

COMPUTER SCIENCE MAJOR

Requirements

The computer science major may be taken toward either the Bachelor of Arts (B.A.) or the Bachelor of Science (B.S.) degree. The B.A. degree in computer science requires a total of 14 courses, and the B.S. degree in computer science requires a total of 16 courses.

For the Bachelor of Arts degree		
Select two electives ³		
For the Bachelor of Science degree		
CISC 4631	Data Mining	
MATH 1206	Calculus I ^{4,5}	
Select three electives ³		

¹ For students entering prior to Fall 2015 (class of 2020 or earlier), CISC 4700 Network and Client Server is required instead of CISC 2100 Discrete Structures II.

² Students who take CISC 1600 during Fordham's Summer Session do not take CISC 1610, as the summer lecture and lab are offered in a combined format.

³ Elective courses are selected from department courses (which may include some graduate courses) or in cognate areas in consultation with a department adviser. One elective CISC course must be numbered 2000 or above, while the remaining elective must be numbered 3000 or above. The following courses may not count toward this requirement: CISC 4001 Computers and Robots in Film, CISC 4650 Cyberspace: Issues and Ethics, and CISC 4660 Minds, Machines, and Society.

⁴ Required for students entering in Fall 2017 (class of 2022) and later.

⁵ MATH 12AB Transfer Calculus AB and MATH 12BC Transfer Calculus BC (transfer credit from AP Calculus AB or AP Calculus BC) also fulfill this requirement.

3-2 Engineering Program

Computer science majors pursuing the Cooperative Program in Engineering have a slightly different set of requirements to fulfill to complete their major in computer science. All courses are required.

² MATH 12AB Transfer Calculus AB and MATH 12BC Transfer Calculus BC (transfer credit from AP Calculus AB or AP Calculus BC) also fulfill this requirement.

³ Students at the Lincoln Center campus typically fulfill these requirements via courses with Natural Sciences courses (subject code NSCI). Students at the Rose Hill Campus typically fulfill these requirements with Physics (subject code PHYS) and Chemistry (subject code CHEM) courses.

These courses fulfill only Fordham University's requirements to earn the B.S. in computer science for 3-2 students. Additional Columbia requirements need to be fulfilled for acceptance into one of Columbia's engineering tracks. Consult the 3-2 program director for additional guidance.
