

# ARMY ROTC/MILITARY SCIENCE

---

## Academic Credit

Army ROTC students may be granted credit for military science courses that fulfill certain degree requirements:

- MLSC 2101 Basic Leadership Development Phase 1 and MLSC 2201 Basic Leadership Development Phase 2 each receive three credits. These courses are typically taken during the second year of the ROTC Basic Course.
  - MLSC 2201 Basic Leadership Development Phase 2 may be substituted for the Gabelli School of Business' junior core management course (LPBU 3223 Principles of Management) when taken in combination with MLSC 3201 Advanced Leadership and Management Phase 2.
- In the junior year, MLSC 3201 Advanced Leadership and Management Phase 2 is a three-credit elective.
- In the senior year, MLSC 4201 Command and Staff Training and Management Phase 2 counts as a four-credit, non-business elective.

One additional credit may be added to each of these courses if done in conjunction with an approved Community Engaged Learning Credit Project such as the St. James Community Center After-School Tutoring Program or Boy Scout Troop Support.

Other military science courses are not applied to degree requirements. If a military science course is taken for credit, it may count as one of the courses in the student's normal course load.

All ROTC courses are provided without charge to the student.
