, which restricted immigration from Latin America. Between 1990 and 2007, the number of undocumented immigrants living in the United States tripled but then stalled and declined slightly, perhaps as a result of the Great Recession. Although the majority of the undocumented are from Mexico and the popular stereotype is of migrants sneaking across the Southern Border, this category is composed of all individuals who entered the country without inspection, as well as visa overstayers; it thus includes people from every region of the world. The class will explore these dimensions and other aspects of the contemporary situation of undocumented immigration and immigrants in the U.S. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, LALS.

SOCI 3500. CONTEMPORARY FAMILY ISSUES. (4 Credits)
This class focuses on the sociology of the family by exploring issues relating to the status and functioning of families in contemporary United States society. The issues examined include sexuality, childbirthing, divorce and remarriage, domestic violence, links between generations and the current state of social policy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, WGSS.

SOCI 3502. WORK, INEQUALITY, AND SOCIETY IN 21ST CENTURY AMERICA. (4 Credits)
How has the world changed and what will it look like in the future? How will it meet the needs of those entering the job market, & how can we democratically govern the conditions of the employment? This course examines the organization and development of labor markets and work in the contemporary United States. Topics will include the structure of occupations & the growth of service, information and "creative" sectors: the changing character of jobs and the rise of "precarious" labor: discrimination and access to opportunities: the interaction of gender, work and family; wages; income inequality & the provision of benefits like health insurance and retirement security; unions and movements for economic justice. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AMST.

SOCI 3503. WORK, FAMILY, AND GENDER. (4 Credits)
This course examines how two key institutions in society – the workplace and the family – interact with one another. Special emphasis is placed on the critical ways that work-family balance and conflict are conditioned by gender. The course will cover the impacts – both negative and positive – of work demands upon individuals’ family lives, as well as the effects of family obligations upon workers and workplaces. Students will be familiarized with voluntary responses to work-family challenges on the part of individuals, families, and employers, as well as relevant public policies in the U.S. and around the world. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, EP3, WGSS.

SOCI 3506. DIVERSITY IN AMERICAN FAMILIES. (4 Credits)
This course focuses on the forms and structures of the family with emphasis on practices and ideologies, and how they vary by race/ethnicity, immigration status, gender, and sexuality. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ASSC, EP3, LALS, PLUR, WGSS.

SOCI 3507. QUEER THEORY. (4 Credits)
Drawing on aspects of poststructuralist theory to extend the critical insights of post-New Left movements for gender and sexual liberation, queer theory has since the mid-1990s become a major intellectual current in a variety of cognate fields including sociology, anthropology, women's studies, cultural studies, media studies, and more. In this senior-level special-topics course, students will familiarize themselves with key themes and debates in queer theory through a critical evaluation of canonical works by figures including Adrienne Rich, Eve Kosofsky Sedgwick, Judith Butler, Jose Esteban Munoz, and Lee Edelman, as well as through an assessment of the observations of detractors like Adam Isaiah Green. Following the work of Jasbir Puar, the course will conclude with an analysis of "pink washing" and the corresponding incorporation of queer issues into the hegemonic national projects of Israel and the United States. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, PLUR.

SOCI 3601. URBAN POVERTY. (4 Credits)
This course deals with contemporary issues and problems in cities, with a special focus on residential segregation and urban poverty. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, LALS, PJST, PLUR, URST.

SOCI 3602. URBAN SOCIOLOGY. (4 Credits)
One of the most significant developments in urban history has been the development of cities. This course will examine the evolution and contemporary characteristics of cities in sociological perspective. The course includes a descriptive overview of the growth and development of cities and a discussion of the current state of urban America. Particular attention will be paid to New York City. We will also analyze various theoretical approaches to understanding urbanization, such as the human-ecological and Marxist theories. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, PJST, PLUR.

SOCI 3603. URBAN AMERICA. (4 Credits)
This course offers an introduction to urban sociology and to the study of American urban society. Particular attention will be paid to New York City. Topics include the rise of "global" cities like New York, metropolitan growth and inequality, urban policy, and politics, patterns of class, racial, and ethnic group formation, and local community organization. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, PJST, PLUR.
SOCI 3606. THE GLOBAL CITY. (4 Credits)
What’s so special about New York? Why have we come here? What binds so many diverse people together? The answer to these questions is usually contested, but the debate in urban sociology has increasingly had to do with the concept of the "global city." The globalization paradigm started in the 1970s when the importance of cities grew as the continued relevance of national boundaries was increasingly questioned. This class will trace the historical emergence of the global city, covering the economic restructuring of the 1970s, the central theoretical literature, and several thematic topics exploring new neighborhood dynamics, labor relationships, new forms of segregation and fragmentation, as well as changing issues in central aspects of urban life, such as public space, shopping and consumption, immigration, etc. We will maintain a special focus on New York City, and by the end, you will have your own answers to such timeless urban questions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ASSC.

SOCI 3610. THE FAMILY. (4 Credits)
The study of American family patterns within the context of cultural variations throughout the world. Course will examine past myths about the American family; present trends in American family life, such as changing sex roles, new concepts of child rearing, and adjustment of kin networks to metropolitan settings; and newly forming patterns of marriage and the family. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ASSC.

SOCI 3621. SOC ISS DOCUMENTARY FILMMAKING. (4 Credits)
With wars and terrorism rampant throughout the globe, polarization in religion and politics, challenges to sexual freedom and democratic social movements, explosions of unimaginable wealth amidst unbearable poverty, and countless other social narratives both hidden and apparent, it is the documentary filmmaker in the trenches who records, analyzes, and preserves in word and image the momentous events taking place here and now. This course looks at the role of documentary filmmakers in today’s society as they capture and expose to public view the great upheavals of our times and the power struggles that lie behind them. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 3623. FILM AND RELIGIOUS EXPERIENCE. (4 Credits)
Film and the Religious Experience is designed to give students a lively and challenging introduction to the major themes of religion from a sociological perspective, using film as the catalyst. The course will combine lectures with group discussion inspired by screenings (comprising Hollywood classic and contemporary films, early silents, documentaries, and experimental works) and readings (foundational texts by Durkheim, Weber, and William James to more recent books such as Religion in Film, John R. May and Michael Bird, eds.). The focus will be on the Judeo-Christian tradition and the Americas, but will also include some discussion of Eastern religions and alternative/outsider communities. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 3670. HISPANIC WOMEN. (4 Credits)
An examination of the changing roles of Hispanic women with regard to Hispanic men, motherhood, the labor force experience, sexual awareness, media myths, political and economic power and women's liberation. The structural position and changing concepts of Hispanic women in the Americas will be examined through the lenses of analytical work and literature. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: LALS, PLUR, URST.

SOCI 3701. INTRODUCTION TO CRIMINAL JUSTICE. (4 Credits)
The course provides students with an overview of the three major areas of the United States criminal justice system: law enforcement, courts and corrections. The course takes a critical approach to the criminal justice system by questioning, challenging and examining all sides of various problems and issues. Class format will be a blend of lectures, discussion, presentations and class exercises. Police ride-alongs and a courtroom visit also will be arranged for those interested. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: URST.

SOCI 3708. LAW AND SOCIETY. (4 Credits)
How and when did law originate? What functions does law serve to the society and to the individuals within that society? Students will examine theories of jurisprudence and alternative sociological perspectives dealing with selected legal and constitutional issues in the United States and Europe. Particular attention is focused on legal policy and social change. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, ASSC.

SOCI 3710. VIOLENCE AND POLITICS. (4 Credits)
From the Battle of Blair Mountain to the recent explosion of riots in the wake of Darren Wilson's exoneration in Ferguson, Missouri, the story of American politics is indelibly marked by violence. Sometimes embraced, often denounced, but even more often sidestepped, debates about violence have tended to return (like all repressed phenomena do) with a frequency that only underscores their importance. In this interdisciplinary undergraduate seminar, students will draw upon the insights of Sociology and other disciplines to assess America's social, historical, and cultural relationship to political violence. After reviewing theories of political violence by thinkers like Walter Benjamin and Carl Schmitt and subjecting foundational texts by figures like Thomas Jefferson and Louis Adamic to analytic scrutiny, students will consider important case studies including the historic split between Civil Rights and Black Power In the late 1960s, the Stonewall Rebellion of 1969, feminist engagements with violence after the second wave, and debates about violent tactics in the anti-globalization and Occupy movements. The course will conclude with an analysis of the ubiquitous and refracted forms of violence that pervade contemporary American culture (e.g. in video games) and an inquiry into recent police and vigilante violence against young Black men, including Oscar Grant, Trayvon Martin, and Michael Brown. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: AMST.
SOCI 3711. AMERICAN CRIMINAL JUSTICE SYSTEMS. (4 Credits)
This seminar course focuses on the administration of criminal justice and its relation to society, the police, prosecutor, defense attorney, judge, jury and correction agency. Observations at the courthouse allow for examination of constitutional rights, plea bargaining, jury selection, insanity defense and media coverage. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, URST.

SOCI 3713. CRIMINOLOGY. (4 Credits)
This course surveys the state of knowledge and theories explaining criminal behavior and attempts to control it by society. Although the sociological perspective on crime is emphasized, class discussion and the text attempt to examine the subject from a multidisciplinary point of view, especially with respect to legal, biological, and psychological views of crime. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: URST.

SOCI 3714. TERRORISM AND SOCIETY. (4 Credits)
This course examines the history and societal causes of terrorism in its many forms, and the state’s and society’s counter-terrorist response. Among issues to be examined are the nature of terrorist ideology and the source of support for, and opposition to, terrorism among the people that terrorists claim to represent. Other issues to be examined are prevention preparedness and emergency responses to terrorist attacks, and political, civil, and human rights challenges faced by countries dealing with terrorism in the 21st century. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, IPE, MEST, PJST.

SOCI 3720. MASS INCARCERATION. (4 Credits)
This course considers what the disciplines sociology, the law, public health, and social work contribute to our understanding of the causes and consequences of mass incarceration in the US. We will consider underlying assumptions about drug use, justice and punishment; how social forces (e.g., religion, the economy, Jim Crow, and politics) have shaped official responses to drug use and other social problems; and examine the social, legal, public health, and economic consequences of mass incarceration and the War on Drugs for individuals, families, communities, and contemporary society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, PJST, PLUR, URST.

SOCI 3730. CRIME IN TIME AND SPACE. (4 Credits)
One of the most consistent findings in criminological research is that crime is not evenly distributed within the environment. This begs the question: why is crime concentrated in certain areas, times and seasons? In this course, students will be introduced to the theoretical and empirical research that has attempted to explain these processes. Students will also be introduced to spatial analysis using geographic information systems software packages including ArcGIS. Special topics that will be covered include homicide, burglary, robbery, and assault. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMC, COMM, ICC, Theo.

SOCI 3700. INTERNSHIP. (3 Credits)

SOCI 3806. INTERPERSONAL BEHAVIOR AND GROUP PROCESS. (4 Credits)
Groups we associate with and the organizational settings in which we interact provide important contexts that shape what we do and even the identities we assume in everyday life. The study of social roles, selves, and identities. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 4004. Art Worlds: Anthropology and Sociology Perspectives. (4 Credits)
The study of culture generally, and art world more specifically, allows us to understand the arts not only as aesthetics experiences, but also as institutional, economics, social, and political phenomena. Incorporating methods and insights from sociology and anthropology, and drawing on the resource of the immediate context of New York City’s cultural communities and institutions, the course will introduce students to issues in and methods for cultural analysis. The analysis of art worlds will include: 1) a consideration of the intentions of creative agents or producers; 2) the distribution of these objects within particular systems; and, 3) the reception and interpretation of these objects by and within particular social groups or communities. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ICC.

SOCI 4020. PLACE, SPACE, AND IMMIGRANT CITIES. (4 Credits)
This course will introduce students to the main issues and current debates on immigrant minorities in large urban areas. Due to their density, cities represent microcosms of interaction and identity formation among and between different minority and majority groups. This often manifests itself spatially, as certain neighborhoods become areas of residence and territorial concentration for immigrant minorities. In the process of settling, immigrants also start identifying strongly with their spaces of settlement. This course will trace the historical patterns of this process, as well as explore its contemporary manifestations, as cities are being rediscovered and "gentrified," rendering their neighborhoods into fierce battlegrounds of spatial contestation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ICC, INST, URST.

SOCI 4052. AN ETHICS OF MODERN SELFFOOD: THE PURSUIT OF AUTHENTICITY. (4 Credits)
The modern and postmodern self or identify, examined as a series of personal and moral conflicts and dilemmas. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMC, COMM, ICC, THEO.

Updated: 10-11-2017
SOCI 4105. RELIGION, GENDER, AND SEXUALITY. (4 Credits)
This course considers the intersections of religion, gender, and sexuality. In many parts of the world, including the United States, and in many religious traditions, cultural and religious identity and continuity hinge on gendered practices and closely controlled sexual regimes. The goal of this course is to understand how religious institutions, communities, doctrines, practices and traditions shape gendered ideologies and practices, debates about sexuality and gendered division of labor, and the lives of men and women who participate in these religious communities. The course is organized conceptually; rather than learning about specific religious traditions, we will discuss thematic issues at the intersection of religion, gender, and sexuality. At various junctures we will discuss specific examples that span religious traditions, geographical locations, and historical periods. The course will therefore provide students with a sense of how contemporary and seemingly local debates are rooted in much broader conversations. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ICC, PLUR.

SOCI 4245. ETHICS IN RESEARCH. (4 Credits)
This course will examine approaches to responsible research practices across the natural and social sciences, with particular attention to research involving human participants. The course will provide an overview of the research process, foundations in research ethics, and provide examples of research across disciplines that exemplify scientifically valid and ethically sound research methods planning, implementation, and dissemination. In particular, the course will draw on long-standing research traditions in the field of sociology, and psychology in order to provide a foundation upon which ethical issues can be discussed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: BIOE, EP3, ICC.

SOCI 4400. GENDER, BODIES, AND SEXUALITY. (4 Credits)
This course explores how gender and sexuality shape and organize our lives. We will examine how gender is built into structures, institutions, and ideologies of social life as well as the interaction between gender and other axes of inequality, including race, class, and sexual orientation. The course will examine the experiences of men and women in addition to those who do not fit into these gender categories. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ICC, PLUR.

SOCI 4408. DIVERSITY IN AMERICAN SOCIETY. (4 Credits)
An examination of historical and contemporary diversity in the United States. Diversity is defined according to ethnicity, race, religion, class, and other relevant social groups. A comparison of the situation of old and new ethnic and immigrant groups will be made with special attention to factors affecting integration into the society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: LALS, PLUR.

SOCI 4421. DISABILITY, LITERATURE, CULTURE: NEUROLOGICAL, MENTAL, AND COGNITIVE DIFFERENCE IN CULTURE & CONTEXT. (4 Credits)
Disability studies, the central focus of this course, is an inherently interdisciplinary field. Drawing particularly on two of its constituent disciplines, literature and sociology, this course will explore the questions and problems raised by neurological, mental and cognitive disabilities, as they relate to identity, community, and belonging. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ICC.

SOCI 4900. INTERNSHIP SEMINAR. (4 Credits)
Placement in a work setting of their choice provides students with an opportunity to assess their own career goals, while simultaneously enriching their understanding of how social groups function. Issues and topics from the sociology of formal organizations, including work role socialization, the organization as a social system, the bureaucracy and its public, formal and social processes in organizations, managerial ideologies and the relation between character and career are discussed. Placements must be obtained through the Internship Program located in the Career Planning and Placement Office. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 4902. INTERNSHIP SEMINAR: COMMUNITY ORGANIZATIONS. (4 Credits)
This seminar explores the context, forms, and goals of community organization in the United States with a focus on urban, social, and environmental issues. Class meetings with proceed in tandem with students’ internship placements in local community-based organizations or other agencies. Students may choose their own internships, and assistance will be provided to help those in search of placement. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ENST, URST.

SOCI 4933. RESEARCH SEMINAR. (4 Credits)
This seminar will focus on student research projects. Students will be expected to design and carry out a semester-long research project in the area of their choice. This is an interactive seminar stressing hands-on experience. Skills in topic selection, research design, and theory construction are emphasized. The project may be conducted in relation to an internship experience. (Permission by the Instructor required). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 4961. URBAN ISSUES AND POLICIES. (4 Credits)
A discussion of urban issues and policies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ICC, PJST, URST.
SOCI 4962. HEALTH/INEQUALITY IN THE US. (4 Credits)
This course examines the patterns and causes of health inequalities across key social groups in the United States. Grounded in a social-ecological approach to health, students examine how the distribution of money, resources, and power creates marked differences in the social and physical conditions within which we live our lives. These conditions, known as the "social determinants of health," contribute greatly to the formation of health inequalities. Examples of the social determinants that are examined include race/ethnicity, social class, gender, sexual identity, immigration/nativity status, and residential location. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 4971. DILEMMAS OF THE MODERN SELF. (4 Credits)
Modern selfhood or identity is studied as a series of conflicts or dilemmas "What is a self today?" What are the special problems of ourselves as modern and post-modern "subjects?" Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, EP4, SRVL, VAL.

SOCI 4990. CONFLICT RESOLUTION AND JUSTICE CREATION. (4 Credits)
This course examines the psychological, social, and philosophical foundations of peacemaking and conflict resolution drawing on theories and experience from sociology and philosophy, and to some extent theology. The course will include experiential exposure to workshops on conflict resolution and non-violent social action techniques, drawn from social justice organizations. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ICC, LALS, PJST.

SOCI 4998. SENIOR THESIS. (4 Credits)
Independent research under mentor guidance. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SOCI 4999. TUTORIAL IN SOCIOLOGY. (1-4 Credits)
Supervised individual study. Provides an opportunity for students to work closely with an individual faculty member on a specific topic or project.

SOCI 5401. GENDER ETHNICITY & MIGRT. (3-4 Credits)
SOCI 5410. GENDER AND SEXUALITY. (3 Credits)
This course provides a comprehensive overview of the theoretical and empirical developments in the field of gender. It will explore how gender is built into the structures, institutions and ideologies of social life, and the interaction between gender and other axes of inequality, including race, class and sexual orientation. The course will examine the experiences of men and women as well as those who do not fit into these gender categories.

SOCI 5507. IMMIGRATION: CONT ISSUES. (3-4 Credits)
SOCI 5517. CITIES, POWER, & VIOLENCE. (3 Credits)
Violence is a force that shapes and is shaped by urban space. Cities have long been repositories of economic and political power, and as such they often become battlefields for competing interests. Violence is often a hidden element in urban planning. This course will take a historical, political-economic, and comparative approach to exploring the urban dimensions of crime, rebellion, repression, and warfare. The exploration of how urban geography and violence influence each other will examine many cases, including: mob violence in Jacksonian America and the rise of modern policing; the Paris commune and its aftermath; the Nazi assaults on Stalingrad and the Allied bombing campaigns of World War II; the military industrial complex as a force shaping modern suburbia; the rise of rioting and arson in US cities during the 1960s and 1970s and the intensive surveillance and policing which followed in the 1980s and 1990s; the guerrilla warfare and counterinsurgency in US occupied Baghdad; the origins, form and effects of narcotics driven mayhem gripping Juarez, and the indigenous occupation of La Paz which led to the election of Bolivia's first indigenous president. We will explore how various causes of conflict are displaced onto and play-out violently at the scale of the urban.

SOCI 5518. ISSUES IN URBAN SOCIOLOGY. (3 Credits)
A survey of the field of urban sociology and selected urban social problems. We begin with a review of the field as an intellectual tradition, from its roots in classical theory and the Chicago school to more contemporary concepts and approaches to urban and regional analysis. Substantive topics include economic and physical development, national and local politics and policy, inequality, spatial segregation formation, collective identity, and mobilization.

SOCI 5520. RACE MEMORY & DEVELOPMENT. (3 Credits)
Race continues to play a central role in the modern configuration and social imaging of the contemporary nation-state. All cultural artifacts, from MTV music videos to oil production and international development schemes, underscore a long-standing narrative of racial categorization and oppression. This course assesses the manner in which nation-states represent, narrate, and remember these racializing processes in their desire to enter the modern discourse of the nation-state. Ultimately, the aim of the course is to analyze the manner in which racial legacies are consistently historicized and continue to play a role in the production of today's multiple global identities.

Attribute: INST.
SOCI 5525. NATIONAL IDENTITY & DEV. (3-4 Credits)
This course will look to explore the manners in which the development discourse is interrelated with contemporary issues of nation-building and identity production. In this regard, we will look closely at third world countries whose identities have been closely aligned to issues of national development, globalization, post-colonial politics and national liberation movements. A large emphasis will also be placed upon the development dynamics between first and third world nations themselves, and how this political discourse actively contributes to contemporary forms of social movement and identification in both geographical locales. Within this larger paradigm of development and nationalism, issues such as racialization, ethnic cleansing, fundamentalist movement, NGO’s and the human rights agenda will also be addressed. The course will explore the manners in which the development discourse is interrelated with contemporary issues of nation-building and identity production. In this regard, we will look closely at third world countries whose identities have been closely aligned to issues of national development, globalization, post-colonial politics, and national liberation movements. A large emphasis will also be placed upon the development dynamics between first and third world nations themselves, and how this political discourse actively contributes to contemporary forms of social movement and identification in both geographical locales. Within this larger paradigm of development and nationalism, issues such as racialization, ethnic cleansing, fundamentalist movement, NGO’s and the human rights agenda will also be addressed.

SOCI 5527. NARRATIVES OF SUBJECTION: HISTORIES, CULTURES, AND IDENTITIES. (3 Credits)
Development and trans-national media are two of the most powerful agents of globalization in today’s ever changing world. These global discourses are incorporated within temporal narratives that provide cultural meaning and identification for large communities, helping them making sense of things in both historical and contemporary political context. The course will examine these global processes, showing how historical subjects are created within the larger social discourses and trans-national interactions, with attention given to the analysis of the development paradigm as well as the more incise debates of theorists and intellectuals like Foucault, Derrida, Bolanos, Kincaid, and Rhys. The course will explore how different intellectual discourses (academic, literary, policy-oriented, etc) make sense of a global world that uses “history as its main ethnological tool” of social formation.

SOCI 5530. GLOBAL CIVIL SOCIETY. (3 Credits)
This course examines theory and research pertaining to the development of global civil society. We will focus on issues of culture, power, and accountability as they apply to various transnational actors including non-governmental organizations, social movements, religious groups and crime networks. We will discuss the impact of these various actors on such issues as sovereignty, labor, environment, human rights, and global justice.

SOCI 5605. VULNERABLE POP & MIGRATN. (2 Credits)
This course focuses on refugees, asylum seekers and displaced persons in the context of global migration. It will provide an increased understanding of how human rights and ethical issues are present in national and global migration policies and programs. The course will also demonstrate how definitions and estimates of migrants, refugees, asylum seekers and displaced persons give rise to human rights and ethical considerations and consequences. (Only open to IDHA)
Attribute: URST.

SOCI 5607. MEDIA, IDENTITY & DEVELOPMENT. (3 Credits)
This course focuses on how the three forces of globalization produce differing forms of identification. Case studies will examine how these entities interact as contrasting element in today’s global market, producing both hegemonic and counter-hegemonic ways of addressing world problems. Emphasis will be placed on Latin America and on telenovelas production, the drug trade, the development enterprise, and social movements, including the pan-Indian one. But other global markers (and markets) like European films, North American entertainment icons, and World Music will be examined in a similar way. The objective of the course is to engage how trans-national identities, media, and ideas of development are continuously reproduced in an uneven global market and contesting ideas of cultural difference.

SOCI 5614. HISPANIC POLICY ISSUES. (3-4 Credits)
Critical policy issues impinging on Hispanics in major social institutions, including the criminal justice system, the educational institution, and health and social services system, the polity, and the economy.
Attribute: URST.

SOCI 5700. LAW & SOCIETY. (3,4 Credits)
SOCI 5705. RACE, GENDER, AND CRIME. (3-4 Credits)
Race, ethnicity, gender, and social class in the context of criminological theories, victimization and offending rates, and criminal just processing. The course investigates and challenges in readings, discussions, and lectures underlying assumptions about race, gender and class that are implicit in theories of crime and criminal practices.
Attribute: URST.

SOCI 5706. SOC. OF ORGANIZED CRIME. (3-4 Credits)
Organized crimes occur when a group of people engage in a continuing conspiracy to create and control illegal markets, or use illegal means to control legitimate markets. This includes such forms of criminality as trafficking in proscribed goods (drugs, arms, etc.), labor racketeering, price-fixing conspiracies, organized illegal gambling, and extortion. The course will examine particular organized particular organized formations in historical and cross-cultural perspective, and consider theories of the relationship between organized crime and other political and economic institutions.

SOCI 5709. FOUNDATIONS: LAW/ETHICS. (3 Credits)
This course is organized around seven questions about law and ethics that have intrigued citizens and scholars, illuminated by real cases and controversies. We will survey utilitarian, intuitionist, and contractarian theories of justice using John Rawl’s A Theory of Justice as the main text. We will then examine the natural law jurisprudential theories of Fuller and Dworkin, and the positivist jurisprudential theory of H.L.A. Hart, and attempt to understand the relationships among the theories of justice and the theories of jurisprudence.
SOCI 5710. THEORETICAL CRIMINOLOGY. (3-4 Credits)

SOCI 5720. SOCIOLOGY OF IMPRISONMENT. (3-4 Credits)

This course introduces students to the history and current practice of imprisonment. Students will mainly discuss the situation in modern day USA, although some comparative information will be given about other penal systems. Students will learn about a range of issues concerning imprisonment from supermax facilities, to religion and children in prison to HIV/AIDS. As part of the course, students may be able to sign up for prison visits. This course introduces students to the history and current practice of imprisonment. Students will mainly discuss the situations in modern day USA, although some comparative information will be given about other penal systems. Students will learn about a range of issues concerning imprisonment from supermax facilities, to religion and children in prison to HIV/AIDS. As part of the course, students may be able to sign up for prison visits.

SOCI 5806. REL & GLOBALIZATION. (3-4 Credits)

This course begins with an overview of the core of theoretical debates within the sociology of religion, and then considers them in light of globalization. Issues under consideration include religion’s relationship to the global expansion of a free-market economic system, the institutionalizations of an of an international development regime, transnational migration, international institutions, human rights, war, and the global response to HIV/AIDS. The primary course objectives are to understand the implications of these processes for religion and for theory and research on such issues as secularization, religious competition, and religious conflict.

Attributes: CEED, INST.

SOCI 5807. GLOBAL DISCONTENTS. (3-4 Credits)

This course examines the relationship between culture and globalization. In particular, we will examine the ideological underpinnings that support globalization, such as rationalism and consumerism, as well as alternative ideologies and social movements, both religious and secular, against globalization in its current forms. In addition to cultural and ideological content in its own right, considerable attention will be given to the institutional structures through which competing ideologies proliferate. Among the more obvious are information and communications technologies such as television and the internet. But also, we will examine less obvious “culture carriers” such as religious and development organizations and international institutions.

Attribute: ABGS.

SOCI 5810. SOCIOLOGY OF SCIENCE AND RELIGION. (3-4 Credits)

Science and religion frame our ideas about the nature and role of the self and of human interaction, emotions, health, illness, and moral responsibility, and they have played central roles in our evolving understanding of race, class, gender, and sexuality. There has been a tendency to view science and religion as two systems in mutual conflict, yet in truth, conflicts are greater withing each of these spheres than between the two of them. This course will examine how such conflicts arise and how they affect social ideas and political actions. It will take a historical approach with classical sociological works on science and religion, then more contemporary thinkers.

SOCI 5820. ART WORLD AND URBAN ENVIRONMENT. (3 Credits)

Incorporating methods and insights from sociology and anthropology, and drawing on the resource of the immediate context of New York City’s cultural communities and institutions, this course will introduce graduate students to issues in and methods for cultural analysis. The analysis of art worlds will be understood as necessarily inclusive of: 1) a consideration of the intentions of creative agents or producers; 2) the distribution of these objects or experiences within particular systems; 3) the reception and interpretation of these objects by and within particular social groups or communities; and, 4) the impact of these activities on urban environments and neighborhoods. The analytical categories of production, reproduction, distribution, and consumption/reception will be complicated by an ongoing consideration of the reconfiguration of public and private spheres in a post-industrial context. The recent thesis regarding the significance of “cultural creatives” to urban revitalization will be interrogated and debated. This course will be of interest to graduate students in sociology and anthropology, as well as to graduate students in art history, urban studies, English and American Studies.

Attribute: URST.

SOCI 6025. WORK AND FAMILY. (3 Credits)

SOCI 6100. CLASSICAL SOC THEORY. (3-4 Credits)

This course examines the classical theorists, including Durkheim, Weber, Marx, and Simmel in relation to their historical period and relevance for contemporary scholarship.

Attributes: CEED, IPED.

SOCI 6101. CONTEMPORARY SOC THEORY. (3 Credits)

Recent approaches in the theoretical approaches of the social sciences in the US and Western Europe including Marxism, behaviorism, phenomenology, and structuralism.

SOCI 6116. CULTURE AND KNOWLEDGE. (3 Credits)

An introduction to the expanding field of the sociology of knowledge and culture, including a discussion of the reasons for the resurgence of culture into the forefront of our understanding. Also considered are the “problems” of culture in our society and internationally “culture wars,” globalization, multiculturalism, racial conflicts and identity politics, among other matters, as well as the importance of religion and nationalism in both national and international politics and social movements.

SOCI 6119. SOCIOLOGY OF THE ARTS. (3 Credits)

The study of culture generally, and art worlds more specifically, allows us to understand art and culture not only as aesthetic experiences, but also as institutional, economic, social and political phenomena. Incorporating methods and insights from sociology and anthropology, and drawing on the resource of the immediate context of New York City's cultural communities and institutions, this course will introduce graduate students to issues in and methods for cultural analysis. The analysis of art worlds will be understood as necessarily inclusive of: 1) a consideration of the intentions of creative agents or producers; 2) the distribution of these objects or experiences within particular systems; and, 3) the reception and interpretation of these objects by and within particular social groups or communities. The classical categories of production, reproduction, distribution and consumption/reception will be complicated by an ongoing consideration of the reconfiguration of public and private spheres in a post-industrial context. This course would be of interest to graduate students of culture in sociology and anthropology, as well as to graduate students in art history, cultural studies, and American studies.
SOCI 6120. SOCIOLOGY AND THE SELF. (3 Credits)
The culture of the person in western modernity; the modern value of personal authenticity as part of a modern culture of emotion.
Attribute: CEED.

SOCI 6125. ETHICS OF MODERN SELFHOOD. (3 Credits)
The culture of the person in western modernity; the modern value of personal authenticity as part of a modern culture of emotion.
Attribute: CEED.

SOCI 6200. RESRCH.DESIGN I. (3-4 Credits)
Training in the method of stating a question for research, setting up the research design, organizing and interpreting evidence, and deriving hypotheses and conclusions. The course includes a review of classical research studies undertaken in this area with particular attention to issues of operationalization of key concepts.

SOCI 6201. RESRCH.DESIGN II. (3 Credits)

SOCI 6209. FIELDWORK:RELIGIOUS COMM. (3 Credits)

SOCI 6300. GRADUATE STATISTICS I. (3-4 Credits)
Introduction to statistics, including descriptive stats for one variable, descriptive bivariate measures of association, the logic of hypothesis testing, and significance tests related to the above descriptive statistics for both one and two variables. Introduction to the computer with and emphasis on using SPSS to analyze real data focusing on software procedures relevant to the course material.
Attribute: URST.

SOCI 6301. GRADUATE STATISTICS II. (3 Credits)
Multiple regression/correlation (MRC) as a general data analytic system incorporating features of analysis of covariance and analysis of variance as well as exposure to path analysis. Substantive articles from major sociological journals illustrating the diversity of uses of MRC will be covered. Course work includes a research paper using SPSS.

SOCI 6408. RELIGION AND SOCIAL MOVEMENTS. (3 Credits)
This course covers intersecting sociological literatures on religion and social movements. Substantive topics under consideration include: religious movement influence on secular politics, new religious movements, social movements within religious institutions and traditions, fundamentalisms, and religious sources of pacifism, violence, and direct action.

SOCI 6480. RELIGION AND SOCIAL MOVEMENTS. (3 Credits)

SOCI 6500. POPULATION. (3 Credits)
Determinants and consequences of changes in the basic demographic variables: fertility, mortality, and migration. Composition and distribution of population throughout the world with emphasis on the relationship between population, development, and other social, economic, and political forces.
Attribute: ABGS.

SOCI 6504. INTL POP DYNAMICS. (3 Credits)

SOCI 6506. POP PROCES&DEVEL ISSUES. (3 Credits)
The relationships among population processes and the major sectors of development, including economic and socio-cultural development, politics, and government, natural resource management, rural development, the status of women, health and nutrition, and development planning and policies in the developing countries.

SOCI 6507. TOPICS IN IMMIGRATION RESEARCH. (3 Credits)
The course seeks to familiarize students with major issues and controversies in immigration research, with the goal of encouraging students to undertake research in the field. The readings reflect the interdisciplinary and pluralistic nature of immigration research.

SOCI 6509. POSTCOLONIAL DEVELOPMENTS. (3 Credits)
This course will explore the nature of the development enterprise both in historical and contemporary terms. As a postcolonial enterprise development discourses have allowed for “old new” ways of interactions between the global north and south to be carried out, replacing the colonial ventures in myriad ways. To this degree, the course will explore how issues of race, gender, nationalism and popular culture are intertwined in the development discourse, and ultimately affect the manner in which people, communities and nations identify themselves. The ultimate objective will be for students to reflect upon a case study that expresses the conflicting interest of development and the integral manner in which the enterprise defines our current postmodern understanding of the world.

SOCI 6513. ANALY:INTERNATIONAL MIGR. (3 Credits)

SOCI 6518. URBAN COMMUNITY DEVEL. (3 Credits)

SOCI 6519. COMPARATIVE URBANIZATION. (3 Credits)
An analysis of Third World urbanization compared with that of more developed countries. Topics include the growth of cities, shifts in population, consequences for economic growth, the growing differentiation between old and new parts of the city, and the effect of rapid transportation.

SOCI 6552. DEMOGRAPHY OF FAMILIES & HOUSEHOLDS. (3 Credits)
This seminar focuses on trends in family and household structures, including changes in marriage, divorce, cohabitation, and the living arrangement of children and the elderly. Students will examine the causes of variation in family, and household structure, such as race, immigration status, and social class, as well as the causes of historical changes in gender roles and in women’s labor force participation. The course also examines the impact of family and household composition on social demographic outcomes, including fertility and economic well-being. A number of current, policy-relevant topics will be covered, including welfare, same-sex marriage and parenthood, the Health Marriage Initiative, work-family balance, and the role of fathers.

SOCI 6553. DEMOGRAPHY&HUMAN RIGHTS. (3 Credits)
The course examines human rights and ethical issues as they arise in the field of population studies. Within this broad area, emphasis will be given to population policies and programs related to abortion, Eugenics, euthanasia, fertility regulation, and immigration; the use of population data systems to target individuals and vulnerable population subgroups for human rights abuses; the impact of national laws or policies prohibiting data collection and analysis related to specific topics or population subgroups; and the role of demographic analysis in documenting and studying genocide, discriminatory educational programs, or inequities in the criminal justice system. Many of these issues involve complex interactions among causes and impacts. The goal of the course is not to resolve the various issues examined, but to help us all think with greater clarity about these and related issues, their interconnectedness and their broader implications for demography, human rights, ethics.
Attribute: CEED.
SOCI 6600. SOCIOLOGY OF MINORITIES. (3 Credits)

This course concerns the evolution of racial typologies and classification systems in the U.S. We will draw on a variety of texts from natural and social sciences, law, and literature to examine how "scientific" typologies of race are actually more reflective of power dynamics and social hierarchies than biological or genetic differences. Our goal is to understand the continuing significance of race in terms of social and economic power, as well as individual self-conceptualizations and identity politics. This course concerns the evolution of racial typologies and classification system in the U.S. We will draw on a variety of texts from natural and social sciences, law, and literature to examine how "scientific" typologies of race are actually more reflective of power dynamics and social hierarchies than biological or genetic differences. Our goal is to understand the continuing significance of race in terms of social and economic power, as well as individual self-conceptualizations and identity politics.

