FORDHAM SCHOOL OF PROFESSIONAL AND CONTINUING STUDIES

Minors The Minor

Selection of a minor is optional. It constitutes completion of at least six courses in a field of study other than the major and is intended to provide some structure and guidance for a student's pursuit of knowledge in a second area of interest. The minor, as well as the major, is indicated on the student's transcript at graduation. With thoughtful selection of their elective courses, most students can complete a minor without exceeding the 124 credits required for the bachelor's degree.

Minors can be completed in almost every field in which the college offers a major; requirements are listed in each academic department's section of this bulletin.

For information on the minors in business, see the page on Business minors in the Gabelli School of Business.
