

PHYSICS AND ENGINEERING PHYSICS

Contribution to the Core

Physics offers PHYS 1201 Introduction to Astronomy, PHYS 1203 Environmental Physics, PHYS 1206 Physics of Everyday Life, PHYS 1207 Physics of Light and Color, and PHYS 1242 Science Fiction Physics, which count as the core physical science course for non-majors.

PHYS 4192 Rediscovering the New World satisfies the Interdisciplinary Capstone Course core requirement but may not be applied to a major elective.