SOCI 6603. RACE: A SOCIAL CONSTRUCT. (3 Credits)

This course concerns the evolution of racial typologies and classification systems in the U.S. and in other countries. We will draw from a variety of texts from natural and social sciences, law, and literature to examine how typologies of race have varied over time and geographic space; and how they are actually more reflective of power dynamics and social hierarchies than biological or genetic differences. Our goal is to understand the changing but continuing significance of race in terms of social and economic power, as well as individual self-conceptualizations and identity politics.

SOCI 6606. RACE & ETHNIC COMPARATIVE. (3 Credits)

This course concerns the evolution of racial typologies and classification systems in the U.S. and in other countries. We will draw from a variety of texts from natural and social sciences, law, and literature to examine how typologies of race have varied over time and geographic space; and how they are actually more reflective of power dynamics and social hierarchies than biological or genetic differences. Our goal is to understand the changing but continuing significance of race in terms of social and economic power, as well as individual self-conceptualizations and identity politics.

SOCI 6618. URBAN SOCIOLOGY. (3 Credits)

This course surveys the field of urban sociology and current urban social problems. We begin with a review of the field as an intellectual tradition, from its roots in classical theory, the "Chicago School" and community ethnography to more contemporary concepts and approaches to urban and spatial analysis. Substantive topics include urban economic development, national and local politics and policy, and cultural processes of group formation, collective identity, and mobilization. Focus will be on the United States but in the context of increasingly global system.

SOCI 6622. RACE MEMORY AND DEVELOPMENT. (3 Credits)

Race continues to play a central role in the modern configuration and social imaginings of the contemporary nation-state. All cultural artifacts, from MTV music videos to oil production and international development schemes, underscore a long-standing narrative of racial categorization and oppression. This course assesses the manner in which nation-states represent, narrate, and remember these racializing processes in their desire to enter into the modern discourse of the nation-state. Ultimately, the aim of the course is to analyze the manner in which racial legacies are consistently historicized and continue to play a role in the productions of today's multiple global identities.

SOCI 6625. SOC OF GENDER. (3 Credits)

This course will provide students with a comprehensive and up-to-date overview of the theoretical and empirical developments in the field of gender. The course will explore how gender is built into the structures, institutions, and ideologies of social life and the interaction between gender and other axes on inequality, including race, class, and sexual orientation. The course will examine the experiences of men and women as well as those who do not fit into these gender categories.

SOCI 6701. IMM AND CRIME. (3-4 Credits)

This course examines race, ethnicity, gender and the intersections thereof in the context of criminal justice processing. Underlying assumptions about race, gender, and class are implicit in theories of crime and criminal practices will be unearthed, and challenged in readings, discussions, and lectures.

Attribute: URST.

SOCI 6702. PUNISHMENT AND INEQUALITY. (3 Credits)

This course examines race, ethnicity, gender and the intersections thereof in the context of criminal justice processing. Underlying assumptions about race, gender, and class are implicit in theories of crime and criminal practices will be unearthed, and challenged in readings, discussions, and lectures.

Attribute: URST.

SOCI 6705. RACE, GENDER AND CJS. (3 Credits)

This course examines race, ethnicity, gender and the intersections thereof in the context of criminal justice processing. Underlying assumptions about race, gender, and class are implicit in theories of crime and criminal practices will be unearthed, and challenged in readings, discussions, and lectures.

Attribute: CCED.

SOCI 8011. THESIS SEMINAR. (3 Credits)

SOCI 8012. THESIS SEMINAR II. (3 Credits)

SOCI 8999. INDEPENDENT STUDY. (4 Credits)

SOCI 9999. DISSERTATION DIRECTION. (1 Credit)

Spanish (SPAN)

SPAN 1001. INTRODUCTION TO SPANISH I. (5 Credits)

An introductory course that focuses on the four skills: speaking, reading, writing and listening providing students with a basic knowledge of Spanish linguistic structures, vocabulary and culture, which studied interdependently, comprise the Spanish Language.

Attribute: ZLB1.

SPAN 1002. INTRODUCTION TO SPANISH II. (3 Credits)

This course will enhance the reading, writing, speaking and listening skills acquired by students in Introduction to Spanish I or from prior study. It will further promote a deeper understanding of Spanish and Hispanic cultures.

Attribute: ZLB1.

Prerequisite: SPAN 1001.

SPAN 1003. SPOKEN SPANISH I. (3 Credits)

The first semester consists of a study of basic Spanish grammar and intensive aural-oral practice. The second semester continues the study of grammar and focuses on developing the student’s ability to speak and understand standard Spanish. No credit toward the language requirement will be given for SPAN 1003 without successful completion of SPAN 1004. A single semester of the sequence may be taken as elective credit. Only offered in Fordham College of Professional and Continuing Studies.

SPAN 1004. SPOKEN SPANISH II. (3 Credits)

The first semester consists of a study of basic Spanish grammar and intensive aural-oral practice. The second semester continues the study of grammar and focuses on developing the student’s ability to speak and understand standard Spanish. No credit toward the language requirement will be given for SPAN 1003 without successful completion of SPAN 1004. A single semester of the sequence may be taken as elective credit. Only offered in Fordham College of Professional and Continuing Studies.

Updated: 10-11-2017
SPAN 1501. INTERMEDIATE SPANISH I. (3 Credits)
Attribute: ZLB1.
Prerequisites: SPAN 1001 or SPAN 1002.

SPAN 1502. INTERMEDIATE SPANISH II. (3 Credits)
Attribute: ZLB1.
Prerequisite: SPAN 1501.

SPAN 1551. INTERMEDIATE SPANISH I FOR BUSINESS. (3 Credits)
Development of communication skills in everyday and business contexts with attention to vocabulary building, grammar review, conversation, and composition. Reading and discussion of literary, cultural, and business-related texts. Designed primarily for business students.

SPAN 1552. INTERMEDIATE SPANISH II FOR BUSINESS. (3 Credits)
This course continues and amplifies the work of SPAN 1551. Development of communication skills in business and everyday contexts with attention to vocabulary building, grammar review, conversation, and composition. Reading and discussion of literary, cultural, and business-related texts. Designed primarily for business students.
Attribute: ZLB1.

SPAN 1999. SERVICE LEARNING-1000 LEVEL. (1 Credit)
In this student-initiated program, the student may earn one additional credit by connecting a service experience to a course with the approval of the professor and the service-learning director.

SPAN 2001. SPANISH LANGUAGE AND LITERATURE. (3 Credits)
Study of selected literary texts and review of pertinent grammatical structures, textual analysis, composition, and conversation. Conducted in Spanish.
Attribute: LALS.
Prerequisite: SPAN 1502.

SPAN 2301. ADVANCED FOR SPANISH SPEAKERS. (3 Credits)
An advanced review of grammar for students with bilingual experiences in English and Spanish. Study of selected literary texts. Textural analysis, continued development of written and oral skills.
Attribute: LALS.
Prerequisite: SPAN 1501.

SPAN 2305. SPANISH CONVERSATION AND COMPOSITION. (4 Credits)
Intensive practice of the spoken and written language with emphasis on proper use of idioms and buildings of vocabulary based on topics of interest and relevance. A basic course for prospective majors and minors, not open to Spanish native speakers. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: LALS.
Prerequisites: SPAN 2001 or SPAN 2301.

SPAN 2500. APPROACHES TO LITERATURE. (4 Credits)
A basic course in Spanish literature. Close readings in the major forms, prose fiction, poetry and drama, and an introduction to the varieties of critical strategies for reading them. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2001 or SPAN 2301.

SPAN 2610. ADVANCED READING AND WRITING. (4 Credits)
In depth review of grammar topics through exercises on reading and writing intended to improve sentence and paragraph construction, expand vocabulary and create awareness of regional/cultural differences. The course will be centered on different types of readings such as essays, newspaper articles, short poems and fiction, and significant number of short writing essays. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: LALS.

SPAN 2620. SPANISH PHONETICS. (4 Credits)
Sounds of the Spanish language. Analysis of standard Spanish pronunciation in contrast with regional variants in the Hispanic world through tape models and live presentations. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: LALS.

SPAN 2625. HISTORY OF THE SPANISH LANG. (4 Credits)
Examination of the beginnings and evolution of Spanish from Pre-Roman era to the present. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

SPAN 2640. SPANISH AND NEW YORK CITY. (4 Credits)
This course works to achieve greater linguistic fluency and cultural understanding of the Spanish-speaking world. We will examine the Latin Americans and Latino experience in NYC through a variety of written and visual texts. Students will work in community to improve their language skills and cultural understanding in a highly contextualized environment. Community service required. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: LALS, URST.

SPAN 2650. BUSINESS SPANISH. (4 Credits)
This course emphasizes key communicative skills to provide students with tools to work in Spanish in a wide variety of capacities. Students will learn essential vocabulary and discuss different cultural practices in the professional Spanish-speaking world. The class will explore important sectors of the economy in Spain, Latin America, and the United States as well as geographic elements (trade agreements, political circumstances, etc.) that shape them. Attention will be paid to both for-profit and non-profit models. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: LALS.
SPAN 2655. CREATIVE WRITING IN SPANISH. (4 Credits)
This course will explore various modes of creative writing (journals, short stories, microcuentos, poems, etc.). Readings about the process of writing by Hispanic authors, and certain exemplary texts will serve as guide and inspiration, while a workshop format will allow for revising and developing as second language writers. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: SPAN 2500.

SPAN 2700. HISPANIC LEGENDS. (4 Credits)
This course will introduce students to fundamental myths, folktales, and fables from a variety of Spanish-speaking countries and periods. Special attention will be paid to sources, interpretation, and analysis of these stories. Among topics to be considered are the types, structure and patterns of legends, the role of the hero, common devices such as personification, and orality. Written assignments include analytical essays, response papers, and creative writing. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2001 or SPAN 2301.

SPAN 2999. SERVICE LEARNING-2000 LEVEL. (1 Credit)
In this student-initiated program, the student may earn one additional credit by connecting a service experience to a course with the approval of the professor and the service-learning director.

SPAN 3001. SPAIN: LITERATURE AND CULTURE SURVEY. (4 Credits)
A broad survey of Spanish culture through the study of some of its major literary figures and texts. The course will examine representative texts from important artistic movements in Spain, such as the Renaissance, the baroque, neoclassicism, romanticism, realism and modernism. By the end of the course, students will be able to define the main characteristics of these movements and will be familiar with important literary figures, such as Garcilaso de la Vega, Calderón de la Barca, Lope de Vega, Moratín, Bécquer, Larra, Leopoldo Alas, Pardo Bazán, Antonio Machado, Unamuno, Ramón Sénader, Aleixandre and Martín Gaite. Students will also be familiar with Spanish history and its relationship to the cultural field. Prereq: SPAN 2500 or Instructors Permission; Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisite: SPAN 2500.

SPAN 3002. LATIN AMERICA: LITERATURE AND CULTURE SURVEY. (4 Credits)
(May be applied to other groups depending on topic offered) The study of Spanish-American society through its cultural expressions: literature, art, music, film, and print journalism. To focus, in a given semester, on topics such as: "Literature and Art in Colonial Spanish America," "Literature and Film in Contemporary Spanish America," "Revolution in Spanish American Literature and Art," "Civilization and Barbarism," "National Identity, Race, and Gender in Spanish America," "Dictatorship and Resistance in Spanish America," and others. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, GLBL, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3005. THEMES IN LATINA/O AND LATIN AMERICAN STUDIES. (4 Credits)
This course allows students to explore ways to synthesize key topics in Latin American and Latina/o Studies (LALS) as an interdisciplinary field of study. It will compare the distinct approaches to these topics of the different disciplines represented by the LALS faculty (including History, Literature, Film Studies, Theology, Art History, Sociology, and Anthropology). Conducted in English. Coursework in Spanish for credit toward the Spanish major and minor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COMC, COMM, LALS.
Prerequisite: SPAN 2500.

SPAN 3007. SPANISH LINGUISTICS. (4 Credits)
This course focuses on the linguistic study of the Spanish language. The course discusses the formal domains of language structure - including speech sounds and their mental representations, sentence structure and semantic meaning, as well as social realities of language use and language change across different varieties of Spanish in the world. The course is taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ASC.
Prerequisite: SPAN 2001.

SPAN 3051. SURVEY OF SPANISH LITERATURE. (4 Credits)
Major developments in Spanish literature from the early modern period to the 21st century. We will study the major literary movements, themes and genres through representative works. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3052. SURVEY OF SPANISH-AMERICAN LITERATURE. (4 Credits)
Major developments in Spanish American literature from the Colonial period to the 20th century. Representative works from various genres and their cultural context will be examined. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, GLBL, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3066. SURVEY OF LATIN AMERICAN FILM. (4 Credits)
A panoramic view of the cinema of Hispanic America and Brazil, from the Golden Age of Mexican film to the present. Particular emphasis will be placed on students’ use of the language itself of film studies, as well as on the connections between transnational networks of filmmakers and the emergence of pan-Latin American identities. Taught in Spanish. Prereq: SPAN 2500 or Instructor’s Permission. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.
SPAN 3070. THE LATIN-AMERICAN URBAN CHRONICLE. (4 Credits)
This course will cover the urban chronicle from the late 19th century to the present, exploring how this hybrid genre negotiates its link to literature, media, public space and the cultural economy of the city. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, AMST, COLI, LALS, URST.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3072. GEOGRAPHIES OF POWER/INJUSTICE. (4 Credits)
Throughout this course, the aim is to develop in students a critical perspective on the spatiality of social life, that is, to foster students understanding of how relations of power and dispossession are inscribed into the built environment in both urban and rural landscapes. Through in-depth study of 20th and 21st century Spanish American works of fiction and film, we will study how space (which simultaneously shapes, and is shaped by, social life) is politically produced and reproduced, thus creating structures of privilege and advantage for some, and of social control and cultural, gender and class exclusion or domination for others. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: LALS.

SPAN 3075. Crime Fiction in Hispanic Literature. (4 Credits)
The socio-cultural particularities of the crime narrative. Short stories and novels by major Spanish and Latin American writers in the context of globalization. Authors may include Sabato, Garcia Marquez, Ampuero, Vazquez Montalban, Velazquezuela. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 (may be taken concurrently) or SPRU 2500 (may be taken concurrently) or SPEU 2500 (may be taken concurrently) or SPLU 2500 (may be taken concurrently).

SPAN 3126. SPANISH GOLDEN AGE: THE AGES. (4 Credits)
This course examines the Spanish Golden Age through texts from the 16th through the 21st centuries to examine how different artists, theorists, and governments define the Golden Age period and to what end. Possible artists include Eduardo Marquina, Federico Garcia Lorca, Camilo Jose Cela, Juan Goytisolo, Ernesto Caballero, Arturo Perez-Reverte, Michele Foucault, Joel-Peter Witkin, Pilar Miro. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3180. POETRY IN CONTEXT. (4 Credits)
This course proposes a social, historical and cultural contextualization of what is known as the Golden Age of Spanish poetry (16th-17th centuries). The major poets and poems of the time will be examined through their relationship with the main sources of social and political power and other forums of art and artists. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3200. MULTICULTURAL SPAIN. (4 Credits)
Since the formation of the Spanish state in early modern times the struggle between central and peripheral political powers has determined Spanish culture and society. This course explores the tensions between cultural diversity and unified identity of the Spanish nation in works from a broad spectrum of cultural production, from surrealism to postmodernism, from zarzuela to flamenco. The course explores the tension between cultural diversity and the unified identity of the Spanish nation and focuses on theories of nation-building, ideology, repression and political violence. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3210. TRANSATLANTIC PICARESQUE. (4 Credits)
Exploration of the origins of this uniquely entertaining genre, its most exemplary manifestation in Spain, and its transatlantic resource in the New World. Texts include Lazarillo de Tormes, El Buscon, Don Catrin de La Fachenda, El Lazarillo de Ciegos Caminantes, and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3230. SINFUL BUSINESS. (4 Credits)
Analysis of greed in Colonial and Golden Age writings on New World treasure. Exploration of Classical and Jungian roots of negativity toward commercial navigation. Prose and poetry by authors such as Horace, Ovid, Cabesa de Vacca, Siguenza y Gongora, Quevedo, and Gongora. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisites: SPAN 2500 (may be taken concurrently) or SPRU 2500 (may be taken concurrently) or SPEU 2500 (may be taken concurrently) or SPEU 2500 (may be taken concurrently).

SPAN 3250. GOD, GOLD, AND GLORY. (4 Credits)
In-depth examination of colonial narratives of exploration and conquest. Comparative study of text and film representations of this powerful moment of Spanish imperialism. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3275. HYBRID FUTURES: A PANORAMA OF MEXICAN SHORT FICTION. (4 Credits)
This course will explore the main themes of Mexican science fiction, from the late nineteenth century to today, using a panoramic approach that encompasses different forms of cultural production and media (literature, film, comics, street art, etc.). Through the science fiction lenses we will examine Mexico’s relation to technology and the processes of modernization, as well as the imagined future of labor, gender, and immigration, among other issues. We will frame Mexican science fiction as part of a larger Latin American tradition, while also discussing the connections to more mainstream (i.e. American and English) visions of the genre. All materials will be available online.
Attributes: ALC, LALS.
Prerequisite: SPAN 2500.
SPAN 3300. MODERN LATIN AMERICAN VISUAL CULTURE. (4 Credits)
In this course, we will identify, follow, and compare a number of narrative and historical currents as they are represented in Latin American visual culture, from independence to the present. We will do this across a broad variety of media, including concrete poetry, performance art, photography, painting, film, television, sculpture, comics, and theater.
We will focus on theoretical, historical, ethical, political, and identitarian approaches to these different disciplinary categories of visual culture.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: INST, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3301. FEDERICO GARCIA LORCA AND HIS WORLD. (4 Credits)
The course is an in-depth study of the works and person of Spanish author Federico Garcia Lorca (1898-1936) in its socio-historical, artistic and cultural contexts. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500.

SPAN 3398. GENERATION OF 1898. (4 Credits)
The relationship between literary form and the ideological, aesthetic and sociopolitical issues characteristic of this crucial moment in Spanish history and literature. Includes works by major representative authors from this period: Azorin, Baroja, Antonio Machado, Unamuno, and Valle-Inclan. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3401. MODERN SPANISH FICTION. (4 Credits)
Spanish novel and/or short story. Major figures in 20th-century Spanish fiction. Authors may include: Baroja, Perez de Ayala, Sender, Cela, Matute, Delibes, Goytisolo and Tusquets. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3420. MODERN SPANISH POETRY. (4 Credits)
Study, explanation, interpretation of the creative new burst of the great poets of the 20th century Spain, of the various poetic movements which influenced them. Particular attention is given to the 19th century's prehistory of the 20th century Spanish poetry, the poetic "isms" of those periods and their influences. The study of Spanish metrics also will demonstrate their relevance to each poet. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3425. MODERN SPANISH THEATER. (4 Credits)
Examination of the various trends in Spanish Peninsular theater from the generation of 98 to the 1960's (tragedy, comedy, theater of the absurd, fantasy, realist theater and theater of protest) including those of two dramatist Nobel Prize laureates. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3426. MODERN HISPANIC THEATER. (4 Credits)
Through the study of a series of contemporary plays, this course addresses theatre as testimony to social and political changes in the Hispanic world during the Twentieth century. From pre-to-post Franco Spain, and from the naturalist drama in the early Twentieth century to postmodern experiments in the theatre of the absurd in Argentina, we will focus on issues of rebellion, abuse of power, and tyrannies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COL, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3450. NOBEL PRIZES IN HISPANIC LITERATURE. (4 Credits)
Study and critical analysis of selected works in poetry, fiction, and theater, of the 10 Nobel Prize winners from Spain and the Americas, since the first awards in 1901. From Jose de Echegary (Spain, 1904) to Octavio Paz (Mexico, 1990). Film and other media versions of their works will be complemented with textual studies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3500. LITERATURE OF DISCOVERY. (4 Credits)
In-depth examination of four essential chronicles of Spanish-American discovery: Colon, Cabeza de Vaca, Cortes, and Las Casas. Exploration of the concept of discovery, supported by study of several foremost critics of colonial literature. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3510. SPAIN AT WAR. (4 Credits)
This course will explore the main political and social conflicts in Spanish history from early modern times to the 20th century and its impact on literature and art. Works by Cervantes, Goya, and Picasso, among many others, will be analyzed and discussed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.
SPAN 3530. EXCESS IN SPANISH LIT. (4 Credits)
National identity in Spain was constructed beyond European ethics and aesthetics. This course focuses on the tragic consequences of presenting Spain as the Other, examining representations in modern literature and film. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPLU 2500 or SPEU 2500.

SPAN 3535. UNUS MUNDUS: DECONSTRUCTING 'TIME' THROUGH SPANISH LITERATURE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ALC.
Prerequisite: SPAN 2500.

SPAN 3540. SPAIN AND ISLAM. (4 Credits)
Islam has been a major constant in the construction of Spanish national and cultural identity from the Middle Ages to our present day. This course will explore the nature of this Islamic constant through the different political and cultural contexts of Spanish history. Course material will include literary sources from Medieval lyric to modern fiction as well as other cultural forms, including Medieval music and contemporary cinema. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ALC, COLI, LALS, MEST.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3550. EXPRESSING THE COLONIES. (4 Credits)
This course will consider Colonial texts following the age of discovery and conquest. Exploration of Sor Juana, el Inca Garcilaso, Balbuena, Acosta, Vazquez, de Espinosa, and others will seek to identify how the writings contributed to the expression of the newly established colonies and institutions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3560. REIMAGINING THE COLONIES. (4 Credits)
Study of modern Latin American historical fiction (novels and short stories) set in the Colonial period. Exploration of the factors that inform contemporary authors' literary imaginations as they envision and recreate this crucial period in Latin American history. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ALC.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3561. REPRESENTING THE GYPSY. (4 Credits)
This course will explore the representation of the gypsy in Spanish literature and culture from the late Middle Ages to the present. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ALC, COLI, INST, LALS, PJST.
Prerequisites: SPAN 2500 or SPEU 2500 or SPLU 2500 or SPRU 2500.

SPAN 3570. STORIES OF A NEW WORLD. (4 Credits)
Panorama of the first three centuries of Spanish American Literature. Narratives, poems and letters by conquistadors, priests, sailors, nuns, nobles, commoners, indigenous, crioles, and Spaniards. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3575. PAINTING THE EMPIRE: UNDERSTANDING THE SPANISH EMPIRE THROUGH ART AND LITERATURE. (4 Credits)
The Golden Age of Spanish art and literature (known as “el Siglo de Oro”) coincided with the configuration of Spain as a global empire after the rise of the Habsburg dynasty to the Spanish throne (from around 1550 to around 1650). This course proposes a study of the main social, political and cultural conflicts that conformed that empire from a multidisciplinary perspective that combines the works of the empire’s most famous painters (El Greco, Diego Velázquez, José de Ribera, among others) with the works of its most representative writers (Lope de Vega, Miguel de Cervantes, María de Zayas, among others); topics such as the symbolic construction and shaping of space, gender, national identity or social and religious relationships will be approached through a combination of visual and textual representations. The course will also take great advantage of the important collections of Spanish Renaissance and Baroque painting held at several New York institutions such as the Metropolitan Museum of Art of the Hispanic Society of America, including visits to those institutions and field work. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500.

SPAN 3580. FRANCOIST SPAIN. (4 Credits)
This course in cultural production during the regime of Francisco Franco (1939-1975) examines the regime’s ideological approach to the arts by studying the personalities and legislature that shaped Francoist aesthetics. The course puts state sponsored and subversive art in dialogue with official policies and the struggle for their control to produce a more advanced understanding of Franco’s Spain. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3582. NEW YORK IN LATINO LITERATURE AND FILM. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ALC, COLI, LALS, PLUR.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

Updated: 10-11-2017
SPAN 3583. NEW YORK CITY LATINO THEATRE AND PERFORMANCE. (4 Credits)
Explores the diversity of Latino performance styles in NYC, from
theatrical performances to performance art and spoken word, by studying
the works presented in NYC’s Latino repertory theaters, musical theater
venues, performance art and spoken word presentations, such as El
Repertorio Espanol, Teatro Circulo, the Puerto Rican Travelling Theater/
Pregones Theater, and INTAR. It will study the works of performance
artists such as Carmelita Tropicana and Josefa Baez, of spoken word
poets such as Willie Perdomo, Edwin Torres and Caridad del la Luz, and
Alberto Sandoval-Sanchez, and Diana Taylor. Conducted in Spanish.
Four-credit courses that meet for 150 minutes per week require three
additional hours of class preparation per week on the part of the student
in lieu of an additional hour of formal instruction.
Attributes: LALS, PLUR.
Prerequisite: SPAN 2500.

SPAN 3610. CHILDREN’S GAZE IN LATIN AMERICAN LITERATURE. (4 Credits)
This course examines Latin American short stories, novels and poetry
which focus on the way children and adolescents view the world and how
they process their immediate socioeconomic and geographic contexts
to construct their world view and find their place in society. Four-credit
courses that meet for 150 minutes per week require three additional
hours of class preparation per week on the part of the student in lieu of
an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3625. SPANISH-AMERICAN SHORT FICTION. (4 Credits)
The short story and the short novel in Spanish America from its
beginnings in the 19th-century. Authors may include: Echeverría, Quiroga,
Borges, Rufio, Fuentes, Carpentier, Cortázar, Onetti, Garcia Marquez, Piera,
Garro and Allende. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3630. CULTURAL JOURNEY THROUGH MEXICO CITY. (4 Credits)
An overview of the literature, culture, and history of Mexico City, from
the first colonial encounters to a contemporary look at what cultural
critic Carlos Monsivais has called “post-apocalyptic” city. Course will
include texts by Balbuena, Calderón de la Barca, Güíñez Najera, Novo,
Villarrutia, Pacheco, Fuentes, Poniatowska, Blanco, Monsivais, as well as
photography, music, urban history and film. Four-credit courses that
meet for 150 minutes per week require three additional hours of class
preparation per week on the part of the student in lieu of an additional
hour of formal instruction.
Attributes: ALC, LALS, URST.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3642. SPANISH-AMERICAN LITERATURE AND POPULAR MUSIC. (4 Credits)
The significant role of popular music such as bolero, tango, milonga in
Latin American Postmodern Novel. Authors may include: M. Puig, R.
Sanchez, G. Cabrera Infante, L. Otero, M. Montero, R. Ampere. Four-credit
courses that meet for 150 minutes per week require three additional
hours of class preparation per week on the part of the student in lieu of
an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3685. MEDIA AND LITERATURE IN SPANISH AMERICA. (4 Credits)
How did the sphere of literature react to the technological changes in
media during the 19th and 20th centuries? This course will focus on five
cases: telegraph, radio, photograph, film, and internet. We will read texts
by Gutierrez Najera, Maples Arce, Biyo Casaeas, Cortazar, and others.
Four-credit courses that meet for 150 minutes per week require three
additional hours of class preparation per week on the part of the student
in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3701. SPANISH-AMERICAN WOMEN WRITERS. (4 Credits)
Texts by Spanish-American women writers from the Colonial period to
the present. Issues of female writing and representation. Evaluation of
the status of writing as a woman in recent critical theory. Authors may
include: Sor Juana, Mistral, Bombal, Castellanos, Poniatowska, Ferre, and
Allende. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3710. CONTEMPORARY LATIN AMERICAN FICTION. (4 Credits)
In this course we will study the major trends in Latin American fiction
from the second half of the 20th Century onwards. Significant attention
will be placed on writers of the 1960’s “boom” generation, their technical
innovations and their role as intellectuals. Major post-boom authors will
then be studied focusing on themes such as migration, transnationalism,
memory, end-of-the-century politics of identity, and the increasing
professionalization of the Latin American writer. Four-credit courses that
meet for 150 minutes per week require three additional hours of class
preparation per week on the part of the student in lieu of an additional
hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3712. LITERATURES OF THE LATIN AMERICAN BOOM AND POST-
BOOM. (4 Credits)
We will first explore the "Boom," a time in the 1960s and 70s when
certain Spanish American authors (such as García Márquez, Cortázar,
Vargas Llosa, Fuentes, and Donoso) became known internationally
for their sophisticated narrative techniques, engagement with politics,
and re-imagining of national identity. We will then examine how more
temporary works of Spanish American fiction (by such authors as
Poniatowska, Bolano, Fuguet, and Elit) grapple with the legacy of the
"Boom." Other issues to be discussed include modernism, "magical
realism," historical fiction, and works by authors transitioning between
the Boom and Post-Boom (including Puig, Sarduy, and Allende). Taught in
Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3715. LATIN AMERICAN CYBERLITERATURE. (4 Credits)
Latin American Cyberliterature explores the articulation of cyberspace
and literature and analyzes the use of hypertexts, blogs and blognovels
by Favorón, Neuman, Paz Soldán, Volpi, Rivera Garza and Pron. Taught in
Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisite: SPAN 2500.

Updated: 10-11-2017
SPAN 3727. Writing Disease in Latin American Literature. (4 Credits)
An examination of disease as key metaphor for Latin America’s political crises in canonical, marginal, fictional and testimonial texts, essays, and film. The course will focus on the three emblematic diseases: tuberculosis (as a sign for artistic character and marginality), cancer (as a sign for emotional incapacity and revolutionary crisis), and AIDS (as a “homosexual disease” related to exile and global travel). Through the study of the metaphorical representations of these diseases we will explore important artistic, cultural, and political debates in diverse Latin American contexts. Special emphasis will be given to the strategies through which the diseased portray themselves and are portrayed by others in relation to concepts of national identity and to the crises of the nation-state in the context of globalization. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3728. Popular Culture in Latin America. (4 Credits)
An examination of the multiple and contradictory meaning of “lo popular” in contemporary Latin American fiction and film. The course traces the shifting representation of the popular subject as an idealized symbol of the rural, folkloric “essence of national identity” to the popular subjects as a sign for a negative and menacing urban, illiterate and criminal other. It will review the critical literature on the popular and discuss how fictional representations of the popular subject contribute to forging, endorsing, or challenging dominant social views. Special attention will be paid to topics such as class, race, sexuality, religious practice and immigration to the U.S., as well as to the extent which these fictional works acknowledge the popular subject’s agency and subversive potential to transform society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3730. WRITING VIOLENCE: PERU, 1980-2000. (4 Credits)
In this course we will study the different representations of violence in Peruvian narrative, poetry and film whose main subject was the armed conflict during the 1980’s and 90’s between the Peruvian state and subversive groups (Shining Path and MRTA). Most reading will be literary but the course has a strong interdisciplinary nature since a thorough study of historical, sociological and anthropological texts related to this period of Peruvian history and culture will be included. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, GLBL, LALS, PJST.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3750. CONTEMPORARY PERUVIAN LITERATURE. (4 Credits)
This course offers an overview of the major themes of Peruvian literature and intellectual discourse of the 20th and early 21st Centuries. Reading works by major authors such as Vallejo, Manategrei, Arguedas, Vargas Llosa, Varela, Ribeyro, and others we will explore topics such as cultural syncretism marginality, modernity and tradition, machismo, political violence and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, GLBL.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3751. ADAPTING SPANISH DRAMA. (4 Credits)
Study of film adaptations of Spanish drama. Authors and directors may include Garcia Lerco, Lope de Vega, Saura, Miro, Alonso de Santos, Columbo, Benet, Jernet, Pons. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3755. SPANISH AMERICAN LITERATURE AND GLOBALIZATION. (4 Credits)
This course explores our current era of intense globalization, the expansion of transnational network of global capital via technology and mass media through Latin American literature and films. It discusses the economic, political and security challenges created by globalization and the impact of technology in Latin America. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.

SPAN 3770. CULTURES OF MEMORY AND POST-MEMORY IN CONTEMPORARY CHILE. (4 Credits)
This course will explore artifacts and movements of cultural memory – literature, criticism, film, photography, and other media – that illuminate efforts in Chile to come to terms with the country’s recent dictatorial past. We will also discuss these artifacts in light of the idea of “postmemory”: how affiliations to, and representations of, this past are (re)constructed in the present and projected into the future. The course will meet once a week during the semester, and then include an optional, one-credit, two-week-long trip to Santiago, Chile immediately after the semester ends. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, INST.
Prerequisite: SPAN 2500.

SPAN 3771. CULTURES OF MEMORY AND POST-MEMORY IN CONTEMPORARY CHILE. (1 Credit)
This course will explore artifacts and movements of cultural memory – literature, criticism, film, photography, and other media – that illuminate efforts in Chile to come to terms with the country’s recent dictatorial past. We will also discuss these artifacts in light of the idea of “postmemory”: how affiliations to, and representations of, this past are (re)constructed in the present and projected into the future. The course will meet once a week during the semester, and then include an optional, one-credit, two-week-long trip to Santiago, Chile immediately after the semester ends.

SPAN 3800. THE SPANISH DIASPORA. (4 Credits)
This course proposes a study of the main religious, political and intellectual Spanish diasporic waves from 1492 to 1939. By exploring different literary and cultural sources produced both inside and outside Spain it aims to determine the impact of exile and displacement in the formation of Spanish national identity. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.
Prerequisites: SPAN 2500 (may be taken concurrently) or SPRU 2500 (may be taken concurrently) or SPEU 2500 (may be taken concurrently) or SPLU 2500 (may be taken concurrently).
SPAN 3809. ARGENTINE LITERATURE AND FILM. (4 Credits)
The course will examine in Argentina the fruitful dialogue between literature and film. Analysis of the writers who incorporated into their writing procedures derived from film and created new models of representing reality. Among the authors to be explored are: Manuel Puig, Jorge Luis Borges, Julio Cortázar, Adolfo Bioy Casares, Eduardo Sacheri, Guillermo Martinez. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, FCRH, INST.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3820. CARIBBEAN LITERATURE. (4 Credits)
Important topics in Caribbean literature such as national identity and gender, national identity and race, discourses of modernity and modernization, dictatorship and resistance, revolution in literature, migration and exile as literary tropes, and the appropriation of popular cultural forms. Authors may include: Martí, Pales Matos, Guillen, Carpentier, Lezama Lima, Mir, Sanchez, Arenas, Verges, and Vega. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, GLBL, LALS.
Prerequisites: SPAN 2500 or SPEU 2500 or SPRU 2500 or SPLU 2500.

SPAN 3826. LATIN AMERICAN AND WORLD LITERATURE. (4 Credits)
The course will examine contemporary Latin American writers who are exploring the incursion in the world literature through relevant topics such as economic globalization, the influence of international films and concepts of probability and truth clarified by Godel in mathematics. This contemporary Latin American narrative wraps itself in an international space and produces a global narrative with a plurality of discourses and voices. Among the authors to be explored are: Ampuro, Fuguet, Martinez, Paszkowski, Volpi. Taught in Spanish. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, INST, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3850. NARRATING THE CITY. (4 Credits)
The course uses Spanish, Latin American and United States Latino texts and films to discuss the representation of contemporary urban spaces such as Madrid, Buenos Aires, Mexico City, Havana, Lima and New York. Issues such as globalization, migration from the country to the city, urban subcultures and urban politics will be discussed in relation to readings from authors such as Garcia Lorca, Monsivais, Arlt, Borges, Piglia, Ribeiro, Pacheco, Garcia Canclini, Sanchez, Fusco, and filmmakers such as Nielinsky, Gonzalez Inarritu. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, IIST, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3855. FASCISMS, AESTHETICS, AND THE HISPANIC WORLD. (4 Credits)
This course will explore various iterations of fascism in Spain, Latin America, and the United States in the 20th and 21st centuries. We will concentrate first on debates among historians about the definitions and origins of fascism, and then move on to its aesthetic embodiments throughout the Spanish-speaking world. We will examine primary texts that both uphold and undermine fascist ideals, as well as theoretical texts that illuminate the mechanisms by which this works. Our discussions will be informed by historical, philosophical, and literary approaches to fascism's beginnings its transnational and transatlantic repercussions; and the persistence today of fascist rhetoric and aesthetics on three continents, particularly vis-à-vis the growing Hispanic presence in the US. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI.
Prerequisite: SPAN 2500.

