

PSYCHOLOGY

The Department of Psychology offers the Bachelor of Science degree for its majors. The department has five primary goals:

1. Gain knowledge in key concepts, principles, and themes in psychology
2. Engage in scientific inquiry and critical thinking using integrative thinking and problem solving
3. Promote ethical and social responsibility that enhances the greater community
4. Demonstrate effective oral and written communication skills
5. Develop meaningful professional direction for life after graduation

In the Jesuit educational tradition of academic excellence and care of the whole person, students are challenged to develop a capacity for critical thinking, a willingness to submit their efforts to clear and high standards, and an understanding of the ethical dimensions of personal and professional life. A rigorous program of study that provides knowledge of the field of psychology with breadth and depth is complemented by opportunities to engage in psychology in action through research projects, field experiences, and collaborations with professionals in the field. Full-time faculty are highly accessible to students, are committed to teaching and mentoring undergraduates, and engage in one-to-one relationships with psychology majors. Students learn about the multiple applications of psychological science to the service of others, and especially those whose human dignity is most threatened in our society. Students are encouraged to integrate their knowledge of psychology with their own developing values and beliefs. Sensitivity to and consideration of cultural, religious, and gender differences are fostered in the study of psychology.

Program Activities

Honors in Psychology

Psychology majors with a minimum cumulative GPA of 3.7 may graduate with honors in psychology by participating in the Psychology Undergraduate Honors Program. Interested students should contact the associate chair for information about the requirements for the program, which involves writing a senior thesis that is mentored by a department faculty member. Students are notified of invitation in the spring of their junior year. See the psychology department web page for additional information.

Advising

In addition to advising in the advising center, psychology majors are encouraged to engage with our full-time faculty to discuss their interests in psychology, graduate school options, career planning, and professional development. First- and second-year students should reach out to the associate chair at their home campus. Juniors and seniors will be paired with a specific faculty connection who is meant to serve as an important resource and point of contact as they progress through the major.

Research Opportunities and Clubs

To encourage undergraduate research, the psychology program offers opportunities for research involvement and club activities, including psychology club, and chapter of Psi Chi. Founded on September 4, 1929, at Yale University, Psi Chi is the international honor society in

psychology. Its purpose is "to encourage, stimulate, and maintain excellence in scholarship and to advance the science of psychology." Psi Chi is the world's largest honor society, with 500,000 life members and chapters at 940 U.S. colleges. Membership is for life, with no annual dues. Fordham's two chapters of Psi Chi at Lincoln Center and Rose Hill accept undergraduate or graduate students who have completed at least 12 credits of psychology and maintained a cumulative GPA of at least 3.32. Induction ceremonies are held in April and December of each year. Several courses involve community-engagement opportunities.

Contribution to the Core

1. The following psychology department Complex-Process Courses satisfy the Social Science core requirement. There are no prerequisites for these courses:

Course	Title	Credits
PSYC 1004	The Mind-Body Connection: Introduction to Behavioral Health	3
PSYC 2600	Social Psychology	4
PSYC 2700	Infant and Child Development	4
PSYC 2710	Adolescent and Adult Development	4
PSYC 2800	Personality	4
PSYC 2900	Psychopathology	4

2. PSYC 1100 Biopsychology satisfies the natural sciences core requirement for majors and non-majors.
3. Designated sections of the following are Eloquentia Perfecta III Seminars:

Course	Title	Credits
PSYC 2010	Research Methods Lab	5
PSYC 2401	Memory Laboratory	5
PSYC 2501	Cognition Laboratory	5
PSYC 3010	Bilingual Minds	4
PSYC 3100	Health Psychology	4
PSYC 3330	Family Psychology	4
PSYC 3730	Men and Masculinities	4
PSYC 3810	Trauma and Family Violence	4
PSYC 3950	Behavior Modification	4
PSYC 4245	Ethics in Research	4

4. PSYC 3600 Multicultural Psychology and PSYC 3730 Men and Masculinities meet the American Pluralism requirement.
5. PSYC 4910 Global Mental Health & Psychosocial Humanitarian Aid meets the Global Studies requirement.
6. The following meet the Interdisciplinary Capstone Core requirement:

Course	Title	Credits
PSYC 4000	History and Systems of Psychology	4
PSYC 4245	Ethics in Research	4
PSYC 4310	Aging and Society	4
PSYC 4330	Music and Psychology	4
PSYC 4370	Disgust in Literature and Psychology	4

7. The following courses meet the Advanced Social Science requirement:

Course	Title	Credits
PSYC 3100	Health Psychology	4
PSYC 3110	Cognitive Neuroscience	4
PSYC 3300	Industrial Organizational Psychology	4
PSYC 3320	Consumer Behavior	4
PSYC 3330	Family Psychology	4
PSYC 3600	Multicultural Psychology	4
PSYC 3640	Cross-Cultural-Psychology	4
PSYC 3700	Human Sexuality	4
PSYC 3730	Men and Masculinities	4
PSYC 3820	Forensic Psychology	4
PSYC 3850	Psychology of Well-Being	4
PSYC 3930	Introduction to Clinical Psychology	4

8. The following Values Seminars and Eloquentia Perfecta IV seminars are offered by the department:

Course	Title	Credits
PSYC 4340	Law and Psychology	4
PSYC 4900	Psychology and Human Values	4
PSYC 4920	Youth, Values, and Society	4
PSYC 4930	Codes for Mental Health Services	4
