

SUPPORTING STUDENT SUCCESS

Academic Support

At its core, Fordham University is committed to the holistic development of students' academic and personal success. We offer proactive academic support for our students through student-centered activities and programs, intentional goal-setting, and opportunities for personal and professional discernment. Our student support and success team can assist you in these areas, as well as connect you with other available resources at the University. Students can contact their advisor or class dean to be referred to develop an individualized success plan.

College Writing Center

A service free to all Fordham students, the Writing Center encourages students and helps improve their writing across all levels and disciplines. Our aim is to provide personalized instruction that will enhance students' prose and help them become more confident writers. To ensure that students reach these goals, we offer up to 90 minutes of one-on-one instruction per week, during which we will assist in all stages of writing, from brainstorming to drafting to revising. Additionally, our tutors—a select group of masters and doctoral students—offer collaborative consultations and provide free workshops on academic writing.

Students can register and make appointments using the Writing Center's website. If students cannot attend their session, they should log on to the online sign-up site and cancel their appointment. If students are not present at the start of their appointment time, the session will be made available to other students. Walk-ins are also welcome whenever space is available.

Students should bring a hard copy of their assignment and be prepared to work with their tutor.

For more information about hours and locations on each campus, visit the Writing Center's website.

College and Departmental Tutoring Services

Gabelli School of Business: Father Boyle Society and Beta Alpha Psi members provide peer-to-peer tutoring for students seeking assistance in a business course. Interested students should visit Gabelli Access, stop by the Gabelli Study Center (Hughes Hall 4th floor), or email Brian Dunn at bdunn@fordham.edu to reserve a tutor.

Fordham College at Rose Hill and Fordham College Lincoln Center offer tutoring services for most academic departments, free of charge through Knack Tutoring. Please visit the FCRH tutoring website for details. For any subject area not listed below, please consult with the associate chair for undergraduates of the department.

Classical Languages (Greek and Latin): Graduate students in the department provide tutoring for undergraduates in Greek and Latin. Students can consult either their professor or the chair of the Department of Classics for further details.

Economics: The Economics Tutoring Center is available to assist students in preparing for classes, examinations, and homework, and in mastering the fundamentals of economics. At Rose Hill, the Economics

Tutoring Center is located in Dealy Hall E-535. At Lincoln Center, we use several locations for the Economics Tutoring Center. Please see Kerri Maguire in Lowenstein 924 to direct you to the tutoring center location (212-636-6381). Visit the tutoring center's website for more information.

English: Each of Fordham's three campuses has a writing center. At Rose Hill, the writing center is located in the Walsh Library Reference Area, room 121. At Lincoln Center, it is located in the Quinn Library at 140 W. 62nd Street, room 233. The Westchester Campus Writing Center is for Professional and Continuing Studies students and is located in room 202. Students can register and schedule appointments online.

Languages and Cultures: Free tutoring, practice, and conversation are available in all languages taught by the department. Skilled junior and senior language majors and students who are native speakers serve as tutors. No appointment is needed, but students should check individual tutors' hours before visiting.

The language learning centers in Keating B25 (RH) and LL 412 (LC) also provide instructional technology for language students, as well as access to international television stations and films.

Office of Information Technology

Web: <https://www.fordham.edu/IT>

Fordham University's Office of Information Technology provides resources and services in support of students' academic goals. Please visit the Student Technology Services webpage for detailed information about our help and support services, free software, remote learning and on-campus resources, and other essential links including portal and ID card set up information.

Fordham University Portal

Web: fordham.edu

Fordham.edu is the gateway to Fordham's online resources including core application access such as Gmail, Blackboard, and Zoom, and student services like registration, financial aid, bill payment, schedules, and academic course information.

To gain access to the portal, you will need to claim your username, create a password, and set up multi-factor authentication using the Duo Mobile application. To do this, go to fordham.edu. In the login box, click the 'New user: Claim account' link and follow the instructions provided. If you encounter any issues, please call the IT Service Desk at 718-817-3999 for assistance in walking you through the process.

IT Service Desk

Web: fordham.edu/helpIT

The IT Service Desk serves as a central point of contact for all technology-related questions and concerns. With a focus on prompt and effective solutions, this team offers expertise in troubleshooting, technical guidance, and problem resolution. They provide comprehensive support and assistance for a wide range of technology resources and services, contributing to a seamless and efficient technology experience for all members of the university community. Visit the webpage above for hours and locations or call 718-817-3999.

Computer Labs & LITE

Web: fordham.edu/computerlabs

Computers for public use are available on each of our campuses in teaching labs and in the on-campus libraries. Here students can utilize both Mac and Windows computers and access printing resources. Our Learning and Innovation Technology Environment (LITE) offers access to a more unique range of hardware and software for use by the community such as 3D printing and pod casting rooms. Check out the complete list of offerings at the link above. Computer lab assistants are always available to help with the equipment and answer any questions.