SPAN 3890. FRANCOIST SPAIN. (4 Credits)
This course focuses on cultural production during the regime of Francisco Franco (1939-1975), and examines the regime's ideological approach to the arts by studying the personalities and legislature that shaped the Francoist aesthetics. The course puts state sponsored and subversive art and dialogue with official policies and the struggle for their control to produce a more nuanced understanding of Franco's Spain.
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3900. THE FANTASTIC IN SPANISH LITERATURE AND FILM. (4 Credits)
An exploration of the fantasy genre and subgenres in Spanish culture (its evolution, its social and political implications) from medieval chivalry novels and miracles to 21st century horror movies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3999. SPANISH IMMERSION IN SPAIN. (3 Credits)
Students will receive instruction at their appropriate level of language competency. Classes will meet four hours per day, five days a week for a total of 80 hours. The course will be substituted for the correspondent level of Spanish language at the home university. In addition, participants will engage in a number of cultural excursions within Granada as well as take short trips to other parts of Andalusia. Cultural visits are organized by Prof. Lamas, who also supervises the academic progress of the students. Granada, a recognized World Heritage Site by UNESCO, is one of the most beautiful cities in the world and a center of flamenco culture. The program is based at the University of Granada.
Attribute: ALC.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 3999. TUTORIAL. (3 Credits)
Independent research and readings with supervision from a faculty member.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.
SPAN 4001. CERVANTES AND DON QUIXOTE. (4 Credits)
Lectures, readings and discussion of Don Quixote. Cervantes’ importance for the development of modern fiction. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 4018. CONTEMPORARY CUBAN CULTURE IN HAVANA. (4 Credits)
This interdisciplinary capstone course will study the representation of the Cuban revolutionary process in literature, history, and film. It will explore some of the major topics on the Cuban revolutionary process from the vantage point of historical, literary and cinematic accounts: the relationship of intellectuals to the state, the revision of the past as antecedent to the Cuban revolution and its policies, the place of race, gender and sexuality in revolutionary culture, the Mariel exodus and the revolution’s relationship to Cuban diasporic communities, the critique of revolutionary rhetoric during the post-Soviet "special period" and issues related to consumption, gender, sexuality, race, urban development and subjectivity during the current period of economic and cultural transition from socialism. It will use an interdisciplinary historical, literary and cinematic approach to examine the Cuban revolutionary process and will offer as a complement to the course an optional Spring Study-Tour of Havana. Conducted in English with texts in Spanish and English translation. Coursework in Spanish for credit toward the Spanish major and minor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMC, COMM, FITV, GLBL, ICC.

SPAN 4020. NOVELS OF PEREZ GALDOS. (4 Credits)
The works of Galdos, Spain's foremost novelist after Cervantes and the central figure in the rise and development of the modern Spanish novel. Emphasis on trends in the novel in the Spain and Europe of his period. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 4100. SPEAKING FOR/AS THE OTHER. (4 Credits)
What are the implications of giving voice to those who are "voiceless"?
This course explores the role of writing and speaking during the encounter of black, Indian, mestizo and Hispanic cultures in Latin America and Latin/o United States. By examining these cultural encounters, the course examines the political and ethical implications of speaking for and as the other. Conducted in English with texts in Spanish and English translation. Coursework in Spanish for credit toward the Spanish major and minor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COLI, EP4, LALS, VAL.

SPAN 4347. LATINOS: FACT AND FICTION. (4 Credits)
This course uses an interdisciplinary approach to examine the experiences of Latin Americans and Latinos. It employs literature and history to introduce students to the benefits of using multiple ways of acquiring knowledge. It then relies on other academic areas such as art and sociology to reinforce its interdisciplinary. As a capstone course, it allows students to incorporate disciplines from their own academic foundation. It covers topics such as politics, social justice, race, gender, and identity.
Attributes: COLI, GLBL, ICC, LALS.
Prerequisite: SPAN 2500.

SPAN 4511. SPANISH CIVIL WAR. (4 Credits)
This course examines how the Spanish Civil War has been represented in Spanish Cultural Production both during the war and in the decades following Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, ICC, INST.
Prerequisite: SPAN 2500.

SPAN 4520. SPAIN IN CONTEXT. (4 Credits)
Focusing on the relationship between creativity and society, the course explores the literature and culture of Spain’s diverse regions. The course comprises the following elements: classes taught by Dr. Lamas, trips, cultural visits, and gatherings/workshops with prestigious Spanish intellectuals and artists (at the so-called tertulias). Students work in groups towards a final project, which will be presented in class as a Podcast, and handled to the instructor as a journal article ready for publication in the magazine Por Granada, available in print and on line. The course is offered in conjunction with Fordham in Granada. Only students enrolled in the Program can register for this class. Granada, a recognized World Heritage Site by UNESCO, is one of the most beautiful cities in the world. It is the hometown of Federico García Lorca, and a center of flamenco culture. The Alhambra Palace, the Albaicín neighborhood, the Cathedral, and the numerous Baroque churches of the city are testimonies of its rich past, which continues to be alive through its vibrant university community. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ICC, LALS, PJST.

SPAN 4900. SEMINAR: HISPANIC LITERATURE. (4 Credits)
(May be applied to Groups II, III and IV depending on topics offered.) Intensive consideration of an author or a specialized topic in Spanish and Spanish-American literature. To focus on topics such as: "Revolution in Literature," "Discourses of Modernity," "National Identity, Gender, and Race," "Literature," "Dictatorship and Resistance," "The Avantgarde," and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, LALS.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

SPAN 4998. SENIOR THESIS TUTORIAL. (4 Credits)
Independent research, supervised by a faculty in the language, leading to the completion of a senior thesis.

SPAN 4999. TUTORIAL. (1-4 Credits)
Study of a particular aspect of Hispanic literature or thought. Independent research and readings. Weekly or bi-weekly meetings with faculty adviser. Designed for majors with permission of instructor.
Prerequisites: SPAN 2500 or SPRU 2500 or SPEU 2500 or SPLU 2500.

Updated: 10-11-2017
**Spirituality (SPGR)**

**SPGR 6702. HIST OF CHRISTN SPIRITUALITY I. (3 Credits)**
This course will explore a number of the significant figures and themes that characterized the development of Christian Spirituality from its beginnings until the Reformation. Readings will be drawn from classical spiritual texts and relevant secondary literature.

**SPGR 6703. HIST OF CHRIST SPIRITUALITY 2. (3 Credits)**
This course provides a solid grounding in the historical-critical, hermeneutical, and theological engagements with Christian Mysticism/ Spirituality from the sixteenth through twentieth centuries. In addition to focusing upon representative Catholic, Protestant, Reform and Orthodox traditions, we examine recent expressions of globally contextualized Christian spiritualities. Course readings draw from classical spiritual texts and relevant secondary literature. Authors typically considered include Ignatius of Loyola, Martin Luther, Teresa of Avila, Madame Guyon, Francis de Sales, George Herbert, the author(s) of The Pilgrim’s Tale, Pierre Teilhard de Chardin, Howard Thurman, Gustavo Gutierrez, C.S. Song, and Desmond Tutu. Additionally, selected themes in Christian spirituality are considered, including feminist, ecological, and social justice spiritualities. In addition to weekly 1-page papers, the course capstone requirements adjust to student’s degree programs: MA and Certificate students write either a research paper or project; doctoral students write a 20-page research paper.

**SPGR 6720. SACRAMENTAL SPIRITUALITY. (3 Credits)**
An exploration of present-day theological reflection, contemporary spirituality, and pastoral practice for ministry of the sacraments of initiation (RCIA) and the healing sacraments (reconciliation and anointing). The study and discussion will be biblical and ecumenical, interdisciplinary and multicultural.

**SPGR 6740. IGNATIAN SPIRITUALITY FOR MINISTRY. (3 Credits)**
This course examines the life and writings of St. Ignatius Loyola, offering (a) historical-critical and hermeneutical engagements with primary texts and (b) practical, contemporary, and diverse appropriations of Ignatian/Jesuit spirituality today. We examine especially two important primary sources, the Autobiography and Spiritual Exercises. We also survey some of the other writings that have come down to us: excerpts from his Spiritual Journal, the Constitutions of the Society of Jesus, and representative letters. Course capstone requirements adjust to student’s degree programs: MA and Certificate students write either a research paper or project; doctoral students write a 20-page research paper.

**SPGR 6746. FRANCISCAN SPIRITUALITY: FRANCIS,CLARE & BONAVENTURE. (3 Credits)**
Explores the religious experiences of Francis and Clare from their own writings as well as biographical materials and examines the spiritual teachings that Clare and Francis bequeathed to the religious orders they founded. Special emphasis is placed on the balance they achieved between the contemplative and active lifestyles and on the evangelical values that characterize the Franciscan approach to ministry. Some consideration will be given to representative Franciscan figures who have exemplified the interplay of theology, spirituality and ministry, suggesting outlines of the same for today.

**SPGR 6752. CHRISTIAN CONTEMPLATION & ACT. (3 Credits)**
This elective Christian spirituality course explores the writings and historical-cultural contexts of various Christian mystical and spirituality authors. We focus upon possibilities and problematics within Christian prayer traditions as they relate to the alternate dynamics of (1) withdrawal into contemplative prayer (cloister; everyday mysticism) and (2) advancement into the public sphere (ministry; social justice). Ignatian, Carmelite, monastic, reform, global and social justice spiritual traditions are examined, with a special focus upon topics of diversity and contemporary appropriation. Open to certificate, masters, and doctoral level students from all GSRRE Areas and Fordham University programs. Course capstone requirements adjust to student’s degree programs: MA and Certificate students write either a research paper or project; doctoral students write a 20-page research paper.

**SPGR 6792. CONTEMPORARY CHRISTIAN SPIRITUALITY. (3 Credits)**
Contemporary foundations, issues, movements and persons impacting the practice of Christian spirituality in a post-modern context. Issues discussed will include embodiment, prayer, work and sexuality. Movements will include feminism, ecology and compassion/justice.

**SPGR 6794. WOMEN MYSTICS. (3 Credits)**
This course will explore the experiences and theologies of women mystics as these have been reported throughout Christian history. Students will read selections from hagiographical texts such as the Acts of Paul and Thecla and the Acts of Perpetua and Felicitas, from the apothegmatic texts such as the sayings of the Desert Mothers, from the historical texts such as the Trial of Joan of Arc, and from the writings of women mystics themselves- such as Hildegard of Bingen, Clare of Assisi, Marguerite Porete, Catherine of Siena, Julian of Norwich, Teresa of Avila, Margaret Mary Alacoque, Therese of Lisieux, and Mother Teresa of Calcutta. History, sociology, psychology, theology, and other disciplines will serve to contextualize the consideration of these readings and will invite a careful comparison with present-day experiences. Students will also be invited to ponder the forces that have shaped our current canon of mystics and saints: whose lives remain invisible to study, and why?

**SPGR 6811. MEDITATION EAST/WEST. (3 Credits)**
A practical theoretical treatment of the tradition of Christian prayer and Eastern Meditation. Included are guided practices, reading and reflection.

**SPGR 6830. DISCERNMENT IN CHRISTIAN TRAD. (3 Credits)**
This course offers a two-fold introduction to Christian traditions for the discernment of spirits. During the first half of the course, we pursue an historical review of the various articulations of spiritual discernment from New Testament foundations through the sixteenth century. During the second half of the course, we concentrate upon the theory and practice of Christian discernment and decision-making grounded in the writings of St. Ignatius of Loyola. We engage in a critical, close reading of Ignatius’ Rules for the Discernment of Spirits (Weeks 1 & 2) and The Election, both texts from The Spiritual Exercises, as well as selected letters and other writings by Ignatius. This course also emphasizes student’s personal appropriation of this material through the discussion of provided discernment case studies. Course capstone requirements adjust to student’s degree programs: MA and Certificate students write either a research paper or project; doctoral students write a 20-page research paper.

Updated: 10-11-2017
SPGR 6834. METHODS IN CHRISTIAN SPIRIT.. (3 Credits)
This course introduces graduate students to the academic discipline of Christian Spirituality and to methods for researching and writing at the MA or Doctoral level, employing the GSRRE standard stylebook, Turabian (8th. edition). In consultation with the professor, students are free to pursue a research topic of their choosing; however, their research agenda must include a Christian spirituality component. Students already working on a thesis or dissertation may, with the professor’s consent, use a chapter thereof as their research paper for this course. Course topics include defining the academic discipline of Christian spirituality; the relationship between spirituality and theology; experience as an object of study; the approaches to context, historical consciousness, multidisciplinarity, and hermeneutic theory. In this practical seminar, students collaboratively learn to research and write at the graduate level, as well as explore the rich offerings of Christian spirituality as an academic discipline. Course evaluation is based on active participation, frequent writing assignments, occasional presentations, writing group collaboration, Turabian quizzes, and a 20-page research paper appropriate to each student’s degree program.

SPGR 6881. SPIR DIR:THEOL & PRACT. (3 Credits)
This course explores the experience of spiritual direction from the standpoint of both the director and the one directed. It situates the contemporary ministry of spiritual direction within the history of the Christian tradition and draws upon interdisciplinary and interreligious perspectives in order to critically examine a diversity of past and present theologies, processes, and models of spiritual direction.

SPGR 7702. HIST OF CHRISTIAN SPIRITUALITY I. (3 Credits)
This course will explore a number of the significant figures and themes that characterized the development of Christian Spirituality from its beginnings until the Reformation. Readings will be drawn from classical spiritual texts and relevant secondary literature. This course is for Doctor of Ministry students only and will require doctoral level participation and additional research/writing elements.

SPGR 7703. HIST OF CHRIST SPIRITUALITY 2. (3 Credits)
For Doctoral students only. This course provides a solid grounding in the historical-critical, hermeneutical, and theological engagements with Christian Mysticism/Spirituality from the sixteenth through twentieth centuries. In addition to focusing upon representative Catholic, Protestant, Reform and Orthodox traditions, we examine recent expressions of globally contextualized Christian spiritualities. Course readings draw from classical spiritual texts and relevant secondary literature. Authors typically considered include Ignatius of Loyola, Martin Luther, Teresa of Avila, Madame Guyon, Francis de Sales, George Herbert, the author(s) of The Pilgrim’s Tale, Pierre Teilhard de Chardin, Howard Thurman, Gustavo Gutierrez, C.S. Song, and Desmond Tutu. Additionally, selected themes in Christian spirituality are considered, including feminist, ecological, and social justice spiritualities. In addition to weekly 1-page papers, the course capstone requirements adjust to student’s degree programs: MA and Certificate students write either a research paper or project; doctoral students write a 20-page research paper.

SPGR 7720. SACRAMENTAL SPIRITUALITY. (3 Credits)
An exploration of present-day theological reflection, contemporary spirituality, and pastoral practice for ministry of the sacraments of initiation (RCIA) and the healing sacraments (reconciliation and anointing). The study and discussion will be biblical and ecumenical, interdisciplinary and multicultural. Additional Doctoral readings and assignments per instructor.

SPGR 7740. SPIRITUAL DIRECTION PRACTICUM1. (3 Credits)
The Spiritual Direction Practicum offers participants the opportunity to learn about (1) the dynamics of prayer as a personal relationship with God, (2) the spiritual direction relationship, (3) elements of Ignatian spirituality, and (4) the role of supervision. A grade of pass and an instructor’s evaluation confirming skill development are required to move to Spiritual Direction Practicum 2. Ordinarily, the Practicum parts 1 and 2 are taken at the conclusion of one’s program; however, with the approval of the collaborative staff, a student still needing to fulfill a limited number of course requirements may also apply for admission to the Practicum courses. The following courses are prerequisites to the Spiritual Direction Practicum for all students: Theology of Spiritual Direction; Discernment in the Christian Tradition; and Basic Skills in Pastoral Counseling. Ordinarily, before taking the Practicum courses, MA in Christian Spirituality students complete these additional courses: Old Testament; New Testament; Christology or Theology of the Human Person; Sacraments or Sacramental Spirituality or Church and Society; however, with faculty approval, one or more of these additional courses may be taken during the Practicum courses. Pass/Fail Only.

SPGR 7741. SPIRITUAL DIRECTION PRACT. II. (3 Credits)
Continuation of SPGR 7740. A grade of pass for SPGR 7740 and an instructor’s evaluation confirming skill development at a successful level is required to register for this course. Pass/Fail only.

SPGR 7746. FRANCISCAN SPIRITUALITY: FRANCIS,CLARE & BONAVENTURE. (3 Credits)
Doctoral students only: please see syllabus requirements for doctoral students. Explores the religious experiences of Francis and Clare from their own writings as well as biographical materials and examines the spiritual teachings that Clare and Francis bequeathed to the religious orders they founded. Special emphasis is placed on the balance they achieved between the contemplative and active lifestyles and on the evangelical values that characterize the Franciscan approach to ministry. Some consideration will be given to representative Franciscan figures who have exemplified the interplay of theology, spirituality and ministry, suggesting outlines of the same for today.

SPGR 7751. IGNATIAN SPIRITUALITY FOR MINISTRY. (3 Credits)
For Doctoral students only. This course examines the life and writings of St. Ignatius Loyola, offering (a) historical-critical and hermeneutical engagements with primary texts and (b) practical, contemporary, and diverse appropriations of Ignatian/Jesuit spirituality today. We examine especially two important primary sources, the Autobiography and Spiritual Exercises. We also survey some of the other writings that have come down to us: excerpts from his Spiritual Journal, the Constitutions of the Society of Jesus, and representative letters. Course capstone requirements adjust to student’s degree programs: MA and Certificate students write either a research paper or project; doctoral students write a 20-page research paper.
SPGR 7752. CHRISTIAN CONTEMPLATION & ACT. (3 Credits)
For Doctoral students only. This elective Christian spirituality course explores the writings and historical-cultural contexts of various Christian mystical and spirituality authors. We focus upon possibilities and problematics within Christian prayer traditions as they relate to the alternate dynamics of (1) withdrawal into contemplative prayer (cloister; everyday mysticism) and (2) advancement into the public sphere (ministry; social justice). Ignatian, Carmelite, monastic, reform, global and social justice spiritual traditions are examined, with a special focus upon topics of diversity and contemporary appropriation. Open to certificate, masters, and doctoral level students from all GSRRE Areas and Fordham University programs. Course capstone requirements adjust to student’s degree programs: MA and Certificate students write either a research paper or project; doctoral students write a 20-page research paper.

SPGR 7760. CHRISTIAN SPIRITUALITY&LEADER.. (3 Credits)
This course examines the intersection between classic texts in Christian spirituality and contemporary texts on leadership studies. The oldest corporations in the West are the monasteries and the Catholic Church. Many spiritual treatises are aimed at helping people understand how to lead communities in an effective manner through word and example. Contemporary writers about leadership, such as Jim Collins, stress spiritual qualities such as humility and hope as important for leading companies into greatness. Whereas the spiritual writings have little quantitative evidence associated with them, the leadership studies provide such analysis; however, books on leadership studies tend to lack any depth behind such concepts as humility or even good advice as to how to achieve it, which texts from the history of Christian spirituality provide. By bringing these horizons together, the course will help students to understand the practical value of Christian spirituality in business, administration, and politics.

SPGR 7792. CONTEMPORARY CHRISTIAN SPIRITUALITY. (3 Credits)
Contemporary foundations, issues, movements and persons impacting the practice of Christian spirituality in a post-modern context. Issues discussed will include embodiment, prayer, work and sexuality. Movements will include feminism, ecology and compassion/justice. This course is for Doctor of Ministry students only and will require doctoral level participation and additional research/writing elements.

SPGR 7794. WOMEN MYSTICS. (3 Credits)
This course will explore the experiences and theologies of women mystics as these have been reported throughout Christian history. Students will read selections from hagiographical texts such as the Acts of Paul and Thecla and the Acts of Perpetua and Felicitas, from the apocryphal texts such as the sayings of the Desert Mothers, from the historical texts such as the Trial of Joan of Arc, and from the writings of women mystics themselves—such as Hildegard of Bingen, Clare of Assisi, Marguerite Porete, Catherine of Siena, Julian of Norwich, Teresa of Avila, Margaret Mary Alacoque, Therese of Lisieux, and Mother Teresa of Calcutta. History, sociology, psychology, theology, and other disciplines will serve to contextualize the consideration of these readings and will invite a careful comparison with present-day experiences. Students will also be invited to ponder the forces that have shaped our current canon of mystics and saints: whose lives remain invisible to study, and why? This course is for Doctor of Ministry students only and will require doctoral level participation and additional research/writing elements.

SPGR 7811. MEDITATION EAST/WEST. (3 Credits)
A Practical theoretical treatment of the tradition of Christian prayer and Eastern Meditation. Included are guided practices, reading and reflection. DMIN/PHD Students Only.

SPGR 7830. DISCERNMENT IN CHRISTIAN TRAD. (3 Credits)
This course offers a two-fold introduction to the Christian tradition of the discernment of spirits. During the first part of the semester, we pursue a historical review of the various articulations of spiritual discernment within the Christian traditions, from New Testament foundations through today. In the second part of the semester, we concentrate upon the theory and practice of Christian Discernment and decision-making grounded in the writing of St. Ignatius of Loyola. Additional Doctoral readings and assignments per instructor.

SPGR 7834. METHODS IN CHRISTIAN SPIRIT.. (3 Credits)
For Doctoral students only. This course introduces graduate students to the academic discipline of Christian Spirituality and to methods for researching and writing at the MA or Doctoral level, employing the GSRRE standard stylebook, Turabian (8th. edition). In consultation with the professor, students are free to pursue a research topic of their choosing; however, their research agenda must include a Christian spirituality component. Students already working on a thesis or dissertation may, with the professor’s consent, use a chapter thereof as their research paper for this course. Course topics include defining the academic discipline of Christian spirituality; the relationship between spirituality and theology; experience as an object of study; the approaches to context, historical consciousness, multidisciplinarity, and hermeneutic theory. In this practical seminar, students collaboratively learn to research and write at the graduate level, as well as explore the rich offerings of Christian spirituality as an academic discipline. Course evaluation is based on active participation, frequent writing assignments, occasional presentations, writing group collaboration, Turabian quizzes, and a 20-page research paper appropriate to each student’s degree program.

SPGR 7839. DISCERNMENT IN CHRISTIAN TRAD. (3 Credits)
For Doctoral students only. This course offers a two-fold introduction to Christian traditions for the discernment of spirits. During the first half of the course, we pursue an historical review of the various articulations of spiritual discernment from New Testament foundations through the sixteenth century. During the second half of the course, we concentrate upon the theory and practice of Christian discernment and decision-making grounded in the writings of St. Ignatius of Loyola. We engage in a critical, close reading of Ignatius’ Rules for the Discernment of Spirits (Weeks 1 & 2) and The Election, both texts from The Spiritual Exercises, as well as selected letters and other writings by Ignatius. This course also emphasizes students’ personal appropriation of this material through the discussion of provided discernment case studies. Course capstone requirements adjust to student’s degree programs: MA and Certificate students write either a research paper or project; doctoral students write a 20-page research paper.

SPGR 7870. SPIR DIR:THEOL & PRACT. (3 Credits)
This course explores the experience of spiritual direction from the standpoint of both the director and the one directed. It situates the contemporary ministry of spiritual direction within the history of the Christian tradition, and draws upon interdisciplinary and interreligious perspectives in order to examine critically a diversity of past and present theologies, processes, and models of spiritual direction.

SPGR 7888. SPECIAL TOPICS:SPIRITUALITY. (3 Credits)
Reserved for special courses in Spirituality.
SPGR 7902. IGNATIAN SPIRITUALITY FOR MINISTRY. (3 Credits)
Limited to DMin students. Engaging in ministry within an Jesuit/Ignatian spirituality context involves pursuing a Christian vision of the world rooted in the experience and writings of the sixteenth-century Basque saint, Ignatius of Loyola. In this hybrid course, we (1) examine the life of Ignatius against the background of his socio-historical and theological context, (2) engage in a close, critical reading of representative texts, and (3) survey various contemporary approaches to the appropriation of his spiritual tradition, with an emphasis upon ministerial practices. We examine especially two important primary sources, his Autobiography, dictated to a fellow Jesuit near the end of his life, and The Spiritual Exercises, a remarkable and influential handbook for personal and spiritual growth. We also read excerpts from his Spiritual Journal, the Constitutions of the Society of Jesus, and Letters. Capstone requirement: 20-page research paper, which is due later in the spring semester.

SPGR 8500. COMPREHENSIVE EXAM MA CHRISTIAN SPIRITUALITY. (0 Credits)
Required for completion of the MA in Christian Spirituality concentrations, Generalist and Spiritual Direction.

SPGR 8870. SPIR DIR:THEOL & PRACT. (3 Credits)
(PHD and DMIN students only) This course explores the experience of spiritual direction from the standpoint of both the director and the one directed. It situates the contemporary ministry of spiritual direction within the history of the Christian tradition, and draws upon interdisciplinary and interreligious perspectives in order to examine critically a diversity of past and present theologies, processes, and models of spiritual direction.

SPGR 8998. SPECIAL TOPICS: SPIRITUALITY. (3 Credits)
A tutorial in the area of religion.

Supreme Court (SUGL)

SUGL 0386. CURR SUPREME CRT CONTROVERSIES. (2 Credits)
Concentrates on Supreme Court practice, the constitutional decisions of the most recent term, and leading constitutional issues on the current docket. Enrollment is limited. Notes/Miscellaneous: PAPER REQUIRED.
Attributes: JD, LLM.

SUGL 0999. HISTORYOF THE SUPREME CT.. (2,3 Credits)
This is a survey course that explores the history of the Supreme Court from its beginnings to present.
Attributes: JD, LLM.

Symposium (SYMP)

SYMP 0001. PRE-HEALTH SYMPOSIUM. (1 Credit)
An introduction to medical, dental and other health professions schools requirements together with an opportunity to interact with members of different health professions.

SYMP 0002. FRESHMAN SYMPOSIUM. (0 Credits)

SYMP 0003. PRE-LAW SYMPOSIUM. (1 Credit)
This symposium will familiarize students with careers in the law, as well as the essential elements of a strong law school application. Emphasis will be placed on the academic, extracurricular, and professional conduct expectations necessary to enter the legal profession. The symposium will feature guest speakers from different sectors of the legal profession, as well as admissions officers from area law schools.

SYMP 0005. PRE-HEALTH PEER MENTORS. (0 Credits)
Attend all sessions of Pre-Health Professions Symposium, lead a group of 8-10 first-year health professions students in academic and community life.

SYMP 0006. FIRST-YEAR FORMATION SYMPOSIUM. (0 Credits)

SYMP 0007. FIRST YEAR RESEARCH EXPERIENCE. (1 Credit)

SYMP 0008. MANRESA JESUIT EDUCATION SOCIAL JUSTICE. (1 Credit)
A critical examination of the relationship between the academic study and loved experience of Jesuit education and social justice.

SYMP 0009. BIG DATA. (1 Credit)
Wherever we go and whatever we do, data is being collected: purchases, registrations, clicks, “likes”, tweets, “favorites” and more. This unprecedented volume, variety and velocity of electronically captured information, known as Big Data, is transforming the way we live, work, think and behave. This interdisciplinary symposium will expose students to opportunities and challenges currently facing the fields of law, business, science and government. Students will learn techniques and tools for understanding and processing this new form of digital knowledge. No prior background is required.

SYMP 0010. WEST WING ILC. (1 Credit)

SYMP 1000. NUTRITION ESSENTIALS. (1 Credit)
We ARE what we eat. Therefore we should know exactly what we are eating and how it affects our bodies. Nutrition is the science of food and how food nourishes our bodies and impacts our health. This course/seminar will help you to understand: what nutrients are in food, what nutrients your body requires, how your body utilizes those nutrients, how to know your food is safe and what is a “healthful” diet for you and your lifestyle (whether you are an athlete, non-athlete, have weight issues etc). Such knowledge will help you maintain overall wellness FOR LIFE.
Attributes: ENST.

SYMP 2500. THE MATTEO RICCI SEMINAR. (1 Credit)
The Matteo Ricci Seminar focuses on helping students develop a broad-based perspective on the contemporary world, their location in it, and the role of learning in creating a more just society. In the spring, students will identify and begin to work closely with faculty advisors in their areas of expertise. Seminar meeting will focus on the postgraduate opportunities for which students will be applying, and by the end of the academic year, each participant will have an outline of a research project that s/he plans to work on, with direction from her/his academic advisor, over the summer and during the 2011-2012 academic year.

Taxation (Gabelli) (TXGB)

TXGB 709A. TAXATION FOR FINANCE. (3 Credits)
This course enables students to become more tax literate. Along with specific knowledge of the tax law participants will now be able to recognize situations which have tax significance. Prerequisite: ACGB 6111.
Prerequisites: ACGB 6111 or GBA Waiver Fundamentals Acct with a score of 070.

TXGB 709B. PFP-CASE STUDIES. (3 Credits)
This course will cover such topics as entity structure, buy-sell agreements, family limited partnerships, private annuities, division among children and estate issues, qualified deferred compensation plans, non qualified (NQO’s) and incentive (ISO’s) options, restricted stock grants, retirement planning, choice of entity, and estate planning. Prerequisite: TXGB 7025.
Prerequisite: TXGB 7025 (may be taken concurrently).
TXGB 709C. CIVIL&CRIMINAL TAX ENFORCEMENT. (3 Credits)
This course focuses on the federal tax crime statutes enumerated in the Internal Revenue Code and the impact on tax practitioners in their capacity as expert witnesses for the defense, as government witnesses against the client, and as the targets of a criminal investigation. The student will be introduced to the function of the Criminal Investigation Division of the Internal Revenue Service and its investigative techniques, as well as to the legal process via the role of the Justice Department. Prerequisite: TXGB 7001 This course may be taken as an elective for students in the MS in Taxation, MTA, MS in Accounting as well as an elective in the MBA Program. Prerequisite: TXGB 7001 (may be taken concurrently).

TXGB 7001. CORPORATE TAXATION. (3 Credits)
Studies Federal income tax laws that apply to the formation, operation, dissolution and liquidation of corporations. Focuses on the tax impact of various financial transactions upon the corporation, as well as on the shareholders. Issues of distributions and redemptions, accumulated earnings tax and personal holding companies are covered. Discusses multiple corporations, earnings and profits, book-to-tax adjustments and the alternative minimum tax. Emphasizes corporations and other ways of mitigating double taxation. Includes a brief view of corporate acquisitions and reorganizations. Prerequisite: ACGB 7184.

Prerequisites: ACGB 7184 or GBA Waiver IndvBus Entity Tax with a score of 070.

TXGB 7010. FEDERAL RESEARCH & PRCDR. (3 Credits)
Concentrates, during the first part of the course, on the skills needed to research and answer tax questions. Then focuses on the procedures to resolve disagreements — both pre-and post-audit — with the Internal Revenue Service. Prerequisite: AC 7184 .

Prerequisites: ACGB 7184 or GBA Waiver IndvBus Entity Tax with a score of 070.

TXGB 7012. PLANNING AND DESIGN FOR FAMILY WEALTH TRANSFERS. (3 Credits)
Examines planning and design of techniques for transferring wealth from one generation of family members to another. The emphasis is on the gifts, sales, leases, loans and other arrangements between family members that when used carefully and wisely, preserve a family's total wealth for enjoyment by future generations. The course examines those types of lifetime transfers that most effectively preserve a family's wealth from taxation and, at the same time, accomplish important non-tax family objectives. Prerequisite: TX 7025.

Prerequisite: TXGB 7025.

TXGB 7015. PARTNERSHIPS. (3 Credits)
Analyzes the uses, formation, operation and termination of partnerships. Topics include the "substantial-economic-effect doctrine," distributions, sale and exchange of interest, partnership termination, liquidation and disproportionate distributions and limited partnerships and their use as tax shelters. Prerequisite: TX 7001.

Prerequisite: TXGB 7001 (may be taken concurrently).

TXGB 7020. ESTATE & GIFT TAXES. (3 Credits)
Emphasizes the relationship of estate and gift taxes to the income tax. Explores the philosophy underlying Federal policy toward the three taxes and the issue of transferring assets. Introduces basic elements of estate planning, such as trusts, annuities, joint interests and life insurance. Prerequisite: ACGB 7184.

Prerequisites: ACGB 7184 or GBA Waiver IndvBus Entity Tax with a score of 070.

TXGB 7025. TAX PLAN HIGH NTWRTH IND. (3 Credits)
Focuses on the practical aspects of taxing wealthy individuals. Reviews general income-tax planning for wealthy individuals; dealing with passive activities (tax shelters); the use and limitations of qualified plans; investment planning (debt versus equity, timeframe, asset allocation); life, disability and liability insurance exposures; retirement planning; and estate planning. Prerequisite: ACGB 7184.

Prerequisites: ACGB 7184 or GBA Waiver IndvBus Entity Tax with a score of 070.

TXGB 7030. CORP TAX PLANNING STRAT. (3 Credits)
Offers an in-depth study of Subchapter C of the Internal Revenue Code: the complicated rules governing organization, reorganization and liquidation of corporations. Explores such topics as leveraged buyouts, corporate takeovers and personal holding companies. Provides the groundwork essential for corporate tax planning and the analysis of mergers and acquisitions. Prerequisite: TXGB 7001.

Prerequisite: TXGB 7001.

TXGB 7035. FEDERAL TAXATION OF FINANCIAL INSTRUMENTS AND TRANSACTIONS. (3 Credits)
The growth in the number and variety of financial products and transactions has increased exponentially. New financial products have been designed and marketed to fulfill a variety of financial needs and goals. The major challenge from a tax law perspective has been to keep pace with the constant stream of emerging products. The course focuses on the Federal taxation of financial instruments and transactions. It comprehensively explains the myriad and complex rules that govern various financial instruments and transactions and to analyze recent developments in tax law. Prerequisite: TXGB 7065.

Prerequisite: TXGB 7001 (may be taken concurrently).

TXGB 7041. RESEARCH PROJECT. (3 Credits)
Offers an opportunity to research a topic in taxation agreed to by the professor and the student. The research is focused on both academic and legal references and may be integrated with current or anticipated tax practice. A written research paper and an oral presentation are required. Prerequisite: TXGB 7001 and TXGB 7010.

Prerequisites: TXGB 7001 and TXGB 7010.

TXGB 7045. INT'L CORPORATE TAX. (3 Credits)
Introduces the complexities of international taxation by focusing on the U.S. tax system's impact on U.S. companies investing or operating abroad and on foreign companies investing or operating in the U.S. Topics include tax treaties, foreign tax credits and controlled foreign operations. Prerequisite: TX 7001, TX 7010 is recommended.

Prerequisite: TXGB 7001.

TXGB 7048. TAX PLANNING WITH TRUSTS. (3 Credits)
Trusts are used in all facets of income tax, gift tax, estate tax and financial planning. Some trusts are created primarily for tax-planning purposes, but others are more general. This course analyzes and evaluates many creative and current planning uses of the following trusts: irrevocable and revocable trusts, grantor trusts, testamentary trusts, trusts for minors, dynasty trusts, life insurance trusts and corporate trusts. Prerequisite: TXGB 7020.

Prerequisite: TXGB 7020.

TXGB 7050. STATE & LOCAL TAXES. (3 Credits)
Discusses the basic elements of state and local taxes, and surveys the distinctive tax characteristics of major business states, such as New York, New Jersey, Illinois and California. Prerequisite: TXGB 7001.

