**Majors**

Fordham School of Professional and Continuing Studies offers the bachelor of arts degree and the bachelor of science degree, each of which requires the successful completion of 124 credits. The curriculum for the undergraduate degree program is organized into three parts: the Core Curriculum, the major, and elective courses.

**The Major**

Students are expected to choose a major field of study by the time they have accumulated 60 credits (including any transfer credits) toward the bachelor's degree. The courses required for the completion of each major are indicated in the description of each major and are linked below.

Many major fields of study are currently available to students of Fordham School of Professional and Continuing Studies and can be completed entirely through evening, weekend, or online classes at Rose Hill, Lincoln Center, or Westchester.

**Alumni Opportunities**

All graduates of Fordham School of Professional and Continuing Studies (PCS) are members of the alumni association by virtue of their graduation. A board of interested and active alumni represents the PCS alumni constituency. The board partners with the Office of Alumni Relations to provide opportunities that support and advance PCS through innovative programs and events. The goal of all alumni activities is to foster lifelong relationships between alumni and Fordham and to create ways for alumni to share their talents and interests with the University.

The Office of Alumni Relations also sponsors numerous opportunities for PCS alumni to interact with alumni from all of the schools within the University. The young alumni program focuses on the specific needs of alumni who have graduated within the last 10 years. The regional club program maintains Fordham's national alumni network. The cultural program capitalizes on the unique benefits of New York City for metro area alumni. Rampass, the alumni I.D. card, affords alumni special discounts and allows alumni to easily return to all campuses.

Minors

The Minor

Selection of a minor is optional. It constitutes completion of at least six courses in a field of study other than the major and is intended to provide some structure and guidance for a student’s pursuit of knowledge in a second area of interest. The minor, as well as the major, is indicated on the student’s transcript at graduation. With thoughtful selection of their elective courses, most students can complete a minor without exceeding the 124 credits required for the bachelor’s degree.

Minors can be completed in almost every field in which the college offers a major; requirements are listed in each academic department’s section of this bulletin.
