BIOLOGICAL SCIENCES MAJOR

Requirements

The Department of Biological Sciences offers two undergraduate degrees: the Bachelor of Science (B.S.) and the Bachelor of Arts (B.A.). Beyond the chemistry, physics, and math requirements, majors must complete a minimum of nine courses in biology for a B.S. degree and seven for a B.A. degree. Lecture and lab courses must be taken concurrently.

The program of biology courses is structured in the following way:

### Course Title Credits

### Biology Courses

**Core Courses**

Select one of the following sequences:

- **Sequence 1:**
  - BISC 1403 Introductory Biology I
  - BISC 1413 and Introductory Biology Lab I
  - BISC 1404 Introductory Biology II
  - BISC 1414 and Introductory Biology Lab II

- **Sequence 2:**
  - BISC 1401 Introduction to Biology I (Summer)
  - BISC 1402 Introduction to Biology II (Summer)
  - BISC 2539 General Genetics
  - BISC 2549 and General Genetics Lab
  - BISC 2561 Ecology
  - BISC 2571 and Ecology Lab

**Distribution Courses**

Select a minimum of two of the following:

- BISC 3221 Human Anatomy
- BISC 3231 and Human Anatomy Lab
- BISC 3132 Human Physiology
- BISC 3142 and Human Physiology Lab
- BISC 3405 Plant Biology
- BISC 3415 and Plant Biology Lab
- BISC 3521 Biochemistry
- BISC 3643 Microbiology
- BISC 3653 and Microbiology Lab
- BISC 3752 Molecular Biology
- BISC 3754 Cell Biology

**Chemistry Courses**

- CHEM 1321 General Chemistry I
- CHEM 1331 and General Chemistry Lab I
- CHEM 1322 General Chemistry II
- CHEM 1332 and General Chemistry Lab II
- CHEM 2521 Organic Chemistry I
- CHEM 2541 and Organic Chemistry Lab I
- CHEM 2522 Organic Chemistry II
- CHEM 2542 and Organic Chemistry Lab II

**Physics Courses**

Select one of the following sequences:

- **Sequence 1:**
  - PHYS 1701 Physics I
  - PHYS 1702 and Physics I Lab
  - PHYS 1501 General Physics I
  - PHYS 1511 and Physics I Lab
  - PHYS 1502 General Physics II
  - PHYS 1512 and Physics II Lab

### Calculus Course

Select one of the following:

- MATH 1203 Applied Calculus I
- MATH 1204 Applied Calculus II
- MATH 1206 Calculus I
- MATH 1207 Calculus II

### Elective Courses

Select three elective BISC courses for the B.S. degree and one for the B.A. degree.

1. Either sequence of introductory courses is a prerequisite for all other biology courses in the major.
2. A score of 4 or 5 in AP Calculus AB or BC will fulfill the Mathematics requirement.
3. Elective courses comprise all non-core courses offered (but include additional distribution courses beyond the two needed to meet Distribution Courses requirement above). Courses counted toward the Distribution Course requirement cannot be double-counted toward the Elective course requirement.

It is recommended that first year students take the following:

**Course Title Credits**

- Calculus (one of the following):
  - MATH 1206 Calculus I
  - MATH 1207 Calculus II
  - MATH 1203 Applied Calculus I
  - MATH 1204 Applied Calculus II
  - BISC 1403 Introductory Biology I
  - BISC 1413 and Introductory Biology Lab I
  - CHEM 1321 General Chemistry I
  - CHEM 1331 and General Chemistry Lab I
  - CHEM 1322 General Chemistry II
  - CHEM 1332 and General Chemistry Lab II
  - BISC 1404 Introductory Biology II
  - BISC 1414 and Introductory Biology Lab II
  - CHEM 1322 General Chemistry II
  - CHEM 1332 and General Chemistry Lab II

Note that BISC 1403, BISC 1404, CHEM 1321, and CHEM 1322 (with their respective labs) are prerequisites for all advanced biology courses.

The following requirement is best fulfilled in sophomore year:

**Course Title Credits**

- CHEM 2521 Organic Chemistry I
- CHEM 2541 and Organic Chemistry Lab I
- CHEM 2522 Organic Chemistry II
- CHEM 2542 and Organic Chemistry Lab II

The following requirement is best fulfilled in junior year:

C- is the minimum accepted grade for all courses in the biology major. All majors must meet with their faculty adviser each semester prior to registration to have their course schedules approved.

The following courses are college Core Curriculum Life Science courses and are not applicable to the major:

Biology majors are expected to take all of their required major courses at Fordham. Exceptions may be made on a case-by-case basis for certain rare and compelling reasons. Under no circumstances can more than two external courses be transferred toward the major.

Availability

The major in biological sciences is available at Fordham College at Rose Hill. Students in Fordham College at Lincoln Center and Fordham's School of Professional and Continuing Studies may major in biological sciences only if their schedules are sufficiently flexible to permit them to take day courses at the Rose Hill campus.

**Fordham College at Rose Hill students:** The requirements above are in addition to those of the Core Curriculum.

**Professional and Continuing Studies students:** The requirements above are in addition to those of the PCS Core Curriculum.