Prerequisite: TXGB 7001.
TXGB 7056. TX EXEC COMP EMP BNFT RE. (3 Credits)
Covers the tax consequences as well as various strategies relating to
the design and implementation of executive compensation programs
including stock options, restricted stock, stock appreciation rights,
phantom stock and golden parachutes; employee benefit plans, including
health care, disability, life insurance, educational assistance, dependent
care and cafeteria and flexible spending plans; and retirement plans,
including qualified pension, profit-sharing and stock bonus plans, as well
as non-qualified supplemental executive retirement plans (SERPS), top
hat plans and excess benefit plans. Prerequisite: ACGB 7184.
Prerequisites: ACGB 7184 or GBA Waiver IndvBus Entity Tax with a score
of 070.

TXGB 7058. TAX PLANNING FOR BUSINESS PURCHASE, SALE, AND
GIFT. (3 Credits)
Explores the critical planning areas when deciding to buy, sell or gift
business interest. Explores the entrance and exit strategies available
to closely held business owners. Emphasis is on business planning
tools utilizing buy/sell agreements, partnership liquidation agreements,
installment sales, SCINS, family limited partnerships, preferred/common
recapitalization, entity splits and structuring a business for purchase or
sale. Prerequisite: TXGB 7001.
Prerequisite: TXGB 7001.

TXGB 7060. REAL ESTATE INVEST TX PL. (3 Credits)
Studies the tax problems and planning opportunities encountered in
the acquisition, operation and disposition of real estate. Topics include
redevelopment expenditures, carrying costs, depreciation alternatives,
utilization of fair market value, leveraging and other financial techniques.
Prerequisite: TXGB 7001, TXGB 7015.

TXGB 7065. CURRENT PROBLEMS IN TAX. (3 Credits)
This course analyzes the major provisions of new federal tax legislation,
case ruling and regulations. Examining their impact on individual
taxpayers, business, investments, retirement plans, estates, trusts and
practices and procedure. The course uses the current legislative changes
to keep up with the constantly changing tax environment. Prerequisite:
TXGB 7001.
Prerequisite: TXGB 7001.

TXGB 7070. ESTATE & FINANCIAL PLANNING TECHNIQUES FOR
CHARITABLE GIVING. (3 Credits)
This course will analyze in depth the planning strategies and vehicles that
planners use to integrate individual and charitable planning goals. The
areas of focus will be: charitable split interest trusts, private foundations,
conservation easement, pooled income funds and other means to
accomplish overall effective charitable tax planning. These techniques
provide specific tax savings for income, gift and estate taxes, as well
as creating an income stream to the individual for cash flow purposes.
Prerequisites: TXGB 7025.
Prerequisite: TXGB 7025.

TXGB 7076. TAX ACCOUNTING. (3 Credits)
Focuses on situations where government rules required to compute
tax liability differ from those permitted by the accounting profession
to reflect the financial condition of a business. Studies the effects of
different accounting methods on cash flow and reported earnings and
explores their implications for financial decision-making. Topics include
depreciation methods, inventory methods, income-recognition and
changes in accounting periods. Prerequisite: TXGB 7001.
Prerequisite: TXGB 7001.

TXGB 7078. PRES WEALTH WITH EST PLN. (3 Credits)
Provides a complete foundation for estate planning and analysis: the role
of the estate planner and the selection and appointment of fiduciaries;
marital deductions and will planning; life insurance in the estate; the use
and taxation of trusts; recent changes in estate tax law; and special-
situation planning for corporate executives, closely held business owners
and partners. Prerequisite: ACGB 7184, Recommended TXGB 7020.
Prerequisites: ACGB 7184 or GBA Waiver IndvBus Entity Tax with a score
of 070.

TXGB 7080. TAXATION OF U.S. & FOREIGN EXPATRIATES. (3 Credits)
Analyzes how salaries, benefits and special allowances can be structured
to minimize individual tax liability under U.S. tax law for citizens working
abroad and foreigners working in the United States. Encompasses
filing requirements, cost-of-living differentials, foreign business
expenses, foreign tax-credit limitations and avoidance of double taxation.
Prerequisite: TXGB 7025.
Prerequisite: TXGB 7025.

TXGB 7085. FOREIGN TAXATION. (3 Credits)
Introduces the tax systems of major foreign countries from two
standpoints taxation of U.S. companies investing or operating in foreign
countries and taxation of foreign enterprises investing or operating in
the U.S.. Extends concepts discussed in TXGB 7045 INTERNATIONAL
CORPORATE TAXATION. Prerequisite: TXGB 7045.
Prerequisite: TXGB 7045.

TXGB 7087. LANDMARK CASES OF TAXATION. (3 Credits)
Prerequisite: TXGB 7045.

TXGB 7099. SPEC TOPICS IN TAXATION. (3 Credits)
Capitalizes on the availability of industry experts and government
officials to investigate special topics in depth or to analyze issues from a
particular industry perspective. The special topics and prerequisites are
announced when the course is offered. Some examples of Special Topics
in Taxation are Life Cycle Case Studies, Taxation for Finance, and Issues
in Taxation.

TXGB 7811. TAXATION - INTERNSHIP. (1-3 Credits)
The course is intended for students with a Taxation internship for this
semester that wish to receive academic credit for it. The course will begin
with an orientation session and will be followed by additional meetings
with students. The course instructor will provide additional details to
enrolled students.

TXGB 8999. INDEPENDENT STUDY. (3 Credits)

Taxation Law (TXGL)

TXGL 0206. TAX PLANNING & TRANSACTIONS. (2 Credits)
Course will focus on the practical and substantive tax considerations in
the life of a U.S. multinational corporation. From deciding the best ways
to sell a product in a foreign market, to establishing a holding company,
and considering a move outside of the U.S., to adopting the best methods
for dealing with tax-reform, this class will build on the fundamentals of
tax law and teach students how to apply their knowledge and provide
practical advice to the multinational. Some classes will include group
presentations, where students will have the opportunity to present on an
assigned topic during the first half of the class. The professors will invite
guest lecturers from the business community to create a stimulating
discussion of hot-topic tax issues.
Attributes: LAWB, LLM.
Prerequisites: BUGL 0201 and SCGL 0417.
TXGL 0291. RICs & REITs: Tax & Securities. (2 Credits)
Taxation and securities issues relating to regulated investment companies and real estate investment trusts that qualify under subchapter M of the Internal Revenue Code, including umbrella partnership real estate investment trusts (“UPREITs”), including their formation, operation and regulation and merger, and related acquisitions. <p> Helpful But Not Necessary prerequisite: Corporate Tax or Partnership Tax >p> Prerequisites: Income Tax and Securities Regulation .
Prerequisites: (TXGL 0348 and SCGL 0417).

TXGL 0328. CORPORATE TAX. (3, 4 Credits)
This course presents the tax considerations of doing business in the corporate form. The course includes the formation of the corporation, distributions to shareholders, stock redemptions, partial and complete liquidations, reorganizations, spin-offs, and the survival of net operating loss carryovers following changes in corporate structure or shareholders. Attributes: BFF, LAWB.

TXGL 0339. ESTATE & GIFT TAXATION. (2, 3 Credits)
An introduction to the fundamental principles of federal estate and gift taxation and estate planning, including inter vivos and testamentary transfers, trusts, the marital and charitable deductions, powers of appointment, life insurance, jointly held property, IRAs, and generation skipping transfers. Attributes: JD, LLM.

TXGL 0348. INCOME TAXATION. (2-4 Credits)
Prof. Donald L. Sharpe<br> This course covers the basic principles of federal income taxation as applied to individuals (including sole proprietors), exploring the concepts of gross income, adjusted gross income, itemized deductions, deductions and losses disallowed, capital gains and losses, the standard deduction, personal exemptions, taxable income, and credits against tax. Drawing on the Internal Revenue Code, Treasury Regulations, and case law, students and the professor work through 14 different assignments, each assignment subdivided into a number of very specific fact patterns that are discussed in class. This is not a math course. You are permitted to bring into the final exam the assigned Selected Federal Taxation Statutes and Regulations and your notes. <p> Professor Katsoris Section Description: <br> A study of the income taxation of individuals, estates, trusts, and partnerships covering such items as gross income, permissible exemptions and deductions, accounting problems and capital gains and losses. <p> Professor Sugin Section Description: <br> This course surveys the basic principles of federal taxation, exploring income, deductions, and property transactions. Although it concentrates on the taxation of individuals, the principles introduced are applicable to all taxpayers. A comparison of income taxation with consumption taxation runs throughout the course. There is an emphasis on tax policy, and a focus on the role of taxation in social policy. Math is not the instructor’s strength. Attributes: BFF, LAWB, PIE.

TXGL 0357. TAX POLICY. (3 Credits)
This seminar examines tax policy through the lens of distributive justice. It begins by considering the traditional criteria for evaluating taxes: equity and efficiency, with a focus on whether economic efficiency and economic justice are reconcilable goals. Students read some political theory in order to explore the meaning of fairness in taxation. Having mastered basic economic and philosophical tools, students turn to the classic tax policy issues of progressivity and choice of tax base (income, consumption, and wealth), and also examine selected policy issues, which change each year. Topics have included: taxation of the family, taxation of the poor, taxation of human capital, personal deductions, exemption for nonprofit organizations, transitions in the tax law, tax expenditures, social security, and the politics of tax. The readings are a combination of classics in the tax policy literature and exemplars of contemporary debates. The class regularly discusses current events. <p> Tax Policy is an intensive writing class in which each student must write six short papers and discuss them with the class. There is no exam. Income Taxation is not a prerequisite, but an interest in justice in taxation is. The short paper requirement is somewhat modified for students seeking to satisfy the writing requirement.
Attributes: INLJ, JD, LAWB, LAWJ, LLM, PIE.

TXGL 0369. GLOBAL OF AM CORP: TAX & REG POL.. (2 Credits)
Globalization of American Corporations: Tax and Regulatory Policies This course will review the legal issues faced by US multinational corporations as they expand their operations outside the United States. Topics covered will include: the tax impact of their international businesses; US and foreign regulatory concerns, such as anti-trust, employment, intellectual property, as well as the global response to such expansion in the form trade laws, local taxes and popular opposition to expansion. We will also review financial issues, such as structuring mergers and acquisitions, international debt and equity offerings and legal governance.
Attributes: LAWB, LAWI.

TXGL 0375. CORPORATE STRATEGY & TAXATION. (2 Credits)
This course will review the role income tax considerations play in corporate strategy and in determining a corporation’s financial planning and results. Taxes and strategic planning will be reviewed as part of determining business structure, debt and offerings, mergers and acquisitions, international business expansion, capital structure, and choice of business location. This course can be used to satisfy writing requirement.
Attribute: LAWB.

TXGL 0410. NONPROFIT LAW. (2, 3 Credits)
The nonprofit sector, which accounts for an increasingly significant share of the U.S. economy, is regulated by both state and federal law. This course blends business law, tax law, public interest law, and constitutional law. It considers many of the unique legal and policy issues that face charities, including eligibility for tax exemption, restrictions on political activities, prohibition on private benefit for individuals, regulation of fundraising, and limitations on commercial enterprise. The course compares the law and theory of business organizations with that of nonprofit organizations in the context of fiduciary duties and executive compensation.
Attributes: BFE, PIE.
TXGL 0709. TAX ISSUES IN INTERNATIONAL MERGERS & ACQUISITIONS. (2-3 Credits)
This course focuses on the U.S. tax rules governing cross-border reorganizations, taxable acquisitions and dispositions, and foreign joint ventures. In particular, we will examine the U.S. tax consequences of the outbound transfer of assets, foreign-to-foreign transfers of assets, and inbound transfers of assets. We will specifically address issues arising with the transfer of intellectual property, the financing of foreign acquisitions, the structuring of foreign operations of U.S. multinationals, foreign exchange concerns, and the efficient repatriation of foreign earnings. Some knowledge of general corporate and international tax principles is helpful, although background materials will be supplied. The readings will consist primarily of sections of the IRC, regulations, administrative guidance, and some articles addressing tax policy issues raised by the current U.S. international tax regime. For each topic, we will reinforce our knowledge of the relevant provisions by working through problems based on real-world examples. There will be an in-class final examination.
Prerequisites: Federal Income Taxation or permission of the professor.
Recommended: International Taxation and/or Corporate Taxation (neither is required)
Attributes: LAWI, LLM.
Prerequisite: TXGL 0348.

TXGL 0780. PARTNERSHIP TAXATION. (3,4 Credits)
This course addresses the tax treatment of partnerships and partners, problems associated with the formation, operation and dissolution of the partnership, sale of a partnership interest, termination, and death of a partner. We examine actual partnership agreements and apply fundamental partnership tax concepts to a series of problems. In past years, we have had guest lectures by distinguished practitioners. Students should note that partnership tax rules apply generally to all business entities that are not publicly traded, such as general and limited partnerships, LLCs, and play an especially important role in real estate ventures. Prerequisites: Federal Income Taxation or permission of the instructor.
Attributes: BFF, JD, LAWB, LLM.
Prerequisite: TXGL 0348.

Theatre (THEA)

THEA 1100. INVITATION TO THEATRE. (3 Credits)
An introduction to major plays, artists, and forms of theatre in various periods, and an investigation into the creative process of the Theatre today. Videotapes of outstanding productions of plays past and present. Guest lecturers and discussions with directors and designers when possible. Attendance at selected professional productions at reduced rates. Cannot be used by Theatre majors to fulfill art requirement.
Attributes: FACC, FRFA.

THEA 1151. DRAWING: ARCHITECTURE AND STAGE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: FASH, VART.

THEA 1152. DRAWING: ARCHITECTURE AND STAGE II. (2 Credits)
The continuation of Drawing: Architecture and Stage I.
Attributes: FASH, VART.

THEA 1210. INTRODUCTION TO FASHION DESIGN. (3 Credits)
This course explores the art and the business of fashion design by tracing its history in Europe and America; understanding the contribution of fibers to the medium; communicating design details through several modes of drawing; and investigating the market factors that shape contemporary fashion industry around the globe.
Attribute: FASH.

THEA 1220. FASHION TECHNIQUES. (3 Credits)
An overview of Fashion design techniques including research, fabric selection, sewing and basic pattern-making. From studying techniques used by contemporary and historical designers, this course will work through the basic skills necessary for students to create their own designs.

THEA 1800. INTERNSHIP. (1 Credit)

THEA 1901. MODERN THEATRE. (2 Credits)
This course will explore the classic works of modern global and American theatre, including how theatre responds to cultural and social issues. Era-defining works will be read and viewed and focus will be placed on the major playwrights and musical composers of the various periods.

THEA 1999. TUTORIAL. (1 Credit)

THEA 2000. THEATRE HISTORY I: THE GREEKS. (4 Credits)
The course explores the major developments in the ancient Greek theatre, focusing on the plays of Aeschylus, Sophocles, and Euripides. To enrich our context we will read primary Greek texts including The Iliad and The Odyssey, and contemporary responses to the Greeks from writers such as Wole Soyinka, Adrienne Kennedy, and Derek Walcott. The course is open to non-majors. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: CLAS.

THEA 2001. THEATRE HISTORY I: MYTHOS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

THEA 2002. THEATRE HISTORY II: MODERNITY. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

THEA 2003. THEATRE HISTORY III: POSTMODERNISM AND THE PRESENT. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

THEA 2010. ACTING I. (3 Credits)
An introductory acting course influenced by the work of Stanislauski and Grotowski, with psycho-physical actions. Students participate in voice, sound and movement, and associative impulse exercises with particular emphasis on physical actions. These exploratory classroom exercises lead to the creation of a 10-minute individual performance piece based on a transformational personal experience. Voice Lab.
THEA 2015. ACTING FOR NON-MAJORS. (4 Credits)
Introductory acting technique for non-theatre performance majors. Emphasis on developing and freeing the voice, body, imagination, and emotions. Activities of the course include vocal and body warm-ups, theatre games and exercises, improvisation, and scene work. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2020. THEATRE CRAFTS I. (4 Credits)
An introduction to the principles, materials, tools, and techniques of the technical theatre. Emphasis on scenery, construction, and lighting, with an exploration of sound, painting, rigging, drafting, and stage management. Students are required to complete lab hours in the theatre’s scene shop during which they will be building, painting, rigging, and lighting the mainstage productions each semester. (Every semester) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2030. VISUAL DESIGN IN THEATRE. (4 Credits)
Study of the theory and expressive use of color, line, mass, texture, balance, emphasis, and rhythm in visual design for the stage. Procedures and practice in the design and execution of scenery, lighting, properties, and costume. Theatre resources of New York City will be utilized. Note: Students are required to work on a backstage crew for one mainstage production. (Every semester) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2040. DIRECTING I. (4 Credits)
Directing I is an introduction to the fundamentals of text analysis, stage composition, and production design - all essential components of the director’s art. Students study classic and contemporary plays in the Realist tradition, develop design concepts for theoretical productions of the plays, and present scenes in class. The course also focuses on developing students’ leadership and communication skills (equally crucial aspects of directing). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2045. INTRODUCTION TO DIRECTING. (4 Credits)
This class introduces students to some of the basic tools of theatre directing by having them craft several short pieces that explore ways of using space, movement, gesture, light, sound, objects, and spoken words to communicate a story to an audience. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2050. DIRECTING II. (4 Credits)
In Directing II students work throughout the semester on a one-act of their own choosing - conducting production research, forging an interpretation of the play, collaborating with design students on a design approach, and presenting scenes in class. Course work also touches on such practical issues as structuring a rehearsal schedule and assembling a production book. The semester concludes with each student’s mounting a staged reading of the one-act for public performance. Other activities include studying plays outside the Realist tradition that demand more from the director in terms of interpretative skills and production strategies, and working with students in the Playwriting program on their new plays. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2055. DIRECTING III. (3 Credits)
Directing III puts into practice the skills developed in Directing I and II by graduating students to one-act play production. With support from the design departments, scene shop, and publicity office, students mount several evenings of one-act plays for public performance in the Studio Theatre. In the process they hone their ability to conduct auditions and rehearsals and collaborate with designers, technicians, and administrators. They also learn how to create and manage a budget - increasingly crucial skills for the professional director, who must often also produce his or her own work. Other activities include studying the history of directing and learning the rudiments of thrust and arena staging.

THEA 2070. THEATRE DESIGN. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2080. COLLABORATION I. (4 Credits)
First semester of a full year course for all theatre majors. The class introduces students to the areas of acting, directing, playwriting, and design with focus on the art of collaboration. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2090. COLLABORATION II. (4 Credits)
Second semester of a full year course for all theatre majors. The class introduces students to the areas of acting, directing, playwriting, and design with a focus on the art of collaboration. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2210. STAGE MAKEUP AND HAIR I. (3 Credits)

THEA 2211. STAGE MAKEUP AND HAIR. (4 Credits)
An introduction to stage makeup, including planning and executing a variety of makeup styles and techniques. From fantasy to old age, bruises to animal stylization, students will be challenged not only to design makeup but create characters to inform their makeup choices. Other topics will include hairstyles and basic prosthetics. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2212. STAGE MAKEUP AND HAIR II. (3 Credits)

THEA 2221. DRAWING FOR THE THEATRE. (3 Credits)
Introductory drawing course focusing on drawing with directional light, a proportioned human figure, and two point perspective. We explore the media of pencil, charcoal, and water and apply these skills with emphasis on proportion, line quality and contrast.

THEA 2222. DRAWING FOR THEATRE II. (3 Credits)
Drawing I with more emphasis on color. Attribute: INST.

THEA 2230. COSTUME DESIGN. (3 Credits)
Study of the principles involved in the design of costumes for the stage with an emphasis on research, the development of drawing and painting skills, and the investigation of character.

THEA 2231. DRAFTING. (3 Credits)
Introductory drafting course focusing on mechanical drawing and the importance of scale, line weight, and lettering. The three views that communicate the design are ground plan, section, and elevation. We will learn how to layout an entire show and accomplish a full set of plans.
THEA 2230. DRAFTING II. (4 Credits)
Advanced course in drafting. Includes computer drafting utilizing vectorworks. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2235. COSTUME DESIGN II. (3 Credits)
Continuation of Costume Design.
Prerequisite: THEA 2230.

THEA 2241. DRAPING. (3 Credits)
Understanding fabric involves learning fiber content, weave and how particular fabrics behave. As a designer, when choosing fabric it is essential that one understands how fabrics react with light, hang on a figure and relate to scenery by understanding grain, knapp, and weight.

THEA 2242. DRAPING II. (3 Credits)
A continuation of Draping I.

THEA 2243. FABRIC IN 3D. (3 Credits)
Understanding fabric involves learning fiber content, weave, and how particular fabrics behave. As a designer, when choosing fabric it is essential that one understands how fabrics react with light, hang on a figure, and relate to scenery by understanding grain and weight.

THEA 2251. MODEL MAKING. (3 Credits)
An introductory model making class focusing on creating a scenic model in half-inch scale. Beginning with building a model box from plans then constructing walls, show decks and portals. This involves exploring different materials along with their textures and completing the model with props, furniture and figures.

THEA 2252. MODEL MAKING II. (3 Credits)
A continuation of Model Making I.

THEA 2251. THEATER AND SOCIAL JUSTICE IN LATIN AMERICA. (4 Credits)
Theatre has often been employed as a vehicle for raising consciousness of social issues and concerns. Students will study theatres role in shaping society and cultural identity. A practical component of working with theatre artists in Lantin America is part of this course. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2240. THE IRISH THEATRE. (4 Credits)
The course explores the Irish Theatre in the 20th century using major plays as focus. We trace its origins in the Irish Literary Theatre in Dublin at the turn of the century, its growth in parallel with the rising nationalist movement, and its impact in London, Paris, and New York. The playwrights will range from Yeats, O'Casey, and Lady Gregory to Samuel Beckett, Seamus Heaney, and the new writers of the present moment. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2245. CONTEMPORARY IRISH DRAMA. (4 Credits)
Introduces students to works of modern Irish playwrights from Brian Friel to Marina Carr, and examines how joining the European Union and the Celtic Tiger have influenced modern Irish Theatre. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2610. PLAYWRITING II: STRUCTURE. (4 Credits)
We continue the work of Playwriting I with a shift of focus to two new major issues: structure and language. Classic plays are used to demonstrate structural principles with an emphasis on a play's arc through its beginning, turning point, and ending. Exercises introducing alternative techniques of writing enrich the process, including approaches to playwriting as collage, emphasizing the power of image, gesture, and experimental narrative structures including non-linear. Then the writers reach for heightened language to flesh out their play's world. The process includes seminars with guest writers and uses the New York theatre scene as a resource. Again, the final project of the semester is a reading of the one-act plays before an invited audience. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2700. ACTING II. (4 Credits)
Introduction to scene study and text analysis for the actor using the Stanislavsky approach. Work on scenes chosen from realistic plays. Students will study character development by exploring psychological objectives and how they are embodied in physical actions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2750. PERFORMING ITALIAN. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2751. ADVANCED PERFORMING ITALIAN. (4 Credits)
In this advanced version of Performing Italian, students will study in Rome. They will explore additional dramatic texts, including plays by Ruzzante Goldoni, Gozzi and DeFilippo. Critical, theoretical readings from D’Amico, Strehler and Albertazzi among others. The student will also do additional advanced scene study workshops outside of regular scheduled class. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2800. STAGE MANAGEMENT. (4 Credits)
A study of the organizational responsibilities and practical skills needed by stage managers to bring a production through auditions, rehearsals, and performances. Students stage manage a studio theatre production or mainstage production. Also crew work on load in and strike for mainstage production. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2805. STAGE MANAGEMENT I. (3 Credits)
A continuation of Stage Management I. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2810. STAGE MANAGEMENT II. (4 Credits)
A continuation of Stage Management I. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2820. DRAFTING. (4 Credits)
Advanced course in drafting. Includes computer drafting utilizing vectorworks. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2830. DRAFTING II. (4 Credits)
Prerequisite: THEA 2820.

THEA 2840. DRAFTING III. (4 Credits)
Prerequisite: THEA 2830.

THEA 2850. DRAFTING IV. (4 Credits)
Prerequisite: THEA 2840.

THEA 2870. MODEL MAKING. (3 Credits)
Prerequisite: THEA 2800 (may be taken concurrently).
THEA 2815. STAGE MANAGEMENT II. (3 Credits)

THEA 2900. THEATRE MANAGEMENT. (4 Credits)
An introduction to the managerial aspects of American theatre. Topics include: history of theatrical production and management in America, defining and understanding the differences between commercial and nonprofit theatre, basic management functions, types of theatre managers, forming a production company, understanding the actors’ unions and contracts, organizing a nonprofit theatre company, artistic policy choices, staffing, casting, theatrical tours, the role of the producer and presenter, budget planning, box office, fundraising, marketing and audience development, the publicity campaign, and advertising. The class is comprised of lecture, discussion, and guest speakers from the New York City Theatre community. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 2910. THEATRE MANAGEMENT II. (4 Credits)
A continuation of Theatre Management. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: THEA 2900.

THEA 2999. INDEPENDENT STUDY. (2 Credits)
Independent research and readings with supervisio from a faculty member.

THEA 3000. ACTING III. (4 Credits)
Continuation of intensive scene study based on the Stanislavsky system. Techniques of scene analysis, scoring, and appropriate rehearsal procedures will be covered. Performance majors only. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3011. TEXT ANALYSIS. (4 Credits)
Through careful, intensive reading of a variety of plays with different dramatic structures and aesthetics, students begin to see that options exist for interpreting a script. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3016. SONG AS THEATRE I. (4 Credits)
This class leads students towards dynamic expression of musical theatre and other song repertoire through intensive group and individual vocal training. There is special emphasis on the connection between the voice and personality of each student and resolving challenges through imagination. The course includes a professional accompanist. Prerequisite: THEA 2700 or permission of instructor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: THEA 2700.

THEA 3017. SONG AS SCENE. (4 Credits)
Learn how to effectively present musical material by exploring the text and combining it with sure vocal technique. An accompanist is present at each class, and different types of songs will be explored – ballad, up tempo, comic/character, and pop/rock. Acting exercises will be used to fully flesh out the songs. Seamless transitions from scene to song to scene will be examined. The notion of singing as simply acting on pitch will be stressed. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3021. SONG AS THEATRE II. (4 Credits)
Continuation of Song As Theatre Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3022. SONG AS SCENE II. (4 Credits)
Continuation of SONG AS SCENE (Pre-Req: THEA 3017) Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3030. ACTOR’S VOCAL TECHNIQUE I. (2 Credits)
Vocal exercises for the actor to help release the voice, develop larger breathing capacity, and agility in articulation. Work on developing physical ease while exploring varieties of vocal projection through speech and song, and text. (Every fall)

THEA 3040. ACTOR’S VOCAL TECHNIQUE II. (2 Credits)
Advanced exploration of the voice.

THEA 3050. MOVEMENT FOR THE ACTOR I. (2 Credits)
This course will include: 1) Vigorous physical training to develop physical stamina along with Yoga breath-work and stretches to increase flexibility, agility, focus and concentration; 2) Butoh-influenced image work to develop body awareness and sensitivity as well as stimulate movement by images exercised by one’s imagination; 3) Creating characters by exploring the center, weight, rhythm, colors and temperament of the character; 4) Individual and group improvisational exercises to learn to trust and act upon organic impulses.

THEA 3055. DIRECTING IV. (3 Credits)
Directing IV is the first semester of an advanced production course which shepherds students through the process of directing full-length plays for public performance. Throughout the semester students present their research and production ideas, as well as scenes from the plays they are directing, for comment and critique. Other activities include class work on Shakespeare and/or other verse texts.

THEA 3056. DIRECTING IV. (4 Credits)
This course is designed for students who, because they begin the directing track in their junior year, must register for Directing IV in the spring of their senior year and complete course work for Directing IV and V in one semester. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3060. MOVEMENT FOR THE ACTOR II. (2 Credits)
Continuation of Movement I. This course will include: 1) Continuation from Movement I of developing physical stamina and intensifying breath and Yoga work; 2) Continuation of Movement I based on Butoh-influenced image work; 3) Deeper exploration of character work and also taking the character out of the naturalistic realm to invite another layer of understanding on a more unconscious level; 4) Exploring abstract movement; 5) Creating group and solo pieces.
THEA 3065. MUSICAL THEATRE WORKSHOP. (4 Credits)
The Fordham Musical Theatre workshop is a 5-week summer intensive, that offers a varied schedule of four classes: Musical Theatre Workshop, Vocal Techniques, Dance for Musical Theatre, and Acting and Improvisation for Musical Theatre. Monday-Thursday 1-5pm students will work in the classroom as a company. The early afternoon and evenings will include field trips, guest seminars, and attendance at Broadway, Off-Broadway, and Off-Off Broadway plays and musicals. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3066. MUSICAL THEATRE INTENSIVE. (4 Credits)
A five-week summer intensive that offers a varied schedule of four classes: Musical Theatre workshop, Vocal techniques, Dance for Musical theatre, and Acting. Monday through Thursday from 10 a.m. to 5 p.m., students will work in the classroom as a company. The early afternoon and evenings will include field trips, guest seminars, and attendance at Broadway, Off-Broadway, and Off-Off Broadway plays and musicals. Find the program application online at fordham.edu/summer. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3081. ADVANCED MOVEMENT III. (3 Credits)
Emphasis on Boeth inspired image movement works, utilizing imagination, concentration, centering and body expression. Development of solo work.

THEA 3090. STAGE COMBAT. (3 Credits)
Students will become familiar with the concepts, techniques, and safety practices of stage combat. Each class begins with a warm-up/stretch and then moves into strengthening and isolation work. Each class ends with work on original, ongoing choreography.

THEA 3100. ACTING IV. (4 Credits)
Continued advanced scene study with emphasis on complete characterization, physical actions, scoring of rhythm in text, physicality of character, and the grasp of styles. Work with Theatre of the Absurd writers such as Beckett, Pinter, Ionesco, Albee. Maintaining physical scoring in developing character with Chekhov. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3205. FROM PAGE TO STAGE. (4 Credits)
This is a class primarily for directing, playwriting, and design students in how to translate the words on the page of a script into a vision for production on the stage. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3253. MOLIERE: FROM PAGE TO STAGE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3361. COSTUME AND SET DESIGN. (4 Credits)
Investigates the relationships of scenery and costumes, how the design of the environment creates the world for the play and the characters to exist. While learning how to break down a text, we explore character development as well as an emotional response to the play so that research can be done. Through models and sketches, students learn their process and how to articulate their ideas. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3362. LIGHTING DESIGN. (3 Credits)
THEA 3363. LIGHTING DESIGN. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3371. LIGHT AND SET DESIGN. (4 Credits)
Investigates the relationships of lighting to scenery and how lighting design completes the visual world of play on stage. Lighting is the key element to the movement of the production as it relates to transitions between scenes and helping define time and place. We will also examine alternative functions and use of light within scenery. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3373. LIGHTING DESIGN II. (4 Credits)
Continuation of lighting design and practical applications of light in architecture, interiors, installations, and photography. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3374. LIGHTING DESIGN II. (3 Credits)

THEA 3391. PORTFOLIO REVIEW. (3 Credits)
Upper level class for students to compile a sampling of their work in preparation for professional interviews, learn how to prepare a resume, gather photographs, and layout documentation. Students will interact with professionals in a critique of their work.

THEA 3392. PORTFOLIO REVIEW II. (3 Credits)
Continuation of Portfolio Review with the addition of preparing work for the Spring design show.

THEA 3430. SOUND DESIGN. (4 Credits)
From the physics of sound waves to the finesse of cueing, Sound Design covers the foundations of the field. The class will touch on topics in acoustics, system design, vocal reinforcement, sound effects, playback and audio development software, and the role of sound design in the rehearsal and tech process. The goal is to develop the conceptual rigor and practical technique to support a small production with an integral audio component. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3435. SOUND DESIGN II. (4 Credits)
Continuation of Sound Design. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3430. PORTFOLIO REVIEW II. (3 Credits)
Continuation of Portfolio Review with the addition of preparing work for the Spring design show.

THEA 3430. SOUND DESIGN. (4 Credits)
From the physics of sound waves to the finesse of cueing, Sound Design covers the foundations of the field. The class will touch on topics in acoustics, system design, vocal reinforcement, sound effects, playback and audio development software, and the role of sound design in the rehearsal and tech process. The goal is to develop the conceptual rigor and practical technique to support a small production with an integral audio component. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3435. SOUND DESIGN II. (4 Credits)
Continuation of Sound Design. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3430. PORTFOLIO REVIEW II. (3 Credits)
Continuation of Portfolio Review with the addition of preparing work for the Spring design show.

THEA 3430. SOUND DESIGN. (4 Credits)
From the physics of sound waves to the finesse of cueing, Sound Design covers the foundations of the field. The class will touch on topics in acoustics, system design, vocal reinforcement, sound effects, playback and audio development software, and the role of sound design in the rehearsal and tech process. The goal is to develop the conceptual rigor and practical technique to support a small production with an integral audio component. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3435. SOUND DESIGN II. (4 Credits)
Continuation of Sound Design. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3430. PORTFOLIO REVIEW II. (3 Credits)
Continuation of Portfolio Review with the addition of preparing work for the Spring design show.

THEA 3430. SOUND DESIGN. (4 Credits)
From the physics of sound waves to the finesse of cueing, Sound Design covers the foundations of the field. The class will touch on topics in acoustics, system design, vocal reinforcement, sound effects, playback and audio development software, and the role of sound design in the rehearsal and tech process. The goal is to develop the conceptual rigor and practical technique to support a small production with an integral audio component. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3435. SOUND DESIGN II. (4 Credits)
Continuation of Sound Design. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3430. PORTFOLIO REVIEW II. (3 Credits)
Continuation of Portfolio Review with the addition of preparing work for the Spring design show.

THEA 3430. SOUND DESIGN. (4 Credits)
From the physics of sound waves to the finesse of cueing, Sound Design covers the foundations of the field. The class will touch on topics in acoustics, system design, vocal reinforcement, sound effects, playback and audio development software, and the role of sound design in the rehearsal and tech process. The goal is to develop the conceptual rigor and practical technique to support a small production with an integral audio component. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3435. SOUND DESIGN II. (4 Credits)
Continuation of Sound Design. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3430. PORTFOLIO REVIEW II. (3 Credits)
Continuation of Portfolio Review with the addition of preparing work for the Spring design show.
THEA 3450. PROJECTION DESIGN. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3455. PROJECTION DESIGN I. (3 Credits)
THEA 3460. PROJECTION DESIGN II. (3 Credits)

THEA 3564. FRENCH THEATRE AND PERFORMANCE (TAUGHT IN FRENCH). (4 Credits)
This course explores Contemporary French Theatre and offers the opportunity to engage in the creative process from page to rehearsal to a full public performance at the end of the semester. It teaches students how to express themselves more effectively in French. It develops the ability to communicate thoughts and feelings to others. We will combine acting, history, reading, theory and analysis of major modern playwrights. Invited guests from the French and bi-cultural theatre community in New York City will share their experiences with students, and provide opportunities for students to practice their new skills and learn more about. Taught in French. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ALC.
Prerequisite: FREN 2600.

THEA 3600. MASTER CLASS IN DESIGN. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3610. PLAYWRITING III: ONE ACT PLAY. (4 Credits)
The writers alternate their time between the seminar room and the studio theatre for the development and rehearsal process of a Theatre program sponsored production of their one-act play. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3700. PLAYWRITING. (4 Credits)
This playwriting workshop is the cornerstone of the playwriting program. It intentionally welcomes writers of many levels of experience to one dynamic space. The goals of the workshop are to teach basic craft and create an environment that will guide the writers’ explanation of their individual voices. We concentrate on four major issues: storytelling, character, structure, and language. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ENGL.

THEA 3750. PLAYS AND SCREENPLAYS. (3 Credits)
The purpose of the five week project is to write a one-act play and a short screen play, and to explore the relation between the two forms. Elements of craft will be introduced to provide a vocabulary and a scaffolding. Contemporary plays and screenplays will be used as models.

THEA 3800. INTERNSHIP. (2-3 Credits)
Supervised placement for students interested in work experience.

THEA 3900. CUEING AND NARRATIVE. (3 Credits)
This course will incorporate the study of both Lighting and Sound Design to explore storytelling through Theatrical Design choices.

THEA 3910. PERIOD AND STYLE. (3 Credits)
This course will incorporate the study of both Scenic and Costume design to explore storytelling through theatrical design choices.

