ENGINEERING PHYSICS MAJOR

Requirements

Students majoring in engineering physics are required to take the following courses:

First Year		Credits
PHYS 1601	Introduction to Physics I	4
PHYS 1602	Introduction to Physics II	4
MATH 1206	Calculus I	4
MATH 1207	Calculus II	4
	Credits	16
Second Year		
PHYS 2005	Introduction to Modern Physics	4
MATH 2004	Multivariable Calculus I	4
MATH 2005	Multivariable Calculus II	4
PHYS 2201	Classical Mechanics I	4
A two-semester i	ntroductory sequence in either biology or	10 to 12
chemistry		
	Credits	26-28
Third Year	Credits	26-28
Third Year PHYS 3001	Credits Electricity and Magnetism I	26-28 4
PHYS 3001	Electricity and Magnetism I Experimental Techniques in Engineering	4
PHYS 3001 PHYS 3013	Electricity and Magnetism I Experimental Techniques in Engineering and Physics	4
PHYS 3001 PHYS 3013 PHYS 3101 PHYS 3401	Electricity and Magnetism I Experimental Techniques in Engineering and Physics Math Methods in Physics I	4 3
PHYS 3001 PHYS 3013 PHYS 3101 PHYS 3401	Electricity and Magnetism I Experimental Techniques in Engineering and Physics Math Methods in Physics I Thermo and Stat Physics	4 3
PHYS 3001 PHYS 3013 PHYS 3101 PHYS 3401	Electricity and Magnetism I Experimental Techniques in Engineering and Physics Math Methods in Physics I Thermo and Stat Physics neering electives	4 3 4 4 8
PHYS 3001 PHYS 3013 PHYS 3101 PHYS 3401 Two related engi	Electricity and Magnetism I Experimental Techniques in Engineering and Physics Math Methods in Physics I Thermo and Stat Physics neering electives	4 3 4 4 8
PHYS 3001 PHYS 3013 PHYS 3101 PHYS 3401 Two related engi	Electricity and Magnetism I Experimental Techniques in Engineering and Physics Math Methods in Physics I Thermo and Stat Physics neering electives Credits	4 3 4 4 8 23

The minimum acceptable grade in all courses required for a degree in physics or engineering physics is a C-. All majors must meet with their faculty adviser each semester prior to registration to have their course schedules approved.

Physics and engineering physics majors are expected to take all required major courses at Fordham. Exceptions may be made on a case-by-case basis for certain rare and compelling reasons. Under no circumstances can more than two external courses be transferred toward the major.

3-2 Cooperative Program in Engineering

Students enrolled in the 3-2 Cooperative Program in Engineering complete the requirements for the physics degree through the junior year. They then transfer to an engineering program and complete an additional two years. They earn a double bachelor's degree in physics and engineering.

Availability

The major in engineering physics is available at Fordham College at Rose Hill. Students in Fordham's School of Professional and Continuing

Studies may major in engineering physics only if they receive the approval of their advising dean and/or department, and their schedules are sufficiently flexible to permit them to take day courses at the Rose Hill campus.

Fordham College at Rose Hill students: The requirements above are in addition to those of the Core Curriculum.

Professional and Continuing Studies students: The requirements above are in addition to those of the PCS Core Curriculum and any additional electives that may be required to earn a minimum of 124 credits.

CIP Code

14.1201 - Engineering Physics/Applied Physics.

You can use the CIP code to learn more about career paths associated with this field of study and, for international students, possible post-graduation visa extensions. Learn more about CIP codes and other information resources.
