

CONCENTRATION IN BUSINESS OF HEALTHCARE

Overview

The healthcare sector is one of the fastest-growing areas of the global economy. By integrating healthcare into their coursework, business students will be positioned for jobs in corporate human resources departments, hospitals, clinics, government planning and regulatory agencies, health maintenance organizations, hospital associations, consulting firms, computer vendors, health-insurance companies, and hospital equipment and supplies manufacturers. Graduates who choose to emphasize the healthcare aspect of their management concentration could go on for graduate work in health care, social work, or the arts and sciences.