THEA 3980. SET DESIGN. (4 Credits)
Investigates how the design of an environment creates the world of a play. While learning how to break down a text, we explore character development as well as an emotional response to the play so that research can be done. Through models and sketches, students learn their process and how to articulate their ideas. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 3985. SET DESIGN I. (3 Credits)
Investigates how the design of an environment creates the world of a play while learning how to break down a text, we explore character development as well as an emotional response to the play so that research can be done. Through models and sketches, students learn their process and how to articulate their ideas.

THEA 3987. SET DESIGN II. (3 Credits)
Continuation of Set Design I.

THEA 3999. INDEPENDENT STUDY. (3 Credits)
Independent research and reading with supervision from a faculty member.

THEA 4000. CREATING A CHARACTER. (4 Credits)
Advanced scene study employing exercises and exploration specifically designed to give the actor a technique with which to develop a distinct characterization. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: THEA 3100.

THEA 4001. CREATING A CHARACTER II. (4 Credits)
Continuation of creating character TDLU4000 Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: THEA 3100.

THEA 4021. ACTING AND THE IMAGE. (4 Credits)
Through work with mask the course explores the actor’s use of images as the greatest mode of communication. Masks connect to the essence of the body’s energy and teach us how to create a character. Many of Michael Chekhov’s techniques are embodied in mask work, so the course will also be an introduction to Chekhov technique and beyond. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4022. ACTING AND THE IMAGE II. (4 Credits)
A continuation of Acting and the Image I. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4025. FLYING SOLO. (4 Credits)
This will be an intensive, practical course for students interested in creating a short solo performance piece. Creative work will be accompanied by in-depth documented research into the student’s particular area of interest. In addition to their creative work, each student will be responsible for a substantive research project on a performance artist, assigned to them by the instructor. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
THEA 4045. YOUNG, GIFTED, AND BLACK. (4 Credits)
This interdisciplinary course will explore themes of political, social, and personal transgression and transformation in the cultural tradition of Black American Theatre and performance from the Harlem Renaissance, through the Black Arts Movement to the present. The interrelationship of text, music, and movement will be highlighted to underscore significant aesthetic innovations and also to allow for a discussion of plays, playwrights, and performers in the fullest possible context. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: PLUR.

THEA 4055. DIRECTING V: THESIS PROJECT. (3 Credits)
Directing V is the second semester of an advanced course in full-length play production. Throughout the semester students present their research and production ideas, as well as scenes from the plays they are directing, for comment and critique. Other activities include class exploration of a variety of theatrical styles including Brechtian theatre, solo performance, and ensemble-generated work, among others. In addition, students prepare to enter the professional world by working on their resumes, preparing for job/graduate school interviews, and meeting with guest directors to discuss career strategies.

THEA 4056. DIRECTING VI: INDEPENDENT PROJECT. (3 Credits)
Directing VI is an elective production course designed to meet the needs of the directing major who wishes to investigate a particular playwright's work or explore a certain form or style of theatre. Independent Direction Projects may be of any length. Please note that students wishing to take this course must first meet with the Head of Directing to discuss their project goals and must receive approval before registering.

THEA 4100. ACTING SHAKESPEARE. (4 Credits)
An investigation of the various historical and contemporary techniques of acting Elizabethan verse through close textual analysis and in-class performance of scenes from Shakespeare's plays. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4120. ACTING SHAKESPEARE II. (4 Credits)
Advanced Scene and text work in Shakespeare. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4130. SHAKESPEARE: TEXT AND PERFORMANCE. (4 Credits)
his course will study Shakespeare's plays first as texts and then as performance, focusing on the literary/historical aspect of a play, and then the same play as a theatrical script for realization in a performance setting. Through close readings from these widely disparate points of view, we will try to grasp how the theater acts to engage audiences and create meanings, and how time and culture are expressed in both text and performance. We'll investigate questions about adaptation, authorship, the status of "classic" texts and their variant forms, the transition from manuscript, book and stage to film and digitally inflected forms of media. Assignments will include readings, memorization, essays, and presentations. The final project can be an essay, the student's short video of a Shakespeare excerpt, or a brief performance. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ICC.

THEA 4148. MEDIEVAL DRAMA. (4 Credits)
Divine mysteries and scurrilous scatology, Everyman's workaday struggles and a king's political quandaries, lavish one-night courtly entertainments and massive Biblical plays performed by an entire community: the drama of the English late Middle Ages (roughly 1350-1500) was resourceful, Iocal, non-professional, and endlessly inventive. In this course, we study medieval English drama along three axes: as literary texts full of humor, pathos, and meaning; as evidence for historical performance practice and theater history; and as scripts brimming with possibility for performance. Combining intensive reading of medieval play texts with key works by important theater practitioners, we examine medieval drama on its own terms and ask what it means to read and perform these works in the 21st century. To help answer this question, students collaboratively design, direct, and stage a medieval dramatic work of their choosing as a final project. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ENGL, ICC, MVST.

THEA 4200. THE ACTOR AND THE TEXT. (4 Credits)
The actor's interpretation of the text. Advanced work on the actor's choices. Investigation of what makes the word personal. Explores how the actor can deepen and enrich the text. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4201. THE ACTOR AND THE TEXT II. (4 Credits)
A continuation of TDLU 4200; The actor's interpretation of the text. Advanced work on the actor's choices. Investigation of what makes the WORD personal. Explores how the actor can deepen and enrich the text. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4250. ACTING FOR THE CAMERA. (4 Credits)
Introduces the actor to the techniques of acting for the mediums of television and film, including issues of scale, angle, and material. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: THEA 3100.

THEA 4260. ACTING FOR THE CAMERA II. (4 Credits)
A continuation of Acting for the Camera I. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: THEA 4250.

THEA 4300. ACTORS AND THEIR ART. (4 Credits)
Advanced acting course in developing original scenes based on poetry, short stories, novels, sculpture, and paintings. Emphasis on work with physical actions and creating a physical and psychological score to illuminate actor-created work. Focus on imagination, writing, and performance skills. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
THEA 4301. PERFORMANCE AND ART. (3 Credits)
This acting course for dancers will work in developing original scenes based on poetry, sculpture, paintings and scene study. Emphasis on work with physical actions and creating a physical and psychological score to illuminate actor-created work. Focus on imagination, writing and performance skills. For Alvin Ailey BFA majors.

THEA 4302. RUSSIAN THEATRE WORKSHOP. (2 Credits)
This course conducted in Moscow includes work in acting, movement, dance, voice, Russian theatre history, and a study of the current Russian theatre. It is taught by the faculty of the Moscow Art Theatre School.

THEA 4305. CLOWN AND IMPROVISATION. (4 Credits)
Examining different comedic traditions, students will study techniques from commedia dell'arte, clown and improvisation. Drawing on the teachings of contemporary artists such as Keith Johnstone and Phillippe Gaulier, the course will demonstrate and sharpen comedic skills by creating a sense of continuity between traditional and contemporary comedy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4310. ADVANCED SCENE STUDY. (4 Credits)
Students will work on scenes in depth covering a broad range of theatrical styles and diverse playwrights. Students will work on scenes in depth covering a broad range of theatrical styles and diverse playwrights. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4400. SENIOR AUDITION I. (2 Credits)
Prepares students to audition for professional theatre companies, agents, casting directors, and graduate schools. Students develop two audition pieces (one classical/one contemporary) and also learn to prepare cold readings. Guidance also provided in the preparation of pictures and professional resumes. Performance majors only. (fall, senior year)

THEA 4410. SENIOR AUDITION II. (2 Credits)
Preparation of the Senior Showcase, in which students present scenes, monologues, and songs for producers, agents, and casting directors. Performance majors only.

THEA 4420. SENIOR AUDITION. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4425. DESIGN SHOWCASE. (2 Credits)
This course focuses on presenting and discussing students’ work as a design or manager while developing their understanding of the business of theatre and their potential role in it. We look at portfolios, resumes, and CVs, cover letters, and production books and talk with established professionals and recent graduates about the best strategies for entering the New York and regional theatre communities. Design and Production students only, required for participation in the annual Design Showcase. Prerequisite: THEA 3205.

THEA 4500. THEATRE, CREATIVITY, AND VALUES. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction. Attribute: EP4.

THEA 4501. DIRECTING PRODUCTION WORKSHOP. (3 Credits)
An advance production class that shepherds students through the process of producing a fully staged production for public performance.

THEA 4505. DESIGN PRODUCTION WORKSHOP. (3 Credits)
This course is designed to run with Directing Workshop to merge design and directing students in practical production experiences. In the process, students will hone their ability to analyze text, shape a design idea, communicate with artistic collaborators, create working drawings and models, plan a production schedule, and create and manage a budget. The focus is play production and attending and discussing university and professional productions.

THEA 4510. DIRECTING PRODUCTION WORKSHOP I. (3 Credits)
An advanced production class that shepherds students through the process of producing a fully-staged production for public performance.

THEA 4511. DIRECTING PRODUCTION WORKSHOP I. (4 Credits)
This course is designed to run with Directing Workshop to merge design and directing students in practical production experiences. In the process, students will hone their ability to analyze text, shape a design idea, communicate with artistic collaborators, create working drawings and models, plan a production schedule, and create and manage a budget. The focus is play production and attending and discussing university and professional productions.

THEA 4520. DIRECTING PRODUCTION WORKSHOP II. (3 Credits)
An advanced production class that shepherds students through the process of producing a fully-staged production for public performance.

THEA 4521. DIRECTING PRODUCTION WORKSHOP II. (4 Credits)
Continuation of Design Production I Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4530. DIRECTING PRODUCTION WORKSHOP III. (3 Credits)
An advanced production class that shepherds students through the process of producing a fully-staged production for public performance.

THEA 4531. DIRECTING PRODUCTION WORKSHOP III. (4 Credits)
Continuation of Design Production Workshop II Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4560. ADVANCED PLAYWRITING. (4 Credits)
This course supports the writer on the production of a play of any length and style. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
THEA 4650. ACTORS WORKSHOP. (4 Credits)
The Fordham Actors Workshop is a five-week summer intensive that offers a varied schedule of four classes: Acting, Text, Movement, and Improvisation technique. Monday-Thursday from 10 am to approximately 5 pm students will work as an ensemble in the classroom. The early afternoon and evenings are reserved for field trips, guest seminars, and the weekly attendance of Broadway, off-Broadway, and off-off-Broadway shows. Course enrollment for Fordham students is by permission of the department. If not currently Acting majors or minors, students will be expected to fill out the full written application. Course enrollment is limited to 20 students. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4800. INTERNSHIP. (4 Credits)
Supervised placement for students who are interested in work experience. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 4900. ADVANCED COLLABORATION. (3 Credits)
A continuation of the work begun in Collaboration 1 and 2 for advanced theater majors. Taught in conjunction with the graduate level Collaboration course for MFA Playwrights.

THEA 4999. TUTORIAL: THEATRE AND DRAMA. (1-4 Credits)
Independent research and reading with supervision from a faculty member.

THEA 5000. THEATRE HISTORY I. (4 Credits)
We will seek a perspective on the developments in the theatre from Ancient Greece, Japan, and India, and through the Elizabethans using major plays as our focus. We will explore their context—when, where, and why they were written—the lives of the playwrights, and the culture and the politics of their society. Our prime focus will be the nature of tragedy. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5055. DIRECTING VI. (3 Credits)
Directing VI is an elective production course designed to meet the needs of the directing major who wishes to investigate a particular playwright's work or explore a certain form or style of theatre. Independent Direction Projects may be of any length. Prerequisite: Directing IV. Please note that students wishing to take this course must first meet with the Head of Directing to discuss their project goals and must receive approval before registering.

THEA 5080. COLLABORATION I. (4 Credits)
The ability to collaborate is the fundamental skill necessary for the creation of theatre. This course will explore the vocabularies of design, acting, playwriting, and directing to create a common fluency in the dialects of each discipline. This will increase the playwright's ability to listen and communicate, the chief tools of collaboration. Structured exercises will guide teams to create short pieces together, rotating responsibilities, and always placing a strong collaborative process as the highest goal. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5090. COLLABORATION II. (4 Credits)
Second semester of full-year progression of Collaboration Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5100. THEATRE HISTORY II. (4 Credits)
The course explores the major developments in Theatre from 1879 to the present using major plays of Ibsen, Strindberg, Chekhov, Wedekind, Stein, Brecht, O'Neill, Artaud, Genet, Beckett, Soyinka, Mishima, Kennedy, Hansberry, Churchill, Parks, and the movements of performance art and Butoh. We explore their context (when, where and why they were written), the lives of the playwrights, and the culture and the politics of their society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5166. YA/CHILDREN'S LITERATURE. (4 Credits)
A Master Class level creative writing workshop where students will engage in writing for younger readers, children through YA, with attention to process and the art of storytelling. During the semester students will develop a writing portfolio consisting of prewriting, first draft, revised and polished pages. The genre and form of a student’s writing will be self-selective with the instructor's guidance. Workshop writings may include fiction, non-fiction, fantasy or poetry. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5176. WRITING ABOUT PLACE. (4 Credits)
Of course writing about "place" can be exotic (as it must have been for the 18th century British noblewoman, Mary Montagu, when she visited a harem or two in Turkey) but then again, some of most evocative writing about place we have is by writers who didn't even have to leave their neighborhoods to do it. In this Master Class, you will get a variety of opportunities to write about New York City, bringing your New York City neighborhoods to do it. In this Master Class, you will get a variety of opportunities to write about New York City, bringing your New York City life. The options are infinite. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5200. INVENTING SHAKESPEARE. (4 Credits)
This course will study Shakespeare's plays first as texts and then as performance, focusing on the literary/ historical aspects of a play, and then the same play as a theatricals script for realization in a performance. We'll investigate questions about adaptation, authorship, the status of "classic" texts and their variant forms, the transition from manuscript, book and stage to film and digitally infected forms of media. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5610. DRAMATIC STRUCTURE. (4 Credits)
Iconoclasts have shaped the history of our art form's progression, from Euripides to Shakespeare to Beckett. Someone creates the rules and then someone else breaks it, and so we advance. The purpose of this course is to understand the rules to forment the next possibility of advance. Plays are vehicles to transport us to places we would not otherwise go, places of danger. Exercises are rooted in storytelling techniques and character development. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
THEA 5700. PLAYWRITING WORKSHOP. (4 Credits)
The primary goals of the course are to hone basic craft and to create an environment that will guide the writers’ exploration of their individual voices. We concentrate on four major issues: storytelling, character, structure, and the poetic voice. The course is taught from overlapping perspectives of traditional and alternative techniques. Exercises are rooted in storytelling techniques and character development. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ENGL.

THEA 5750. PLAYWRITING STRATEGIES. (4 Credits)
This course offers a series of workshop classes that focus on writing strategies, generating new work, and giving writers unique tools for confronting and overcoming obstacles and challenges the playwright faces. The playwrights will be introduced to readings and interviews by and about other playwrights on generative writing process, the act of rewriting, and new forms of creating a stage event. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5800. TV COMEDY WRITING. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5810. TV DRAMATIC WRITING. (4 Credits)
This course will focus on the art of creating, pitching, and selling a dramatic series. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5850. TV WRITING. (4 Credits)
This course will focus on the field of writing for television. Students will explore every aspect of the craft, from concept to pitch to sale. Various exercises and writing assignments will familiarize students with the various structures and systems of TV and new media, preparing them for work in a writers room, as a show runner, or anything in between. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5900. TEXT ANALYSIS. (4 Credits)
Introduces students to various methods for investigating a script and uncovering the many different stories that can be told in production. Students are exposed to a variety of plays, with the emphasis placed on exploring the language of the plays themselves rather than on researching their historical and theatrical context, although these areas may also be touched on. By semester’s end, each student is expected to have a command of the basic tools of text-analysis, and should be able to use these tools in collaboration. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5958. CRAFT OF POETRY. (4 Credits)
Directed as a workshop, this course will focus on student work in progress. We will pay special attention to a variety of forms, modes and generative techniques, from the traditional to the very experimental. Readings will be determined by instructor and student interests. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 5966. MASTER CLASS:CREATIVE ONLINE. (3 Credits)
This multi-genre writing workshop will take on the website as a performance space for creative avatars. What possibilities for creative projects lie in the malleability of the Internet--its multi-directional readability and possibilities for instant gratification editing? Students will design websites, workshop website content, generate multi-media through collaborative teams and make presentations.

THEA 5996. MASTER CLASS: CREATIVE ONLINE. (3 Credits)
This multi-genre writing workshop will take on the website as a performance space for creative avatars. What possibilities for creative projects lie in the malleability of the Internet--its multi-directional readability and possibilities for instant gratification editing? Students will design websites, workshop website content, generate multi-media through collaborative teams and make presentations.

THEA 6210. ALTERNATIVE THEATRE. (4 Credits)
Playwrights will learn the history of theatre outside the mainstream, concentrating on non-linear works, Art-related movements, such as DADA, language experiments, such as Gertrude Stein’s movement theatre, and other experimental forms. They will also survey the contemporary ways these historic roots have taken form now. And then they will imagine and execute their own alternative works in scale model. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 6400. DESIGN FOR PLAYWRIGHTS. (4 Credits)
Playwrights write texts to be performed in actual space, so the playwright who begins from imagining the place where action occurs is activating the essential core of the dramatic imagination. Playwrights must understand how to collaborate with designers and they may benefit enormously from allowing a designer in to the creative process early. It advances the playwright’s craft to learn the designer’s craft of line, shape, drawing, model making and findings way to embody thematic ideas in concrete spaces. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 6430. ADAPTATION. (4 Credits)
Introduction to the craft of adaptation for the stage and screen. Emphasis will be placed on learning to recognize and evaluate the kinds of source material that invite adaptation, and subsequently how to effectively translate elements from that material to craft powerful stories. Class discussion, lectures, readings, and guest seminars will examine source material that includes short stories, novels, biographies, and true stories developed from journalistic sources as well as examples of its successful adaptation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 6500. SHAKESPEARE. (4 Credits)
An exploration of Shakespeare’s plays from a playwright’s perspective on craft. How does Shakespeare achieve what he does? What techniques does he employ to generate his vast range of characters and meanings? MFA playwrights only, or by permission of Chair.
THEA 6600. SCREENPLAY ANALYSIS. (4 Credits)
This course introduces methods of analyzing and examining screenplays in terms of their language, plot and character development, story, cinematography, and other elements of structure and theme. Students will examine the diverse methods of storytelling for the screen, especially how the stories of film are told primarily through visual imagery. The screenplays analyzed will span global cultures, eras, and movements in film. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 6770. SCREENWRITING. (4 Credits)
This course focuses on analyzing and writing screenplays for film and television. Class time is devoted to exercises, lectures, and assignments that focus on creating and improving plots and premise, developing potent characters, understanding and honing structure, and sharpening dialogue. In-class activities and lectures are supplemented with guest seminars, film viewings, and screenplay readings, followed by discussion and analysis on the theme of craft, including plot, character, technique, and structures. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 6790. SCREENPLAY ANALYSIS. (4 Credits)
This course introduces methods of analyzing and examining screenplays in terms of their language, plot and character development, story, cinematography, and other elements of structure and theme. Students will examine the diverse methods of storytelling for the screen, especially how the stories of film are told primarily through visual imagery. The screenplays analyzed will span global cultures, eras, and movements in film. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 6980. CONTEMPORARY THEATRE. (4 Credits)
A playwright is the person who has her ear to the rail, the one who channels the zeitgeist. To that end this class will obsess on the present moment. What is happening in politics now? Literature? Science? Where in New York City theatre and global theatre are these revolutions and innovations finding expression? Writers in the course will see in never-before-produced play every week, meet with the makers of new work, and use those experiences to write a play that resonates with the present moment. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 6990. THE PLAYWRIGHT PREPARES. (4 Credits)
This semester focuses on preparing the second-year playwrights for submitting their plays to theatres, film and television studios, contests, and agents. Visiting designers, managing directors, film and television producers will enhance the students' understanding of the community they are entering. Contemporary theatre issues are also discussed, particularly those related to the role of the playwright in our society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 7000. PRODUCTION. (4 Credits)
This seminar focuses on preparing the second-year playwrights for submitting their plays to theaters, film and television studios, contests, and agents. Visiting agents, dramaturgs, screenwriters, directors, designers, managing directors, film and television producers will enhance the students' understanding of the community they are entering. The seminar will also serve as a foundational course for the full-length thesis productions that spring. Contemporary theater issues are also discussed, particularly those related to the role of the playwright in our society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEA 8999. INDEPENDENT STUDY. (4 Credits)

Theology (THEO)

THEO MTNC. MAINTENANCE-THEOLOGY. (0 Credits)

THEO 0912. REQUIREMENT PREPARATION. (0 Credits)
For Ph.D. and Master's students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement, such as comprehensive exam, Master's thesis, or dissertation submission. Attribute: Z410.

THEO 0914. REQUIREMENT PREPARATION IN SUMMER. (0 Credits)
For Ph.D. and Master's students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement during the summer. (e.g., to be used by Ph.D. students after the oral examination/defense and prior to receiving the degree).

THEO 0922. PHD COMPREHENSIVE EXAMINATION PREPARATION. (0.5 Credits)

THEO 0930. PHD COMPREHENSIVE EXAMINATION-THEOLOGY. (0 Credits)

THEO 0934. MASTER'S COMPREHENSIVE EXAMINATION PREPARATION. (0.5 Credits)

THEO 0936. MASTER'S COMPREHENSIVE EXAMINATION-THEOLOGY. (0 Credits)

THEO 0938. MASTER'S CAPSTONE-THEOLOGY. (0 Credits)
Required interdisciplinary capstone project for all M.A. students in Theology.

THEO 0950. PROPOSAL DEVELOPMENT. (1 Credit)

THEO 0960. PROPOSAL ACCEPTANCE. (3 Credits)

THEO 0970. DISSERTATION MENTORING-THEOLOGY. (0 Credits)
Theology Ph.D. student is required to register for Dissertation Mentoring, which has a 3 credit fee, the semester after the student's proposal is accepted. Attribute: Z407.

THEO 1000. FAITH AND CRITICAL REASON. (3 Credits)
An introductory theology course designed to acquaint students with the analytical study of religion and religious experience, and to give them some critical categories of evaluating the history of theological discourse. The academic study of some of the forms, concepts, experience, and theological formulations found in Christianity and various other traditions will be introduced. Attributes: FRPT, REST, THFR.
THEO 1006. SIN AND SALVATION IN MEDIEVAL THEOLOGY. (3 Credits)
This Manresa seminar will provide a survey of Christian understandings
of sin and salvation in the medieval West, c. 400-1500. Theologians
whose writings on these topics will be considered include Augustine,
Anselm, Peter Lombard, Thomas-Aquinas, Bonaventure, John Duns
Scotus and Martin Luther.
Attribute: MANR.

THEO 1007. SINNERS, SAINTS, AND STORIES. (3 Credits)
This course will explore both the ways that biblical narratives have
informed the traditional self-understanding of the western world and
the ways in which that self-understanding has been complicated in the
modern era. Of particular interest for this course is 1) the different biblical
presentations of what it means to be a “sinner” or a “saint,” 2) the further
reflection on these narratives and topics found in post-biblical literature,
and 3) the competing narratives that may be found in the modern world.
Attributes: FRPT, MANR, THFR.

THEO 1010. RESTLESS HEART: QUEST. (3 Credits)
Many writers throughout history, have described their personal quest for
the transcendent. Writers—both classical and popular, devout believers
and atheists, some reverent, some vulgar—describe this quest as a
matter of first losing and then finding oneself. This seminar will explore
the search of several of these writers through their autobiographies.
Attributes: EP1, FRPT, MANR, THFR.

THEO 1050. SYRIAC LANGUAGE AND LITERATURE I. (3 Credits)
This course is part of a two-semester introduction to Syriac, a dialect
belonging to the Aramaic language branch. The first semester will
introduce the scripts, cover grammatical foundations, and expose
students from early on to the reading of texts. The second semester will
be mostly spent reading Syriac literature, but some time will be devoted
to select special topics in Syriac grammar. It is possible to take the first
semester only.
Attributes: MVST, OCST, REST.

THEO 1800. INTERNSHIP. (1 Credit)

THEO 1999. TUTORIAL. (1 Credit)
Independent research and readings with supervision from a faculty
member.
Attribute: GLBL.

THEO 2800. INTERNSHIP-THEOLOGY. (2 Credits)
Independent research and reading with supervision from a faculty
member.
Prerequisite: THEO 1000.

THEO 3100. INTRODUCTION TO OLD TESTAMENT. (3 Credits)
History, literature and religion of ancient Israel.
Attributes: MEST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1004 or
THEO 1005 or THEO 1006 or THEO 1010 or HPLC 1401 or THEO 1007 or
THEO 1009 or THEO 1002 or THEO 1008.

THEO 3102. BOOK OF GENESIS. (4 Credits)
This fascinating and influential book of the Bible will be studied for its
historical origins, literary forms, and theological ideas. In addition, the
course will address the impact of the stories in Genesis on the
development of western culture. Four-credit courses that meet for 150
minutes per week require three additional hours of class preparation per
week on the part of the student in lieu of an additional hour of formal
instruction.
Attribute: STXT.
Prerequisites: THEO 1000 or THEO 1009 or THEO 1008 or THEO 1002 or
THEO 1004 or HPRH 1001 or HPLC 1401 or THEO 1003 or THEO 1005 or
THEO 1006 or THEO 1010 or THEO 1007.

THEO 3105. THE TORAH. (3 Credits)
Study of different types of literature found in the first five books of the
Hebrew Bible and of the methods for its interpretation. This course will
focus on the process by which this material moved from oral tradition to
written literature to sacred scripture in Israel.
Attributes: JWST, MEST, STXT.
Prerequisites: THEO 1000 or THEO 1009 or THEO 1008 or THEO 1002 or
HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1003 or THEO 1005 or
THEO 1006 or THEO 1010 or THEO 1007.

THEO 3120. THE PROPHETS. (3 Credits)
A study of prophecy in the Bible from its origin in the religious practices
of the ancient Near East to the final literary shape of biblical books.
Moses, Elijah, Amos, Hosea, Jeremiah, Isaiah and Ezekiel are among the
figures to be studied.
Attributes: MEST, STXT.
Prerequisites: THEO 1000 or THEO 1009 or THEO 1008 or THEO 1002 or
HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1003 or THEO 1005 or
THEO 1006 or THEO 1010 or THEO 1007.

THEO 3200. INTRODUCTION TO NEW TESTAMENT. (3 Credits)
Christianity began as a Jewish movement. Jesus’ followers worshipped
the God of Israel and ordered their lives according to the Torah and other
sacred texts. As Christians separated themselves from the synagogue,
they began composing texts proclaiming the Gospel. This course
will engage questions about the origin, development and authority of
the Christian canon while reading parts of the New Testament in the
historical context of first-century Hellenistic Judaism and the religious
context of the canon.
Attributes: AMCS, CLAS, MVST, REST, STXT.
Prerequisites: THEO 1000 or THEO 1009 or THEO 1008 or THEO 1002 or
HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1003 or THEO 1005 or
THEO 1006 or THEO 1010 or THEO 1007.

THEO 3207. THE FIRST THREE GOSPELS. (3 Credits)
Introduction to the gospels of Mark, Matthew and Luke. The formation of
the gospels, the distinguishing characteristics of each, and the life and
teachings of the historical Jesus.
Attribute: STXT.
Prerequisites: THEO 1000 or THEO 1009 or THEO 1008 or THEO 1002 or
HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1003 or THEO 1005 or
THEO 1006 or THEO 1010 or THEO 1007.

THEO 3212. GOSPEL OF JOHN. (3 Credits)
Literary and theological analysis of the fourth gospel; special attention
to the theme of personal revelation in Jesus Christ, the motif of
misunderstanding and the thematic unity of the gospel as a whole.
Attributes: AMCS, CLAS, STXT.
Prerequisites: THEO 1000 or THEO 1008 or THEO 1009 or THEO 1002 or
HPRH 1001 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or
THEO 1010 or HPLC 1401 or THEO 1007.
THEO 3250. JESUS IN HISTORY AND FAITH. (3 Credits)
A study of the early Christian understanding of Jesus’ life and ministry as this understanding is expressed in the Gospels, and of the so-called problem of the “historical Jesus” which issues from a critical reading of these texts. This course will cover several divergent readings of Gospel texts by contemporary scholars.
Attributes: STXT.
Prerequisites: THEO 1000 or THEO 1008 or THEO 1009 or THEO 1002 or HPRH 1001 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3301. CHRISTIAN TEXTS IN CONTEXT. (3 Credits)

THEO 3314. ST. AUGUSTINE OF HIPPO. (3 Credits)
A study of the life and thought of St. Augustine (354-431). Particular attention is given to his early philosophical writings, the Confessions, and his teaching on sin and grace. Students read Augustine’s works in translation and write several short papers.
Attributes: CLAS, MEST, MVST, OCST, REST, STXT.
Prerequisites: THEO 1004 or THEO 1008 or HPR 1001 or THEO 1009 or THEO 1002 or THEO 1005 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1010 or HPLC 1401 or THEO 1007 or THEO 1003.

THEO 3316. BYZANTINE CHRISTIANITY. (3 Credits)
Historical and critical study of classic authors and texts in the Orthodox tradition including: Basil of Caesarea, John Chrysostom, John Climacus, John of Damascus, and Gregory Palamas.
Attributes: MEST, MVST, OCST, REST, STXT.
Prerequisites: THEO 1000 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or HPRH 1001 or HPLC 1401.

THEO 3320. AUGUSTINE, AQUINAS, AND LUTHER. (3 Credits)
This course provides a historical introduction to the life and thought of three of the most significant and influential theologians in the history of Christianity. The course will be divided into three units, one per theologian, and the general rubrics within each unit will be "Faith and Reason" and "Nature and Grace."
Attributes: MVST, REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3330. MEDIEVAL THEOLOGY TEXTS. (3 Credits)
Historical and critical study of classic theological texts of Augustine, Pseudo Dionysius, Anselm, Bonaventure and Thomas Aquinas. Doctrine of God, the human person and Christ; relation of theology and philosophy.
Attributes: MVST, OCST, REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3332. CHRISTIANS, MUSLIMS, JEWS IN THE MEDIEVAL PERIOD. (3 Credits)
This Sacred Texts and Traditions course explores theological writings from Christians, Muslims, and Jews in the Middle Ages. We will explore moments of both inter-religious conflict and peaceful co-existence, and we'll interrogate what this complex, distant history can teach us about possibilities of mutual understanding among members of Christian, Islamic, and Jewish faiths today.
Attributes: JWST, MVST, OCST, REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401.

THEO 3340. CHRISTIAN MYSTICAL TEXTS. (3 Credits)
This course will introduce students to classic texts from the Christian mystical tradition with a primary focus on their close interpretation and analysis. Broader topics may include the nature of religious experience, explorations of the category of “mysticism” itself, gender and mysticism, and the interpretive issues at stake in comparing mystical texts across time and culture. Depending on instructor, course may focus on mystical texts from one particular period in the history of Christianity, or it may range from the patristic, medieval, modern, and/or contemporary periods. This course counts as core course in the Sacred Texts and Traditions serious.
Attributes: EP3, MVST, STXT.
Prerequisites: THEO 1000 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or HPLC 1401 or THEO 1008.

THEO 3345. THE BOOK OF REVELATION. (3 Credits)
The course includes a close reading of the final book in the Christian New Testament with special attention to contemporary biblical scholarship as well as various interpretations offered in times of crisis throughout Christian history.
Attributes: MVST, STXT.
Prerequisites: THEO 1000 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3360. REFORMATION TEXTS. (3 Credits)
This course will examine major Protestant and Catholic texts from the sixteenth century with attention to their religious, social and theological context and their importance for their respective ecclesial communities.
Attributes: EP3, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3361. PROTESTANT TEXTS. (3 Credits)
An exploration of major Protestant texts from the Reformation to the present, focusing on themes that have been especially prominent in Protestant Christian thought, e.g. sources of revelation, justification, ecclesiology, the role of images/material objects in worship, Christianity’s relationship to culture, etc. Students will be introduced to major Protestant figures and movements within Protestant theology through careful reading of significant theological texts. The course will focus especially on texts from the 18-20th centuries, concluding with an exploration of theological diversity within contemporary Protestantism.
Attributes: REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

Updated: 10-11-2017
THEO 3375. AMERICAN RELIGIOUS TEXTS. (3 Credits)
A critical and contextual reading of classical texts in American Religions History, focusing on diverse traditions and the crucial importance of religious perspectives to American culture, society, and self understanding.
Attributes: AMCS, AMST, PLUR, REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401.

THEO 3390. CHURCH IN CONTROVERSY. (3 Credits)
A study of the Catholic Church's written responses to some of the major controversies and secular ideologies in the modern world. Some of these include the rationalism of the Enlightenment, 19th-century liberalism and nationalism, the varieties of socialism and various forms of 20th century totalitarianism.
Attributes: AMCS, REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3542. CATHOLIC SOCIAL TEACHING. (3 Credits)
This course is an introduction to modern Catholic social teaching. Major papal and conciliar documents will be read and critically examined from various Christian and non-Christian perspectives. Their relation to contemporary social issues will be explored.
Attributes: PJST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3546. THE BIBLE AND SOCIAL JUSTICE. (3 Credits)
A study of social justice in the Hebrew and Christian scriptures that involves historical, literary, theological, and ethical interpretations. Students will explore key biblical texts that address themes such as poverty, war, justice, power, and marginalization in historical context, within a history of interpretation, and in light of contemporary practice and theory.
Attribute: STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3560. CHRIST IN WORLD CULTURES. (3 Credits)
At the center of the Christian tradition stands the person of Jesus Christ. Yet from a global perspective, Christianity takes many forms in its many contexts. This course examines the ways in which the Christian faith interacts with diverse world cultures and asks the central question, how do cultural differences shape contemporary interpretations of Jesus as the Christ?
Attributes: AMCS, GLBL, INST, LALS, REST, STXT.
Prerequisites: THEO 1000 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3610. CHRIST IN WORLD CULTURES. (3 Credits)
This course will examine the poetry of Christian hymnody, beginning with the New Testament to the present, in order to unpack the rich and divergent theology expressed through its language and symbol, metaphor and doxology.
Attributes: AMCS, MVST, REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3655. The Journey of Faith: Autobiography as Sacred Text. (3 Credits)
Spiritual autobiography carries the lifeblood of religious experience. Through the reading of selected autobiographies, this course provides an inter-religious study of the personal quest for the transcendent.
Attributes: REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3700. SCRIPTURES OF THE WORLD. (3 Credits)
An introduction to the inspired writings that have molded the religious life of humankind.
Attributes: MEST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3711. SACRED TEXTS OF THE MIDEAST. (3 Credits)
First, an introduction to selected sacred literature of Ancient Egypt, Mesopotamia, and Israel, with attention to the social and historical contexts of the writings. Then, a similar consideration of selected readings from the New Testament of Christianity and the Mishnah and Talmud of Judaism. Finally a study of the Qur'an, the rise of Islam, and some early Muslim writings.
Attributes: GLBL, INST, JWST, MEST, MVST, OCST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401.

THEO 3713. CLASSIC JEWISH TEXTS. (3 Credits)
An exploration of Jewish beliefs through close readings of the Bible and post-Biblical Jewish texts (Mishnah, Talmud, midrash, liturgy). The course will focus on Jewish methods of biblical interpretation, legal discussion, and the relationships between texts, practice and theology in Jewish tradition.
Attributes: GLBL, JWST, MEST, REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401.

THEO 3715. CLASSIC ISLAMIC TEXTS. (3 Credits)
This course explores the sacred texts of Islam including the Quran, and Hadith, medieval philosophical, liturgical and legal texts.
Attributes: GLBL, INST, MEST, MVST, REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401.

THEO 3720. HINDU LITERATURE AND ETHICS. (3 Credits)
This course explores the sacred texts of Islam including the Quran, and Hadith, medieval philosophical, liturgical and legal texts.
Attributes: GLBL, INST, MEST, MVST, REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401.

THEO 3720. HINDU LITERATURE AND ETHICS. (3 Credits)
This course involves a study of the four aims of life (purushartha) in Hinduism: kama (enjoyment), artha (material gain), dharma (sacred law), and moksha (liberation). Readings, drawn from a variety of classic and modern Hindu texts, will be viewed in their historical contexts as developments in the evolution of Hinduism.
Attributes: GLBL, INST, REST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401.
THEO 3724. CLASSIC BUDDHIST TEXTS. (3 Credits)
This course is an in-depth study of the Buddhist textual tradition starting with the early sectarian canon in South Asia and progressing through Chinese Buddhism to Japan, with a strong emphasis on Zen Buddhism. We will explore these religious texts in terms of their historical, cultural and artistic contexts.
Attributes: GLBL, INST, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3725. BUDDHISM IN AMERICA: A MULTIMEDIA INVESTIGATION. (3 Credits)
This course traces the history of Buddhism in the United States from the nineteenth century to the present. It asks whether Buddhism in America is a single object of study, and whether we should understand it as a “religion.” It further explores different techniques and media at our disposal for considering the primary concerns of American Buddhists (using films, podcasts, etc.)
Attribute: STXT.
Prerequisites: THEO 1000 or THEO 1002 or HPRH 1001 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3726. BUDDHIST MEDITATION. (3 Credits)
This course is an in-depth study of Japanese religions and literary compositions of enduring influence, including examples of Japanese poetry, drama, koans, and manga. The course will focus on those relevant spiritual, cosmological, and stereological aspects of Japanese religion that manifest themselves in these cultural landmarks.
Attributes: GLBL, STXT.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401 or THEO 1007.

THEO 3728. BUDDHIST MEDITATION. (3 Credits)
This course will be a comparative study of spiritual exercises across religions and cultures. Beginning with the exercises of Ignatius of Loyola, we proceed to the reception of his exercises in diverse global Christian contexts, feminist theology, and modern psychology. We then study lesser-known Christian spiritual exercises and their relation to Ignatius. Working backward, the course then turns to the ancient Mediterranean exercises that gave birth to Christian exercises. We conclude by studying spiritual exercises in religions and spiritualities beyond Christianity. Questions about comparative theological method will surface throughout.
Attribute: STXT.
Prerequisites: THEO 1000 or HPRH 1001 or HPLC 1401 or THEO 1004 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1010 or THEO 1007 or THEO 1009.

THEO 3729. VISION AND FAITH. (3 Credits)
Vision and Faith will compare how the visual arts and faith both have the potential to open us out beyond ourselves. How are the two experiences alike, how are they different, and how can (should?) the enhance each other? The course will be structured around readings and visits to gallery and museum exhibitions.
Attribute: STXT.
Prerequisites: THEO 1004 or THEO 1009 or THEO 1008 or THEO 1002 or THEO 1000 or HPRH 1401 or HPLC 1001 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1010.

THEO 3822. THE BIBLE IN WESTERN CULTURE. (4 Credits)
Study of selected biblical narratives that have troubled readers and affected culture through the ages. Topic include theories of reading, effects of history on biblical interpretation, art as exegesis, the hidden influences of past readings. Texts include the stories of Adam and Eve, the sacrifice of Isaac, David and Bathsheba, Jonah, Jeremiah. Interpretations are studied in historical sequence to provide students with a model for investigating a biblical text of their own choosing. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP3, MEST, REST.
Prerequisites: THEO 1000 or THEO 1003 or HPRH 1001 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or THEO 1004.

THEO 3826. WOMEN IN THE BIBLE. (4 Credits)
In this course, we will employ various traditional exegetical and recent feminist tools to examine figures from both the New and Old Testaments including Eve, Sarah, Hagar, Ruth, Elizabeth and the Samaritan women as well as figures from the extra-Biblical Apocrypha. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: JWST.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or HPRH 1001 or THEO 1004 or HPLC 1401.

THEO 3827. BIBLE AND HUMAN SEXUALITY. (4 Credits)
This course examines key biblical texts that have figured in discussions of human sexuality from antiquity to the present. In particular, it will explore how shifting paradigms of interpretation in different historical periods have informed the reading of the Bible in relation to sexual ethics, identity, and practice. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: WGSS.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or HPLC 1401 or THEO 1004.

THEO 3832. CHRISTIAN THOUGHT AND PRACTICE I. (4 Credits)
Christian Thought and Practice I surveys the variety of Christian thought and practice from the beginning of Christianity to the late antique period. The course aims to encourage a critical examination of such theological themes as: God, Christ, grace, church, sacraments and ethics. Topics will be situated within the broader historical study of social, economic, political and cultural forces. Students will engage a wide range of Christian texts, art, rituals and other artifacts including classical theology, sermons and literature. Engagement with traditional Christianity by everyday Christian men and women, reflected in such genres as memoirs, ethnography and historical writing will be studied, as well as influential philosophical critiques of Christianity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: OCST, REST.
Prerequisites: THEO 1003 or THEO 1000 or THEO 1009 or HPRH 1001 or THEO 1004 or THEO 1007 or THEO 1002 or THEO 1005 or HPLC 1401 or THEO 1005 or THEO 1006 or THEO 1010.
THEO 3833. CHRISTIAN THOUGHT AND PRACTICE II. (4 Credits)
Christian Thought and Practice II surveys the variety of Christian thought and practice from the late antique period through the middle ages. The course aims to encourage a critical examination of such theological themes as God, Christ, grace, church, sacraments, and ethics. Topics will be situated within the broader historical study of social, economic, political and cultural forces. Students will engage a wide range of Christian texts, art, rituals, and other artifacts including classical theology, sermons, and literature. Engagement with traditional Christianity by everyday Christian men and women, reflected in such genres as memoirs, ethnography and historical writing will be studied, as well as influential philosophical critiques of Christianity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or THEO 1004 or HPLC 1401.

THEO 3834. CHRISTIAN THOUGHT AND PRACTICE III. (4 Credits)
Christian Thought and Practice III surveys the variety of Christian thought and practice from the Reformation to the present. The course aims to encourage a critical examination of such theological themes as God, Christ, grace, church, sacraments, and ethics. Topics will be situated within the broader historical study of social, economic, political, and cultural forces. Students will engage a wide range of Christian texts, art, rituals, and other artifacts including classical theology, sermons, and literature. Engagement with traditional Christianity by everyday Christian men and women, reflected in such genres as memoirs, ethnography and historical writing will be studied, as well as influential philosophical critiques of Christianity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or HPLC 1401 or THEO 1004.

THEO 3836. CAPPADOCIAN THEOLOGY. (4 Credits)
This course examines in detail the thought of the fourth-century Cappadocian Fathers (Basil the Great, Gregory Nazianzen, and Gregory of Nyssa). Themes include their development of the Orthodox doctrine of the Trinity and Christ as well as their attitudes toward Biblical exegesis, hagiography, and asceticism. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: OCST.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPLC 1401 or THEO 1004.

THEO 3837. GOD AS TRINITY. (4 Credits)
This course will explore the reasons why Christians conceptualize God as Trinity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or THEO 1004 or HPLC 1401.

THEO 3840. THEISMS AND ATHEISMS. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or HPLC 1401 or THEO 1004.

THEO 3843. RELIGIOUS FAITH AND DOUBT IN WESTERN THOUGHT. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or HPRH 1001 or THEO 1004 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPLC 1401.

THEO 3847. LATINO/A THEOLOGY. (4 Credits)
The course focuses on the theology and spirituality of U.S. Latino/as. Special attention will be given to how this explicitly contextual theology accounts for the role of popular religiosity, ethnicity, gender, race, and class in its reflection on Christian theological themes. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: LALS, MEST, MVST, PLUR.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPLC 1401 or THEO 1004.

THEO 3849. ESCHATOLOGY. (4 Credits)
An introduction to Christian eschatology with a biblical, historical, and contemporary component. Surveys biblical, apocalyptic, and New Testament teachings and developments in patristic, medieval, reformation, and modern Christianity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPLC 1401 or THEO 1004.

THEO 3850. 20th CENTURY THEOLOGIANS. (4 Credits)
This course traces major shifts in the 20th century theology as it has engaged pressing issues of the modern world such as atheism/ secularism; suffering; hermeneutics of history; ecumenism; gender equality; race and ethnicity; religious pluralism; and evolution. The course will study the method and ideas of a major theologian such as Karl Rahner, Gustavo Gutierrez, or Rosemary Radford Ruether on each selected issue, and then read others who have critiqued and enrich understandings in this area. Students will be encouraged to see how the meaning of God-Humanity-Christ-Church-World gets rethought and their relations reconfigured in light of each approach. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or HPLC 1401.

Updated: 10-11-2017
THEO 3852. LGBTQ ARTS AND SPIRITUALITY. (4 Credits)
A broad examination of LGBTQ affiliations and identities considered through history and across religious traditions. The course juxtaposes the vision of mystics with artistic vision, identifying common spiritual elements in both. The course will culminate in an examination of the contemporary arts of NYC as an example of LGBTQ spirituality.

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: REST, WGSS.

Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or HPRH 1001 or THEO 1004 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPLC 1401.

THEO 3854. IGNATIAN SPIRITUALITY. (4 Credits)
As a Jesuit university, Fordham’s vision and spirit is grounded in the life and lineage of St. Ignatius of Loyola, the sixteenth century founder of the Society of Jesus. Focusing upon a contemporary appropriation of classic texts, this course offers a historical-critical, hermeneutical, and theological engagement with selected texts by Ignatius, including his Spiritual Exercises, Constitutions, Autobiography, Spiritual Journal, and letters. Additionally, we will examine various methods of Ignatian contemplation, meditation, discernment of spirits, and discernment of God’s will in our lives. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1004 or HPLC 1401.

THEO 3855. ENVIRONMENTAL ETHICS. (4 Credits)
Since the early twentieth century, enduring moral and theological questions of human relationality and responsibility—previously only applied to individuals and human communities—have expanded to include the environment. In this class we will chart the genesis of environmental ethics from a historical point of view; identify and analyze significant claims and developments in environmental philosophy, ethics, and theology, especially vis-a-vis insights from ecology; and assess the importance of notions of value and justice in the first decades of the 21st century. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or THEO 1004 or HPLC 1401.

THEO 3856. INTRODUCTION TO BIOETHICS. (4 Credits)
This course introduces students to contemporary bioethics topics through (a) an overview of different meta-ethical approaches to understanding moral status and personhood, b) discussion and readings on how these approaches can be applied to unraveling the complex threads of contemporary bioethics arguments related to the treatment/care/use of individuals, animals and the environment: and (c) introduction to the legal and social contexts in which bioethics public policies are framed. In addition to engaging a substantial amount of theological and philosophical literature, students will also be exposed to multidisciplinary perspectives (in the form of both texts and guest speakers) from disciplines such as biology, psychology, sociology, feminism, and ecology. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: BIOE, PJST, REST.

Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or THEO 1004 or HPLC 1401.

THEO 3857. THEOLOGIES OF SEXUALITY AND GENDER (Service Learning). (4 Credits)
This course examines Christian theologies of sexuality and gender, exploring both the historical roots and the contemporary implications of different ways of thinking theologically about what it means to be a sexed, gendered, and sexualized human being. A required service learning component will provide an opportunity for students to interrogate the complex structures (ecclesial/theological, political, economic and otherwise) that shape the experiences and possibilities of sexual minorities in an urban metropolis in the 21st century. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: THEO 1000 or RSEF 1000 or RSEU 1000 or RSLF 1000 or RSLU 1000 or RSRF 1000 or RSRU 1000 or HPRH 1001 or HPLC 1401 or THEO 1004 or HPLC 1401.

THEO 3858. GENDER AND ASCETICISM. (4 Credits)
‘Gender & Asceticism’ treats issues of sexuality and bodily discipline between gender and sex, images of male and female, monasticism, fasting, and voluntary poverty. Most examples will be taken from the literature and practices of Late Antiquity (pre-Middle Ages). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: OCST.

Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or HPLC 1401 or THEO 1004.
THEO 3860. CONTEMPORARY CONVERSATIONS IN THEOLOGY. (4 Credits)
Conceived as a "capstone" course for the theology major/minor, this course examines recent methodological developments in the disciplines of theology and religious studies with particular emphasis on their intersection with contemporary critical theory. Particular topics to be engaged may include hermeneutics, historiography, secularism, the human subject, gender/sexuality, and the problem of political and/or moral action. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or THEO 1004 or HPLC 1401.

THEO 3861. WORKS OF MERCY/WORK FOR JUSTICE. (4 Credits)
This course examines the debates about the difficulties people have in making a living and about the practices of charity/works of mercy and the justice advocacy of individuals, religious communities and voluntary associations. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP3, PJST.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or THEO 1004 or HPLC 1401.

THEO 3865. ETHICS OF RELATIONSHIPS. (4 Credits)
The course examines how culture affects the relationships that constitute what it means to be human. Topics include human dignity and dating, the virtues of friendship, intimacy, and spirituality, God and gender, justice/charity and financial responsibility, sexual ethics, marriage and family. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or THEO 1004 or HPLC 1401.

THEO 3870. RELIGION AS HUMAN EXPERIENCE. (4 Credits)
Religion as Human experience aims to foster a broad knowledge of religion as a dimension of human experience. Through a consideration of various types of religious experience in a variety of different cultural contexts, this course will also introduce students to a selection of thinkers who try to define, comprehend, or critique religion. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMCS, PJST.
Prerequisites: THEO 1000 or THEO 1003 or HPRH 1001 or HPLC 1401 or THEO 1004 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.

THEO 3871. RELIGION AND FILM. (4 Credits)
The study of faith and doubt portrayed in cinema. Students will view and analyze films that present struggles of the human spirit, the secular portrayal of the Christ-figure, the role of the secular "messiah" or hero in Western society, the conflict between religious and secular authority, and the dilemmas of moral choice. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or THEO 1003 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.

THEO 3873. JESUS AND WORLD RELIGIONS. (3 Credits)
An exploration of the identity and mission of Jesus Christ in comparison with founding figures of other religions.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or THEO 1004 or HPLC 1401.

THEO 3874. RELIGION IN AMERICA. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMCS, PLUR.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or THEO 1004 or HPLC 1401.

THEO 3876. MUSLIMS IN AMERICA. (4 Credits)
This course will examine the history and experience of Muslims in the United States from the time of the slave trade to the present day. Through a close analysis of both primary and secondary materials, students will explore the rich diversity of US Muslim communities and their multi-faceted contributions to the global ummah and the formation of an "American Islam". Particular emphasis will be given to the impact of 9/11 and the "war on terror" on the representations, challenges, and the experience of Muslims in America. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: MEST, PLUR.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or HPRH 1001 or THEO 1004 or HPLC 1401.

THEO 3877. RELIGION AND THE AMERICAN SELF. (4 Credits)
A course in historical theology that examines the role of religion in the formation of American social and political culture. The course will utilize various interpretive approaches to uncover how the 'American self' is both the most religious and the most secular in the industrialized West. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: MEST, PLUR.
Prerequisites: THEO 1000 or THEO 1003 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.
THEO 3881. CHINESE RELIGIONS. (4 Credits)
Chinese Religions introduces students to "The Three Teachings" (san jiao): Confucianism ancestors, divination, and bodily health. The course models multiple strategies for understanding Chinese approach to bodily practice. Major themes include human responsibility to the family, human dependent Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: GLBL, INST.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1004 or HPRH 1001 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.

THEO 3882. COMPARATIVE MYSTICISM. (3 Credits)
"This course frames questions about the possibilities of isolating religious practices as points of cross-cultural and inter-religious comparison through a thorough exploration of Greek, Syriac, and Russian Orthodox traditions of prayer in comparison with Islamic, Buddhist, Hindu, and Western Christian spiritual practices. In the course of this comparative study, we will consider the possibilities and challenges of cross cultural comparative study of religion, and in particular we will interrogate the critical imperative to distinguish "practice" from "dogma" as a basis for comparative studies."
Attributes: GLBL, OCST, REST.
Prerequisites: THEO 1000 or THEO 1009 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1010 or THEO 1007 or THEO 1002 or THEO 1008 or HPRH 1001 or HPRH 1401.

THEO 3883. MEDICINE AND HEALING IN ISLAM. (4 Credits)
This course explores Muslim perceptions of health, disease, medicine and healing across time and space, and in conversation with the religious traditions of Islam. Through a focused set of topics and a variety of methodological approaches, students will investigate more broadly epistemologies of health, healing and disease, practical application of knowledge and wisdom, and cultural histories of the body. Specific topics will include medicine and the cosmos; health and the environment; astrology, magic and ritual; sex, childbirth and pediatrics; cosmetic surgeries and reproductive technologies; and perceptions of suffering and pain, disability, mental illness, and old age, as they are addressed in both medieval and modern contexts. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP, GLBL.
Prerequisites: THEO 1000 or THEO 1009 or THEO 1003 or THEO 1008 or THEO 1002 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1010 or HPRH 1001 or HPLC 1401 or THEO 1007.

THEO 3954. APOCALYPTIC THEMES IN FILM. (3 Credits)
This course is a college level introduction to the use of apocalyptic terms, themes and rhetoric in contemporary films. Apocalyptic in religious writings is "crisis" literature. This assumption will be explained prior to surveying usage of apocalyptic in religious and secular films. Apocalyptic may have no religious implications. Students will develop a template of types of apocalyptic terms and usage as well as review film maker's intentions.
Prerequisites: THEO 1000 or THEO 1003 or THEO 1006 or THEO 1009 or HPRH 1001 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008 or THEO 1004 or HPLC 1401.

THEO 3960. RELIGION AND RACE IN AMERICA. (4 Credits)
This course explores the ways religion and race function in the American landscape as sources of both belonging and discrimination, in historical and contemporary perspectives. Special attention will be paid to theological discourses and religious communities as sites of both racism and race-justice. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, PJST, PLUR.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1004 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1005 or THEO 1002 or THEO 1008.

THEO 3961. RELIGION, SEX, AND CULTURE IN AMERICA SINCE 1700. (4 Credits)
This course explores the complex and shifting engagement among religion, sex, and culture in North America from the eighteenth century to the present. Its treats a variety of religious traditions and explores how faith communities defined sexuality and gender relations in theological and spiritual terms and, in turn, helped to shape approaches to sex and sexual morality in the broader American culture. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or THEO 1002 or THEO 1008 or THEO 1009 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1010 or HPRH 1001 or HPLC 1401 or THEO 1007.

THEO 3970. CATHOLICS IN AMERICA. (4 Credits)
History and culture of Spanish and French Catholicism in the colonial and post-colonial periods of the United States. Detailed study of English-speaking Catholicism from its beginnings to its present position. Relationships between Catholicism and American culture. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: PLUR.
Prerequisites: THEO 1000 or THEO 1003 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.

THEO 3993. WARTIME RELIGION IN U.S. HISTORY. (4 Credits)
This course explores American religion during the Civil War, World Wars I and II, the War in Vietnam, and the War in Iraq. The anxieties and passions of wartime open up dialogue on the "justice" of particular conflicts, but they also prompt reflection on more basic questions of human meaning, suffering, loss, and death, and the sources and boundaries of selfhood. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or THEO 1003 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.
THEO 3995. RELIGION AND THE AMERICAN SELF. (4 Credits)
A course in historical theology that examines the role of religion in the formation of American social and political culture. The course will utilize various interpretive approaches to uncover how the 'American self' is both the most religious and the most secular in the industrialized West. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes:
- PLUR.
Prerequisites:
- THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.
THEO 3999. TUTORIAL. (3 Credits)
In this student-initiated program, the student may earn one additional credit by connecting a service experience to a course with the approval of the professor and the service-learning director.
Prerequisites:
- THEO 1000 or THEO 1003 or HPRH 1001 or THEO 1006 or THEO 1009 or HPLC 1401 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.
THEO 4001. ART AND CHRISTIAN VALUES. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes:
- SRVL.
Prerequisites:
- THEO 1000 or THEO 1003 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.
THEO 4005. WOMEN AND THEOLOGY. (4 Credits)
An examination of feminist/womanist approaches to the mystery of God. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes:
- AMCS, EP4, PJST, SRVL, VAL, WGSS.
Prerequisites:
- THEO 1000 or THEO 1003 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.
THEO 4008. RELIGION AND ECOLOGY. (4 Credits)
A course to study the earth as a matter of ethical and religious concern. Starting with biblical texts and classical doctrines, students will analyze the resources of the Jewish/Christian traditions that value the natural world. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes:
- AMCS, CORE, ENST, REST, STXT.
Prerequisites:
- THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.
THEO 4009. MEDIEVAL JERUSALEM. (4 Credits)
What has made Jerusalem so beloved to - and the object of continual strife for - Jews, Christians, and Muslims? This course will explore the ancient and medieval history of Jerusalem, from its Jebusite inhabitants before the time of King David through Suleiman's construction of the modern city walls in the 1540s. Students will learn to analyze a variety of literature, through which we will explore the themes of sacred space, conquest, destruction and lament, pilgrimage and religious polemic. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes:
- ICC, MEST, OCST.
Prerequisites:
- THEO 1000 or THEO 1003 or THEO 1004 or HPRH 1001 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.
THEO 4010. DEATH AND DYING. (4 Credits)
An attempt to confront the reality of death, its practical consequences and its religious significance through D SEXUALITY (4.00 credits). A theology course that fulfills the senior values requirement in the college core. The course explores the theological interpretations of human sexuality. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes:
- BIOE, SRVL, VAL.
Prerequisites:
- THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.
THEO 4011. THE NEW TESTAMENT AND MORAL CHOICES. (4 Credits)
This course will examine the principles of Christian living that emerge in the testimonies of Jesus and Paul as recorded in the New Testament and explore the ways in which they might apply these principles critically and responsibly in moral discernment of some of today's most debated and troublesome alternatives. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes:
- SRVL, VAL.
Prerequisites:
- THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1003 or THEO 1006 or THEO 1009 or THEO 1007 or THEO 1010 or THEO 1002 or THEO 1005 or THEO 1008.
THEO 4012. MORAL CHOICE OF THE FIRST CHRISTIANS. (3 Credits)
An exploration of how the first Christians made choices in all areas of life, including birth, sex, death, business, legal matters and politics. The course seeks to elicit a "grammar" of early Christian morals.
Prerequisites:
- THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1006 or THEO 1009 or THEO 1010 or THEO 1007 or THEO 1002 or THEO 1005 or THEO 1003 or THEO 1008.
THEO 4013. RELIGION AND AMERICAN POLITICS. (4 Credits)
This interdisciplinary seminar explores the nexus of religion and American public life. After treating topics related to electoral politics (e.g., candidate religion, voter religion, “value voters,” religious rhetoric), students will then engage a series of “hot topics” that encompass (and often combine) both religious and political discourse. The goal is to provide students with two alternative, yet complementary methods of analyzing the intersection of religion and American politics: one from a political science perspective and one from a theological perspective. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMCS, AMST, ICC.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4020. FAITH THAT IMAGINES JUSTICE. (4 Credits)
Throughout the semester, we will explore a variety of reasons why “the arts” serve an increasingly important function in our contemporary culture where our ability to imagine and create “the good life” has become increasingly difficult given religious and cultural pluralism, isolated individualism, capitalist consumerism, and fragmenting tribalism. We will also examine the validity of the claim that religion/faith needs the arts and the arts needs religion/faith if either is to be authentic, relevant, vibrant, and socially efficacious. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: SRVL.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4025. FUTURE OF MARRIAGE 21ST CENTURY. (4 Credits)
An ethical examination of Christian marriage. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMCS, AMST, EP4, REST, VAL, WGSS.
Prerequisites: THEO 1003 or THEO 1005 or THEO 1006 or THEO 1010 or HPLC 1401 or HPRH 1001 or THEO 1002 or THEO 1004 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1000.

THEO 4027. THE ETHICS OF LIFE. (4 Credits)
Jewish, Christian, and Muslim traditions have yielded complex religious responses to ethical, human dilemmas involving life/death issues. This course examines some of those responses in relation to sexuality, love and family, punishment, health and disease, death, and the environment through the lenses of Jewish, Christian and Muslim authors, texts, and traditions. Students will investigate how such responses are crafted in a liberal, pluralistic society, and assess their own reactions to religious differences and challenges to their own fundamental values. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: BIOE, EP4, MEST, REST, SRVL.
Prerequisites: THEO 1000 or THEO 1004 or HPRH 1001 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4030. MORAL ASPECTS OF MEDICINE. (4 Credits)
The course examines the role of faith in the moral issues raised by advancements in medical science. The course will survey issues such as reproductive technologies, the patient-physician relationship, euthanasia and physician suicide, health care reform, AIDS and the human genome project. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: BIOE, EP4, REST, SRVL, VAL.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4036. HUMAN NATURE AFTER DARWIN (Interdisciplinary Capstone Core). (4 Credits)
This course enters contemporary theological, political and scientific debates about how to conceptualize human nature after Darwin. We read Epicures, Lucretius, Augustine, Aquinas, Darwin and contemporary theologians, political theorists and scientists. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ICC.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4037. NATURE IN HISTORICAL AND ETHICAL PERSPECTIVE. (4 Credits)
In anthropological, theological, and ethical discourse, nature has often been appealed to as that which is, by definition, outside of culture and history. However, nature’s meanings – especially in social-relational significations that it carries- have varied over time, according to a range of contexts and “controlling images.” This Interdisciplinary Capstone Course will analyze historical and contemporary methodologies and significations of the term “nature,” in ways that facilitate critical scrutiny of how this potent term is deployed in contemporary political, scientific, environmental, and religious discourse. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ICC.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401.
THEO 4040. HOME, AWAY, AND IN-BETWEEN. (4 Credits)
This course draws on historical theology and literature to explore diverse human engagements with displacement. Reading focus on specific contexts and modes of displacement as they have upset and remade truth for those involved. Key examples include diaspora, quest, alienation, conversion, migration, and relocation. We will encounter characters and real-life actors whose experiences of these conditions—whether literal or metaphorical, whether cultivated or imposed—put them in highly charged space between feeling “at home” and “away.” In addition to studying the responses of literary characters and religious actors, we will explore the ways the disciplines of literature and theology themselves invite practitioners into experiences of disorientation and reorientation. We will also consider the relationship between literature and theology as ways of knowing about displacement and its meanings. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401.

THEO 4052. AN ETHICS OF MODERN SELFHOOD: THE PURSUIT OF AUTHENTICITY. (4 Credits)
The modern and postmodern self or identity, examined as a series of personal and moral conflicts and dilemmas. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ICC, SOCI.
Prerequisites: THEO 1000 or THEO 1004 or HPRH 1001 or HPLC 1401 or THEO 1005 or THEO 1006 or THEO 1002 or THEO 1003 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4105. RELIGION, GENDER, AND SEXUALITY. (4 Credits)
This course considers the intersections of religion, gender, and sexuality. In many parts of the world, including the United States, and in many religious traditions, cultural and religious identity and continuity hinge on gendered practices and closely controlled sexual regimes. The goal of this course is to understand how religious institutions, communities, doctrines, practices and traditions shape gendered ideologies and practices, debates about sexuality and gendered division of labor, and the lives of men and women who participate in these religious communities. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ICC.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1010 or HPLC 1401 or THEO 1007 or THEO 1002 or THEO 1008 or THEO 1009.

THEO 4411. RELIGION, THEOLOGY, AND NEW MEDIA. (4 Credits)
An interdisciplinary capstone course, this course examines the historical and theoretical significance of the intersection between communication, technologies and religious communities. Drawing on the disciplinary methods and assumptions of both communication and media studies and theology, the course will ask students to critically and theoretically explore the significance of religion as a cultural phenomenon as well as to take seriously the theological significance of media practices as articulated by religious subjects. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMCS, AMST, ICC.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4450. LITURGICAL THEOLOGY. (4 Credits)
This course will study the Roman Catholic liturgy, its history and theology. We come to understand a culture in part by examining its rituals. Through the lens of, the liturgy-its scripture, symbols and sacraments- we get a closer look at the story of the church. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4455. EUCHARIST, JUSTICE, AND LIFE. (4 Credits)
This course explores the intrinsic relationship between celebrating the liturgy, especially the Eucharist, and living lives of justice, peace, and social responsibility. Such topics as world poverty, hunger, immigration, violence, global warming, and the care of the planet will be examined. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: EP4, VAL.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4520. ANIMALS, ANGELS, AND ALIENS: BEYOND THE HUMAN IN CHRISTIAN THOUGHT. (3 Credits)
Contemporary theologians focus almost exclusively on the human. Indeed, some prominent theologian’s explicitly claim that all theology can be understood as anthropology. But in this course we will use both new trends and ancient sources to push beyond the human into other areas of concern. The Christian (and Jewish) traditions have very interesting things to say, for instance, about non-human entities like animals, angels and even aliens. In addition to looking carefully at these sources, we will think about their implications for contemporary moral and political issues surrounding food production and consumption, lab experiments, ecological protection, and even cyborg technology and transhumanism.
Attributes: ENST, EP3.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.
THEO 4570. ORTHODOX CHRISTIAN ETHICS. (4 Credits)
This Course will explore the two-thousand year tradition or Orthodox Christian Ethics. Students will be asked to resolve modern moral dilemmas by reading ancient Orthodox texts and their modern commentators. As such, the purpose of the course is twofold: 1) to develop an understanding of Christian ethics within an Orthodox theological perspective; 2) to develop the ability to make ethical judgments and to reflect critically on those judgments on established Orthodox theological principles. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: EP4, OCST, VAL.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4600. RELIGION AND PUBLIC LIFE. (4 Credits)
The course explores the role of religion in public life, focusing primarily on American democracy and its separation of church and state. The course will focus on religion's voice in public debate over issues such as health, poverty, and biomedical and economic issues, whether specifically religious arguments and language should have place in public discourse, and the role of discourse in a pluralistic society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMCS, AMST, EP4, MEST, VAL.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4610. MALCOLM, MARTIN, BALDWIN, AND THE CHURCH. (4 Credits)
This course will engage the social thought and religious faith of these persons, both individually and in relation to each other. We will examine the challenges each posed both to Christian faith and to the fabric of American society - especially their critiques of American understandings of justice; the relevance of religious faith to the struggle for racial justice; and the response of the Catholic Church to these men, the movement they represented, and the enduring reality of racial injustice.

THEO 4620. OSCAR ROMERO: FAITH AND POLITICS IN EL SALVADOR. (4 Credits)
This course will investigate the life and ministry of Oscar Romero of El Salvador. How did the socio-political and religious upheaval, Romero functions as a lens through which students can explore important themes including: the nature and impact of the effects of US Cold War foreign policy, power in the Catholic Church and numerous issues involving the relationship between religion and politics.

Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1010 or HPLC 1401 or THEO 1007 or THEO 1002 or THEO 1008 or THEO 1009.

THEO 4630. G.O. DEEPER. INTERDISCIPLINARY INQUIRIES. (4 Credits)
This Interdisciplinary Capstone Course is designed to build on (1) what these students have learned by offering them an opportunity to consider their immersion experience in light of critical inquiries in sociology, anthropology, & critical social theory; associated with (2) conflict studies, cultural studies, & postcolonial theory, & (3) in theology. The course is designed above all to cultivate skills to describe, analyze, and evaluate critical issues in local practices pertaining to personal life, family life, social and political life, housing, work, and indigenous cultures, including faith cultures of practice and belief. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1010 or HPLC 1401 or THEO 1007 or THEO 1002 or THEO 1008 or THEO 1009.

THEO 4640. JESUS AND SALVATION. (4 Credits)
This course explores Christian belief in Jesus Christ (Christology) with an emphasis on how this belief is intertwined with the understanding of salvation (soteriology). Reflecting on the biblical accounts of salvation in Jesus, with examining the development of classic christological doctrine, students will inquire how this tradition relates to critical issues raised today. How is Christian belief in Jesus and salvation relevant to questions of identity, religious pluralism, global inequality, and environmental crises? Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: THEO 1000 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1010 or HPRH 1001 or HPLC 1401 or THEO 1002 or THEO 1008 or THEO 1009 or THEO 1007.

THEO 4647. THEOLOGIES OF LIBERATION. (4 Credits)
This course will explore the challenge of living Christian values in a globalized and stratified world. Students will explore how the concerns of U.S society - especially their critiques of American democracy and its separation of church and state. The course will focus on religion's voice in public debate over issues such as health, poverty, and biomedical and economic issues, whether specifically religious arguments and language should have place in public discourse, and the role of discourse in a pluralistic society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: THEO 1000 or HPRH 1001 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009.

THEO 4649. GOD AND EVIL. (4 Credits)
This course analyzes biblical, theological, and literary texts and evaluates the ways in which these texts understand how to characterize the various ways in which the world, account for God's allowing these evils in creation, and how religious and philosophical works frame and add to these. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.
THEO 4850. THEOLOGY AND HUMAN SUFFERING: A COMPARATIVE APPROACH. (4 Credits)
Questions about the nature and meaning of human suffering occupy a central place in every religion, past and present. This course looks comparatively at traditions of theological reflection and religious practice in order to ask: what do they say about pain and suffering? Is it an inevitable part of embodied existence? An opportunity for spiritual maturation? A matter of mental perspective? What happens when religion itself becomes the source of pain and sorrow? This course explores these questions comparatively, focused on texts and practices with the Buddhist and Christian traditions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: SRVL.
Prerequisites: THEO 1000 or HPRH 1001 or THEO 1004 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4853. SPIRITUALITY AND POLITICS. (4 Credits)
This course will examine three twentieth-century Roman Catholic movements that espoused both a novel approach to spirituality/mysticism and embodied a distinctive politics on three different continents: the French Catholic revival, the Catholic Worker movement in the U.S and liberation theology in Latin America. The twentieth century witnessed a remarkable engagement of Catholics with the meaning of their faith and its role in social and political issues of their times, particularly around issues of war and poverty. From each of these three sites of renewal, the students will ask questions such as: How did these new movements come about? How are their views articulated in various texts and embodied in personal and communal practices? What is the legacy of these twentieth-century movements’ spirituality and politics for us today? As an interdisciplinary seminar, students will rely on the methodological approaches in the disciplines of history and systematic theology to pursue these questions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMCS, ICC, PJST, REST.
Prerequisites: THEO 1000 or THEO 1004 or HPRH 1001 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4870. ECONOMIC FOUNDATIONS OF CATHOLIC SOCIAL TEACHING. (4 Credits)
This course explores the economic thought that has served as the basis of the Church’s teaching on issues like capitalism, socialism, poverty, wages, unions, the environment, and economic responsibility from Leo XIII’s encyclical Rerum Novarum to the present and current economic research that may guide future Church teaching. This will be done through lectures, readings from primarily 19th and 20th-century economic works, and discussion of how these works’ ideas are evident in papal encyclicals and other Church documents. The course will include case studies of how Catholic social teaching has influenced national social and economic policies in Europe and the U.S. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMCS, ICC, REST.
Prerequisites: ECON 1100 or ECON 1200 or ECON 1150 or ECON 1250 or THEO 1000 or HPRH 1001 or THEO 1002 or THEO 1003 or THEO 1004 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010 or HPLC 1401.

THEO 4950. CHRISTIANITY AND GENDER/SEXUAL DIVERSITY: INTERDISCIPLINARY PERSPECTIVES. (4 Credits)
Employing perspectives from history, theological ethics, and LGBT studies, this course will investigate what it means to take queer perspectives on Christianity sexuality, and discipleship. Readings will include biblical, historical, and contemporary materials that seek to illuminate the ways in which Christians and Christian communities have responded to sexual and gender diversity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ICC.
Prerequisites: THEO 1000 or THEO 1004 or HPRH 1001 or HPLC 1401 or THEO 1002 or THEO 1003 or THEO 1005 or THEO 1006 or THEO 1007 or THEO 1008 or THEO 1009 or THEO 1010.

THEO 4999. TUTORIAL. (1-4 Credits)
Independent research and reading with supervision from a faculty member.

Prerequisites: THEO 1000 or HPRH 1001.

THEO 5000. BIBLICAL HEBREW INTRO. (4 Credits)
This course is an intensive introduction to the grammar, syntax and vocabulary of Biblical Hebrew. By the end of the course students will be able to read passages from the Hebrew Bible with the help of a dictionary, and will have learned sufficient vocabulary to ensure a rewarding reading experience. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEO 5015. TEACHING THEOLOGY. (0 Credits)
Classical and contemporary discussions on the practice of teaching theology, particularly as understood in the Roman Catholic tradition, introducing the field of professional theology and its relationship to other disciplines, and engaging in careful, critical reflection on the vocation of the teaching theologian.

THEO 5017. THEOLOGY DISSERTATION SEMINAR. (0 Credits)
A colloquium for workshop dissertation chapters in progress.

THEO 5025. EXODUS IN HEBREW. (3 Credits)
This course combines exegesis of Exodus in Hebrew with intermediate-level study of biblical Hebrew. We will read chapters 1-24 and 32-34 of Exodus in Hebrew. Our study of the Hebrew language will progress from a review of grammatical forms to a more advanced understanding of the syntax of biblical Hebrew.

THEO 5071. ELEMENTARY COPTIC II. (3,4 Credits)
Completion of Coptic grammar and reading of Biblical texts in Sahidic Coptic. Continuation of Elementary Coptic I. Other students welcome subject to instructor approval.

Prerequisite: THEO 5070.

THEO 5072. CHRISTIAN TEXTS IN COPTIC. (3 Credits)
Intermediate and advanced readings in Coptic, which may include biblical, monastic, and Gnostic texts.

THEO 5075. SYRIAC LANGUAGE AND LITERATURE I. (3 Credits)
This course is the first of a two-semester introduction to Syriac, a dialect belonging to the Aramaic language branch. The first semester will introduce the Estrangela and the Serto scripts, cover grammatical foundations, and expose students from early on to the reading of texts. The second semester will be mostly spent reading Syriac literature, but some time will be devoted to select special topics in Syriac grammar.

Attributes: MVST, OCST, REST.

Updated: 10-11-2017
THEO 5076. SYRIAC LANGUAGE AND LITERATURE II. (3 Credits)
This course is the second of a two-semester introduction to Syriac, a dialect belonging to the Aramaic language branch. The first semester introduced both the Estrangela and the Serto scripts, covered grammatical foundations, and exposed students from early on to the reading of texts. The second semester will be mostly spent reading Syriac literature, but some time will be devoted to select special topics in Syriac grammar.
Attribute: MVST.

THEO 5080. BIBLICAL GREEK INTRO. (3,4 Credits)
This course an intensive introduction to the grammar and syntax of New Testament Greek. Sufficient attention will be devoted to vocabulary to enable rewarding experience in reading an exegesis.

THEO 5090. BIBLICAL ARAMAIC. (3-4 Credits)
An introduction to the language through comparison with Hebrew morphology and readings from the Aramaic sections of the Old Testament.

THEO 5230. ADVANCED GREEK. (3 Credits)
This course includes both a rapid review of Greek grammar and syntax, and also intermediate/advanced readings from Hellenistic and/or early Christian texts.

THEO 5300. HIST OF CHRISTIANITY I. (3-4 Credits)
Development of central concepts of Christianity from the Apostolic Fathers to the Reformation.

THEO 5301. HIST OF CHRISTIANITY II. (3-4 Credits)
Catholic and Protestant theologies after the first century of the Reformation, from the 17th to the 20th centuries, including both European and USA theological developments.

THEO 5400. TOPICS IN ISLAM: TEXTS & TRADITIONS. (3,4 Credits)
This course explores major topics in Islam, including notions of revelation, God, law, theological speculation, gender issues, philosophy, mysticism and science. Comparisons with Jewish and Christian materials will be brought to bear on the topics for discussion when relevant.

THEO 5550. NEW METHODS:AMERICAN RELIGION HISTORY. (3 Credits)
The past thirty years have produced significant changes in the ways historians, theologians, and ethnographers describe, explain, and theorize Americans' religious worlds. Problems include how to account for the experiences of women and racial and ethnic minorities, the relationship of doctrine to practice, the legacy of the enlightenment, the religious meanings of objects and places, the importance of borders and identity, and the significance of class in theological expression. This course investigates new answers to these and other questions, assessing them in light of their contributions and limitations in the effort to make sense of North America's past and present. The work of the semester involves close reading of contemporary historical and ethnographic texts, covering periods from the colonial era to the present. The emphasis rests both on American religious history and on new ways of making sense of religious lives, which may be applicable beyond the North American context.

THEO 5620. Introduction to Systematic Theology. (3 Credits)
An introduction to major schools and methods in contemporary systematic theology.

THEO 5630. SYSTEMATIC LIBERATION THEOLOGY. (3 Credits)
The course will examine theologies of liberation originating among marginalized peoples of the Americas. In addition to studying their origins and major figures, the course will focus on how liberation theologies rethink a range of themes in systematic theology including: Christology, anthropology, soteriology, and ecclesiology.

THEO 5640. Introduction to Theological Ethics. (3 Credits)
This introductory course will examine the sources and methods of Christian ethics, as well as contemporary questions in the discipline including gender and identity, racism, and bio-and environmental ethics.

THEO 5820. OLD TESTAMENT INTERPRETATION. (3-4 Credits)
Introduction to the multi-faceted project of interpreting the religious literature of ancient Israel and the sacred Scriptures of the church, in order to develop competence in a variety of exegetical approaches to the Old Testament. These include patterns of patristic and medieval interpretation, the classic modern methods of scholarly analysis, and selected contemporary approaches.

THEO 5890. NEW TESTAMENT INTERPRETATION. (3-4 Credits)
History, literature, and religion of the New Testament, studied in the context of the time and circumstances that produced them.

THEO 6026. SECOND TEMPLE JUDAISM. (3 Credits)
A survey of the literature and history of both Palestinian and Diaspora Judaism of the Second Temple period, including late biblical texts, Apocrypha, Pseudepigrapha, Qumran Scrolls, Philo and Josephus.

THEO 6031. THE PSALMS. (3 Credits)

THEO 6039. BIBLICAL ETHICS. (3 Credits)
This course will explore a number of ways that the Bible has been used to inform ethical behavior. Special attention will be paid to the ethical implications of different interpretive approaches to the biblical text, as well as to the fact that the Christian Bible has two testaments, each of which contains a variety of approaches to ethics.

THEO 6130. MATTHEW MARK AND METHOD. (3 Credits)
This graduate seminar offers both detailed analysis of Gospels of Matthew and Mark and a survey of contemporary critical methods as applied to these Gospels. Sessions will examine the two texts through the lenses of Christology; Discipleship and Ethics; Feminist Criticism; Form Criticism; "Historical Jesus"; Literary Criticism; Political Theology; Postcolonial Criticism; Redaction Criticism; and Text Criticism.

THEO 6192. GRECO-ROMAN CONTEXT/XTNT. (3 Credits)
This course creates a context for understanding the encounter of early Christianity with Greco-Roman culture by exploring Hellenistic and Roman history, politics, religion, social relations, economics, education, rhetoric, philosophy, literature, and the theatre.

THEO 6194. HISTORY THEORY & XTIANITY. (3 Credits)
This course will provide a thorough introduction to recent developments in historiography and critical theory in light of the so-called "linguistic turn." It will also explore the methodological relevance of these theoretical shifts for the study of pre-modern Christianity/historical theology.

THEO 6196. EARLY CHRISTIAN RITUAL. (3 Credits)
This graduate seminar surveys the evidence for ritual practices in the first few centuries of Christianity. Through engagement with theoretical literature on ritual and identity formation, we will explore what can be known about early Christian practices and interrogate our means of knowing it. Much of the course will focus on the rituals of initiation and their diverse interpretations in ancient sources, but other topics will be covered as time allows. Prior study of early Christian history and/or New Testament is recommended.

THEO 6198. SELF IN EARLY CHRISTIANITY. (3 Credits)
An examination of different notions of "the self" in early Christianity with particular attention to ancient ideas about status, gender, ethnicity, and cultural identity, as well as their implications for Christians in the pre-Constantinian era.
THEO 6211. Paul, Prisoner and Martyr: Political Theology in Early Christianity. (3 Credits)
A close reading of the authentic letters of Paul from prison (Philippians and Philemon), supplemented by an investigation of the image of Paul as the "prisoner of Christ" in Colossians, 2 Timothy, 3 Corinthians, the Acts of the Apostles, and the Acts of Paul.

THEO 6214. OLD TESTAMENT THEOLOGY. (3 Credits)
An examination of recent attempts to use the Old Testament as a resource for systematic theological thought. Among the topics to be considered are the nature of divine revelation in creation and history and the implications of the human response to that revelation.

THEO 6300. APOSTOLIC FATHERS. (3 Credits)
A seminar in the body of first and second century Christian literature known as the "Apostolic Fathers," so as to gain an understanding of this literature as an expression of the life and thought of its authors and the churches in which it arose and was preserved. A secondary concern of the course involves the use of the Apostolic Fathers as historical sources for the reconstruction of the social experience of the early Christians.

THEO 6305. INTRO TO RABBINIC LITERATURE. (3 Credits)
In this course, students will explore the vast corpus of rabbinic literature and the historical, intellectual, religious, social, legal and political circumstances in which rabbinic Judaism developed in Palestine and Babylonia between the first and seventh centuries C.E. Students will gain experience reading different genres of rabbinic texts; become familiar with cutting-edge scholarship in the field; experiment with various methodologies in the study of late antiquity; and learn about a formative period in Jewish history.

THEO 6359. NORTH AFRICAN CHRISTIANITY. (3 Credits)
The course "North African Christianity" introduces students to the physical and cultural environment of early Christian communities in North Africa and to the theologies Africans produced between the origins of African Christianity in the second century and the Middle Ages. Subjects include Tertullian, Cyprian, stories of martyrs and literature of the Donatist controversy (with Augustine). Some attention will be paid to archaeology and, if possible, pseudo-Cyprianic literature.

THEO 6360. ALEXANDRIAN THEOLOGY. (3 Credits)
Reading and interpretation of selected writings of Clement of Alexandria, Origen, Athanasius, Didymus the Blind, and Cyril of Alexandria, against the background of the pagan and Jewish traditions of Alexandria.

THEO 6365. CAPPADOCIAN FATHERS. (3 Credits)
A wide-ranging but analytic reading of the most important writings of Basil of Caesarea, Gregory Nazianzus and Gregory of Nyssa, with particular attention to the doctrine of the Trinity, to Christian anthropology, and to spirituality.

THEO 6367. Byzantine Christianity: History and Theology. (3 Credits)
The graduate-level survey course introduces students to the theological ideas and historical transitions that captivated the minds of Eastern Christians from the 8th to the 15th centuries. Through a careful reading of primary sources (in English translation) and the scholarly debates about those sources, we will explore the Iconoclastic controversies, the expansion of Christianity to the Slavs, the experience of Christians living under Islamic authority, and a host of issues related to rupture between Eastern and Western Christianity. In most circumstances, successful completion of this course authorizes doctoral students in Theology to teach the undergraduate cognate course.

THEO 6400. Theological Anthropology and Human Diversity. (3 Credits)
As the subdiscipline of "theological anthropology" speaks about the nature of our being human, how does it take into account the great variety in evidence among human beings? Particularities of race, religion, culture, disability, sexual orientation and gender will be placed in conversation with classic text.

THEO 6425. ST. AUGUSTINE IN CONTEXT. (3 Credits)
This course investigates the life and writings of Augustine of Hippo in the context of late antiquity including philosophical and religious influences upon him as well as the controversies and archeological remains of his ministry.

THEO 6426. ST. AUGUSTINE OF HIPPO. (3 Credits)
An introduction to the life and thought of St. Augustine that will include an examination of his principal theological controversies (e.g. against manichaicism).

THEO 6444. Medieval Modernists: Modern Appropriations of Medieval and Ancient Christianity. (3 Credits)
In twentieth century Europe, an astonishing range of intellectuals were animated and energized by the study of pre modern and early modern Christianity. For theologians, historians, philosophers, and literary figures, Christian medieval and patristic sources were galvanizing forces of transformation, and harbingers of ethical, theological, and political renewal. This course investigates the various appropriations of medieval and ancient Christianity from the Catholic nouvelle theologie movement (Henri de Lubac, M.D. Chenu, and Jean Danielou in particular), literature (Charles Peguy), philosophy, (Hannah Arendt and Luce Irigaray), and historiography (Michel de Certeau), along with secondary works by Amy Hollywood, Joan Wallach Scott, and others.

THEO 6445. AFFECT, EMOTION, AND RELIGIOUS EXPERIENCE. (3 Credits)
This course examines recent work in affect theory and the history of emotions (and their philosophical antecedents) as potential resources for historical and theological accounts of religious experience.

THEO 6456. MEDIEVAL LITURGY. (3 Credits)
A study of the written sources and architectural setting of liturgy in the West from the 6th century to the eve of the Reformation. Special attention will be given to the liturgy of the Eucharist in the Roman Rite, the liturgical calendar, and the Liturgy of the Hours.

THEO 6461. MYSTICAL THEOLOGY. (3 Credits)
Examines the influences of Neoplatonic philosophy and the writings of Pseudo-Dionysius on medieval Latin Christianity, with attention to both "negative" theological language and reflection on the paths to and modes of union with God. Modern deconstructive, psychoanalytic, and feminist approaches to mysticism will also be considered.

THEO 6463. FROM LOLLARDS TO LUTHER. (3 Credits)
This course offers an introduction to the key themes, events, and thinkers of Christianity during the transition from what historians refer to as the late medieval to what they call the early modern period. Topics will include theological method; humanism; heresy and reform; gender; scripture; and the relationship between the church and civil society.

THEO 6465. ASCETICISM & MONASTICISM. (3 Credits)

THEO 6466. HAGIOGRAPHY. (3 Credits)

THEO 6480. CHRISTIANIZING THE BARBARIANS. (3 Credits)
The course examines the "Christianizing" of pagan peoples (Roman, Germanic, Slavic) during the late ancient and medieval periods. We begin with two basic questions: what evidence is there for the "Christianization" of Europe? And how do we explain it?
THEO 6490. CHRISTIANITY AND VIOLENCE. (3 Credits)
This course explores the often ambivalent relationship between Christianity and violence in the pre-modern world. Readings include a broad range of primary sources including martyr acts, liturgical hymns, canon law, and Crusader chronicles as well as influential scholarly assessments of the history of Christianity and violence.

THEO 6505. HISTORIES OF COLONIALISM, EMPIRE, THEOLOGY. (3 Credits)
This interdisciplinary course traces the interconnected histories of colonialism, European empire, and Christian theology in the 15th-20th centuries, with focus on the 18th-20th centuries. Special attention will be given to questions of historiography and theoretical method: the pairing of material history and philosophical/theological inquiry, the creation of "religion" as a discursive category, the role of Christian theology in funding, resisting, or augmenting imperial projects, and the diversity of Christian forms of like birthed in the circum-Atlantic world.

THEO 6510. SOCIALLY ENGAGED THEOLOGY. (3 Credits)
This course will examine the tradition of theology engaged with social concerns and emerging from within broader social movements. Students will be invited to participate in current social projects with local organizations as part of our exploration.

THEO 6543. Aesthetics, Religion, and Modernity. (3 Credits)
This course will explore the rise of "aesthetics" as a category to supplant, explain, enrich, and/or revive religious discourse within the philosophical and economic projects of Western modernity. Focus will be given to the historical conditions that made aesthetics a compelling rival or reviver of traditional religious belief and practice in the 18th-20th centuries.

THEO 6544. BELIEF AND UNBELIEF TOL & INTO. (3 Credits)
Descriptions: This graduate seminar explores two related phenomena: the historical development of varieties of religious belief and unbelief; and the practice of religious tolerance and intolerance in modern Europe and North America. Since course readings focus on major historical transitions in theological, social, cultural, political, and intellectual life, students will encounter a range of methodological approaches and source materials and will develop a broad interpretive framework for understanding Western religious history since the sixteenth century.

THEO 6551. U.S. RELIGIOUS HISTORY. (3 Credits)
This course consists of two parts: a survey of classic works in American religious history, followed by student immersion in archival work at manuscript collections in the New York City area. Students will conduct original historical research on sites of religious significance located in Metropolitan New York.

THEO 6553. READINGS IN AMERICAN RELIGION. (3 Credits)
This course offers an historical study of theology in America that is atttentive to contemporary discussions of theory, method, and historiography. Readings include primary and secondary sources in American theology and religious history from the coming of the Europeans to the 1980s. Topics may include: Colonialism and Borderlands Theologies, Puritanism, the American Enlightenment, Slave Religion, Evangelicalism, Transcendentalism, the Black Church, Immigrant Catholicism, New Thought, Mormonism, Social Gospel, Fundamentalism, U.S. Catholic Counterculture, Neo-Orthodoxy, U.S. Buddhism, Civil Rights, Liberation Theology, the Nation of Islam, and Eco-Theology.

THEO 6600. MODERN ORTHODOX THEOLOGY. (4 Credits)
Examination of Twentieth-Century Orthodox Theological Texts. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

THEO 6606. THEOLOGICAL ANTHROPOLOGY. (3 Credits)

THEO 6615. Rahner, Lonergan, and Transcendental Method. (3 Credits)
Lonergan and Rahner represent two distinctive approaches to what is frequently called “transcendental method” (although Lonergan had reservations about the term as applied to him). This course will examine Lonergan’s often neglected but crucial philosophical work, along with Lonergan’s more specifically theological writings. The two will be compared with each other as well as with contemporary and post-modern critics.

THEO 6616. CONTEMP THEOL OF TRINITY. (3 Credits)
An introductory survey of the historical development of the doctrine and an exploration of contemporary interpretations of the Trinitarian mystery in Lonergan, Rahner, and Muhlen.

THEO 6620. GOD IN CONTEMP THEOLOGY. (3 Credits)

THEO 6621. GOD IN COMPARATIVE THEOLOGY. (3 Credits)
Examination and comparison of notions of God or the Absolute (Brahman, Dharmakaya, etc.) in major theological traditions: Jewish, Christian, Muslim, Hindu, Buddhist. Classic texts will be read.

THEO 6630. CHURCH IN CONTEM THEOL.. (3 Credits)
Some contemporary ecclesiologies from the point of view of the Church’s relationship with the world.

THEO 6642. POLITICAL THEOLOGY. (3 Credits)
This course will discuss and critically analyze contemporary theologies of the political, with attention being given to the recent debate over political liberalism. Texts from a variety of theologians and theological perspectives will be examined, as well as recent attempts at political theology by non-theologians.

THEO 6651. THE LITURGY: HOW CHRISTIANS WORSHIP. (3 Credits)
This course will focus on the Roman Catholic liturgy – leitourgia – the people’s work for God. We will draw a list of topics concerning three areas: the theory of liturgical reform, the history of the “Mass,” and related concerns for the liturgy, e.g., the role of justice, inculturation, feminist worship, music, and architecture.

THEO 6656. THEO OF LOUIS-MARIE CHAUVET. (3 Credits)
Louis-Marie Chauvet has developed a theology of sacrament that offers a reinterpretation of human existence. Scholars are exploring its implications, both ecumenically and internationally. This course will examine Chauvet’s methodological shift from metaphysics to a theology of symbol as mediation. He offers a way to understand sacrament and sacramentality that appreciates the significance of human bodiliness. Both primary and secondary sources will be read and critiqued within the context of other prominent theologians of the 20-21st century, including Rahner and Schillebeeckx. There will be optional opportunities to read some of Chauvet’s writing in their original French.

THEO 6657. EUCHARIST & WORLD TODAY. (3 Credits)
This course will put Eucharistic theology and practice dialogue with concerns regarding hunger, violence, and exploitation in our contemporary world.

THEO 6671. CONTEMPORARY CHRISTOLOGY. (3 Credits)
Current trends in Christological theology, including those of the post-Vatican II era (e.g., Rahner, Schillebeeckx, et. al.)
THEO 6674. ECOLOGICAL THEOLOGY. (3 Credits)
In the light of contemporary scientific understandings of the cosmos and attendant ecological concerns, this course will study reinterpretations of Christian doctrine and ethics of the last 40 years that have been in dialogue with these developments.

THEO 6710. ISSUES IN FUNDAMENTAL MORAL THEOLOGY. (3 Credits)
Fundamental moral theology has undergone dramatic shifts in understanding since the moral manuals. It is now characterized by a pluralism in method and perspective that would have been inconceivable. This advanced seminar will examine several issues in the field of fundamental moral theology that have received recent critical attention. Among these will be topics such as conscience and its formation, culturally entrenched social evil, change in magisterial teaching, the concept of natural law, the influence of cultural pluralism on moral formation and reasoning, and the role of the “sensus fidelium” in moral doctrine.

THEO 6721. AFRICAN AMERICAN THEOLOGICAL ETHICS. (3 Credits)
This course, which surveys African American theological and social ethics, is open to both M.A. and Ph.D. students.

THEO 6730. CHRISTIAN ECOLOGICAL ETHICS. (3 Credits)
This course examines distinctly Christian approaches to ecological ethics, including comparative historical perspectives, methods, and key topics.

THEO 6731. CHRISTIAN ECOLOGICAL ETHICS. (3 Credits)
This course examines distinctly Christian approaches to ecological ethics, including comparative historical perspectives, methods, and key topics.

THEO 6732. ETHICS AND ECONOMICS. (3 Credits)
An examination of contemporary economic social issues with the aid of Catholic social teaching, and with a critical use of economic science. The social issues examined include but are not limited to poverty, pollution control, protectionism, unemployment, and inflation.

Attribute: CEED.

THEO 6733. THEOLOGY & SCIENCE. (3 Credits)
This graduate-level course attends to the history, methodologies, content of conflict, and major questions that have occurred at the intersections of scientific and theological inquiry.

THEO 6734. THE BEAUTY OF JUSTICE. (3 Credits)
This course explores potential intersections between theories of "the beautiful" and "the good" in both classic and contemporary Christian theology and ethics. It also examines practical examples of this intersection in the lived practices of the Christian community in order to evaluate the viability of a faith that seeks beauty for addressing a variety of social justice problems including environmental racism, urban poverty, conflict resolution, and global health.

Attribute: CEED.

THEO 6735. ECOLOGICAL ETHICS. (3 Credits)
This course considers the rise of ecological consciousness, environmental history, and ethical reflection in light of modern philosophical and theological traditions. It aims to provide students with substantial, foundational knowledge in twentieth and twenty-first century environmental thought as well as emerging approaches to global environmental problems.

THEO 6737. GOD/MYSTERY OF SUFFERING. (3 Credits)
David Hume has articulated what many consider to be the problem of evil for the Western theistic traditions. Indeed, for nearly three hundred years, philosophers of religion and philosophers of religion and philosophical theologians have attempted to resolve the problem of the alleged inconsistency of God’s infinite goodness, power, knowledge, and the reality of human suffering, especially innocents’ suffering. The presumption of the present seminar is very simple. Hume’s pithy rendering does not articulate the problem — or at least the whole problem. In light of this presumption, this seminar shall critically examine the various ways Christians have responded to suffering. The goal of this seminar is to have the students be able to understand the history of responses to the problems of evils in the Christian traditions, and to evaluate those responses.

THEO 6738. The Mystical-Prophetic Turn in Modern Catholic Theology. (3 Credits)
The course analyzes the thought of Johann Metz, Gustavo Gutierrez, and David Tracy as responses to the challenges of late modernity. By identifying the authors’ contexts and influences, investigating their central ideas, and engaging their critics, the course explores the philosophical and theological implications of the mystical and prophetic traditions of Christianity retrieved by political, liberation, and public theologies for contemporary thought. Other thinkers to be considered include: Rahner, Lindbeck, Ratzinger, Balthasar, Gadamer, Adorno, Ellacuria, Johnson, Goizueta, Dionysius, John of the Cross, and various biblical authors.

THEO 6740. CATHOLIC SOCIAL THOUGHT. (3 Credits)
Catholic social thought as found in the social encyclicals, emphasizing their theological contexts, social scientific constructs, historical background and philosophical presuppositions.

Attribute: CEED.

THEO 7222. NEW PERSPECTIVES ON PAUL. (3 Credits)
This course will examine contemporary interpretations of Paul from the post-World War II period to the present. Topics will include the so-called “New Perspective” and recent engagements with Paul in continental philosophy.

THEO 7731. RELIGION AND REVOLUTION. (3 Credits)
Using El Salvador (1975-1995) as a case study, the course will examine theological and socio-political questions that emerge when believers engage in revolutions. Primary focus on theological figures and themes such as Oscar Romero, Jean Donovan, Ignacio Ellacuria, comunidades de base, the preferential option for the poor, and Christology, will be supplemented with interdisciplinary reflection on critical theory (Marx et al.), postidealist epistemology (Zubiri), and postcolonial identity (Bhabha).

THEO 7736. BIOETHICS. (3 Credits)
This course attempts to put the Roman Catholic and broadly Christian bioethical traditions in conversation with their secular interlocutors — toward the end of examining whether or not these traditions have a place in public bioethical discourse and what that contribution might look like. Among the issues to be examined are the distribution of healthcare resources, reproductive and other biotechnologies, the moral status of ‘the other’ in bioethics, and refusal of medical treatment.

THEO 8998. IUDC CONSORTIUM TUTORIAL: ADVANCED SYRIAC READINGS. (3 Credits)
This course is an independent study/tutorial for IUDC Consortium students from member schools, and offers an exploration of linguistic and theological aspects of Syriac writings from Late Antiquity.

Updated: 10-11-2017
THEO 8999. INDEPENDENT STUDY. (4 Credits)

THEO 9000. PROFESSIONAL DEVELOPMENT SEMINAR. (0 Credits)
The seminar introduces advanced doctoral students to the job search process, provides help in compiling a strong application dossier, prepares students for interviews and job talks, advises students about negotiating offers, and assists students in strategizing their career paths within and beyond the academy. In addition to a number of seminar meetings, students will receive individualized attention, help editing their application materials, and practice with interviews and job talks.

THEO 9999. DISSERTATION DIRECTION. (1 Credit)

Torts (TOGL)

TOGL 0108. TORTS. (4.5 Credits)
A study of the causes of action arising from breaches of legally recognized duties relating to the protection of person, and property, including the traditional tort actions and new and developing areas of tort liability. Various defenses, immunities and privileges are discussed. The course includes a critical analysis of the fault concept of liability. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: LMCO.

TOGL 0226. ADV. TORTS: DEFAMATION. (3 Credits)
Tort law recognizes that words and images can injure, and through causes of action libel, slander, and the rights of privacy, it attempts to compensate the victims of those injuries. This course begins with traditional tort law of defamation, traces the development of that through key Supreme Court cases of the 1960s, and provides a close examination of current defamation law. Some of the contemporary controversies to be addressed include: the existence and scope of the "fact/opinion" distinction; the use of defamation causes of action in employment-related litigation; the developing "neutral reportage" principle and the proper accommodation of defamation principles to new technologies of communication. Notes: Take-home exam or paper option.

Attributes: IPIE, LLM.

TOGL 0227. CONSTITUTIONAL TORTS. (2 Credits)
This course will explore issues concerning how private individuals obtain remedies against governmental actors for violation of their constitutional (and sometimes statutory) rights. The class will address prerequisites to relief, such as the state action doctrine, and will touch on substantive rights such as substantive and procedural due process, the 4th Amendment right to be free from unreasonable search and seizure, and the 8th Amendment right not to be subjected to cruel and unusual punishment.

Attributes: INLJ, LMCO.

TOGL 0360. CONSUMER FINANCIAL PROTECTION LAW. (2-4 Credits)
Consumer spending is a multi-trillion dollar sector that drives the U.S. economy. This course provides an overview of the consumer finance system—the way in which consumers finance and manage their consumption—and examines the business, economics, politics, and regulation of this sector of the economy. Consumer finance is a business-to-consumer industry, and this course focuses on both consumer and financial institution concerns in transactions. The course examines the regulatory structure and methods of consumer finance regulation, as well as the specific economics and regulation of major consumer financial products. Considerable attention will be given to the new Consumer Financial Protection Bureau and its powers and politics. The course's coverage will roughly tracks the authority of the CFPB: deposit accounts, payment products (debit and credit cards), credit products (credit cards, mortgages, payday, and auto loans as well as debt collection and restructuring services), some insurance products; and advice and restructuring services. Attention will also be given to how financial institutions finance their operations, access to financial services, and to the special role of consumer finance in the socioeconomics of the middle class.

Attributes: BFE, CRCP, INLJ, LAWB, LLM.

TOGL 0378. PRODUCTS LIABILITY. (2,3 Credits)
This course explores the concepts of product defect and strict liability in tort; manufacturing and design defects, and inadequate warning claims particularly as they arise in drug and medical device contexts. What does it mean for a drug to be declared “safe and effective” given the limited power of both pre-approval clinical trials and the post-market approval passive adverse event reporting system. The course will address the relationship of product liability claims to the principal doctrinal issues in tort law (warranty, strict liability, negligence). Drawing on the record of recent trials, decisional, regulatory, and statutory law this course focuses on the complex field of drug and medical products liability and will explore claims such as those involving the Cox-2 inhibitor class of anti-arthritic drugs (Vioxx) which resulted in substantial settlements; and claims arising from defective implantable cardiac defibrillators which the Supreme Court found to be barred by federal preemption law. Attention will also be given to vaccine liability and the schemes which replace tort liability with narrow administrative remedies.

Attributes: JD, LLM.

TOGL 0609. CONTEMPORARY PROTECTIONISM: FROM CUSTOM DUTIES TO ECONOMIC PATRIOTISM. (2 Credits)
The purpose of this course is to explain and analyze how the origins of the 2011 European crisis were discernible from the beginning of the European Monetary Union. We will study warning reports issued by European Founding Fathers, identify deficiencies and wrong strategies that eventually led to the Euro crisis through the examination of treaties and European reports. We will analyze all the barriers to the success of the Euro, the key role played by the European Central Bank whose limited missions have been criticized and the long process to the achievement of a better monetary stability through new treaties as well as the harmonization of economic governance which remain an unfinished task.

Attributes: LAWI, LLM.

TOGL 0780. BUSINESS TORTS. (2 Credits)
Students will demonstrate a basic understanding of commonly litigated business torts, including the basics of the economic loss rule, misappropriation, fiduciary duties, deceptive marketing, business disparagement, misappropriation of trade secrets and trademark. Students will be able to recognize situations in which these causes of action are available and analyze those causes of action.

Attributes: LAWB, LLM.

Updated: 10-11-2017
Urban Education (UEGE)

UEGE 4999. SERVICE LEARNING-4000/5000 LEVEL. (1 Credit)

UEGE 5102. HISTORICAL, PHILOSOPHICAL, AND MULTICULTURAL FOUNDATIONS OF AMERICAN EDUCATION. (3-4 Credits)

This introductory course examines the historical and philosophical roots of public education and discusses how this system is related to the social, multicultural, political, and economic life of the nation. As a course in educational foundations, this course examines the concept of cultural pluralism—the values, traditions, and aspirations of various immigrant and ethnic groups, and the ways in which those differences influenced schooling cultures and processes.

UEGE 6001. PHILOSOPHY OF EDUCATION. (1-3 Credits)

An examination of the philosophies underlying contemporary policy issues in education with an emphasis on egalitarian versus meritocratic positions.

UEGE 6241. URBAN EDUCATION: PROBLEMS AND PERSPECTIVES. (3 Credits)

An analysis of those trends and innovations most likely to shape urban education delivery systems in the future.

UEGE 6243. THE IMPACT OF PREJUDICE ON MINORITY GROUPS IN AMERICA. (3 Credits)

Examines the institutionalized nature of prejudice and the cultural, economic, and social status of selected minority groups.

UEGE 6276. HISTORY OF EDUCATION. (1-3 Credits)

An examination of selected innovations in American public and nonpublic education with an emphasis on use of the past to improve current practice.

UEGE 6330. URBAN SOCIOLOGY AND EDUCATION. (3 Credits)

An analysis of group values, mobility patterns, and intergroup relations as they affect metropolitan school systems. Emphasis on the education of ethnic minority groups.

UEGE 9990. INDEPENDENT STUDY. (1-3 Credits)

Designed to enable students to study selected topics in depth and to conduct research. For matriculated students only. An outline of the proposed work must be approved by the adviser. Registration requires the approval of the professor directing the study, the division chairperson, and the associate dean of academic affairs.

Urban Studies (URST)

URST MTNC. MAINTENANCE-URBAN STUDIES. (0 Credits)

URST 0912. REQUIREMENT PREPARATION. (0 Credits)

For Ph.D. and Master’s students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement, such as comprehensive exam, Master’s thesis, or dissertation submission.

URST 0914. REQUIREMENT PREPARATION IN SUMMER. (0 Credits)

For Ph.D. and Master’s students, registration necessary to maintain continuous enrollment while preparing for a milestone requirement during the summer. (e.g., to be used by Ph.D. students after the oral examination/defense and prior to receiving the degree).

URST 3070. URBAN DESIGN. (4 Credits)

A studio course in urban design for public spaces, neighborhoods, urban districts, campuses, parks, infill developments and expansions. A major design project is prefaced with research in urban design history, infrastructural technologies, case studies, and diagrammatic analysis. Portfolio layouts, field trips, workshops, lab fee, and office hours visits are required. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

URST 3340. URBAN PSYCHOLOGY. (4 Credits)

In 1800, London became the first city in human history to top the 1-million mark. How does living in a large city impact us—our inner personality, outer behavior, values and relationships? This interdisciplinary urban studies course focuses on this question, including the methods and findings of behavioral research on: the growth of cities, crowding, prosocial and antisocial behavior, primary and secondary relationships, ethnicity, happiness, deviance, pace of life, urban personality, the future of cities. This Fordham course in London meets three days weekly (Tues/Wed/Thurs), including related excursions and fieldwork on city life. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

URST 3800. INTERNSHIP. (3 Credits)

Supervised placement for students interested in work experience.

URST 3999. TUTORIAL- URBAN STUDIES. (3 Credits)

URST 4800. URBAN STUDIES INTERNSHIP. (4 Credits)

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

URST 4890. RESEARCH SEMINAR. (4 Credits)

Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

URST 4999. TUTORIAL. (1-4 Credits)

Independent research and reading with supervision from a faculty member.

URST 5000. ISSUES IN URBAN STUDIES. (3-4 Credits)

Required foundation course for MA in Urban Studies. Introduces students to current debates in urban studies and to modern urban theory. Themes covered include: immigration, race and ethnicity, urban culture and history, urban sociology, urban planning, city and globalization.

URST 5020. URBAN POLITICAL PROCESSES. (3 Credits)

Examines urban political systems concentrating on the primary institutions and processes that comprise the urban milieu. Focuses on the major theories and approaches that attempt to explain urban politics and urban political systems.

Attribute: INST.

URST 5030. AMERICAN SUBURB: RISE AND FALL. (3 Credits)

Examination of 19th Century origins of suburb as counterpoint to the city and the role of nature in shaping the design of this new form of country living. The twentieth century transformation of the suburb into the American dream will be evaluated in light of the resultant sprawl and the policy critiques of this pattern of growth. The class project will involve the design of a sustainable suburb for the 21st century.

Attribute: HIST.

Updated: 10-11-2017
URST 5040. URBANISM. (3 Credits)
Overview of urban philosophy and urban planning theory in the modern period with emphasis on contemporary scholarship as well as planning methods and techniques. Course scope is international.
Attribute: INST.

URST 5045. INFORMAL CITIES. (3 Credits)
This course will examine informal organization as it takes place under the impact of political crisis, natural and manmade disasters, and the ongoing crisis of poverty. A variety of sources will be used including written records, films, and imagery.

URST 5066. URBAN HEALTH AND ENVIRONMENT. (3 Credits)
This course will examine the intersection of urban life, the urban environment, individual and community health, and public policy. In doing so, it will examine the evolution of urban public health problems, the urban environment, and the role and responsibility of the political system to respond to individual and community health issues in urban settings. A variety of approaches to the study of urban public policy as well as selected issues from the study of urban public and environmental health will be highlighted.
Attribute: ENST.

URST 5070. Environmental History of the American City. (3 Credits)
A survey of New York City's history that emphasizes its changing economy, ecology, geography, and society over 400 years. Subjects include the political economy of poverty, the global outreach of New York, its capacity to change the environment of other places, and urban redevelopment. Students will conduct preliminary research and prepare a prospectus for a research project.
Attribute: ENST.

URST 5080. On the Waterfront: Maritime New York History and Policy. (3 Credits)
This course will explore the rich exchange of goods and people which made New York a "river city," the problematic legacy of that long maritime history, and the complex array of public policy questions that are redefining our relationship to the edge.

URST 5081. Brooklyn Waterfront: The Social Production of Space. (3 Credits)
This course examines the social, economic, ideological, and technological forces that produced the new Brooklyn waterfront. Brooklyn Bridge Park is the case study and focuses on its historic transformation from a ferry landing and the largest private freight terminal in the world into a public waterfront park at the beginning of the 21st century. The course explores the role of public policy, community debates, as well as the historical memory, visual images, and local uses that shaped the new vision of this space. Field work and research at the Brooklyn Historical Society required.

URST 5090. LINCOLN CENTER ARTS. (3 Credits)
Considers the performing and visual arts and how they are mediated by the stature of the Lincoln Center complex. Topics include John D. Rockefeller 3rd's dream, the politics and design of the complex, Robert Moses and Lincoln Square, history of the arts in NYC, politics and economics of the arts.

URST 5095. SPACE, PLACE, IMMIGRANT CITIES. (3 Credits)
This course will introduce students to the main issues and current debates on immigrants in large urban areas in the U.S. Due to their density, cities represent microcosms of interaction and identity formation among and between different groups. This often manifests itself spatially, as certain neighborhoods become cores of residence and territorial concentration for immigrants. In the process of settling, immigrants also start identifying strongly with their space of settlement. This course will focus on the contemporary manifestations of immigrant settlement in cities, while also paying attention to new settlement patterns in reconfigured metropolitan spaces.

URST 5252. URBAN THEORY & THE MODERN CITY. (3 Credits)
Provides an overview of key theory themes of the 20th/21st American city and explores the modern city at the crossroads of socio-political study and interdisciplinary urban research. Themes include city and society, class and urban space, urban poverty, race and culture, diversity in the global city, crisis and conflict, gender and sexuality, sovereignty, just cities, sanctuary cities, and more.

URST 5900. GLOBAL CITIES. (3 Credits)

URST 6080. URBAN STUDIES FIELDWORK. (1-6 Credits)
Required internship or field research in New York City or another large scale US or foreign city, depending on student interest. Prerequisite: 12 completed credits and program approval. The field study may be related to the required research project. Maintenance- open enrollment.

URST 6200. RESEARCH SKILLS URBAN STUDIES. (3 Credits)
Introduces students to urban research methods, setting up research design including deriving hypotheses and conclusions and the application of qualitative and quantitative approaches.

URST 6999. URBAN STUDIES RESEARCH. (1-6 Credits)
Required research project for Master’s Thesis or project. Prerequisites: 12 completed units, URST 6080, and program approval. Leads to completed thesis or project.

URST 7999. URBAN LAB. (4 Credits)
Graduate course with field study component on specific urban topics. Co-taught by faculty across the university and open to all graduate students. Focuses on applied urban research and community engagement. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

URST 8100. URBAN STUDIES INTERNSHIP. (0.5-6 Credits)
Required internship or field research in New York City or another large scale US or foreign city, depending on student interest. Prerequisite: 12 completed credits and program approval. The field study may be related to the required research project. Maintenance- open enrollment.

URST 8999. INDEPENDENT STUDY. (1-4 Credits)

Visual Arts (VART)

VART 1055. FIGURE DRAWING I. (4 Credits)
The study of the figure through direct observation: various techniques of rendering and diverse media will be explored. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
VART 1101. URBANISM. (3 Credits)
A historical introduction to the issues, principles and processes of urban design in western societies. Lectures will trace the evolution of selected cities (from ancient Athens to contemporary Los Angeles) taking into consideration the design decisions that have affected our built environment and urban culture. Field Trips. (Satisfies Fine Arts core requirement).
Attributes: FACC, FRFA, INST, URST.

VART 1124. PHOTOGRAPHY I. (4 Credits)
Instruction is offered in basic camera and darkroom techniques of black-and-white photography. Class will also include critiques of students’ work and discussions of aesthetic questions pertaining to photography. Students should have adjustable cameras. Additional darkroom hours required. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMM, ZLB5.

VART 1128. INTRODUCTION TO DIGITAL PHOTOGRAPHY. (4 Credits)
This class is an introduction to the fundamentals of digital photography. Assignments throughout the semester encourage students to explore some of the technical and aesthetic concerns of the medium. Photoshop is used as the primary editing tool. A 3.2 or higher megapixel camera is required. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: NMDD.

VART 1135. VISUAL THINKING I. (4 Credits)
A foundation course in visual communication. The course will cover the following topics: visual perception, composition, light and color, drawing perspective, words and images, graphic design, photography and photo montage. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMM, NMDD.

VART 1136. VISUAL THINKING: PERSPECTIVES, PAINTING, AND DRAWING. (4 Credits)
An introductory course in visual perception with an emphasis on formal, historical and theoretical concerns in painting and drawing. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: FCLC.

VART 1150. DRAWING I. (4 Credits)
Work in pencil, ink, charcoal, and other graphic media designed to involve students in various approaches and attitudes toward representation and expression in drawing. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 1160. ARCHITECTURAL LANGUAGE. (4 Credits)
(Formerly VART 2060 - Architectural Design I.) Introducing the basic language of 3D form and space making, this studio course involves students in the process of architectural vision, critique, analysis and creation. Emphasizing short, elementary in-class assignments, students learn to use the same tools—sketching, diagramming, scale model making, and computer modeling and animation—used by design professionals to shape our world. Lab fee. All are welcome. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: URST, ZLB3.

VART 1161. FORM AND SPACE. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ZLB3.

VART 1180. PAINTING I. (4 Credits)
An introductory course in painting, emphasizing basic formal and technical concerns. Acrylic paints will be used. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 1257. AVANT-GARDE FILM/VIDEO. (4 Credits)
This studio course will explore the practice of current avant-garde film and video from a visual arts perspective. Various artists’ strategies for creating challenging work will be considered, including the use of abstraction, appropriated imagery, autobiographical detail, disjunctive sound image relationships and other aesthetic choices. The course will include field trips to view current experimental films and videos at museums, film festivals and art galleries. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 1256. FILM/VIDEO I. (4 Credits)
An introduction to film/video production techniques used to make short projects. Students will study composition, lighting, and editing in creating their own Super 8 mm film and digital video work. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMM, FITV, NMDD.

VART 1800. INTERNSHIP. (1 Credit)

VART 1999. TUTORIAL. (1 Credit)
In this student-initiated program, the student may earn one additional credit by connecting a service experience to a course with the approval of the professor and the service-learning director.

VART 2003. GRAPHIC DESIGN & DIGITAL TOOLS. (4 Credits)
In this course the student will learn the basic tools and operations of several different graphics programs. Photoshop, Illustrator, and QuarkXpress will be explained through demonstrations, tutorials, and weekly assignments. The focus will be on a conceptual and analytical approach to design vocabulary and problem solving. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COMM, NMDD.
VART 2004. DESIGN INTRODUCTION. (3 Credits)
This course introduces the student to basic language and practice of Graphic Design. Through demonstrations and hands-on assignments students will learn the essential skills needed in producing elegant design solutions and gain a proficiency in the use of the industry design programs, Adobe Suits.

VART 2050. DESIGNING THE CITY. (4 Credits)
A hands-on course in the theory and practice of urban design, showing how a mixture of idealism and realism contributes to the design of more "live-able" cities. Theoretical models ( e.g., modernism, garden cities, suburban development urban renewal, and new urbanism) are presented in slide lectures. Students will design urban neighborhoods by computer modeling and animation. A creative and practical course in urban design, focusing on the relationship between people and the built environment. Although urban design is a visual discipline, its roots and purposes are interdisciplinary, combining high ideals with hard realism. Readings, walking tours, and research examine the historical roots of current urban design problems and practices. Seminar discussions highlight the goals: regenerative neighborhoods and lively public places. Smart growth, sustainable communities, and new urbanism are contrasted with suburban sprawl and auto-centered development. Students use Mac-based CAD software to visualize great new public places in New York–practicing the imaginative are of the possible. Visits during office hours are recommended. Field trips and lab fee are required. Recommended to Urban and Environmental Studies students, but open to all. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ENST, ENVS, URST.

VART 2055. ENVIRONMENTAL DESIGN. (4 Credits)
This introductory course explores the physical relationship between mankind and nature. Slide presentations, field trips and readings will outline the histories and forms of settlement patterns, landscapes and gardens, and our increasing interest in sustainable development, renewable energy and conservation. Sketching, design and model-building in landscape settings. Intended for design, history and science students. Required field trips and lab fee. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ENST, ENVS, NMDD, URST.

VART 2065. INTERIOR AND ARCHITECTURAL DESIGN. (4 Credits)
A design studio course, synthesizing contextual, artistic, environmental and functional requirements in the design of public spaces, landscapes, furnishings, and buildings. A relatively simple term project, set in a landscape environment, is prefaced by exercises in analysis, skill building, theory, critique and fabrication. (Formerly VART 2060/3070 Architectural Design). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: THEA, URST.

VART 2070. ARCHITECTURAL DESIGN I. (4 Credits)
A design studio course, synthesizing contextual, artistic, environmental and functional requirements in the design of public spaces, landscapes, furnishings, and buildings. A relatively simple term project, set in a landscape environment, is prefaced by exercises in analysis, skill building, theory, critique and fabrication. (Formerly VART 2060/3070 Architectural Design). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: THEA, URST.

VART 2085. SUSTAINABLE NEW YORK. (3 Credits)
An intensive summer workshop in big city "green" design. Intended for majors in visual arts, environmental studies, and/or urban studies, this course might interest anyone concerned about New York City's future in an era of rising energy costs and environmental risk. Walking tours; field trips; reading program and discussion; visits to buildings, parks, and construction sites; illustrated presentations; guest speakers from state and city agencies, NGOs, nonprofits, and private sector innovators. At least one day each week will be based at Solar One, located on the East River at 23rd Street, or the Science Barge in the Hudson River at 44th Street. By term's end, each student will present an independent research or design project.

Attributes: ENST, ENVS, URST.

VART 2121. ABSTRACTION. (4 Credits)
We think abstractly and routinely navigate the complex abstract structures of our world. Abstractart- themajor art form of the last century- has tried in many different ways to come to grips with this situation. This course rather than treating abstraction as a style considers it as a way of thinking visually as structure for creativity and expression. Working across material disciplines, the course will employ painting, drawing, three dimensional Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 2130. PAINTING II. (4 Credits)
Intermediate instruction is offered in painting. Emphasis will be placed on developing individual approaches to the solving of creative problems within the context of 20th-century historical and critical concerns. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: VART 1150 or VART 1180.

VART 2140. COLLAGUE AND MIXED MEDIA. (4 Credits)
A course emphasizing the formal, material and thematic exploration inherent in collage and mixed media techniques. Different visual disciplines and approaches will be combined to produce two- and three-dimensional work. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 2150. DRAWING II. (4 Credits)
A workshop in various techniques and media. Field trips to museums and galleries. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ZLB5.

VART 2185. PHOTOGRAPHY II. (4 Credits)
Students will initiate specific photographic projects, which they will pursue throughout the semester, while they consider work of certain 20th-century masters of photography. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ZLB5.

Prerequisite: VART 1124.
VART 2196. LARGE-FORMAT PHOTOGRAPHY. (4 Credits)
Large format-view camera technique, which produces large negatives and permits extraordinary image control, will be taught along with medium photography in this intermediate level class. Students will work on short, specific technical assignments as well as a long-term individual project. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ZLB5.

VART 2265. FILM/VIDEO II. (4 Credits)
Advanced film/video production techniques will be explored as students complete several projects over the course of the semester. Students will shoot 16mm film and video and learn sound design and post-production digital effects. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: COMM, FITV, NMDD.
Prerequisite: VART 1265.

VART 2400. FUNDAMENTALS OF WEBSITE DESIGN. (4 Credits)
This class will introduce the key concepts in designing and building websites from an aesthetic and technical perspective. Through lecture, critical analysis and hands-on assignments students will learn how to design and build a creative and effective website. The focus of the class will be on presenting and exploring the fundamental industry standard programming language and website practice: HTML, CSS, Navigational Structures, interactivity, and Information Architecture. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: NMDD.

VART 2500. TYPOGRAPHY AND DESIGN. (4 Credits)
Structured as a lab course, the fundamental perception, concept and method of graphic design will be introduced through a series of set projects and exercises. We will explore how graphic design can engage, inform and challenge the viewer as well as how the design of visual communication is influenced by social, political and cultural issues. Through lectures, slide presentations, assignments and class discussions, we will examine the formal aspects of typography, the relationship between type and image, and the impact of new technologies on design practices today will be examined. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: NMDD.

VART 2545. PROJECTS AND CONCEPTS. (4 Credits)
A multi-media studio course that emphasizes creative solutions to a varied series of visual problems. The student will be able to use painting, drawing, collage, photography, sculpture, and video, as well as installation and performance to make artworks that "think out of the box". Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ZLAB.

VART 2550. DESIGNING BOOKS, "ZINES" AND CHAPBKS. (4 Credits)
All students with an interest in self-publishing are welcome to the class. The focus will be on the design, layout, and production of a publication from cover to the copyright page. You will learn through weekly assignments and readings about design, type, paper, and binding techniques. We will look at and critique the numerous "indie" publications available and the final product will be a self-published book, "zine," or chapterbook. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: COMM.
Prerequisite: VART 2003.

VART 2600. GRAPHIC DESIGN CONCEPTS. (4 Credits)
In this class the focus will be on both the practical and creative aspects of the design process. Assignments will include magazine, book and brochure designs. Social responsibility in the context of a design's ability to educate, inform and propagandize, and deceive will also be examined. Emphasis will be placed on the articulation of ideas, process, writing skills and preparation of files for output as well as presentation, craftsmanship and typography. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: NMDD, ZLB3.

VART 2700. LOGOS, BRANDING, AND PRESENTATION. (4 Credits)
This advanced level class will focus on the development, design and presentation of an organizational product identity. The assignment will include research, a written proposal and a final presentation of a design for a logo, product, brochure and a promotional material. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: NMDD.
Prerequisite: VART 2003.

VART 2999. TUTORIAL. (2 Credits)
Independent research and readings with supervision from a faculty member.

Updated: 10-11-2017
VART 3001. DOCUMENTARY PHOTOGRAPHY: JAPAN. (4 Credits)
This intensive class is designed as a platform for intermediate and advanced level students to further develop their photographic production with an emphasis on generating documentary projects focusing on the people, culture, and architecture of Japan. The megacity of Tokyo will serve as the starting point for our investigations, with image making itineraries that will take us from the cosmopolitan ward of Shinjuku, to the center of youth culture in Shibuya; and from the cutting edge fashion districts of Harajuku, to the temples and shrines of Asakusa. Concurrent with our photographic explorations we will examine contemporary exhibitions in venues such as the Tokyo Metropolitan Museum of Photography in Eibusu, as well as view the ancient collections housed in Japan’s oldest and largest museum, the Tokyo National Museum in Ueno. Traveling by Shinkansen bullet train at 300 km/h (186mph), we will make our way south to Kyoto, the nexus of traditional Japanese culture and history with approximately two thousand temples, shrines, and gardens that we can utilize as both the catalyst and stage for our photography. The extraordinary wealth of visual stimuli we will experience in Japan over ten days will certainly inspire, as well as function as the backdrop against which to critically discuss the strategies that photographers employ in communicating their interests. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ZLB5.

VART 3025. DESIGNING BOOKS. (4 Credits)
The students will learn the fundamental principles, structures, and “typographic etiquette” involved in designing a book. Projects will include designing the exterior, book jacket, and interior page layouts of three kinds of books ranging from literary to the illustrated. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: VART 2003.

VART 3026. HISTORY OF PHOTOGRAPHY BOOKS: 1844-2004. (4 Credits)
The class will survey the history of the publication of photography books from early works published in the mid-19th century, albums with tipped-in original photographs, through the invention of off-set reproduction at the turn of the 19th century, and self-made digital books at the end of the 20th. Influential books and formats will be reviewed. The class will visit a museum collection to see examples of rare out-of-print and limited edition items, such as Alexander Gardner’s Photographic Sketchbook of the Civil War, William Bradford’s Arctic Regions, and others. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 3030. ART DESIGN AND POLITICS. (4 Credits)
This class will investigate the design of political art through hands-on studio projects and the consideration of historical precedents and contemporary examples, print media, public art, and events, political organizations, museums and gallery exhibitions will form a back drop for the course. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: NMDD.

VART 3055. ECOLOGY FOR DESIGNERS. (4 Credits)
An introduction to functional ecosystems, and the application of that knowledge to the re-design of the urban built environment. Energy use patterns, resource management, water cycles, productivity, food production, systems integration will be inspected, leading to the proposition of a hypothetical urban ecosystem, which may include water re-cycling, habitat restoration, bio-mimarcy, renewable energy, and vertical farming. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ENST, URST.

VART 3056. URBAN ENVIRONMENTAL DESIGN. (4 Credits)
A creative studio/seminar course in the design of renewable technologies, mixed use urbanism, hybrid ecologies; productive systems and resilient, sustainable cities. This is a synthetic studio, combining the concerns of Urban Design, Green Architecture, and Environmental Design in complex urban spaces, buildings, and networks. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ENST.

VART 3070. URBAN ARCHITECTURAL DESIGN I. (4 Credits)
(Formerly VART 3080.) A creative studio/seminar course in architectural design and theory synthesizing contextual, artistic, environmental and functional requirements in the design of public spaces and buildings using models, sketches, diagrams and computer modeling. Short assignments plus a major project, normally a public building in a complex urban context. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisites: VART 1161 or VART 11060 or AREU 1160 or ARRU 1160 or VART 2050 or AREU 2050 or ARRU 2050 or VART 2055 or AREU 2055 or ARRU 2055.

VART 3130. ABSTRACTION II. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 3132. PROJECTS AND CONCEPTS II. (4 Credits)
An advanced multi-media studio course emphasizing creative solutions to a variety of visual and conceptual problems. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: FCLC.

VART 3134. 20TH CENTURY ART: MODERNISM AND MODERNITY. (4 Credits)
A survey of the major developments of modern art from the late 19th century until today, with an emphasis on work done before 1940. This course will undertake the larger task of understanding modernism in art as a visual response to the conditions of modernity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
VART 3135. CONTEMPORARY ART: MODERNISM AND ITS AFTERMATH. (4 Credits)

VART 3156. PAINTING III. (4 Credits)
Individual instruction is offered with group critiques and seminar discussions. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 3186. PHOTOGRAPHY III. (4 Credits)
Continuation of studies in photography at the advanced level. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: ZLB5.
Prerequisite: VART 2185 (may be taken concurrently).

VART 3250. DESIGN AND THE WEB. (4 Credits)
In this class, students will learn how to design websites that maximize the mediums and limitations of technology. The class will explore the new directions websites are moving in, critically study websites that are successful both commercially and as a visual art form. The focus will be on how a website can be designed without sacrificing typography or good design. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attribute: COMM.
Prerequisite: VART 2400.

VART 3257. SEMINAR: AVANT-GARDE FILM/VIDEO. (4 Credits)
This studio course will explore the practice of current avant-garde film and video from a visual arts perspective. Various artists’ strategies for creating challenging work will be considered, including the use of abstraction, appropriated imagery, autobiographical detail, disjunctive sound image relationships and other aesthetic choices. The course will include field trips to view current experimental films and videos at museums, film festivals and art galleries. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 3258. FILM / VIDEO INSTALLATION. (4 Credits)
Students will create their own video installations using multiple monitors and mixed sounds. Using video monitors and film loops, students will create their own moving image pieces for the gallery/museum context. We will consider historical background and how contemporary practitioners use multiple screens and sound to explore unexpected terrain. Students will present their video installation work in a gallery show at the end of the semester. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisites: VART 1265 or AREU 1265 or ARLU 1265.

VART 3261. DOCUMENTARY FILM/VIDEO PRODUCTION. (4 Credits)
Students will plan, shoot, and edit a short non-fiction film. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 3262. NARRATIVE FILM/VIDEO PRODUCTION. (4 Credits)
Students will plan, shoot, and edit a short fiction film. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: VART 1265.

VART 3267. FILM AND THE CITY. (4 Credits)
After looking at ways in which the city has been framed historically in films, students will pursue research in the city using video as their tool. Using interviews, screen text, voice over, and other documentary techniques, students will explore a project of interest to them and make a series of short films that reveal an aspect of the urban milieu. In class sessions and in one on one meetings with the professor, students will propose and refine their project and gather feedback about communicating in visual language on city issues. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: COMM, URST.

VART 3268. FILM/ANIMATION. (4 Credits)
This course will explore 2 and 3 dimensional film and video animation. Past film artist works will be studied in the hopes of gleaning inspiration from the history of animation. Students will create their own films in this class using flat art (drawings, paintings, photographs, or collages) or sculptural objects. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Prerequisite: VART 1265.

VART 3270. FILM, VIDEO, AND DANCE. (4 Credits)
Students will use easily accessible technology to create and record movements and images that extend their expressive range. Seminal works of film, video & choreography that solved problems in original and unexpected ways will be studied. This course is designed for art enthusiasts as well as those with training in film, video and/or dance. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 3500. PHOTOGRAPHY IN THE DOCUMENTARY TRADITION. (4 Credits)
A course using 35mm black and white film. A dark room will be provided. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 3535. SEMINAR: HISTORY OF PHOTOGRAPHY. (4 Credits)
The history of photography from 1839 to the present. The work of leading European and American photographers will be studied in the light of the technical, social and aesthetic issues of their time. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 3541. THE STREETS OF NEW YORK. (4 Credits)
This course will use the streets of metropolitan New York as its classroom and its laboratory. By studying the initial foundations, street layouts, building typologies, historical topology and geography of the region, with its architectural monuments and everyday street-life, we will seek to understand this city’s past - ecological, urban, and architectural - and the implications for our shared future. Analytic comparisons to Rome, Beijing, London, Mumbai, Paris, Sydney, LA, and Chicago, with an emphasis on sustainability: parks, agriculture, solar, resilience. Walking tours. Studio visits. With notice, this course may meet off-campus.

VART 3800. INTERNSHIP. (3 Credits)
Supervised placement for students interested in work experience.
VART 3810. SEMINAR IN GRAPHIC DESIGN. (4 Credits)
This seminar course is open to all students interested in graphic design. Class will include visits to designers' studios, slide lectures, assigned readings and written essays. We will look at the role of the designer in society both in the past and present, and examine the art of graphic design. Social responsibility in the context of a design's ability to educate, inform or propagate and deceive will also be examined. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: VART 2003.

VART 3999. TUTORIAL. (3 Credits)
Independent research and readings with supervision from a faculty member.

VART 4090. SENIOR PROJECT ARCHITECTURE. (4 Credits)
In this advanced studio seminar, students may pursue a specific design project with the consent and guidance of a visual arts faculty member. Portfolio preparation. A program proposal, with a schedule, bibliography, and proposed site, is due at the outset. In this advanced studio seminar, senior students may design a specific project with consent and guidance of a visual arts faculty member. Portfolio preparation. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Prerequisite: VART 3070 or VART 3080.

VART 4100. SEMINAR MODERN ART: CRITICAL PERSPECTIVES. (4 Credits)
A seminar class with readings, discussions, and presentations, emphasizing critical and historical trends in modern and contemporary art. Current museum and gallery exhibitions will be explored. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 4200. ART AND ETHICS. (4 Credits)
Since the eighteenth century the arts have been separated from the social functions-such as religious worship and political display-they had in the past been associated with, and are thought of as ends in themselves. How are we to think about this? What could art for "art's sake" be? What gives art or artworks value? How do artistic goals relate to moral imperatives? This course is intended to explore these questions by looking at a number of ways they have been posed and answered. This course satisfies the senior values seminar requirement of the University core. It does not count as an elective for the Visual Arts major. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: NMDD, SRVL.

VART 4300. REPRESENTATION IN ART. (4 Credits)
Representation in Art: Film/Video. Photography and Painting will deal with the ethics of representation, and consider how art deals with depictions of people. What is an artist's responsibility to his/her subject? This seminar will provide a sense of ethical insight and social morality into this aspect of visual literacy and will encourage students to be critical, active and engaged artists and viewers. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: COLI, SRVL.

VART 4600. SENIOR SEMINAR: STUDIO ART. (4 Credits)
This is a course for senior visual arts students who wish to have a senior project exhibition. The seminar will discuss critical issues relating to the making, presentation, and interpretation of contemporary art. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 4800. INTERNSHIP. (4 Credits)
Supervised placement for students who are interested in work experience. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 4999. TUTORIAL. (1-5 Credits)
Supervised individual projects in photography, painting/drawing, graphic design, architecture or filmmaking/video. May be continued to a maximum of eight credits.

VART 5070. URBAN ARCHITECTURAL DESIGN. (4 Credits)
This is a creative studio course in urban architectural design. Students will synthesize contextual, artistic, environmental and functional requirements in the design of public spaces and buildings using models, sketches, diagrams and computer modeling. A term project-often related to the student's research interest--is prefaced and interspersed with shorter exercises in contextual analysis, skill building, urban theory, and architectural critique. Field trips, workshops, lab fee, and office hours critiques are required. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

VART 5555. FILM AND THE CITY. (3,4 Credits)
After looking at ways in which the city has been framed historically in films, students will pursue research in the city using video as their tool. Using interviews, screen text, voice over and other documentary techniques, students will explore a project of interest to them and make a series of short films that reveal an aspect of the urban milieu.
In class sessions and in one on one meetings with the professor, students will propose and refine their project and gather feedback about communicating in visual language on city issues.
Attribute: URST.

Women, Gender, and Sexuality Studies (WGSS)

WGSS 2999. SERVICE LEARNING-2000 LEVEL. (1 Credit)
WGSS 3000. GENDER AND SEXUALITY STUDIES. (4 Credits)
This course introduces students to theories of gender and sexuality from a range of disciplinary perspectives. It is the new introductory course for the WGSS program. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, ASSC, COLI, LALS, PLUR.
WGSS 3001. QUEER THEORIES. (4 Credits)
An introduction to the academic discipline of queer theory, focusing on foundational thinkers (e.g., Butler, Foucault, Sedgwick, and others as well as their philosophical and psychoanalytic precursors and interlocutors. The course will also address selected issues currently under discussion in the discipline. These may include the role of activism, the relationship between queer theory and feminism theory, attention to race, and intersections with postcolonial theory. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, COLI, PLUR.

WGSS 3002. FEMINIST AND WOMEN'S STUDIES. (4 Credits)
This course provides a historical perspective on feminism and women's experience, including 19th and 20th century American movements for women's rights as well as texts that influenced the development of feminist thought and theory. It is one of three required courses for WGSS program. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AHC, AMST.

WGSS 3007. CONTEMPORARY WOMEN POETS. (4 Credits)
In this course, students will read poetry written by women poets in the 20th and 21st centuries with a focus on the imaginative representation of women's lived experience. We will read the work of poets who address the themes of feminine embodiment and sexuality, women's roles as mothers and daughters, women's work (both professional and domestic), and the role poetry plays in enabling women to discover a language to contain their experience. Among the (possible) poets we will read are Sylvia Plath, Ann Sexton, Elizabeth Bishop, Lucille Clifton, Anna Swir, Adrienne Rich, Marie Ponsot, Eavan Boland, Louise Erdrich, Kate Daniels, Mary Karr and A.E. Stallings. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AHC, AMST.

WGSS 3141. WOMEN IN AFRICA. (4 Credits)
This course examines the formal and informal participation of African women in politics, their interaction with the state and their role in society. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AFAM, ASSC, GLBL.

WGSS 3318. EARLY WOMEN NOVELISTS. (4 Credits)
A study of the rise of female authors in the early modern period. We will address problems of gender and rigorously analyze the basic literary and historical dimensions of each text. Authors will include Behn, Burney, Wollstonecraft, Radcliffe, Austen, Emily and Charlotte Bronté. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.

WGSS 3341. RACE, SEX, AND SCIENCE. (4 Credits)
This course introduces students to interdisciplinary debates about the relationship between race, sex, and gender, on the one hand, and science, technology, and medicine, on the other. We will examine two interrelated questions: How do scientific claims influence cultural understandings of race, gender, and sexuality; and how do cultural beliefs about race, sex, and gender influence scientific research and knowledge production? The course will explore the role that understandings of race, sex, and gender have played in the development of Western science; the relationship among race, sex, gender, and scientific research in genomics and health disparities research (among other fields); and finally, the ways in which race, gender, and social inequalities become embodied and affect human biology. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ASSC, LALS, MVST, SOCI, URST.

WGSS 3415. EUROPEAN WOMEN 1500-1800. (4 Credits)
This course will explore the role of women in northern European society from the 16th to the end of the 18th centuries. It will examine issues of gender, and contemporary attitudes concerning women. Among the subjects that this course will address are women's work, education, marriage and childbirth. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AHC.

WGSS 3416. EUROPEAN WOMEN 1800-PRESENT. (4 Credits)
This course will be an exciting exploration of the changing status, roles, and achievements of women in Western Europe from the French Revolution at the dawn of industrialization to the present day. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AHC, IPE.

WGSS 3503. WORK, FAMILY, AND GENDER. (4 Credits)
This course examines how two key institutions in society – the workplace and the family – interact with one another. Special emphasis is placed on the critical ways that work-family balance and conflict are conditioned by gender. The course will cover the impacts – both negative and positive – of work demands upon individuals’ family lives, as well as the effects of family obligations upon workers and workplaces. Students will be familiarized with voluntary responses to work-family challenges on the part of individuals, families, and employers, as well as relevant public policies in the U.S. and around the world. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, EP3.
WGSS 3537. SATIRE, SEX, STYLE: AGE OF T. NASHE. (4 Credits)
Considered for a long time to be a “minor” Elizabethan writer with “nothing to say,” Thomas Nashe managed to produce a varied and astonishing, if ultimately costly and futile, body of work during the last decade of the sixteenth century, spanning erotica, picaresque fiction, and fierce invective, satire, and polemic. This course will offer a close look at Nashe’s unique rhetorical style in relation to the vivid literary culture of his times, focusing on how Nashe’s work pushes to the extreme various impulses in Elizabethan literature that tend to get overlooked in conventional accounts of the period. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: ALC.
Prerequisites: ENGL 2000 or HPRH 1001 or HPRH 1501 or HPRH 2001 or HPRH 2051.

WGSS 3826. MODERN US WOMEN’S HISTORY. (4 Credits)
The history of American women from the first women’s rights convention in 1848 to the present. We will study women’s everyday lives (including at home and work), major events like the campaign for suffrage, World War II, and the women’s liberation movement, and representations of women in popular culture (magazines, movies, and T.V.). Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: AHC, AMST, PLUR.

WGSS 3901. PHILOSOPHICAL ISSUES FEMINISM I. (4 Credits)
Philosophical exploration of issues raised by historical and contemporary reflection on the relationship between the sexes. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attribute: PJST.

WGSS 3930. SEX AND GENDER IN SOUTH ASIA. (4 Credits)
In this course, we will explore histories of women, gender, and sexuality in South Asia from the 18th century to the present. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AHC, EP3, GLBL.

WGSS 3931. INTRODUCTION TO GAY AND LESBIAN LITERATURE. (4 Credits)
This course will read texts by a diverse range of Anglophone authors, emphasizing the cultural history of same-sex identity and desire, heteronormativity and oppression, and queer civil protest. It will also consider the problems of defining a queer literary canon, introduce the principles of queer theory, and interrogate the discursive boundaries between the political and personal. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, AMST.

WGSS 4005. QUEER THEORY AND THE AMERICAS. (4 Credits)
Drawing from the often divergent traditions of Anglo and Hispanic America, this course will take an interdisciplinary approach to queer methodologies for cultural and literary studies. Students will encounter foundational queer theoretical texts (both historical and contemporary) as well as novels, plays, and films, and will explore, for themselves, what queerness means and does. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, COLI, ENGL, ICC.

WGSS 4105. RELIGION, GENDER, AND SEXUALITY. (4 Credits)
This course considers the intersections of religion, gender, and sexuality. In many parts of the world, including the United States, and in many religious traditions, cultural and religious identity and continuity hinge on gendered practices and closely controlled sexual regimes. The goal of this course is to understand how religious institutions, communities, doctrines, practices and traditions shape gendered ideologies and practices, debates about sexuality and gendered division of labor, and the lives of men and women who participate in these religious communities. The course is organized conceptually; rather than learning about specific religious traditions, we will discuss thematic issues at the intersection of religion, gender, and sexuality. At various junctures we will discuss specific examples that span religious traditions, geographical locations, and historical periods. The course will therefore provide students with a sense of how contemporary and seemingly local debates are rooted in much broader conversations. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: AMST, ICC, PLUR.

WGSS 4127. SEMINAR: NOVELS BY WOMEN: JANE AUSTEN TO TONI MORRISON. (4 Credits)
An intensive study of novels by Jane Austen, George Elliot, Virginia Woolf, Zora Neale Hurston, and Toni Morrison. Our reading will be supplemented by literary criticism and historical contextual material. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: ALC, ENGL.
Prerequisites: ENGL 1102 and ENGL 2000.

WGSS 4344. REPRODUCTIVE TECHNOLOGIES: GLOBAL PERSPECTIVE. (4 Credits)
The interdisciplinary course will focus on issues in technology and reproduction, emphasizing the view that reproduction is not simply a biological process, but one that is laden with symbolic, political, and ideological meanings. Drawing on the fields of anthropology, sociology, history, public health, law, and science, technology and society. We will examine the contested meanings of reproduction, in particular how reproductive technologies are changing lives around the globe. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.
Attributes: GLBL, ICC.
WGSS 4400. GENDER, BODIES, SEXUALITY. (4 Credits)
This course explores how gender and sexuality shape and organize our lives. We will examine how gender is built into structures, institutions, and ideologies of social life as well as the interaction between gender and other axes of inequality, including race, class, and sexual orientation. The course will examine the experiences of men and women in addition to those who do not fit into these gender categories. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: AMST, ICC, PLUR.

WGSS 4800. INTERNSHIP. (4 Credits)
Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

WGSS 4910. INTERNSHIP. (4 Credits)
Placement in an agency or organization that deals with women's issues. Under a faculty member's supervision, the student writes a paper which integrates the internship experience with course work and research. All students meet monthly with the program co-director and one another for group discussions of their work. *This course requires the approval of the Director of Women, Gender, and Sexuality Studies. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

WGSS 4920. SENIOR PROJECT. (4 Credits)
A substantial project on a subject in Women's Studies submitted, with appropriate documentation, by students in theatre and the visual arts and evaluated by two faculty advisers in their field. All students meet monthly with the program co-director and one another for group discussions of their work. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

WGSS 4930. SENIOR THESIS. (4 Credits)
A substantial paper on a topic in Women's Studies written under the direction of a faculty adviser and a second reader. All students meet monthly with the program co-director and one another for group discussions of their work. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

WGSS 4950. CHRISTIANITY AND SEXUAL DIVERSITY. (4 Credits)
Employing perspectives from history, theological ethics, and LGBT studies, this course will investigate what it means to take queer perspectives on Christianity sexuality, and discipleship. Readings will include biblical, historical, and contemporary materials that seek to illuminate the ways in which Christians and Christian communities have responded to sexual and gender diversity. Four-credit courses that meet for 150 minutes per week require three additional hours of class preparation per week on the part of the student in lieu of an additional hour of formal instruction.

Attributes: ICC, REST.
